## Great Flour Mills Burn in Montreal

## 17 FIRE BRIGADES BATTLE FLAMES TO HALT SPREAD

Chief Gauthier Orders People in Vicinity to Desert Homes.

LOSS OVER $500,000.

Four Firemen Seriously Injured When Trapped By Falling Wall.

MONTREAL, Que. Apr. 24. — (CP) — Fire that started about four o'clock this morning, swept through the huge plant of the Western Canada Flour Mills Company in the north end, causing damage estimated at $500,000 and sending six firemen to hospital, four of them seriously injured. At ten o'clock this morning the danger of the flames spreading to nearby buildings had passed but Fire Chief Gauthier declared it had been the most dangerous conflagration in five years.

The three storey structure covers an entire city block and will be a total loss. Tons of flour stored on the second and third storeys, crashed through the weakened floors and created dense clouds of smoke throughout the blaze, making gas masks necessary equipment for the fire fighters.

**200 Firemen On Job**

Starting in an elevator shaft the flames spread so quickly that three alarms were sounded in quick succession bringing 200 men from seventeen fire station. The victims were mainly those caught in falling walls and collapsing floors. Firemen Cadeau and Ouellette were overcome by smoke and also suffered Glass cuts. Ouellette was taken unconscious to a nearby hospital.

It was expected that the blaze would not be entirely extinguished until late this afternoon, although completely under control. Three walls had fallen in at ten o'clock and the front wall was tottering. Two years ago the plant was practically destroyed by fire but was immediately rebuilt.

## EDMONTON RIOT JOBLESS VICTORY

Mob of 1,000 Paraders Beat Up Policeman and Take His Prisoner.

NO ARRESTS MADE.

EDMONTON, Alta., April 24 (CP) —Police and unemployed yesterday clashed in their first battle since the jobless parades started. Constable James McMurray was kicked in the ribs, smashed with a dozen fists, his prisoner taken from him, and boosted from man to man for half a block before the miniature riot ended.

The battle occurred in the downtown area when jobless numbering 1,000 were returning to the market square after parading to the Government Buildings, and when an automobile driver tried to "crash" the line.

While Constable McMurray, stacking up against 200 men, figuratively took the count, his own fists were flying in an endeavor to hold a prisoner which he had taken into custody for inciting a riot.

## *Berlinger Leading East College Rivals*

PRANKLIN FIELD, Philadelphia, Penn., April 24.—(C.P.)—Seeking his third consecutive victory, Barney Berlinger, Pennsylvania's all-around ace, held the lead over six eastern rivals to-day after five events of the inter-Collegiate contest., opening day feature of the Penn relay carnival.

Travelling at close to a world's record clip, Berlinger piled up a total of 4092.7125 points for the first half of the ten-event battle.

Berlinger won the broad jump with a leap of 22 feet, 9¼ inches, the high jump at six feet and set a new carnival record of 46 feet 9 5-8 inches in the shot put.

Fred Klauer, an added starter from Boston and Colgate University, furnished unexpectedly keen opposition for Berlinger. Klauer won the 100 and 400 meter runs, equally the carnival record in the 100, and occupied second place with a total of 38 3.695 for the first five events.

## Girl Has Her Hand Seriously Injured

Working on one of the machines at the Auburn plant yesterday, Hilda Johnston, 851 George Street, had her right hand so badly injured that amputation was necessary at Nicholls Hospital.

In some manner the young woman's hand was caught in one of the revolving discs of the machine, and was almost severed. She was removed to the hospital, where Dr. J. H. Eastwood att'ended her. She had but recently returned to work at the Auburn.

## HOW'S BUSINESS IT IS AS GOOD AS PEOPLE MAKE IT

Most Optimistic Address is Heard by the Kiwanis Club at Luncheon.

STIMULATING MESSAGE.

Too Many People Are Looking Through Dark Glasses Declares Speaker.

"How's Business" was the subject of an optimistic address given to the Kiwanis Club, at their noon luncheon at the Empress Hotel today, by Bert McLean, charter member of Lindsay Kiwanis Club, Undoubtedly it was the snappiest, peppiest and most stimulating message which the local clubmen have listened to in many weeks.

John I. Allen, president was in the chair, while J. A. McKone was called upon to introduce the speaker.

"Business is as good as we make it", contended Mr. McLean. "Cheer up, mighty few things are as bad as they look. Maybe all we need is a new pair of glasses. As we look into the year 1931 what do we see? How is our vision—what is our mental attitude as we contemplate the months ahead and the opportunities offered".

"During 1930 and in the first few months of this year", he said, "too many of us have been looking through dark glasses. We need a new vision—a new mental attitude. Such a new outlook will stir up new ambitions—will encourage us to bigger things, fix a bigger goal — and will inspire new ideas and new ways of meeting that goal".

He went on to speak of the speed at which the world is travelling today, and was of the opinion that contentment never accomplished any-

## INDIA ADVANCES TO NEW FOOTING IN BRITISH CIRCLE

Sir William Clarke, British High Commissioner, Addresses Toronto Rotarians.

NATIONAL SPIRIT GROWN

C-operation Gradually Taking Place of Abstention and Opposition.

TORONTO, Ont., April 24 (By The Canadian Press)—"The old order is changing, yielding place to the new," commented Sir William Clark, British High Commissioner, in the course of an address on "The Current Situation in India," at the Rotary Club luncheon here to-day. "But let us never forget," he continued, "that the new order to which India is advancing is the same as that which, among the white peoples of the Empire, has wrought for a stronger loyalty and a surer unity under the Crown."

The national spirit has grown in India, in the last fifty years, with the increasing contact of Indians with England, remarked Sir William, and, in spite of the many causes for division—the immensity of its population, the diversity of its languages, the caste system—the consciousness of national unity has grown steadily and become "a vital inspiration among the politically minded, and is spreading in a way which would have been inconceivable twenty years ago, among the less educated classes."

**Present National Demand**

India, described in the Simon Commissions report as "a land of minorities," now presented a genuine and substantial national demand for political rights which, meeting with these genuine and substantial difficulties, had resulted in a sincere difference of opinion as to the proper rate of advance. The eagerness of Indians to be on a more equal footing with their fellow-citizens in the Dominions came to a crucial turning point at the Round Table Conference last year in London, recalled Sir William. Summing up the result of this epoch-meeting, he pointed out that the greatest outcome had been the realization that an All-India Federation was likely to prove the only satisfactory solution to India's problem.

"Thus, at the very beginning of th Conference," said Sir William, "a new note was struck, a new and momentous proposal was brought forward—momentous because, as the British Prime Minister pointed out at the close of the Conference, many people, before it was made, were doubtful whether British India alone could bear central authority, and so the whole structure of the Indian

## Hamilton Chinese Interpreter on Trial For Attempt to Bribe Mounted Police

HAMILTON, Ont., April 24 (C.P.). — Jim Lee, Chinese interpreter, went on trial before Chief Justice Rose to-day on three charges of attempt to bribe members of the Royal Canadian Mounted Police.

The Crown alleges that Lee attempted to interfere with the course of justice by offering bribes to "Mountjoy" on three occasions to induce them not to press charges against Lee Wong on whose premises they had discovered a tin containing opium. The accused is defended by C. W. Bell, K.C., ex-Magistrate Jelfs was in Court as adviser to Lee, and John Lewis, K.C., Wong's counsel, was also present.

Detective-Sergeant Zaneth was the first witness called. He told of a raid in which the opium was found and Wong accused. The latter had called Lee by 'phone, who came over to the laundry and informed the officer that "Wong was a good fellow," adding that he was not a big man in the dope business, and that he (Lee) could tell the detectives the names of some of the larger operators.

Zaneth stated that the following day, Lee offered him five ten-dollar bills.

## DAYLIGHT SAVING STARTS SUNDAY IN MANY CITIES

List Beginning April 26 Includes Ottawa, Kingston, Oshawa, Welland, Toronto.

PETERBORO DATE NOT SET.

TORONTO, Ont., April 24 (C.P.). —Double clock time, the summer bane of all those who have to do with inter communication between the cities, makes its perennial entry on Sunday, April 26. Daylight Saving will then go into effect in various towns and cities of Canada and the United States, in many cases leaving neighboring places an hour behind with old man Standard Time. It will again be possible for the perambulating citizen to trip over to the next town and arrive before he starts—by the clock.

**5 Cities Start on Sunday.**

Ontario cities going on daylight saving time th's coming week-end include Ottawa, Kingston, Oshawa, Welland, and Toronto.

Of necessity various municipalities adjoining these centres will also officially be daylight savers from that date. The greater part of Ontario will, however, continue for the present to keep step with the sun. Some cities have elected to put their clocks ahead at later dates. These are: St. Catharines May 16, Guelph May 17, Hamilton June 13, Niagara Falls June 15, Brantford June 21 and Galt June 29. Some other cities in Ontario are still discussing daylight saving proposals for this year. As in the beginning of daylight saving it is a matter of "staggered dates," so is the ending. Termination for the season is set variously from August 31 to September 277.

**Peterborough Undecided.**

The date when Peterborough clocks will be stepped up is undecided. Action, however, is expected to be taken on the matter at the next Council meeting.

In the Province of Quebec, the cities of Montreal Quebec City, Sherbrooke, and Three Rivers also commence daylight saving time on Sunday. Halifax, N.S., and St. John, N.B., put their clocks ahead the same day.

## TWO ARE KILLED AS SEDAN UPSETS

Machine Forced On To Soft Shoulder of Road Rolls Over Nine Times.

COUPLE BADLY HURT.

CANANDAIGUA, N.Y., April 24. (CP)—A man and his wife were killed and another couple seriously injured early to-day when their large sedan overturned several times on a highway near here. The dead were Mr. and Mrs. Harry Brown, both about 40, and the injured Mr. and Mrs. Frederick Sumner, 39, and 37. All were from Athens Pa.

Brown, who was driving, died on the way to the hospital. His wife instantly killed.

Sumner and his wife were taken to a hospital. He had possible internal injuries and his wife severe cuts and bruises and a fractured leg. Both were suffering from severe shock.

According to Under Sheriff Ernest Kerski, who investigated the accident, the large sedan was forced onto the soft shoulder of a new concrete highway by a passing truck and overturned nine times.

## Right Man Wanted By Liberal Party

ASHTON-UNDER-LYNE, April 24 (C.P. Cable). — The Liberals have no condidate in the by-election here but they have issued a manifesto to Libe als of the riding, stating that the Labor, Conservative, and New Party candidates have each been asked their attitude on the seven points of Liberal policy as recently enunciated by Right Hon. David Lloyd George. The replies of the candidates will be posted so that Liberals may decide individually which candidate they might support.

## GIRL KILLS LOVER ON LONELY ROAD

Arrested She Admits Shooting Man to Save Her Own Life.

OUTCOME OF QUARREL.

FLINT, Mich., April 2.—Accused of shooting her sweetheart to death as they struggled in her automobile on a lonely road near here last evening, Miss Helen Joyce Morgan, 27, daughter of a wealthy Flint apartment house owner was in jail to-day as police sought the real motive for the slaying.

Miss Morgan was said by the police to have admitted she killed Less Casteel, 38, an automobile mechanic, but asserted she did so to save her own life after the man had drawn a gun, accused her of being a "police stool pigeon" and threatened her.

Casteel was arrested recently on a charge of arson. Yesterday Miss Morgan told Prosecutor Ralph F. Freeman that Casteel had told her he intended to burn his (Casteel's) home.

## 15 LARGE 'LUNGE SEIZED IN CITY

Information is Sworn Out Charging Coleman Guthrie With Illegal Possession.

CAR ALSO SEIZED.

An information charging Coleman Guthrie, of East City, with illegal possession of fish under the Fish and Game Act, was sworn out before Police Magistrate Langley at 3 p.m. to-day by J. W. Gravestock, president of the local Fish and Game Association.

"It is one of the most important seizures ever made locally," Mr. Gravestock told The Examiner in relating the manner in which he had trailed Guthrie for nearly a week, finally catching him this morning.

Mr. Gravestock said that a search of Guthrie's car produced three maskinonge, all dressed ready for the table. The investigation was carried to Guthrie's home, where 12 more lunge were found, also dressed. The total weight of the fish was 59 pounds.

Guthrie's car was seized and also a rifle found in his home.

The case will likely be heard before Magistrate Langley on Monday.

Mr. Gravestock told The Examiner that illegal fishing in local waters has reached tremendous proportions in the past two weeks. "The fun is early this year, due to the warm weather, and the fish seem to be coming up together," he said, "which makes it easy for the poacher. It is my firm opinion that the amount of fish brought into Peterborough lately would amaze most citizens."

## DUTY INCREASES ARE ANNOUNCED FOR VEGETABLES

Order-in-council as Announced Virtually Places Embargo on Imports.

VALUATION FIXED.

Seven Varieties of Vegetables Are Affected by the Announcement.

The increased tariff on potatoes and lettuce announced from Ottawa to-day will likely have an immediate local effect, several dealers informed The Examiner to-day. On these commodities the new duties applied by the Dominion government are virtually an embargo. Increases in vegetable tariffs enacted by an order-in-Council also affect asparagus, green onions shallots, onion sets, rhubarb and spinach.

Head lettuce, imported from Arizona, has been selling in the Peterborough stores at 20 and 25c a head, as compared with 10 and 15c a head last year. New leaf lettuce grown in local hot houses has been quoted this week at the usual price of five cents a bunch, and presumably this price will not be altered. A condition behind the tariff boosts has been the definite statement that the tariff is intended to protect the Canadian vegetable growers without any gouging of consumers. New onions and radish are also retailed at five cents the bunch.

Asparagus grown in Washington was selling in the stores to-day at 25c, spinach at two pounds for 25c. One dealer told The Examiner that seed potatoes grown from registered Maritime seed had sold this Spring at 75c for Cobblers and $1.00 for Six Weeks, less than half the price of a year ago. The price had recently improved to $1.25. Registered seed from Prince Edward Island was also quoted at lower prices this season.

**On Gross Weight**

The duty on potatoes is three-quarters of a cent per pound, the Ottawa despatch announced. A barrel of potatoes weighs 180 pounds, but contains only 160 pounds of potatoes. Under the order-in-council, the duty is to be paid on the gross weight of the barrel. Potatoes to-day are selling in the United States at $5.50 a barrle, and on this about $1.35 duty would have to be paid, making the cost $6.85.

Under the new tariff now in effect, a barrel of potatoes will cost $10.80 plus the duty of $1.35. This is arrived at by fixing the valuation at six cents per pound, which would bring the cost of a 180-pound barrel to $10.80. To this must be added the duty of $1.35. While a barrel of U.S. potatoes still costs $5.50 the new duty brings the value up to $10.80.

A case of lettuce weighs about 80 pounds and now costs $1.50 plus $1.20 duty. The cost of an 80-pound case under the new tariff will be $4.00. Lettuce for duty purposes is now valued at five cents per pound, making the 80-pound case cost $4.00. This is made up as follows: Cost of lettuce in the United States, $1.50; old duty, $1.20, plus new duty, $1.30.

The value of asparagus is fixed at 15 cents per pound; green onions and shallots, 5 cents per pound;

## Ontario Farmers To Get Assistance States Minister

Better Marketing Methods Are Needed in Ontario, Hon. T. L. Kennedy Tells Chamber of Commerce at Its Annual Banquet.

FARMER'S WORK IS NOW TECHNICAL SAYS MINISTER— NEW OFFICERS OF CHAMBER OF COMMERCE INSTALLED

Government Intends Launcnihg Campaign to Tell Ontario People That Tomato Juice Has Same Valuable Vitamins For Health as Orange Juice.

That Ontario farmers must develop better marketing methods so that the drop in produce prices may be counter-balanced by increased sales won on wider markets is the chief solution of the present critical agricultural situation as outlined here last night by Colonel the Honorable Thomas L. Kennedy, Minister of Agriculture.

'In teaching production it appears that we have forgotten marketing methods," Colonel Kennedy declared. The Government must come to the assistance of the farmers in solving their marketing problems he said, because individually they can do nothing. He gave examples of the manner in which great results had been secured by advanced marketing methods, a notable one being the re-winning of the British market for Ontario apples this year by central and cold storage packing.

**Tomato Campaign**

As another forward step in marketing methods, he announced that a campaign will be launched shortly by the Government to tell Ontario people that tomato juice has the same valuable vitamins for health as the widely-advertised orange juice. "We intend to spend some money in telling the world of the health to be gained by drinking tomato juice" he stated.

**Colonel Kennedy advised the farmers that their work was technical now saying that "anyone who doesn't realise that fact is doomed to failure." Further, he pointed out that it is the housewife buying in the shops who really fixes the farmers' price for his produce.**

The Minister of Agriculture outlined his cure for some of the farmer's main ills in an address in the Empress Hotel at the 42nd annual general meeting of the Peterborough Chamber of Commerce.

**Makes Deep Impression**

Seldom has a speaker made such a deep-impression upon a local audience as did Colonel Kennedy. His sincerity, evident knowledge of the facts down to the finest detail which he was discussing, and forceful manner earned him the keenest attention from an audience composed chiefly of business and professional men, although a fair sprinkling of farmers was present. J. J. Duffus, president of the Peterborough Plowmen's Association, in moving the customary vote of thanks, declared that Colonel Kennedy's address "contained the most common sense and was the most logical address heard here in many years."

F. D. Kerr, K.C., retiring vice-president of the Chamber presided as chairman during the early part of the meeting, being succeeded by John R. Marshall, who was installed as the new president. James Dutton, president of he Chamber for the past three years was unavoidably absent.

Mr. Dutton's work on behalf of the Chamber was praised by Mayor Denne, J. J. Turner and other speakers. It was stated that due to his untiring efforts, coupled with the work of Frank G. Stinson, secretary which had so furthered the progress of the Chamber.

The new officers were installed by Mayor Denne. They are: President, J. R. Marshall; vice-president, C. S. Cummer; treasurer, J. A. McKone; directors, H. M. Campbell, C. D. Cook C. F. Cumming, Jas. Dutton, J. W. Fraser, Jas. Hamilton, F. D. Kerr, K.C. Chas. Lacheur, Alpine MacNab,

(Turn to Page 8. Please).

## SPAIN WILL HOLD ELECTION JUNE 21 FIRST IN 8 YEARS

Issue Will Decide Definitely Whether Alfonso is Wanted or Not.

MANY MONARCHISTS FLED.

Republic Will Participate in League of Nations Activities.

MADRID, April 24 (A.P.)—The Provisional Republican Government of Spain laid its plans to-day for National Parliamentary elections June 21, the resulting assembly to be the first Cortes Spain will have known in eight years.

Since the issue will be a clear-cut "Republic or Monarchy," the elections will give the dethroned Alfonso the answer which, when he left Madrid, he said he would await in exile: Whether his people wish him to return to power or not.

The assembly to be elected will be a "constituent Cortes" or constitutional convention, and will have the power to re-write the Spanish constitution, determining in their work the exact form the new Government will take.

**Republicans Favored**

Two factors will work strongly for a Republican victory at least equal to that in the municipal elections held April 12. These are, that the elections will be held before a serious reaction can have set in, and that many Monarchists have left the country.

Word was received here to-day from Tokyo that the Japanese Government has recognized the new Republic.

The Spanish Republican Government will participate in the activities of the League of Nations.

The Cabinet decided to-day that Alejandro Lerroux, Minister of State, will fill Spain's seat in the council of the League when that body meets at Geneva next month.

Don Jose Maria Quinones de Leon, Spanish Ambassador at Paris during the Monarchy, has held that seat. Since 1927 Spain's participation in the League of Nations has been limited.

## TWO CHILDREN BURNED TO DEATH PARENTS NOT EXPECTED TO LIVE

Tragedy is Result of Blast as Father Speeds Up Fire With Kerosene.

BABY MAY SURVIVE.

PORTSMOUTH, Ohio, Apr. 24.—Two children burned to death, another was burned seriously and their parents were probably fatally burned by an explosion of kerosene in the home of Arthur Crabtree, 15 miles northwest of here today.

The dead were:

Charles Crabtree, 8, and Harold Crabtree, 6.

The parents, Mr. and Mrs. Arthur Crabtree, 40 and 35, respectively, were so seriously burned that physicians said they could not live.

A six months old baby, Homer Frederick, was burned about the body and face, but hope was held for his recovery.

The fire started in the Crabtree home by the explosion of a can of kerosene which Crabtree was using to speed up the building of a fire.

**GIVEN 9 MONTHS, 10 LASHES**

BRANTFORD, Ont., April 24.—(CP).—Examined by Doctors C. D. Chapin and R. W. Knight, and found sane, Moses Harold Johnson, colored youth, until recently employed on the farm of the St. George road, was yesterday sentenced to nine months in jail and ten lashes for an offense against a young girl.

**SEARCH**

OTTAWA, Ont., April 24.—Canada's aid in the rescue of a party of British Arctic explorers believed to be lost in the interior of Greenland while on a survey of the proposed northern air route from London, England, to Canada, was asked to-day over trans-Atlantic telephone.

**SIX FISHERMEN DROWN**

BELGRADE, Jugoslavia, April 24 (A.P.)—Six fishermen were drowned to-day when their bark sank in the vicinity of the Isle of Tag. Four members of the crew were saved by a second bark.

A severe tempest has been raging on the Jugoslavian coast for the last twelve hours.

## *Saskatchewan Has Wheat Deal In View*

SASKATOON, Sask., April 24. — (C.P.).—Announcemen that the annual sale of 30,000,000 bushels of grain to the British Co-operative Wholesale Society, at $1 per bushel, is being negotiated was made last night by Premier J. T. M. Anderson of Saskatchewan in a speech at the Sons of England celebration.

The Premier also reported the possibility of a scheme for irrigation of the dried-out areas of Saskatchewan, and, thirdly, reported the proposal of an English corporation to develop Hydro power on the Nelson River at a probable cost of $10,000,000. The Saskatchewan Government has agreed to buy Hydro power at the Manitoba boundary provided it was cheap enough.

## WINE IS CHEAPER THAN WATER EVEN IN BEST SPANISH HOTELS

Queer Foods and Queerer Customs Found by Wandering Scribe.

ON TO AFRICA

By GORDON A. SINCLAIR

SANTIAGO DE COMPOSTELLA, Spain, April 3.—(Copyright, 1931).—The gay picture of three or four traffic cops in assorted colors parading each corner to drive pedestrians to cover when a car approached, opened out to-day as schools were closed in honor of visiting Americanos, and fiesta was partly abandoned, so that shops could sell curios.

The cops, little fellows with enormour mad-looking moustaches, never stopped a car unless a collision seemed imminent. But people were fiendishly driven to cover every time a machine could be seen or heard. Since cars are not too plentiful we got the interesting picture of this bevy of cops getting in each other's way as they pulled the well known stop and go motions on ox teams which creaked endlessly to and fro.

For every car there would be at least five ox teams and they seemed never to stop, which helps ruin the theory that Spaniards never work. Another upset to this libel comes when you notice spotless streets and beautifully kept gardens, well dressed people and modern homes, crowded shops and busy railways. Spain

(Turn to page 3, please).

## Alfonso Lunches With King George

**WINDSOR, England, April 2 (A.P.)—Emerging from the privacy of his hotel suite for the first time since he learned of the death of the Infanta Isabella yesterday in Paris, Alfonso of Spain visited Windsor Castle this afternoon and had tea in private with the King and Queen.**

**He presented himself merely as the Duke of Toledo, the incognito under which he is visiting England.**

**The Duke of Miranda, Chamberlain of the Spanish Royal Household, who has been at his side since he went into exile, accompanied him to the castle.**

**After tea, Alfonso drove back to the hotel which he succeeded in leaving so secretly that the departure had escaped notice.**

## *Sutton And Crawley In English Finals*

HUNSTANTON, Eng., April 24 — (AP)—William Sutton, Irish open champion, and L. E. Crawley, of Brancepeth Castle club, to-day won their way through to the finals of the English native championship.

Sutton defeated T. H. Bowman, four and two in the semi-finals today while Crawley was disposing of E. R. Tipple at the twentieth hole.

They will meet in the finals tomorrow.

An air navigation conference was held at Nanking, China, recently.

# GOV'T BUSINESS AGAIN OCCUPIES HOUSE COMMONS

### Public Works Estimates Expected to be Delayed in Passing.

### Discuss C.N.R. Directorate.

### Premier Giving Serious Consideration to Consolidation of Certain Departments.

OTTAWA, Ont., April 24.—Government business again occupied the House of Commons to-day, the Prime Minister having announced that the estimates would be taken into consideration. Those on Public Works were first, this policy being usually carried out in order to ensure that, with the necessary appropriations voted, operations on public construction might be proceeded with as early as possible. The Public Works votes are smaller this year than formerly, which may delay their passing.

Whether the Dominion will some time in future conduct business with fewer Cabinet Ministers is a matter receiving the Prime Ministers' thought. Last night he informed the Commons that he was giving serious consideration to consolidating certain departments. At the same time, however, he spoke of establishing a department of communications, which would supervise the Air Services, Radio, Railways, Canals, Post Office and other mediums.

**C.N.R. Directorate Up**

A bill designed to increase the personnel of the Canadian National Railways directorate so that Alberta and Saskatchewan might have representation thereon became the occasion of a debate which traversed the whole field of C.N.R. affairs yesterday. (The two Prairie Provinces have hitherto been unrepresented on the board.) The whys and wherefore of the increase, the duties of the directors, the extent of their powers as such, the knotty problem of freight rates, railway financing, and the recent reductions in railway services throughout the Dominion were discussed, elaborated, analyzed and duly embalmed in the official records of the House.

Hon. R. J. Manion, Minister of Railways, who was piloting the bill, made it clear that the Government had no control over the management of the national road. The representations made in the course of the debate would, however, be forwarded to Sir Henry Thornton for whatever action the railway president might deem advisable under the circumstances.

One statement of the minister was taken as foreshadowing another indifferent year for the railways. At the present rate, the National system would lose another $46,000,000 gross revenues—the figure it dropped last year from that of 1929—unless business picked up. Facing this possibility, the present was not the time to ask a reduction in freight rates which were already lower than those prevailing in the United States. Besides, the matter of rates lay primarily between the railways them-

(Turn to Page Six, Please)

# REBELS ROUTED BY GOV'T FORCES

### Army Flees to Mountains From District Around San Pedro Sula.

### MANY CASUALTIES.

TEGUCIGALPA, Honduras, April 24 (A.P.)—Government troops, victors in severe fighting in the San Pedro Sula area, to-day pursued a fleeing revel army into the mountainous Honduran interior.

Advices here from the field staff to-day said that all rebels had been cleared from the Puerto Cortes area and that it was not believed there was any further danger of an attack on San Pedro Sula, key to the railroad between Tegucigalpa and the coast.

The rebels made three attacks on Chameifcon, near San Pedro Sula, before taking to flight. There were many casualties, including several rebel officers, but no estimate of the dead and wounded was received here.

# Cow Bears Calf Thought Half Deer

OTTAWA, Ont., April 24 (C.P.)—What is believed to be a hybrid calf—half deer, half cow—has been born to a cow on the farm Ambrose O'Meara conducts near Rideau Ferry according to reports here. The freak is shaped in front like any deer and is said to have the head of that animal, the rest of its body conforms to the lines of any other calf.

An order prohibiting the hunting of deer has been enforced for the last five years in Leeds County, in which the hamlet of Rideau Ferry is located. As a result deer have become quite tame and the sight of an antler pasturing with cattle is not uncommon.

# ARTHUR CHOATE DIES IN TORONTO

### Member of One of Peterborough Pioneer Families Dies Suddenly on Toronto Street.

### FUNERAL ON SATURDAY.

Arthur Francis Choate, 78 years old, a member of one of Peterborough County's pioneer families, expired suddenly of a heart attack near the corner of Colborne and Yonge Streets Toronto, yesterday. Falling suddenly to the sidewalk, Mr. Choate was removed by ambulance to St. Michael's Hospital, where it was ascertained that death had been virtually instantaneous.

Mr. Choate was the youngest son of the late Thomas Choate, who established the first mills and other projects at Warsaw, and was himself postmaster of Warsaw for nearly half a century. In recent years he had continued his business at McCracken's Landing, Stoney Lake, spending his winters at San Juan, Texas.

An ardent Anglican, he was interested all his life in church music and was active in the promotion of community welfare movements. Surviving are his widow, three daughters, Mrs. Norman E. Bell, 239 Dovercourt Road, Toronto, Mrs. W. H. E. Graham, Rosetown, Saskatchewan, and Mrs. H. W. Riddle, San Juan, Texas; and two sons, Richard F. Choate of The Toronto Globe editorial staff ,and Harold G. E. Choate of this city. James G. Choate of Minneapolis is a brother, and Mrs. John Moore of this city, a sister.

The funeral will be held to-morrow (Saturday) afternoon at 2 o'clock from the home of Harold Choate, 265 Burnham Street, to St. Mark's Church, Warsaw, with interment at St. Mark's Cemetery.

# AUTO HITS TRAIN 5 OCCUPANTS DIE

### Impact at Antioch is so Terrific Five Cars Are Derailed.

### TOLL, 10 INSIDE DAY.

CHICAGO, April 24. — Five men were killed early to-day at Antioch, Ill., when their automobile struck a freight train with such force that five cars were derailed.

The dead are Herrick C. Harrington, 21, a graduate of Marquette University; Daniel Wigham, 24; George H. Eaton, 24; Gus Gustafson, 22, and Edgar Lindroth, 21, a bank clerk. Eaton is a stepson of the Lake County coroner.

The deaths brought to ten the number killed in automobile crossing accidents in the Chicago area within 24 hours.

**WHALING CAPTAIN PASSES**

OAK BLUFFS, Mass., April 24.—(CP).—Death last night took Captain George L. Donaldson, 70, one of the last of Marthas Vineyard's whaling captains. His passing marked the severing of another living link between the present and this old island's romantic post.

Captain Donaldson, whose home was in West Tisbury, died in the Marthas Vineyard hospital after an illness of several months. His health had steadily declined since the shock of his wife's death two years ago.

## *Offers Reward For Lost Dog*

YOUNG LORD AND LOST PET "TRING"

Lord Duncannon, eighteen-year-old son of Earl of Bessborough, Canada's new Governor-General, with his pet black Labrador retriever "Tring," which has been lost for more than a week and for the return of which the young lord is offering a reward of $40.

# POPE ATTENDS COLLEGE OPENING

### Great Crowd Cheers Pontiff on His Third Exit From Vatican.

### TRAVELS IN CAR.

ROME, April 24. (AP)—For the second time in his reign, Pope Pius XI to-day left Vatican City to attend the inauguration of the new Propaganda Fide College.

The exit was his third from the Vatican, but was preceded from the Vatican City only by the procession of July 25, 1929 when he went to the piazza before St. Peter's in connection with celebraton of the Lateran Treaty.

Cardnal Mundelen of Chcago, whose archdiocese contributed $1,500,000 to the new college, officiated at the dedication ceremonies.

The pontiff left the Vatican City by a side portal in the walls of the tiny state. He traveled in his car, in which was his throne. A score of other cars following the pontifical vehicle bore his suite and cardinals.

The holy father's departure from the walls was exactly at 10:57 a.m. (4:57 a.m. E.S.T.) and in two minutes he had arrived at the new college, passing enroute before the American Catholic College.

Great cheers came from the crowd assembled at the college buildings for the dedication as the pontiff appeared, and all uncovered and knelt.

Cries of "Long live the pope" seemed like one long cheer which lasted while the group of cardinals and prelates greeted the pontiff at the entrance to the new building. Cardinal Mundelein was among the first of the churchmen to kneel and kiss the pontiff's ring.

## *Rockwood Farmer Dies Under Train*

GUELPH, Ont. April 23.—(C.P.)—James Lillie, aged 65, a farmer residing near Beaverton, was instantly killed to-day when the automobile he was driving was struck by a west-bound Canadian National train at the level crosing on the main street of the village of Rockwood. The car was carried 100 feet by the force of the impact and Lillie was dragged beneathed the wrecked vehicle. His back, both legs and both arm were broken and head was crushed. An inquest has been ordered Lillie is survived by two daughters and a son.

Losses on the refining and minting of gold coin at the Pretoria Royal Mint, South Africa, in the last eight years have been more than counterbalanced by the profits on the lowly silver and bronze coinage.

## *Earl Bessboro Given Address Of Welcome*

OTTAWA, Ont., April 24 (C.P.).—His Excellency the Governor-General was presented with a beautiful address of welcome and loyal good wishes from the General Assembly of the United Church of Canada when he received a representative delegation of the Church in his office on Thursday.

The document bore the seal of Very Rev. Dr. E. H. Oliver, Moderator of the General Assembly, and was read to the Earl of Bessborough by Rev. Dr. J. W. Woodside, minister of Chalmers United Church here.

The delegation was introduced by Premier R. B. Bennet. His Excellency was warm in his thanks to the United Church for their expression of welcome.

# POLISH FLOODS CLAIM 5 LIVES

### Rivers Dvina, Niemen Full of Floating Furniture—Villages Marooned.

### RESCUE WORK DIFFICULT.

WARSAW, Poland, April 24 (A.P.)—Five persons have been drowned in the floods which are sweeping the villa region and threatening the city itself.

Many villages have been marooned, most bridges in the Province have been washed away and the waters of the Rivers Dvina and Niemen are full of floating furniture, farm vehicles, and bodies of domestic animals.

Alarming reports continue to come from villages about Vilna, where rescue work has been made difficult because of boggy roads and missing bridges. The water to-day reached the central section of Vilna and was only a few yards from the cathedral.

Two of the five dead were boys, drowned in the streets of Vilna; while three were soldiers who were drowned in the province.

# WALKER KNEW POLICE BRIBED

### Admits He Was Aware That Vice Squad Members Accepted Graft.

### "THE BEST LAWYERS"

NEW YORK, April 24 — Mayor James J. Walker told a grand jury that he knew that members of the police force were accepting graft to fix court cases but that he had taken steps to eliminate this practice, it was revealed yesterday during the inquiry into the administration of District Attorney Thomas C. T. Crain.

Walker made the statement as a witness before the grand jury investigating the magistrates' court a year ago. The minutes of the grand jury were read during Crain's hearing yesterday.

Mayor Walker's testimony given before the grand jury on March 10, 1930, was read as follows: "I am not talking now as mayor of this city; I am talking as a fellow who merely says 'Good morning, judge!' The great difficulty with these men is that they are very small thieves. They are sneaking, cute, cunning. Now also with the theft, I remember a discussion out in the hall here where a man who was well along in life was in here again for maintaining a fence, and someone said to him 'You are a mystery to me. You invariably have the poorest lawyers that practice around the criminal courts building and yet you always get acquitted. How do you do it?'

"He said, 'I don't pay any attention to the lawyer. I go out and hire the best lawyer in town.' The other fellow said, 'But he never appears for you.' 'Oh yes he does,' said the first. 'Well, who is he?' asked the other fellow, and was told 'the cop that makes the arrest.'"

Because of the over-supply of whale oil in the world the Antarctic may not be visited by whalers next season.

# CANADIAN CLUB ELECTS OFFICERS

### New President Will Be Named in Fall—Mrs. G. S. Cameron First Vice.

### TALK ON BIRDS.

Although there was no president named for the ensuing year at the annual meeting on Wednesday afternoon, in the hall of the Public Library, of the Women's Canadian Club, the report of the Nominating Committee, read by Mrs. G. R. Langley, was accepted by the meeting, and the office of the president will be filled in the Fall. Other officers will be as follows: Mrs. G. S. Cameron, first vice president; Mrs. F. D. Kerr, second vice president; Mrs. R. C. Blagrave, third vice president; Miss Margaret Hamilton, fourth vice president; Mrs. L. A. Potvin, fifth vice president; Mrs. Adrian Macdonald, corresponding secretary; Mrs. T. P. McCullough, recording secretary; Miss S. A. Tomkins, treasurer. Committee: Mrs. H. A. Morrow, Mrs. J. A. Aylmer, Mrs. L. W. Scott, Mrs. F. M. Somerville, Miss A. M. Lancaster, Miss Helen Bonnycastle

The report of the secretary, Miss Mary Stratton, gave an interesting review of the series of lectures presented during the year, thanked all who had assisted the club in any way, Mr Delafosse for use of the Library and The Examiner for reports of the meetings. Miss Margaret English presented the financial report in the absence of the treasurer, Miss S. A. Tomkins.

The speaker of the afternoon was Miss Ethel L. Marsh of Clarksburg, Georgian Bay, whose talk was given under the auspices of the Department of Agriculture, and dealth with birds and bird life. It was splendidly illustrated by lantern slides operated by Dr. A. J. Madill, and was most interesting. Given earlier in the afternoon to the pupils of the Normal School, it was attended by pupils from the Collegiate Institute, and proved to be one of the most educational of the many lectures delivered this year at the Canadian Club.

Miss Marsh, introduced by Miss Margaret Hamilton, announced that a series of such bird talks by her has been authorized in many different places throughout the province, by the Hon. Chas. McCrea and Mr. McDonald, Deputy Minister of Agriculture. Works on natural life written by Miss Marsh include "Where the Buffalo Roam" and "The Birds of Peasemarsh," the latter place having been a sanctuary for birds before Jack Miner started his famous home for his feathered friends. One of Miss Marsh's volumes is in the reference library of the Geological Survey at Washington.

The speaker appealed to the juniors especially to help in the conservation and preservation of bird life and spoke of the natural enemies of the birds having increased out of all proportion to the small birds themselves. Imported birds, such as the English sparrow and the starling tend in many places to drive out of the native birds. Miss Marsh spoke of several volumes for children, two of which have been published; and two of which are now in process of writing.

The slides opened with a couple of pretty colored pictures of Canadian woods in the winter season. Then came pictures of the chickadee that was lured to her home by means of suet placed on a lath stuck in the snow; of the Canada grouse, the woodpecker and the bittern. Forced by its natural enemies, the crows and the blackbirds, a robin near her home built its nest over the pantry window and it also appeared in the slides. Then there was the nest of the mourning dove, which is related to the long-lost passenger pigeon and is one of the few species of doves left in Canada. The young of this species, resting in their nest, face toward the east in the morning and to the west in the afternoon. The mourning dove is a very careless nest-builder and will lay its eggs almost anywhere.

Then came the burrows of the bank-swallows, the next of the Baltimore oriole, hanging by slender ropes from a tree branch and in shape, like the back-cradle of an Indian papoose; Bob o'Link with his little demure, brown wife and the gay little meadow lark with his yellow breast and speckled feathers.

## *Snowden Back On Job After Severe Illness*

LONDON, Apr. 24—(AP)—Rt. Hon. Philip Snowden, Chancellor of the Exchequer, who next week will present the 1931 budget to the House of Commons, came back to Downing Street today after a severe illness and operation.

A nurse rode in the automobile with the Chancellor from Edenbridge, Surrey. A small crowd welcomed him at Downing Street, and Rt. Hon. Arthur Henderson, Secretary of State for Foreign Affairs, was the first to shake his hands.

Mr. Snowden came to London today particularly for this afternoon's cabinet meeting at which his budget, on which he has worked while sick abed, will be discussed.

## *More Troops Are Sent For Funchal Assault*

LISBON, Portugal, April 24 (A.P.)—Additional reinforcements are leaving here to-day aboard the liner Nyassa for the Madeira Islands, where the principal city, Funchal, is in the hands of rebels.

The troops, with others already en route to the Islands, will gather at nearby San Pedro Santo Isle and from there undertake a campaign against Funchal, if necessary, the Government says, bombarding the city.

Thirty thousand British rifles, newly arrived from England, are being served out to the troops and to those remaining in Portugal who, because of Communism allegedly spready across the border from Spain, may be called upon to maintain order.

## *Spark From Engine Starts Bush Fire*

LINDSAY, April 24.—A spark from a passing locomotive on the C.P.R., in the vicinity of Janetville Station, started a bad bush fire in woods owned by Allen Sluggitt. When a section foreman first noticed the fire it had gained considerable headway and was burning rapidly. He summoned a number of men from the section, and the farmers in the vicinity also hastened to the scene. It took hours of hard work to extinguish the flames.

A bush fire at Bethany also caused considerable excitement, and a couple of hundred men and boys had to work fast to keep the blaze from spreading. Lindsay men who have pine scrub in the growth rushed to the scene to assist the firefighters.

**MINER FATALLY CRUSHED**

FLIN FLON, Man., April 24.—(CP).—Pinned beneath a large drift at the mines here, John McKay, 36-year-old employee, was fatally crushed yesterday.

He died in hospital a few hours after the accident.

You'll like this Recipe!

Orange Bread Pudding

1½ cups St. Charles Milk
1½ cups water
2 cups fine bread crumbs
2 cups pulp and 1 whole orange
½ cup sugar
½ teaspoon salt
Juice of two oranges
1 tablespoon lemon juice
Grated rind 1 orange
2 eggs whites, stiffly beaten
4 tablespoons granulated sugar
1 tablespoon melted butter

Dilute the milk with water and bring to scalding point. Remove from fire, add the bread crumbs and let stand until cool. Blend the yolk, sugar, butter, salt, fruit juices and rind, and stir into the bread and milk mixture. Pour into a buttered pudding dish. Cover the top with a meringue made with the beaten egg whites and four tablespoons sugar. Brown lightly in a slow oven.

—And remember, this is only one of over a hundred practical, economical recipes to be found in a new profusely illustrated Cook Book we have just completed.

"Brandram-Henderson has put us wise to you, Mr. Man"

The old cheap paint promoter seems to have lost out entirely.

B-H "English" Paint, of course, is such an exceptionally *good* paint that people realize there's genuine economy in paying something extra for it.

It covers every surface thoroughly — it will not crack or peel — its colors are lasting — it can be washed safely — it flows from the brush with ease.

But, above all, it has a tough, durable body — a body that will *last* — will last, in fact, more than twice as long as any cheaper paint . . . 70% Genuine B.B. White Lead and 30% Pure Oxide of Zinc, which form its base, are responsible.

MADE IN CANADA

There is *sensible* thrift in buying paint that gives RESULTS — and B-H "English" Paint *does* give results!

**New floors — in four hours**

Think of it!—a coat of B-H "Fast Drying" Floor Enamel DRIES HARD on your floor in FOUR HOURS!
Easy to apply — made in attractive colors—a tough, durable body.
It's economical, too!

B-H "English" PAINT

For Tired, Worn Nerves

DOCTORS all over the world prescribe Ovaltine for nerve-ridden patients . . . because Ovaltine embodies in concentrated, perfectly balanced form, every nourishing element required to soothe jaded nerves and restore the nervous system. It is easily digested and also aids the digestion of other foods. Ovaltine is a source of comfort and help to sufferers from stomach disorders, to whom it often proves to be the only food that can be retained.

Ovaltine is prepared by an exclusive, scientific process from malt, milk and eggs. Take it as a bedtime beverage. You will sleep soundly, your entire body will benefit tremendously and you will awake refreshed and invigorated. Use Ovaltine also for your meal time beverage instead of tea or coffee.

'OVALTINE'

TONIC FOOD BEVERAGE

Builds-up Brain, Nerve and Body

*Sold at all good stores, in 50c, 75c, $1.25 and special $4.50 family size tins; also served at soda fountains.*

A. WANDER LIMITED, London, England, and Peterborough, Canada 312

WARNING: Ovaltine cannot be successfully imitated. The original process by which it is made is as much a factor as the ingredients, and this process is used exclusively by A. Wander Limited. Refuse imitations.

# CATTLE, GRAIN, PRODUCE

**TORONTO LIVESTOCK**

TORONTO, April 24. — Receipts at the Union Stock Yards yesterday were: 40 cattle, 179 calves, 28 hogs, no sheep or lambs.

Supply of cattle for sale consisted of the fresh receipts and a 100 head less than Wednesday, including two loads of stockers. Killers are selling slowly at prices which are 25c a cwt. lower than Monday's advance, or about steady with the close of last week. Small lots of handy and weighty steers moved at $5.00 to $5.75 a cwt., and a few cows at $3.00 a cwt.

Calves are selling at the week's decline of 50 cents a cwt., with some fair quality vealers bringing $7.00 a cwt., and common calves at $4.25 a cwt. No choice vealers sold up to 11 o'clock.

No sheep or lambs arrived by train and very few by truck. No sales were made up to 11 o'clock.

The hog prices are steady at the week's advance of 50 cents a cwt., with bacon selling at $8.00 a cwt.; f.o.b., and $8.75 a cwt. w.o.c.

| Alfalfa— | |
| Ontario grown—No. 1, per bushel | 14.00- 15.60 |
| No. 2 | 13.00- 14.00 |

**CHICAGO GRAIN**

CHICAGO, April 24.—Many grain traders took their cue from the stock market yesterday and all cereals went lower, with corn and oats hitting new bottom price records. Selling pressure enlarged in the late dealings and the close was at virtually the day's lowest level. Overseas demand for North American wheat was meagre, total purchase being estimated at barely 400,000 bushels.

Wheat closed heavy, ¼c to 1⅝c lower; corn ⅝c to 1⅛c down; oats ¼c to ⅝c off, and provisions at 5c to 45c setback.

**MONTREAL PRODUCE**

MONTREAL, April 24.—Butter continued steady on the produce and dairy market here yesterday, as did cheese, eggs and potatoes.

Number 1 finest butter was quoted unchanged at 22c and regraded remained at 22c to 22½c a pound. To retailers solids and prints were unchanged at 26c and 27c a pound, respectively. Receipts were 466 boxes.

Ontario colored cheese was quoted at 16½c a pound, and receipts totalled 100 boxes.

On the egg market, carlot prices of fresh Quebec, Maritime, Ontario and Prairie extras were quoted at 22c to 23c, firsts at 20c to 21c and seconds at 17c to 18c a dozen. Fresh British Columbia extras, in carlots, were quoted at 24c, firsts at 22c and seconds at 19½c a dozen. To retailers quotations were unchanged and receipts were 2,234 cases.

New Brunswick Green Mountain potatoes, in carlots, were quoted at 80c per 80-lb. bag, and to retailers 90c per 80-lb. bag.

**TORONTO PRODUCE**

TORONTO, April 24.—Prices for creamery solids reached still lower levels on the local butter market yesterday, brokers asking 25c for No. 1 and 24c for No. 2. Buying, however, was not any more brisk than previously, and, though some selling resulted, buyers were trying to secure lots at even lower levels, brokers being offered 2c and 3c less than the above prices. There were hints that details had been made at lower than current quotations, but the general market was a dull affair with buyers maintaining the "waiting mood."

**Cream**

Reports from country points indicated that some of the smaller cream buyers had lowered their prices considerably below early week levels, but Toronto creameries held to the week's decline, and quoted 29c for special, 28c for No. 1, and 25c for No. 2, f.o.b. country points. There was a feeling in local quarters that prices would be decreased to-day (Friday), to take effect next week, and with butter levels greatly reduced, the decrease on cream will probably be about 4c to 5c on all grades.

**Cheese**

New cheese has not found a sufficient demand to stabilize the market, but yesterday, for the first time this week, brokers reported steady ranges. They quoted new large at 10½c, twins at 10¾c and triplets at 11c, or steady with the 1½c decrease for the week. Wholesalers offered new cheese to the trade at the steady prices of 13c for large, 13¼c for twins, and 13½c for triplets.

**LIVEROOL QUOTATIONS**

LIVEROOL, April 24 (A.P.)—Closing:—

Wheat—Spot, No. 1, Manitoba, 89½; No. 2, 88½. Hams, long cut, 12 to 16 lbs, 78s; short cut, 12 to 14 lbs. 79s; extra skinned, 99s; picnics, 5 to 8 lbs, 50s 6. Bacon—Cumberland cut, 32 to 40 lbs, 66s 6d; Canadian Wiltshires, 94s; clear bellies, 14 to 20 lbs, 60s; long clear middles, 28 to 35 lbs, 73s 6d short clear backs, 20 to 25 lbs, 69s. Shoulders—Square, 12 to 16 lbs, 56s. Lard—Prime Western in tierces, 46s 6d; American refined in boxes, 47s. Cheese—Canadian finest white 76s; colored 78s. Linseed Oil, raw, 22s 9d. Petroleum, No. 1, 11d; No. 2, 10d. Rosin—Types F and G, 14s 6d. Turpentine—Spirits 44s 9d.

**WINNIPEG GRAIN.**

WINNIPEG, April 24. — Disappointing export business and a weaker foreign tone imparted a weakened trend to trading in the wheat pit here yesterday. Values at the close were ⅜c to ⅝c lower than the previous day's figures.

The May wheat closed at 60¾c, down ⅜c; July at 62¼c was down ⅞c; while October dropped ⅝c to close at 63¾c to 64c.

Trading was exceedingly narrow, and the price range was small. There was good buying in evidence, at bottom levels by Continental and New York interests. This had a steadying influence until the final minutes, when the market again weakened.

Cash wheat trading was limited with spreads unchanged. Barley and oats featured coarse grains with the prices holding steady.

Futures:

| | | | | | Prev. |
|---|---|---|---|---|---|
| Wheat— | | | | | |
| May | 60¾ | 62¼ | 60½ | 60¾ | 61½ |

## WINE IS CHEAPER THAN FRESH WATER

(Continued from Page 1)

is not the land of loafers I thought it was. Spain is a mighty fine country.

**Demanded Cigarettes.**

While busy snapping pictures of water carriers at the main town pump boys crowded around myself and Joe McCully demanding cigarettes. We had none but they didn't believe us. They thought our language the funniest thing on earth and rallied their friends around to hear it. Their mirth was miles beyond control when I uncorked a bit of Spanish. I knew my Spanish was bad, but not that bad.

The boys, unable to get cigarettes, pleaded for "yust one panny". I had lots of these. American coppers. I handed them out but the boys were disgusted. "Americano! What good is that." They flung the coins away or gave them to friends. But there is at least one business man in every group. He's the one who profits by the other fellow's errors. In this case he quietly collected the pennies, approached a tourist and bought two whole packages of cigarettes to the mingled dismay and delight of his friends. This lad will probably become prime minister some day.

Food arrangements in this town were excellent and terrible all in the same breath. Excellent because the hotel in which the were served was the equal of any hotel in the entire world. Terrible because no Spaniard can possibly be hurried for anything milder than a charging bull and the tips had all been paid in advance. They came to see if we'd like water. Of course we would. Very well, that was 40 cents a bottle extra. Now would anyone like wine. Sure, I'd like wine. Very well that would be 24 cents. So here is that mythical country where wine is cheaper than water and held in far greater respect.

**Overgrown and Overfed**

At last we got sardines. Overgrown and overfed but tasty. The waiters then went into a huddle and talked things over. Guests grew restive. Some left to seek out another place but we stuck doggedly on and had got on to the steak before we decided to call things off on account of darkness. The folks who went in search of their own lunch fared no better as to time. One of them took a bold chance on the most expensive item on the menu and came out with a plate of eels.

Not eels as you and I know them but flat white ones which looked exactly like a tape worm, and according to their consumer, tasted like the sawdust off the room floor. You would never have known these things to have been eels at all except that they had eyes which had been economically cooked, in with the other food. All the way back to the ship the girl with the adventurous stomach was thinking of those eyes.

Prices are always on an astonishing thing in any country and Spain is no exception. Standard Canadian brands of cigarettes for instance are 15 cents higher than we pay. Canadian whiskeys are less than half our price. Five ounces of whiskey cost just about twice the price of five ounces of Coca Cola which is just being introduced. The signs you see on the streets are these signs, "The Pause that Refreshes." "Ask the Man Who Owns One". "The Universal Car". "It beats as it sweeps as it cleans". "Winchester." "Underwood." "Players Please." But there is no such thing as a standard price on any of these things. Your Spanish merchant is disappointed if you buy without a struggle. He likes the fun when you try to beat him down.

**Like the Highlands.**

We sped back to Vigo in a great rush over the dustiest roads I ever expect to see but through some of the most beautiful country. Great hills, verging on the mountain stage, spread upward from mirrored inland pools. It looked like the highlands of Scotland. The glens were aflame with yellow gorse. The goats, spread across the hills, tinkled their bells merrily. The grass was that pale green of spring and the peach trees were in fragrant blossom. Oranges hung on the trees which upset my ideas of botany, but oranges, it seems, will keep longer after ripeness than any other fruit, and can still be picked in peach blossom time.

Back on the ship the decks had become a veritable bazaar with everything on tap from a bull's horn to a senorita's shawl. The Spanish shawls, you may suspect, were made in China. Boys were paddling hulking big boats up and down the vessel's side just as we shoved off. They cried out for bread or money and got a surprising amount of stale loaves from the galleys. I tried the money experiment again and tossed a dime into the boat. Aflame with digust the young oarsman tossed the coin into the sea.

And now for Africa where I leave this cruise and strike out alone in search of adventure. I shall be back in Spain for a month. Morocco is two days away with her shieks and sheebas. Adios Espana!

**for BRUISES**

There's nothing to equal Minard's. It "takes hold". Antiseptic, soothing, healing. Gives quick relief!

24

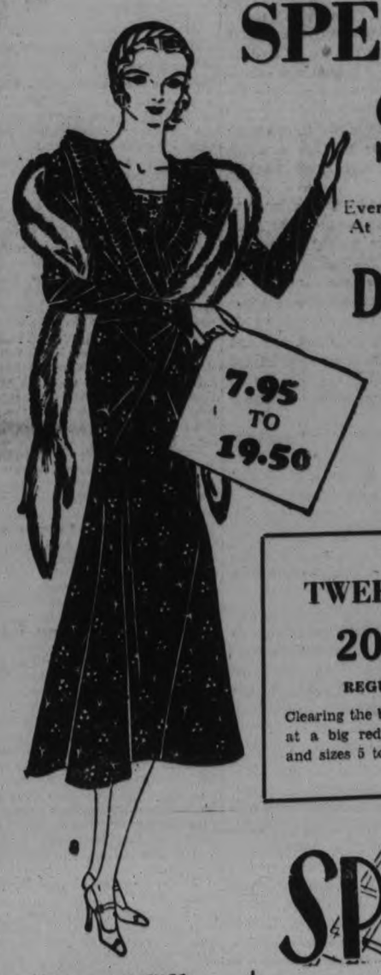
**MINARD'S "KING OF PAIN" LINIMENT**

STORE HOURS: 9 to 6.00 Sat. 9 to 9.30

# Robt. Fair & Co. Ltd.

Telephone 145

THE STORE OF DEPENDABLE MERCHANDISE



# SPECIAL CLEARANCE SILK DRESSES

Every woman needs an inexpensive Frock just now to freshen up her wardrobe. At the prices marked they are real sale values. It will be to your advantage to grasp the oppor-tunity on Saturday.

## Dresses Regularly $15, $25, $31

Best selling Frocks of silks, satins, crepes and georgettes. Plenty of prints, plenty of plain colors and two-tone contrasts. Groups of gorgeous Frocks that you will want the minute you see them at the price. All this season's fashions that include boleros, cowl Necklines, jackets, bows, ties, pleats and flares. FRIDAY, APRIL 24, 1931

### THE NEW MARKETING BOARD.

Whether or not the new Ontario Marketing Board will be able to bring about an improvement in the marketing conditions in this Province remains to be seen, but at all events the personnel of the board as announced by the Minister of Agriculture will inspire confidence.

The board will be headed by W. B Somerset, of Burlington, who some time ago made an exhaustive survey of marketing conditions and who has done excellent work in the building up of Ontario's fruit trade overseas; Howard B. Clemes, manager of the U.F.O. Co-operative; J. B. Fairbairn, the Deputy-Minister of Agriculture, and John A. Carroll, director of the crops, markets and co-operative branch of the agricultural department, are the other members, with the last named acting as secretary.

There is no deadwood in that board.

All four members are closely in touch with agricultural conditions and marketing problems, and there is reason to hope that they will be able to solve many questions that have given trouble and eventually to find profitable markets for Ontario farm products.

### THE OPPORTUNITY OF A DECADE.

The fact as intimated in the news columns of The Examiner last evening that building costs are lower than they have been at any time during the past decade, should be an inducement to all citizens who have been contemplating building operations or repairs to take advantage of an unusual opportunity.

For at least ten years there has never been a more opportune time in which to place orders for new buildings or for alterations.

Labor costs and the price of all materials have dropped to such an extent that wise citizens will regard it as good business to have the work they have been planning done now.

It will not only be good business for them but for the community, for the placing of a large number of orders for building operations now would do a great deal in the way of providing employment and improve conditions generally.

The Examiner would suggest to those who have been contemplating the carrying out of such work that the present conditions justify going ahead with confidence.

A very marked improvement in the local situation could be brought about if the wisdom of cashing in on the present decidedly low building costs were realized by those who are in a position to place orders now.

It is the golden opportunity of a decade.

### THE PARKING PROBLEM.

The worst offenders against the local parking regulations are those who are most familiar with the law, often indeed those whose interests are most affected by the congestion that is inevitably associated with disregard of the regulations.

Our own citizens, including many of our own business men, sin the most in so far as illegal parking is concerned.

There is some excuse for outsiders who do not know the rules in Peterborough, but for local residents who have had several years to learn the law and to study what happens when it is not obeyed, there is little justification, and they can have no just ground for complaint if they are hailed into court and fined.

There are two sound reasons why our citizens should cheerfully co-operate with the police in making the parking by-law effective.

In the first place, congestion in the business section creates a decidedly dangerous condition that if allowed to continue must surely result in accidents.

Secondly, the business of down-town stores suffers when it is impossible for customers to drive anywhere near them.

There is much that can voluntarily be done to relieve the situation, particularly by our own people, who could eliminate much of the parking nuisance if they would make use of legal parking areas or leave their cars at home during busy hours, which many of them could do without inconveniencing themselves a great deal.

### THE WHEAT SITUATION.

A ray of hope as to the wheat situation is afforded by the Financial Post which, while it feels that "an expression of opinion as to the outlook for prices must be left to professional commentators," is able to observe improving conditions in the world situation.

As the Post points out, both Nature and Governments played their part in bringing about the conditions that have caused so much distress.

Various producing countries stimulated their production by artificial means, and Mother Nature doubled the effect of their efforts, giving the world several successive crops of large size.

While Governments in producing countries were pushing acreage and Nature was raising yields, Governments in consuming countries, for a variety of reasons, but chiefly for financial and consumer self-protection, took steps to reduce wheat purchases.

The net result was the gradual accumulation of unprecedentedly high carry-over that rose from year to year and produced the wheat crisis.

"Low wheat prices have brought into play corrective measures," continues the Post. "United States, Australia, Argentina have all reduced acreage. At the same time, India and other countries have experienced lower yields. Canada promises to do the same. The supply of wheat this year will probably be less burdensome. Simultaneously, importing countries are gradually lifting restrictions on wheat import. The world is getting back to a freer wheat market. The chief long range factor is the law of supply and demand and it is bolstered up by climatic conditions which have a habit of averaging out over a term of years.

"It will be a factor of no small importance in speeding the return to normalcy in Canadian business if the world, as a result of 1931 climatic and economic conditions, gets its wheat surplus down to a more reasonable figure and if freer flow of wheat from producing to consuming markets is stimulated.

"If more normal conditions can be restored to world wheat markets, it is hoped that they will not be again upset by attempts to control prices, to stimulate supply or to curtail demand by purely artificial measures of governmental intervention."

### IT IS NOT GOOD NEWS.

There are certain kinds of news which newspapers find no delight in publishing, and at the top of the list we would place such items as pending probes into conditions surrounding the operation of the old age pension funds.

Hints—broad ones too—come from Toronto saying that arrests may follow investigations into the workings of the old age pension division of the city department of health.

We also have read where arrests have been made in Oxford and Middlesex Counties, and on those no comment can be made as they are now in the hands of those competent to deal with them.

If there is one place where the record should be as clean as a hound's tooth it is in dealing with old age pensions. The one idea is to relieve the distress which used to attach itself to those who faced old age and poverty at the same time, and that same idea should impress itself upon every one who has anything to do with the business. If it does not then such individuals are not fit to hold their positions.

The fact that there should be a breath of suspicion attached to the handling of the scheme, or that there should be anything approaching preying upon those who are the recipients of aid is unthinkably reprehensible.

Surely there is enough wholesome Canadianism left in this year 1931 to approach an old age pension plan with clean hands and a desire to bring to the task nothing but straight-forward dealing and honest accounting of every last cent.

The news that there is suspicion that all is not well is not good news; it is not pleasant to read about. If there are those in any capacity who have demonstrated their unfitness to have anything to do with the plan then they should be weeded out and punished to the limit of the law.—Stratford Beacon-Herald.

### ARE THERE TOO MANY NURSES.

Miss E. M. McKee, superintendent of the Brantford General Hospital, in an address delivered at the recent convention of the Registered Nurses' Association of Ontario, discussed the problem of unemployment among the nurses of the Province. As this same question was also discussed in a paper by Miss Jean T. Gunn, of Toronto, it shows that it is one of the urgent problems with which the association has to deal. Miss McKee pointed out that the root of the trouble was that it was the custom to use nursing schools to supply nursing services for patients in hospitals, irrespective of the needs of the communities for these nurses when they are graduated. Furthermore, in order to supply this service in the hospitals, students were being accepted in the nursing schools who possessed insufficient academic education, and who were lacking in other qualifications necessary to fit them for special service. Consequently nurses are graduated whose usefulness is limited, and whose progress is restricted.

For example, it was shown by Miss McKee that in May, 1930, 586 graduate nurses wrote on the registration examination, 279 of whom had less than three full years of high school training, and only 98 of whom held certificates of pass matriculation. Apparently the fact that so many nurses lack the academic education and general culture to fit them for special positions, tends to bring about congestion in the supply of nurses for ordinary service. Miss Gunn, in her paper, pointed out that reports from 28 communities showed that only an average of 60 per cent. of the nurses graduated from the hospitals were required for service afterwards. These facts show that more nurses are being graduated from year to year than can find service in the communities. This undoubtedly provides a problem which the association will have to solve.

Miss McKee rightly declared that, for economic reasons, a plan must be devised whereby private nursing can be supplied to the sick according to their individual requirements. There is no doubt that the average family in which there is sickness cannot afford to pay a trained nurse by the week, and also the necessary additional help required to wait on her. For this reason a very large number of cases are sent to the hospital, where a private room can be had, along with board and nursing care, for the wages of a registered nurse for one week. It is evident that, if the demand for nursing in the home is to increase, some plan must be provided for part-time nursing according to the needs of the case. No one will contend that professional nurses are overpaid in the long run. The problem is one which the nurses themselves will have to solve. If there is no assured employment for nurses after they are graduated from the hospital, it will be exceedingly difficult to procure nurses in training.—Brantford Expositor.

### EDITORIAL NOTES AND COMMENT.

Canadian weather, its worst enemies will have to admit, has at least the merit of variety.

The date of the Quebec election has not yet been announced, but the politicians in that Province are sure of employment for at least a portion of the summer.

Butter production in Canada has increased so enormously that this country is now on the export market. It is admitted that there is little likelihood of higher prices.

Marriage bells are not ringing so often in this country just now. The Bureau of Statistics reports 20 per cent. fewer marriages in March than in the same month last year.

After five weeks of debate on the Address from the Throne, the Federal Government emerges with a substantial majority—as every one knew it would. The only thing established during this period is a new record for duration of this annual discussion; and that will not help matters a great deal.—The Globe.

When a man wants to take a holiday at this time of the year it is a sure sign that there are spring stirrings in the household.—Oshawa Times.

While Sinclair Lewis won the Nobel prize, the general impression seems to be that Theodore Dreiser won the Nobel prize-fight.—Kingston Whig-Standard.

Sir Joshua Stamp is coming to Canada to probe the grain trade. It is hoped he will locate the knots in the grain.—Hamilton Spectator.

Western Canada farmers are not making so much noise about it as Russian wheat growers, but they are going right ahead putting in another crop.—Lethbridge Herald.

## TANAR OF PELLUCIDAR

BY

EDGAR RICE BURROUGHS

(Continued from yesterday.)

Above the camp rose the forested slopes of the hills which she must cross in her return to Paraht. For some distance the trees were scattered and then commenced the dense forest. If she could reach this unobserved she felt that she might entertain high hope of successful escape, for once in the denser growth she could take advantage of the skill and experience she had acquired under Tanar's tutorage and prosecute her flight along the leafy pathways of the branches, leaving no spoor that Bohar might follow and at the same time safeguarding herself from the attacks of the larger and more dangerous beasts of the forest, for, though few, there were still dangerous beasts upon Amiocap. Of the men of Amiocap whom she might possibly encounter she entertained little fear, even though they might be members of tribes other than hers, though she shuddered at the thought that she might fall into the hands of the Coripies, as these grotesque monsters engendered within her far greater fear than any of the other dangers that might possibly beset her way.

The exhilaration of contemplated flight and the high hopes produced within her at prospects of successfully returning to her father and her friends were dampened by the realization that Tanar would not be there to greet her. The supposed death of the Sarian had cast a blight upon her happiness that naught ever could remove and her sorrow was the deeper, perhaps, because no words of love had passed between them, and, therefore, she had not the consolation of happy memories to relieve the gnawing anguish of her grief.

The work upon the hull of the boat was at last completed and the men, coming to camp to eat, spoke hopefully of early departure for Korsar. Bohar approached Stellara's couch and stood glaring down upon her, his repulsive face darkened by a malignant scowl.

"How much longer do you intend to lie here entirely useless to me?" he demanded. "You eat and sleep and the flush of fever has left your skin. I believe that you are feigning illness in order to escape fulfilling your duties as my mate and if that is true, you shall suffer for it. Get up!"

"I am too weak," said Stellara. "I cannot rise."

"That can be remedied," growled Bohar, and seizing her roughly by the hair, he dragged her from her couch and lifted her to her feet.

As Bohar released his hold upon her, Stellara staggered, her legs trembled, her knees gave beneath her and she fell back upon her couch, and so realistic was the manner in which she carried out the deception that even Bohar was fooled.

"She is sick and dying," growled one of the Korsars. "Why should we take her along in an overcrowded boat to eat the food and drink the water that some of us may be dying for before we reach Korsar?"

"Right," cried another. "Leave her behind."

"Stick a knife into her," said a third. "She is good for nothing."

"Shut up!" cried Bohar. "She is going to be my mate and she is going with us." He drew his two huge pistols. "Whoever objects will stay here with a bullet in him. Eat now, you hounds, and be quick about it for I shall need all hands and all your strength to launch the hull when you have eaten."

So they were going to launch the hull! Stellara trembled with excitement as the moment for her break for liberty drew near. With impatience she watched the Korsars as they bolted their food like a pack of hungry wolf-dogs. She saw some of them throw themselves down to sleep after they had eaten, but Bohar the Bloody kicked them into wakefulness, and, at the point of his pistol, herded them to the beach, taking every available man and leaving Stellara alone and unguarded for the first time since he had seized her in the village of Fedol the chief.

She watched them as they descended to the hull and she waited until they seemed to be wholly engrossed in their efforts to shove the heavy boat into the sea; then she rose from her pallet and scurried like a frightened rabbit toward the forest on the slopes above the camp.

The hazards of fate, while beyond our control, are the factors in life which oftentimes make for success or failure of our most important ventures. Upon them hang the fruition of our most cherished hope. They are, in truth, in the lap of the gods, where lies our future, and it was only by the merest hazard that Bohar the Bloody chanced to glance back toward the camp at the very moment that Stellara rose from her couch to make her bid for freedom.

With an oath he abandoned the work of launching the hull, and, calling his men to follow him, ran hurriedly up the steep slope in pursuit.

His fellows took in the situation at a glance and hesitated. "Let him chase his own woman," growled one. "What have we to do with it? Our business is to launch the boat and get her ready to sail to Korsar."

"Right," said another, "and if he is not back by the time that we are ready we shall sail without him."

"Good," cried a third. "Let us make haste then in the hope that we may be prepared to sail before he returns."

And so Bohar the Bloody, unaccompanied by his men, pursued Stellara alone. Perhaps it was as well for the girl that this was true, for there were many fleeter among the Korsars than the beefy Bohar.

The girl was instantly aware that her attempt to escape had been discovered, for Bohar was shouting in stentorian tones demanding that she halt, but his words only made her run the faster until presently she had darted into the forest and was lost to his view.

Here she took to the trees, hoping thereby to elude him even though she knew that her speed would be reduced. She heard the sound of his advance as he crashed through the underbrush and she knew that he was gaining rapidly upon her, but this did not unnerve her since she was confident that he could have no suspicion that she was in the branches of the trees and just so long as she kept among thick foliage he might pass directly beneath her without being aware of her close presence, and that is precisely what he did, cursing and puffing as he made his bull-like way up the steep slope of the hillside.

Stellara heard him pass and go crashing on in pursuit, and then she resumed her flight, turning to the right away from the direction of Bohar's advance until presently the noise of his passing was lost in the distance; then she turned upward again toward the height she must cross on her journey to Paraht.

Bohar sweated upward until finally almost utter exhaustion forced him to rest. He found himself in a little glade and here he lay down beneath a shrub that not only protected him from the rays of the sun, but hid him from sight as well, for in savage Pellucidar it is always well to seek rest in concealment.

Bohar's mind was filled with angry thoughts. He cursed himself for leaving the girl alone in camp and he cursed the girl for escaping, and he cursed the fate that had forced him to clamber up this steep hillside upon his futile mission, and most of all he cursed his absent followers whom he now realized had failed to accompany him. He knew that he had lost the girl and that it would be like looking for a particular minnow in the ocean to continue his search for her, and so, having rested, he was determined to hasten back to his camp when his attention was suddenly attracted by a noise at the lower end of the glade. Instinctively he reached for one of his pistols and to his dismay he found that both were gone, evidently having slipped from his sash or been scraped from it as he wallowed upward through the underbrush.

Bohar, despite his bluster and braggadocio, was far from courageous. Without his weapons he was an arrant coward and so now he cringed in his concealment as he strained his eyes to discover the author of the noise he had heard, and as he watched, a cunning leer of triumph curled his hideous mouth, for before him, at the far end of the glade, he saw Stellara drop from the lower branches of a tree and come upward across the glade toward him.

As Stellara came abreast of his hiding place, Bohar the Bloody leaped to his feet and confronted her. With a stifled exclamation of dismay Stellara turned and sought to escape, but the Korsar was too close and too quick and, reaching forth, he seized her roughly by the hair.

"Will you never learn that you cannot escape Bohar the Bloody?" he demanded. "You are mine and for this I shall cut off both your feet at the ankles when I get you into the boat, so that there will be no chance whatever that you may again run away from me. But come, mate willingly with me and it will go less hard with you," and he drew her slim figure into his embrace.

"Never," cried Stellara, and she struck him in the face with her two clenched fists.

With an oath Bohar seized the girl by the throat and shook her. "You sheryth," he cried, "if I did not want you so badly I should kill you, and by the god of Korsar, if ever you strike me again, I shall kill you."

"Then kill me," cried Stellara, "for I should rather die than mate with you," and again she struck him with all her strength full in the face.

Bohar frothed with rage as he closed his fingers more tightly upon the girl's soft neck. "Die, then, you ——"

The words died upon his lips and he wheeled about as there fell upon his ears a man's loud voice raised in anger. As he stood there hesitating and looking in the direction of the sound, the underbrush at the upper end of the glade parted and a warrior, leaping into the clearing, ran swiftly toward him.

Bohar blanched as though he had seen a ghost, and then, hurling the girl roughly to the ground, he faced the lone warrior.

"Go away!" shouted Bohar. "Go away and leave us alone. This is my mate."

"You lie," growled Tanar of Pellucidar as he leaped upon the Korsar.

Birdseed is being raised on 82,000 acres in Argentina.

## Accident Prevention

MR. P. A. McFARLANE

Vice-president, Bell Telephone Company of Canada, who spoke at the Convention of the Industrial Accident Prevention Associations in Toronto to-day on "Accident Prevention—The Essential Cog in a Personnel Policy."

## Voice of the People

Letters to be printed in the Voice of the People column must be received at The Examiner Office on the day before it is desired to have them inserted.

### LEADS "NOWHERE."

To The Editor of The Examiner,

Sir,—J. H. Burnham's letter leads one "nowhere." The heading should have been "Where are We" without attacking the brains of leaders. The labourer has much need to attack the gray matter within the cavity fixed at the head of his appendicular frame. The fault is not in leaders nor yet entirely with the labourer, but in the system, in which the labourer finds himself a part. Most of the people on this earth are traditionists of different practices and opinions and are contented, so long as they are allowed or able, to get the "where withall" to keep them alive. Like sheep they are led by masters of opinion. The same masters like the butcher, who when the time comes, gathers or sendeth out his faithful dogs to gather in the flock lean and fat, must go to the slaughter. Take Russia to-day and remember we have great cause to fear Russia as a nation. I am no believer of a system without a great intelligence but a nation, to my way of thinking is the same as an individual. The labourer requires to labor insomuch as he shall be able to store or capitalize some of the product of his labour for his time of necessity. The same applies to a nation. What is the matter then?

The labourer, if worthy of his hire, is not receiving the fair share of the product of his labour. The system which allows such is at fault. Why should the accumulation of the capital of labour be held by a few financiers? Canada may become one of the greatest nations of the world under proper leadership.

Remember I speak of labour in the broad sense of the term. All who contribute towards the benefits of his nation as a "whole." In a country like Canada there ought to be no unemployment but more work than there are labourers to perform. The system of myself, in an individual, in a nation is its downfall.

J. Beggs.

## What To-day Means To You

"TAURUS"

If April 24th is your birthday, the best hours for you on this date are from 11:30 a.m. to 1:10 p.m., from 3:30 p.m. to 5:15 p.m. and from 8 p.m. to 9:30 p.m. The danger hours are from 8:15 a.m. to 1:30 a.m. and from 6 p.m. to 7:30 p.m.

April 24th, according to the stars, is fraught with danger and no risks should be taken. On the other hand, those who "carry on," conscientiously and industriously, will reap some unexpected reward. In the evening, the conditions denote restlessness and feelings of annoyance will easily be aroused.

A child born on this April 24th will be spiritual in its nature, and refinementand culture will mean much to it. Whilst strongly addicted to its home, it will have many outside interests of the higher type. It will plan carefully, execute intelligently, and it will only make friends with those of high ideals.

Born on April 24th, you have a very strong imagination. The commonplace never appeals to you. Without being one of its votaries, you are a great lover of Art. The glories of the Past stir you more than the utilitarianism of the Present. You could spend weeks in the Alhambra at Granada. You would see little to interest you in the Ford factory at Michigan.

You are somewhat of a dreamer, and love solitude where undisturbed, you can build "castles in the air." You are satisfied, and never try to make your dreams come true. If gifted with any literary ability, you should be successful in telling your fancies. You are very liberal in thought, very unselfish in action, and very conventional in conduct. You talk well, and are entertaining. Also, you can act well, and become diverting.

Not endowed with great ambition for material success, you would not shine in any executive position of responsibility In a secondary capacity, subject to one whom you really liked, you would always be reliable and dependable. Conscientiousness is one of your chief assets. Your emotions are very powerful and, when you mate, you will bestow on the chosen one a wealth of affection, and will demand much in return.

# CUT IN NEWSPRINT IS CAUSE OF CONCERN TO PAPER COMPANY

### International Paper Faces Heavy Loss if Reduction Met, Graustein Claims.

### MADE BY MANUFACTURERS.

BOSTON, April 24.—The International Paper and Power Company will have to consider immediately what it will do regarding a recent $5 a ton cut in newsprint prices by Canadian mills, President A. R. Graustein yesterday told stockholders. The stockholders in their annual meeting took no action on the situation.

Graustein, in reply to questions from stockholders, said the International company "did not join" in the cut, "but, of course, it is our policy not to make our customers suffer any unfair competition." He said the company has not cut the price of newsprint to any of its customers and that the "International has an established price at each destination and it has stuck religiously to that price without any exception whatever."

**Reduction Made by Manufacturers.**

The $5 reduction, according to information he had, Graustein said, was made "by a group of Canadian manufacturers—the Canada Power and Paper Company, Abitibi, St. Lawrence and others."

"If the International meets the Canadian reduction, it would cost the company a loss of $3,500,000 annually," Graustein said. "This," he said, "might be offset in part by increased consumption, but even if this does not happen and even if there is no improvement in business we should earn our preferred dividend after October of this year. The increasing efficiency of our mills and deliveries by our power companies on existing contracts and other progress should enable us after that date to earn our dividend after allowing for such price cuts."

Graustein said the company earned its preferred dividends during the last six months, but if it had to meet the recent price cut retroactive to Jan. 1, the effect on the dividend would be corresponding.

**Increased Earnings Looked For.**

Graustein said he looked for increased earnings of the power and utility properties of the company in the coming year. "In our Canadian power properties," he said, "earnings should again increase after Oct. 1 next because we have new contracts which become effective at that time. The earnings of our Canadian power property are unusually stable."

Directors elected for the coming year were Walter C. Baylies, Malcolm G. Chace, William Chamberlain, Frank N. B. Close, Frank D. Comerford, F. Eberstadt, F. L. Higginson, William N. Hurlbut, David T. Layman Jr., John R. Macomber, Rudolf Pagenstecher, Gifford K. Simons, Phillip Stockton, Albert H. Wiggin and Mr. Graustein.

All the officers were re-elected, with the exception of Mr. Hurlbut, who is a new member of the board.

## 'Wild Ginger' at Keene

The Presbyterian Young People's Society of Warsaw will present their play, "Wild Ginger", at Keene on Friday, April 24. One announcement had given the date as April 23, but a telephone call from Warsaw requested the correction.

Brail is revising downward its estimated government expenditures for this year.

## IN DAYS GONE BY

Items Taken From Old Fyles of The Examiner

**APRIL 24, 1921**

Mr. G. N. Gordon, M.P., intends to use his best efforts to prevent any but farm laborers and domestics being brought into Canada....Frederick Hills has been taken into partnership in Hill, Weddell & Company ....$340,000 will be the total cost of Peterborough's filtration plant.... During the last month, permits were issued for more houses than were built all last year....Gilson, local boxer, lost the final bout for the 175-pound title of Canada in Toronto to Hillier of Beamsville.

**APRIL 24, 1911**

Another arrest was made last night by Detective Newhall in connection with the East City robberies.... Lieutenant - Governor Sir Alphonse Pelletier will resign shortly because of ill health....The William English Canoe Co., of this city, has just put out their fiftieth annual catalogue....St. George's Day was honored yesterday by Englishhmen of the city....Tom Longboat, the Canadian Indian runner, is keeping in good shape for the big international race in New York on May 7th.

**APRIL 24, 1901**

Twenty-sven thousand Chinese troops are massed at three places under the chief Boxer generals....A drove of cattle to-day just about ruined the grass and flowers in Victoria Park....Steps will be taken to have the town decorated for the arrival of the Duke of York.... R. J. Munro, proprietor of the Morgan House, is making extensive improvements to his hotel....Jack Mooney and Don Hogarth, both formerly of this city, are on the executive of the New Ontario Lacrosse Association.

### THAYERS, LIMITED

Operating profit (before depreciation) $140,838.49.

At the annual meeting o Thayers, Limited held at the head office of the Company, London, Ontario, Mr. J. L. Thayer, president of the Company, reported that earnings for the year ended December 31, 1930, before depreciation and reserves, amounted to $140,838.49. In view of general business conditions, this figure is considered very satisfactory.

The preferred dividends of the company on th ir class "A" preferred stock amount to $35,000 so that the earnings for the year, before depreciation, were approximately four times preferred dividend requirements.

The company's liquid position has been well maintained and the company is reported to be experiencing a continued increase in gallonage.

Savings deposits in Germany are increasing.

Pynchon & Co., members New York Stock Exchange, have gone in liquidation. This likely is the cause for the sudden drop in stocks this afternoon. The market, however, got strength at the close.

### SHIP FOUNDERS—SIX DROWN

SAMARINDA, Borneo, April 24 (A.P.)—Six persons drowned when the Chinese steamer, Gotaisan, foundered between here and Sangkoel-Irang.

## FIRE EMPLOYEES IN LIQUOR STORE

Drayton Claims Drinking Going On—Corks Tapped, Liquor Poured Out.

### IN PORT ARTHUR.

TORONTO, Ont., April 24 (C.P.)—"We cannot tolerate things of that sort among our employees," said Sir Henry Drayton, Chairman of the Liquor Control Board, commenting to-day on the dismissal of four employees from the staff of the Port Arthur store.

"We have had evidence that there was drinking going on," said the chairman. "There was also tampering with bottles, holes being made through corks and some liquor taken out in that manner. Other liquids were probably put in to replace what was taken out."

Sir Henry did not think that the theft of liquor through the perforated corks amounted to very much in volume.

## BURGLAR IN TOILS THEFTS SOLVED

TORONTO, Ont., April 24 (C.P.).—When James Cookburn, of this city, spied two men running from the rear of a Bay Street store early to-day and caught one after a brief chase, he began a series of investigations which police believe will clear up three weeks of store breaking in and around the downtown section.

Going to an address given them by the arrested man, Enest Duncan, police found his companion, William Payne, and made a second arrest. The men admitted 22 charges and have been entering stores all over the city since January, police say. They tried mostly to smash safes in stores.

## TORONTO LIST IS IRREGULAR

Some Issues Plunge to New Lows While Others Retain Small Fractional Gains.

### SERVICE STATIONS WEAK.

TORONTO, Ont., April 24.—(CP)—Still unsettled but not under such severe pressure, the Toronto Stock Exchange market this morning showed a mixture of price changes. Some issues lost yesterday's late gains to equal their lows for the year, a few plunged further down to set new records and others retained small fractional gains.

Generally, however, stocks eased slightly after the opening with trading falling off in volume in the second hour and the list steadying somewhat. The market at midday was extremely dull again. There was nothing in the news to influence the situation bolated liquidation drove some stocks lower, while the inter-listed issued lagged along behind New York.

Service Stations was a weak spot, losing a point to a new low for the present shares of 16. Building Products at 20 was also at a new low and the main steels, Page Hersey Tubes and Steel of Canada, equalled yesterday's low marks.

Among the pivotal shares, International Nickel and Brazilian failed to hold to the rally of last night and both were down about ½ point at midday. C.P.R. and Ford of Canada retain small gains and some of the oils were up slightly. Although the group still reflected selling and eased back from opening prices. Changes in any case were very small.

Walkers sold at its record low of 6, Canada Cement slipped below 13, Smelters lost a couple of points to 110.

## ONTARIO BAKERIES BONDHOLDERS MEET

Two Motions Made by Ontario and Montreal Groups.

TORONTO, April 24—Bondholders of Ontario Bakeries Limited, met here yesterday to receive the report of a committee appointed at a previous meeting. Dr. Sprott was elected chairman and the scrutineers reported that $662,400 par value of the bonds were represented.

The chairman of the committee reported that up until a half-hour before the meeting they were prepared to propose a resolution waiving bond interest until December, 1931, conditional on the company depositing sufficient stock with the trust company to elect directors and for their re-election in June when representatives of the Montreal interests stated they had been authorized to vote for the suspension of interest only. The committee was not satisfied to agree to the suspension of interest without control and were not prepared to release the company from the claim of bond interest and give the directors a new lease of life. The committee was not prepared to leave the affairs of the company in the same hands and defer bond interest.

The chairman explained the holdings of the Ontario and Montreal groups were about evenly divided and as it required a two-thirds vote the meeting was deadlocked.

## *Macassa Mines Has $181,392 Cash Assets*

Annual Report Confirms Statement of Financing—Shaft Started March 20.

TORONTO, April 24 — Macassa Mines annual report confirms previous statements that financing arrangements had been completed. Robt. A. Bryce, president, says in this connection, "On March 10, 1931, your directors successfully concluded arrangements to sell treasury stock to a strong financial group in New York. It was, therefore decided to start the sinking of a new shaft to a depth of 1,500 to 2,500 feet about the centre of the property. This work was started on March 20, 1931."

The balance sheet of the company shows on February 28 the company had liquid assets of $181,392 with only $515 of current liabilities. There were at that time 3,175,000 shares outstanding, leaving 1,825,000 shares in the treasury. Regarding the item in the balance sheet of $175,341, shares in other company, it is noted that "these comprise chiefly dividend paying gold mine stocks which had a market value at February 28, 1931, of $176,972. This market value had increased considerably since that date."

### DOMINION GLASS

Dominion Glass common has displayed great resistance during the recent setback and continues to be well bought at 120. This company during the first six months of its fiscal year enjoyed a satisfactory volume of sales all points considered. This organization has a source of very large demand from the beverage industries but as the sales of the distillers have been hampered a corresponding effect has been noticed in the demand for bottles. Dominion Glass output is well diversified and includes a wide line of glass ware and staple glass products.

Dividends are paid at the rate of 7% on both preferred and common shares. Earnings may not be sufficient this year to cover the dividend on the Junior stock in full but the company's exceptionally strong balance sheet will enable the management to maintain it without any difficulty.

## Winnipeg Review

Special Service to The Examiner through the courtesy of E. J. Bawlf Company, Grain and Stock Brokers, of Toronto

Wheat opened lower based on the cables but the loss was quickly recovered with good buying continental houses during the first half hour. This again was followed by strength being shown in the New York stock market which brought in some confidence into the grain market and prices advanced to ¾ over the previous close, but this bulge was not held, the market again sinking under its own weight with very little going on turning quite weak during the last period with new lows being recorded, and this also was in sympathy with the stock market which late in the day assumed a downward trend. Despite the fact that this market Wednesday closed lower, there was no export business worked worth mentioning overnight and no business came in yesterday morning, outside of the buying by the Continental houses at the start, this demand being quickly filled, after which the market turned dull and featureless, with just a small local trade passing. Liverpool more than followed the decline of Wednesday closing 7-8 to 1 penny lower, and Buenos Aires was 5-8 to 7-8 lower at mid-day. There was only a moderate demand for cash wheat, with exporters not inclined to take hold until new export business developed. Offerings continued on the light side and spreads were unchanged to ¼ lower on No. 4 grade. World's stocks of wheat decreased 30,204,000 bushels in March compared with an increase of 28,742,000 in February. The total now is 600,085,000 as against 518,003,000 a year ago.

Coarse Grains.—The feature in the markets was the fact that a little export business in oats had been worked out of Montreal. This is the first in a long time but the amount was not stated. There was nothing doing in barley or rye, but it is expected that Germany will shortly be forced to buy both wheat and rye as native supplies are about exhausted.

Liverpool due 7-8 to ¾ lower based on Winnipeg.

## PYNCHON FIRM SUSPENDED BY N. Y. EXCHANGE

Company Holds Memberships in Thirteen Other Security Markets.

### FOR INSOLVENCY.

Headed By George E. Pynchon, Firm Has 21 Partners in New York, Chicago and England.

NEW YORK, N.Y., April 24 (C.P.)—Pynchon & Company was suspended from membership in the New York Stock Exchange to-day for insolvency.

Announcement of the suspension of the firm, which holds membership in thirteen other security and commodity markets in the United States and abroad, was made from the rostrum of the Exchange about 2.25 o'clock this afternoon.

Headed by George M. Pynchon, the firm has 21 partners, residing in New York, Chicago and England. It maintains offices in Chicago, Milwaukee, Battle Creek, London, Liverpool and Manchester, England. Salesmen headquarters are in Boston, San Francisco, Philadelphia and Richmond, Va.

Its other Exchange memberships are New York Curb and the Cotton, Produce, Cocoa, Rubber, Metal, Coffee and Sugar and Raw Silk Exchanges, all in New York; Chicago Stock Exchange and Board of Trade; Winnipeg Grain Exchange; Liverpool Corn Trade Association, and Liverpool Cotton Association.

## Smelters Hold Steady At Thursday's Close

MONTREAL, Que., April 24.—(CP)—Mixed changes of small proportions marked trading on the Montreal Stock Exchange this morning, many of the heavy losers of the past few days holding their ground with fractional changes only.

Consolidated Mining and Smelting seemed to have stopped the heavy run, holding steady at 100, yesterday's close. Montreal Power showed an early loss of a little over a point, but recovered to 57 1-8 at noon, off 3-8 on the morning's sales. Nickel was steady at 16. Abitibi lost a point at 6 and Viau Biscuit was off 1 at 15. Dominion Bridge was up ½ at 42 and Power Corporation gained ½ at 56. McColl Frontenac gained ¼ at 14¾. Cement lost 3-8 at 12½.

## *Veregin Mausoleum Is Wrecked In Blast*

NELSON, B.C., April 24.—The marble and granite mausoleum of Peter Veregin the elder, overlooking the Doukhobor town of Brilliant, was blown up early this morning. The grave itself was not disturbed by the blast.

The outrage was believed to have been perpetrated by members of the Sons of Freedom branch of Doukhobors, to whom previous blastings and burnings have been attributed by police.

An unsuccessful attempt was made a couple of months ago to destroy the tomb, when six sticks of dynamiet were set. These failed to explode.

## LEADING GOLDS STAGE ADVANCES

Hollinger Turns Irregular But Is Up 10 Points at Midday.

### NORANDA STRONG.

TORONTO, Ont., April 24.—Under the leadership of higher-priced stocks, prices in general on the mining market to-day showed improvement, gains predominating in most groups at midday. Turnover remained relatively light and featuring issues were absent.

Hollinger, on reports of important developments in the lower levels of the Schumacher, met early demand, but sold off towards noon to stand up 10 at $8.30 when taken. Teck-Hughes advanced a like amount to $8 and other more important golds were holding.

In the cheaper golds Macassa was under renewed accumulation and gained 5 to 48 and Central Manitoba and Arno registered point gains. Eldorado eased a couple to 73 in light trade.

Noranda was strong from the opening and at noon was up three-quarters to $22.50. International Nickel was firm at $16. Amulet gained a couple to 33 but Abana was off a point and Sudbury Basin down 2.

Oils were quiet but somewhat stronger, with Ajax up 5 to $1.40 and Acme and Nordon a cent or so higher at 20 and 32 respectively.

## *Liverpool Firmness Sends Chicago Up*

CHICAGO, Ill., April 24.—(CP)—Crop deterioration reports from Kansas and unexpected firmness of Liverpool wheat quotations led to early upturns to-day in grain prices here. Absence of any important amount of mois ure in spring wheat territory was also a bullish factor. Opening at a shade decline to 5-8 cents advance wheat later held near to the initial limits. Corn started 1-8 off to ¼ up, and subsequently showed all around gains.

## EYES OF LOVE.

"Eyes of Love" by Lillian Mortimer was the title of a well attended comedy drama presented by the Dramatic Group of St. Luke's A.Y.P.A. last evening in their parish hall. The play was a great success, and this success was particularly interesting as only four of the cast had ever acted in a major presentation before.

The scene of the comedy is set in the library of Judge Barry's country home on the St. Lawrence. During a visit to a certain hospital in the West, Judge and Mrs. Barry had taken a great fancy to a tiny infant whose mother had just died and whose father had suddenly disappeared. As they had no children of their own, the Barry couple decided to adopt the baby. When the curtain rises on the first act it is about 19 years later and Gailya, the adopted daughter, is a beautiful young lady. It appears that she has two suitors, Royal Manton and Burt Wade. The latter has been rather unsuccessful and in an attempt to win Gailya has hired Clark as a butler, to spy upon her.

An excaped convict appears and solicits aid from Gailya who is alone at the time. From first sight Gailya takes a liking to him. Later she discovers a very peculiar family trait in his eyes, and recognizes him as her real father. It turns out that this man, Jim Rankin by name, was wrongfully accused on a charge and had been hurried away to prison. With his release and Gailya's marriage to Manton the play is brought to an appropriate ending.

The various characters in the drama were well taken by the amateur actors. The following are arranged in the order of their appearance.

The part of Caroline, was well taken by Agnes Moore.

Eleanor Bothwell played the part of Gailya.

Gailya's two-faced friend, Reeta, was accurately portrayed by Edith Wills.

Norman Heath did well in taking the part of Burt Wade.

Margaret Whitaker takes the part of Mrs. Barry, who is a refined woman of beauty and dignity. Her white hair and becoming costume show her to be a lady of about 45 years of age.

The lively maid of 19, Lora, was played by Muriel Krant.

Clark, the sly butler and employee of Burt Wade in his nefarious designs, was ably characterized by Herbert Lee.

Cecil Hope took the part of the old Judge.

Royal Manton (Keith Wills) is Wade's rival in love and about the same age.

Douglas Bethune as Jim Rankin, the convict, and formerly Gailya's real father did remarkably well.

The success of the comedy drama was due in a large measure to the efforts of Miss Queenie Hope, the director and William Hill, the stage manager.

## HOW'S BUSINESS

(Continued from Page 1)

thing great. One who is satisfied will never work nor think hard. The strenuous life is apparent on all hands. No undertaking is too difficult or spectacular. What is there that can't be done, he challenged. Nothing! all things are possible.

**Tourist Best Bet**

The speaker quoted several concrete examples of what could be accomplished, and spoke also of the stimulus of cheerfulness.

Touching upon the tourist trade, he contended, "it is the best bet Canada has got", but he charged, "we are doing nothing, comparatively speaking to develop the tourist traffic."

Quoting from figures supplied by the Dominion Bureau of Statistics, he stated, last year Canada had over 20 millions of tourists, from the United States alone, who left the enormous sum of $300 million in the country.

"Does that carry any challenge to you. It does to me. The American tourist traffic is the best bet that Canada has. It is worth more and can be made worth more than any single industry. Our district should be to the American in the summer time, what Florida and California are to the Canadian in the winter."

"What an age we are living in! What an age of opportunity! Look about you—was there ever an era so fired the imagination with the spectacle of big things done in a big way? Consider the new financial ventures on foot in every direction. Huge investment trusts, tremendous construction activity, vast steel production, automobiles pouring into the market and the famous "saturation point" ever farther away. Ford back in full swing, yet General Motors more prosperous than ever. Millions staked on the future of the aeroplane. Radio stock that cost the General Electric $1,240,000 in April, 1921, worth more than $124,000,000 to-day. New industries are springing up everywhere; babies to-day, giants to-morrow. Even the optimist is dazed. Are we awake to the times and opportunities?"

"Each one of us must do our bit to keep Canada in the lead, and work in the most efficient manner every day. We must be prepared. Unless we continually plan for the future and then strive to carry out the plan, it is impossible to make progress. We are limited only by ourselves and our success will be measured by the number of hours we devote to actual work."

The meeting was outstanding in other ways, too. There were numerous guests present from Lindsay and Toronto, and C. Boker from the former place entertained the gathering with several humorous character sketches and songs.

Appealing for the Kiwanians' support at the forthcoming Y.W.C.A. Gymnasium display, little Barbara Miller appeared, and instantly won the favor of her admiring audience.

Walter Kidd was booster for John Hall, newly appointed manager of the Canadian Department Stores here. Mr. Hall, it was stated, is a native of Toronto, and after receiving his education at Toronto Public and High Schools, he became associated with the Robert Simpson Company, with whom he worked for eight years, four of which he spent at Halifax. Returning to his home city, he joined the staff of The T. Eaton Company, and has now advanced to his present position of importance. He is a golfer and fisherman.

President Allen announced that he is leaving to-morrow for Miami, Florida, where he is to represent the local club at the forthcoming convention. District Governor I. P. McNabb and Dr. J. J. Craig, it was announced, will join him there at a later date.

### FOREIGN EXCHANGE.

NEW YORK, N.Y., April 24.—(CP)—Prime mercantile paper 2¼-2½ per cent.

Foreign exchange steady demand rates (Great Britain in dollars, others in cents): Great Britain 4.86 1-16; France, 3.91; Italy, 5.23 5-16; Germany, 23.81; Canadian dollar 1-16 of one per cent discount.

## SUBSTANTIAL RECOVERIES MADE IN NEW YORK EXCHANGE TRADING

Although Westinghouse Electric and Some Oils Cause Flurry in Early Trading.

### RAILS UP IN SPOTS.

NEW YORK, N.Y., April 24.—(CP)—The selling flurry in the stock appeared to have burned itself out to-day, and the list accomplished substantial recovery in dull trading.

The market showed some signs of nervousness in the early trading, when Westinghouse Electric, some of the oils and miscellaneous issues, were offered rather freely but the list turned upward before midday.

The rails, which dragged in the late rally yesterday, showed better recuperative power in spots, Atchison and New Haven getting up about 3 points. Southern Pacific, however, was a weak feature, declining more than 3 points to the lowest in seven years. Issues rising 1 to more than 2 points included American Can, National Biscuit, North American, Air Reduction, Woolworth, Sears, North American, United Corp., Consolidated Gas, Kroger, Union Carbide, American Tobacco "B", Allied Chemical Electric Autolite and Corn Products. U.S. Steel fluctuated uncertainly. Westinghouse dropped 4 to a new low since 1927, and Standard of N.J., and Texas Corp. sold off about a point to new lows for the movement.

## *Neill Stores Give Trophy To Bowlers*

**A trophy for competition between the Lindsay and Peterborough bowling clubs is being presented to them by the R. Neill company's shoe stores in these neighbouring towns. Details of the conditions of the Neill cup games are to be arranged by the two clubs. Weekly rink games have been suggested. The Neill Cup gift was welcomed by members of the Peterborough Bowling Club this morning as a means of bringing them into closer relations with the Lindsay bowlers.**

## ISABEL TO REST IN FRENCH GRAVE

Funeral of Royal Spanish Exile Will Be Held in Paris Saturday.

### USE AMBASSADORS' VAULT.

PARIS, April 24 (A.P.)—Dona Maria Isabel Francisca, Infanta of Spain, who lived until nearly eighty years old, only to die in exile from her native land yesterday, will be buried Saturday in the Pere Lechaise cemetery.

Don Jose Marie Quinones de Leon, Spanish Ambassador in Paris under the Monarchy, has placed his family vault at the disposal of her nephew, the deposed Alfonso, now in London, for the interment. Don Alfonso de Bourbon, cousin of the King, will represent him at the funeral.

It was Don Alfonso's wife, the Infanta Beatrice, a sister of Queen Marie of Rumania and a granddaughter of Queen Victoria of England, who remained with Isabel, or Isabella, when all the rest of the royal family fled to France during last week's difficulties.

The body rested to-day in the simple rough brown robe of the Tertiary Franciscan Order, with beside it a silver statuette of the Madonna del Pilar. Spanish nuns watched over it while a reverent line of Spanish Monarchists passed the bier.

The aged Infanta died in a clinic yesterday, only a few days after her arrival in exile here from Madrid with the Infanta Beatrice.

### TRENT RIVER

In the account of the social evening given at the home of Mr. and Mrs. George Vanvolkenburg Tuesday night, one item was omitted on the program. A contest was given to guess the number of beans in a jar which was won by Miss Helen Scott, for the girls' class and by Willie Cowell, for the boys' class.

Seeds, sent by the Government, to the teacher of the public school, Mr. R. W. Umphrey, were distributed to the pupils the beginning of the week.

A new bat and ball, for use at the public school, arrived Tuesday.

## DUTY INCREASES

(Continued from Page 1)

onion sets, 15 cents per pound, rhubarb, 4 cents per pound; spinach, 3 cents per pound.

These valuations will stand all Summer, according to present intentions. The aim is to give the Canadian grower the entire domestic market, and to give it to him soon enough that the early vegetables of the United States will not have spoiled the demand by the time the later Canadian stuff is ready.

**May Be Others**

It is considered not unlikely that during the next month or two other fruits and vegetables will be added to the list.

All the values fixed at the point of production. Special precaution also is taken against the practice sometimes employed of shipping goods from some point in the Southern States to say Buffalo, and holding them in cold storage there, ready to be dumped over the Canadian border the first time the prices here look good. Where such diversion takes place, the order-in-Council provides the value for duty shall include the freight and all other shipping charges from the point of production to such intermediate point.

The order is effective as of Wednesday, but does not apply to goods purchased before that date and in transit before Saturday. Thus, those who purchased goods before Wednesday have all to-day to get them en route and beat the tariff.

"The action of the Government in fixing the value for duty purposes on certain vegetables is a proper one" said David Spence, member for Parkdale, who is interested in the industry to-night.

# ONTARIO FARMERS TO BE GIVEN ASSISTANCE FROM GOVERNMENT

(Continued from Page 1)

H. J. McCannan, F. J. Overend, J. J. Turner, Dr. C. B. Waite.

Colonel Kennedy the speaker of the evening, was introduced by J. P. Strickland, K.C., M.P.P.

"I feel sorry for those who do not take great pride through working on the farm," said the Hon. Mr. Kennedy in expressing his own pride in being a farmer and following "the most ancient profession." "Happiness and health are ours and above these there is nothing of greater price," he declared.

"You say that you are passing through a period of hard times," continued the minister, "but I want to tell you that there have always been hard times." He quoted the Biblical story of Joseph and the Seven Fat Years and Seven Lean Years. "It is our job to provide for the lean years by storing up, saving money, improving our farms and machinery so that we may say "we have grain in Egypt."

Declaring that he had always been struck by the lack of education and proper training of those engaged in farming, Mr. Kennedy admitted that when he commenced farming he had visions of making a million dollars. "I lost money until I adopted common sense methods, facing facts as they exist and then I began showing profits. I want to tell you that money can be made on the farm, and will be made by those who know how to do it properly."

He praised the work of John Martin, whom he succeeded as Minister of Agriculture, especially since it was directed toward further developing educational facilities for boys in agriculture.

"Farming now is technical; anyone who doesn't realize that is bound to failure. We must prepare the boy to farm," Mr. Kennedy said and pointed out the work being carried on in that direction at the Gvernment Agricultural Schools. He stressed the fact that at present time his department was unable to find a qualified teacher for an agricultural school and that it was this absence of qualified teachers that was retarding further agricultural training among boys.

In trying to develop the proper method of training, he said that the three month schools as conducted annually by agricultural representatives was perhaps the best.

Because a way had been found to make hens lay all the year around, he said fresh eggs in abundance could be purchased in Toronto chain stores throughout the winter. "Ontario is in advance of the world in poultry," he declared, giving full credit to the work of Professor Graham in taking blood tests of flocks for this success. "Through the blood tests in flocks Professor Graham has made it possible for eggs to be sold at a profit at 25 cents a dozen. That is because the blood-tested flock lays twice as many eggs."

Another accomplishment of Professor Graham, mentioned by Mr. Kennedy, was the prevention of black heads among turkeys. Through his work 2,100 turkeys were hatched in Norfolk county last year and not one bird had black head.

In old days, he said, the boys were only taught how to produce, now they are taugh economics—something about saving money and showing balances. "We try to demonstrate to the boys how prosperous they may become as farmers as compared with those in other pursuits."

Mr. Kennedy pointed out that because of lower prices for farm produce during 1930 the farmers' purchasing power in Ontario has decreased nearly $100,000,000. In 1929 the Ontario farmer sold his crop for $490,000,000 and for last year's crop he received but $402,000,000.

"In teaching producing methods it seems that we have forgotten the need for marketing," Mr. Kennedy declared, inemphasizing the farmers' marketing needs."

He pointed that Ontario does not grow enough to feed its people. Listed chiefly among this provinces few exports are cheese, honey and apples.

"We import a tremendous amount of farm products," he stated. "Yet we have great agricultural resources. It is our job to get the farmers together for their marketing. Individually the farmer can get nowhere. It is up to the Government to help him market his produce."

Illustrating the swing that marketing has taken, he said that chain stores were endeavoring to purchase potatoes by the 200 car-load. Ontario does not grow sufficient potatoes for seed, he said, relating that 1,500 cars of seed potatoes were this Spring being brought in from the Maritime Provinces.

Annually 1,200,000 dozen eggs are imported into Ontario. Pork products are imported from the United States, also, and bacon from Denmark. Last year, Canada sold 5 million hogs for 100 million dollars. It will seem strange to those who do not understand the export market, he stated, but if we had sold six million hogs we would have had to enter the export market and would have received only 90 million dollars.

Mr. Kennedy listed the most money making products of the farm in the following order of merit: milk, eggs, meat, pork, potatoes and apples.

"We are favored in that the Ontario farmers have their market here, but we must make it our own," declared Mr. Kennedy.

**Tomato Advertising Campaign**

He drew attention to the advertising being done by California orange growers to tell of the health-giving qualities of oranges and to persuade the people to drink more orange juice. "Last week the orange growers had the back page of the Saturday Evening Post. It was a splendid advertisement, beautifully done and giving the message of "Orange juice for health."

"It is fully known now by medical men that tomato juice contains the same health-giving vitamins as orange juice. I say drink orange juice if you want to, but you will get the same beneficial results if you drink tomato juice. We are going to launch an advertising campaign to tell the people that tomatoes and oranges have the same vitamins and that they should drink tomato juice" declared Colonel Kennedy.

Last year he said Ontario wineries had been ordered to use one million pounds of Ontario honey. Annually these wineries use 20 million pounds of Cuban sugar. "They are compelled to use Ontario-grown grapes and cherries, why not make them use Ontario-grown honey?" asked the minister.

Hours every week for months, he said he had watched women buying in chain stores. "I have learned," he said, "that it is the price the woman is willing to pay at the store that fixes the price for the farmer."

Continuing his illustrations of better marketing methods, he said that Lambton last year grew $360,000 worth of celery, most of which spoiled in cold storage, and the growers took a loss. "Why, because it wasn't placed in cold storage soon enough. At Rochester they keep celery all winter, because they place it immediately in cold storage. The celery growers marketing problem is a cold storage plant and then they can store $500,000 worth and more and sell it easily."

Mr. Kennedy said that the Marketing Board had been established to assist the farmer in solving these marketing problems.

Another illustration of successful marketing methods was sour cherries in Wisconsin. Some years ago the sour cherries in that States were not even picked. Then through advertising lemon pie was displaced as the most popular American pie in favor of cherry pie. But first it was learned how to keep and transport the cherries by quick-freezing. "Last year 105,000 forty-gallon cases were frozen, and instead of the cherries rotting on the trees, the Wisconsin farmers are planting cherry trees and still can't keep up with the demand," commented Mr. Kennedy.

He stated that Ontario cheese was meeting great competition on the British market from the New Zealand product, although Canadian cheese is still favored. He gave the complaint as expressed by English cheese buyers that "Canadians were in the outers," that Canada shipped a big supply of cheese to England one year and none the next, depending whether the market in some other country was better. "We must study the English market from a farmer's point of view," Mr. Kennedy stated.

He stated by central packing and packing in cold storage Canada has sold more apples on the English market last winter than in many past years, giving this as an illustration of successful marketing methods.

"But we can't keep these new markets for our apples unless we send more apples of the same quality next year," warned the minister.

He stated that a farmer who was consistently going behind was better off the farm.

Expressing again his firm conviction that Canada will come out of the depression stronger and wealthier than before, he stated that a study of history showed that progress and advancement had swung northward and that it would do the same on this continent because the people are hardier, have more pep and initiative.

Mayor Denne and Alderman E. M. Turner briefly expressed the satisfaction that the City Council and citizens in general bear toward the work the Chamber of Commerce is accomplishing in furthering the progress of this city.

T. P. Lancaster, M.P.P., for East Peterborough, declared that the work of the Chamber was benefitting the whole county and he urged that more farmers join the organization.

J. J. Duffus moved the vote of thanks to Colonel Kennedy and in doing so urged the support of whole county in big plowmen's meet to be held here this fall. Frank Kitney, a director of the Ontario Vegetable Growers' Association, was the motion's seconder.

The guests were introduced by W. H. Bradburn, ex-M.P.P., and George A. Gillespie. The guests included: Frank Kitney, Wm. Thompson, president of Norwood Fair Board, C. W. Seymour, representative of the County Holstein Breeders' Association; T. W. McIndoo, vice-president of the Peterborough Industrial Exhibition; E. A. Scott, secretary of the Peterborough U.F.O. Club; Ed. Butler, president, and A. Hunter, vice-president of the County Milk Producers' Association; J. McCann, Clarence Mann and Harry Jackson, representing Central Ontario Ayrshire Breeders' Association; Walter Bowles, president County Shorthorn Breeders' Association; John Coward of Hiawatha; Walter M. Fowlds, ex-warden of the United Counties; and Colonel Dalton Johnson, ex-M.P.P.

Hine, "Ten Days Wonder"; Roberts, "Indiana Jane"; Chamberlain, "River to the Sea"; Mitchell, "Water"; Young, "The Wife of Hesa"; Carrae, "The Bone of Contention"; Dormie, "Snobs"; Archibald, "The Token"; Le Queux "Factotum"; Hosken, "The Pretender"; Clarke, "As The Gentle Rain"; Cullum, "The Longer Day"; Keyte, "The Emperor's Behest"; Rhys, "Tales Far and Near"; Lucas, "Down in the Sky"; Williams, "Mannequin"; Clough, "Enchanting Clementina"; Watson, "A Boy of the Great North West"; Rochem, "Portrait of a Dog"; Pocock, "Somebody Must"; Brenning, "Death Plot"; Sutherland, "Cross Fire"; Deeping, "Sorrell and Son"; Bennett, "Imperial Palace"; Orczy, "Marivosa"; Browne, "Leave It to Susan"; Ruck, "Offer of Marriage"; Leacock, "Laugh With Leacock"; Ellsburg, "Pigboats"; Brand, "Smiling Charlie"; Dutton, "Murder in a Library"; Gilpatrick, "Scotch and Water"; Syrett, "Strange Marriage"; Brown, "Nomadness"; Glaspell, "Ambrose Holt"; Bindloss, "Prairie Patrol".

# DAMAGE ACTIONS FACING BELMONT

## Township is Being Sued for $1,500 Following Highway Accidents.

### COMES UP TUESDAY

Arising out of a motor accident on Rock Hill, Stoney Lake road, Belmont Township on March 16th, 1930, The Corporation of the Townships of Belmont and Methuen is named as defendant in two actions, to be heard at a special sitting of the County Court here on Tuesday next, and involving the sum of $1,500 and costs.

W. F. Huycke is acting for both plaintiffs, while the defendant corporation is represented by Messrs. Gordon and Elliott, of Peterborough.

Fred Wrightley, who is claiming the sum of $500, is the plaintiff to one action. He is an employee of the C.P.R. residing at Havelock.

On March 16th, 1930 he alleges he was travelling in a motor car of which he is the owner, and which was at the time being driven by his wife, Myrtle Wrightley. The vehicle was proceeding along the Stoney Lake road, when at a point known as Rock Hill, the car left the travelled surface of the road and fell a distance of approximately eight feet to the ground beneath.

**Automobile Damaged**

The automobile was badly damaged, and required an alleged expenditure of $60 to put it in running order, while the plaintiff was so severly injured that he was prevented from carrying out his duties with the C.P.R.

He claims that the damages and injuries were caused solely by reason of the default of the defendant corporation, and by their failure to keep the highway in a proper state of repair. He alleges that the default consisted in that the defendant corporation undertook to do certain work upon the said highway and raised it to a greater height above the level of the adjacent ground, and failed to protect the highway by an adequate rail or guard.

The other plaintiff, who claims the sum of $1,000 and costs, is Annie Kirby, 64, a widow residing at Highland Park, Illinois. She was a passenger in Wrightley's car at the time of the accident, and as a result received severe injuries.

The defendant corporation specifically denies the allegations of negligence, and states that if the plaintiffs were damaged or injured in the manners stated, such injuries or damages were due to contributory negligence, in so much as the surface of the highway was covered with ice at the time.

# INDIA ADVANCES TO NEW FOOTING

(Continued from Page 1)

constitution was in doubt. Now, with the support of the States, the question took a wholly different aspect."

The Federation scheme afterwards temporarily elaborated was that of a self-government as understood in a Dominion, but the most important and the most difficult of the questions left outstanding was the question of safeguards for the various Indian authorities. This was met with a statement read by the Prime Minister, Mr. MacDonald, at the final session. This statement, which declared that His Majesty's government would be prepared to recognize the principle of the responsibility of the executive to the legislature, the basic principle of British parliamentary government, had a profound effect in India, said Sir William.

**Result of Conference**

The truce at Delhi between Mahatma Gandhi and Viceroy Lord Irwin, which was a virtual result of the Conference, and the end of the civil disobedience campaign, Sir William remarked, showing that co-operation is gradually taking the place of abstention and opposition, in spite of the disquieting Hindu-Mahommetan riots which recently followed at Cawnpore, an example of the communal problem which can be solved only by the Indians themselves.

"I have not attempted to minimize the difficulties that remain," Sir William said in concluding, "but I trust that I have been able to show that there are now solid grounds for a great hope. And we who care for India, and who also know Lord Willingdon, his wisdom, his courage, his broad humanity, his devotion to the service of the State, will draw much encouragement from the thought that at this crucial period of her history, the guidance of India's destinies will be in his hands."

# GOV'T BUSINESS

(Continued from page one)

selves and the Board of Railway Commissioners.

**Copyright Question**

The vexed question of copyrights was aired when Hon. C. H. Cahan, Secretary of State, sponsored an amendment to the present act as far as a special committee which will investigate the whole situation. The matters involved are intricate and delicate, and likely to provoke vigorous hostility from many quarters. It has points of contact with published material and the rights of the author therein, with theatrical productions, music, radio, broadcasting and other cultural and business activities. Anomalies in the present Canadian Copyright Law are expected to be removed by Mr. Cahan's amendments.

Second reading was given to a measure designed to eliminate inconsistencies connected with naturalization. As a case in point, if a Canadian woman marries a United States citizen, she ceases to be a Canadian subject (under the present Canadian law), but she does not become a United States national (under the United States law). Consequently, she is without a country. The present measure contemplates adjusting this condition so that a woman in the foregoing circumstances would continue to be a Canadian subject until she automatically became a citizen of the United States, in accordance with the laws promulgated by that country.

**$1,000,000 Oligation**

The Prime Minister disclosed that the operations of the Montreal Harbor Commission have involved the Dominion in a possible annual obligation of $1,000,000 in connection with the new Longueuil bridge, the Dominion having to foot a deficit of this amount—a deficit over which it had no control. Sir Alexander Gibb, the noted British authority, would enquire into the whole of the Montreal harbor situation, as well as examining the affairs of other ports in Canada. Churchill would not be one of them, however.

A number of questions were asked and answered, of which the most interesting was that Parliament will this session have an opportunity of discussing fully the tariff changes approved at the special seccion last September. Due to the necessity of getting the Prime Minister away to the Imperial Conference, the debate on these was greatly curtailed.

It was also stated that the mechanization of the Canadian Artillery (Permanent Force) has cost the country $158,146.00.

S. W. Jacobs (Lib., Cartier) got first reading to his bill which would do away with the necessity of re-electing members to the Commons on their appointment to Cabinet rank.

# ALIEN SMUGGLING RING CENTRE IN CANADA SECRETARY DOAK SAYS

**Charge $500 a Head if Labor Chief's Charge—Defends Illegal Technique.**

**FINNS BROUGHT IN.**

WASHINGTON, April 24.—Answering criticism of the illegality of deportation methods employed by the United States department of labor, secretary William H. Doak refers to Canada as the source of the major part of alien smuggling into the republic and implies that only illegal technique can comabt this smuggling.

Criticism of the immigration officials is contained in a study of deportation methods prepared for President Hoover's national commission on law observance and enforcement by Attorney Reuben Oppenheimer, of Baltimore.

"Immigration authorities had knowledge of the existance of this gang of smugglers in Canada," declared Secretary Doak, "and knew that for a fixed price, ranging from $100 to $500 a head, the group would undertake to run aliens illegally into the United States."

The secretary spoke of the recent raid on a Finnish dance in New York and the arrest of 20 Finns without warrants. "The immigration authorities have been informed," he went on, "that fully 1,000 Finns who left Finland and entered Canada as immigrants are now unlawfully in New York City alone, and it is strongly believed that a good many more who have been smuggled in under like circumstances (through the Buffalo district, across the Niagara River) are now in other parts of the country.

"These facts concern only one race of alien people and the seriousness of the situation becomes apparent when it is considered that like systems of violating the immigration laws are in operation with respect to other nationalities. In some instances it is known that the operation of these systems begins abroad and extends to all of the borders of the United States."

**Knows Problem.**

Assistant Secretary W. W. Husband, who, as U. S. commissioner of immigration for many years, has been more intimately in touch with immigration problems than any official in the department of labor, agrees with Secretary Doak that "the judicial illegality" of arresting aliens without warrants of any kind is necessary if the immigration authorities are to accomplish any increase in deportations.

"I don't know whether Canada beats Cuba as the source of this alien smuggling," said Mr. Husband, "but it's certainly just as bad. All along the border in Canada are persons whose chief business seems to be getting aliens in the United States for a consideration. Just recently we picked up a poor girl in Buffalo whose last payment to a fellow for rowing her across the Niagara was $100. What her other payments had been I do not know. I guess that's one of the most expensive ferries in the world. The girl had to go back to Jugo-Slavia and the crook has her money."

"Yes, the Canadian officials co-operate with us to the best of their ability and are always glad to get information from us. I don't know just what treaty relations we have with Canada in respect to this problem, if we have any, but it's a hard game to beat unless you man the entire border."

The arrest of aliens without warrants, a violation of the rights accorded aliens under the U. S. constitution, classed by Mr. Husband as a process in administrative procedure. "We are not dealing with bales of cotton or crates of straw hats," he said, "with things that can be put in storage while a judicial decision is arrived at. If we couldn't hold these people for further inquiry without warrants they'd, of course, get away."

Mr. Husband said that the local police of the district where the aliens are picked up almost always co-operate in the arrest and holding of aliens. "One trouble is," he admitted, "that no provision is made either for the immigration officials or the local police to feed these hungry aliens between the time they are picked up and arrest warrants are issued. That's, of course, not so good, and the boys do get hungry."

That the present intensive drive to deport aliens and to cut off the entry of aliens will be a major political issue when congress convenes next December seems almost certain.

**Two Insane Russians.**

Russians who get into the United States present a problem for immigration officials since they cannot be deported to the Soviet Union.

Two insane Russians were deported over 12 years ago. Russia refused to accept them. They got as far as Hambourg, Germany. There they were put in a sanitarium, and they've been kept there ever since, more than 12 years at the expense of the United States government.

The Oppenheimer report questions the legality of the immigration ruling by which U. S. consuls are empowered to refuse visas to aliens "likely to become a public charge." This ruling was announced personally by President Hoover. It is estimated that 10,000 aliens a month are blocked by this means, that 100,000 have already been kept out since last fall.

The issue received publicity in the refusal of a visa to Ella Young, Irish Poet and fairy tale writer, by the U. S. consul at Victoria, British Columbia, on these grounds. Miss Young had lived in California for some time on a visitor's permit and had lectured at Vassar College, University of California and other institutions.

Public agitation finally forced the granting of a visa.

**RHEUMATISM**

## 1,500 Delegates Are Expected At Meet

Over fifteen hundred delegates from points throughout Ontario, Quebec and Maratime Provinces will be in Toronto Thursday, April 30th, as guests of De Forest Crosley Limited, radio manufacturers, at the sixth annual convention of the organization which will be held at the Royal York Hotel.

With over a thousand visitors from Ontario alone, several hundred from Montreal and district and fifty or more from the Maritimes, it will be the largest gathering of radio representatives to have ever taken place in the Dominion.

During the business session the latest in radio receiving models will be on display, while engineers will explain the technical developments of the last year resulting from the constant laboratory research conducted by the industry. Elaborate plans have also been made to entertain the visitors. Orchestras will be in attendance throughout the day, which combined with unique staging and decorative effects, special entertainers, a banquet and ball, will make it one of the most colorful events to be held at the Royal York this year.

**Two large sports stadia are being erected in Florence, Italy.**

# A word to the outdoor girl

HANDS calloused from golf . . . lips chapped by the wind . . . necks and noses sunburned and freckled . . . here's how to repair this damage.

Lay in a stock of "Vaseline" Petroleum Jelly. At home on the dressing table. At the club in your locker. And apply it freely. For example: If the hands are calloused or rough and chapped, or too dry, or sunburned, or the cuticle is inclined to form hangnails, massage them with a generous amount of "Vaseline" Jelly before retiring, and wear soft gloves to bed.

If lips are chapped, apply "Vaseline" Jelly every time you think of it. It is obtainable everywhere, in tubes and jars.

These are simple, easy things to do. Do try them. Your looks will benefit enormously. "Vaseline" Jelly is a product of the Chesebrough Manufacturing Company, Consolidated, 5520 Chabot Avenue, Montreal, Canada.

With the assistance of a trained police dog a German customs official recently captured five smugglers and seized nearly 50,000 cigarettes and large quantities of coffee and tobacco which they were trying to get across the Belgian border.

## Tutor To King

**HEADS NEW CABINET.**

Professor Nicolas Jorga, former tutor of King Carol of Roumania, who heads the new semi-dictatorial cabinet now in power in Roumania. The new government is regarded merely as a preliminary to an eventual complete dictatorship, headed by the King himself. M. Nicholas Titulesque, former Premier, was asked by the King to form a cabinet, the sole mission of which would be to conduct a general election. Titulesque could not do this, however, and resigned his mission.

**Minard's Liniment for Chapped Skin.**

# THEODORE FACES LARGE DEFICIT

**Treasurer at Time of Financial Stress He Planned Big Issue of Fiduciary Notes.**

**AUSTRALIAN STATESMAN.**

This is the second of a series of sketches of Australian political leaders prepared by The Canadian Press, in view of the prospect of an early general election in Australia.

Hon. Edward Granville Theodore has played an important part in the later acts of the Australian drama. Formerly premier of the state of Queensland, he entered the Commonwealth political arena in 1927. When the Labor Party was returned to power under Prime Minister James Scullin in October, 1929, Mr. Theodore entered the Commonwealth Cabinet as treasurer and deputy prime minister.

But echoes of the days in Queensland came to embarrass Mr. Theodore. He was eventually forced to resign the treasureship, when the present Queensland Government commenced vigil action against him to recover damages. A royal commission had declared that "fraud and dishonesty" entered into the purchase of the Mungana coal mines by the former Theodore government. Mr. Theodore stoutly denied the charges.

But after the 1930 Imperial Conference, when the prime minister returned to find things politically and financially in a worse muddle than before, he took Mr. Theodore back into the cabinet. Mr. Theodore's services were too valuable to lose in a time of crisis, the prime minister asserted. So Mr. Theodore went back and the action cost the prime minister two of his right wing lieutenants, Hon. J. A. Lyons and Hon. James Fenton while the Opposition never became reconciled to Mr. Theodore's re-entry and some stormy scenes followed in the house of representatives.

In any event, Mr. Theodore came back into office in December, 1930, at a most critical period. Besides the government's own difficulties, with an insurmountable budget deficit, a heavy adverse trade balance to be corrected by drastic customs changes, and a strong Opposition in parliament, there was trouble with the new extremist administration of New South Wales, led by the radical Hon. J. T. Lang. On April 1, the Commonwealth treasurer was forced to shoulder payment of more than $3,000,000 due in London as interest payments to holders of N.S.W. bonds.

**Originator of Labor Plan.**

Mr. Theodore is credited with being the originator of the Labor Government's main hope for finding a way out of the present crisis—the issue of $90,000,000 in fiduciary currency. It was planned to devote two-thirds of this sum, in regular monthly instalments, for works to relieve unemployment, the remaining $30,000,000 to be earmarked for wheat bonuses and relief to farmers generally. Mr. Theodore battled strongly for this measure, but it was met by the government's opponents—including Mr. Lyons—as "inflation of the worst kind," who declared they were prepared to make it an issue in a general election. They counted on its defeat by the Senate, and Prime Minister Scullin declared if that happened the government would ask for double dissolution—the Australian Senate being elective—and go to the people on the issue. Mr. Theodore had explained the whole amount might never be needed; that only so much as was essential would be released at a time.

Mr. Theodore was born at Port Adelaide, South Australia, in 1884, the second son of the late Basil Theodore. He was educated in the Peninsular Public School and at the age of 25 was elected a member of the Queensland legislature, in which he remained until 1925. He became state treasurer and minister of works in 1915, leader of the state Labor Party in 1919 and at the same time assumed the premiership.

Mr. Theodore was premier of Queensland until his retirement in 1925. Some of his socialistic measures earned him the nickname "Red Ted" Theodore, but he accomplished a lot of useful work. He visited England and the United States on behalf of his state in 1920 and 1924, and on the latter visit to England he successfully floated public loans aggregating more than $125,000,000, the funds being chiefly required to meet maturing obligations.

Unsuccessful in an attenmpt to enter the commonwealth house of representatives in 1925, Mr. Theodore finally was elected federal member for Dalley, Sydney, in 1927. The following year he became deputy leader of the parliamentary Labor Party and assumed the commonwealth treasureship October 22, 1929.

Mr. Theodore married Esther Mahoney, of Toowoomba, Queensland, in 1909.

## Marmora

Messrs. H. Smith, A. Kennedy and E. Hewitt are attending the safety convention at Toronto this week.

Miss Dorena Gehan spent Thursday in Peterborough.

The district quarterly meeting and missionary convention of Marmora Free Methodist Church will be held from April 30 to May 3 inclusive.

Mr. and Mrs. Fred Doupe of Detroit visited relatives here over the week-end.

Mrs. Field of Cobourg and Mr. Hassalman of Toronto were guests of the former's sister, Mrs. Hamilton Crawford on Friday.

Mr. Stanley Pearce has completed his term at Queen's University.

Mr. and Mrs. Nathan Reid of Holloway are visiting Mrs. Horace Leonard.

Mr. T. J. Parker of Myrtle is having improvements made to his house on McGill street.

Mrs. Teresa Warren and family have moved to Reeve F. N. Marett's farm at Crowe Lake.

## THE GARDEN GLORIOUS WELL SHOWN IN ADDRESS TO HORTICULTURISTS

**Rev. George Tebbs Gives Most Interesting Lecture in Library Hall.**

**SLIDES ARE BEAUTIFUL.**

"The Garden Glorious" was the title of a forceful and colorful lecture delivered by Rev. George W. Tebbs, past President of the Ontario Horticultural Association, before the Peterborough organization last evening in the Library Hall. The address was accompanied by lantern slides made and colored by the speaker himself since his last visit to the Horticultural Society of this city. Mr. Tebb's usual deep fund of humor also did much to hold the interest of a capacity audience.

As the whole lecture centered around the hundred colored slides, it was more or less of an informal nature. Mr. Tebbs divided his pictures into three classes: spring flowers, delphiniums, and perennials and borders. He showed a photo of daffodils growing wild in clumps and pointed out the added charm of their blooms in a natural setting. A border consisting of narcissi and grape hyacinths showed how effectively a color combination could be made. Large beds of massed Darwin tulips were depicted on either sides of rustic walks, and other beds of various designs proved to what advantage the color of the flowers could be displayed. A very soft color combination of delicate tints was produced by the growing together of white tulips and pink forget-me-nots. A similar combination was made with the intermingling of pink tulips and blue forget-me-nots.

**"Crazy Paths."**

Several scenes of "crazy paths" were shown. These consisted of large flat stones fitted so as to leave even distances between them and yet to form a walk with a straight edge. The beautiful effect of rustic arches was also depicted. The raised border of multi-hued flowers also was a lovely sight.

Delphiniums, however, proved to be the subject of Mr. Tebbs' special endeavors. He has hundreds of his own, having brought many with him from Blackmore and Langdon, in England, and spends much of his time in tieing them up against the wind and storm. Among the various kinds of delphiniums were Mrs. Hargreaves, Pompadour, Lady Gwendolyn, Lady Elizabeth, Sir Douglas Haig, Countess Cowley, George Cochrane, Millicent Blackmore, Mrs. Newton Lees and Constance. Each of these had their own distinctive and charming colors, and averaged ten feet in height, the blooms often measuring five feet in length.

**Chinese Pagoda.**

Particularly interesting was the Chinese pagoda set in truly magnificent surroundings: nearby was a pool with water lillies growing in it and rocks steps leading dowp to it. Further well chosen color combinations included snapdragons and gladioli, and holyhocks, red hot poker and gladioli. Lupens were also grown to advantage in clumps. A sunken garden proved to be particularly enchanting.

Several pictures of lilies were shown, each of a different hue: Easter lilies, pardulinum, sulphurum with th ir yellow hue, rubrum with red flecks, regal, Sappho, gigantum, Hansonni and szabitzianum.

The effectiveness of having all grass steps was shown very convincingly. Pictures were also shown of an old-fashioned garden and the American Pillar of shell pink roses with yellow centers. The rock gardens were also shown to be coming into their own again. Any rocky piece of land, in the opinion of Mr. Tebbs, could be turned into a lovely rock garden, and addition of sculptures lent an extra charm to the view. Thi scene could be still further enhanced by the using of a precipitous brooklet.

Mr. Tebbs concluded his lecture by congratulating the local organization for the work so far accomplished and for their 1000 member objective. Dr. J. A. Madill, president, acted as chairman and at the close several questions were asked th: speaker.

**Beautiful isn't it?**

*These modern colors are so lovely and so easily applied. The cost—my dear, I enamelled all this furniture for $2.45*

AND she touched up the veranda floor, the pillars, and many of her possessions of which she was a bit ashamed, for very little more. Her house is now the envy of her friends. Crown Diamond paints and varnishes save so much extra work too, in keeping the place clean. They are so easy to apply, and so economical, that it is a pleasure to make a home bright and healthy with them. You have a choice of all the modern colors.

## CRIED WITH JOY AT NEW COMPLEXION

"I was overjoyed as a child on Christmas morning," says Miss Jasmin, "at the marvelously prompt way in which VITALEX cleared up my ugly complexion. You can't imagine how much embarrasment those pimples and blemishes caused me. I simply couldn't erase them with powder or rouge and none of the skin treatments I bought and bought were ever successful.

"The VITALEX treatment was a most pleasant revelation to me. It showed me what a difference was possible in a very short time."

Miss Jasmin's case is not exceptional. It is just one among many. A fresh radiant beauty lies just beneath the surface of that ugly mask of skin blemishes.

You'll never be successful without eliminating the cause of this terrible embarrassment. Skin blemishes are distress signals of a stagnant intestinal tract. VITALEX gets at the cause and helps overcome the condition, changing dull, sallow, blemish-marked complexions into skins of beautiful texture. Your druggist sells VITALEX.

**PRINCE MAY SPEAK ON TOUR**

LONDON, April 2.—Eager to communicate to British industrial leaders the commercial information he gathered in South America, the Prince to Wales was reported to be arranging a series of visits to the larger industrial cities soon after his return home.

Nothing has been officially announced but, according to reports, the Prince will probably address the Chambers of Commerce of Manchester and Birmingham in mid-May, and similar meetngs will possibly follow in other cities.

**EARNINGS DECLINE**

NEW YORK, N. Y., April 24. —(CP).—The preliminary report of General Motors Corp. shows first quarter net earnings of $28,9999,409, compared with $44,969,587 in the first quarter of 1930.

## ENGINEERS HEAR TECHNICAL PAPER

**C. Rigby, Superintendent of C. G.E., Addresses Local Engineers.**

**ELECT OFFICERS MAY 7.**

"The Manufacture of Refractories," was the subject of a most interesting paper presented last evening to members of the local branch of The Engineering Institute of Canada at the Paragon Hall, by E. Rigby, superintendent of the Canadian General Electric Company, Porcelain Department.

The presentation of a purely technical subject, was considerably aided with the moving pictures, which were loaned for the occasion through the courtesy of the Harbison-Walker Company of Pittsburg, the world's largest producer of refractories, while J. R. Stirling the company's Canadian representative was also present and contributed in a large measure to a very instructive and interesting program.

A. B. Gates presided and introduced Mr. Rigby as a man with lengthy experience in refractories, both in Canada and in the Old Land.

Last night's meeting virtually marks the conclusion of a successful series of lectures of an educational nature, which have been conducted throughout the winter months. The next meeting of the Institute, to be held on May 7th, will be the annual meeting and election of officers, while at the end of May it is probable, although a definite decision has not yet been made, that the members of Peterborough branch will meet their colleagues from Kingston, in Belleville where a joint meeting would be held.

The particularly splendid series of films shown last evening showed the complete process of the manufacture of refractories, of fire resisting materials, from the mining of the raw materials to the shipping of the final product.

Mr. Rigby explained that refractories have become a highly specialized branch of the porcelain and electrical industries.

He remembered the first tunnel kiln ever to be built in England, and although it was not at first favourably regarded, it has now come to be largely adopted by manufacturers of refractories, who have an exceedingly large volume of business. The more common type of kiln is the Periodic Kiln.

Refractories play an important part in modern industry, in providing furnace linings, where it is essential that such structures must be capable of withstanding high temperatures.

Through the medium of the films and the spoken word, the manufacture of refractory brick was traced from the clay mine or quarry, right through the mixing, moulding and baking processes and to the shipping departments.

Unusual care is taken to make everey brick perfect, and many of the more intricate shapes are made entirely by hand, instead of being moulded in the hydraulic presses, which are in common use for the less complicated moulds.

Interesting pictures were shown of the tunnel kilns and periodic kilns wherein the brick are baked. The act of heating causing physical changes and adtering the structure of the clay, silica chrome and magnesite refractories.

## SCOUTS ARE VISITED BY COMMISSIONER

**Thirteen Cubs in Deloro Make Declaration and Are Invested.**

MARMORA, April 24 (Examiner Correspondence).—On the occasion of the visit of District Commissioner Short of Stirling to Deloro on Wednesday night, April 22, to invest Deloro Pack of Wolf Cubs, a very interesting time developed.

The meeting was held in Deloro Hall and Marmora and Deloro Girl Guides, Boy Scouts and Wolf Cubs co-operated to make the affair a great success. Commissioner Short brought with him nearly forty Stirling Scouts and Wolf Cubs and the boys, under his direction, put on a program of features and stunts peculiar to Scoutdom that delighted the spectators. Thirteen Deloro Cubs made the declaration and were invested by the Commissioner.

Mr. W. R. Reynolds, one of the Deloro committee, spoke briefly at the conclusion of the entertainment thanking Mr. Short for his visit and the Stirling boys for their assistance, and expressing satisfaction with the proficiency displayed by the Deloro Cubs in Scout work. He also said that the credit for the organization and training of the Deloro Pack was due to Mr. W. Kerr and Miss Dorothy Haacke, who had spent a great deal of time and trouble on the boys' behalf.

## HEALTH NEEDED FOR PROGRESS

**H. B. Muir Claims Human Element in Industry Must Be Considered More.**

**APPLY COMMON SENSE.**

TORONTO, Ont., April 24. (CP)—"Prevention of accident and disease is but the application of common sense and decency to business" according to H. B. Muir, Managing Director, Kingston Whig Standard, and Vice President of Canadian Daily Newspapers Association, in addressing the Industrial Accident Prevention Associations, in convention here to-day.

Health of body and mind is an indispensable form of wealth. It is a fundamental condition of progress both for the individual and for society. We all know this is true, but do we acknowledge and fulfill our duty to those working with us by realizing their right to look to us for their cue. If we are big enough for our jobs we cannot escape acknowledgement of that right to those about us" he declared.

Figures show that during the past 15 years, 8,000,000 had been paid out in compensation for accidents, he continued, and accidents were preventable. The amount of compensation, however, "makes us wonder if we have started the job of prevention."

"We know to-day" Mr. Muir declared, "that in order to restore prosperity which means fulfillment of the right of a spirited people to work, earn and provide, we must consider the human element in industry to a greater degree.

**"LOVE is REAL"—**
**Service and Sacrifice must be given to those thousands less fortunate than ourselves.**

# PRINCES' HOMECOMING TO START BRILLIANT ROUND OF FUNCTIONS

**Sparkling Balls, Race Meets Will Intersperse List of International Conventions.**

**NO LET-UP TILL AUTUMN.**

LONDON, April 24 (By Mail, C.P.)—Return here next week of Their Royal Highnesses the Prince of Wales and Prince George from their South American tour is the forerunner of what promises to be one of England's most brilliant seasons.

To the usual round of sparkling balls, race meetings, and things of more than average interest to Great Britain, will be added a list of international gatherings which stretch from the early part of May until early autumn with scarcely a letup.

Foremost among the gatherings are the second Indian Round Table Conference, World Disarmament and Wheat Conferences, the Schneider Cup races, the Wimbledon tennis matches, and the amateur and open golf competitios. Interspersed will be a continual round of social gatherings incident to the "little season" and its operatic attractions in historic Covent Garden.

**The Golden Ball.**

Outstanding on May's calendar is the golden ball set for one of London's swankiest hotels for the benefit of charity.

June's red letter event is the birthday of the King on June 3, with all the panoply and spectacle of "trooping the colors" honoring the event. June starts off with the world-renowned Ascot Week of racing and fine clothes display, and the event is hardly over until society treks to the horse shows, the Richmond Royal and the International Chows.

Later in the month the international tennis competitions start at Wimbledon with an indicated entry list embracing al the stars of the tennis firmament. Then come the Derby and the Cowes Week of racing in which the King's yacht Britannia will race Sir Thomas Lipton's Shamrock V.

# DUFFUS REPORTS BUSINESS BETTER

**As Much Business in Four Months in 1931 as in Eight in 1930.**

**STAFF INCREASED.**

Two thirds the amount of the total volume of business handled last year, has during the first four months of 1931 already been completed by J. J. Duffus Limited of this city. Such is the cause of his ever-cheerful outlook upon the propects for the immediate future so far as the economic situation of this city is concerned.

Throughout the winter months, the garage, repair shops, and servicing departments have been working at full speed, and instead of laying men off work, J. J. Duffus Limited have exactly doubled their staff of mechanics, and have completed certain structural alteration and changes of business policy that have considerably strengthened their position, both from the point of view of added service to their customers, and in the type of automobiles that are handled in the sales rooms.

Keeping in step with the onward advance of progress, the Duffus' mechanics have during the past winter months availed themselves of the motor mechanics' courses, conducted at Oshawa by General Motors Corporation, while the firm itself has adopted all the best principals of General Motors methods, so far as service is concerned.

Recent additions to the Duffus' staff are L. F. Peacock, service manager, formerly with General Motors as Superintendent of Maintainance, and W. Chaplain of Toronto, a body and fender expert, who has been engaged in the industry since his return from active service, and also Harold Andrews, assistant service manager, who has been connected with General Motors at Oshawa for the past fourteen years.

Structural alterations include, the entire remodelling of the work-shops, where the benches, formerly made of wood have been replaced with all-steel equipment, and bench space increased from 64 feet to 148 feet, also the addition of an addition to the Duco department, which has now been rendered almost dust proof.

# FOUR SENTENCED IN NARCOTIC RING

**Federal Agents Believe Crushing Blow Struck at Niagara Frontier Gang.**

**JURY SENT OUT TWICE.**

BUFFALO, N.Y., April 24 (C.P.).—Federal agents to-day expressed belief that a crushing blow had been struck at the narcotic ring operating along the Niagara frontier by the conviction of four members in Federal Court here last night.

It required two verdicts to satisfy Judge Edwin S. Thomas that the requirements of the law had been met. The jury early in the evening brought in a verdict holding all five defendants guilty of conspiracy, but ignoring thirteen other citations of the indictment. Judge Thomas set this verdict aside as improper, saying there could be no guilt on the conspiracy charge unless at least one of the other accusations in the indictment was sustained.

The jury wrestled with the case for another six hours before returning a second verdict. Four of the five tried were held guilty and one was discharged. The four convicted were: Anthony Valenti, Dominick D'Agastino, Bertha Ness and Archie Bendi. Philip Lascella was found not guilty.

# KINSMEN ENDORSE DAYLIGHT SAVING

**J. D. Fitzpatrick Outlines to Kinsmen Club Lawn Bowling Regulations.**

Members of the Peterborough Kinsman Club met in the Empress hotel last night for their regular semi-monthly dinner after which a lengthy business program was transacted. J. D. Fitzpatrick, president of the Lawn Bowling Club outlined to playing and sought of theCMPWYP the members the regulations as to playing and sought of the members their co-operation in joining the club. Several of the members have already signified that they intend joining the Peterborough Bowling Club and it is expected that others will join in a few days. The matter was left with Pat Whyte to get the application forms filled out.

An amendment, introduced by G. Wilson Craw and seconded by Alex Elliott, making members of the club liable for suspension if absent without cause from two successive club meetings, instead of three, was carried by the club. The club also went on record as favoring Daylight Saving in Peterborough and the City Council will be so notified.

Guests present: J. D. Fitzpatrick, H. H. D. Johnston, Fairman Holland and Harry Chenhall.

# DRIVER BLAMED HIGHWAY DEATH

**Coroner's Inquiry Into Mrs. Jennie Plunkett's Death Rules Chinese in Wrong.**

**HADN'T CONTROL OF CAR.**

TORONTO, April 24—The accident on Kingston Rd. near West Hill on February 25 last, which resulted in the death of Mrs. Jennie Plunkett, wife of John Plunkett, 237 Prince street, Peterborough, would not have occurred had the car driven by Tom Marks, Chinese, been on the proper side of the road, a coroner's jury impanelled Tuesday night in Scarboro council chambers decided after hearing the evidence.

"We believe that he had not proper control of his car and that he was not driving his car in a proper manner" the verdict read.

Tom Marks, in the company of a fellow countryman, was travelling west on the evening in question when just west of the railroad bridge at Highland Creek, his car collided driectly with an auto driven by Leslie Plunkett of Peterborough. Five people were hurt and Mrs. Plunkett was killed. Serjeant Tom Drayeot and Constable W. McDaniel handled the investigations.

## FASHION SERVICE

A darling rig is offered today for the busy modern housewife.

It has dual smartness—practicality too. It may be worn for morning home wear and for active sports.

It is peach-pink linen with brown trim. In the miniature vi w, the long-waisted bodice is shown with the attached shorts. Imagine how quicly one may slip into this in the morning. It is topped by a matching skirt held at the normal waistline by a brown leather belt. The plaited arrangement is smart, sportive and provides necessary fulness.

Style No. 3057 is designed for sizes 16, 18 years, 36, 38, 40 and 42 inches bust.

Cotton mesh with angora finish pique, cotton broadcloth in dots or stripes, shantung and rayon novelties are suitable.

Size 36 requires 5 5-8 yards of 35-inch with 5-8 yard of 35-inch contrasting.

Price of pattern 15 cents.

**Our large Fashion Book shows how to dress up to the minute at very little expense. It contains most attractive Paris designs for adults and children, embroidery, etc.**

**Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred)**

# SPANISH THRONE HAS CLAIMANT

**Cousin of Deposed Alfonso Explains Stand in a Published Manifesto.**

**CHANGE FROM OLD REGIME.**

PARIS, April 24 (A.P.)—Don Jaime de Bourbon-Anjour, a cousin of the deposed Alfonso and fifth of the Carlist line of Pretenders, to-day laid claim to the Spanish throne in a published manifesto which said: "Remember, I am always ready to help Spain avoid anarchy."

He asked the Spanish people to declare in the approaching elections whether they are Republican or Monarchist, and, inviting them to favor the latter, said that the resulting monarchy need have no relations with the former regime but could be "renewed, progressive and decentralized."

"My desire is have a king head the Federation of Spain," he said. "A king above parties. Even the Republicans admit that a great part of the Spanish people favor the monarchy. It is unjust to suppress the monarchy because one king does not know how to make his people love him."

## A BEDTIME STORY

Howard R Garis

### UNCLE WIGGILY'S SASSAFRAS TEA

"What's the matter?" asked Nurse Jane Fuzzy Wuzzy one morning as she saw Uncle Wiggily sitting in his easy chair, not seeming very happy. "Why aren't you out looking for adventures, Mr. Longears?"

"Oh, I don't feel so very well," answered the rabbit gentleman.

"Dear me! I hope you aren't going to be ill!" squeaked the muskrat lady housekeeper.

"Oh, no, not exactly ill," Uncle Wiggily answered. "But I think I caught a little cold yesterday."

"I caught a ball yesterday," said Buster, one of Uncle Wiggily's little boy rabbit who, with his brothers and sisters and Baby Bunty, was all ready to hop from the hollow stump bungalow to school. "I caught the ball when Jackie Bow Wow threw it."

"Well," said Uncle Wiggily, with a little shiver, "a ball is much better to catch than a-ker-choo!"

"Ho! Ha!" laughed Baby Bunty. A-ker-choo is a funny thing to catch, Unkie Wig."

"I started to speak about catching a cold when I sneezed ker-choo!" explained the rabbit gentleman. "As I was saying it is much better, Buster, to catch a ball than to catch—cold!" Uncle Wiggily put his paw to his pink twinkling nose for a second and stopped another sneeze from coming. And when the animal boys and girls had gone to school, Nurse Jane, looking at Mr. Longears, said:

"You need some hot, sassafras tea!"

"And I am going to get it!" cried the bunny gentleman, hopping out of his easy chair.

"No! You stay right here! I'll get it for you!" kindly offered the muskrat lady housekeeper.

"Excuse me, but I will hop out to the woods, pull up some roots of the sassafras bush and bring them home!" said Uncle Wiggily, looking for his hat. "I know where sassafras grows in the woods. It will do me good to hop out and pull up some of the roots. You may make the hot sassafras tea for me, Nurse Jane, and I will drink it and then my cold will be all better ker-choo!" Uncle Wiggily wanted to say "thank you," but his pink nose started to twinkle so he had to say ker-choo.

"You are too ill to go out!" cried Nurse Jane. "You must stay in and I'll go get the sassafras roots!"

"No, thank you!" cried Uncle Wiggily.

"Yes, please!" begged Nurse Jane.

"No, thank you very much!" cried Uncle Wiggily.

"Yes, thank you very much you must!" squeaked the muskrat lady. And Mrs. Longears, coming down stairs to see what all the talking was about, said to Nurse Jane that she might just as well let Uncle Wiggily have his own way, anyhow, as maybe it would do him good to go out.

"Surely it will!" chuckled Mr. Longears as he found his hat under the stove where Baby Bunty had been playing it was the ashman's cart. "I'll bring back the sassafras roots for my hot tea to cure my a-ker-choo choo cold!" said the bunny gentleman.

Away he hopped to the woods and soon he found a sassafras bush. Uncle Wiggily began to dig with his front paws around the roots of the bush. When he had dug down some distance he took hold of the root and tried to pull it up. But a sassafras bush has roots that are deep in the earth and though Uncle Wiggily pulled and pulled and pulled, he could not get up the deep root.

Then, all of a sudden there was a splishing splashing in the pond near the bush and a loud voice bellowed:

"What are you trying to do, Uncle Wiggily?"

"I am trying to pull up a sassafras root so Nurse Jane can make tea to cure my cold!" said the rabbit. Then looking around, he saw the Skillery Scallery Alligator with the double-pointed tail.

"You won't need any sassafras root to cure your cold," bellowed the Gator. "So don't bother pulling any up."

"Why not?" asked the rabbit gentleman.

"Because," said the Gator, "I am going to carry you off to my den. There you won't know whether you have a cold or not. Come on!"

"Oh, please," begged Uncle Wiggily, before you carry me off to your den will you pull up this sassafras root for me. I am not strong enough."

"Well, I'm strong and I'll pull it up!" bellowed the Gator. He put the end of his tail under the root and he pulled and pulled and pulled. The, all of a sudden, the root broke off and popped out. And the Gator turned a peppersault head over tail and flopped back into the pond.

"Ha! Ha! Thank you very much!" cried Uncle Wiggily. Picking up the piece of sassafras root the Gator had so kindly pulled for him, the bunny rabbit hopped home, drank the hot tea Nurse Jane made and his cold was all better. But, oh, how angry that Gator was!

Terrible! Ha! Ha!

Minimum wages for males under the Agricultural Wages Act in England and Wales now average $7.91 a week.

# MUFFETS... *Delicious Whole Wheat Biscuits* that entice your appetite

**Read carefully these HEALTH FACTS about Irradiated Muffets**

1. *For Growth*—Contain protein of greater concentration than in ordinary refined cereals.
2. *For Bones and Teeth*—3 times as much phosphorus as in white flour; 30% more *calcium* than even in ordinary whole wheat bread.
3. *For Your Blood*—3 times as much *iron* as in cornmeal or rice.
4. *For Well-Being—Roughage*, in the exact proportion intended by nature.
5. *Vitamins*—The new *sunshine vitamin D* that helps you use the lime in your food.

A crunchy ribbon of cooked whole wheat... wound round and round... baked through and through and toasted to a tempting crispness... *that's* a Muffet!

They're delightful. The enticing flavour of whole wheat tempts the jaded appetite. Delicious served crisp with sugar and cream ... or heat a Muffet, pour hot milk over it, and then, if you prefer, add cream.

Muffets contain all the protein, carbohydrates and minerals of the entire wheat berry. To give you the precious sunshine vitamin D, they are irradiated by the Steenbock process.

Children need the sunshine vitamin D. It helps them to assimilate the lime in milk, so necessary for strong teeth and bones. Adults require it to restore wastage in these important parts of the body.

Try Muffets... at any meal. This guarantee is printed on every package. "If you do not agree that Muffets are the best whole wheat biscuits you have ever used we will gladly remit you the cost of this package." Order at your grocer's today.

## *Class Initiated In Lindsay Lodge*

There was a splendid gathering in Lindsay recently of members of the Loyal Order of Moose, when Peterborough Lodge No. 813, degree team initiated a class of candidates in Lindsay Lodge No. 689. The ceremony followed the installation of officers conducted by Brother Dr. H. J. Long, past dictator of Peterborough Lodge.

During the course of the evening a splendid address was given by Deputy District Supreme Dictator J. C. Poolman.

Some splendid floor work was done by the Peterborough drill team, under the direction of Captain Bro. Jas. Gaskell. Refreshments were served by the entertainment committee.

# "Astounding Number of Suffering Men and Women in Peterboro and Vicinity" ---*Says* NU-ERB Man

*at*

## J. P. Bond's Drug Store

**Is Amazed with Number of Local Persons Suffering from Various Health Disorders.**

**Stomach Troubles, Constipation, Rheumatism, Nervousness, Most Common Ailments, he finds.**

It is almost unbelievable the number of local persons who have called at J. P. Bond's Drug Store, Phone 327, to talk with me about Dr. French's NU-ERB. Many scores, yes, many hundreds, have told me how they have suffered for years from stomach, kidney and liver ailments, rheumatism, nervousness, constipation and general run-down condition of their system. These persons had tried every heard-of medicine without getting relief and are already reporting splendid results from Dr. French's NU-ERB.

Please do not misunderstand me. I do not claim that Dr. French's NU-ERB to be a "cure-all" or "miracle healer" of any kind. It is simply a sensible compound of 12 herbal plants of proven merit and I have sufficient confidence in this medicine to invite any local man or woman who suffers from any of the ailments mentioned above to try Dr. French's NU-ERB on the strength of my own personal knowledge of its unusual value and the voluntary statements of thousands of people all over the Dominion of Canada who have personally used this medicine and who say that it is just exactly what they needed.

**Come to see me To-Day at**

## J.P. Bond's Drug Store

**Let me tell you of some of the many cases where Dr. French's NU-ERB has brought about surprising results. See for yourself how it is made and learn why you can depend upon it to quickly put an end to your suffering.**

## MEMBERS HONOR MAJ. GEN. McREA

Presented Silver Salver Bearing Names of 137 Conservatives Elected Last Year.

PREMIER OFFICIATES

OTTAWA, Ont., April 24.—(CP).—From Premier R. B. Bennett and Conservative members of the House of Commons, Major General A. D. McRae, former Chief Party Whip, was the recipient yesterday of a beautiful token of appreciation. The presentation took the form of a very large sterling silver salver, 12 pounds in weight and bearing the names of the 137 Conservative members elected in the general election last year.

The inscription reads: "Presented to Major-General A. D. McRae, C.B., by the Conservative Members of the House of Commons as a slight token of appreciation and regard, and in recognition of his invaluable services as Chief Whip of the party which contributed so largely to the victory of July 28, 1930.

(Signed) "R. B. Bennett, Prime Minister."

In his remarks, Premier Bennett who made the presentation, paid tribute to the services of Major General McRae, who expressed his deep appreciation. The presentation was made at a "closed" party caucus.

To S. Charters, Peel, former chief parliamentary whip, a second presentation was made. The gift was a sterling silver rose bowl, lined with gold. The Prime Minister spoke appreciatively of the work of Mr. Charters, to which the member for Peel responded in words of thanks.

The sitting was in the nature of a happy party gathering.

## HOME TOWNERS

Tidbits Interesting and Humorous CAMPBELLFORD

At St. John's United Church on Sunday, the Rev. R. C. Tait will take for his sermon theme in the morning "The Scapegoat," and in the evening "Asleep at the Switch." The theme to the Bible Class in the afternoon will be "What Is True Prayer"?

At Christ Church (Anglican) Holy Communion will be celebrated at 8 a.m. with morning and evening prayer at the usual hours. The preacher for the day will be the Rev. N. Clark Wallace. Sunday school will be at 2.30 in the afternoon.

At St. Andrew's Presbyterian Church the Rev. J. C. Robinson will preach at both services. Special music will be given by the organist, W. A. Newcourt. Sunday school at the usual hour in the afternoon.

On the Seymour United Church circuit the Rev. P. G. MacTavish will conduct services at Zion at 11 a.m., Stephens at 3 p.m., and Tabernacle at 7.30 p.m.

At St. Andrew's Presbyterian Church, Burnbrae, the Rev. Donald A. McKenzie will take as his sermon these at morning worship "A Christian Portrait." Sunday school will be at 10 a.m.

Mr. A. H. McKeel returned home on Wednesday after spending a few days visiting relatives in Toronto.

Mrs. E. Rellis has returned home after spending some time with relatives in Toronto.

The weekly meeting of the Anglican Young People's Club held Wednesday evening was featured by a dance in the Parish Hall which was well attended. Mrs. J. Benor's orchestra was in attendance.

Mrs. J. Ernest Birk was a bridge hostess on Tuesday evening to a few of her friends.

Scott's Wee Golf Course commenced the season's activities on Thursday. This is one of the premier amusements of the town in the summer and it is expected to be more popular this year than last, this being the first full season in operation.

Mr. and Mrs. C. B. Williams were week end visitors to Toronto.

Mr. Arnold Joyce has returned to his home here much improved in health.

Mr. and Mrs. J. T. Shunk and granddaughter, Margaret, of Lindsay were visitors to town on Sunday.

Mrs. E. Plummer is visiting Dr. and Mrs. L. Vosper at Kingston.

# any way you look at it...

THERE are few foods you can buy that give you as much satisfaction for your money as Kellogg's Corn Flakes.

Out of a single package you get many delicious servings—at a cost of only a few cents.

Kellogg's are delightful for breakfast or lunch, with milk or cream, fruits or honey added.

Great for the children's evening meal—or for a tasty snack before going to bed. So healthful and easy to digest.

No other ready-to-eat cereal in the world is so popular. No other corn flakes have ever been able to duplicate Kellogg's own matchless crispness and flavor.

That is why wise buyers will accept no substitute for genuine Kellogg's. They know that imitations are never "just like" the original of all corn flakes. Look for the red-and-green package at your grocer's. With the exclusive inner-seal waxtite wrapper that keeps the flakes oven-fresh even after opening. Made by Kellogg in London, Ontario.

• • •

*You'll enjoy Kellogg's Slumber Music, broadcast over WJZ and associated stations of the N. B. C. every Sunday evening at 10.30 E. D. S. T. Also KFI Los Angeles, KOMO Seattle at 10.00, and KOA Denver at 10.30.*

CANADIAN DEPARTMENT STORES LIMITED

# ROSES ARE NOT HARD TO GROW

### Many Plants Are Lost Through Improper Handling When Received.

### PLANT EARLY.

Roses are not difficult to grow, but many plants are lost through improper handling when shipment is received. Careful attention to a few important points is essential.

The natural place for rose roots is in the ground and when out of it they must never be exposed a moment longer than necessary. Never unpack your shipment in the open air or leave the plants exposed while you are digging the hole to plant. Always take the roses to the garden in a pail of water, taking one out at a time to plant. Exposing rose roots to the drying effect of spring breezes for even a few minutes is often fatal.

Early planting is desirable. Plant as soon as you receive your parcel if possible. Should shipment arrive before your soil is in condition to plant, unpack the plants and "heel-in," that is, dig a trench and place the roots in this with the bushes in a slanting position, covering the roots and most of the tops with earth. Plants can be kept this way for several weeks without injury.

Occasionally plants will dry out in transit. In this case cover the whole plant with earth and leave in the soil for about a week before planting. The moss in which roses are usually packed is a packing material only and must be removed before planting.

PLANTING

Dig a generous-sized hole for each bush and take care to spread the roots out well in all directions, with the ends pointing downwards. Work in fine soil around the roots with the fingers and then fill the hole with soil. Firm planting is essential. Do not be afraid to use the feet in firming the soil. See that each bush is planted firmly enough to resist a hard pull. The "crown" or "collar," in other words the point of union between the rose proper and the briar understock, which may be distinguished as a thickened portion of the stalk not far above the roots, should be two inches below the surface—no more. If the beds have been dug and prepared in the previous fall so much the better. Plant Hybrid Teas and similar everblooming types 15 to 18 inches apart, Hybrid Perpetuals 2 to 3 feet apart, and Climbers at least 6 feet apart.

PRUNING

You can scarcely prune too severely. Cut back to within two or three "eyes" or buds from the base, leaving but a few inches of cane. This includes climbers, except the Hybrid Tea Climbers, which may be left two feet or more in length. Cut out any weak canes altogether. This drastic pruning is necessary for good results. Most amateurs fail in this respect.

Give each bush a pail of water after planting and keep well watered for the first few weeks.

SOIL AND FERTILIZERS

Roses will grow in almost any soil, except pure sand, but a rather stiff clay loam is best. Well-rotted manure, and particularly cow-manure is probably the best fertilizer. Mix thoroughly with the soil in a proportion of one-third manure to two-thirds soil, keeping fertilizers from coming into direct contact with the roots. If more convenient pulverized sheep-manure or good commercial fertilizers may be used.

To summarize: Avoid exposing the roots to air, plant firmly, at proper depth and prune hard back. And be sure to spread roots out well. It is our desire to help you get the utmost from your roses. If in doubt on any point or you wish information on Insecticides, Fungicides, Winter protection, etc., write us at any time.

Acknowledgement of receipt of your parcel in good condition is always appreciated. If any shortage or errors in order please report promptly.

## Cavan

Mr. Fred Cann, Peterborough, is spending a week visiting his brother-in-law, Mr. J. Armstrong and Mrs. Armstrong, Eighth Line, Cavan.

Miss Ena VanderHoorn has returned after taking a two weeks' course in Household Economics at Kemptville.

Mr. and Mrs. Arthur Armstrong are moving very soon from the house which they occupied on Mr. Ray Syer's farm, to one in Cavanville village.

The weekly meeting of the Cavan Young People's Society has been withdrawn for a time, on account of the busy season on the farms.

There is a seed grain survey in operation whose purpose is to provide accurate information as to the quality of seed sown. It is being operated in Cavan, partly through the schools.

Small bags with a tag to be filled out, are being distributed among the families represented in each school.

Each recipient of a bag with its accompanying tag, are requested to cooperate to the extent of supplying the District Representative, Mr. Somers with a one pound sample of grain out of the seed-drill or from the seed being sown. This will be sent to the Dominion Seed Branch for grading and weed seed count (if any), then returned to original owner, with recommendation as to size of sieves and possible increase in yield.

### HIGH WAISTLINE

A double flounced printed silk has its blouse belted tightly at normal waistline by a self-belt. Its flounces are pleated.

## WEDDINGS

### HAMBLIN—MORRISON

(Examiner Correspondence)

LAKEFIELD, April 24.—A very pretty wedding was quietly solemnized in Knox United Church on Wednesday afternoon at 3 o'clock when Phyllis Margaret, only daughter of Mr. and Mrs. W. G. Morrison was united in marriage to Harold Wilbert Hamblin, second son of Mr. and Mrs. George Hamblin. Rev. T. M. Wesley officiated.

The bride looked very pretty in a dainty frock of King's blue georgette, trimmed with radium lace with hat and shoes to match and carried a bouquet of pale pink sweet peas. Her coat was of navy tricotine. Miss Etta Garbutt was bride's maid wearing a becoming frock of jade green georgette with hat and shoes to match.

Following the ceremony the bridal party drove to the home of the bride on Chippewa Ave, where dinner was served, the dining room and living room being decorated with daffodil's and white ribbons.

The young couple have a very wide circle of friends who join in good wishes to them on the auspicious occasion. They will reside on Queen St.

### JACKET FROCKS.

For finishing winter and beginning spring ,the jacket frock of fine tweed, in light or bright tone, is excellent. Most of such frocks are long-sleeved, and the jackets short.

## S. S. ENTERTAINED AT SUGAR PARTY

### Mr. and Mrs. George Vanvolkenburg of Trent River Hostesses at Social.

TRENT RIVER, April 24 (Examiner Correspondence)—Mr. and Mrs. George Vanvolkenburg entertained Sunday School classes to a sugar party.

Two classes of the United Church Sunday School consisting of the Young Ladies' class of which Mrs. Vanvolkenburg is teacher, and the Young Men's class of which Rufus Redden is teacher, responded to an invitation from Mr. and Mrs. George Vanvolkenburg to spend Tuesday evening at a sugar party given at their home, there were about fifty in attendance. The evening was spent with games and community singing, after which hot sugar was served in individual dishes, sandwiches and coffee. Percy Tyler, president of the Young Men's class moved a vote of thanks to Mr. and Mrs. Vanvolkenburg and son Harold for the happy time spent, Mr. John Ruttan seconded the motion while Mr. Vanvolkenburg replied on behalf of his wife and son Harold in a most suitable way. Other guests for the evening were: Mrs. (Rev.) Archer and Miss Una, Mr. and Mrs. R. W. Umphrey and son Jim, Miss Nettie Ford, Mr. Earl Fairman, Mr. and Mrs. John Ruttan. The most enjoyable few hours was brought to a close by the company singing "God be with you till we meet again."

### District Notes

Word has been received here from Wabamun, Alberta, of the serious illness from pnuemonia of Mrs. Albert Kruse (formerly Mrs. Walter Boswell, of Trent River).

Mrs. Emma Sielaff of Rochester, N.Y., was a recent visitor with her sister, Mrs. James Cook for a few days.

The Best SPRING TONIC is

## PLAINVILLE SOCIETY VISITS BAILIEBORO

### Pleasing Program Presented at Gathering in Fletcher's Hall.

(Examiner Correspondence)

BAILIEBORO, April 24. — The Plainville Young People's Society visited the local United Church Y. P. S. on Tuesday evening.

The meeting was held in Fletcher's hall and about forty of the young folk from Plainville were present. The President of the local society, F. Barnard, opened the meeting with a brief devotional service, before giving the meeting over to the visiting president, H. Butlars.

The visiting society then put on an excellent program which was very interesting and instructive. H. Butlars presided over the meeting, while Miss L. Lander read the scripture reading. The theme of the meeting was presented by Miss C. King and the topic was ably dealt with by F. Lander who spoke on the subject of activities in our local communities. Solos were rendered by Messrs E. Scott and G. Coal. Refreshments and an hours recreation period brought a very enjoyable evening to a close.

## INTELLIGENCE VITAL FACTOR FOR NURSING

### Prof. Weir Urges Higher Preliminary Educational Standards.

TORONTO, Ont., April 24 (By The Canadian Press)—According to Florence H. M. Emory, President of the Canadian Nurses Association, Professor G. E. Weir of the University of British Columbia, was not critical of the Canadian nursing profession when he addressed the Health Section of the Ontario Educational Association in Toronto on April 7 last, as stated in a report published in Toronto and distributed in the Canadian Press service.

The story published April 7 said Prof. Weir criticised the standard of public and private nursing and the degree of nurses' intelligence, adding the profession needed reorganization and the nurses better education. On the contrary, Miss Emory informed The Canadian Press, Prof. Weir's whole attitude in his address was one of helpfulness towards the profession.

"He most certainly did not criticize the standards of public and private nursing," Miss Emory said. "His whole plea, based on intelligence tests given to large numbers of students at present in training schools in Canada, was that higher preliminary educational standards should be required of applicants for all training schools for nurses, so that the unfit should not be allowed to enter. Canadian nurses, through their organizations, have been working for this very thing for years, but lacked statistical data, which Professor Weir now supplied."

## Maid Of The Mist Left High And Dry

NIAGARA FALLS, N.Y., April 24 (C.P.). — Unless the level of the Niagara River rises, officials said yesterday, the launching of the Maid of the Mist, the little sight-seeing vessel which plies the turbulent waters below the Falls, may have to be postponed.

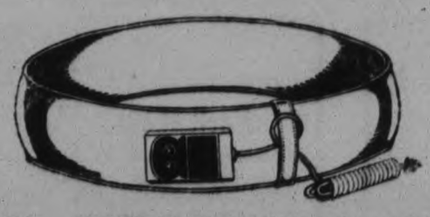
The low water is proving a boon to proprietors of the Cave of the Winds concession, however, and work has started on preparing the cave for the tourist season.

Farther up the river at Tonawanda, boathouses along the banks have been left high and dry by the receding waters.

# Why Buy a Junior For $30 When Another $5 Will Give You a Fully Developed Electro-Magnetic "Harmony"

NO! there's nothing "Junior" about HARMONY THERAPEUTIC SOLENOIDS, either in mechanical construction or curative powers. It is an "Adult" appliance, embodying ALL the fully developed virtues of electro-magnetism for correcting many so-called incurable diseases. YES! HARMONY is taking Canada by storm from coast to coast by accomplishing all that is claimed for it, and at a price that fits everybody's pocket. It is the last word in the scientific application of electro-magnetism to many of the ailments of mankind, and as such is enthusiastically recommended by hundreds of relieved sufferers.

**$35** IS THE PRICE COMPLETE NO MORE



**$15** DOWN Starts You on the Road to Health

# HARMONY THERAPEUTIC SOLENOIDS

## Is The Conqueror Of All Others

**MADE IN CANADA**

—And when we say "Made in Canada," it IS made in Canada—by Canadians in Toronto for Canadian sufferers. HARMONY is not imported in parts and then assembled and ear-marked a Canadian product. No! every piece of the appliance as you see it above is Canadian-made.

Because it has a reputation for efficacy, with reliable backing to insure service you'll like, coupled with a five-year guarantee. $50.00 for proof of better than we can manufacture, regardless of price. We are manufacturers and not jobbers. Facts, quality, proof and price make it expensive and unwise to buy other than we manufacture. We have positive proof, through testimonials, showing substantial and lasting results, after other forms of treatment have failed, in cases of high blood pressure, varicose veins, heart trouble, strokes, anaemia, poor circulation, kidney and gall bladder trouble, gall stones, indigestion, acidosis, ulcers, rheumatism, arthritis, stiff or swollen joints, lumbago and sciatica, body pains, neuritis, hay fever, sluggishness, sleeplessness, underdeveloped children, old-age troubles, and many other chronic conditions. Electro-magnetism breaks up and eliminates the toxic poison, purifying the blood. Keep the body in a healthy condition and avoid sickness.

Get in communication with us, either by correspondence, phone or in person, when we'll explain more fully this vital health proposition.

Mrs. Thomas Cronin of Walnut street, celebrates a birthday anniversary to-day.

• • •

Mr. and Mrs. George Mills of Fairfield, Connecticut, were here on Wednesday for the funeral of the former's sister, the late Mrs. Sarah Hartshorn.

• • •

Mr. and Mrs. Edward Young, Young's Point, announce the engagement of their daughter, Mary Kathleen, to Arthur Joseph, son of Mr. and Mrs. Albert Langlois, Windsor, Ont.—the wedding to take place the early part of May.

• • •

The engagement is announced of Helen Barbara, eldest daughter of Mr. and Mrs. John H. Rolph of Welland, and granddaughter of Mr. Thomas T. Rolph, of Toronto, and Mr. and Mrs. W. M. German of Welland, to Mr. Alexander J. Grant, son of Mr. and Mrs. A. J. Grant, of St. Catharines, formerly of Peterborough —the marriage will take place on May 23rd.

• • •

Mr. Jerry Coulthard of Toronto attended the funeral here on Wednesday of the late Mrs. S. Hartshorn.

• • •

Miss Dorothy Bamforth is home from Queen's University, Kingston, to spend the summer holidays with her parents, the Rev. and Mrs. R. Bamforth.

• • •

Mrs. H. Winch is celebrating a birthday anniversary to-day.

• • •

Students of Queen's University, Kingston, who have returned to their homes in Lakefield for the summer holidays include Miss Helen Porter, Mr. Frank Madill, Mr. Gordon Porter Mr. Sam Spence, and Mr. Ted Leonard.

• • •

Mr. Fred A. Eason of Keene, well known in this city, is celebrating a birthday anniversary to-day.

• • •

Mr. Lyman Ball, of Winnipeg, son of Mr. and Mrs. William Ball, of Bridgenorth, with his wife, Mrs. Ball, came east to Toronto the last week of March to join Mr. and Mrs. Joseph Caulder and son in a three weeks' motor trip to the south-eastern States, including Florida. Leaving Toronto, the first stop was made at Detroit, from which point they motored south, and after having visited and seen many points of interest en route, finally landed in Florida, which state they traversed fully. Leaving Florida they travelled north along the Atlantic coast through Washington, D.C., to New York, from which city they proceeded to Montreal, where a business stop was made at the large dairy plant there. From Montreal they motored to Port Hope, where Mr. and Mrs. Ball dropped off to visit their parents at Bridgenorth, while Mr. and Mrs. Caulder and Joe proceeded straight to Toronto. Mr. Ball is supervisor of the Dairy Corporation and allied concerns in Winnipeg, with branches in Edmonton, Saskatoon, Moose Jaw, and Regina, which branches he also superintends. Mr. Caulder, the general manager, has his office in Toronto. Mr. Ball reported that the party had a most interesting and pleasant trip, but his stay in Bridgenorth was necessarily short owing to the need of his presence in the Winnipeg plant, where business, he reports, is improving.

## Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

I have come to find out and no doubt you have too, that very few children like to work!

And there are some adults, too, who do not like to work but it is not about them we will talk to-day, but about children.

• • • • • •

Children are not so different from adults. Yet many times adults feel it is odd that a child rebels when he or she is asked to get a scarf or handkerchief from a bureau drawer upstairs.

• • • • • •

Or the child might be asked to run down to the corner grocery to get something that is needed. The child might not voice his unwillingness, but his whole attitude generally is not very gracious even though he does what is asked of him.

• • • • • •

How many adults would actually like to be called from something they are doing or even from their reveries to fetch and carry for another, although this person might not be as young and spry as they?

• • • • • •

That is a fair question and I think that a fair answer would be—very few.

• • • • • •

It is a good idea, then, to put the request that you would make to the child, in another form. Simply say, "I wish you would get me that scarf in my bureau drawer."

• • • • • •

The request is not a command and the child would obey without pondering whether he would like to do the thing or not.

• • • • • •

A sensible adult cannot help having sympathy with the child's mental objections, and, if he does not object audibly, admire his restraint.

• • • • • •

His work is broken in upon whether it is of importance or not. He goes back with abated interest. Continual interruptions confuse his thinking.

• • • • • •

When little folk are doing things they dislike, they welcome interruptions. The work is arduous. They need encouragement to stick to what they are doing until it is finished, and finished well and correctly.

• • • • • •

It is only then that satisfaction to the worker comes as it is this satisfaction that robs tasks of their laborious aspect. A few words of well deserved praise from parents lightens tasks for youngsters.

## That Body of Yours

By James W. Barton, M.D.

REMOVING TONSILS WITHOUT SURGERY.

The removal of tonsils by the knife which gets right down underneath the tonsils and removes them completely and cleanly, is still considered the best method.

The old method of simply slicing or snaring off a portion of the tonsil and leaving the stumps embedded is not used now.

It has been definitely shown that these stumps that are left in, can be just as harmful if not more so, than the whole tonsil.

However there are cases where the patient dreads the operation or dreads the anaesthetic; other cases that are bleeders, that is bleed easily and the flow is hard to stop; others where there is organic trouble in heart, lungs, or kidneys where it is not considered wise or safe to use the knife.

It is for these cases that the electro-surgical method is used, whereby the tonsil is gradually burned or scarred until it can do no further harm in the system.

Dr. L. J. Silvers, New York, tells us the advantages of this method.

The advantages are (a) no shock or pain as the tonsil is sprayed with an anaesthetic before the electro coagulation treatment begins (b) there is no bleeding and where the patient is a natural "bleeder" the bleeding is easily controlled (c) there is no chance of infection because the electric heat kills all organisms (d) patient doesn't have to lay up at home or hospital (e) patient can eat his meals after the treatment, no pain or difficulty in swallowing (f) patient goes to the doctor's office without any fear or dread.

What are the disadvantages of this method?

(a) The patient has to go a number of times to the doctor' soffice before the job is complete. Dr. Silvers doesn't state the number of times but it may be six or sixteen, or even more. During all this time the infective tonsils may be causing harm to the system, as rheuma tism and heart disease are usually due to infected tonsils.

(b) The number of physicians or surgeons that have really mastered this method is not large; and when the work is done by inexperienced operators, serious damage may be done the throat.

In addition to the above disadvantages as presented by Dr. Silvers is that when the electro-coagulation treatment is not effective or done properly, and the tonsils have to be finally removed by surgery—the knife—the surgeon has a most difficult job because of the mass of hard scar tissue which may be damming back infective material. I am speaking again about this electro-coagulation method because there are certainly cases where it would seem to be the best way of getting rid of bad tonsils.

# DISCUSS MISHAPS IN SMALL SHOPS

Suggestion Made That Proprietor Make Tour of Plant Once a Month.

CHECK CARELESSNESS

TORONTO, Ont., April 24 (C.P.)—Prevention of accidents in small shops was of vital importance to Canadian industry, in the opinion of R. V. Doering, of Hamilton, speaking to the afternoon session of the Industrial accident Prevention Association convention here to-day. Smaller shops, according to Mr Doering, had the greatest number of accidents and in one case 80 per cent. of the employees of a small press shop had been injured during a single year.

Mr. Doering outlined a successful program for the elimination of the small shop accidents. The proprietor of the shop should go through the plant once a month, and caution any employee seen taking a chance. An employee should be selected as custodian of the first aid kit, and proper training should be given. Records should be kept of all accidents and the treatment given, and the owner of the shop should insist that all cuts, abrasions, and wounds be attended to at once. "Deal sternly with carelessness and indifference and it will soon cease," he said.

**Safety Morale.**

P. A. McFarlane, of Montreal, followed Mr. Doering. He explained the steps taken by the Montreal office of the Bell Telephone Company in accident prevention work, and explained that this was brought about through the creation and maintenance of safety morale. One important step was to impress upon all officials their responsibility for making every job a safe one. There was some practical instruction given to all employees in accident prevention and safety measures, and in addition, an effective system of inspection regarding hazardous conditions in the plant was established. So far as was possible, the plant and equipment was kept as free as possible from hazards, and so far as was possible, all work might be done in a safe manner with safe tools.

FIRST QUALITY PURE THREAD

SILK HOSE

IN A ONE-DAY SELLING EVENT At the Pair..... $1.39

A worth-while sale. Every pair fresh from the mill for Saturday selling. Pure thread silk, full fashioned, French panel heels, reinforced at points of greatest wear. Service weight or fine chiffon. # LEGION WILL ASK ADMIRAL JELLICO TO COME TO CITY

**Earl Jellicoe Will Be in Canada This Summer at Legion Convention.**

## HEADS BRITISH LEGION

Possibilities of prevailing upon Earl Jellicoe, Admiral of the Fleet to visit Peterborough in August next are mooted by the officers and executive of Branch 52 Canadian Legion B.E. S.L.

Admiral Jellicoe, who is head of the British Legion, in succession to the late Field Marshal Earl Haig, will be in Canada during the summer of this year, and will be present at the Canadian Legion Convention to be held at Oshawa in August.

The son of J. H. Jellicoe of the merchant marine, Admiral Jellicoe was born at Southampton, England, in the year 1859. Entering the Royal Navy in 1872, he became a lieutenant in 1880 and served in the Egyptian War.

He was chief staff officer to Admiral Seymour, and commanded a naval brigade in the expedition to relieve the legations at Peking in 1900, being severely wounded. From 1902-10 he was almost continuously serving at the Admiralty on shore, except for a short term afloat as second-in-command of the Atlantic Fleet 1907-8. He was created a K.C.V.O. in 1907, in which year he reached flag rank. From 1908-10 he was third sea lord and controller, being in charge of the construction of ships, under Sir J. Fisher. He commanded the Atlantic Fleet 1910-11, and the 2nd Squadron of the Home Fleet, 1911-12, and then became sea lord. In the naval manoeuvres of 1913 he commanded the Red Fleet. When war became inevitable he was second sea lord and vice-admiral in rank; ordered to Scapa, he there received his appointment as commander-in-chief of the Grand Fleet, August 4th, 1914, which it had previously been arranged should be given to him in the event of war. He held the post until November, 1916, when he became first sea lord, having been promoted to Admiral, March 5th, 1915.

On November 28th, 1916 he handed over the command of the Grand Fleet to Sir D. Beatty, and proceeded to London to take up the organization against the German U-boat campaign. He described this as the greatest danger which had ever menaced the British Empire.

In January 1918, he was raised to the peerage as Viscount Jellicoe of Scapa. Promoted Admiral of the Fleet in 1919 and he made a tour of the Empire in that year in connection with naval defence. Governor-General of New Zealand 1920-24, he was created an earl in 1925.

# REGULAR MEETING MILLBROOK C.G.I.T.

**Sixth Lesson in First Aid Instruction Given—Village News.**

MILLBROOK, April 24 (Examiner Correspondence)—The weekly meeting of the Wide Awakes C.G.I.T. group was held on Wednesday evening at the church, when instruction in First Aid was given, this being the sixth lesson in the course which the girls are taking under the supervision of Mr. Theobald: In spite of very unfavorable weather there were ten present, and one visitor. Next week the meeting will be at the leader's home, and the regular C.G.I.T. program will be followed.

Mr. and Mrs. W. C. Ackerman, of Peterborough were guests of Mr. and Mrs. William Wilkinson on Tuesday.

The provincial gathering of the W.M.S. of the Presbyterian Church is being held at Windsor this week on April 21, 22 and 23. Mrs. J. R. Eakins was appointed delegate by the Presbyterial to attend this convention, but is unable to go owing to being seriously ill for the past two months. Mrs. Eakin's many friends in the community regret this very efficient worker's inability to be present at the provincial gathering at Windsor.

Mr. C. W. Richards, of the local newspaper editorial staff, is at present in the General Hospital, Toronto, undergoing treatment for the illness from which he has suffered for several months past.

Mr. and Mrs. G. E. Burnham motored to Toronto on Thursday morning, their son, Ernest L. Burnham, who has completed his four-year course in mechanical engineering at the University, accompanying them home the same evening.

Mr. A. J. Fallis' many friends will be glad to know that he has so far recovered in health as to permit his removal from the General Hospital, Toronto, where he has been a patient for several weeks, to his home on Fallis Line. Mr. Fallis has, however, a long period of convalescence still ahead of him before regaining normal health and strength once more.

Mr. J. McKnight has been elected superintendent of the Sunday School of Grace Presbyterian Church, following the resignation of W. E. Belch, and Gordon Armstrong who served for a short time after Mr. Belch gave up the office.

Mrs. C. M. Westmascott returned to the village on Wednesday after an extended visit with her sisters, Mrs. R. Fowler, of Victoria, B.C., and Mrs. Stowe, of Winnipeg, and has re-opened her home for the succeeding months. Miss MacNamara accompanied Mrs. Westmascott on Wednesday and both were dinner guests of Mrs. (Rev.) Joseph Wilks after their arrival on the noon train from Toronto.

# Don't Be Skinny

**Gain pounds of weight in few weeks with new IRONIZED YEAST—a special combination of dried brewer's yeast plus iron—*or pay nothing***

It seems almost unbelievable how fast new Ironized Yeast has added pounds of good firm flesh—on men and women, children and old people. Nervousness, tired feeling changed quick to new strength and pep; constipation, indigestion vanished.

People ask—what is the wonderful power in Ironized Yeast that has transformed sallow, lifeless, blemished complexions into fresh, smooth, lovely skin. No wonder thousands of women pour in letters praising the youthifying effects of Ironized Yeast.

Yet the answer is simple. Ironized Yeast is two tonics in one—special weight-building dried brewer's Yeast and blood-enriching, strengthening Iron. The yeast is the same used in making malt and which makes malt so beneficial. It is specially cultured and concentrated to give the utmost in flesh-producing value. Double-tested for strength, purity and potency. Used by doctors and big hospitals.

To this concentrated dried brewer's Yeast is added three kinds of easily assimilated Iron to quickly make rich, red blood and tone up nerves and muscles. By this special process Ironized Yeast is made more effective than yeast or iron taken separately. Contains no starches, flours or gas-forming fillers. That's why Ironized Yeast works so quickly. Pleasant little tablets — no nasty taste, no gas or bloating. Never spoil, safe for all.

Go to any drug store today, get a full size treatment of Ironized Yeast, and take the little tablets as directed. If after this generous trial you are not delighted with quick results, your money refunded by manufacturer.

If inconvenient to buy from druggist, send $1.25 direct to Canadian Ironized Yeast, Co., Ltd., Box 1323, Montreal, Que., Desk 2104.

# *Canadian Labrador Has Fine Hospital*

**Many Notable Doctors Have Served on Harrington Grenfell Hospital Staff.**

Harrington hospital is located on one of a group of islands by that name on the north shore of the Gulf, near Cape Whittle. Established about thirty years ago, it was for the first ten years in charge of Dr. H. Mather Hare. Since his departure for the Bahamas, several doctors have served there, prior to taking up their life-work in the foreign field. Among some of the notable are Dr. J. Hinson West, who went to India; Dr. Theo Yates, now in China; and Dr. Geo. W. Harley, now in Africa.

Dr. Donald G. Hodd, Medical Officer at present has been in charge five years. He comes from Hamilton, Ont., and is a graduate of Varsity.

Harrington hospital is a three-story wooden structure, and being located on a rocky, barren hillside, makes a great wind-break. It has two wards and a sun-porch for T.B's, accomodating all told, sixteen patients. Dr. Hodd's parish extends from Natashquan on the West to Forteau, on the East, with scattered villages and isolated families scattered along the way. The launch, "Northern Messenger" carries the doctor on errands of mercy, brings patients in and carries them home again. With three launches of varying size, this station is well equipped for travel by water. In winter by dog-team Dr. Hodd makes his round of calls east and west as weather permits and patients in hospital can be left. Dr. Hodd has evidently won the confidence and esteem of his constituency.

Recognizing the value of the hospital and nursing service rendered on the north shore, the Provincial Government of Quebec makes an annual grant toward upkeep, which helps materially.

## *Child Prince Goes Sleighing*

NOTHING TO WORRY ABOUT—YET

At least that is what Baby Prince Anthony, son of the King of Jugoslavia, says as he enjoys a sleigh ride at the royal mountain home in Slovenia. Plenty of time later on to worry about affairs of state and all that. Prince Anthony is the youngest of three sons of the monarch—Copyright by Acme Newspapers.

### CAVAN

Mr. Donald Tinney was a business visitor to Oshawa on Wednesday.

Miss Jennie Cathcart and Mrs. Lily Mulligan of Peterborough spent Sunday with Miss Winona Cathcart.

Messrs. J. S. Cathcart and J. C. Swain visited Mr. C. Hancock of Smith on Wednesday.

Mrs. W. Card and son Russell have returned home from Eldorado, where they spent the past two weeks.

Mr. and Mrs. Orville Young and children of Smith spent Sunday the guest of Miss Winona Cathcart.

**Minard's Liniment heals Wounds.**

# FARM SEEDING IS NEAR COMPLETION

**Locomotive Responsible For Bush Fire on Property of Allan Sluggit.**

LINDSAY, April 24 (Special to Examiner)—According to information given out by the local Agricultural Office, fully one-third of the seeding in Victoria County has been completed. This is a record which has not been equalled in years. There is considerable low land in certain townships, which the farmers have been reluctant to seed. The copious rainfall on Tuesday was welcomed by the tillers of the soil.

The locomotive on the C.P.R. Lindsay-Burketon train was responsible for a bad bush fire this week on the farm of Allan Suggitt, near Janetville Station. The men on the railway section, reinforced by farmers in the section fought the flames for one day. A strong wind carried the embers on close proximity to barns and residences in the district before the progress of the flames were checked.

Constable Irwin, of Fenelon Falls saved a woman from being crushed to death under a locomotive in that village on Wednesday morning. As the train from Haliburton was nearing the station, the officer saw Mrs. Percy Donaldson on the track, apparently unconscious of the approaching train. He hurried to her aid, but she still stood in the middle of the track, and he was obliged to take her by the arm to safety. Mrs. Donaldson lost her two children in a fire at Norland a few weeks ago, and she never recovered from the terrible shock. With her husband she has been living with relatives in the village, and it was learned that she had left the house on Tuesday afternoon and had wandered about during he night.

Preventive Officer Jennings of the Excise Department investigated certain rumors concerning moonshine operations in the northern part of Victoria County this week. He came across a man who was recently convicted for operating a still while he was in the act of jumpig a fence. In his hurry to make a get-away, he dropped a number of yeast cakes from his pockets. After being questioned, he was allowed to depart.

A fire of mysterious origin practically destroyed the residence of Mrs. Charles Windatt, at Kirkfield, this week. The fire was discovered in an upstairs closet. The interior was badly gutted, and very little of the contents were saved. The family was away at the time, and no fire had been left burning in the stoves.

### Keene

Miss Jean Nelson, of Queen's University is home to spend her summer holidays with her parents.

Miss Mary Lang has opened her home in Keene for the summer. Miss Ella Cameron of Westwood is with her.

Miss Nellie McCrae has been in the village for a few days.

Mrs. Campbell had as her guest on Sunday Mr. David Carmichael, of London, England, Mr. and Mrs. Conden and Mr. Cruikshank of Toronto.

A main arterial highway opened by Miss Bonfield, Minister of Labor for England, follows the reputed line of an old Roman road which ran from Rochester.

# NEW C.P.R. ENGINE LARGEST OF KIND

**New Stage in Advancement of Steam Locomotive is Represented.**

## BUILT BY COMPANY.

MONTREAL, April 24.—The largest and most powerful locomotive of its kind in the world, and the first of the type on this continent, was completed and ready for service when the giant oil-burning, three-cylinder "8,000" type engine, representing a new era in the advancement of steam motive power of greater efficiency and higher sustained capacity, was placed on exhibition in the Windsor Street Station of the Canadian Pacific Railway at Montreal to-day. It was built by the railway at its Angus shops in Montreal, and is destined for use in freight and passenger service in the Rockies. It is attracting much interest in mechanical and railway circles, particularly in boiler design from the present type of locomotive boiler, and also because of the high steam pressures used, with resultant economies in fuel without additional costs for boiler maintenance.

Statistics in regard to this monster locomotive will give some idea of its size. The weight of the engine is 485,000 pounds, and the tender 300,000 pounds, a total of 392½ tons, while length over all of the two is 99 feet 3 3-8 inches, an increase in weight of 448,00 pounds and an added length of 1 foot - inches over the 5900 series locomotive, the biggest locomotive prior to the construction of the "8000." The ten driving wheels are 63 inches in diameter.

*Such a clean, fresh, lovable fragrance—*

No wonder dainty women all over the world treasure its refreshing charm — no wonder our Canadian leaders of taste and fashion find it indispensable for those informal occasions when heavier scents are out of place.

YARDLEY LAVENDER

C. R. Terrill took a truck load of bags to Toronto on Tuesday.

THE MAJORITY DEMANDS GILLETTE

ALWAYS AHEAD IN QUALITY

*always leading in sales*

SUPREME quality—acknowledged by more than a hundred million men and proved day after day in more than a hundred million razors—has made Gillette the overwhelming leader in every nation. From industrial Peterboro to gay Paris this blade is predominantly first choice of the vast majority.

Twenty-nine years of arduous research plus exacting care in every detail of manufacture and inspection guarantee unequalled satisfaction when you shave with the Gillette blade. Keen scientific minds are dedicated solely to the task of maintaining outstanding quality leadership.

In the opinion of most men the world over a Gillette shave is unparalleled for comfort and convenience. Light, swift strokes—entirely free from harshness or irritation—soothe and refresh the face. Double edges of remarkable keenness give you double shaving service—double economy, comfort and satisfaction.

Always ahead in quality—always far ahead in sales—Gillette shaves the face of the world—holds the lead everywhere. For absolute assurance of unsurpassed shaving performance and economy—most men consistently ask for Gillette when they need razor blades

# EUROPEANS IN WESTERN CANADA BEING RAPIDLY CANADIANIZED

### Immigrant Proud of New Nationality is Report of Dr. Murray.

### NEW ORGANIZATIONS.

WINNIPEG, Man., April 24.—Picturesque clothing brought by their parents from Europe has been discarded by the younger generation of new Canadians settled in the western provinces, Dr. Walter Murray, who has just completed extensive studies in forty western communities, reports in a most romantic story shown to me yesterday by Robert England, western representative of the Department of Colonization of the Canadian National Railway.

Dr. Murray was one of the judges in a competition inaugurated by Dr. W. J. Black, and endorsed by Sir Henry Thornton, to determine the relative degree of progress being attained by communities of immigrants from the continent of Europe who had settled in western Canada.

**Hold Contest.**

In three western provinces forty communities with about 125,000 persons, 600 schools and nearly 25,000 school children entered the competition. These communities represented thirteen different nationalities. In Saskatchewan there were represented one Hungarian, one Scandinavian, one German Lutheran, two German Catholic, two Mennonite, one mixed German Lutheran and Mennonite, one mixed Doukhobor and Ukranian and nine mainly Ukranian communities.

The communities were to be judged by their progress in education, in agriculture, in citizenship and in the arts handicrafts and activities that minister to the home and social life.

"Now just read Dr. Murray's report," Bob England said, (Mr. England for three years taught school in a Ukranian district of western Canada. Winning a scholarship he studied a year in Paris, and then spent considerable time in immigration work in central Europe. He is the author of several books and articles).

**Makes Homes, not Fortunes**

"Perhaps the most general impression was great surprise and pleasure at the progress made, and the prospect of further advancement of these continental Europeans in western Canada," writes Dr. Murray.

"These people have come to Canada to make homes for themselves and their children, not to make fortunes to take back to Europe or to the coast where they may live in idleness. They were industrious and thrifty and have a love for the soil. While they retain an affection for the land of their birth, its customs, language and history, they are anxious to be regarded as Canadians.

"In the homes the sewing machine, the nickel-plated stove, the piano, the automobile may be seen, together with some treasured heirloom or household appliance that came from Europe.

"The use of garlic is rapidly disappearing because of the remarks of some who fail to remember that the garlic, the onion and the leek are cousins, and are beneficial to the health."

**Children Speak English**

Dr. Murray found their school buildings their equipment and sanitary arrangements as good as those found in eastern Canada, in some cases better. In several schools he found individual drinking cups, individual towels, individual receptacles for the mid-day lunch.

"No a single child above grade one was found who could not understand and speak English," he continues. "In every home visited, it was possible to converse with the old people if there was a child about."

Dr. Murray asked one of the immigrants from Central Europe how long had he been in Canada. "Twenty-nine years, work like h . . . . but Canada is a good country. In Russia, work like h . . . for other man," was his reply.

"Organizations have been formed for the improvemen of rural life," his report continues. School buildings, churches, halls, rinks and recreation centres have been erected.

"In many places baby clinics have been held," Dr. Murray goes on. "The second generation of immigrants are insisting on better care for maternity cases, and many are receiving it. Early or child marriages are being frowned upon. Inoculations against diptheria and vaccinations against smallpox are accepted, nay, even welcomed, in these communities."

Dr. Murray reports that religion plays a stabilizing part in the life of these new Canadians. "In time, the Lutherans, like the Anglicans, Presbyterians, Congregationalists and Methodists, will develop within Canada agencies which seek to consolidate and expand their influence.

It may be unwise to expect Lutheranism, whether it be Swedish, Norwegian, Danish Icelandic or German, to become one and make its contribution distinctively Canadian, but there is evidence that the German Lutheran, the Icelandic Lutheran, and possibly others, are looking less beyond the borders of Canada for leadership and direction."

# ON TEE AND GREEN

## Latest news and views of the Golfing World

By RALPH H. REVILLE

(By Ralph H. Reville, Copyright, 1931)

It is very rare indeed that Easter witnesses such an early opening of the golf season as was recorded in Ontario this year. Good Friday, and the week-end weather conditions were quite favourable for the game and as a result many of the Toronto Clubs had as many as two hundred and more members out to enjoy a round of the links. Hamilton, London, Brantford, Sarnia and other cities and towns too witnessed a record number of players teeing up, for their first game. Several Montreal courses were also open for play.

Green keepers almost without exception, report that courses have wintered extremely well and as a result several clubs are allowing their players to already use the permanent greens, which is a very unusual thing so early in the year. Manufacturers and dealers in golf balls, clubs and equipment report that sales this season are approximately 20 per cent. ahead of last year and indications are that in 1931 will easily be the greatest year in the history of golf in Canada. Generally speaking the season is some three weeks ahead of 1930.

In addition to Ross Somerville, Canadian Amateur Champion and "Phil" Perkins British ex-amateur champion, George Voigt of New York and Charlie Seavers of California are looked upon as serious threats for the U. S. 1931 crown now worn by Bobby Jones. Voigt has for the past two or three years been very much in the picture but young Seavers is more or less of an unknown. It was Seavers who rushed unheralded and unsung into the U. S. Amateur last year and accounted for Voigt and other experts. Somerville, Perkins, Voigt and Seavers are just now the favorites to win titular honors, although between now and next September when the championship is to be played at Chicago there may be many a young player who will spring into prominence. There are dozens of youthful collegians quite capable of developing championship calibre. The woods are full of 'em.

George Von Elm, who, as an amateur was ranked second only to Bobby Jones, and who left the amateur ranks to make golf a business last year, has justified the step from a financial standpoint for the past winter he has drawn down over $9,000 in tournaments which makes him with Johnny Golden, and Gene Sarazen amongst the top-notchers in the southern season just closed. None of the stars the past winter came near the record of young Horton Smith in 1930 who collected $15,500 in prize money. Smith was far down the list this year, whilst Hagen, Armour Diegel, and MacDonald Smith were also very much out of the spot light.

The U. S. Women's National Championship will be held at Buffalo, Sept. 21st. to 26th, the Executive Council announces. This will give the leading entrants time to motor or proceed by train to Toronto and participate in the Canadian Ladies' open at Rosedale September 28th to October 2nd. It is rarely that these two major women's championships of the continent dovetail in so well. Venue and dates are ideal and as a result both events will attract the leading lady players of the two countries. Last year the Canadian Championship wasl held in Montreal and the U. S. at De Monte, California—a tidy little jump of two thousand miles or more instead of a hundred miles or so this year. Miss Glenna Collett the U. S. champion, Miss Maureen Orcutt, the present Canadian champion and all the leading American stars are sure to be at Rosedale, this year. It is also hoped that several leading players from the West and Vancouver will be among the entrants. In addition to the National, Buffalo is also to have the Women's Western 72-hole medal play championship at the Wanakah Country Club, September 14th to 16th.

The Prince of Wales can always be depended upon to do the right thing and the nice thing. After making a "hole-in-one" on the San Vincente Golf Club, Brazil last month he presented the ball to the club much to the delight of the members. The ball will be appropriately mounted and will become the most treasured possession of the club. When in the Argentines, His Royal Highness took several golf lessons from prominent professionals there and presented them with tie-pins surmounted by his famous crest. This is his invariable custom. Two or three Canadian golf professionals are proud possessors of similar pins given to them during visits to golf courses in Canada, when they too have given him instructions.

With the appointment of Davie Spittal at the Royal York last season, to the St. Andrews Club, Toronto, Jack Madash, a clever young Ontario pro to Amherst, N.S., and Don Chester, former assistant of Eric Bannister, St. Charles, Winnipeg, to Yorkton, Sask., with the exception of a few summer resorts, all clubs in Canada are now "all set" professionally, for the coming season.

Although quite a large number of old country professionals, some of them quite well known, were very anxious to come to Canada this spring, none were given an appointment. All positions were awarded to Canadians or old country pros residing in Canada. More and more clubs in Canada are giving the preference to native born professionals. There are now in the Dominion, dozens of young assistants quite capable of taking over clubs. In the years to come it would seem that English and Scottish professionals will have little chance of securing appointments in this country. The same conditions are also to be found in the United States. A few years ago clubs there were nearly entirely manned by old country professionals. Today the American-born predominate. In golf, as in everything else "times chagne and things with the times." The professional door, both in the United States and Canada, will soon be shut to outsiders.

The U.S.G.A. official programme for the U. S. open championship at the Inverness Club, Toledo, Ohio, has just been issued. One hundred and fifty players will be eligible for the championship rounds on July 2nd, 3rd and 4th. Of this number, the first thirty contestants and ties who returned low scores in the open championship rounds of 1930 shall be exempt from qualifying. American professional who compete in the British Open Championship shall be exempt from qualifying. Foreign professional players visiting the North American continent shall be exempt from qualifying, and twelve places will be reserved for such contestants in the championship rounds. Entrants from the Dominion of Canada will be required to qualify in the district most convenient. For Ontario, the most convenient qualifying course will be possibly the Oakland Hills Country Club, Birmingham, Mich. For Quebec, the Westchester Country Club, Rye, N. Y. Manitoba, Town and Country Club, St. Paul, Minn. For British Columbia, the Inglewood Country Club, Seattle, Washington. The date or the Qualifying Rounds to be played is Monday, June 8th. Entries close on May 19th.

It is understood that Bobby Jones, the present champion, will not enter for the championship. Mr. Ross Somerville and one or two leading Canadian professionals will probably enter for the Qualifying Round.

At the recent annual meeting in Winnipeg of the Manitoba Golf Association, the delegates unanimously decided to ask the Royal Canadian Golf Association to hold the Amateur Championship of Canada in Winnipeg in 1933 and at the annual meeting of the Manitoba Branch of the Canadian Ladies' Golf Union the C.L.G.U. was requested to stage both the Canadian Ladies' Open and Canadian Ladies' Closed Championship in Winnipeg either in 1933 or 1934.

The west takes the stand, and quite rightly so too, that the Major championships of Canada should not always be held in the east. The Amateur Championship of Canada was last held in Winnipeg in 1921 or ten years ago when it was won by Frank Thompson, then of Toronto, runner-up C. W. Hague, then of Calgary. The Canadian Ladies' Closed and Open Champioships were held in Winnipeg in 1926 upon which occasion Miss Ada MacKenzie, of Toronto, won both events with Miss Helen Paget, of Ottawa (now Mrs. R. J. Holmes Toronto) runner-up on each occasion. All three Championships will go west in 1933 or 1934 as both the R.C.G.A. and C.L.G.U. are now sympathetic in regard to them being held every few years outside of Ontario and Quebec.

### RUSH POINT.

Mr. and Mrs. Norman Blakeley and family, are settled in the "Alley" place, at Rush Point.

Several Rush Point young men including Murnie Barton, Gavin Buchanan and S. Seeney, were in swimming here on April 19.

The regular efficiency League meeting of the Rush Point Young People was held here on Monday evening, instead of Thursday, this week, owing to other engagements for the latter part of the week.

A vocal solo by Miss Jean Pollock, accompanied by Rev. Mr. Archer, at the organ, was greatly appreciated. The topic given by Mrs. Earl Pollock on a most appropriate subject "The Mothers of the Old Testament."

A very timely and beneficial talk on "Safety First" was given by Rev. Mr. Archer.

The usual church service followed.

Mr. Harold Seeney and Mr. Robert McCutcheon left this week for Hamilton where they have accepted situations for the season.

Mr. George Cooke and Mr. Arthur Parker are already at the lake here for the summer.

Mr. Guy Saul entertained a number of Rush Point young men at cards on Tuesday evening.

"Smiler" Smith, the most popular traffic officer in Johannesburg, South Africa, was, on his retirement recently, presented $640 which had been collected from his admirers in amounts limited to 25 cents.

QUALITY

The most economical thing you can buy

When you buy a Tip Top Suit or Topcoat you buy more than so much cloth and tailoring—more than fine style and exclusive fabric. You buy the most reliable custom-tailored clothes it is possible to purchase, from an institution that has satisfied more than two and a half million Canadian men in the past twenty years.

"Still More Quality" each season is the Tip Top policy—a policy that made us leaders and kept us leaders—for after all, nothing you can buy is quite so economical as quality. And never was this so true as it is to-day.

USED CARS WANTED

This is an unusual request at this time of the year, but we have found the demand for our Used Cars so strong this season that our stock of Used Cars is very much down. The reason for this situation is due to the fact that we recondition our cars so completely and give such excellent values that they are readily picked up.

Come in and see us at the first opportunity and we will give you a fair appraisal on a new car.

# Local Boxers Break Even In Lindsay Tourney

## FOUR KNOCKOUTS FEATURE FISTIC ART TOURNAMENT

**"Bat" Vinette, 138 Pound Local Boxer ,Takes Count From Art Gaskell.**

**SOME GOOD MELEEING.**

The local boxers broke even in their fights last night in the Lindsay Armouries in a classy boxing show marked with four knockouts. About four hundred yelled themselves hoarse over the nine scraps and two wrestling exhibitions on the card. The Lindsay show was promoted in good style by Art Gaskell, with only the Toronto boxers and wrestlers failing to put in an appearance.

Peterborough was well represented with seven scrappers there, and Gord Garwood refereeing the bouts, while Gene Hurtubise handled the wrestlers. Four Midland fighters gave a good account of themselves also. The judges were Percy (Speed) Houser and Les Richardson, both of Lindsay. Reg. Lesurf went up from here to meet "Red" Springer of Toronto, but the latter was not there, and no other suitable opponent could be found for Lesurf.

Bruce Duncan and Fred Scott, two 75-pound Midland prelim boys gave a fairly fast and even exhibition bout to open the show. They were well-matched and swung hard and often with little to choose between them. It was a no-decision affair.

Doug Mowry, weighing 95 pounds, Peterborough, lost a decision to Maurice Murphy of Lindsay, supposed to be 103 pounds but looking even heavier. It was a scrappy go all the way with Doug wading into his huskier enemy who kept both hands going hard and landing fairly often. The first round was even, but Murphy had an edge in the last two using his weight and longer reach to advantage. They had a crowd welling most of the time with their free swinging and aggressiveness. The Lindsay boy got the nod.

**Chapman Scores K.O.**

Gord Chapman, Peterborough, 118-pounder, knocked out Russ Tevens, Lindsay boxer weighing 123, in the second round. They started slow with a lot of posing, and Tevens having a little the better of the first. Then Gord hung a real sock on the other's whiskers and he went down for a count of five. Chapman followed him around trying to finish him the rest of the round. They started the second one slow again, with a lot of clinching. Then Gord began driving Tevens around the ring with hard rights and crossing him with straight lefts to the head. He put him down for a 9-count with a hard drive to the jaw. Again he laid him with a right for 8 seconds. They mixed it for a space, and then Chapman landed a right uppercut on the button, and he went to sleep just before the go ended. He was helped from the ring, still groggy.

Max Gilbert of Peterborough, weighing 122½ and Eric Scott, 125, of Lindsay, battled to a fast and exciting draw. Both came out fast and eager to mix it, with Max landing harder and cleaner blows. There was considerable clinching and both went down together through a slip. It looked like Gilbert's round. The second went to Scott who was more aggressive and used both mitts to advantage. They were clinching and roughing it some at the bell. They started the third fast with both boys swinging hard, but clinching and wrestling a lot. Scott went down for a count of 6 from a right uppercut. Gilbert was hitting him often at the gong. However the judges called it a draw and advised a two-minute round to decide it. This was a slow and cautious affair, both missing and keeping covered up. The bout was called a draw.

Harold Hornsby, 130-pound Midland boxer won all three cantos from Gord Scott of Lindsay, 128¾ pounds. They started fast with Hornsby landing several straight rights and lefts to the head. Scott rushed him to the ropes and was warned for fouling. Harold bored in and connected three hard jabs on Scott's jaw. The latter was again warned just at the bell. They both connected for several in the second, with Hornsby getting his in straight from the shoulder. Scott was warned for the third time for dirty tactics and the round ended slower. They were very fast in the last, and Harold kept smacking him often. He was fast on his feet and had little difficulty in making Gord miss. The latter went down once but was up immediately, and there was more clinching at the end. Hornsby's hand was raised.

Elmer Hebner of Midland, 138 pounds, knocked out technically Adam McCabe, Lindsay 138-pounder, in two minutes. He started right in to hammer Adam about the ring with hard rights and lefts to the jaw. He had him groggy and out of the ropes when the referee stopped the fight, and gave him the decision. It was the only thing to do as McCabe was all through.

**Vinette Takes Count**

"Bat" Vinette, 133-pound Peterborough boy, was knocked cold in the third round by Art Gaskell of Lindsay, 132. They started slow with a few wild flurries, and then Art put him down, but there was no count. "Bat" had a nice left but was too cautious and Art landed a few hard drives just before the bell. He won the round. They started the second fast but soon slowed up and did quite a bit of wild swinging and clinching. "Bat" looked better for a bit, then Art got going and stretched him twice in a row for counts of 8 each time with right swings to the button. They were mixing it at the gong. The last was fast and even at the start but one minute later, Gaskell brought a right up from his heels and laid it on Vinette's chin, and the latter took the count.

Len Post of Peterorough and Karl Montemiglio of Lindsay, both weighing 145, put on a good scrap with the former winning on a technical kayo in the third. Both mixed it often and landed too, with first Karl and then Len looking better. It was an even round. Post was faster and more aggressive in the second, boxing coolly and landing hard jabs on the head and body, but the other was game and kept trying. It was Len's round. In the third, Len got to work on him and smacked him some tough ones, having his nose bleeding early. He followed him around and landed a hard right uppercut putting Karl on his back, and the referee stopped the fight. Karl was all right in a minute, and deserves credit for the way he kept trying when Post had it all over him in the last two rounds.

Hank Noakes, 158, and Art Hamilton, 165, both of Peterborough, went on in the last bout, with the latter winning on points. They started slow and both landed a few as they felt each other out. They were going along even at the bell. The second was faster, with both of them mixing it. Art jabbed a lot with his left and crossed with his other duke, while Hank kept boring in and swing a hard right. They showed some fancy boxing, using nice footwork, but the crowd didn't appreciate it. Art had a slight edge on the round. They were hitting hard and often in the last, each one looking the better for a time. They boxed openly and there was not a single clinch in the third. Art landed oftener and was leading on points at the end. He got the decision.

Art Wileman and Grant Pollard of Lindsay wrestled in a six-minute exhibition affair with no decision given. Gene Hurtubise refereed. It was a fast, interesting session, with every kind of hold displayed. While Pollard was thrilling and looked good, Wileman seemed the more experienced and had an edge throughout.

Jack Stevens, 135, and Harold Clementt, also 135, both of Lindsay, went on in another wrestling go, this time to a decision. Stevens got two falls in a row, the first in two minutes and the other in one minute. It was a fast match while it lasted and the pair had the crowd plenty excited, but Jack was in better shape and knew more about the game. He tried one hold after another and each time flattened Harold out with little trouble. The latter was game and fast, and put up a nice exhibition but he was no match for the winner. Gene Hurtubise, of Peterborough, refereed this affair to.

When "Red" Springer, the Toronto lightweight didn't put in an appearance, Reg. Lesurf, the Peterborough scrapper, could find no suitable opponent to tackle, and the card ended with the wrestling matches.

DO YOU KNOW THAT— by GEORGE GUNDERSEN

**Help Gundersen and Win a Prize**

Send in your interesting fact today. It need not necessarily refer to tobacco. For every fact we use we will send you a package of 20 Buckingham Cigarettes. Give a reference with your fact. If interesting enough Mr. Gundersen will cartoon it and you will receive the complimentary package of Buckinghams, Canada's most popular blended cigarette. Buckinghams are all that is fresh, cool and mild—a blend of all that is finest in tobaccos, packed for your pleasure and enjoyment. Address your facts to George Gundersen, Dept. K, Tuckett Tobacco Co. Limited, Hamilton.

**Set of "Do You Know" Cards**

For ten cents in stamps we will send you a set of "Do You Know" cards—sixty interesting subjects printed in color with full description (size of cards 2½" x 1⅝") or for twenty cents we will include cards and also an album in which the cards can be placed to give a complete collection in permanent form.

## Mrs. A. M. Harper Will Compete At Wimbledon

SAN FRANCISCO, Cal., April 24 (C.P.).—Mrs. Anna McCune Harper, of Oakland, Cal., first United States ranking woman tennis player, will complete in the Wimbledon, England, championships this year for the first time. She will sail from New York, May 15.

The left-handed star is looking forward to another meeting with Miss Betty Nuthall, the young British girl who defeated her in the finals of the 1930 United States Championship.

The Oakland matron will travel with three other United States players, John Van Ryn and the latter's wife, the former Marjorie Gladman, and George Lott, of Chicago.

Wood from America is being used in mine structures in South Africa.

Lu Blue should help the White Sox at first base, but he doesn't hit with the vigor of his Detroit days. He was always a fancy fielder around the bag.

## Berg Vs. Canzoneri.

**CHICAGO, Ill., April 24 (C.P.). This is how Tony Canzoneri, the world lightweight champion, and Jack (Kid) Berg of London, junior welterweight champion of the world, compare for their ten-round title engagement, with both crowns at stake, in the Chicago Stadium to-night:**

**Tony Canzoneri — aged 22 years; height, 5ft. 5¾in.; weight, 133 lbs.; neck, 15in.. reach, 66¾; bicep, 13¼in.; forearm, 11in.; wrist, 7in.; waist, 30in.; chest (normal), 36in.; chest (expanded), 39in.; thigh, 19in.; calf, 13¾in.; ankle, 9¼in.**

**Jack (Kid) Berg — Aged 24 years; height, 5ft. 7½in.; weight, 135 lbs.; neck, 15½in.; reach 68½in.; bicep, 12in; forearm, 11in.; wrist, 7in.; waist, 30in.; chest (normal), 36in.; chest (expanded), 40½in.; thigh, 21.8in.; calf, 13in.; ankle, 8½in.**

## RAIN CAUSES POSTPONEMENT IN BIG LOOPS

**Wesley Ferrell Holds Chicago White Sox to Five Hits to Win Out 8-2.**

**INDIANS HIT 13.**

**Tigers Down St. Louis Browns For 1-0 Decision in Only Other Game Played.**

By HUGH S. FULLERTON, Jr.
(Associated Press Sports Writer)

The ball players who are trying to get their teams into the American League pennant race this year are inclined to fear the Cleveland Indians more than several other teams which mere fans consider about as strong. And Cleveland's playing so far has shown they have a good reason for that fear.

Escaping the first general deluge of postponements yesterday, the Indians won their sixth game in nine starts this season to take undisputed possession of second place. Wesley Ferrell, star hurler of the fine Cleveland staff, gave the Chicago White Sox just five hits to win his third victory of the season by an 8 to 2 score. Behind him the Indians hit safely 13 times.

**This was just one sample of how Cleveland has been going through the early games. Ferrell has hurled two full games and parts of two others, winning three and losing one. Brown, Harder and Hudlin also have given Cleveland some good hurling. The batting department, with the recruit Joe Vosmik setting the pace, also has been going at a great clip. Only three times in their nine games have the Indians failed to connect for ten or more hits.**

Yesterday's other game produced a tight battle between the St. Louis Browns and Detroit Tigers, two teams which have shown signs of being dark horses in the pennant race but have not had much chance to display the degree of darkness. They have met five times so far out of six games for the Browns and eight for Detroit and the standing between them is 3 to 2 for St. Louis despite yesterday's defeat.

Tom Bridges, the Tigers' recruit hurler, had the better of the mound duel with southpaw Walter Stewart, who pitched his third full game of the season. Bridges allowed only four hits and Stewart five, two of which came together to give Detroit a 1 to 0 decision. Three successive postponements apparently had taken some of the sharpness of the Browns' batting eyes, for it was the first time they had fallen below eleven hits a game.

Rain and cold weather throughout the major league portion of the country caused the postponment of all National League games and two in the American. It was the first time any game in the eastern half of the two circuits had been called off.

**SOFTBALL LEAGUE ORGANIZES**

COBOURG, April 23.—The Rawdon Township Softball League is to be reorganized in the near future. Teams will be entered by Menie, Hoard's Bethel, Sprinbrook and Glenn Ross. These are the same teams that played in the league last season.

**TO BE SCENE OF HEAVYWEIGHT BOUT**

**NEW CLEVELAND MUNICIPAL STADIUM.**

Here is shown an air view of Cleveland's new $2,500,000 municipal Stadium, which is officially announced as the site of the coming heavyweight championship fight between Max Schmeling and W. L. Stribling, to be held on July 3. The Stadium was built to seat 80,000, but the capacity will be increased to 120,000 by installing seats in the arena.

## SOCCER GAME ON SATURDAY

**Scots and Brintons Open Local League Schedule on King Edward Park.**

**McKINLEY IS REFEREE.**

The official opening of the local soccer league takes place on Saturday afternoon on King Edward Park when the Brinton Athletic will have the Caledonians as their opposition in the first fixture. Kick off at three o'clock, Referee, Alexander McKinley. Linesmen to be chosen by the teams and name attached to the list of players handed to the referee before the game starts. Jack Hodson has been notified to have the nets in position, as early as possible in the afternoon, so that there will be no waiting and have a prompt kick off.

New goal posts have been provided this season and the paint job has been a great improvement to the playing pitch.

The Scots will turn out in a new attire which has been selected to correspond with the previous sweaters and pants. They will have an entirely new line-up from last year. All players are requested to be at the pavilion no later than 2:30.

The visitors have selected a strong eleven for the occasion.

W. Curtis, goal; D. Green and S. Laidler, full backs; J. Taylor, T. Westwood and R. Creighton, halves; Ted Boon, J. Rodgers, A. O'Halloran, J. Sweet and A. Adkinson, forwards. Reserves—A. E. Bayliss and J. Cross.

## Softball Notes.

The first practice of the season for the C.G.E. ladies' softball team will be held in King Edward Park on Saturday afternoon at two o'clock sharp and a full turnout of prospective players is requested.

The prospects of a strong team from the Electric plant is almost a sure bet as several outstanding players employed in that factory at the present time seem very enthusiastic and it only remains for a capable manager to get them properly organized.

## Yesterday's Stars.

**Wesley Farrell, Indians, shut out White Sox with five hits and fanned eight to win third victory of season, 8 to 2.**

**Johnny Hodapp, Indians — hit three singles, sacrificed, and was hit by pitched ball in five times up against Chicago.**

**Tom Bridges, Detroit — shut out Browns with four hits to win 1 to 0.**

**Charley Gehringer, Detroit — doubled off Walter Stewart and scored on Alexander's single for only run against St. Louis.**

## *Carpet Bowling Club Holds Annual Banquet*

**Seventy Members of Mark Street United Church Gather at Jolly Social.**

Mark street United Church was the gathering place last night at a banquet of some seventy members of the Church Carpet Bowling Club and U. B. One Bible Class combined. The speaker of the evening was J. E. R. Munro, principal of King George School, while James Ellis, capably discharged the duties of toastmaster.

The proceedings opened with the singing of grace, after which community singing was enjoyed, while the Lady Workers of the Church busied themselves with the final arrangements for a splendid repast.

Mr. Ellis gave a short address in which he traced the growth of the Bowling Club and Bible Class, which started in the Fall of 1929 with a membership of four. He paid tribute to the untiring work of the Sunday School teacher Tom Hendry, and made the names of certain members of the club the subject of some very witty puns.

The toast list was freely interspersed with musical items and community singing, the program being as follows:

"The King". Selections by Peter Moseley at the piano. "The Church", proposed by Ward Gamble, responded to by Rev. A. E. Thornley, M.A., pastor of the Church. Vocal solo, W. Binks; "The U. B. One Bible Class", proposed by vice presidents Max Pomeroy and Fred Stevenson, and responded to by Tom Hendry; Solo, C. Telford; "The Bowling Club", proposed by George Tremaine, responded to by George Record; address, J. E. R. Munro; "Our Country" proposed by Sam Whittaker, responded to by Hugh McWha. A vote of thanks was moved by J. Welch and seconded by W. Huston, in which thanks were tendered to the Lady Workers of the Church, who had contributed in such a great measure towards the unqualified success of the evening.

The proceedings came to an end with the singing of "Blest be the Tie That Binds" and "Auld Lang Syne".

## BRONZE SHOWS BEST WORK OF PLATERS

TORONTO, April 24—It was cold and raw at the Woodbine yesterday and the track was slow from the overnight rain.

Bronze showed himself to be the pick of the Thorncliffe stable King's Platers when he beat Oil Rite half a length, 6 furlongs in 1.19 2-5. Manana dropped back after the first quarter and finished in 1.21. Oil Rite was whipping at the end, while Bronze finished strong under good handling by T. Almers. The fractional time was .24 2-5, .51 and 1.19 2-5.

Fess, the other Thorncliffe candidate, surprised the clockers by working a smart 6 furlongs in 1.18 2-5, and is a possible starter in the plate race.

Trainer Bud Graves sent Silver Dot five furlongs in 1.06 and Sky's Window and Whinstone the same distance in 1.13.

W. E. Bulmer's plater, Saucy Kid, worked 6 furlongs in 1.24 2-5.

The work credited yesterday to Jean O'Doon, one mile in 1.47, was in reality performed by a stablemate, Kirkland Post, also a candidate for the guineas and one of W. H. Wright's nominations. The clockers got the fillies mixed. Jean O'Doon only took quiet exercise.

## LES CANADIENS RECEIVE TRIBUTE

**Well Known Fountain Pen Manufacturers Present Players With Pens.**

**IN CLUB COLORS.**

To show their appreciation of the wonderful showing made by the valiant members of the Canadien hockey team, L. E. Waterman Company, Limited, prominent Canadian pen manfuacturers, presented each player and member with a beautiful Waterman pen.

The pens were of the new Waterman Patrician design, engraved, "World's Champions, 1929-30, 1931, Les Canadiens." They carried the famous club's colours as well as the recipient's name. Each pen was presented in tri-coloured boxes with the player's name printed in gold.

Mr. Fred McConnell, Canadian manager of L. E. Waterman Company, Limited, expressed his appreciation and the appreciation of the Waterman Company for the opportunity to present the World's Champions with this serviceable gift—another tribute to the valour of Les Canadiens.

## *Indian Rookie Slugs Way To Top Of Majors*

Joe Vosmik, sensational Cleveland recruit, slugged his way to the top in major league batting circles yesterday when he hit safely three times in four attempts, to boost his lofty average to .567.

The Cleveland youngster passed Charley Berry, Boston Red Sox catcher, whose average dropped to .480 when he hit only once in five trips. Wally Berger, slugging Braves' outfielder, took over third place with a mark of .455 as the result of a perfect day, three for three.

Jim Levey and Melillo, St. Louis Brown infielders, stood fourth and fifth with averages of .450 and .444, respectively, rain keeping them indoors for the day. Watkins, St. Louis Cardinal outfielder, vaulted into sixth place with a mark of .429 by hitting three out of four against Cincinnati.

| | G. | A.B. | R. | H. | P.C. |
|---|---|---|---|---|---|
| Vosmik, Cleveland | 7 | 30 | 7 | 17 | .567 |
| Berry, Red Sox | 7 | 25 | 6 | 12 | .480 |
| Berger, Braves | 9 | 33 | 6 | 15 | .455 |
| Levey, Browns | 5 | 20 | 3 | 9 | .450 |
| Melillo, Browns | 5 | 18 | 4 | 8 | .444 |
| Watkins, Cardinals | 7 | 28 | 5 | 12 | .429 |

## TORONTO LEAFS SURPRISE TEAM IN MINOR LOOP

**Yesterday's Game Postponed and O'Neillmen Leave For Baltimore.**

**FIVE GAME SERIES.**

**Coming Session Will Show Strength of Respective League Leaders.**

NEWARK, N.J., April 24—One week of the International League season has already passed into history and surprises have been numerous. But the biggest of the upsets was furnished by the Toronto Maple Leafs. The O'Neill men turned the critics upside down and, instead of being a door-mat, have come through, and now are tied for second place with the Montreal Royals.

The Leafs moved out of this city early yesterday for Baltimore, where they are to engage the Orioles, starting to-day in a five-game series in the band-box park. The series will go a long way in settling the strength of the Orioles, who at present are the pace-setters. Should the Leafs come through and play the same kind of baseball they displayed against the Bears it would not be surprising to see them on the top perch of the ladder when they leave the monumental city next Tuesday night for their final stand on the road at Reading.

**Surprises the Critics**

For a time it was believed that O'Neill had a mediocre aggregation of ball tossers. But Steve has fooled the critics by whipping his players into a fighting, hustling combination that refuses to admit defeat. The fact that they dropped two games here was due to light hitting, but then the Leafs ran into a lot of classy pitching, in fact, the best they had encountered this year.

The Leafs are the dark horses of the race. Many think they will be in the thick of the fight once the campaign settles down to the survival of the fittest. O'Neill is a foxy and shrewd manager. He has the knack of instilling hustle and fight in his men and he's a stickler for harmony. Steve is recognized as one of the best pilots in minor league baseball and a wizard in the art of handling pitchers.

With a couple more flingers and possibly another hard-hitting outfielder, the Leafs will make the other teams hustle. O'Neill has his hooks out for pitchers and so hopes to land at least two before the Maple Leafs make their debut in Toronto next month. One man is with the Yankees, but where the other flinger is, Steve refuses to say. He does expect help from Detroit, but that promised material may not be available before the first of June, when the Majors will begin to cut down.

## CANTRELL RETURNS TO TORONTO CLUB

**Bought From Tigers, Who Lend Maple Leafs Good Slugger.**

DETROIT, April 24—The Toronto Club yesterday bought Guy Cantrell, right handed Tiger pitcher, and obtained the services of Ivey Shiver, Tiger outfielder.

Shiver is the all American end from Georgia in 1927 and 1928. He is a slugger of tremendous long distance ability. He had been playing centrefield for the Tigers against left handed pitching, but Manager Harris felt a few months in the big minors would do him more good than irregular playing with Detroit.

Detroit can recall Shiver on 24 hours' notice should the Tigers need him during the season.

## BURTON'S DOUBLE IN SIXTH BRINGS IN WINNING COUNTS AND QUEEN MARY LOSES 7-6

Inaugural Game of Local Baseball Season Played Under Cloudy Skies.

LOSERS SHOW CLASS.

Both Teams Evenly Matched But Winners Take Advantage of Breaks.

Under heavy grey skies and with a decidedly cold wind sweeping the playing field, making good baseball practically impossible, the Public School Baseball League got off to a flying start when the King George boys took the long end of a 7-6 decision from their West-end rivals, Queen Mary.

Weather conditions could scarcely have been worse for the summer pastime, but little did this dampen the enthusiasm of both players and stalwart supporters. The game marked the opening of a schedule that will keep the teams busy till the end of May.

Owing to the inclement weather, it was decided that five innings would constitute a full game, but the teams, not satisfied with this considerate arrangement, were found deadlocked 5-5 at the end of the final frame, and it was not till a hectic sixth inning was played did the East City team nose out their win.

Both schools trotted out well-balanced line-ups, and there was little to choose between them, but the winners took slightly more advantage of the breaks, and Burton, a burly outfielder, carried off the honors when he doubled nicely to bring Hawland and Lipsett home with the tying and winning runs. The losers also showed a lot of class, and Allan Clark, midget backstop, led the field with four hits in as many attempts. Len White turned in a nice pitching performance and after a shaky start in the first frame when seven batters faced him for three runs, he steadied down and had the opposition badly baffled, but a bit shaky fielding and errors at critical times cost him the game. Stew Williamson, the rival moundsman, kept the Queen Mary hits well scattered, but got out of dangerous holes in the third and fifth only by the nice support of his team-mates. Both twirlers allowed eleven hits, but Williamson proved slightly more effective, striking out ten to White's eight and walking two—two less than his rival.

**Visitors Score First.**

The visitors put one run over in their half of the first when Allan Clark scored on his brother Grant's single, but King George came back with a deluge of hits to score three times before White found his bearings and fanned two in succession.

Both teams went out in order in the second, but each added one to their total in the third when Allan Clark tallied for Queen Mary and Stew Williamson for the homesters.

The fourth frame saw the visitors creep to within one run of their rivals when Mortimer scored on a series of errors, but Williamson put on the brake in a hurry and fanned Neiman, Harding, and White in succession.

In the fifth inning both teams made a decided stand for victory, and on hits by Allan Clark and Hamley and a walk by Grant Clark, two runs were chased over by Queen Mary, giving them the lead for the first time 5-4. In the last half of the inning Burton led off with a hit, but was caught at third base to quench a seeming tally. Anderson singled stole second, and the game was tied up when Clark threw a wild third strike to Hamley, allowing Anderson to score.

**Win in Sixth.**

In the sixth, Harding walked for Queen Mary, managed to get to third and was brought home when Allan Clark singled to right. White and Neiman were easy victims and Worboy pulled the hidden ball trick to catch Clark off second base. In the last of the frame and two runs down Hawland walked for the home team and reached third when Lipsett stretched a long fly into a double. Hill struck out and Williamson grounded to first. With two out and runners on second and third, Burton drove a beautiful double over second base, driving in Lipsett and Hawland with the tying and winning tallies.

The teams:

Queen Mary — A. Clark, c; K. Hamley, 1b; L. White, p; G. Clark, ss; E. Florence, lf; D. Mortimer, rf; S. Neiman, cf; R. Harding, 3; R. White, 2b.

King George — J. Hill, c; C. Lipsett, 1b; S. Williamson, p; L. Burton, lf; D. Worboy, 2b; O. Anderson, ss; D. Loescher, rf; B. Ellis, 3b; R. Hawland, cf.

Score by innings:

| | |
|---|---|
| Queen Mary | 101121—6 |
| King George | 301012—7 |

Struck out—by White 8, by Williamson 10. Base on balls—off White 4, off Williamson 2. Hits—off White 11, off Williamson 11. Left on bases—Queen Mary 8, King George 8.

Umpire—Bill Calladine.

### *Babe Ruth's Injury Shows Improvement*

**BOSTON, Mass., April 24.—Babe Ruth's injured leg showed continued improvement, according to a bulletin issued last night at the Peter Bent Brigham Hospital by his physician, Dr. Francis C. Newton and the latter's consultants.**

**"Continued improvement of the muscular and sensory injury of left leg has been observed during the day," their bulletin read. "More complete examination by X-ray adds no information of importance."**

**Signed—"Francis C. Newton, John Homans, Morrill Sosman."**

### *Philadelphia Games Open This Morning*

PHILADELPHIA, April 24. (CP)—Fourteen representatives from two Hamilton, Ont., colleges to-day were ready for the opening gun of the 37th annual carnival of relay races and field sports of the University of Pennsylvania which starts at ten o'clock and continues over to-morrow.

The Canadian teams which arrived yesterday found themselves among about 500 others coming from all parts of the United States. Bad weather kept the athletes off the track but conditions for the opening of the meet to-day were reported ideal.

To-day was to see the classic event of the meet, the one mile relay in which teams from both Hamilton, Central and Delta, were entered.

## CITY'S GROWTH IS ILLUSTRATED

Interesting Statistics Are Provided by the Chamber of Commerce.

DOUBLE IN 10 YEARS.

Interesting statistics of Peterborough's growth in financial standing and progress were given last night at the annual Chamber of Commerce banquet. These statistics were neatly illustrated on the front of the Chamber's report of its work during 1930.

The statistics are:

Customs receipts—1920, $1,001,560.87; 1930, $1,844,074.60. Postal receipts, 1920, $95,838.39; 1930, $120,646.31; assessed value of property, 1920, $16,887,565; 1930, $24,145,92 ; Telephones, 1920,2924; 1930, 5,776. Auto licenses, 1920, 2,347; 1930, 6,125. Gas Meters, 1920, 2,707; 1930, 3,312. School enrolment, 1920, 4,107; 1930, 4,513. Electric light meters, 1920 5,152; 1930, 6,358. Water consumers, 1920, 4,688; 1930, 5,712. Penny bank deposits (schools), 1928, $8,999.63; 1930, $15,020.05. Bank clearances, 1919, $41,326,004; 1930, $47,113,834. School valuation, 1920, $518,021; 1930, $1,145,274. Public Library circulation, 1920 72,627; 1930, 130,918. Tourist revenue, 1925, $252,000; 1930, $617,236. Building permits, 1922, $439,154; 1930, $797,895.

The capital invested in Peterborough's 79 industries was given as $24,795,133; annual salaries, $5,712,694; annual value of manufactured products, $36,124,140; Industrially employed, 1930, 4,626; employed in all lines, 7,380.

## BOXING TOURNEY OPENS TO-NIGHT

Thirty-six Leather Pushers Will Compete in Preliminary Rounds.

FOR ONTARIO ROUNDS.

LONDON, Ont., April 24. (CP)—Thoroughly representative of the province's boxing centres, 36 leather pushers will compete in the preliminary rounds of the Ontario boxing championships here to-night. A total of 18 bouts, ranging from the unofficial 105 pound class to the heavyweight, are on the card.

While Woodstock, Brantford, Windsor and other cities will have high class entrants performing in the tournament, Hamilton and Toronto boxers dominate several classes, particularly the 105, 112 and 126 pound divisions.

Several of to-night's competitors are regarded as strong favorites to win their class titles and earn the trip to Winnipeg where they will represent Ontario in the Dominion championships. These boxers include Harvey Fleet, the hard hitting Kitchener lightweight, Ray Cook, clever Toronto featherweight, Horace "Lefty" Gwynne Toronto flyweight and Ernie McLennan, London middleweight.

**BANDITS BLOW UP SHIPS—60 KILLED**

CANTON, China, April 24 (A.P.)—Sixty persons were killed to-day when bandits blew up two steam launches, owners of which had refused to pay the protection fee demanded.

CASUAL COMMENT

There were not many seniors out for the baseball practise last night at the Exhibition Grounds, but it wasn't a very good evening. And if it remains cool for a week or so, the boys will have to start loosening up the arms all over again.

* * * * * * *

Word from Kingston is that the Ponies will not play in the C.O.B.L. this year. They will play intermediate, so the Kingston scribe says, though he failed to mention just what league will welcome a strong team like the Ponies.

* * * * * * *

He also says that unless the C.O.B.L. wants to break its heart with generosity and pay part of the travelling expenses, there isn't a chance in the world of Kingston being in senior company this summer. Well! That's too bad—for Kingston, dropping back like that into slower company. Evidently, they forget that there were only two teams in the C.O.B.L. last year, and thats why they lost money.

* * * * * * *

The big turnout of lacrosse players last night shows that there are plenty of young athletes still interested in the game. And there looked to be material enough for a good intermediate outfit to play against district teams this year.

* * * * * * *

There will be a meeting some night next week inviting citizens and players interested in the national summer game to come out and see what can be done toward reviving lacrosse in Peterborough. This town was well-known in lacrosse circles at one time, but recently it's been a different story.

* * * * * * *

There is no reason why the game cannot be revived. It just takes a little backing and co-operation to get things started. And there are a number of the old guard of the gutted stick around yet. When players like Mick Halpin, Father Phelan, Chris Graham, Rollie Glover, J. McKone, Bill Maher and B. Crowley along with others made Peterborough known throughout Central Ontario.

* * * * * * *

Soccer gets away to a start Saturday when the first league fixture will be played at the King Edward Grounds at three o'clock. The teams opening the season are Brinton Athletics and the Caledonians.

* * * * * * *

Bill Prindible has been asked to be the O.B.A.A. convenor again this year for Eastern Ontario. He wrote back to the secretary accepting the office. Bill is a good man for that position.

* * * * * * *

The senior ball players will practise to-morrow afternoon at 3.30 down at the Exhibition Grounds. The weather is getting back to where it was, and as the team has the diamond only for an hour, a flock of players should be out and on time.

* * * * * * *

And that lacrosse practise at two bells to-morrow afternoon on the same grounds ought to bring out another good crowd. This is the time to get warmed up right and not wait until the team is pretty well picked.

* * * * * * *

The Peterborough mittsers did pretty good last night in Lindsay. On two occasions local boys were put in against heavier pugs, but they kept on scrapping. The losers made it a fight every time before bowing to superior strength or experience.

* * * * * * *

Gord Garwood made a good referee, and was not criticized even once, which must be a record for a Peterborough fellow in Lindsay. Big Gene Hurtubise had no trouble handling the rasslers, and the crowd liked him.

* * * * * * *

Too bad all the boys that went up from here didn't have a chance to strut their stuff. There were several more than needed, as Garwood thought it better to take too many than not enough. Reg. Lesurf would have liked to have got in there, but who was he to fight?

* * * * * * *

Young Doug Mowry will make a nice little boxer before long. And what a wallop Ford Chapman packs in his right hook. But then all the boys went nice, though some got better breaks. Midland has some classy ring gents too, with Elmer Hebner, a straight, hard-hitting fighter, who made a good impression on the crowd in his K.O. of McCabe. Taken all around, Art. Gaskell put on a nice boxing card.

## BERG FAVORED 7-5 TO DEFEAT CANZONERI FOR LIGHTWEIGHT

Whitechapel Whirlwind Expects to Have No Trouble in Subduing New York Italian.

By William Weeks
(Associated Press Sports Writer)

CHICAGO, Ill., April 24. — Tony Canzoneri, lightweight champion of the world, will match his title against the junior welterweight crown owned by Jack (Kid) Berg of Whitechapel, England, to-night in the Chicago stadium.

Canzoneri, one time holder of the world featherweight championship, will be defending his latest title for the first time since he won it from Al Singer last November and if the betting odds are indicative of the outcome, the lightweight title will take a trip to England the next time Berg goes home. The slambang Britisher to-day was held a 7 to 5 favorite to defeat the New York Italian by a decision at the end of the 10-round engagement.

Canzoneri's title was dragged into the argument when Berg, who does his fighting at 138-40 pounds, made the lightweight limit of 135 pounds to get a crack at the more expensive crown. Canzoneri however, believed that making the weight had done the Britain no good and was confident he would win by a knockout within five rounds.

Berg, who scored a decisive victory over Canzoneri in New York before the latter won his title, said that making weight had done no harm and that he expected to repeat without extraordinary difficulty.

Both are aggressive fighters and the meeting to-night promises to provide more action than any lightweight title fight since the division championship began bobbing around like a cork on a wave. However, in spite of the prospect of a great fight and an excellent supporting card, the attitude of the customers, especially the one and two-dollar ones, has been apathetic.

**No Cash Call**

Where the last lightweight title battle, between Sammy Mandell and Canzoneri, then the challenger, drew in excess of $136,000, to-night's production may not attract more than 15,000 spectators and $65,000. With the seats scaled at from $2 to $10.80 including tax, the higher priced seats have sold well, but there were many of the others to be had to-day.

Canzoneri, who has displayed even harder punching power in training to somewhat signs of slowing legs, will bank on an early knockout. If he nails Berg, who appears to improve as he goes along, is expected to blast out a decision.

Fresco Thompson cheered up the Robin rooters by his plays around second base in the Yankee series at Ebbets Field. It has been a long time since Brooklyn had a regular second baseman.

### Major League Leaders

### *Hastings Villagers May Form Rifle Club*

HASTINGS, April 24 (Examiner Correspondence).—Arrangements are completed for the meeting on Saturday night in Lynch's Hall for the forming of a rifle club for Hastings and district. The organizers are anxious to secure at least forty members, as with a membership of forty they are entitled to a grant of $80.00. Captain Hilliard Neilson of Westwood, a man who has had a great deal of experience with rifle clubs, will be the guest speaker. Three sites are already under consideration.

# MR. AND MRS. JAMES SEYMOUR CELEBRATE 25TH ANNIVERSARY

### Fairmount Couple Entertains Number of Friends at Jolly Social Evening.

### W.M.S. PANCAKE SOCIAL

FAIRMOUNT, April 24.—(Examiner Correspondence.)—Mr. and Mrs. James Seymour celebrated the twenty-fifth anniversary of their wedding on Saturday evening when they entertained a number of their friends. All the members of the family, including children and grandchildren were present for the occasion. The family joined in presenting their parents with flowers and handsome silver gifts.

**Pancake Social.**

A successful pancake social was held at Fairmount Church by the W.M.S. on Friday evening when several were present from Peterborough and other outside points. The Maple Syrup used with the pancakes was kindly donated by Richard Earle.

After the social an enjoyable program was given and included: piano solo, Mrs. Moyer; guitar and violin selection, Mrs. C. Seymour and H. McArthur; duet, Mr. and Mrs. C. Hanbidge; solo, Duncan Seymour; trio, Petrie family, accompanied by Mrs. C. Seymour; reading, Miss Helen Staples; piano solo, Miss Marie Douglas; solo, Mr. Petrie, Sr.

## Elected President

MR. F. W. MORTON

of the International Harvester Co. of Canada, Hamilton, who was elected President of the Industrial Accident Prevention Associations at the Annual Meeting yesterday. Mr. Morton has been active in the safety movement for many years and has been chairman of the 1931 Convention Committee.

## Fenella

Mr. and Mrs. S. Adams and son Albert, and Mr. and Mrs. James Waldie, visited friends in Grafton on Sunday.

Mr. and Mrs. James Curtis and daughter, Norma, visited Mrs. Curtis' parents, Mr. and Mrs. H. Porter, Oak Heights, on Saturday.

Mr. and Mrs. O. G. Nichols, Toronto, spent the week-end with the latter's parents, Mr. and Mrs. F. J. Slade.

Friends of Mrs. W. H. Sandercock will be sorry to learn she is confined to her home suffering from scarlet fever.

Mr. and Mrs. Carl McNaught and children, Bernice and Merlin, were guests of Mr. and Mrs. Alex Merriam, Harwood, on Saturday.

Mr. Barney Jaynes, of Baltimore and daughter, Adjutant Ella Jaynes, of Toronto, called on Mr. and Mrs. J. Herrington recently.

Mr. and Mrs. W. Rogers and family, Centreton, were Sunday guests of Mrs. C. W. Macklin.

Miss Donna Falling, Cobourg C.I. was home over the week-end.

Mrs. John Lonsberry and daughter, Francis, have gone to Cobourg to reside.

The many friends of Mrs. John Harper will be sorry to learn she is not in her usual health. Mrs. Harper suffered a weak spell a few days ago and although she has improved, still continues in a weak condition.

Mr. and Mrs. Harrison George visited the latter's mother, Mrs. William Isaac, Castleton, on Sunday.

Bethany Church reopened for the summer months on Sunday morning, with Rev. M. H. Hamley, Centreton, in charge of the service.

Mr. and Mrs. Hugh Sherrin visited Mr. and Mrs. Frank Shearer, Harwood, on Sunday.

Mr. and Mrs. Delbert Adams and children, accompanied by Mrs. Milne, Roseneath, visited Mr. and Mrs. Keith Halstead, Bewdley, on Sunday.

## Roseneath

Mrs. William Jackson is confined to her bed with a heavy cold and la grippe.

Mr. Arthur Tucker is again seriously ill and under the doctor's care.

Mr. Ted Cusworth, of Camborne, rendered a solo "This is My Task," at the afternoon service, at Alderville, on Sunday.

On Sunday, May 10, Rev. Walter B. Craw, B.A., of Toronto, will be in charge of the service in the afternoon, and it is also expected that Mr. Cusworth will sing. It is very encouraging to those who are in charge of the services at Alderville, to notice the increase in the congregations.

The Roseneath Rangers will meet in the town hall on Friday evening under the supervision of Rev. R. W. Paton.

Misses K. and H. Barrie were called home on Sunday because of the illness of their mother, who is in the hospital at Peterborough.

The dance on Saturday was very successful and will be repeated next Saturday night.

A number from here attended the progressive crokinole and entertainment at Centenery on Monday evening and report a very pleasant outing.

Mr. and Mrs. D. Ryan and family, of Kingston, were visitors with Dr. Sam and Mrs. Ryan, on Sunday.

Mrs. E. J. Milne paid a visit with her daughter, Mrs. Keith Halstead, on Sunday.

## Warsaw

Farmers are rushing work on the land and it is likely that a good deal of grain will be in the ground before May 1.

Mr. and Mrs. Earl Borland have moved to Peterborough.

Mr. and Mrs. Brether, have come to Warsaw and are residing in part of George Tucker's house. Mr. Brether is the cheesemaker at the Warsaw Cheese factory this season.

The United Church Women's Association presented their play at Carmel on Friday evening.

A family in Cottesloe is quarantined for Scarlet Fever and the school children are all inoculated. Sometime ago an isolated case occured near Warsaw but with strict quarantine, there were no other cases.

NO MORE ECZEMA
Itching Ends Right Away
"I had eczema for several months. Single application of "Sootha-Salva" ended itch and burn right away. My skin is now clear." Jane Paula. "Sootha Salva" is quickest known relief for eczema. Itching stops; scales go. All druggists.

# Communist Party in "Cleansing" Period Expels 99,160 Members for Misdemeanors

**MOSCOW, U.S.S.R., April 24 (C.P.). — After a considerable "cleansing" period, the Communist Party announced to-day that 99,160 members had been expelled on a variety of charges, including sympathy with Leon Trotsky, exiled leader, anti-Soviet activities, drunkenness, and "anti-morality."**

**The number of members subjected to the "cleansing" process was listed at 1,273,000, of which 130,497 were ordered dropped, but thousands appealed and were reinstated. Reprimands were issued to 155,976 for such misdemeanors as drinking in public places and laxity in observing party discipline.**

**Other charges on which the expulsions were based were embezzlement, lavish living and ostentation, belief in religion, and failing to disclose that near relatives were traders, priests, or army officers under the old regime.**

# SOCIAL EVENING AT LIFFORD LINE

### Women's Association of Fleetwood Enjoy Pleasing Program.

LIFFORD LINE, April 24.—(Examiner Correspondence).— A very happy social time was spent on Friday evening when members and friends of the Women's Association at Fleetwood met at the hospitable home of Mr. and Mrs. Jacob Hart.

The excellent condition of the roads and fine spring weather were factors in drawing the large number considering the busy season of the year, of around forty-five guests.

When a cordial welcome had been extended to all a well arranged program consisting of music, games and contests was introduced.

Of special interest was a 'musical romance" and a local name contest. Guessing contests and games were among other interesting features of the evening's entertainment. Special credit was due Miss Ida Shea and Miss Marjorie Werry for assisting in arranging and conducting various numbers on the program.

A hearty vote of thanks was extended to Mr. and Mrs. Hart for so kindly opening their home for the occasion.

A silver collection of four dollars was received. The service of refreshments following the program and the singing of the National Anthem brought an enjoyable evening to a fitting close.

Five banks in England now have a total of 8,000 branches.

**Praises Famous Vegetable Pills For Indigestion**

"Having been troubled with Indigestion and Sick Headaches for several months, I was recommended to try your famous Pills. After the first dose I was made aware of their very real tonic value."—Miss M. Croydon.

Dr. Carter's Little Liver Pills are no ordinary laxative. They are *all vegetable* and have a very definite, valuable tonic action upon the liver . . . exactly what you need to end Constipation, Acidity, Biliousness, Headaches, Poor Complexion, etc. All druggists, 25c & 75c red pkg.

# YOUNG LIBERALS PLAN MEETING

### East Ontario Representatives to Meet in Ottawa on Saturday.

### IMPORTANT TOPICS.

OTTAWA, Ont., April 24. (CP) — Organization of both men's and women's branches of a Twentieth Century Liberal Association of Eastern Ontario will take place here Saturday following a luncheon under the auspices of the local branches of the Twentieth Century Liberal Association of Canada. Upwards of 300 young Liberals are expected to attend.

Mitchell F. Hepburn, M.P. for Elgin West, and leader of the Liberal party in Ontario, will be the chief speaker Hon. W. L. Mackenzie King, leader of the Liberal opposition in the House of Commons will also give a short speech.

While plans are not yet completed as regards the programme for the business meetings to follow the luncheon, it is expected that among the subjects of discussion will be the question of appointing women to cabinet posts, electoral reform and proportional representation, centralization of industries in eastern Ontario and th question of taking steps toward having the provincial government consider the granting of the national franchise to all residents of urban centres over the age of 21 years instead of the present system by which only taxpayers and tenants can cast ballots on municipal matters.

**PERFUMERY PAPERS**

New and novel are books of colored bits of paper which are a new kind of perfumery. They supplant the old-time sachets that grandmother made out of lemon verbena and lavender for dresser drawers.

"Hello"

*Are the children in your home like this?*

## LOVELY DISPLAY OF FADA RADIOS

**Three Period Models in Heintzman Hall's Window Attracting Passers-by.**

Lovers of the best in radio will find thrilling delight in the interest-holding display in Heintzman Hall's window, cor. of George and Hunter streets. Therein may be seen an exclusively attractive showing of Fada Radios, comprising three Period Design Models, two handsome Colonials and a Baby machine. While transcendently beautful indeed are these richly hand-carved walnut cases, greater beauty still is found in the tone, reception and selectivity of these three "last words" in Radio creation.

These newest Fadas cannot be classed in the category of cheap radios, but to those who can afford an excelling grade of machine their quality and value will readily be recognized as worth very much more than the prices asked.

## *Train Cuts Off Feet Victim May Survive*

GRAND FALLS, N.B., April 24. — Although his condition is serious, hopes are held out for the recovery of Kenneth Linton, Saint John business man, who had both feet amputated in the hospital here after he fell under the train he was about to board.

Linton, whose courage gained him an outstanding record while overseas in the Great War as a member of the Fighting 26th Battalion, crawled 150 yards to the station, broke a window to attract the station agent and had himself taken to the hospital on a truck. Alhough suffering excruciating pain, he talked to his wife in Saint John by telephone from the hospital a few minutes before being wheeled into the operating room.

### BODY OF YOUTH RECOVERED

GODERICH, Ont., April 24.—(CP).—The remains of William Mallough, age 21, one of the two youths who were drowned in the lake here Sunday, March 29, were recovered near the north pier early yesterday.

The other youth who was drowned, Leonard McDonald, 18, has not been recovered.

## 23RD BIRTHDAY LOCAL BUSINESS

**Anniversary Sale Off to a Good Start With Greater Price Reductions.**

**HOME FURNISHING CO.**

The Home Furnishing Company, 206 Charlotte Street, are celebrating the 23rd anniversary of their inception as a furniture house which has kept pace with the times—in quality, modernity, and approved business methods. This birthday observance, as customary, takes the shape of a sale where prices are hammered down to the level of prewar times. It is a big selling event in which these popular caterers to home comfort score again with bargains that offer tremendous savings at a time when shoppers must indeed economize. No doubt a small army of home-lovers will rise to this opportunity for purchasing the newest high-grade Canadian furniture at prices almost unbelievably low—and, if desired, on terms that make buying easy.

The Home Furnishing Company make a feature of furnishing the home complete, from ground floor to attic, for couples about to start housekeeping. For such commissions, if credit is wanted, the terms will be found exceptionally reasonable—and just now anniversary sale prices are, of course, available. The store is resplendent with an attractive showing of whole suites of furniture for any room, occasional chairs, odd pieces, floor covering, stoves, and baby carriages.

Mr. Harry Florence, the genial and capable head of this live concern, has made considerable extension to the premises since assuming control, and his business policy has won favor from hundreds of householders in and around Peterborough city. Despite present economic conditions, he entertains commendable confidence in the future of Canada and Peterborough, and heartily agrees with he popular refrain, "Everything's going to be all right, all right."

## POLICE SEEKING LOTTERY BACKER

**Victoria Journalist Claimed to be Behind Million Dollar Swindle.**

**CONFISCATE 40,000 TICKETS.**

VICTORIA, B.C., April 24. (CP) Although police on both sides of the border are conducting an intensive search for Arthur English, alleged originator of the "million dollar sweepstake lotterv" whose activities were halted by Victoria detectives with the seizure of thousands of "tickets" in his apartment office here, he had not been located, police reported to-day.

A warrant is out for the arrest of English, but on what charge the police here decline to divulge. They intimate some developments may be expected within the next twenty four hours.

Characterized as one of the most daring "get-rich-quick" schemes ever attempted within the boundaries of the dominion police claim the "Canadian National lottery" carried all the ear marks of gigantic swindle by which the promoter stood to gain $1,000,000 had all tickets been disposed of.

English, who claims the profession of a journalist, has been missing from his office for more than two weeks. His rent is long overdue and his secretary is still unpaid. Police here are in possession of approximately 40,000 tickets. Across the line, presumably at San Francisco, is another 200,000, it is stated and the sale of these has been stopped police declared. Tickets were to have sold at $4 each.

THE SON OF TARZAN No. 47 (Metropolitan Newspaper Feature Service, Inc.) By Edgar Rice Burroughs

Korak knew something serious had happened. He called, but no Meriem answered. In the distance the jabbering of the monkeys was growing fainter. Korak swung rapidly in their direction, soon overtaking the rearmost. At sight of him they fell to screaming anew, pointing downward ahead of them. A moment later he came in sight of the cause of their rage. His heart stood still as he saw the limp body of the girl across the apes shoulders.

That she was dead he did not doubt! There arose within him something he did not try to interpret; but all at once his whole world seemed centered in that tender, graceful body hanging so pitifully limp and helpless across the bulging shoulders of the ape. He knew then that Meriem was his sun, his moon, his stars—with her going had gone all light, and warmth, and happiness. A groan escaped his lips; and after that a series of hideous roars.

He dropped like a plummet in mad descent toward the fleeing ape. The bull turned at the first sound of this new and menacing voice and as Korak saw his ugly visage a new flame was added to his rage. For the creature before him was none other than the king ape who months before had driven the Killer from the great anthropoids to whom he had looked for friendship. And at the same instant the king ape recognized Korak!

Dropping his prize to the ground, with lowered head he rushed headlong for this smooth-skinned creature who was daring to question his right to his prey. Down they went, tearing and striking. Korak forgot his knife. Rage such as his could only be satisfied by the feel of hot flesh between rending fangs. He was fighting for a woman of his own kind. It was then Meriem opened her eyes: "Korak," she cried, "My Korak."

## I.O.D.E. TO HOLD BRIDGE PARTY

**Several Reports Read at April Meeting of 57th Regimental Chapter.**

**APPOINT DELEGATE.**

The regular April meeting of the 57th Regiment Chapter, I.O.D.E., was held in the Armouries on Thursday afternoon with twenty members present. The regent, Mrs. T. W. H. Young, presided.

Mrs. R. G. Cottrell, convenor of the flower committee, reported flowers sent to several members who had been ill and Mrs. Sharp reported for the sick and visiting committee. The drum which the chapter decided to repair for the Bugle Band and the picture of the King which they purchased for the Dragoons were shown to the members before being presented to the owner. It was decided to have a Bridge party on Thursday afternoon, May 7th, with Miss M. Rogers, acting as convenor assisted by Mesdames Peryer, Piercy, Poole, Rush and Misses A. Price and Rush.

The correspondence consisted of letters regarding the National Annual meeting, of the I.O.D.E., which will be held in the Nova Scotian Hotel, Halifax, on May 26, 27 and 28. Mrs. R. E. Birdsall, of Birdsall, was appointed as the delegate from the Chapter.

A very interesting report of the Annual Provincial meeting which was held in Hamilton on April 15, 16 and 17, was given by Mrs. Young.

A hearty vote of thanks to Mrs. Young, was moved by Mrs. Miller and seconded by Mrs. Clegg.

## MAIN STREET TOPICS

**Jabs and Jottings as Picked Up by an Examiner Reporter**

**SIGNS TO BE HAD AT EXAMINER**

**There's a sign of four words that speaks eloquently to pedestrians these days. "Please keep off the lawn," is the sign and there are many more of these neatly printed placards now available for Examiner readers who desire them.**

**LICENSES AT POST OFFICE**

**Radio licenses can now be obtained at the Post Office, it was learned to-day. Post Office officials stated that a big supply of licenses is on hand, and that hundreds have been sold in the past few weeks.**

**CHIMNEY FIRES.**

The grass fires have given way to chimney fires once again, due most likely to the frequent rains. At 5.39 yesterday afternoon an alarm was sent in from 438 Mark Street for a chimney fire. Fourteen minutes later another call came in from the same section of the town, 633 Armour Road, for a similar fire. Chemicals were used in both cases. A chimney which was giving out excessive smoke at 814 Water Street aroused the firemen at 9.47 this morning. No chemicals were needed in this case. No damage was reported in any of the three fires.

## Thank Offering Meeting Of Trinity W. M. Society

The annual Thankoffering meeting of Trinity W.M.S. was held in the church auditorium yesterday afternoon. Representatives from the other United Churches were also present. The president, Mrs. Carver, conducted the opening exercises after which Mrs. Brown's group took charge of the meeting. The Easter story was read by Mrs. Bannister. Two solos, "Open the gates of the Temple," and "O Rest in the Lord," sung by Mr. Amys, were much enjoyed.

The speaker of the afternoon was Rev. R. F. Stillman, o Norwood. In his remarks he stressed in particular the value of systema ic giving, in connection with our church work. He also stated that this year the Presbytery is trying to get the young people linked up more definitely with the church work. A vote of thanks to the speaker was moved by Mrs. J. K. Moore and seconded by Mrs. Northey.

## OBITUARY

**WILLIAM T. PASCOE**

The death occurred in Saskatoon yesterday of William T. Pascoe, aged 60 years. Born and raised in Mariposa Township near Oakwood, he was in partnership with his brother in the general store business in Oakwood village, before moving to the West some twenty years ago, where he was engaged in agriculture.

He leaves one son, Clayton, at his home in Saskatoon; a daughter, Ida, on the teaching staff in Saskatoon, and his widow; also two sisters, Mrs. M. J. Lewis, of 218 London street, Peterborough, and Alberta of Toronto, and two brothers James, manager of the Bowes Company, Winnipeg, and Lou of the Bowes Company, Toronto.

READ THE WANT ADS.

## MALE VOICE CHOIR CONCERT TO-NIGHT

**Concert is Being Given in Aid of Unemployment in Peterboro.**

The Male Voice Choir is assured of a large audience at the concert to-night in the Collegiate Auditorium. The attractive nature of the program combined with the laudable effort to assist the unemployed of our city, should appeal to all citizens to support the choir's undertaking.

Hon. G. N. Gordon, K.C., hon. president of the Choir, will be present and speak for a few minutes during the intermission.

The concert will commence promptly at 8 o'clock and the opening numbers should not be missed. All the proceeds will be handed to the local relief funds.

**ASKED TO FORM CABINET**

SOFIA, Bulgaria, April 24.—(CP)—King Boris yesterday gave power to Premier Malinoff a free hand to form a coalition cabinet and the Democratic leader said he would begin conferences with cabinet candidates immediately and would inform the king today of his progress.

## Hepburn Scores High Tariff Making

### CANADIAN PEOPLE SHOULD STOP PREMIER BEFORE EXPORT TRADE IS RUINED LIBERAL RALLY TOLD

Campbellford and Seymour Liberals Hear Three Federal Members.

MONEY IN HANDS OF FEW.

Production Artificially Stimulated Without Compensating Consumption.

CAMPBELLFORD, Apr. 25. — Mitchell Hepburn, M. P. (Norfolk - Elgin), extra-mural leader of the Liberal party in Ontario, addressing the Campbellford and Seymour Liberal Club here last night, diagnosed the economic debility of the world, including Canada, as a result of "the false stimulation of production without a corresponding consumptive demand".

Production has been artificially stimulated by high tariffs without a compensating consumption. Australia with the highest tariff in the world was on the verge of bankruptcy. Apart from other branches of industry in the United States, the dairy business under the Hoover tariffs of 12c a pound on butter and 8c on cheese was demoralized, and Agricultural Colleges were advising dairy farmers to sell their cattle for beef. These results, Mr. Hepburn said, were the hand-writing on the wall that should be a warning to Canada, which was following along the same high-tariff road under the administration of Hon. R. B. Bennett.

"The Canadian people, Liberals and Conservatives, should stop Mr. Bennett before he ruins our export trade" declared the leader of the Ontario Liberal party, with the further statement that the decline in one year has totalled $1,600,000,000. High tariffs, he added, provided special privileges under which money accumulated in the hands of the few.

Other speakers at last night's meeting of the local Liberal Club were W. A. Fraser, M.P. for Northumberland, William Taylor, M.P. for Norfolk-Elgin, and Dr. J. J. Craig, president of the Liberal Association in Peterborough. P. C. Denyes was chairman of the meeting, and at the close a vote of thanks to the speakers and to those who provided the musical numbers was moved by D. J. Lynch and seconded by Walter Wiggins. Vocal solos by Mr. John Storie, accompanied by Mrs. Storie, and a group of vocal selections by Percy Cole of Warkworth, who played his own accompaniment on the guitar, comprised the musical program, which proved most acceptable. Mr.

### Two Cars Stolen From City Streets

**Two motor cars were stolen from the city's streets in broad daylight during the past two days. Both were recovered by police early this morning. No arrests have been made, but police believe they know the identity of the thief.**

**H. B. Taylor, 214 Aylmer street, parked his car on George street near Brock on Thursday afternoon. When he returned the vehicle was missing. It was found this morning by police in the yard of the Westclox factory.**

**William Ralph, employee of Hood and Cumming, parked his car in the Ford yard yesterday afternoon. It was stolen, but also recovered this morning from Mark street.**

### 11 BORDER MEN FINED $100 EACH FOR CONSPIRACY

Action is Outcome of Probe Under Combines Investigation Act.

IN SANDWICH COURT.

WINDSOR, Ont., April 25 (C.P.) — Fines of $100 each levied to-day on eight plumbing contractors and three sheet metal contractors by Mrs. Justice Sedgwick in the Supreme Court of Ontario, sitting at Sandwich.

The eleven Border men were found guilty on conspiracy charges laid under the Combines Investigation Act and the Criminal Code as a result of the activities of the Canadian Heating and Plumbing Guild, the Amalgamated Builders' Council and the Dominion Chamber of Credits. The case was heard by Mr. Justice Sedgewick and a jury and decision was rendered on April 1, but passing of sentence was reserved till to-day.

In the meantime Mr. Justice Sedgewick had heard an application of W. F. O'Connor, K.C., for restraint of sentence. Argument was presented at Toronto, and to-day His Lordship announced that the application had been dismissed.

**Two Months in Jail Alternative**

The fines, or in lieu thereof two months in jail, were levied to-day on

(Turn to Page 15, Please)

### Cup Winners Who Are Also Fighting Hard for Promotion

West Bromwich Albion (above) to-day defeated Birmingham in the English Cup final at Wembley Stadium. West Bromwich Albion has enjoyed a remarkable season and the fact that the club was in the cup final and also in the running for promotion to the First Division is tribute enough to the quality of this team of triers. Pearson, the goalie, is the son of Pearson who kept goal for the Albion when last they appeared in the final. Tommy Magee toured Canada some years ago and is due again with the English team in a few weeks. West Bromwich Albion is composed entirely of Englishmen. The team:

BACK ROW (left to right)—F. Reed, trainer; Dale, F. Everiss, secretary, Evans, Pearson, Carter, Rix, Ashmore, and Trentham.

CENTRE ROW—Glidden, W. G. Richardson, Magee, W. I. Bassett, chairman; Cookson, W. Richardson, and Edwards.

FRONT ROW—Finch, Wood, Shaw, Boaton, and Fitton.

### HOUSE SPEEDS UP BILLS, ESTIMATES ADVANCED FAST

Five Gov't Measures Get Third, and 13 Private, Second Reading.

DUFF HAS CHALLENGE.

King Claims Combination of Two Legal Departments Had Been in Program.

OTTAWA, Ont., April 25 (C.P.).—Government business will have precedence in the House of Commons Monday and will be followed by a review of estimates of the Department of Public Works.

Progress in dealing with the Legislative program of the session was made by the Commons yesterday. Five Government bills were given third reading, 13 private measures received second reading and considerable headway was made with the estimates of the Department of Public Works.

A challenge of the statement that Government estimates now before the House were $37,327,000 lower than the appropriations for last year, was thrown out by William Duff (Liberal, Antigonish-Guysboro. It drew from Premier R. B. Bennett the admission that supplementary estimates to be tabled later in the session might reduce this figure.

**Impression Unfair.**

It was unfair, said the Nova Scotia Liberal, for the Government to leave the impression with the country that a cut of $37,000,000 had been made in the estimates. That figure resulted, he said, when the main estimates of this year were subtracted from the combined main and supplementary appropriations for 1930. When the supplementaries for this year were tabled, then a true comparison could be made.

All estimates for public buildings in Quebec, Nova Scotia and New Brunswick were passed by the House. The totals were $261,000 for Nova Scotia, $175,900 for New Brunswick, and $1,076,900 for Quebec.

Charges that items were being revoted, which, if they had been expended by the present government, would have relieved unemployment, were made by various Liberal members. The original votes were passed by the Liberal Government but work was not proceeded with after the

### Historic Bauble

Football Association Cup, better known as the English Cup which was won today by West Bromwich when they defeated Birmingham two to one.

### THIEF SECURES MEMBERS COAT

Members of Light-fingered Gentry Gets Club Bag and Coat.

TAKEN FROM CARS.

A fast-working member of the light-fingered gentry made his way blithely down Water street yesterday afternoon. During his little walk he outfitted himself for a journey, stealing a leather club bag containing a traveller's wardrobe and, further along, a smart leather coat, the property of J. F. Strickland, M.P.P.

The thief secured the club bag from the parked car of J. C. McCormick, Toronto traveller, outside of 384 Water street. He donned the M.P.P.'s leather ulster in the yard of the Peterborough Club, stealing it from Mr. Strickland's roadster.

The Examiner learned to-day that a man wearing a belted-leather coat and carrying a black club bag was seen last evening hitching himself onto the coal car of an eastbound C.P.R. train.

### David Lloyd George May Visit Russia

**LONDON (by mail)— (A.P.)— David Lloyd George, the Liberal chieftain, may visit Russia in September.**

**Mr. Lloyd George is said to be greatly interested in the Russian five year plan and wants to make a first hand investigation. Once before he proposed a Russian trip and the Soviet Government offered him every opportunnity to make inquiries.**

### Wandering Sailors Overflow Cells

**PORT COLBORNE, Ont., April 25.—The local jail's lodgings are being heavily taxed at present with the large influx of sailors waiting here for boats and the cells have long ceased to accommodate them. In an effort to give them a roof over their head the police court has been pressed into service as a "bedroom." Chief of Police Davies reports an average of fifteen to twenty applicants a night for a "flop."**

### BRITISH PRINCES REACH PORTUGAL

Round of Engagements Follow Landing From Liner at Lisbon.

FLY HOME SUNDAY.

LISBON, Portugal, April 25. (AP) The Prince of Wales and his brother George, to-day participated in the last of the ceremonials with which their few months trip to South America and return has been so replete.

Landing this forenoon from aboard the liner Arlanza, they found a round of engagements, including a solemn reception by President General Carmone, awaiting them. The Prince of Wales invested General Carmona with the Grand Cross of the Order of the British Empire.

To-morrow they will take the cruiser, H.M.S. Kent from here to Bordeaux, where they will board a large 18 passenger airplane for the flight to England, which they left nearly four months ago.

It was uncertain almost up until the last few hours what the two Princes would debark in Lisbon because of the revolutionary situation in Maderia. Portuguese dependency, which it was thought might have had its effects in the home country, but the stop was finally included in their plans. The upheaval in Spain caused cancellation of plans to came home by way of Spain.

#### COMMEMORATE ANZAC DAY

CANBERRA, Australia, Apr. 25. — (CP)—Anzac Day, commemorating the bloody sacrifices of the Gallipoli landing sixteen years ago, was observed generally today in Australia with religious and public ceremonies at shrines of remembrance. The customary religious ceremony was staged on the steps of parliament house.

#### DAWES TO VISIT CHICAGO

LONDON, Apr. 25.—(CP)—United States Ambassador Dawes will sail early in May for Chicago in connection with business incident to the 1933 Chicago World's Fair, but will return to London to take up his duties again upon completion of his visit.

The embassy said today that date of his departure and length of his stay were indefinite.

### TOY AEROPLANE FLIES TWO MILES SETS BUSH AFIRE

Neighbors Seeing Crash Spread Report Two Fliers Had Been Killed.

RESCUE PARTY ORGANIZE.

Craft Made of Tissue Paper Was Powered By Spirit Flame.

SAULT STE. MARIE, Ont., April 25.—An interesting story comes today from Bar River, 20 miles east of here, where Austin Gunn, an 11 year old boy and an aviation fan, with all the enthusiasm of those who get a kick by sailing through the unmarked channels of space, sent aloft a large toy aeroplane which travelled two omiles, started a bush fire and also a report that men manning a plane had been killed in a crash near that place.

**Sold Needles.**

While reading a magazine not long ago Austin came upon an announcement which said he could win an aeroplane by selling 20 packages of needles. He sold the needles and received his 'airship." It was six feet long and made of tissue paper. The night the contraption arrived Austin's father assembled it and sent it into the air. Its motive power was a spirit flame which created heat. Not thinking the aerpolane would fly far, the pair neglected to attack a string to it, according to directions, and they were surprised when it mounted 1,000 feet in the air and disappeared in the distance. The incident was closed insofar as they were concerned.

Presently news came to them that a plane had crashed two miles away, bursting into flame, had started a bush fire and that the occupants of the machine were killed. People of the area got in touch with one another by phone and a party as organized to proceed to the scene of the fire and to rescue if possible the unfortunates who had come to grief.

**Blaze Controlled in Time.**

An investigation disclosed that when the inflator of the toy machine burned out it had come to the ground with sufficient fire remaining in the spirit lamp to ignite grass nearby. The fire could be seen from the Gunn home. Austin's father and elder brother hurried to the spot with the others and succeeded in extinguishing the blaze before it assumed dangerous proportions.

## Birmingham Team Beaten by 1 Goal; 90,000 See Game

In a Downpour of Rain and on Field Which Grew More Slippery as the Game Progressed, West Bromwich Won the English Football Association Cup.

THIRD TIME THAT VICTORS HAVE WON CUP THEY HAVE SEVEN TIMES ENTERED FINALS

Winners Scored One Point in the First Half—Birmingham Evened it Up in Early Part of Second, But Albions Soon Came Through With Winning Goal.

WEMBLEY STADIUM, Near London, Apr. 25. — (C. P. Cable)—In a downpour of rain and on a field which grew more slippery as the game progressed West Bromwich Albion defeated Birmingham by two goals to one today and won the historic English Football Association Cup. Unofficial estimates placed the crowd in attendance at 90,000 and many fans saw the match from under umbrellas. The Duke of Gloucester, third son of King George, headed a company of distinguished people who braved the inclement conditions. He presented the cup and individual medals to the successful team. This was the third time the West Bromwich Albion club has won the English cup, while they have seven times entered the finals.

The West Bromwich team, after an uncertain start, showed brilliant opportunism. They scored first in the twentieth minute of the first half through their centre forward, W. G. Richardson. Birmingham equalized in the seventeenth minute of the second half, through Bradford, their scoring ace, but before the cheers had died away Richardson had galloped through the ranks of the gleeful Birminghamites and had put the Albion ahead again. The last phase of the match produced one of the tensest situations in the annals of cup games as Birmingham fought to wipe out their slim deficit. A few seconds from time a corner kick was taken but it went awry.

**Din Of Thousands**

WEMBLEY STADIUM, Near London, Apr. 25.—(C. P. Cable)—Cheers and counter cheers from fans who had travelled to London to witness the final for the English Football Association Cup between Birmingham and West Bromwich Albion were transferred here from the streets of the metropolis as the hour for the opening of the gates approach. The great, grey amphitheater in the midst of which the rivals were to engage in their soccer tussle was soon a babel of noise and a blaze of blues and whites. Thousands were armed with rattles and bells which drowned out the organized community singing. With the arrival of the band of the Welsh Guards amateur noisemakers were themselves drowned out in a flood of popular airs with plenty of trumpets and cornets behind it. Twenty solid hours of rain which had fallen did not affect the spirits of even the most mild of the enthusiasts. At noon sixty thousand people were sitting or standing in the

### PRINCESS ISABEL IS LAID TO REST IN PARIS GRAVE

Ceremony is Conducted By Chaplain Julian Sole With Little Pomp.

FLOWERS BANK COFFIN.

PARIS, April 25 (AP)— Clothed in the sombre corded robe of a sister of the Order of Saint Francis of Assise, the body of the Infanta Isabella 79 year old aunt of the deposed Alfonso who died in exile here Thursday, was borne to its tomb to-day.

Three masses were said in the mortuary apartment of the Ladies' Home where she died by the Chaplain, Juliant Sole. Then with less pomp than accompanies the funeral of most humble citizens, the body was taken to Pere Lachaise Cemetery, where the family vault of Don Jose Maria Quinones de Leon, Monarchist Ambassador in Paris, was opened for it.

**Only Few Attend**

The coffin was embanked with flowers. Those attending the simple services at the mortuary apartment and the cemetery included the Infanta Eulala, Isabella's sister, the Infanta Beatrice, sister of Queen Marie who remained with her when the rest of the Royal Family fled Madrid, Beatrice's husband, Prince Alfonso de Bourbon representing the dethroned king, Sr. Quinones de Leon, and nuns of the Spanish mission.

The coffin was of oak, with silver holders. The face of the dead Infanta could be seen through an oval glass aperture in the lead covering over the body. A tiny door in the oak door can be opened with a key.

### BARBER FOUND DEAD IN SHOP

BROCKVILLE, April 25.— Chester Ross, aged 33, a barber who came here recently from Sault Ste. Marie Ont., was found dead early to-day in his shop where he had been living pending the arrival of his family to occupy the house. Ross, whose home is in Cobden, Ont., is survived by his wife and one child. Death is believed to have been due to natural causes, Ross being ill for some days.

### GLASGOW RANGERS ARE WINNERS SCOTTISH 1ST DIVISION TITLE

Victory Over Celtic To-day Gives Rangers Fifth Successive Championship.

LEAGUE RESULTS.

GLASGOW, Scotland, Apr. 25.—C. P. Cable)—Glasgow Rangers emerged today as champions of the Scottish football league's first division as scheduled soccer matches ended. Celtic were runners up. The issue between these two clubs was in doubt until today's matches as Celtic had a game in hand and were only three points behind. However, Rangers won today and held their lead so that Celtic cannot now head them. It was Rangers' fifth championship in succession.

East Fife go down from the First to the Second Division, from which they were promoted last season. The other club to be relegated will have to be decided next Wednesday, when Ayr United play Kilmarnock to complete their schedule. After to-day's games Ayr was tied with Hibernians for the second-to-last place which also carried demotion.

Second Division clubs who will be promoted are Third Lanark and Dundee United, both relegated last season.

**ENGLISH LEAGUE.**

### Some Fisherman

**HAMMOND, Ind., April 25.—(C.P.)—This is a fish story based upon a tale of Hugo Volkman.**

**In landing a pickerel yesterday, he sprained his ankle, fell to the bottom of the boat, injured his scalp and neck in arising, lost his false teeth. Then toppled into the lake. When fellow fishermen pulled him out, Hugo was hanging on to the fish.**

### ARAB BOYS HAVE BIG FIELD DAY WITH GORDON SINCLAIR'S LUGGAGE

### Family Hears Berg's Defeat With Sorrow

**LONDON, April 25 (A.P.) — "Poor Yiddle, poor Yiddle," said Mrs. Bergman, mother of "Kid" Berg, British boxer, who last night failed to wrest the lightweight championship of the world from Tony Canzoneri in Chicago, when she learned of his defeat.**

**The Bergman family, who called "Kid" Berg by his pet name, "Yiddle," gathered at their home in the heart of Whitechapel to hear the results of the Chicago fight, in which Berg was knocked out in the third round.**

**"It was Yiddle's greatest day, the day he has lived for since he started in boxing," Mama Bergman. "Not the losing but the disappointment to the greatest son a mother ever had makes me sorry. I'm the most unhappy mother in England. Poor Yiddle."**

Wandering Scribe Puts Up Battle, But Emerges Minus Shirts, Socks.

ARRIVES IN MOROCCO

By GORDON A. SINCLAIR

LARECHE, Spanish Morocco, April 3.—(Copyright, 1931).—The wildest and woolliest part of all Morocco is here between the Riffian hills, still inhabited by untamed tribesmen, and the Atlantic. A wilderness of smells and flies so vastly different from French Morocco where the Foreign Legion holds sway that the casual traveller cannot believe himself in the same country, but hopes he is.

To get here frim Gibraltar involves limitless patience, stray undeserved tips, discomfort and hunger. By 'plane you could make the hop in 40 minutes. By boat and bus again it takes hours and hours of petty wrangling with petty officials, who don't care a hoot whether you like it or not.

"The France" set me down in Gibraltar in brilliant summer sunshine, hesitated long enough for her tourist to take in this mighty fortress and then hurried on for Algiers leaving three behind; a Spanish-Am-

(Turn to Page 10, please)

# British Subjects Flee from Funchal

## ALARM SPREADS AT PREPARATIONS FOR BIG ATTACK

Over 100 Board Liner Armadale Castle and Sail for England.

REBELS MOBILIZE.

Army of 3,000 Insurgents Lie in Wait for Gov't Troops From Lisbon.

LONDON, Apr. 25.—(AP) — Frightened by preparations by a Portuguese expeditionary force for an attack on Funchal, Madeira Islands capital held by a rebel Junta, 100 British subjects yesterday took the advice of their consul and boarded the liner Armadale Castle for England.

A despatch to the Daily Express from aboard the liner said that there was every indication that the rebel leaders intended desperately to resist the expeditionary force. Funchal, their stronghold, is defended by naval guns, left there after the war, and strong natural fortifications which made it difficult of access.

**Army Of 3,000 Ready**

Every available man on the islands has been mobilized for the rebel defense force and it is believed an army of 3,000 rebels will be available to resist the Lisbon troops, who are congregating at nea.by Porto Santo Island for their attack. The principal concern of the rebels is to know just where the Lisbon troops will be landed on Madeira Island.

Sandbag barricades have been raised near the shore and guns concentrated on the high hills overlooking the harbor, leaving the infantry to defend the shore. Deep ravines which isolate Funchal and natural difficulties will greatly complicate the task of the expeditionary force if it attempts to land outside of the Funchal area.

Funchal's unemployed are increasing rapidly and a scarcity of money is making the position of the rebel leaders more difficult. The Junta has threatened to compel banks to accommodate them with open checks on Paris, London and New York.

## *Former Local Man Appointed Official*

MONTREAL, April 25.—(Special to Examiner).—An old Peterborough boy in the person of Dr. E. M. Best, Professor of Religious Education at the United Theological College, Montreal, has been appointed as General Secretary of the Y.M.C.A. of Canada and will take up his new duties in July.

Recently Dr. Best at the request of the Y.M.C.A. toured Europe and the Orient studying religious activities generally and those of the Y.M.C.A. in particular in these regions. He returned to Canada with the conviction that practically the whole of the Far East is in danger from the spread of Bolshevism if the present regime in Russia achieves any measure of success.

Tiny "lipstick serviettes," so small that a large supply may be carried in a handbag, have been introduced in Germany for the use of women who do not wish to stain handkerchiefs or napkins with the red beautifier.

## Famous Old Sword On Display in City

Earl Jellicoe's sword, the one carred by the famed British Admiral during the Navy's battles in the Great War, is now on display in Schneider Bros.' jewellery window.

The Jellicoe Sword was won by the Millbrook Cadet Corps last year in the Imperial Challenge Shields Competition. In this competition, in which Cadet companies throughout the Empire competed, the Millbrook Corps covered itself with honor by winning possession of Earl Jellicoe's sword for one year. The Millbrook Corps won 96 out of a possible 100, and received the Admiral of the Fleet's own congratulations in a personal letter. The Millbrook team was instructed by Lieut. Bruce Dawson, an officer in the Third Prince of Wales' Dragoons.

## GRAIN INQUIRY COMES TO END

Experts and Millionaires Testify Before Commission in Chicago.

REAL WORK JUST AHEAD.

(Canadian Press Despatch)

CHICAGO, Apr. 25.—The arduous task of gathering data for the Canadian Royal Commission report on grain futures trading tonight is done—and a greater duty lies ahead. "Our real work is just started," stated Sir Josiah Stamp, Chairman of the inquiry, after the hearing of thirteen grain experts at today's closing session of the investigation.

Ten members of the Chicago Board of Trade, which includes the largest speculative grain market in the world, appeared at the last of a series of meetings which have taken the Commission across the prairies of Canada and to two United States cities in thirteen days. Seventy-nine witnesses have appeared during the ten hearings at Winnipeg, Regina, Calgary, Minneapolis and Chicago—but today's session was busiest of all.

**Expert Heard**

Besides the ten Chicago board men, the Commission heard on economist, a statistician, and L. A. Fitz, supervision to speak before the inquiry today. Alexander Legge, former chairman of the United States Farm Board, was sought as a backer of controlled trading, but was unable to attend, due to an engagement in New York, Arthur Cutten, silent little Canadian, who left Guelph, Ont., 40 years ago and became one of the greatest traders on the Chicago Exchange, was one of the most prominent of those who stepped into the curtained conference room of the Commission.

## *Making Arrangements For King To See Derby*

LONDON, April 25.—(C.P.).—Arrangements are being made, it is understood, for the King and Queen to attend the derby this year. Derby Day comes on the King's birthday, June 3.

To avoid conflict between the race and official celebration of his birthday the King has asked that the trooping of the colors parade be postponed until June 6. A military pageant would take the place of the horse guards at Whitehall.

## BLAME ALCOHOL AS TWO SWEDES DIE IN HOSPITAL

Death Occurs Within 48 Hours of Release From Cobalt Jail.

INQUEST ORDERED.

Police Find Empty Bottle Near House Where Victims Resided.

COBALT, April 25.—Within 48 hours of their release from the district jail at Haileybury after serving terms for breaches of the Liquor Control Act, Oscar Carlson and Isaac Erickson, two young Swedes who had been living in the northern end of the district, were dead in the Mines Hospital here, allegedly from the effects of drinking wood alcohol.

The men were rushed to the hospital last night, after Dr. G. A. Schmidt had been summoned hastily by Provincial Constable R. O. Stromberg, who had been notified by a man from an Argentite Street boarding house that Erickson and Carlson were seriously ill there. Although restorative methods adopted by the doctor appeared at first to give relief, both men sank rapidly later, Erickson dying at three o'clock this morning and his companion living eight hours longer.

**Bought Wood Alcohol**

Enquiry by the authorities, according to Inspector W. T. Moore, at provincial police district headquarters here, has shown that a bottle of wood alcohol was sold on Wednesday to a man who called at a local drug store and who said he wanted it for rubbing purposes. Erickson and Carlson are said to have spent some time in the vicinity of a Watson street house since Wednesday, and search outside the place by the police yesterday disclosed a broken bottle corresponding to the one in which the druggist sold the alcohol.

An inquest was arranged for this afternoon, with Coroner Dr. W. C. Arnold presiding.

Neither victim had any friends or relatives in this country, as far as the inspector is aware. Erickson was 30 years of age and Carlson 34.

## TAX COLLECTOR PRESENTS ROLL

Arrears For Past Year Total $6,040.68—Total Amount Collected $88,282.25.

AT CAMPBELLFORD.

CAMPBELLFORD, April 25 (Examiner Staff Correspondence). — The presentation of the tax roll for 1930 by the tax collector, J. D. Cummings and the reports of committees was featured at a meeting of the Campbellford Town Council held last evening in the Public Library, with Mayor J. M. Bygott presiding.

The total amount of taxes assessed for 1930 was $87,859.68. To this Mr Cummings stated that he had added $32.07, this being money collected at the last minute. Interest on this money was $390.50, the total amount being $88,282.25. Arrears of taxes totalled $6,040.89, abatement $836.89, and discount $763.55.

Mr. Cummings also said that $4,212.00 had been added to the assessment roll after its completion from the Quinte Power Company. Of the arrears of taxes for this concern he gave the following figures: Paid on arrears for 1928, $1,066.64; in 1929, $258.00; in 1930, $1,733.26.

In regard to these arrears, Mr. Cummings stated that he thought some of this money was collectable, placing the figure at about $2,000. He thought many of those in default were unable to pay owing to lack of finances.

The Council, in committee of the whole, went over the arrears separately and discussed the situation, the tax roll being finally, on motion, accepted. The collector in a short address to the Council pointed out difficulties that his office holds at the present time as compared with years past. Whereas the tax roll used to amount to $30,000, it had now increased to nearly $90,000, and the payment of some amounts in small instalments only increased the work of the collector.

**Relief Report.**

Councillor J. R. Battisby gave the report of the Relief Committee. He stated that the total money spent amounted to $295.04, and of this sum $111.50 had been returned to the treasury from the sale of surplus fuel, the money actually spent being $183.54. The Mayor congratulated Mr. Battisby on the economy that had been shown by this department, and the success that had been gained by the adaptation of the new system of relief.

For the Parks Committee, Councillor J. J. Long said that there had been no expenditures. He brought up, however, the matter of the mar-

**IN CUSTODY.**

COBOURG, April 24.—A farm hand near Newtonville has been taken into custody on suspicion that he was involved in the burning of the barns of Cecil Stapleton near that village last Sunday afternoon. He was remanded for a week pending further investigation by the police.

## *Admiral Byrd Loses Friend*

PALS IN ADVENTURE PARTED BY DEATH

Rear Admiral Richard E. Byrd is here shown with "Igloo," his pet dog which accompanied him on his North and South Pole flights, and which has died in Boston. The Admiral cancelled a lecture engagement in Boston to stay with the dog, and pleas that a United States' senator, an Episcopal bishop, the ctiys' mapor and other dignitaries were prepared to welcome him, that tickets were sold and that a hall was hired, failed to move him.

## JUDGE LENIENT OVER DEBT CASE

Haldimand Woman Ordered to Pay Commission But Given Till November 14.

"No Money From Farm Now."

COBOURG, Ont., April 25.—Judgment in favor of a Toronto real estate firm was contained in a decision handed down in Division Court by Judge L. V. O'Connor yesterday with an action brought by Diamond and Montgomery, against Mrs. L. McLean, Haldimand Township resident, for $174, balance due on a commission. The Bench gave judgment for the claim with the provision that plaintiffs could not collect until Novemer 15.

"There's no money on a farm this time of the year. This woman has already paid $100 on account and the plaintiffs apparently have taken court proceedings as a short-cut towards acquiring the balance. This woman's rights must be secured, otherwise they might seize the first cow brought on the farm," declared the Bench.

According to defendant real estate holdings in Weston had been exchanged for property near Cobourg. The real estate firm handling the business had agreed to wait until Fall when proceeds of the apple crop would pay their commission. Defendant alleged that she was obliged to pay them $100 which had been set aside to defray cost of spraying the orchard.

## IL DUCE HALTS STUDENT PARADE

Prompt Action By Premier Prevents Demonstration at Belgian Embassy.

TWO ARRESTED.

ROME, April 25 (A.P.)—Premier Mussolini, appearing personally before a great crowd of students demonstrating at the Venezia Palace this noon, quieted their protests against anti-Fascist demonstration in Brussels with a pledge of Fascist alertness against its enemies.

Il Duce, holding his hand aloft for silence, shouted to the crowd, which had moved en masse from the University to the Palace, intending later to go to the Belgian Embassy.

"The Italy of the students is always on its toes to defend the revolutionary regime and Fascism against the stupid calmness of anti-Fascists."

When Premier Mussolini had concluded his brief appearance before the mass of shouting humanity most of them dispersed, but a number of groups with flags marched toward the Belgian Embassy. They were stopped by large squads of soldiers and police who were stationed at every corner within a quarter mile radius of the Embassy. They attempted a half-hearted demonstration at the bounds of the restricted area, but the troops broke it up, police arresting two student leaders.

More than 2,200,000,000 eggs in the shell were exported from the United States in 1930.

## WOMEN WORKERS WAGES REDUCED

Clerks in U. S. Get $2 to $4, Typists $1 to $3 Less Per Week.

DOMESTICS GIVEN CUT.

NEW YORK, N.Y., April 25.—Wages of women workers have declined sharply in the past 18 months, according to a report issued today by officials of the Bureau of Women in Industry, State Department of Labor.

Comparisons between the Autumn of 1929 and February, 1931, made by the bureau reveal that clerks are making from $2 to $4 less a week than in 1929, and that the wages of typists are from $1 to $3 less. Switchboard operators are making from $3 to $5 less and cashiers $5 less than in 1929.

Domestic workers, according to the bureau, are suffering the greatest wage losses among women. Where formerly they commanded $40 to $70 a month, they are now getting $15 to $55.

## SIR JAMES JEANS ON TOUR TO U.S.

Noted Astronomer Believes Earth Will Pass Into Space and Be Erased.

BE GIVEN FRANKLIN MEDAL.

(By Raymond Crowley)

NEW YORK, N.Y., April 25.—Sir James Jeans, British astronomer who takes his readers on personally conducted tours of the cosmos and startles them by stating that the universe is a fragile bubble apt to blow up, arrived to-day from England.

He is here to confer with brother scientists in California and to collect one more honor, the Franklin medal.

But he had nothing much to say to reporters to-day.

"It's much too early to talk astronomy," he told them, standing on the deck of the liner Mauretania and casting glances at the New York skyline, bathed in early morning sunshine.

Later, however, he consented to answer a few questions, declaring anew his opinion that all matter, including that which constitutes the planet earth, would pass away into the maw of space and be erased.

Questioned as to whether the universe bears evidence of design, he said: "It is not the job of scientists to speculate on design. If there is design it will come out in time."

## HOOVER HONORS WHEAT DELEGATE

Debate Arises as to Whether U. S. Will Be Represented at London Parley.

INVITATION NOT SENT.

(By Ken Clark, C.P. Staff Writer)

WASHINGTON, D.C., April 25. — President Hoover is reported as "seeming to favor" sending a delegate to the conference of wheat exporting countries in London, May 18. The United States Government has not yet received an invitation to the conference.

Senator Charles L. McNary of Oregon, Chairman of the Senate Agricultural Committee, called upon the President yesterday and suggested the advisability of sending a delegate to London.

Senator McNary, indicating the President had favorably received his suggestion, said that in the present situation anything which might be accomplished toward rehabilitating the world wheat market was desirable. While officials here await an invitation, opinion is divided as to whether the United States would participate.

## *To Cost $4,119,230,649 To Run U.S. For 1931*

WASHINGTON, D.C., April 24. — The cost of running the U. S. Federal Government for the next fiscal year is estimated by President Hoover at $4,119,230,649, a decrease of $315,799,083 under the estimated cost for this year.

This figure, arrived at by the Chief Executive after conferring with Cabinet members, is an increase of $187,000,000 over the budget submitted to Congress when appropriations were made for the year ending June 30, 1932, and wipes out the budget bureau's estimate of a $30,000,000 surplus.

In addition, the budget bureau's estimate of total revenue for the 1932 fiscal year of $4,085,119,927 did not take into account the sharp falling off of income tax as shown in collection last month.

## SEIZURE BY CANADIAN CUSTOMS AMOUNT TO $534,309 DURING 1931

Ontario Leads Way With 1,345 Out of 4,521 Confiscations in Year.

QUEBEC SECOND.

OTTAWA, April 25.—(CP)—Proceeds from seizures made during the last fiscal year by the customs preventive service amounted to $534,309, according to a report issued yesterday by the Department of National Revenue. This sum accrued from court fines, automobile and vessel penalties. The value of clothing alone confiscated last year was $10,700.

Total seizures for the 12-months' period were 4,521, an increase of 444 over the preceding fiscal year. In the customs branch 3,095, and in the excise branch 1,426 seizures were made.

A total of 29,069 gallons of liquor were seized, of which 17,420 were taken in Nova Scotia, and 1,656 in New Brunswick, Nova Scotia topped the list in this respect.

Ontario, however, led the rest of Canada in beer seizures, its quantity of this beverage being 13,352 out of a total of 19,210. Quebec followed Ontario with 5,249 gallons.

Cigarettes taken totalled 710,929. Quebec's seizures led in this phase, with 434,067 cigarettes. Nova Scotia was second with 123,295, and Ontario third with 74,937. In tobacco seizures Quebec also took first place with 2,798 pounds, out of a total for the Dominion of 3,104 pounds.

Only two provinces reported seizures of narcotic drugs, British Columbia and Ontario. In the former province 233 ounces were taken, and in the latter 90 ounces.

Other seizures for the 12-month period were: 23,336 gallons of alcohol, 1,646 cigars, 347 complete stills, 418 automobiles, 48 vessels.

The summary gives first place for seizures to Ontario, with 1,345. Quebec was second, with 967. Nova Scotia ran third with 608. Others were Prince Edward Island, 136; New Brunswick, 127; Manitoba, 298; Saskatchewan, 471; Alberta, 300; British Columbia, 211. Headquarters (Ottawa), 168.

## Club is Wrecked In Burglars' Visit

NORTH VANCOUVER, B.C., April 25 (C.P.). — Burglars who broke into the Army and Navy Veterans' Club not only stole $140 in cash but opened all the spicots of the beer kegs. When the robbery was discovered, the floor was blanketed an inch deep with beer.

The burglars wrecked the place generally, smashing a radio, cutting the cloth on the billiard table and damaging furniture. In addition to the cash they got away with about $150 worth of cigarettes and candy.

**PIANO CARE.**

A piano should be kept in a room of moderate and even temperature. It should not stand against an outside wall, nor should it be near a radiator. It should be kept covered with felt or other warm covering when not in use.

BUY CANADIAN-BUILT CARS AND SUPPORT CANADIAN LABOR

Custom Built Richness at Volume Prices

The new Willys-Knight is an exceptionally powerful car, very fast, remarkably active. A car whose beauty is conspicuous, even among the most beautifully designed cars . . . whose appointments and fitments and trimmings rank in richness, in luxury, in comfort, with that which the world's finest cars afford.

This distinctive car gives you the same type of power-plant used in the leading cars of Europe—the Belgian Minerva, the French Panhard and Voisin, the British Daimler-Knight—cars owned and driven by the King of England, the Prince of Wales, the Kings of Belgium and Spain and half the notables of Continental Europe.

The new 58¼ inch tread gives plenty of room for three full-sized men on the wider rear seat. Plenty of room for six-footers to stretch out their legs. The front seat is adjustable, and the back of the seat may be inclined at the angle that suits you best. At the center of steering wheel, Finger-Tip Control—one button which operates starter, lights and horn. Extra safety, and less pedal pressure, with new duo-servo internal expanding four-wheel brakes. Four hydraulic shock eliminators and longer, more flexible springs. Top speed of 80 miles an hour; second gear speed as high as 50.

And due to increased production and decreased cost of manufacture, you enjoy impressive savings—as much as $800 compared to last year's similar types.

HARRY TINNEY, Cavan

A. J. MEYERS, Campbellford

SEVERAL years ago, at a choice spot on Long Island Sound, New York, I had the honor of being on the same platform and taking part in the same program with one of the most outstanding preachers on this Continent. He was a big man in every sense of the term. His height was in the neighborhood of seven feet; and if anybody had told me that he was eight feet tall, I could have believed them. He hailed from the West.

When some unknown young man expressed a desire for a larger opportunity for development than he was then enjoying, a celebrated newspaper editor said, "GO WEST, YOUNG MAN!"

Sometime in the distant past this preacher had evidently gone West. When I first set eyes on him I could not help recalling something Spurgeon said when he met Dr. Dixon for the first time. Dixon was very tall. And when Spurgeon looked up at him he said, with a twinkle in his eye, "They carry things to a great length where you come from." Things had been carried to a very great length where Mark Matthews came from!

**BUILDING A BIG CHURCH.**

Dr. Mark A. Matthews is minister of the First Presbyterian Church, Seattle, Washington. He studied law and landed in a pulpit. If he had gone to the courts instead of to the church, what a power he would have been when pleading before a jury! A commanding presence, a strong, alert mind, and the faculty of ready speech would have carried him to the highest position open to lawyers. But an All-Wise-Providence directed his steps into the ministry of the Gospel of the grace of God, and he has achieved marvellous success. He is reputed to have the largest church in the world. Last year he took into the membership of his church by profession of faith 528 members. That would be a good congregation in itself. And in addition to this, he received 117 by certificate. The membership of his church is 7,886. Could the combined membership of all the churches of Peterborough number as many? His Sunday School has a membership of 5,803.

Many attempts have been made to move him elsewhere. Some of the most important churches on this Continent have wanted to call him, but he has always refused to leave the Pacific coast. Humanly speaking, he has made the First Presbyterian Church, Seattle; and if he left it to become the minister of some other congregation he would leave a multitude of broken hearts behind him.

**A RARE FIND.**

In rummaging through the Workshop of John Plane I came upon a rare find! It has been like a tonic to my heart. I should feel like a cheat if I kept it to myself.

Have you had a kindness shown?
Pass it on!
'Twas not giv'n for thee alone;
Pass it on!
Let it travel down the years,
Let it wipe another's tears,
'Till in heav'n the deed appears—
Pass it on!

Have you found the heav'nly light? Pass it on!
Souls are groping in the night,
Daylight gone;
Hold the lighted lamp on high
Be a star in some one's sky,
He may live who else would die—
Pass it on!

* * *

**THREE BLACK SPOTS.**

What I found was something from the pen of Mark Matthews. It had come as the result of wide observation and much travail of soul. I don't believe he had found it easy to write. He must have known that such an utterance would not be pleasant to receive in many places. Only a keen sense of duty could have impelled him to express himself as he does in the brief article to which I have reference.

This Pacific coast preacher believes that there are three black spots on the present church militant organization; and he contends that they are exceedingly black when you study them from every viewpoint. They are to be seen in every denomination, destroying the beauty, affecting the happiness, and staining the history of the church militant.

**We should study them, pray for them, eradicate them and put in their place the brilliant stars of church efficiency, loyalty and service.**

These three black spots are, the NON-CHURCHGOER, the CHURCH CHEAT and GUILTY PREACHERS. These constitute a trinity which threatens the whole social structure.

**SEVEN REASONS FOR NON-CHURCHGOING.**

Why do men neglect church attendance? The following reasons can be assigned why certain classes neglect this important duty:

FIRST: A seared Sabbath conscience sends men to the golf links on God's Holy Day.

SECOND: The gasoline mania causes thousands to take the family, the dog, and the lunch baskets into the automobile early Sabbath morning when they begin to break the Ten Commandments, the speed laws, the rules of domestic tranquility and Sabbath observance.

THIRD: Screenitis sends thousands into the motion picture houses where they make a pagan attack upon God's Holy Day.

FOURTH: Laziness keeps thousands at home, wrapped in the bedclothes of indolence and filth—too indolent, sloven and filthy to dress and attend Divine worship.

FIFTH: False conceptions of worship, or because the sermon is poor, or the minister worse than dead, they drift into the habit of neglecting church attendance.

SIXTH: A large number of those who stay away do so because they are plain pagans; their education is defective, their breeding is below the standard. They are just plain heathen. No well-bred, well-trained, modern, up-to-date and otherwise normal man stays away from church services. The bum, the gambler, fraud, embezzler, outcast, loafer and the scum of the earth stay away from church.

**Behold the crowd with which the non-churchgoer can be classed!**

SEVENTH: There are thousands of business, professional, political and official men who neglect church because they are conscious of the fact that they are grossly sinful, selfish, conceited and derelict in the performance of their duties.

**They dread to face the Gospel mirror wherein they can behold their own faces over which is written guilt.**

They know that if they face the Gospel as expounded from God's infallible Word they will have to surrender their selfish, mean, conceited business and professional attitude toward the church and the Gospel.

**THAT IS WHY!**

The conceited professional man tries to build for himself a code and produces a state of self-satisfied, self-righteous and self-centred contentment, which he does not want disturbed by the courageous presentation of the full Gospel of Jesus Christ. Men are neglecting to attend church because they are afraid to face the judgment of the Gospel. Men are staying at home or they are going on the fields of pleasure or they are attending to business because of their innate and overt and continued meanness. They are trying to avoid the doctrine of responsibility, accountability and judgment. They are foolish. Every sensible man ought to prepare to meet his God. Every desirable, worthy citizen ought to be found in his pew every Sunday morning worshipping God and paying his honest obligations to the church of Jesus Christ.

**THE CHURCH CHEAT.**

Church support is an obligation. Church attendance is a duty. Worship is absolutely essential. And every honest man and woman discharges these duties and obligations every week. Contribution of time, talent, thought and interest are demanded. It is an honor to give. It is an honor, privilege and duty to give. We are God's stewards. All we have has been entrusted to us. It is our duty to support the church. The Christian Church has added fifty cents to every dollar's worth of property on this Continent.

Every time one goes to church he should make an honest, conscientious contribution to the great work of the church. When the collection plate reaches one his honor, sincerity, integrity and character are immediately tested when he, because he imagines no eye sees him, puts upon the plate pennies when he ought to put dollars. He brands himself before God and the bar of God as a thief. He is perfectly willing to pay any extravagant sum to go to a filthy theatre, questionable show or suggestive screen production, and then go into the house of God and lay upon the plate pennies. He owes God everything.

**The average churchgoer to-day is a church cheat, robbing God, searing his conscience, and leaving unpaid his honest obligations.**

The spirit of cheating soon fastens itself upon some men and they become so dishonest that they actually stay away from church in order to avoid the test to which their characters will be put. The average churchgoer in this land gives three cents per Sunday for the greatest blessing that was ever bestowed upon mankind. Therefore, the average church cheat will have to face the bar of judgment and be branded as a church fraud robbing God, depriving the church of her dues, and preventing the spread of the Gospel and the blessings of salvation to thousands.

**GUILTY PREACHERS.**

The Christian pulpit is the highest place on earth. It is the only untrammeled, unpurchasable throne in the world. The preacher if he be a real preacher, is God-called, God-filled, Divinely fitted and supernaturally commissioned. His authority and message are of supernatural origin. Therefore, he is decreed to be a leader. If he meets these Divine requirements he is an expert in his exalted position. Whenever a minister of the Gospel of Jesus Christ and His vicarious death steps out of his exalted place and fails to perform his duty as a courageous leader and fearless defender of the faith delivered once for all to the saints, he becomes guilty and must be held responsible for all the ills that result from his failure.

**There are ministers who have no doubt stepped from this high responsible place, and they are therefore guilty of all the evils of the country that have come as a direct result of their actions. Such ministers are chargeable with the following defects:**

**CAN IT BE TRUE?**

FIRST: Laziness. They do not work not even half the time. Their sermons show it. Their fences are down. Their churches are unorganized. They do not take any part in the civic life of their communities.

SECOND: They are cowards. They are afraid to speak plainly, pointedly and persistently against the sins of their members. They are far from being like John the Baptist. They do not demand respect and attention from men because they do not meet men and challenge them in their evil doings. They do not stand like brave men should stand—face to face with a guilty brother and accuse him.

THIRD: Busy idleness. They are engaged in attending pink teas and foolish female functions, whereas they should be in the marts of trade, on the floors of assemblies and lodges, business and political meetings, and social gatherings where men live and where they could stand on the floors of such meetings, expose evil, defend virtue and advocate righteousness.

FOURTH: Infidelity. They have yielded to the Goddess of Heresy, and have made a direct attack upon the infallible Word of God and the Blood atonement of Jesus Christ.

**Such men are undermining the faith of the young unsophisticated saints and are sending thousands adrift into skepticism and sin. Such men are parasites. They are drawing salaries fraudulently because they contracted to preach the infallible Word of God and the vicarious atonement of Jesus Christ. They are preaching something else. Therefore, such conduct is dishonest.**

Such men are largely responsible for the rise of the infamous cults and the spread of irreverence frivolity, impropriety, domestic infidelity, religious infidelity, apostasy and general social criminality.

**WILL THEY DO IT?**

If the preachers were preaching faithfully, fearlessly, the whole Gospel of Jesus Christ and were exposing crime, demanding confession and bringing men face to face with the judgment of their deeds, the crime wave of our day would subside at once, and a great revival of religion would begin.

The pettifogging, heretical, spineless, rationalistic, infidelic preachers of this century are responsible for the rotten social conditions of practically every land under heaven.

With my very sincere thanks to John Plane, Mark Matthews and a host of other friends for all the inspiration they have brought to me.

Yours for better times,
**Allan Fairbairn.**

## The Hour Of Prayer

TWO things I ask of Thee, O Lord. Suffer me not to live too long; let me depart and leave while those who know me best are unashamed, still proud of some small grace of mine, unirked by fretful years; for a blessed memory is more to be desired than length of days, and I can ill-afford to spoil my little good by blundering at the end. And move me to a deeper living thanks and tenderer solicitude for those whose loss I most would mourn, that all the secret pride, the ecstasy of friendship and companionship, may not be mine alone, but shared by them, and patience, smiles and all the gentle virtues of the inner room be seen in me to justify their thanks to God that I have lived. This I ask in the name of Him who said: "Ask and ye shall receive; seek and ye shall find; knock and it shall be opened unto you." Amen.

## JapaneseProverbs

**The Proverbs of a nation are not only an epitome of its wisdom, but crystallise for us much of its national temperament and popular habits of thought.**

Virtue carries a lean purse.

* * *

He who hunts two hares, leaves one and loses the other.

* * *

The echo answers the voice.

* * *

The mile is long to him who is tired.

* * *

The second word makes the fray.

* * *

Even in a village of eight there's generally a patriot to be found.

* * *

A fly is nothing, yet it creates loathsomeness.

## THE GUN SPEAKS

IN plan, include the whole; in execution, take life day by day. Men do not know how to reconcile the oppugnant directions that we should live for the future, and yet should find our life in fidelities to the present; but the last is only the method of the first. True aiming, in life, is like true aiming in marksmanship. We always look at the fore-sight of a rifle through the hind-sight.

## What Think Ye Of Christ?

IF Christ be not Divine, every impulse of the Christian world falls to a lower octave, and light and love and hope decline.

* * *

That Jesus, surrounded as He was, could have promulgated a system of morals embodying all that is most valuable in the prior life of the world, and to which nineteen centuries of civilization have not been able to add a thought or impart an ornament, is a fact not to be explained by any ridicule.

* * *

He spent his life among the narrowest and most exclusive of all races; and yet, without the broadening influences of reading or travel or educated companionship, he presents a character, a spirit, a sympathy, a doctrine, as broad as mankind and as profound as human need.

MARK ST. UNITED CHURCH
Minister: Rev. A. E. Thornley, M.A.
Leader and Organist, Mrs. W. A. Greenslade
11 a.m.—Public Worship.
Subject: "THE SYMPATHY OF JESUS."
2.45 p.m.—Sunday School.
7 p.m.—Subject - - "NOT SAVED."

## Knox United

*Sunday School Anniversary*

## REV. H. J. KEITH

M.A., D.D.,
First Minister of Knox Church, will preach at Both Services.
Guest Soloists at Morning Service:
MRS. ROBERT YOUNG, of Philadelphia.
MR. JOHN DYKES, of Scranton, Penn.
Themes—A.M.—'THE MINISTRY OF THE RIVER.'
P.M.—"MAN'S GREATEST ACHIEVEMENT"
Sunday School Scholars will lead the singing at each service.
We invite everyone, especially all who remember Dr. Keith.

## TRINITY

'The Family Church
REV. DAVID WREN, M.A., B.D., Minister.
11 a.m.—Sermon Subject: "LIFE AT FLOOD TIDE"
3 p.m.—Sunday School and Bible Classes meet in Reid Street Hall.
7 p.m.—SONG SERVICE.
Sermon Series: "THE MEN WHOM JESUS MADE"
No. 2—"THE MAN WHO SOLD HIS FRIENDS."
Mr. Maurice Park, B.A., Soloist.
Miss Mabel Clarry, Director of Music.
Strangers and visitors cordially welcomed.

## George St. United Church

Rev. J. E. J. Millyard, Pastor.
DAVID R. HOWAT, Organist and Choir Director.
11 a.m. - "THE CHURCH AT ANTIOCH"
Junior Church for Children of Public School age.
3 p.m.—SUNDAY SCHOOL.
7 p.m. - "THREE KINDS OF PEOPLE"
Everybody has a place in this classification. It might be a good thing for you to hear this sermon, and decide where you belong.
POPULAR CONGREGATIONAL SONG SERVICE
ALL SEATS FREE : COME AND WELCOME

## St. Andrew's United Church

Rev. Charles V. McLean, M.A., Ph.D., Minister.
11.00 - - - PUBLIC WORSHIP
7.00 - - Subject: "THE CITY OF REFUGE"
The members of the I.O.O.F. will attend in a body.
Mrs. Ross A. Williamson, Soloist.
Mr. Thomas Phillips - Choirmaster.

## ST. JAMES' United

(Corner of Romaine and Aylmer Streets)
REV. A. E. MOORHOUSE, Minister. MR. F. E. STEVENS, Organist.
11 a.m. - "THE VINE AND ITS BRANCHES"
3 p.m. - - The Church School and Brotherhood School Anniversary, May 3rd.
Rev. C. W. Bishop, D.D., Preacher.
7 p.m. - "THE FORMED . . HE THAT FORMED"
"Lord, I have loved the habitation of Thy house, and the place where Thine honor dwelleth."

## PARK STREET BAPTIST

REV. J. L. HARTON, B.Th., Pastor.
SERVICES AT 11.00 A.M. AND 7.00 P.M.
**The Pastor Will Preach at Both Services**

## Bethany Tabernacle

(GEORGE STREET)
10 a.m.—BIBLE SCHOOL. Come—it's growing!
11 a.m.—"FRIENDSHIP WITH GOD."
7 p.m.—
**The Pearl Of Great Price**
Bring Your Bosworth Hymn Book.
CHRISTIAN AND MISSIONARY ALLIANCE.
REV. G. H. JOHNSON, Pastor.

There is a vacuum in the soul of man which nothing can fill save faith in God.

* * *

Patience and gentleness are power.

Be less given to speculation than to practice; cultivate faith rather than doubt; peace of heart rather than subtle enquiries.

SATURDAY, APRIL 25, 1931

### A WORTH-WHILE EXPERIMENT.

In seeking to popularize the use of tomato juice for its health-giving properties, the Ontario Department of Agriculture is following sound business principles.

Intelligent advertising has enabled the California fruit growers to sell to the whole Continent the idea that oranges and orange juice are essential to health, and as a result of the systematic pressure exerted by this well-planned campaign they have created an enormous demand for oranges.

Tomato juice contains the same vitamine content as does the juice of oranges; it can be substituted for the California product with no loss so far as health is concerned and with profit to Ontario tomato producers.

This Province produces huge quantities of tomatoes; it is only common sense, therefore, that a new market for the product should be sought, and no field offers greater prospect of success than that mentioned by Hon. T. L. Kennedy, the Minister of Agriculture, namely, the use of tomato juice in place of orange juice where the vitamines contained in both are required.

If by the wise use of advertising the Ontario Government can establish this market, it will have accomplished a great deal toward the prosperity of rural Ontario.

### THE MINISTER OF AGRICULTURE.

Hon. T. L. Kennedy, Ontario Minister of Agriculture, made a very favorable imprint upon the large gathering which heard him address the annual meeting of the local Chamber of Commerce on Thursday night.

The new Minister impressed his hearers not only by what he said but by the way in which he said it.

A farmer himself, a member of a family which has tilled Ontario soil for over a hundred years, Hon. Mr. Kennedy loves the farm and is deeply appreciative of the advantages it offers.

In accepting the portfolio he has set himself the twin goal of a better education in agriculture for the youth of rural Ontario and wider markets for the farmers of the Province.

His speech, covering many phases of the marketing problem, left not the slightest doubt as to the Minister's determination to accomplish the objectives he is seeking, nor as to his sincerity in striving to better conditions for the farmers of Ontario and their families.

The Hon. John S. Martin was regarded as one of the most successful Ministers of Agriculture to serve Ontario; the Government has indeed been fortunate in securing as his successor a man who offers so much promise of a successful and beneficial administration as Brig.-General Kennedy showed in his first official visit to Peterborough.

### PROTECTING THE GROWERS.

Provided the increased protection has been properly timed so that Canadian-grown produce can take care of Canadian demands and the consumers in this country will suffer neither through the lack of the vegetables they require nor through high prices for native-grown vegetables, the action of the Ottawa Government in putting into effect a prohibitive tariff against certain vegetables will be favorably received.

For years the Ontario vegetable growers have complained that their market has been ruined by heavy imports of foreign vegetables at this time of the year.

There was considerable cause for such complaints, and the protection now accorded is provided in the hope of saving the situation for Canadian producers.

If it does that without hitting the pocket of the consumer whatever inconvenience may be caused for the moment by the absence of certain produce will probably be cheerfully accepted.

The producers appear to be satisfied with what has been done, predicting better conditions for Canadian growers, and if the change keeps at home money that has gone for foreign goods and increases the spending power of our own market gardeners, the result on the whole should be beneficial.

The proof of the pudding, of course, is in the eating, and it will be possible to speak with more authority after the new tariff has been at work for some time.

### PENSION APPEALS.

Information supplied the House of Commons by Hon. Murray McLaren, Minister of Pensions, confirms the prevalent impression that the new machinery set up a year ago for the handling of pension appeals is proving too slow-moving and cumbersome to accomplish what was hoped for it.

The Minister explains that in the six months' operations of the new Pension Tribunals 16,125 applications have been received, some from veterans who have hitherto been refused pensions, and the remainder from ex-service men who believe that their pensions should be increased.

Only 1,452 of this large number have already been dealt with, which means that if there were no further applications it would take seven years to get rid of those already fyled.

The present system was unanimously adopted by Parliament in the last session of the King regime, and was largely the suggestion of representatives of the veterans.

When first drawn up there was hope that it would meet the needs of the situation, but six months' trial would seem to show that something more simple is needed.

In that regard many Canadians will be in thorough accord with the Globe's suggestion that appeal applications might be heard by the civil courts.

"The question at issue in the vast majority of cases is whether or not the physical disability of the ex-nurse or ex-soldier is a result of war service," says the Globe. "The decision is one calling for ordinary common sense. The county court judges are experienced in handling similar cases. It is no more difficult for a judge to assess war damages than it is to assess damages arising from a street railway injury."

Things could be worse. Bills are usually mailed instead of sent by wire—Ex.

### CAPITAL PUNISHMENT.

Michigan has again turned its back on the plan to institute a capital punishment law for murderers. A State-wide vote on the subject has resulted in a victory for those who believe that it is not in the public interest to demand a life for a life and an eye for an eye.

Opponents of capital punishment across the line staged a thorough campaign for the advancement of their ideas. Many ways of getting their message to the electors were used. The sentimental appeal was, of course, the strongest one. Orators fairly wept as they pictured the poor criminal being led to the electric chair. As usual, they had little to say concerning the innocent and unfortunate victim or victims of the criminal in question.

What Michigan does with its criminals is Michigan's own business. We on this side of the line would breathe a little easier, however, were a capital punishment law in force across the river, because this would mean that there would be less danger of killers and other dangerous criminals coming over here. These gentry, of course, usually give Canada a wide berth and even when they do visit us are careful to move circumspectly during their stay in the Dominion. At the same time, there is ever a lurking possibility.

Opponents of capital punishment always stress the argument that it is a form of barbaric revenge and that it cannot bring the murderer's victim back to life. We disagree with the first part of this contention. We do not look upon this punishment as revenge, but merely as the State's method of making sure that a killer will never repeat his crime. There is no such assurance as long as he is merely given a term of years in prison. Men get out of prisons by force and by processes of law. Plenty of killers have been freed in the history of Michigan. Murderers in prison, too, have killed guards and other innocent persons. Had they been put to death for their original crimes, lives would have been saved.

It is not a pleasant subject. We do not like the hanging idea nor the electrocution plan nor the lethal chamber. But as long as certain men and women offend against society to the extent of taking life, it seems reasonable and eminently just that they should be handled in a way that will, at least, make it impossible for them to repeat their crimes.

The best answer to the question, "Does capital punishment keep down the crime of murder?" is found in the statistics of Canada, Great Britain and the United States. The well-meaning folk who worked and voted against the adoption of a capital punishment law in Michigan cannot argue against the comparative figures. But, after all, figures make little appeal to persons who indulge only in sloppy sentimentality—for the benefit of the criminal classes, rather than their victims.—Border Cities Star.

### MAKING US FREER.

Feel freer to-day? Or exultant? The reason we ask is that a conference is on up on The Hill, working to make us more free. This conference, in fact, is sort of putting the finishing touches on our freedom. Completing a long job.

It began years and years ago. Sir Wilfrid Laurier worked at it, and Sir Robert Borden and Mr. Meighen, and Mr. King came back from London once with a real Magna Charta. Or so he said.

Some of us thought the job was finished until Mr. Bennett came in and apparently found that it wasn't. So Mr. Bennett, nothing if not industrious, got busy on that, too, and even got Mr. Guthrie busy, and Mr. Dupre and Mr. Cahan. England, which has a charming way of letting people break down an open door, agreed to everything, knowing full well that it wouldn't make the slightest noticeable difference, anyway, whereupon everybody felt better.

What's really going on now is that Mr. Bennett is asking the Premiers of our Provinces whether they like being free, or this particular way of getting and being free, or if they would like to be free in some other way or by some other method, or whether they think that with the Dominion more free, they (the Provinces) are less free, or something like that. The idea, apparently, is that if you live in Ontario you might be more free in the Dominion, but less free in Ontario, or even in Quebec or Nova Scotia, as the case might be.

Just what the conference is going to say or do, we don't profess to know, and we doubt whether many will care or long remember anything they may do. A half dozen constitutional lawyers will say it's important, and a few pedants will write frightfully dull articles about it, and some few others who like to pose as constitutionalists will profess to understand it; for there's a curious lot of snobbishness about such things.

The man in the street won't know or care, or be at all interested. If Mr. Bennett gave a banquet for the delegates, or if one of them fell on Parliament Hill and broke a leg, or if Mr. Henry got into an argument with Mr. Taschereau, the average citizen would read about it. He won't read about the conference itself. He won't read about it because in the first place he'll be too tired when he gets home at night to read anything so dry, and he won't read it for the further reason that he knows instinctively that this gathering doesn't matter a tinker's curse, that what it says or does or doesn't say or do, won't make the slightest difference to him. It won't make him feel more free, or less free, won't help him or hinder him, or change or affect him in any way whatsoever, politically, economically, morally or spiritually.

So when our statesmen sit down these days and hear Mr. Bennett or somebody else read from documents that they only vaguely understand, they needn't feel important. The nation isn't watching them, and hardly knows they are here. For every person that is interested in them there are at least a thousand who wanted to see Canadiens win the Stanley Cup.—Ottawa Journal.

### EDITORIAL NOTES AND COMMENT.

Ontario vegetable growers should be satisfied with the prohibitive tariff against imported vegetables. And the rest of us will have to be.

A Labor candidate has been named in East Hamilton, despite the fact that there is no sign of a by-election being called.

A minister of communications may be appointed by the Federal Government, and judging by their refusal to answer questions, the Bennett administration would seem to be in need of one.

A little while ago Canada was not producing enough butter. Now she is in danger of producing too much. The change has come about with almost startling quickness.

And now daylight saving in many centres comes along to bother radio enthusiasts and travellers.

It is a pity that so many men with ability to make their marks persist in making dirty ones.—Detroit Free Press.

# TANAR OF PELLUCIDAR

BY

## EDGAR RICE BURROUGHS

(Continued from yesterday.)

Down went the two men, the Sarian on top, and as they fell, each sought a hold upon the other's throat, and, failing to secure it, they struck blindly at one another. Tanar was mad with rage. He fought like a wild beast, forgetting all that David Innes had taught him. His one thought was to kill; it mattered not how just so long as he killed, and Bohar, on the defensive, fighting for his life, battled like a cornered rat.

Stellara slowly opened her eyes as she recovered from the swoon into which she had passed beneath the choking fingers of Bohar the Bloody. At first she did not recognize Tanar, seeing only two warriors battling to the death on the sward of the glade and guessing that she would be the prey of him who was victorious. But presently, in the course of the duel, the face of the Sarian was turned toward her.

"Tanar!" she cried. "Heaven is merciful. I thought you were dead, and you have been given back to me."

At her words the Sarian redoubled his efforts to overcome his antagonist but Bohar succeeded in getting his fingers upon Tanar's throat. Horrified, Stellara looked about her for a rock or a stick with which to come to the succor of her champion, but before she had found one, she realized that he needed no outside assistance. With a single Herculean movement he tore himself loose from Bohar and leaped to his feet.

Instantly the Korsar sprang to an upright position and, lowering his head, he charged the Sarian — charged like a mad bull. Now Tanar was fighting with cool calculation. The madness of the first moment following the sight of Stellara in the choking, murderous fingers of the Korsar had passed. He awaited Bohar's rush, and as they came together he clamped an arm around the Korsar's head and, turning swiftly, hurled the man over his shoulder and heavily to the ground. Then he waited.

Once more Bohar, shaking his head, staggered to his feet. Once more he rushed the Sarian, and once more that deadly arm was locked about his head, and once more he was hurled heavily to the ground. This time he did not arise so quickly nor so easily. He came up staggering.

"Prepare to die," growled Tanar. "For the suffering you have inflicted upon Stellara you are about to die."

With a shriek of mingled rage and fright, Bohar, gone mad, charged the Sarian again, and for the third time his great body flew through the air, to alight heavily upon the hard ground, but this time it did not arise; it did not stir, for Bohar the Bloody lay dead with a broken neck.

For a moment Tanar of Pellucidar stood ready over the body of his fallen foe, but when he realized that Bohar was dead he turned away with a sneer of disgust.

Before him stood Stellara, her beautiful eyes filled with incredulity and with happiness.

"Tanar!" It was only a whisper, but it carried to him a world of meaning.

"Stellara!" he cried, as he took the girl in his arms. "Stellara, I love you."

Her soft arms stole around his neck and drew his face to hers. His mouth covered hers in a long kiss, and, as he raised his face to look down into hers, from the depths of her half-closed eyes burned a supreme love.

"My mate," he cried, as he pressed her to him.

"My mate," breathed Stellara, "while life remains in my body and after life, throughout death, forever."

Suddenly she looked up and drew away.

"Who is that, Tanar?" she asked.

As Tanar turned to look in the direction indicated by the girl, he saw Jude emerging from the forest at the upper end of the glade.

"It is Jude," he said to Stellara, "who escaped with me from the country of the Buried People."

Jude approached them, his sullen countenance clouded by his habitual scowl.

"He frightens me," said Stellara, pressing closer to Tanar.

"You need not fear him," said the Sarian. "He is always scowling and unhappy."

"I do not like him," whispered Stellara.

Jude approached and stopped before them. His eyes wandered for a moment to the body of Bohar and then came back and fastened themselves in a steady gaze upon Stellara. There was a crafty boldness in his gaze that disturbed Stellara even more than his sullen scowl.

"Who is the woman?" he demanded.

"My mate," replied Tanar.

"Then she is going with us?" asked Jude.

"Of course," replied the Sarian.

"And where are we going?" demanded Jude.

"Stellara and I will return to Paraht, where her father, Fedol, is chief," replied Tanar. "You may come with us if you wish. We will see that you are received as a friend and treated well until you can find the means to return to the island of Hime."

"Is he from Hime?" asked Stellara, and Tanar felt her shudder

"I am from Hime," said Jude, "but I do not care if I never return there if your people will let me live with them."

"That," said Tanar, "is something that must be decided by Fedol and his people, but I can promise you that they will let you remain with them, if not permanently, at least until you can find the means of returning to Hime. And now, before we set out for Paraht, let us renew our strength with food and sleep."

Without weapons it was not easy to obtain game and they had travelled up the mountain slopes for some distance before the two men were able to bring down a brace of large birds, which they knocked over with well-aimed stones. The birds closely resembled wild turkeys, whose prototypes were doubtless the progenitors of the wild turkeys of the outer crust. The hunt had brought them to a wide plateau, just below the summit of the hills.

Beside a small stream, which rippled gayly downward toward the sea, they halted to eat and sleep. Jude gathered firewood while Tanar made fire by the primitive method of rapidly revolving a sharpened stick in a tinder-filled hole in a larger piece of dry wood. As these preparations were going forward, Stellara prepared the birds and it was not long before the turkeys were roasting over a hot fire.

Their hunger appeased, the urge to sleep took possession of them, and now Jude insisted that he stand the first watch and so Stellara and the Sarian lay down beneath the shade of a tree while the scowling Himean stood watch.

Even in the comparative safety of Amiocap danger might always be expected to lurk in the form of carnivorous beast or hunting man, but the watcher cast no solicitous glances beyond the camp. Instead, he squatted upon his haunches, devouring Stellara with his eyes. Not once did he remove them from the beautiful face of the girl except occasionally to glance quickly at Tanar, where the regular rising and falling of his breast denoted undisturbed slumber.

Presently the Himean arose noiselessand gathered a handful of soft grasses, which he rolled into a small ball. Then he crept stealthily to where Stellara lay and kneeled beside her. Suddenly he leaned over her and grasped her by the throat, at the same time clamping his other hand, in the palm of which lay the ball of grass, over her mouth.

Thus rudely awakened from deep slumber, her first glance revealing the scowling features of the Himean, Stellara opened her mouth to scream for help, and, as she did so, Jude forced the ball of grass between her teeth and far into her mouth, dragged her to her feet, and throwing her across his shoulder, bore her swiftly downward across the table-land.

Stellara struggled and fought to free herself, but Jude was a powerful man and her efforts were of no avail against his strength. He held her in such a way that both her arms were confined. The ball of grass expanded in her mouth and she could not force it out with her tongue alone. A single scream she knew would awaken Tanar and bring him to her rescue, but she could not scream.

Down across the rolling table-land the Himean carried Stellara to the edge of a steep cliff that overhang the sea at the upper end of a deep cove which cut far into the island at this point. Here Jude lowered Stellara to her feet, but he still clung tightly to one of her wrists.

"Listen, woman," he growled, "you are coming to Hime to be the mate of Jude. If you come peaceably, no harm will befall you and if you will promise to make no outcry, I shall remove the gag from your mouth. Do you promise?"

Stellara shook her head determinedly in an unquestionable negative and at the same time struggled to free herself from Jude's grasp. With an ugly growl the man struck her and as she fell unconscious he gathered long grasses and twisted them into a rope and bound her wrists and ankles; then he lifted her again to his shoulder and started down over the edge of the cliff, where a narrow trail now became discernible.

The descent was not over a hundred feet to a little ledge almost at the water's edge. It was here that Stellara gained consciousness, and, as she opened her eyes, she saw before her a water-worn cave that ran far back beneath the cliff.

Into this along the narrow ledge, Jude carried her to the far end of the cavern, where, upon a narrow, pebbly beach, were drawn up a half dozen dugouts—the light well-made canoes of the Himeans

In one of these Jude placed the girl and, pushing it off into the deep water of the cover, leaped into it himself, seized the paddle and directed its course out toward the open sea.

(To be continued)

## Voice of the People

Letters to be printed in the Voice of the People column must be received at The Examiner Office on the day before it is desired to have them inserted.

### LIGHTS ON BICYCLES.

To The Editor of The Examiner:

Dear Sir: In Thursday's issue of April 23, 1931, under Main Street Topics, there appeared an article on the checking up of Bicycle riders and the statement is made that "The Vehicle Act" calls for a lighted lamp on the front of a bicycle.

Every municipality has the right to pass by-laws calling for the use of lighted lamps on the front of bicycles after dusk and before dawn as the City of Toronto and it is quite possible Peterborough has done so, but not to our knowledge.

The Highway Traffic Act, Section 9, subsection 5, compels all bicycles to carry a red rear reflector after dusk and before dawn or stop riding at night. The same act, Section 9, Subsection 18, distinctly states a bicycle is not compelled to carry a lamp at any time.

As it is very likely there are almost as many owners of bicycles in this city as there are owners of cars, it would be a kind act on the part of the Peterborough Examiner, if it would look into this matter and give the public the facts of the case; as we think possibly the reporter's jab in this case is erroneous, although some late information may have reached the Police Department before it got to the public which would be most unusual.

We are entirely in sympathy with lights on bicycles, but will someone in authority publish his authority. Thanking you in advance for your valuable space, we are,

Yours very truly,
Bicycle Rider.

Ed:—The law concerning bicycles carrying a lighted lamp on the front and a reflector on the rear, as set forth in Section 9, subsection 5, of Highway Traffic Act, 1930, s quoted as follows:

"Whenever on a highway after dusk or before dawn every bicycle or tricycle shall carry on the front thereof, a white or amber lighted lamp or reflector approved by the Department, and on th back thereof a red-lighted lamp or reflector approved by the Department, so placed as to be clearly visible to other vehicles."

Chief Newhall states that he intends to enforce this section since most of the accidents involving bicycles are directly due to the absence of lights on the bicycles.

## A Thought

If a Nation or its leadets govern for the ultimate good of its people, then the people of such Nation shall labour and conquer for the ultimate good of that Nation.—J. Beggs.

Because of the many insects in the country steel beds are becoming popular in Argentina

## Found Starving

FROM NOVA SCOTIA

Jack Perry, 15-year-old Trenton, N.S., boy, who, after a 1,200-mile adventurous journey by coal tenders, "rods" and highway trucks in search of work, was found in a starving condition in the Toronto Union Station and is now in St. Michael's hospital.

## News of Our Own Village

A dash of cold weather hit this berg towards the end of the week nipping outdoor bathing and such in the bud, so to speak.

There was a blaze of martial music heard in our midst last Tues. p.m., the foot soldiers marching out of the drill shed and then marching back again.

The suckers has been running here this week. Note: This is a fishing item and aint got no connection with stock market news.

The old landmarks is passing away. This week Swanston's barn was burned and last week the Christmas tree in Confederation Sq. was took down.

Tim Kennedy from Dixie, west of here, who is the only minister of agriculture this fair province has had that looked like a farmer, give a talk to the village Chamber of Commerce at Graham's Hotel, Thurs. nite.

Bert McLeod, our hustling druggist, who has been hockeying in Kansas City, south of here, all winter, had his bicycle stole the day after he got home. Bert thinks the crime wave has took hold here while he's been away.

Our energetic Chief Constable, Sam Newhall, say he's going to jug folks what leave their horseless carriages hitched too long on the business streets. Looks like work ahead for O. A. Langley, our well known cadi.

Some of the box fighters from here travelled to Lindsay, west of us, Thurs. nite for a serious of brawls. The affair was a striking success, your scribe is informed.

The trout fishing season is billed to start in these parts next Fri. provided they's enough water left in the creeks hereabouts for the fish to navigate, which same is doubtful at the present writing.

Many warm hearts beat in this village. Reading about the fish flopping round in shallow water, north of us, some of our kindly villagers immediately rushed to the scene and pulled them out. Cap Carson would like to have the names of the same.

—F. D. C.

## SOMERSET HEADS MARKETS BOARD

### Ontario's New Markets Board is Announced By Hon T. L. Kennedy.

### FOUR APPOINTMENTS.

TORONTO, April 25.—Personnel of Ontario's new Marketing Board, provision for whose establishment was made by special act of the last session of the Legislature, was announced yesterday by Hon. Thomas L. Kennedy, Minister of Agriculture, along with certain administrative work upon which the board will immediately embark.

W. B. Somerset of Burlington, author of the Somerset report on marketing conditions in this Province, and a man who has worked hand-in-glove with the Government in recent years to build up Ontario's fruit trade overseas, will, as forecast some time ago, be Chairman of the board. As six assistants he will have Howard B. Clemes, manager of the U.F.O. Co-operative, and J. S. Fairbairn, Deputy Minister of Agriculture. John A. Carroll, Director of the Crops, Markets and Co-operative Branch of the Agriculture Department, will act as Secretary. All four appointments have been ratified by Governmen: Order-in-Council. No salary is connected with any of the board memberships, but the Secretary will receive an honorarium.

*Celery First Problem.*

Tentative arrangements call for the board to meet at least once a week, at the call of the Secretary. One of the first tasks to which they will put their hands is to find a solution to the celery problem in Lambton County, where overproduction is now reported. Later, an intensive effort to capture for Ontario growers the market in celery now commanded by United States shippers will be launched.

It was further announced yesterday by Colonel Kennedy that in connection with the general scheme of things to better the Province's markets, sales agents, appointed by the shippers, but maintained partly by the Government, will be appointed and located in Winnipeg, Montreal and the Maritime Provinces. Acting as liaison officials, these agents are expected to prove invaluable in obtaining for the Ontario grower markets and prices for which he has clamored in the past.

## VOCATIONAL GUIDANCE

A Column in the Interests of the Young People of Peterboro and issued under the auspices of the KIWANIS CLUB

### What Every Boy Ought to Know About the Career Which He Chooses as His Life Work

**Nature of the Work, Place in Industrial or Professional World:**
Is importance increasing or decreasing?

**Advantages and Disadvantages:**
Attractive and unattractive sides;
Factors that interest or develop the worker;
Factors that cause physical, nervous or mental strain;
Factors that result in mental growth;
Liability to accidents or occupational disease.

**Qualifications:**
**Intellectual:** power to visualize; power to analyze; maturity of judgment; memory; ability to understand oral or written instructions; rapidity of decision; independence of judgment; power to concentrate, etc.
**Personality Traits:** Self esteem; ability to make friends; ability to co-operate; good nature; tact; sympathy; personal appearance; neatness; manners; willingness to assume responsibility; initiative; reticence and the like.
**Physical Factors:**
**Moral Qualities:** Conscienciousness; honesty; patience, courage, prudence, truthfulness, self-control, unselfishness, faith, integrity, etc.
**Economic Traits:** Driving power; shrewdness, sense of values (moral as well as monetary), persistence.
**Emotional and Nervous Traits:** Emotional stability, etc.

**Training Necessary for Entering:**
General education, technical training, manupulative skill, etc.
Cost of training in time and money.
Opportunity for earning while learning.
Scholarships and loan funds available.

**Opportunities in the Business or Jobs:**
Provision for systematic instruction on the job.
Line of promotion within the job.
Line of promotion from the job.
Nature of income—whether salary, commission or fees.
Average income; maximum earnings for those of unusual ability.

**Hours and Conditions of Work:**
Fluctuations in employment; busy seasons and slack.
Relation of supply to demand, locally and nationally.

**Service and Social Opportunities** (for worker and family).

**From what source can you get further information on the subject.**

## IN DAYS GONE BY

### Items Taken From Old Fyles of The Examiner

**APRIL 25, 1921**

Several hundred unemployed men paraded to the Toronto Parliament Buildings this morning demanding work....Fighting which lasted for twelve hours between the police and a band of Republicans is reported from Maamcross, County Galway....Sunday street cars will operate here after May 1st, giving a twenty minute service at a ten cent fare....St. Joseph's Hospital is to be practically doubled by a proposed addition.

**APRIL 25, 1911**

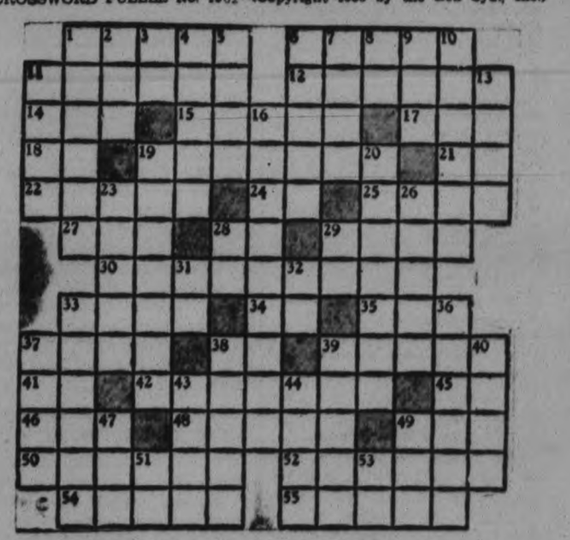
The Philadelphia Police Force boasts the possession of a millionaire policeman....The King has arranged an imposing pageant in connection with Prince Edward's investiture as the Prince of Wales....A lot of excitement was caused to-day when a team of horses ran into a plate glass window on Charlotte street.. Louis Houdrey was this morning sent up for trial on a charge of stealing a quantity of chop from the Quaker Oats Company in March.

**APRIL 25, 1901**

A despatch from Rome says that the assassin of King Humbert has become mad in consequence of the ill-treatment of his jailers....The Ministers of England, France, America, Holland, Belgium and Italy, have demanded four more beheadings and the exiling of eighty more Chinese officials as punishment for the rebellion....The Czar has signed a decree expelling Count Tolstoi, famous writer and defender of the peasants, from Russia....The water in the Otonabee River is now quite high.

New bus lines are being inaugurated in West Java.

CROSSWORD PUZZLE No. 1962 (Copyright 1930 by the Bell Syd., Inc.)



HORIZONTAL

1—Magnesium compound (plur.).
6—Cripples.
11—Successive.
12—To fine.
14—Kind of meat.
15—To fasten temporarily.
17—To make public.
18—While.
19—Floor covering.
21—Bone.
22—Elementary substance.
24—Article.
25—Narrow road.
27—Knight.
28—Enclosed.
29—Jutting rocks.
30—To dry up.
33—Piece for three.
34—Exclamation.
35—Child's game.
37—Spanish for house.
38—A sloth.
39—Ornamental bricks.
41—Home of Abraham.
42—Belonging to no one.
45—Point of compass.
46—Bitter vetch.
48—Estate.
49—Poem.
50—Grabs.
52—More miserly.
54—To hum.
55—Compound ether.

VERTICAL

1—Annoys.
2—Weapon.
3—Symbol for lithium.
4—Group of conspirators.
5—Narrow board.
6—A language.
7—So be it!
8—Pronoun.
9—Age.
10—Offshoots.
11—False.
13—Gaelic.
16—Upright support.
19—Pertaining to socialistic writer.
20—Mouth of windpipe.
23—Rows.
26—Pertaining to pace.
28—Two.
29—Symbol for tantalum.
31—There ore.
32—101.
33—Blackened.
36—Distinction of words.
37—Hints.
38—To lower.
39—Wheel rims (variant).
40—Forecaster.
43—Sign.
44—Roof.
47—Address of respect.
49—Number.
51—Combining form: animal.
53—By.

### Coco Cola Company.

(Analysis by Standard Statistics Co.)

Leading domestic soft drink manufacturer, specializing in one well-known product—Coca-Cola. Distributes through United States and in 75 foreign countries, bulk of gallonage going to jobbers who supply soda fountains; remainder is taken by distributing companies which sell to bottling concerns. Retailers of Coca-Cola at close of last year numbered over 800,000. Company and subsidiaries have 13 syrup factories in United States Canada and Cuba, with agregeate daily capacity of 177,750 gallons. Production of carbonic gas and by-products is carried on by one subsidiary.

Gallonage sales are reported to have gained 3% last year, dollar sales 5% and net income 5.9%, the advance in profits representing the seventh consecutive year of like achievement. Earned $11.15 per common share, against $10.25 in 1929. Low price of sugar was an especially favorable factor, and this advantage is being carried over into 1931. Because of strong hold on market, popularity of product, absence of competition and reduced costs, the chances are good for further growth of profits this year. Capitalization consists of 2 issues of 1,000,000 shares each of no par common and of $3 cumulative class A stock. Latter issue, callable at $52.50, eventually will be retired, and already about 220,000 shares have been purchased for treasury. Very strong financial and earnings positions justify recent increase of common dividend to $7 per annum rate, from former $6 basis, and payment of $0.25 extra on April 1, 1931.

Silk in Japanese warehouses at one time recently was valued at $60,000,000.

# REPEATED "BEAR" ATTACKS AGAINST NEW YORK STOCKS SEND TORONTO LIST DOWN

**Nearly All Canadian Leaders Establish New Lows for the Year.**

**SOME RECOVERIES.**

**Interlisted Issues First to Feel the Pressure of Liquidation.**

(By Thomas C. Thompson).

TORONTO, Ont., April 25.—(By the Canadian Press)—Pronounced weakness, instigated by the success of repeated "bear" drives against New York shares, marked trading on Canadian stock exchange this week. Nearly all the Canadian leaders established new low levels for the year or longer although large part of the decline was recovered on Thursday and Friday.

The basis of the feeble recovery movements lay in the appearance of active support which entered the New York market and stemmed the bear drive at the centre. Canadian traders were also encouraged by a somewhat improved outlook for the wheat market, gains in automobile production and some branches of retail trade, and by the belief that a technical rally in the stock market was already overdue.

The resumption of cautious buying late in the week did not however, materially alter the stock market picture, nor did it reflect any major change for the better in general business throughout the dominion.

**C.P.R. is Outstanding.**

The outstanding feature of the week's market was Canadian Pacific Railway stock, which not only led the downward movement but was also one of the first to retrace a part of its lost ground. C.P.R. was subjected to selling in New York and Canadian markets following a rumor that the dividend might be reduced, and there was also the depressing influence of a sharp reduction in earnings of Consolidated Smelters, controlled by C.P.R. The rail leader dropped to 34¾, a new year's low, but recovered following a reassuring statement regarding the company's dividend outlook, and at the close of the week is selling at 37 compared with 37¾ a week ago. Smelters' decline assumed spectacular proportions when the shares fell 30 points to 106, and later to 101, while the loss was only slightly reduced in Thursday's rally. At 112, Smelters is still 7 points below its price of 136 last week.

Interlisted issues were the first to feel the pressure of liquidation and short selling and International Nickel at 16 shows a loss of half a point notwithstanding renewed demand for the shares during the latter half of the week. Ford of Canada "A" sold down to 21 1-8, and at 22¾ compares with 23 last week. Brazilian reacted to the news of a further decline in its earnings during March and reached a new 1931 low of 18 before recovering to close at 18¾ to 19 compared with 20¾ last week. The majority of other leading issues likewise regained a part of their losses.

**New Low Levels**

Steels were hard pressed for a time, and new low levels for the year or longer were reached by Steel of Canada Common, Standard Steel Construction and others. Oils, however, responded to quiet buying attracted by the persistent liquidation of these shares in recent weeks. Prices were believed to have discounted much in the oil industry, although there was nothing except reassuring official statements by company executives to encourage revived demand. Imperial Oil at 12¾ is still below last week's price of 13 5-8, British American shares at 10 3-8 compare with 11 last week, and International Petroleum at 11¼ is only fractionally below its price of a week ago. Lower prices were reached by all the oils but these showed greater recuperative powers than many of the industrial trading favorites.

The mining market was characterized by marked irregularity in its price movements. A late upturn on Friday wiped out a number of earlier losses, however, and Noranda was particularly impressive with a recovery to $23.15 from a week's low of $21.25. A week ago Noranda sold at 23.75. Golds continued to attract moderate demand from both Canadian and United States sources, Lake Shore at $27.50, McIntyre at $23.75, Hollinger at $8.35 and Dome at $11.05 all compare favorably with their levels of last week, although golds like other mining issues were affected to some extent by the depressed condition of the industrial markets.

# C.P.R. CLOSES AT 35 3-4 POINTS

**Noranda and Brazilian Show Practically No Movement in To-day's Session.**

TORONTO, Ont., April 25 (C.P.).—The sharp thrust upward made in the final few minutes of trading on the Toronto Stock Exchange last night when C.P.R. jumped from 35½ to 37½ and several other leaders made less spectacular gains flattened out against the general tone of pessimism over business improvement and prices this morning were back on the same level they had been most of the day on Friday.

C. P. R. for instance came under 36 and closed at 35¾. Nickel came out unchanged and eased a minimum fraction. Noranda closed unchanged and Brazilian showed practically no movement. Page-Hersey Tubes was under pressure again and dropped to a new low at 80.

The oils were irregular. Imperial and Supertest closed with small losses, B. A. Oil and International Petroleum unchanged to slightly higher while Canadian Oil sold as high as 13 after having slumped to 10 the last couple of days.

Service Stations, down to 16 yesterday, made a recovery to 17½. Liquor stocks were quiet and firm.

# MONTREAL LIGHT SHAREHOLDERS WILL RECEIVE 11 PER CENT. IN DIVIDEND RETURNS BY 1935

**Allowing For Normal Expansion Financial Service Conducts Survey.**

**WILL PAY $2.45 A SHARE.**

The average investor in common stock is not s much concerned with the immediate outlook for his securities as what the future holds for him. Financial Service has made a very comprehensive study of Montreal Light Heat and Power Consolidated and has come to the conclusion that with only normal expansion, an investor in these shares at current prices, will, by 1935, be receiving approximately 11% in dividend returns. This figure has been arrived at as follows:

As at December 31st, 1930, there were 4,083,674 shares outstanding; 405,500 were offered in the form of rights and 588,187 issued to customers, so that the total number of shares outstanding in 1933 will total 5,077,361. Due to the fact that the company will have received by 1933 nearly $50,000,000 through issuance of common shares and sale of $5,000,000 of bonds in 1930, no further bond or stock issues are expected within the next four or five years.

An analysis of the Company's gross earnings for the past twenty years and a statistical study of future growth based on the rate of the growth since 1911 gives the following figures as probable estimates: 1932, $26,781,000; 1933 $28,046,000; 1934, $29,311,000; 1935, $30,577,900.

Notwithstanding increases in funded debt in the past, ratio of net income to gross earnings has expanded consistantly. The ratio was 33% in 1919, 38.4% in 1921, 34% in 1927, 39.2% in 1929 and 38.1% in 1930. The ratio seems to have stabilized be ween 38% and 39% in he past three years; though the trend is definitely upward, only moderate expansion can be expected in the future. The drastic decline in commodity prices will have the effect of reducing slightly the company's expenses in future years, and a fair and conservative estimate of the ratio of net income to gross or the year 1935 can be placed at 40%. Net income in 1935 would thus be approximately $12,230,800. To this amount can be added $230,000 representing a fair estimate of the revenues the company will receive from the huge sums of money recently invested and to be invested this year in securities.

Net income available for dividends in 1935 would thus be $12,460,800 on 5,077,361 shares, or $2.45 a share.

The present rate of $1.50 per share per annum is not expected to be increased until late in 1932 or early in 1933 when the stock may be placed on a $1.75 basis with a further increase to $2.00 per annum some time in 1935.

The placing of the stock on a $2.00 dividend basis in the latter part of 1935 would be keeping with past policies of the management with regards to the percentage of net income disbursed in dividends.

Record of past growth, management, and practical assurance of increased profit with consequent increases in dividend rate have made for the low yield basis at which the shares have sold for a great number of years. The continuous growth in gross profits and the larger proportionat expansion of net income have given about absolute assurance (due to the nature of the company's business) that future growth will be on the same, if not greater. Since 1927 the shares of Montreal Power have sold on an average yield basis of about 2½% and on a basis of 3% on the dividend rate one to two years later. Or in other words investors have been willing to buy the stock at a price which would yield them bank interest two years after purchasing it. The stock has sold on an average price-earning ratio of 30-35 times. At its current price, the stock yields about 2½%, sells at 30 times last year's earnings and is discounting an increase to $1.80 in the dividend rate by 1933.

From the above Financial Service has reached the following conclusions as to what Montreal Power stock will be selling at in 1935:

Earnings for the year ended Dec. 31, 1935, $2.45 per share; current dividend rate (December 1935) $2.00 per annum; estimated earnings 1937-38, $3.00 per share, with $2.50 dividend rate; on the basis of the factors affecting the market price of the shares as indicated above, we have the following—2½% yield basis—80; 3% yield basis on rate of dividend two years later 85; 30-35 times earnings, 73-86.

It can, therefore, be logically expected that the shares will sell at 85 during the year 1935 and may not sell below 75 even with market conditions showing very little improvement.

It is possible that the shares may sell above 100 in a bull market but 85 appears to be a price which an investor can safely expect during that year. Any further appreciation, however, will only be warranted by factors outside of earnings or dividends. Possible appreciation in the market value of the company's investments in marketable securities may be on such a scale as to create extensive speculation in the stock with resultant high quotations.

If a purchase of the stock is made today at present prices and sold at 85 in 1935, the investment would net an average return of over 11% per annum.

### DEFOE DIED 200 YEARS AGO.

LYONDON, April 25 (C.P.).—The first edition of Robinson Crusoe was published here on April 25, 1719, and 200 years ago to-morrow its author, Daniel Defoe, died. Most London papers call attention to the two facts, but no commemorative ceremonies are planned.

# STIMSON ASSETS ONLY ABOUT TENTH OF ITS LIABILITIES

**"Chances of Return Not Very Great," Trustee States.**

**BAD INVESTMENTS.**

TORONTO, April 25.—Findings of G. T. Clarkson, trustee of the G. A. Stimson Companies, made known yesterday to meetings of creditors, held at Osgoode Hall, failed to fulfil the bright hopes of those who issued financial statements on Jan. 23, the day the companies were placed in bankruptcy. Summing up the G. A. Stimson Company's position, Mr. Clarkson said: "With general assets running at about $150,000 to $250,000, and ranking liabilities of $2,500,000, the chances of return in the estate are not very great."

The trustee told of heavy advances to affiliated companies, and said the creditors "would be lucky to realize from $50,000 to $75,000 from them. Of $3,220,503 shown in investments in the G. A. Stimson, the parent company, there was a possible realizaton, he said, of $100,000. Even this realization depended to a certain extent upon their attempt to refinance the Commerce and Transportation Building at Bay and Front Streets. An indebtness of Fred G. Johnston, former president of the various Stimson Companies, of $732,016, to the Commerce and Transportation Building Limited, the old company shown on their statement, had not been satisfactorily accounted for, Mr. Clarkson declared.

"We do not say that it cannot be accounted for, but no satisfactory explanation has yet been given by Mr. Johnston as to what happened to this money," he said.

Possible sale of property on University Avenue bought by Johnston was the creditors' main hope of realizing something on their investments in the parent company, Mr. Clarkson stated.

# CHICAGO PRICES SHOW DECLINES

**Prospects of Big New Corn Crop Plays Mischief With the Product.**

**WHEAT ALSO DOWN.**

(By John P. Bouchan, Associated Press Market Editor.)

CHICAGO, Ill., April 25.—Rapid progress of planting, together with likelihood that the 1931 "after planting" corn movement will come unusually early, is playing the mischief with corn prices.

Traders face prospects of a big new corn crop, and so far the opening of lake navigation has not resulted in any material broadening of eastern demand.

Compared with a week ago, the corn market this morning was 11-8 3¼ cents a bushel lower, with wheat 1½-2 7-8 down, oats 1¼-2½ off, and provisions showing 35 to 77 cents decline.

Competent observers assert that for at least the next few weeks the course of wheat prices will be determined largely by weather conditions and also by export takings. Oats prices mirror the fact that seeding of the new crop is almost completed, and that yield prospects are excellent.

### EIGHT KILLED IN EXPLOSION.

MEXICO CITY, April 25 (C.P.).—A Saltillo despatch to Excelsior today said that eight persons, including the United States superintendent E. A. Manderfield, were killed in an explosion at the Providencia Mine of the Compania de Penoles.

The Compania Minera de Penoles is a subsidiary of the American Metal Company, and is located in the northern part of the State of Zacatecas.

# NINETEEN APPLY FOR TRAFFIC JOB

**Matter of Appointment is Deferred for One Month by Commissions.**

**HELD IN CAMERA.**

For a period of two and a quarter hours this morning a joint representation of the County Roads and Suburban Area Commissions considered applications for the position of County Highway Traffic Officer — behind closed doors!

During that time a decision was reached, that the matter of the appointment be deferred for one month in order that the Provincial Police administrators may be consulted, as to the co-operation that may be expected from them.

Eighteen applications were received and considered.

"Is it proper that the public should look in on this question before a decision has been reached by the meeting," questioned County Clerk and Treasurer Ed. M. Elliott in suggesting that the press be excluded.

There was a general murmur of agreement that the meeting be held in camera, and The Examiner representative was requested to withdraw, by Mr. Elliott. There was no resolution supporting it.

The meeting was precided over by Reeve Leahy, chairman of the County Roads Commission.

Large coffee planters of Salvador are assisting the peasants in the growing of corn and other cereals in order to keep their plantation hands busy.

# RECESSION OF STOCK MARKET OVERSHADOWS N. Y. HAPPENINGS

**Drop in Steel Production and Weakness in Commodities Factors For Decline.**

**EARNINGS REPORTS PUBLIC.**

(By John L. Cooley, Associated Press Financial Writer).

NEW YORK, N.Y., April 25.—Further recession of the stock market overshadowed other financial happenings this week. The slow relaxtaion in business activity continued, prompting a more energetic campaign by professional bear traders, but aside from confirming the downward trend noted in recent weeks, the news offered nothing of a particularly startling nature.

Factors working for lower share prices included the drop in steel production, weakness of commodities, first quarter earnings statements, and the absence of an important demand—all familiar influences, but none the less potent at a time when the constructive side of the market lacks friends. So far, a very large proportion of the buying during the last month has represented repurchases by shorts, so that rallies are dependent upon technical conditions. The Thursday advance, after quotations had touched new low levels for the year or longer, was a quiet retreat by the bear party. That the rally did not follow further may have been due in part to intimations of yesterday's suspension of a member firm, an action which flustered rather than dismayed the market when it was announced.

Statisticians who have been combing the history of other depressions are reporting that this one is running true to form in many respects, especially with regard to the irregularity and uncertainty evident at this stage. If conditions are at bottom, as most observers confidently believe, it is pointed out that the normal course for several months would be a confused movement punctuated by reactions.

**Reports Made Public.**

First quarter reports of many of the large corporations, including General Electric, Westinghouse, American Telephone, General Motors, Chrysler and National Biscuit, are now at hand so that whatever bad news the market had expected from such sources is now a matter of record. In some instances the returns have been more favorable than anticipated, and in only a few cases have even the bears been surprised.

Although the steel industry has lost all of its spring rise, trade circles seem more optimistic than in the immediate past. It is felt that operations may be able to hold around current levels for several weeks and that an advance in the autumn may be substantial. First quarter income results of the two leading companies will be published next week and Wall Street, as usual, has already made its estimates. In the case of United States steel the forecast is between 25 and 30 cents for the common, while the gossips' guess for Bethlehem is from 5 to 10 cents on the junior equity

QUALITY PRINTING With Quick Service

# BIRMINGHAM TEAM BEATEN BY 1 GOAL

(Continued from Page 1)

stadium. After the customary demonstrations were exhausted all joined in a great burst of song which welled up from the green carpet of turf and rang around the building. "God Save the King" was rendered in a burst of heavy rain and, to a round of cyclonic applause, the match started.

**The teams were:**

| Birmingham | | West Bromwich |
|---|---|---|
| Hibbs | G | Pearson |
| Liddell | RB | Shaw |
| Barkas | LB | Trentham |
| Cringan | RH | Magee |
| Morrall | CH | W. Richardson |
| Leslie | LH | Edwards |
| Briggs | RO | Glidden |
| Crosbie | RI | Carter |
| Bradford | C | W. G. Rich'son |
| Gregg | LI | Sanford |
| Curtis | LO | Wood |

The players were glad to get going as in the short time they had stood in the field they had been drenched to the skin by the rain. W. G. Richardson kicked off and another cup final had been set going.

Crosbie and Briggs came down on Birmingham's right, but Brigg's pass was too hard and went astray. Crosbie was penalized for apparently too vigorous a play but nothing came of the free kick. Edwards dribbled down and eluding Cringan sent to Wood, whose centre went behind when he was hampered by Liddell. The Birmingham defence was being skilfully manipulated and the Albion forwards at first seemed stilled by their opponents' superiority. The first thrill came when Barkas, endeavoring to run by Sandford, booted the ball at the latter and Wood came into possession. He sent across a centre and while the crowd gasped Glidden came up fast. Hibbs was out of position, but Glidden could only send the ball spinning along the crossbar. West Bromwich then turned on their speed and several pretty movements resulted. Curtis after a corner put the ball directly on the mark and Gregg headed into the West Bromwich net, but the whistle had blown for offside. W. G. Richardson cut through three Birmingham defenders but racing along ballooned the ball over the bar. The game had been remarkably fast so far, although the slippery ground caused players to be uncertain and thrill after thrill ensued.

**Bromwich Scores**

From a long pass Shaw came up but was beaten by Cregg and only Pearson's timely intervention saved a threatening situation two yards from the West Bromwich goal mouth. Sandford was tripped first by Crosbie and then by Cringan. The free kick went over the corner of the Birmingham goal. West Bromwich were now playing like demons and the proud Birminghar. defence had more than they wanted. Two corners from Glidden held the crowd breathless. One sailed slowly down in the wind causing Hibbs some trepidation and the fans hung tense as he gathered in the ball and cleared. Birmingham were next given a free kick five yards from the penalty area but Bradford shot wild and the ball went wide of the goal. West Bromwich, full of resource and with finished artistry, after this hammered at the Birmingham defence for ten solid minutes. Their pressure was unrelenting and their control of the ball perfect. Carter, Glidden and Magee frequently inserted wedges into the Birmingham defence, finally Glidden beat Barkas on the touch line and uncovered, calmly pushed the ball to the Birmingham goalmouth, where W. G. Richardson netted on a third time drive. As he slammed the ball into the Birmingham net there was a tumult of cheering. West Bromwich had fully deserved the goal.

The West Bromwich players immediately followed up their goal with another raid, which only the desperate efforts of Barkas repulsed after a scramble five yards from the Birmingham goal. Ably led by W. G. Richardson West Bromwich exploited a long passing bout from wing to wing, every man taking the ball in full tilt. Briggs, who was fairly easily the cleverest Birmingham forward, beat three defenders, but drove the ball clean on to another defender's head. Towards the end of the first half the soaked ground forced the pace to slacken. West Bromwich, however, were there with just that extra bit of nippiness in their thrust and never stopped trying.

**Carry Play in Second**

After the kick-off for the beginning of the second half West Bromwich swept down irresistibly on the left. Wood and Sandford carried the ball. Wood sent the sphere back to Sandford, who missed an open goal from two yards' range when he fell on his face on the wet ground. The ball went back to Wood, who kicked a magnificent high shot. It dropped down at an angle to the goal posts and did not go in. Birmingham put on a fierce offensive and West Bromwich were thrust back into their own area. Briggs was the spearhead of the attack, but he showed hesitancy in centering. Gaining a corner on the left Bradford narrowly missed the Albion goal with a header. Birmingham camped just outside the Albion penalty area and Bradford showed poor judgment in placing a pass, the West Bromwich defence being able to break up the attack. Two rapid movements, almost too dazzling to follow, were developed by Briggs and Bradford. The latter player on the second one took a pass from Briggs. He collided with an Albion back, but in falling hooked the ball round his opponent into the net. Ten seconds later from the kick-off West Bromwich went right through the Birmingham team. W. A. Richardson led the attack. He burst through to the Birmingham goal-line, where he was temporarily held up. He dodged and tapped the ball past Hibbs for Albion's second goal.

West Bromwich drove attack after attack into the flustered Birmingham team, who had swung from the jubilation of equalizing to dismay when Richardson scored. The Albions harrassed the Birmingham men at all points and played joyous football. W. G. Richardson placed the ball in front of the unmarked Wood, who fired in a hard cross shot which Hibbs just knocked over the bar. Several times the Birmingham backs passed the ball right across the goalmouth, but there was no Albion player there. The Albion team were covered with mud from head to foot, but the Birmingham side kept their clothes clean. Wood again hit the post from the touchline and Hibbs caught the ball as it dropped. Another open goal was missed when Carter slipped after Hibbs had run out and missed. Birmingham made a last final effort just before time. Gregg came through on the left and before the defence could muster their forces there was a scramble almost on the West Bromwich goalline. The ball emerged and Gregg put in a sizzling ground shot which Pearson just managed to divert around the post. A miss-kick nearly let in Bradford. Then the slowness of Curtis in centering allowed the defence to rally. A corner to Birmingham in the last minute kept up the drama of a great maten to the whistle. West Bromwich became the cupholders when Birmingham put in a badly placed kick.

The cup was presented to the winning team right after the match by the Duke of Gloucester.

# FORTY BOYS FROM FOUR COUNTIES ENTERED HOG FEEDING CONTEST

### Boys Assembled at C.P.C. Plant to Get Instruction and Their Pigs.

### REAL LIVE COMPETITION.

Forty boys from the counties of Northumberland, Durham, Victoria and Peterborough, who have entered the annual competition in the care and feeding of pigs which is conducted by the Ontario Government in co-operation with the Peterborough Exhibition Board and the Canadian Packing Company, assembled at the C.P.C. plant Friday afternoon for the distribution of the pigs that were specially purchased for them.

Some of the boys have their own pigs at home, but the others bought for ten dollars a pair the young animals that had been selected in several of the counties and elsewhere by J. B. Nelson, Wm. Knox and D. A. McKinnon. The competition closes during the week of the Peterborough Exhibition when the hogs will be exhibited and they will also be judged in connection with the boys' judging competition which has become such an important adjunct of the Peterborough Fair.

**Stimulates Interest**

Undertaken several years ago as a means of stimulating interest in the breeding and care of hogs by the junior farmers of this district, this project is evidently maintaining its attraction for the boys who have ambitions of becoming successful farmers. And the place it holds in the plans of the Ontario Department o. Agriculture was emphasized by the presence of Dr. Lionel Stevenson, professor of Zoology at the Ontario Agricultural College at Guelph, also the agricultural representatives in the four counties, Walter Smith of Northumberland, E. A. Summers of Durham, M. H. Winter of Victoria and J. B. Nelson of Peterborough. A government camera man was also present, taking motion pictures of the distribution.

Dr. Stevenson gave the boys a demonstration on the treatment of hogs for worms and intestinal parasites, and also discussed the importance of this branch of the care which the young pigs should receive to fit them both for the market and competition. Mr. McKinnon and Mr. Nelson also spoke to the junior farmers on details of feeding and the results of intelligent management of the hog department of the farm.

Incidentally, it was learned yesterday that this pig competition for boys, which was originated by Mr. McKinnon, has been accepted by the Ontario Department of Agriculture as a provincial project. Two other counties, Hastings, Lennox and Addington, with Belleville as the centre, have adopted it, and other counties may do so taking advantage of the government's financial support. One-third of the prize money is paid by the Ottawa government, one-third by the Ontario government, and in this district the Peterborough Exhibition is also a generous contributor.

**Boy Entrants**

The boys in the competition this year are as follows: Northumberland—Allan Dynes, Everett Brisbin, Malcolm Butters, Allan Linton, Everett Harper, Jack Robson, Hayden Harper, John Lean, Kenneth Curtis and Edgar Bowman.

Durham—Allan Ough, George McNight, Mervin Smith, Stewart Gray, Lloyd Fallis, R. Dawson, Gerald Larmer, Gordon Smith, Archie Muir and Robert Courtice.

Victoria—Lorn Smith, Ross Fowler, John Sanderson, Clinton Endicott, Lloyd Hart, Casey Davidson, Allan Wilson, Wm. Chatten, Lawrence McConnell and Levers Deyell.

Peterborough—Robert Leahy, Harold Payne, Ted Rose, Elroyd Barr, Thos. Webster, Russel Graystock, D. Forsythe, R. Patterson and Michael Doherty.

An expression of thanks was extended to the Canadian Packing Company for their co-operation in the distribution.

## OBITUARY

**MRS. WILLIAM QUINN.**

Mrs. William Quinn, 607 Water street, passed away in this city at 4.45 p.m. Friday after a short illness. The deceased (nee Isabella Young) was born 73 years ago in Otonabee Township, daughter of the late Mr. and Mrs. William Young. She has resided in Peterborough most of her life. Left to mourn her passing are two daughters, Mrs. D. A. Sands, of Victoria, B.C. ,and Mrs. E. V. Warne, of this city, and three sons, Ralph, of Vancouver, Harold of Bufaflo, N. Y., and T. William of this city.

The funeral will be held from the residence of her daughter, Mrs. E. V. Warne, 607 Water street, at 2 o'clock Monday afternoon. Rev. E. J. McCormack of Lakefield Baptist church, will officiate, and interment will be made in Lakefield cemetery.

**WILLIAM GEORGE SANDERSON**

MILLBROOK, April 25. (Examiner Correspondence)—The death of William George Sanderson, which occurred on Wednesday, April 22, following an extended period of ill-health, removed a highly-respected citizen who had resided here for the greater part of his life, his birthplace having been at Springville seventy-nine years ago.

In earlier years deceased was known as a great lover of horses, and many of the older residents recall the fine team he drove for several years when in the employ of William Thexton, who conducted a lumber business here before his removal to Saskatchewan to reside.

Mr. Sanderson was at one time connected with the Salvation Army when a branch of that organization had its headquarters in the community, beating the big drum in the band, and afterward when a citizen's band was organized locally he was included in its membership, the same instrument being his special forte.

Until failing health compelled his resignation, within recent years, Mr. Sanderson had charge of a rural mail route giving faithful attention to the duties involved, even when the illness which finally proved a task not easily carried through.

The immediate surviving relatives are his widow, to whom he was united in marriage more than fifty years ago, and who cared for her husband through his prolonged illness though herself far from strong; there are also a number of grandchildren and great-grandchilden.

The funeral, which was largely attended, took place from his late residence, Main street on Friday at 2 p.m., Rev. W. W. Jones, B.D., pastor of Saint Andrew's United church conducting the services.

The pallbearers were: Messrs. J. R. Eakins, A. Hunter, M. Pethick, W. Larmer, H. A. Elson and M. Henry (Peterborough). Interment was in St. Paul's cemetery, Fourth Line, Cavan.

**MRS. ROBERT LUNN**

MILLBROOK, April 25. (Examiner Correspondence)—News of the death of Mrs. Robert Lunn came as a great shock not only to her immediate family, but also to the community at large, the sad event occurring with startling suddenness on the evening of Thursday, April 23, deceased being in her sixty-sixth year.

Mr. Lunn was predeceased by her husband, his death taking place just five months ago, the immediate surviving members of her family including two sons, John, of South Monaghan and William at home; and one daughter, Martha, also residing on the homestead.

The funeral will take place from her late residence, Second Line Cavan, on Sunday, at 2.30 p.m. Deceased was a member of Saint Andrew's United Church, Millbrook.

Interment will be in the family burial plot at Gardiner's cemetery.

**ALEXANDER WATSON**

HAVELOCK, April 25. (Examiner Correspondence).—The funeral of the late Alexander Watson, whose tragic death occurred on Monday morning last, was held from the family residence Havelock on Wednesday afternoon last and was one of the most largely attended ever seen here. Mr. Watson who was in his fifty-eighth year was a son of the late John Watson formerly of Scotland, but for many years a resident of Havelock.

For the past thirty-two years he was employed with the C.P.R. first as a brakeman, latterly as a conductor, mostly in freight service. He was very popular with his fellow workmen, being of a genial and merry disposition. Fond of his family and home, Mr. Watson was known as a most indulgent father, and a lavish provider. His sudden and terrible death cast a pall of gloom over the whole community, and friends from afar and near, hastened to the bereaved family, to comfort them in their hour of sorrow. His wife, formerly Minnie Johnston, daughter of the late Jack Johnston of this village, three sons and three daughters, are left to mourn the passing of a devoted husband and father. The are: Wesley of Detroit, Mich., Cecil of Havelock, Victor, Dorothy, Barbara, Mary at home. Besides these there are three brothers, Will of Havelock, James of Moose Jaw, Sask., and John in Scotland and five sisters, Mrs. Arthur Currie of Havelock, Mrs. Will Jones of Agincourt, Mrs. Jessie Cole of Port Arthur, Mrs. Wm. Cole Toronto, and Mrs. Kenneth McKay of Vancouver.

The funeral was under the auspices of the I.O.O.F. and service was held at Knox Presbyterian Church, where Dr. John Lennox preached the funeral oration. The service was fully choral. Beautiful and consoling hymns were sung and words of comfort and hope were spoken, during fitting tribute to a life well spent.

Many beautiful floral pieces bore mute testimony to the popularity and esteem in which Mr. Watson and his family were held in the community.

The pall bearers were all old friends, and fellow workers and brother Oddfellows: Richard Sanderson, Jack Hart, Frank Hooper, Jesse Weymark, Steve McQuigge, and Will Green. Interment was made in the family plot at Pine Grove cemetery.

The following out of town friends and relatives were present at the funeral: Mr. and Mrs. Wesley Watson of Detroit; Mr. and Mrs. Wm. Jones, Agincourt; Mrs. Jesse Cole, Mrs. Watson Cole, of Port Arthur; Mr. and Mrs. Wm. Cole, Mrs. Jeffries, Mrs. Wm. Tremain, Mr. and Mrs. Harry Cole and daughters, Velma and Edna of Toronto; Mr. and Mrs. Wm. Purdy and Carl of Cordova Mines, Mr. and Mrs. Ed. McMillan, Toronto; Mr. and Mrs. Stanley Johnson, Windsor; Mr. and Mrs. McQuire, Ivanhoe; Mrs. Wm. Buchanan, Smiths Falls, Mr. and Mrs. Wm. Johnson, Cobourg; Mr. and Mrs. Robt. Brooks, of Gores Landing; Mr. and Mrs. Ben. Johnson, Peterborough; Mrs. Cowan, Peterborough; Mr. and Mrs. Thos. Buck, Norwood; Mr. J. Reid, Port McNicoll; Mrs. R. H. Milliken, Perth.

Beautiful floral pieces were sent by the following: O.R.C., Smiths Falls, also the trainmen from there; Royal Lodge 286 Havelock; local Dorcas Rebekahs; Employees on Kingston sub-division; one each from the Ladies Aid; the choir; congregation; and Y.W.A. of Knox Church, Havelock; Mr. and Mrs. Jim Watson, Moose Jaw Sask: Mr. and Mrs. Ed. McMillan, Toronto; Mr. and Mrs Wm. Loughman, Toronto; Mr. and Mrs. Thibault, Mrs. J. E. Hayes, Sault Ste. Marie; Mrs. Marian Inkster and pupils of room 5; Melville Wight, Wm. Laing, Larry Weese, Mr and Mrs. Herbert Williams, A. Leeson & son, Mr. and Mrs H. T. Mathieson, Mr. and Mrs. R. J. Logan, Mr. and Mrs. Jas. Diaper, all of town; W. T. Goddard and family, Kingston; Mr. and Mrs. Leonard Black, Kingston; Marjorie Weymark, Peterborough; Mrs. A. Wight, Agnes and Laura, Trent River; Mr. and Mrs. R. H. Milliken, Perth and a beautiful pillow from the family.

## HOME TOWNERS

**Tidbits Interesting and Humorous CAMPBELLFORD**

A heavy white frost covered the district on Friday morning but growth was not affected in any way.

Miss Jean Blake was a visitor to Stirling the early part of the week.

Mrs. J. O. Hagerman and little daughter Ruth of Belleville were visitors to town on Thursday.

The Misses Violet and Stella Carr and Mr. H. Feeney were recent visitors to friends in Codrington.

Mr. Joe Whitehead and Mr. and Mrs. Lee spent Friday at Stirling the guests of Mr. and Mrs. J. S. Whitehead.

Miss Mary McGregor was a visitor to Peterborough on Wednesday, the guest of Mrs. Miller, London street.

Mr. Walter Bibby of Toronto was the week-end guest of his parents.

The Young People's Union of the Campbellford Baptist Church will present a concert in the church on Monday evening, April 27, this taking the place of their regular meeting.

This function will be featured by the presentation of two small plays which will be directed by members of the society. The program will also include vocal and instrumental numbers and some exceptionally fine readings.

# LADIES' GUILD STAGES CONCERT

### Event in East Emily Parish Hall Proves Splendid Success.

### Y.P.S. IS ENTERTAINED.

EAST EMILY, April 25 (Examiner Correspondence).—The Ladies' Guild of St. James' Anglican Church held a very successful play and concert in their parish hall on Tuesday night, April 21.

A large crowd was present despite the farmers being very busy with their spring work.

Rev. Mr. Weir acted as chairman. A play entitled, "Listen Ladies" was very ably given by ten ladies, members of the guild.

Other items on the program were as follows: recitation, Blanche Boate; duet, Misses Marion Storey and Gladys Smith; duet, Messrs. Culley and Jones; solo, Miss Eleanor Sherin; duet, Misses Storey and Smith.

After which the ladies served lunch. The proceeds amounted to about $22.

**Y.P.S. Entertained.**

The Young People's Society of Bethel United Church were entertained by the young people of Omemee United Church on Monday evening.

Dr. McPhee opened the meeting with a hymn and then gave it over to the Bethel president, Miss Marion Rea.

Miss Lottie Bray read the scripture reading. Mr. Sid Culley and Miss Eleanor Sherin gave vocal solos; guitar duet Misses Marion Storey and Gladys Smith; solo by Rev. Mr. Blanchard; quartette, Harrison brothers; recitation, Rev. Mr. Blanchard.

The topic was given by Mr. Harry Jackson. Mr. Milton Sherin then put on a contest and the Omemee young people served refreshments. The meeting closed with the National Anthem and Mr. Milton Sherin moved a vote of thanks to the Omemee young people. Mr. Eugene Switzer also thanked the young people.

**W.M.S. Meets**

The Women's Missionary Society of Lakevale Presbyterian Church held their regular meeting at the home of Mrs. David McAdam on Thursday afternoon. The meeting was in the form of a quilting with most of the members present.

Dr. Rogers of Peterborough made a professional call in this district on Thursday.

# HOUSE SPEEDS UP

(Continued from page one)

change in administrations, it was declared.

There was always a certain percentage of the estimates left unexpended at the end of the year, answered Hon. Hugh A. Stewart, the Minister. Total expenditures last year were the highest on record.

Division bells rang in the Commons last night and strangely enough the Conservative member, who forced the vote, received most of his support from the Liberals and was opposed almost solidly by members of his own party. Armand Lavergne, Deputy Speaker, was the member, and his private bill would have made important changes in the manner of conducting criminal trials. Only two other Conservatives, George Stotton, North Huron, and I. D. MacDougall, Inverness, besides the sponsor, supported the bill. It was defeated 74 to to 29.

The bill would have prohibited judges in addressing a jury from commenting on facts adduced in evidence; it would have permitted a defence counsel to address the jury last instead of the Crown Attorney and would switch criminal trials in Quebec Province from the Court of King's Bench to Judges of the Sessions.

**Cahan Opposes Bill.**

Hon. C. H. Cahan, Secretary of State, and G. R. Geary (Cons., Toronto South) stoutly opposed the Bill. Support for it came from Vincent Dupuis (Lib., Laprairie-Napierville). Premier Bennett and all members of his Cabinet who were present, voted against it. Right Hon. Mackenzie King, Liberal Leader, was not in the House when the vote was taken.

Statements attributed to Hon. G H. Ferguson, Canadian High Commissioner in Great Britain, were brought to the attention of the Government by Right Hon. Mackenzie King, who asked if they were authorized by the Ministey. The former Ontario Premier was quoted as telling the Association of British Chambers of Commerce: "Unless you are very careful how you treat us, it will be only another generation before we take your place as leaders in industry and as economic leaders of the world."

In reply, Premier Bennett said no antecedent discussion had taken place between the Government and the High Commissioner before the speech was delivered. In due time a report would be received from Mr Ferguson, and if the House desired this would be tabled.

The two legal departments now administered by the Minister of Justie and the Solicitor-General, eventually would have been combined if the King Government had remained in power, ex-Premier King stated during the discussion of a Bill to raise the salary of the Solicitor-General to $10,000 a year. The Bill received third reading, but not until Mr. King had advised the Government aaginst that method of providing the money. His Government had provided the salary by an item in the estimates which he believed to be preferable to an Act which would perpetuate the Department as a separate entity.

If a decision were reached by the present Government to abolish the Department, it would be more difficult to accomplish, after the passing of the Act, than if the salary were provided in the estimates, the Liberal Leader thought. The Solicitor-General is not a member of the Cabinet, by reason of holding that office, but both Hon. Maurice Dupre and his predecessor, Hon. Lucien Cannon, were members of the respective ministries.

**Extend Compensation Benefits**

Extension of the benefits of workmen's compensation to all Government employees excepting those affected by other statutes, was provided in a bill which passed through the committee stage. Although there was no criticism of the principle of the bill, a fairly lengthy discussion took place. The measure involves an additional expenditure of $70,000 a year.

The criticism centered around the acceptance of the Provincial compensation scales as the basis of the bill. Hon. Peter Heenan, former Minister of Labor, said wide discrepancies existed in the awards made under the Provincial laws. He thought it unfair that Federal employees should receive different rates of compensation simply because they lived in different provinces. Other members thought it would be unwise for the Federal Government to pay higher compensation rates than those prevailing in the individual provinces. Hon. R. J. Manion, who piloted the bill through the House, said it was a step in the right direction and if inequalities were found to exist, they would be eliminated later.

# OFFICERS ELECTED FOR NORWOOD C.W.L.

### Mrs. Redmond Walsh to Head St. Paul's Church Society For Year.

NORWOOD, April 25.—(Examiner Correspondence).— At the annual meeting of the Catholic Women's League of St. Paul's parish, Norwood, the following officers were elected for 1031:

President, Mrs. Redmond Walsh; 1st vice-president, Miss Mary Quinlan; 2nd vice-president, Mrs. Michael Heffernan; 3rd vice-president, Mrs. Charles Coughlin; secretary, Miss Anna McNulty; treasurer, Miss Laura Herr.

**W.M.C. Meets.**

The April meeting of the Women's Mission Circle of the Baptist chuch was held at the home of Mrs. R. F. Raddon on Tuesday with Mrs. Downing in the chair as president was ill.

Mrs. J. A. Stevens gave the topic on missionary work in Bolivia. Mr. Downing gave an inteersting address on missions. Mrs. William Baker read the scriptural lesson and Mrs. Downing sang a solo entitled "In God's Garden."

There were fifteen present at the meeting. Lunch was served by the hostess for which a hearty vote of thanks was given.

Electrifications of the Hungarian State Railways between Budapest and the Austrian frontier is to be started this year.

## A Tribute To A. F. Choate.

(By Gordon Hill Grahame)

To those of us who knew and loved Arthur F. Choate, his sudden passing has removed something from our lives which added measurably to the pleasure of living.

A lovable Christian gentleman . . . he will be mourned, not only in the community in which he lived, but in scores of home throughout Canada and the United States.

His kindly nature, gentle philosophy and sweet disposition endeared Arthur Choate to all who met him. In the more than thirty years I knew him I never once heard him speak unkindly of, or to, a living soul.

To me his death has an added poignancy—mine is a more personal sorrow. Mr. Choate was on his way to bid me farewell ere he left for Stoney Lake. He collapsed in front of the building in which I work and, from my window, twelve storeys up, I watched his limp form being taken away, not knowing that I witnessed the passing of my oldest—one of my best loved friends.

It won't be quite the same in Stoney, any more, now that Mr. Choate has gone. The lake at the Landing will still be lovely in the summer sun; the trees on the islands just as green—but we will miss the friendly greeting, the hearty handshake, which gave that last added thrill to the joy of arriving at Stoney Lake.

The breeze sighing through the evergreens which make McCracken's so delightful a place will be his requiem; the murmur of the waves, an elegy. God take his soul to a heaven that may be as fair as the spot he loved—and where he was loved so well.

## Thank Offering Meeting Of Norwood Societies

NORWOOD, April 25.—(Examiner Correspondence). — The thankoffering of St. Andrew's Presbyterian W.M.S., T.W.A. and Mission Band was held in the Sunday school room of the church with the auxiliaries well represented.

Rev. A. C. Reeves presided and also gave an interesting address on missionary work, the topic being "Would We Be Blessed" and "Discouragements and Encouragements of Missionary Work." There was a good musical program. Miss H. E. MacNaughton rendered a solo entitled "Thanks Be To God"; a chorus, "Easter Songs Are Ringing", by Y.W.A. girls; a solo by Mrs. N. C. Porter, "Teach Me to Pray"; also a song by the Mission Band children entitled, "Little Fishermen"; a reading, "Omar's Search for a King" was given by Mrs. C. S. Fife.

A hearty vote of thanks was tendered to those who took part in the program and the meeting was brought to a close.

**FRENCH BETTING BOOTHS BUSY**

Because of the large and growing amount of business more urban parimutual street betting booth are being opened in France. Both in Paris and smaller cities the innovation has been a success from the start. On the opening day portable ticket windows installed in the entrances to motion picture theatres in Paris were besieged long before the opening hour by crwods anxious to place hteir bets. At some windows there were spirited scuffles caused by the men's anxiety to lay their bets before closing time. Bets may be placed in the usual multiples of five francs on the day of the race. At present the latest time for placing a bet at one of the street offices is noon in Paris and 11 o'clock outside of the city. An extra hour will be allowed in summer.

**CLEAN HATS.**

Sometimes a very fine sand paper is an efficacious cleaner for felt hats. But it must be used gently and it must be very fine.

# SOUR STOMACH

JUST a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard anti-acid for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain departs. You are happy again in five minutes.

Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids.

Look for the name Phillips'. It is always on the wrapper for your protection. Drugstores everywhere have the 50c bottles.

Made in Canada.

# ASHTON ELECTION TO BE HOT FIGHT

### Entrance of Mosley Party Candidate Gives Campaign Novel Appearance.

### LADY CYNTHIA ACTIVE.

ASHTON-UNDER-LYNE, Lancashire, Apr. 25—(By Thos. T. Champion, C. P. Staff Correspondent) — The by-election in Ashton-Under-Lyne promises to have quite as prominent a place in political history as any of the bitterly-fought contests since the last general elections. The appearance of the first Parliamentary candidate of Sir Oswald Mosley's "New Party" opposing an official Labor and Conservative candidates, gives the campaign an entirely novel appearance.

Polling will take place on Thursday. Allan Young, assistant to Sir Oswald, is the new party candidate, Lt.-Col. J. Broadbent the Conservative and J. W. Gordon, the Labor candidate. The seat is vacant by the death of Arthur Bellamy, Labor member elected in a three-cornered fight with Broadbent and a Liberal in 1929 by a majority of 3,407.

**Elected Beaverbrook**

Ashton-Under-Lyne has its own gallery of picturesque figures of past campaigns. Twenty years ago the 30-year-old, self-made millionaire, Max Aitken, stepped into town from the steamer that had carried him from Canada, stepped from here into the House of Commons, and later stepped into the House of Lords as Lord Beaverbrook.

Later Ashton was rendered lively by Lady De Frece, better known to all the world as Vesta Tilley, possibly the finest of English comediennes not even excepting Marie Lloyd. Vesta Tilley wooed the constituency on behalf of her husband, Sir Walter de Frece—as big a figure in music-hall management as his wife was in the stage world—with sufficient success to secure his election.

In the present campaign Ashton follows its tradition as a "political variety hall" for Lady Cynthia Mosley, who might be called Allan Young's political stepmother is providing the star turn, despite the political abilities of the candidates themselves.

**Lady Cynthia Active**

Lady Cynthia is taking an active part and with rare shrewdness disdains to hide any of the outward elegance of her social status as she moves among the large population of feminine cotton-workers, whose footwear in recent days was the humble clog, whose headgear today often as not is the plaid shawl; and whose intimate conversations abounds with "thee's" and "thou's." Lady Cynthia of course has her own distinction of diction; she will tell the workers of this or that matter being "frightfully important."

From the Conservative camp of Lt.-Col. Broadbent a band of junior imperialists is attempting to provide enlivening quickfire in support of the heavier guns of the veterans.

And the Labor candidate has been fortified my a message from Prime Minister Macdonald—who recently declared war on the Mosley Party—in which Mr. Macdonald declares the Mosley program is merely the old tune of protection set to jazz time to make it appeal to bright young people. The Conservative party has been compelled through the pressure of newspaper supporters to declare that the way to working class prosperity is through taxation of their cupboards, the Prime Minister also says.

# $29.42 REALIZED BY SUNSHINE BAGS

### Women's Auxiliary of St. John's Church, Havelock, Enjoy Social Evening.

TRENT RIVER, April 25.—(Examiner Correspondence.)—The members of the Women's Auxiliary of St. John's church, Havelock, with other members of St. John's parish gathered in the Sunday school room of the church Wednesday evening for a social, the occasion was the receiving of the "sunshine" bags which had been distributed throughout the members at the beginning of the Lenten season and for each sun shine day a copper was to be deposited.

Rev. Mr. Howard was chairman for the meeting and gave a short address and led the community singing taken from the Evening Telegram song sheets which were distributed to each one present. Mrs. Ed Williams, president of the Women's Auxiliary, presided at the organ.

Rev. Mr. Howard referred to the proposed annual summer picnic for the congregation and Sunday school for July 1. A vote was taken and it was decided to hold the picnic at McCutcheon's Landing. Committees for refreshments and transportation were appointed. Rev. Mr. Howard presented the Confirmation certificates to the newly confirmed.

The program for the evening was as follows: Vocal duet, Mrs. Howard and H. Roche; song, "Honeysuckle," Miss Marjorie Blackburn; Rev. Hugh Brown (recently returned from Gaspe' where he spent the past year in charge of a Presbyterian church) was called upon to give an address; dialogue, Miss Dolly and Master Willie Blackburn; Mrs. (Rev.) Howard rendered beautifully the solo, 'May Morning.' Miss Bessie G. French playing the organ accompaniments.

The 'sunshine bags' were opened and counted by Mrs. J. Weymark and Isaac Barlow and Mr. Falkner, the result being $29.42, with a number of bags not yet received.

The ladies served sandwiches, cake and tea and a very pleasant and profitable evening was brought to a close.

# TAX COLLECTOR PRESENTS ROLL

(Continued from Page 1)

ket scales. Mr. Hay had been using these without official permission, he stated. He had been given verbal permission in 1929 by a member of the Council for that year to do so, and had continued to act on this. These scales were in good order and had been inspected. The Council discussed the advisability of continuing to use them as the town scales were in use with the sanction of the Council. This matter was left over, however, for further consideration. Mayor Bygott stated that in connection with this committee, he was going to ask it to provide a length of hose for use at the War Memorial.

Councillor E. C. McKeel for the Fire Committee reported the expenditure for the coming year as amounting to a total of $675.00 The Industrial Committee's expenditure was only $125.00, Councillor H. N. Carr, its chairman, stated

Reports from the Road and Bridge and Police Committees were not heard.

"I had to carry my arm in a sling"

**NEURITIS**

Mr. Wm. Hoyle, Oshawa, Ont., had Neuritis so bad he could not lift his arm to his head. He says: "I tried T-R-C's. Some one recommended it to me by a relative who had used them. From the first dose I had relief, more like Magic. The shoots and twinges, pains left my muscles and shoulder. My arm which had been like a sling is now good for a day's work."

Pain and Stiffness vanish when you use T-R-C's. There are no harmful drugs in them. T-R-C's give you quick and safe relief by actually entering your blood stream and helping drive out poisons located there. Wonderful for Rheumatism, Sciatica (stabbing hip pain), Neuralgia, Lumbago (Lame Back). 50c and $1 at your dealer's. 184

T-R-C's TEMPLETON'S RHEUMATIC CAPSULES

Airmen were ordered not to fly lower than 2,000 feet altitude over Oxford, England, during this year's Oxford-Cambridge boat race.

# Maintenance

*or needed* **NEW MILEAGE**

*...which will your Budget produce?*

When communities standardize on concrete paving, their budgets are spent as every taxpayer wants to see them spent . . . on NEW MILEAGE.

For concrete is permanent and reduces maintenance almost to the disappearing point. Crews lay new roads instead of patching old ones.

Concrete's advantages to the motorist are just as marked. Tests have proved that it reduces fuel consumption, saves tires, retards car depreciation. Its even gritty surface minimizes skidding hazards in all weathers. Its light grey color gives better visibility at night.

Therefore concrete paving means safer, easier, more economical driving. Advocate it and wider highways at every opportunity.

# BAXTER PRINTS ARE EXHIBITED AT ART MEETING

**Women's Art Association Holds Last Studio Function of Season.**

**SKETCH ON BAXTER'S LIFE.**

An exhibition of Baxter Prints, with a talk on their maker, given by Mrs. N. H. Sutton, formed the closing studio function for this season of the Lyceum Women's Art Association. Held at the studios of the Conservatory of Music, yesterday afternoon, with tea served, as usual, the exhibition proved to be a most interesting and informative one, giving a splendid idea of the manner in which George Baxter carried out, with meticulous attention to detail, the art of his craft. The prints ranged in subject from very fine examples of religious type, such as the Christ at the Last Supper, and the well-known Madonna of the Chair, to reproductions of famous galleries in the Old Land, and to such human-interest pictures as that of the late Prince Albert, Consort to Queen Victoria.

The exhibition included also a very fine collection of little oil sketches and pen and ink drawings and cartoons by W. C. Thomson of Ashburnham, showing excellent talent in every line, with much interest in the cartoons of well-known people and the clever pen and ink drawings.

There were also on view the pictures sent by five local artists, members of the Association, to the recent exhibition of W.A.A. branches held in Toronto. In these, Mrs. T. Cruikshank had a view of the Normal School dome and a very interesting painting of the main portal of St. Peter's Cathedral; Miss F. Hatton's collection included a striking ship scene; Miss L. Elliott's pictures were reproductions of a cottage at Eaglemount, Stoney Lake, and the Smith Street Bridge; Miss Cameron Edwards had a garden scene and a sketch of Stoney Lake beauty, and Miss Mamie L. McCarthy's two pictures were local scenes also: a snow scene from Park street, and a pretty colored view of the Hunter Street Bridge, with the Quaker Oats building at the side.

Mrs. Sutton's paper sketched briefly and very entertainingly the life and work of George Baxter, born in Surrey, England, in 1804. He was the son of a printer, wood engraver and publisher and carried on in his father's business for a time, until he went to London, where he married the niece of the proprietor of a large publishing company and set up in business for himself.

"By the study of how those primitive presses had to be manipulated, and of the long and various processes the work had to go through, it is easy to realize some of the characteristics of the man, his artistic ability, his patience and his perseverance toward his own ideal. His portrait helps us in this, showing us his fine, straight mouth, strong brow and firm chin, softened by the kindly look of the eyes and the niceness of the dress. And when we read that he was sincerely interested so far as to be a member of the London Missionary Society and a great friend of its leader, we get a fairly enlightening view of the man, George Baxter.

"His originality far exceeded that of his predecessors, for while he also copied pictures, he was the creator of his subjects. 'One can say that the hand of the artist, both in engraving and coloring, is seen in every line of his work.—There is just that something in the harmony and contrast of the colors, of placing that particular shade or tint as if Nature had conspired to place it there.—The beholder is impressed with the idea of perfection.' This is the opinion of one authority."

Mrs. Sutton went on to mention a few points in the process of achieving this perfection in the art of Baxter prints, whose creator died in the year of 1867. The speaker also mentioned the fine collection of Baxter prints, one of the finest on this Continent, owned by Walter H. Millen of Standelish all, in Hull, Quebec. Out of the 370 known prints, this collection now lacks only 15, and contains a specimen of the exquisite butterfly made in 1829, Baxter's first colored work, now valued at £125 and very rare.

# PRINCESS MARY 34 YEARS TO-DAY

**Messages of Congratulation Pour in for King's Only Daughter.**

**ALMOST NAMED DIAMOND.**

LONDON, April 25 (A.P.).—Princess Mary, Countess of Harewood, the only daughter among the King's five children, was 34 years old to-day.

From early morning messages of congratulation poured into Chesterfield House, Mayfair, where she and her husband, known formerly as the Viscount Lascelles but recently raised to an Earldom, live.

Among the messages were telegrams from her father and mother at Windsor, and her two brothers who radioed from aboard the liner Arlanza bringing them from South America before they landed to-day at Lisbon.

It was recalled in several London papers to-day that Princess Mary was almost named Diamond; Queen Victoria, her grandmother, thus wishing to commemorate 1897, the year of Mary's birth, but her daddy, then the Duke of York, objected.

Aside from her two sons the Princess is most interested in cattle breeding, and her Guernsey herd is one of the best in England.

**Front Row—Robinson; Horsman; Randle; Crosbie; Firth; Boaton.**

# FATHER AND SONS OF MARK STREET ADDRESSED BY REV. DR. McLEAN

**First Annual Banquet of Ashburnham United Congregation Great Success.**

**DADS WERE IDEAL SONS.**

"Play Ball" was the interesting subject of an address given by Rev. Dr. C. V. McLean, of St. Andrew's Church at the first annual Father and Son Banquet, at Mark Street United Church Hall last evening. The banquet was under the auspices of the A.T.S. Tuxis Square, and was well attended by boys from 8 to 88 years of age.

Following the sumptuous dinner given by the ladies of the Church, Jim McClenaghan, Boys' Secretary of the Y.M.C.A. led the sing-song. J. C. Ellis acted as toastmaster, A. W. Gamble in a few well chosen words introduced the even's guests, among whom was the Minister of Education in the Boys' Parliament, John Hunter, and welcome fathers and sons to the gathering. J. Welch proposed the toast to "The Church" by quoting an appropriate piece of poetry, and Leonard Agnew responded to it in a similar manner. Two accordion solos were given by W. Woodgate, and the numbers proved popular to father and sons alike.

Floyd Alton gave the toast to "Our Dads" in a pleasing manner by quoting a famous poem of Edgar Guest. The response to this was made by W. J. Smith, who also read a poem by the same author. The toast to "Our Lads" was proposed by Thomas Henry and Merton Pearse responded to it. A baloon stunt at this point proved very amusing to everyone of the various tables. Jim McClenaghan introduced the guest speaker of the evening, Rev. Dr. C. V. McLean, by giving a resume of his life-history and attainments in the realm of education and ministerial work.

**Once Ideal Sons.**

"One would think that Nature could keep the father and son together," declared Dr. McLean. "But not so entirely; and it is for this reason that many societies in the Province are holding Father and Son banquets, to bring about a closer relationship between the two. We, as fathers, are in the habit of painting ourselves as ideal sons, and all this appeals to our own children as being unnatural. We also lack the imagination which will lead us to find out and be interested in what the boy likes. A banquet of this type breaks down these barriers."

Dr. McLean described the scene of a baseball game in a large American stadium and brought its application into the case of real life. The key men of the team were described as being the batter and the pitcher, so that when fans yell "play ball!" they mean they want to know the names of those playing in these two position. This is the same in life. There are men who are leaders in their class, and everyone is therefore anxious to know them.

"At this time of year," the speaker said, "trainers are trying out the raw material. The new recruits prove nervous, but the anxious moments are when they are being tried out. Will they make it or not? There is the same testing process in the game of life. Is the boy going to hit the plate, or hit out? Loyalty expels fear. When the batting giant steps up to the plate everyone cheers. The only success in the fans' eyes is a home run. So in life we must make a home run, must make life successful by doing one thing well."

"When the game is over, the onlookers want to see the manager who has been hidden in the dug-out during the game. He is the lion of the hour as he has expended much energy in the organization and training of his team. In life boys must have a similar manager, their dad, who will do his best to develop the son and train him in the best principles. When our game of life is over, may we receive the cheers of the crowds and be a credit to the Great Head Coach, God."

Thanks were extended to the ladies, for their providing the the supper, by John Hunter. The banquet was brought to a close by the singing of "Blest be the tie that binds" and the benediction.

# U. S. WILL DEPORT MANY CANADIANS

**New England Official States 30,000 Not Paying Tax Will Be Affected.**

**NURSES COME NEXT.**

MONTREAL, Que., April 25 (C. P.). — The Montreal Gazette, in a special despatch from Boston to-day quotes an interview with Mrs. Anna C. M. Tillinghast, United States Immigration Commissioner for New England, in which it is stated that thousands of Canadians residing in the New England States who have not complied with the requirements of becoming permanent residents and paid $18.00 tax ($10.00 for a visa and $8.00 for a head tax) will certainly be returned to Canada before the present campaign against aliens is ended.

Thirty thousand Canadians will be affected, the despatch says, of whom 90 per cent. are of French descent, chiefly from Quebec Province. Many thousands of Canadians living in the States in question, while still Canadian subjects, have paid their tax and will not be affected by the sweeping deportations.

Canadian seasonal workers, such as loggers and ice crews in the winter, fishermen and farmers in the summer, will find it increasingly difficult to cross the border in search of work, the despatch says.

Another class of Canadians being investigated is the nursing profession, it is added.

# FIGHT RENEWED OVER HONDURAS

**Rebels Capture and Sack Undefended Towns of Pemienta and Vilanueva.**

**FRONT ENLARGED.**

TEGUCIGALPA, Honduras, April 25 (C.P.).—Word of renewed battle with rebel troops in the vicinity of San Pedro Sula, key-point on the railway between Tegucigalpa and the coast, was expected here to-day.

General Jose Maria Reina, leading an army of Government troops against a detachment of 500 rebels allegedly under General Ferrara near Charnigua, south-west of San Pedro Sula, was expected to make contact with them at any time.

The newspaper El Pueblo to-day said that the undefended towns of Pimienta and Villaneuva, in the neighborhood of San Pedro Sula, had fallen and been sacked by 400 rebel troops under General Roman Diaz.

A Government decree published to-day placed all national funds at the disposal of an executive committee for the purpose of waging war against the rebel forces.

**GINGERBREAD MEN.**

Hot gingerbread men, served with whipped cream, make nice desserts for children's parties. Be sure to put in the raisin buttons and the sliced features or children will be disappointed.

# POSTAL DELIVERY STARTS ON MAY 1

**Claraday to Get a Postal Delivery Service—Extra Carrier Employed.**

**REDIRECT MAIL.**

Claraday, at the south end of the city will receive a postal delivery service beginning with the 1st of May according to advice received from the Post Office Department in Ottawa. An extra mail carrier has been employed, and the district will form a part of Peterborough for postal services. Residents of this area are asked to have their mail directed to Street and Number, Peterborough, instead of to Clariday, P. O., as before.

This service is for streets which have paved sidewalks, numbered houses and letter slots in the doors. The following are the streets which will receive this service: Monaghan Road, from Lansdowne to Edison; Edison Avenue; Park Street, from Lansdowne to King George; King George Street; Lock Street; Wilson Avenue; Gordon Street; Fradette Street; Braidwood Avenue, from Park to the river; McGill Street; Albertus Street; Morrow Street; Sherbourne Street. The south side of aLnsdowne Street, however, will not receive the service as yet, as there is no sidewalk on this side.

The proposed extension of the delivery service was taken up with E. A. Peck, M. P. for Peterborough, and in a recent letter he promised that the matter would be taken up immediately. Since the necessary authority has been obtained from the Postal Department for an additional letter carrier to extend the service of the city.

It has been intimated that any other outlying section of the city will receive a similar service when the necessary paving is accomplished, the houses numbered and letter slots cut in the doors.

Hawaii has no unemployment among agricultural workers.

By giving birth to triplets a peasant near Saraejevo, Jugioslavia, established the record of bearing nine children in four years, she also having had three sets of twins in that time, and all the nine are alive and healthy.

# ARTICLES OF INTEREST TO THE FARMER

## SELECTION OF CROPS FOR CASH WILL BE THE ONTARIO FARMERS' BIGGEST PROBLEM THIS SEASON

Old Standbys Not Sufficient to Meet Taxes, Rent and Mortgage Interest.

POSSIBILITIES OUTLINED.

Investigate Market Possibilities With Great Care Before Going Further.

Without a doubt the biggest problem facing the average farmer this season is that of raising enough quick cash to meet fixed charges, such as mortgage payments, taxes, notes, and other disturbing items, not to mention household bills, which must be paid even if other things can be allowed to slide until times improve. The old standbys, wheat and potatoes, have not been sufficient in recent years to hold the fort and something additional is needed.

Of course in certain limited areas such specialities as sugar beets, tobacco, early vegetables, beans, canning crops and others have been depended upon but these are of little benefit to the general farmer operating in the average district and even where they can be reduced returns have not been all that was desired in late years.

Only the foolhardy would attempt the role of prophet in a definite way just now when markets are so uncertain in farm operations particularly, where soil, climate and markets vary almost with every mile the job of predicting what will happen six months or a year hence would be hazardous even in the best of times. But a general summary of cash crops can be attempted and keeping in mind local conditions it might be worthwhile for the individual to look into some of these.

**Buckwheat**

In recent years one of the best paying general crops has been buckwheat. In a good season 25 bushels per acre is quite common which at sixty cents gives a gross return of $15 per acre. This of course is not a gold mine, but as there is little labor involved it is decidedly better than lots of other things. With this grain as with barley, there is a splendid opportunity to clean up the land and if the market is off the stuff makes good feed.

The last observation also holds good for peas. Though not very profitable as a cash proposition recently, this crop makes splendid feed. If one has the right type of land, watches the market and sells at the right time, potatoes are worth looking into. High quality table turnips have found a ready market at very fair prices and probably might be more widely grown. Here it is most important to have the right variety, suitable soil and to put on the market in the best condition, which does not mean that a big field turnip is what is wanted. Turnips like buckwheat, both of which are sown fairly late, are splendid things for cleaning up the land.

In southwestern Ontario the production of more corn for seed purposes would be worth considering. Good quality can be grown there and in the early varieties particularly there is no reason why the total Canadian demand could not be filled from the domestic supply.

**Biennials**

Getting into the biennials, that is crops sown this year for maximum production in 1932 there is a long list of clovers and grasses. Clean fields and high quality, clean seed is most essential here as the longer a thing stays down the greater is the loss where there are weeds.

Only once in several years is there anything like enough red clover seed produced in this country to meet the domestic demand and even in seasons like two years ago when the crop was large there is no difficulty in disposing of it. At four or five bushels per acre this is very profitable though of course such yields while possible are not always the case. Even with a bushel per acre, however, and a crop of hay, red clover is worth looking into.

Alsike growing has been hard hit by the raise in the United States tariff and the restriction of the European market owing to new countries starting into production since the war, but where it does well, and the crop is clean it usually pays fairly well. Like sweet clover, of course, where the export market is also very limited seed production can be overdone though for this clover there is a steadily growing demand and while prices are low the yield is much higher than with most others.

Alfalfa exports are also largely confined to the United States market and there is a stiff tariff to overcome but relatively speaking, returns when grown for seed were most satisfactory last year, and at moderate prices it will always be in demand.

**Timothy Good Bet**

Timothy is certainly worth considering though in the past much of the Canadian grown seed has not been clean enough to be satisfactory and prices have been low. However, it seems to be getting scarcer and if a field looks to be in good shape this season it might be good business to save it for seed. With all these too, on has the alternative and with many, the additional advantage of a hay crop which can usually be exchanged for that much desired ready cash, the need of which was emphasized in the opening paragraph.

One word of caution and we are through. With everything there is always a proper time to sell and in the last named group particularly, this is usually as soon as produced in the fall, when buying is active. True we hear of those who held their seed over until spring and made money but we do not hear of the other party, much more numerous, who is still trying to sell stuff produced last fall, a year ago and in some cases back in 1929 and 1928. This was worth money then but has been depreciating ever since. Four times out of five, in the seed business at any rate, the crop sells to best advantage in the fall.

This "Tweed" Steel
STONE BOAT $12.00
Cash with Order
Delivered free to your station. Runs easily; very durable. Three steel runners underneath give added strength; won't rot like wood. Made of 3/16" boiler plate; angle iron around edge keeps stones from falling off. If not as represented, return and get your money back.
The STEEL TROUGH & MACHINE CO., Tweed - - Ont. Ltd.

## Condensed Milk; How It Is Made

**What is commonly known as "Condensed Milk" is sweetened condensed milk. Evaporated milk is similar only unsweetened. Condensed milk is usually made by heating the fresh milk, which must be of high quality, to a temperature of 180 to 200 degrees F., which destroys most of the bacteria, yeast, moulds, and other ferments that may have got into the milk, and facilitates further processing. Cane sugar is then added in the proportion of about 18 to 20 lbs. to every 100 lbs. of milk. When the sugar is dissolved, the mixture is run into vacuum pans and evaporated at a temperature of 130 to 150 degrees, until the desired concentrate is reached. It is then cooled, and run into cans. It is not sterilized, but is preserved by the high sugar content—about 42 to 45 per cent.**

## 7,726 COMBINES USED ON PRAIRIES

Savings in Labor Has Reduced Cost of Growing Crops Greatly.

85,000 TRACTORS IN USE.

The annual report of the Director of Dominion Experimental Farms reviewing the trend of the times in respect to crop production includes the following interesting observations:—

In recent years there has been an enormous development in the use of power machinery and larger farm implements in the Prairie Provinces. It may be of interest to know that in the three Prairie Provinces, in 1929, there were reported to be over 85,000 tractors. The introduction of the combine method of harvesting grain has also reduced the time required and the cost of harvesting grain. Starting from one machine which was introduced and experimented with on the Dominion Experimental Station at Swift Surrent, Sask., in 1922, there are now located in the three provinces a total of 7,726 combines.

The introduction of new types of wide tillage and seeding implements, the use of larger-horse outfits or tractors, and the use of the combine have materially reduced the hours of manual labor required to produce grain. It is very important to study the costs of these operations and the yields under the various tillage practices to learn their effectiveness in maintaining yields. With the newer methods the man labor required may be reduced to from 3 to 2 hours per acre, while, with the older methods at least three times this amount of labor would be required. With prevailing methods in Eastern Canada the hours of man labor required to produce an acre of grain would be six to eight times the amount employed under the newer prairie methods.

These savings in labor have reduced the cost of growing crops. The use of the combine alone, as compared to the binder and thresher method, has effected a saving of approximately 9 cents per bushel on a 20-bushel crop. This saving in cost is undoubtedly of great material advantage to the individual but of even greater significance is the fact that the reduction in the amount of man labor required per acre has enabled one man to handle a very much larger acreage than was formerly possible.

**CHICAGO GRAIN**

CHICAGO, April 25. — Extensive stoploss selling of grain futures, corn in particular, forced corn and oats down to new low price records yesterday. Wheat and rye were also depressed. Slackening of shipping demand for corn was an immediate bearish influence, the marked effect of which was intensified by developments outside the grain trade tending, at least temporarily, to make buying power in cereals thin.

Corn closed nervous, ¼c to 1¼c lower, wheat 1c down to ¼c up, oats ⅜c to ⅝c off, and provisions varying from 5c setback to 10c advance.

## SWARM CONTROL MEANS BIG BOOST IN CROP OF HONEY

Before Extractor Invented Only Best Hives Were Wintered.

COMBS CRUSHED, STRAINED.

Natural Swarming Now Prevented Yet Allowance For Increase is Made.

**(Experimental Farms Note)**

In years gone by the beekeeper measured his success by the number of swarms given off by his apiary, and it was these swarms that were depended upon to yield the surplus honey. Before the advent of the honey extractor the heaviest of the swarms were carefully selected in the fall of the year, the bees were then killed by sulphur fumes and the honey extracted from the combs by first crushing them and then straining. It would appear that this practice gave rise to the old doggerel.

"A swarm of bees in May is worth a load of hay,
A swarm of bees in June is worth a silver spoon,
A swarm of bees in July is not worth a fly."

**Early Swarms Best**

The early swarms were the best for they would give more honey and possibly other swarms. Swarming usually occurs just before or during a heavy honey flow and the swarm is mostly made up the field bees of the colony. A certain amount of time is wasted by the bees in making the necessary preparations for swarming and there is almost an entire cessation of honey gathering from the time the swarm issues until it is again housed in a new home, therefore, if the swarm issues when there is a honey flow of eight to ten pounds per day the total crop of the colony will be greatly reduced because of swarming.

Furthermore, swarms sometimes have the habit of absconding for parts unkown and when this occurs both bees and crop are lost. Swarm control is practiced because it has been proven that if the bees can be kept contentedly gathering nectar and not wasting time in swarming, larger crops of honey will be obtained. The Bee Division of the Central Experimental Farm at Ottawa have devised methods whereby natural swarming can be prevented and which at the same time allows for controlled increase in the number of colonies. Write for Bulletin No. 33, New Series, if you are interested.

## GRAIN EXHIBITION IS DRAWING CARD

Fourteen Countries of 68 on List Already Accepted Invitation by Canada.

BE HELD IN REGINA.

Fourteen countries have already accepted Canada's invitation to take part in the World Grain Exhibition and Conference to be held in Regina from July to August 6, 1932. These facts appear on a large desk blotter received by the local Chamber of Commerce. On the blotter is a solid black map of the world, with convergent arrows from 68 countries in four quarters of the globe pointing to a large white circle—the city of Regina.

**The List**

These 68 countries have been sent invitations to exhibit and take part in the Conference. So far the following countries have signified their intention of attending: Portugal, Belgium, Netherlands, Switzerland, Italy, Czecho-Slovakia, Jugo-Slavia, Poland, Estonia, India, Siam, New Zealand, Peru and Guatemala. This still leaves important countries like Great Britain, Australia, South Africa, United States, France, Germany, Russia and the Argentine undecided as yet. It is the opinion of the authorities, however, that some 50 countries will finally take part in the Exhibition.

A membership card in the World Grain Exhibition and Conference organization may be obtained at any time now, and it entitles the holder to admission to the Exhibition, to all sessions of the Conference, to all official entertainment and to an appropriately bound copy of the complete official reports.

## PETERBOROUGH MARKET QUOTATIONS

**RETAIL**

**Fruits.**

Oranges, 15-75c dozen; grapefruit, 5 for 25c, 2 for 25c; pineapples, 25-35c each; Emperor grapes, 35c lb.; apples, 40c-1.00 peck; dates, 2 lbs. 25c; rhubarb, 10c bunch; prunes 10-25c lb.; bananas, 25-40c dozen; lemons, 20-30c dozen; cocoanuts, 5c and 10c each; honeydew, 40-60c; pears, 50-60c dozen; cooking figs, 2 lbs. 25c; apricots, 25c lb.; strawberries, 30c basket; South African peaches, 2 for 25c.

**Vegetables.**

Potatoes, 15-20c peck, 75c bag; carrots, 15c bunch; green onions, 5c bunch; cabbages, 6c lb.; red cabbage, 5c each; Canadian cabbage, 5c each; leaf lettuce, 5-10c unch; spinach, 2 lbs. 25c; cucumbers, 20-25c each; cauliflower, 25-35c; parsnips, 40c peck; asparagus, 25c bunch sweet potatoes, 2 lbs. 25c; cooking onions, 7 lbs. 25c; Spanish onions, 3 lbs., 25c; head lettuce, 10-15c; parsley, 5c bunch; tomatoes, 20c lb.; celery, 10-35c; green peppers, 10c each; mushrooms, 70c lb.; sage and savory, 5c bunch; turnips, 20c peck; radishes, 5c bunch.

**Nuts.**

Mixed, 25c lb.; shelled walnuts, 35-60c lb.; shelled almonds, 45c lb.; walnuts, 25c lb.; peanuts, 15-25c lb.; filberts, 25c lb.; almonds, 25c lb.; new Brazil nuts, 25c lb.

**Dairy Products.**

Creamery butter, 36c lb.; lard, 17-20c lb.; eggs, 20-25c dozen; new cheese, 23c lb.; clover honey, 5-lb. pail, 53c; amber honey, 1-lb pail, 39c; comb honey (clover), 20-25c; comb honey (amber), 10-15c; dairy butter, 32c lb.; shortening, 15c lb.

**Fish.**

Salmon, 20-25c lb.; halibut, 20-30c lb.; finnan haddie, 15-25c lb; pickerel, 30c lb.; lobster, ¼ lb. 25c, ½ lb. tin, 45c; whitefish, 15c lb.; fillet haddie, 20c lb.; fresh and smoked fillets, 20-25c lb.; flounders, 15c lb; oysters, 70c pint; shrimps, ½ lb tin, 25c.

**Meats.**

Beef, 10-30c lb.; veal, 15-40c lb.; bacon, 25-45c lb.; chicken, 30-35c lb.; turkey, 35c lb.; yearling lamb, 15-35c lb.; spring lamb, 50-55c lb.; pork, 18-35c lb.; ham, 23c lb; sausage, 20c lb.

**WHOLESALE.**

**Flour.**

Bread flour, 24-lb. bag, 79-89c; pastry flour, 24-lb. bag, 59-79c. 98-lb. sack bread flour, $3.25.

**Grain.**

Fall wheat, 67c bushel; spring wheat, 60c; oats, 27c; barley, 62c; peas, $1; rye, 40c; buckwheat, 50c; alsike, $6 bushel.

**Hides and Wool.**

Cow hides, 2-3c lb.; horse hides, $1.50-$1.75 each; veal skins, 6c lb; lamb skins, 15-25c each

Wool, fine, medium, and coarse, 8c lb.; rejects, 5c lb.

**Hogs.**

Live hogs, bacon, $7.75 cwt., and $1 a hog over for selects; dressed hogs, head on, $13.50; head off, $14.50.

**Hay, Bran, Etc.**

Hay, baled, $12-$14 ton; straw, $8-$9 ton; bran, $22 ton; shorts, $24

## COWS HAVE LIKES AND DISLIKES IN FOOD SAME AS HUMAN BEINGS

Find Proper Quantity of Each Cow and Mix Flavors to Tickle Appetites.

MUCH SALT REQUIRED.

By Dr. L. D. LeGear, V.S.

Every mother who has prepared meals for her children knows how difficult it is to please the little ones. It takes plenty of coaxing and sometimes constant threatening to get children to eat what is good for them. Even adults will take a dislike to certain foods and refuse to eat them.

The owner of a dairy herd should realize that cows too have different tastes and appetites the same as people. Feeds that will be gobbled up freely by some cows will not be touched by others. Like children, however, cows can be taught to like certain things even after they refuse to eat them at first.

**Tempt Appetites**

I have stressed in previous articles the necessity of proper combinations of food and the quantities necessary for the maximum production of milk. Therefore, every attempt should be made to tempt the cow's appetite so that she may eat all that is put before her.

Frequently, molasses is mixed with feeds to induce the cows to eat. It is quite desirable to have in the diet a feed that contains juices similar to the juices of pasture grass. Silage is one of them, and wet beet pulp another. Because of the nature of the digestive system of the cow, bulk is important. The more common bulky grain foods are wheat bran, ground oats, and corn and cob meal. In mixing a grain ration so that it will have both bulk and an appealing flavor usually three or four grains are mixed together. In the case of cows that are in the midst of heavy production a still greater variety in the diet is recommended.

**Effects of Food**

The effect of certain foods should be known to every farmer. We know, for instance, that cottonseed meal is constipating, while linseed meal has the opposite effect. It is important that neither one be fed in too great quantities. Three or four pounds a day is the maximum. Silage, clover hay, and alfalfa hay are laxative. On the other hand, timothy hay, oat straw, and corn stover are constipating. In winter this should be watched carefully. If the roughages you are using are constipating, the grain mixture should have some sort of a laxative content.

Minerals are very important. Dairy cows and all animals, except those which eat meat, require a large amount of salt. It should be available at all times to dairy cattle. If the salt is given to them with the grain the proper proportion is about one pound to each hundred pounds of grain mixture.

The grinding of grain may help to digest it, especially where there are seeds. Sometimes as high as 20% of the grain seeds will pass through the digestive tract of the cow untouched, unless it is ground. The roughages are easier to feed when they are cut up. The cow will eat more of it if it is in small pieces, although the cutting does not have any particular effect on digestion. Sometimes grain is soaked before it is fed. A bran mash made of wheat bran mixed with warm water is frequently given to cows especially before and after freshening.

**Interesting Experiment**

An interesting two-year experiment is being conducted at Cornell University for the purpose of finding the protein content of various grain mixtures. Three lots of cows are being used and they are being fed rations of 16%, 20% and 24% protein, respectively. It might be interesting to know the proportions of feed that are being used in this test. The hay for each animal is fed at the rate of one pound for every one hundred pounds of live weight. Silage is at the rate of three pounds to every one hundred pounds of live weight. Grain is at the rate of one pound to every three and one-half pounds (pints) of milk.

But having determined the proper quantities of food, each cow should have, be sure she eats all you give her. If she does not clean up her box it may not be a sign of overfeeding but an indication that the feed is not palatable. You will, therefore, have to do as mothers do for their children, mix in flavors that will tickle the appetite.

## Gov't Specifications of Screenings

**The Seed Branch of the Dominion Department of Agriculture has authorized the following specifications for screenings:**

**First: "No. 1 Feed Screenings"—consisting of broken and shrunken wheat mixed with wild buckwheat and which may not contain more than 3 per cent by weight of small valueless weed seeds.**

**Second: "Mixed Feed Oats"—consisting largely of wild oats but with small percentage of domestic oats and barley.**

**Third: "Refuse Screenings"—which are made up of chaff and noxious weed seeds and so are unsuitable for feed purposes.**

For Pleasure and Profit Sow

Steele, Briggs' Seeds. Specially selected for purity and germination and most suitable for Canadian Gardens. To grow the best—sow the best. For bigger, better crops sow

## Pastor Would Change Naturalization Act

WASHINGTON, D.C., April 25 (C.P.)—Dr. Robert Norwood, a former Nova Scotian, now Pastor of St. Bartholomew's Church, New York, and other leading Protestant clergymen of the United States, have moved for an interpretation of the Naturalization Act which would not bar from citizenship in the United States those who believe that "War as a method of settling international dispute is incompatible with Christian teaching."

The clergymen have filed a brief with the Supreme Court, asking such interpretation in the case of Marie Averil Bland, a Canadian who served as a nurse in the Great War. Miss Bland, applying for citizenship papers, said, "According to the ethics of Christ, I would not conscientiously bear arms."

Her application was denied as was also the application of Professor Kenneth MacIntosh, another Canadian, who reserved for himself the right to judge the justice of a war.

## PROPER FEEDING IS CHIEF POINT IN CHICK RAISING

Too Much Care Cannot Be Taken During Early Days of Existence.

KEEP CHICKS GROWING.

First Meal of Pinhead Oatmeal Given Shortly After Removal to Brooder.

By Dr. L. D. LeGear, V.S.

Business took me into a small country court room recently. As I entered, a convicted chicken thief was just receiving sentence: "Thirteen days on the rock pile, Henry," drawled the judge and continued, "and when you get home again, Henry, get yourself some little chickens—honestly—and try making big ones out of little ones for a while, instead of always having to make little ones out of big ones on the county rock pile the way you've been doing lately."

**Opportunities Lost**

The soundness of this homely advice struck me very forcibly; I couldn't help thinking how much more profitable the poultry business would be if every one engaged in it could realize how many thousands of dollars are lost every year because poultry raisers generally are not doing all they should in the way of "making big ones out of little ones."

Over 20 years ago, I adopted a plan of feeding young chicks which proved so successful that I have continued it without change ever since. Many have adopted it, tried all sorts of variations to it and have revolved all around it in various ways. Invariably, however, they return again to my original system. I know that many can profit by adopting my method, so I shall describe it as fully as space will permit. I do not claim this is the best method, for there is no best one. If your present method gives the desired results, do not change.

A great many are now successfully feeding an "all mash" ration from the start to maturity; and not feeding any whole or cracked grain at all. Many others successfully start their baby chicks on a mash "starter feed" and after two weeks supplement it with commercial chick grain, etc.

**The Diet**

My method is quite different. When my chicks are about 48 hours old, I take them out of the incubator and put them into the brooder room that is warm, thoroughly cleaned and disinfected. The temperature under the hover should be close to 100 degrees, and the room should not be too cold. I give them at this time fresh buttermilk or fresh clabermilk in clean vessels that are protected so they cannot get into the milk with their feet. I also provide them with water, with chick tablets dissolved in it, in clean vessels protected in the same way. I also give them baby chick grit, and charcoal and keep this before them at all times.

A few hours later I give them their first feed which is pinhead (steel cut) oatmeal. This is the same kind of oatmeal our mothers used to make mush out of when we (the older of us) were young. It can still be secured in all the larger cities. Rolled oats are too large to feed at this time unless broken up. I spread papers on the floor near the hovers and put the oatmeal on the papers. I see that all the chicks get on the paper and they are soon all eating. I leave this before them for about ten minutes.

The second feed may consist of either commercial chick grain or oatmeal. After the first day and for the first ten days I mix one part of oatmeal and two parts chick grain and feed what they will clean up in about fifteen minutes, every three hours at 6, 9, 12, 3 and 6 o'clock. Milk as well as water should be kept before them all the time. Also tender grass or other green food should be provided every day. If milk is not available, one hard boiled egg should be ground up fine and fed to each 25 chicks each day.

**Place Grain in Litter**

I keep clean chaff or short cut straw on the floor of the brooder room and after the chicks are 4 or 5 days old, I scatter all their grain feed in the litter and make them scratch for it. During the second week I start feeding a dry mash made by mixing equal parts wheat bran, yellow corn meal wheat middlings, oatmeal and if no milk is being fed, I add 10 per cent of good grade sifted meat scraps to the mash. For about a week I give them in hoppers at 9 and 3 o'clock each day what they will eat of this mash in a half hour. This, of course, is fed dry.

When the chicks are about two weeks old, this dry mash can be kept before them all the time in hoppers. When I begin feeding the above mash, I discontinue the 9 and 3 o'clock grain feed and feed grain three times each day. Also when I begin giving the dry mash I leave the oatmeal out of the grain and give chick grain only.

From the third to the sixth week, I continue feeding baby chicks scratch grain in litter morning, noon and night, gradually increasing the amount, but never giving them more than can be cleaned up in 15 minutes. At all times, keep before them mash, grit and charcoal. When six weeks old, a crumbly wet mash can be fed in troughs at noon, only what they will clean up in fifteen minutes, made by wetting the dry mash with milk, and leave off the noonday grain feed.

**Feed Whole Wheat**

Beginning with the sixth week, I start feeding whole wheat, cracked corn and milo maize instead of fine chick grain or mix them together. Chicks now may eat whole sprouted oats and can also handle medium size grit and charcoal. Schedule and system of feeding remains as before, gradually increasing ration until the birds approach maturity. Then they may have the rations intended for laying pullets and hens or breeding males.

It is most important to keep chicks growing every minute. That is what this schedule is intended to do and it will succeed if given a fair chance. You cannot raise chicks successfully, however, without constant attention to detail—neglect will never do it.

## What Fresh Milk Has to Go Through Before It Comes to You "Evaporated"

**Evaporated milk is made by taking fresh milk, of a high quality, heating it to a temperature near the boiling point, and evaporating it in a vacuum until the ratio is reached of about two and one half parts of fresh milk, to one part of the finished product. It is then placed in cans and sterilized by subjecting the cans to steam under pressure. The temperature must be high enough and maintained long enough to ensure practical sterility and to give the evaporated milk sufficient body to prevent separation of the butter fat in subsequent transportation and storage. A temperature of 226 to 240 degrees F., for 30 to 50 minutes is commonly used. Evaporated milk, if used when the can is first opened, is practically free from germ life, and is highly digestible. In fact the digestibility of both the fat and casein is probably increased by the exposure of the milk sugar to as high a temperature as is used in this process. The butter fat, milk, sugar, and mineral contents are not appreciably altered by condensation. The change made in the form of the mineral content of milk through heating has not been found to cause any appreciable change or disadvantage to the child consumer.**

## PLACING ROWS NORTH AND SOUTH BEST POLICY IN SMALL GARDENS

Good Economy to Alternate Rows of Early and Late Vegetables.

PLANT SWEET PEAS EARLY.

In some parts of Canada the fruit plantings can now be made. In the small vegetable garden it is advisable to run the rows north and south so that there will be an even distribution of light. And these can be placed as close as twelve inches apart, in the case of small vegetables such as carrots, lettuce and spinach, and about eighteen inches for taller stuff like tomatoes and corn, and the vines like melons and cucumbers.

It is good economy to alternate rows of early and late vegetables. Spinach and lettuce are planted between beans, carrots, corn and the later things, which do not require full room until the first named are out of the way. The leafy vegetables such as spinach and lettuce, as well as the radish and the early peas, go in first. These are followed by the second planting of the first named and also the first of the beets, carrots, the main planting of peas, and possibly some beans and corn, ten days to a fortnight later.

An application of some quickly available Nitrate fertilizer, a scant handful to about every fifteen feet of row at the time of planting, is advisable. This is best applied dissolved in a gallon of water, and in any case commercial fertilizer should not be allowed to come into contact with the seed but should be placed an inch or two below or to one side of it.

Among the flowers those which usually seed themselves such as cosmos and calendulas can be planted just as soon as the ground is ready, and this is also the proper time to get in sweet peas. Indeed, to be satisfactory, sweet peas must be planted early and they do best in deep, open soil containing plenty of rotted vegetable material into which they send down their roots deeply in order to remain cool during the warm weather.

## Poultry Keeping Grows in Canada

**Poultry keeping is on the increase in Canada. The total number of poultry on the farms in the Dominion at the end of last year was estimated at 60,795,000 of which 56,247,000 were hens and chickens; 2,399,000 turkeys; 1,160,000 geese and 989,000 ducks. The value of all these birds is placed at $34,852,000. Two years ago the total number of poultry was 53,779,000. Poultry are successfully raised commercially in all of the provinces of Canada. The principal centre of the industry is the Province of Ontario.**

## CLUB DANCE.

During Social Evening Mr. and Mrs. P. McGuire Are Presented Electric Clock.

STIRLING, April 25.—(Examiner Correspondence).—The Young Men's Club of Stirling gave a dance on Wednesday evening to honor Mr. and Mrs. Percy McGuire, who are leaving for Belleville.

The four-piece orchestra directed by Charlie Allen furnished splendid music. About 70 people attended and a number of novelties were introduced during the evening.

Mr. and Mrs. McGuire were presented with a beautiful electric clock. Short addresses were given by Ray Atkin, Roger Meiklejohn, Joe Wilson and A. E. Dobbie.

## Dr. Thomson Addresses Sunshine Mission Band

HASTINGS, April 25.—(Examiner Correspondence.)—The Sunshine Mission Band of St. Andrew's Presbyterian church held their regular meeting in the school room of the church.

Dr. Thomas, pastor of the church, who addressed the children, took as his text, "Lay up for yourself treasures in heaven," taken from the first part of the golden text.

The meeting opened by singing "Jesus Loves Me," followed by prayer by Dr. Thomson; Scripture reading by Keitha Mouncey; recitation by Mabel Killingbeck. Mrs. Fleming read the Easter message from Mrs. J. W. Dill from Ambuh, India to the Mission Band, who sent their offerings of 5c each to the Abey Home for the Bhil Babus. The very enjoyable meeting was brought to a close by singing 'Do No Sinful Action.' Benediction.

Installment buying has been introduced into Yugoslavia.

Pratt-Fed Chicks
—the Future Egg-Makers of Canada

The average loss of Baby Chicks is 50%. This is unnecessary and poultrymen should adopt the practical way of saving 90 to 100% of their Baby Chicks by feeding them exclusively on PRATTS BABY CHICK FOOD in troughs or feeders keeping it before them all the time. Whether you want breeders or egg layers, PRATTS BABY CHICK FOOD is your surest guarantee that you will get full grown birds with the desired capacities.

Pratts
Baby Chick Food

contains the essential vitamines and the minerals and vegetable proteins so necessary to a balanced growth, with full development of size and vigor. PRATTS BABY CHICK FOOD contains dried buttermilk, a preventative of chick diarrhoea. Strong chicks make strong pullets and strong pullets make heavy layers. There's money in poultry—use it if you start the chicks on PRATTS BABY CHICK FOOD. It is the poultry raiser's insurance against chick losses, a profit maker in raising the greatest number of future producers.

Read This Extract

from a specialist's advice in a recent poultry paper:—"You cannot get a feed too good for young chicks, as your egg yield will depend greatly on how your pullets are developed. The highest priced chick feeds on the market will cost you only about 12c a chick up to eight weeks of age."

PRATTS POULTRY PREPARATIONS are sold all over Canada. If there is no dealer near you, write direct for prices. We ship from 100 lbs. to one ton, freight paid to your nearest station. We will send sample order, 5 lbs. to any place in Ontario for 70c; in Quebec, 80c.

THE CANADIAN DEPARTMENT STORES LIMITED

# CATTLE, GRAIN, PRODUCE

**TORONTO PRODUCE**

TORONTO, April 25. —Buyers certainly had it their own way on the local butter market this week. Brokers were trying to clear receipts at current prices and were being offered an odd cent or so less, with the "not interested" answer being quite common. The result was that by the end of the week prices had dropped 6c to 6½c below closing levels last week. With brokers offering No. 1 creamery solids at 24c and No. 2 at 23c yesterday, there was more interest shown by buyers and sales were made at these figures.

The Montreal market was decidedly weak on Monday and Tuesday and solids were offered to Toronto at levels much lower than being asked in this city. Buyers naturally emphasized this point when approached and the local market reacted accordingly. Production at Ontario creameries has been much greater, and, as said previously, it was a buyer's market.

Cream

Cream levels could not remain unchanged very long when the butter market was sagging and though Toronto buyers did not reduce their prices quite as fast as some of the outside concerns, the end of the week brought much lower quotations. Yesterday cream buyers were quoted 27c for special, 26c for No. 1, and 23c for No. 2, f.o.b. country points.

Cheese

Cheese prices dropped 1½c during the week, the decreases occurring during the latter half of the week the market was steady and trading was slightly better. Brokers were offering new large at 10½c, twins at 10¾c and triplets at 11c. Wholesalers quoted the lower of range of 12½c for new large, 12¾c for twins and 13c for triplets to the retail trade.

**MONTREAL PRODUCE.**

MONTREAL, April 25. — Butter was stronger on the produce and dairy market here yesterday, while cheese and eggs were weak, and potatoes held unchanged.

No. 1 finest butter, fresh and regraded, gained one-half of a cent at 22½c a pound, and to retailers solids and prints were unchanged at 26c and 27c a pound respectively. Receipts were 515 boxes.

Ontario colored cheese declined one quarter of a cent at 10¼c to 10½c a pound, and receipts totalled 279 boxes.

Carlot prices of fresh Ontario and Prairie eggs lost from ½c to 1c a dozen. Extras and firsts were down 1c at 21c to 22c and 19c to 20c a dozen, while seconds dropped ½c at 17c to 17½c. To retailers, quotations were unchanged. Receipts were 3,062 cases.

New Brunswick Green Mountain potatoes, in carlots, per 80-pound bag, were quoted at 80c and to retailers 90c per 80-pound bag.

**BUFFALO LIVESTOCK**

EAST BUFFALO, N.Y. April 25.—Hogs, 2,800, rather slow, 15 to mostly 25 lower; bulk desirable 160-200 lbs. 7.75; some held higher, 220-240 lbs. 7.25-7.50, bidding around 7.00 or heavier kinds.

Cattle 100; cows unchanged; cutter grades 2.25-3.75.

Calves 1,200; better grade vealers active, fully steady; others barely steady; good to choice 9.00 to mostly 9.50; common and medium 5.00-7.50.

Sheep 700; strictly choice shorn lambs 25 higher at 9.85; plainer kinds slow.

**LIVERPOOL QUOTATIONS**

LIVERPOOL, April 25. (AP) Closing wheat spot No. 1 Manitoba 87⅛, No. 2, 86.

Hams:—Long cut, 12 to 16 lbs., 78s. Short cut, 12 to 14 lbs., 79s. Extra skinned, 99s. Picnics, 5 to 8 lbs., 50s, 6d.

Bacon:—Cumber and cut, 32 to 40 lbs., 66s. 6d. Canadian Wiltshires, 94s. Clear bellies, 14 to 20 lbs., 60s. Long clear middles, 28 to 35 lbs., 73s 6d. Short clear backs, 20 to 25 lbs., 69s. Shoulders, square 12 to 16 lbs., 56s.

Lard:—Prime western in tierces, 46s. American refined in boxes, 46s 6d.

Cheese:—Canadian finest white, 76s; colored, 78s.

Linseed oil, raw, 22s 9d.

Petroleum, No. 1, 11d; No. 2, 1s.

Rosin:—Types "F" and "G" 14s 6d.

Turpentine spirits, 44s 6d.

**WINNIPEG GRAIN.**

WINNIPEG, April 25. — Duplicating Thursday's performance, and influenced by a small export demand, values in the wheat pit here yesterday continued to sag fractionally. At the close prices were ⅝c to ½c lower than Thursday's closing level.

The May future closed at 30¼c, down ⅝c; July at 61½c was a like amount; while October ended at 63¾c, down ½c.

Operations for the greater part of the session was extremely light, and the trade was largely local.

Demand for cash wheat was limited, with spreads unchanged. Oats was the bright spot in the coarse-grains section. Trading, however, was narrow, and prices moved within a narrow range.

Futures:

| Wheat— | Open | High | Low | Close | Prev. Close |
|---|---|---|---|---|---|
| May | .61 | .61¼ | .60¼ | .60⅝ | .60⅝ |
| July | .62⅜ | .62⅝ | .61½ | .61½ | .62 |
| Oct. | .64¾ | .64⅞ | .63⅝ | .63⅝ | .63¾ |
| **Oats—** | | | | | |
| May | .29¼ | .29⅝ | .28⅞ | .29 | .29 |
| July | .29⅞ | .30¼ | .29½ | .29⅝ | .29¾ |
| Oct. | .31¼ | .31½ | .31 | .31 | .31 |

**SHE LOSES LEG, GETS WATCH**

Miss Janet C. Pappet, a teacher at Ayr, Scotland, who on November 16, 1928, sustained serious injuries, including the loss of her right leg, while seeing to the safety of her pupils, after the collapse of the roof of the building during a gale, has just been awarded a gold wrist watch, valued at $100, by the Carnegie Hero Fund Trustees. The trustees say they might do something more for her later, if necessary.

Husband and Wife Both Relieved
All Credit Goes to Dodd's Kidney Pills

"I have used Dodd's Kidney Pills for backache and they sure did me a lot of good," writes Mrs. J. A. Kunze, Box 232, Herbert, Sask. "My husband used them last winter after he had the Flu which left him with such a backache that he was unable to get up. After taking two and one-half boxes of Dodd's Kidney Pills he was completely relieved."

Dodd's Kidney Pills keep the kidneys in good condition to do their work of cleaning and purifying the blood. Sound kidneys mean pure blood. Pure blood means good health. Weak, nervous, run-down women should give Dodd's Kidney Pills a trial at once. 249

Smothering and Fainting Spells
Everything Would Turn Black

Price 50c a box

Mrs. Andrew Black, Harcourt, N.B., writes:—"I had been troubled with smothering and fainting spells and everything in front of me would turn black, and I would fall down in a faint and be unconscious for several minutes. I did not know what to do, until one day I was reading where Milburn's Heart and Nerve Pills had helped so many people and decided I would give them a trial. I used four boxes and found they help me wonderfully."

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

BETTER BRAN FLAKES
better appetites
THE peppy taste of Kellogg's PEP Bran Flakes puts an edge on every appetite.
They contain just enough bran to be mildly laxative. They're filled with wholewheat goodness.
Serve PEP Bran Flakes often—for lunch, for children's suppers.
At grocers in the red-and-green package. Made by Kellogg in London, Ontario.
Kellogg's PEP BRAN FLAKES

# WOMEN'S INSTITUTE WEEKLY COLUMN

A goodly thing it is to meet
In Friendship's circle bright.
Where nothing stains the pleasure sweet
Or dims the radiant light.
No unkind word our lips shall pass
No envy sour the mind.
But each shall seek the common weal.
The good of all mankind.

### CAVAN

At a recent meeting of Cavan Women's Institute, "Difficulties," was one item on the printed program for the month.

A few minutes were allowed for discussion of any problems on which the members needed assistance.

One member asked how to take iron rust from colored material. During the few minutes allowed, no positive help for this was stated—as so many of the remedies will take the color out. "Sunbright," "lemon juice and salt" and "salts of lemon" were among the means used to take iron rust from white goods.

Discussion on household problems often brings out many helpful suggestions.

Almost every woman is good at one particular thing; perhaps at several. Where a number are assembled there must necessarily be someone who can help solve the difficulty met with.

A professor of psychology gives the advice: "Never cheat a child of the only way he has of learning—by self activity." There are mothers who say, "Yes, I'd like Susie to learn to make pies, but I hate to have things spoiled. There are parents who never give a child more money than he can spend immediately. How can he ever learn to save or to spend wisely?

Try these three rules in developing habit:—

(1) Make it easy. Train children to do hard things, but make the initial stages easy. If you want a small boy to learn to hang up his coat, put a hook where he can reach it.

(2) Make it regular. You have to be one the job at first but withdraw as soon as possible. Many a mother has a mistaken pride in the fact that her family can't get along without her.

(3) Make it satisfactory. Give approval and sometimes a reward. Make failure annoying, but don't do this oftener than is necessary.

### WARSAW

During the past months we have reviewed the work and organization with origins of most rural women's societies in different countries.

We women of Canada, and women of some other countries, through Canada, are directly indebted to Mr. Hoodless, still the matter could not have been pushed, and brought before the government as it has been, but for the persistence of Mr. Erland Lee, who took the chair of the first meeting of the first Institute. Mr. James Mills, Mr. George Creelman, Mr. C. C. James, presidents of Guelph O.A.C. have also stood behind the organization and the presidents since their time have not failed. However, the man whose services to the Institute can never be over-estimated is Mr. George A. Putnam, B.S.A., superintendent of Women's Institutes for the Province of Ontario. He has held the position in the neighborhood of thirty years, as is, if possible, more zealous now than he was at first. He has placed all the resources of the government behind the Institutes, especially those of education, health and agriculture. He has never spared himself in his work for Canadian Institutes, and delegates from other countries find in him a willing helper.

He has a wonderful gift for organization. If he thinks some thing is necessary or that some person can do a certain piece of work, he does not stop until he has gotten what he wants, yet he is anything but domineering. He is a very sympathetic man, has infinite patience, and good humor. He is an idealist, and constantly holds up the highest ideals of life, demands a high standard of work and responsibility.

To see him at conventions and at conferences one suspects he is a Christian of the highest type. To have the privilege of seeing him in his own home, one cannot fail to realize that he is indeed a follower of the Great Teacher.

Yet in business he is straight business through and through, not only for his own province, but for any place that he can in any way aid.

### MILLBROOK

An Institute branch decided to take its April topic, "Easing Up," when members gave suggestions for reducing housework in these days that are becoming busier and busier on the farm.

One member's idea, put into practice with her own family, was to have her children wear simpler clothes, reducing laundry to a minimum. The determination to forego ironing towels, sheets, wash cloths, pyjamas, and underwear also helped to make the laundry work much lighter, though as this member remarked, she "just could not let her pillow slips go unironed, no matter how much anyone might recommend it."

Dispensing with table cloths, and using instead small luncheon cloth, or one of the pretty table oil-cloths now purchasable, with the mats obtainable at the five and ten cent stores, was also recommended as a big help, and of course paper serviettes, bought by the hundred, are an economy worth while.

The matter of simplifying meals provoked much discussion, the idea of serving nuts and fruits in place of cooked desserts not being received with general favor. While the women folk and children of the family might be satisfied, it was felt that the men of the household would not look with pleasure on this change in the menu. However, the suggestion to cook a double quantity of food at one time, leaving enough to warm over for the following day's dinner, proved popular. The president gave food for thought when she urged "learning the deliciousness of just plain bread and butter, a salad easily made, fresh fruit, and milk, and you have a meal fit for the gods. We do not need to pamper out appetites half as much as we think we do."

One member, a farmer's wife, raised a storm of discussion when she told of cultivating the picnic habit occasionally as a means of serving meals. "It does not mean a big effort; I have a table on the side lawn which my husband made in less busy moments, and once in a while I have tea out there instead of indoors. I believe it contributes to mental and physical health just to have the change; carrying the dishes and food out is a delight to the children, and if we have not gone away to the woods, or lakeshore, we have had a picnic all the same. I do not furnish any hot dishes for this meal, but plan it along the simplest lines, yet with enough for all, and we seem to get out of the rut of everday things when we call all hands for 'picnic tea this evening.'"

At present a sandwich filling that is popular with most households is composed of fresh watercress between slices of bread and butter; this is both wholesome and attractive, and the little folk can gather the cress in any clear creek at this season. Another idea given by a homemaker was to sprinkle potatoes with a bit of flour before frying, and see what a delicious golden brown color will result. Making food attractive in appearance as well as taste is an art to be cultivated, both for health's sake, and for the added pleasure that radiates at the meal hour.

At this season, too, a pot-pourri of vegetables is quite likeable, one recommended by an Institute member being of carrots cut in cubes, celery cut coarsely, boiled together until fairly soft, then two or three peeled onions added, and for the last twenty minutes, potatoes cut in slices lengthwise. The water may be saved for a soup foundation the next day, but the vegetables pour a rich cream sauce, and serve with poached eggs, or meat, as preferred.

## Favorite Recipe

TOMATO SHEPHERD'S PIE.

Cooked meat,
Tomato pulp,
Mashed potatoes.

Put meat through a chopper and season with salt, pepper and, if desired, a little grated onion. (If Tomato pulp to be used is fairly thick a little gravy may be added to the meat). Put meat in bottom of baking dish. Cover with tomato pulp, (obtained by draining juice off canned Tomatoes), after seasoning to taste with salt, pepper and a little sugar and arrange well-beaten and seasoned mashed potatoes roughly over the top. Bake in a moderate oven until well heated and browned on top.

SCALLOPED TOMATOES.

One can Tomatoes (2½ size), less ½ cup of the juice,
4 half-slices of whole-wheat or white bread,
Butter, salt, pepper and sugar to taste.
A little grated onion, if desired.

Strain the half-cup of juice from can of Tomatoes. Put remaining Tomatoes in a saucepan, seasoning with salt, pepper, sugar and onion juice. Heat.

Butter the half slices of bread and cut into half-inch cubes. Put half the cubes in a baking dish, and add the hot seasoned tomatoes. Arrange the remaining cubes on top, and bake in a hot oven until brown.

Many variations of the foregoing recipe will suggest themselves to the woman in the home. Meat left-overs, eggs or cheese will add extra heartiness to this healthful and economical "Tomato Dish."

**DDD—a sluggish pimply skin needs its tonic action**

## What To-day Means To You

WHAT TODSY CULLEN April 25&26 "TAURUS"

If April 25th is your birthday, the best hours for you on this date are from noon to 2:45 p.m., from 4:15 p.m. to 6:30 p.m. and from 9 p.m. to 10 p.m. The danger hours are from 10 a.m. to 11:45 a.m. and from 7 p.m. to 8:30 p.m.

April 25th has strongly marked influences, both good and evil. The signs denote a happy time in both personal and domestic life, whilst in business there will be difficulties and contentions. A financial loss can be anticipated through the carelessness of those in whom trust has been reposed.

Children born on this April 25th will have strong, clear minds, sweet tempers, kind natures and intuitive judgment. They will be extremely practical, and think and act quickly. They will in all private relations be loyal and constant, and will be rather extravagant in their display of affection.

Born on April 25th you have a forceful personality, combined with indomitable courage. These two qualities will carry you anywhere. Trifles never worry you; responsibilities never weigh you down; and work never tires you. When misfortune overtakes you, as it will on more than one occasion, you square your shoulders, never whimper, and philosophically say "that's that." Your courage then compels you to start afresh, until you have hewn a success out of a failure.

Life has in store for you great rewards. These will only materialize, however, if your judgment is sound. Herein lies your one weakness. You often discard the substance and pursue a shadow, and your perseverance, your industry and your concentration are spent on something not really worth while. Your very strength of character is, at times, a menace to your welfare. You can only visualize success, and are not prepared for pitfalls. Your judgments and conclusions are formed very quickly, and in your case "the wish is often father to the thought."

You are very devoted in your attachments, and no one could be more loyal and true. You give much, and have the right to expect much in return. You will never be satisfied with a lukewarm affection.

If April 26th is your birthday, the best hours for you on this date are from 10:45 a.m. to noon, from 3 p.m. to 5 p.m. and from 8 p.m. to 10 p.m. The danger hours are from 8 a.m. to 9:30 a.m. and from 5 p.m. to 7:30 p.m.

April 26th promises to be a Sunday full of pleasant surprises, chiefly in the form of renewed association with old time friends. The signs also denote that a long outstanding difference will be healed, and amity, instead of enmity, will reign supreme. The evening will be propitious for lovers.

Children born on this April 26th will not amount to much, if left to themselves. They must unite with those of a strong and assertive nature. They will serve better, than control. Sweet-tempered, humble, kindly and acquiescent, they will need companionship of a robust and and energetic type.

Born on April 26th, you are original and inventive. You delight in doing things in a way different to standardized methods. This streak marks, not only your actions, but your sayings. Your ideas often shock those of the conventional school. You have a distinct ability in discovering inaccuracies, and you can generally put your finger unerringly on the weak spot of any failing organization. Not only can you do this, but you are strong as a constructionist, and can prescribe the remedy for the ills that you have diagnosed.

If a woman, you have shrewd common sense, and can make a little go a long way. You are, without shocking conventions, quite original in your clothes. Fond of bright colors, you are neat and tidy in the home, and an artistic atmosphere pervades everything.

Both men and women, born on April 26th, have strong intellects, and quick tempers. They pay too much attention to faults of commission, but too little to those of omission. Whilst loving and affectionate, they permit themselves to be too much influenced by passing trifles and make mountains out of molehills. They are exceedingly jealous, but not vindictive. They will be loving parents, erring on the side of leniency all the time.

## What The Fashionable Miss Will Wear This Season

(1) A smart new Panama from the House of Ginette Guy, Paris, with a crown of lace straw and attractive back trimming of black flowers. (2) An interesting new model from Helene Le Coeq, Paris, which combines blue and brown straw as well as the off-the-forehead line with a cape-line brim. (3) Germaine Galey, Paris, creates this large green summer model trimmed with black velvet.

## ARAB BOYS HAVE BIG FIELD DAY

(Continued from Page 1)

erican dancer, her three year old daughter and myself. I was at once assumed to be husband and father so explanations were in order.

The dancer had to rush for Madrid; but rushing is one of the things they never do over here. I trailed along and heard the travel expert tell the senora that the train for Madrid left "between four and five this afternoon" thereby getting a first peak at Spanish railway methods. Imagine the C.N.R. telling you that the International Limited pushed off sometime between four and five

**Business Too Bad.**

My problem was even worse. I was bound back for Morocco. To get there I had to cross the Straits of Gibraltar by boat to Algeciras, a small town built around a bull ring, take a buss cross-town and hop another ferry to Tangier in Africa, and then by bus again to the French frontier. Why you couldn't have gone direct from Gibraltar to Tangier is just one of those things.

There is a daily sailing but the officials calmly informed me they didn't think the boat would run today. "Why", I asked. "Business is very bad. What us to run when there are few passengers? You may go by Algeciras!"

Algeciras doesn't look very far away, but the crossing costs four good Canadian dollars and if that doesnt start the day off wrong what does? Not only four dollars but a luggage fee. You dare not carry your own stuff. Illegal or something like that. A porter in Gib cost 40 cents, the Spanish bandit on the other side wanted $2 but finally accepted 50 cents for carrying three bits of junk about 40 paces. A holdup but what can you do about it?

**Spain Gets the Coin**

We rolled through the sleepy town of No Mans land, for this is really not Spain at all. British diplomats of by-gone days have looked after that. This is neutral territory controlled jointly by Spain and Britain—but Spain collects the customs duties. Because I was booked straight back to Casablanca where I had come from, they did not paw through my stuff.

The crossing from Algeciras to Tangier took a couple of hours and cost exactly the same as the ten minute hop across the Straights. Needless to say there were plenty of delays but you get used to that.

**Battles For Clothes.**

As the boat docked on African soil once more boys swarmed about screaming and fighting for luggage. Arab boys with powerful arms. I held my typewriter and brief case. The suitcase was on the dock. The Arab kids pounced with fury of a tiger and practically tore the thing to pieces there and then. My own wails availed nothing. They fought and jerked and screamed for the honor and price of carrying the thing.

A catch broke, the handle came off, a shirt fell into the sea. My dinner clothes were trammelled into the African sand. My shaving brush vanished. I dropped the typewriter to save what remained and went in among those fool kids kicking and walloping as hard as I could. No one else paid the slightest attention. A lad no older than five galloped away with some socks. It was a field day for those boys.

Gradually I collected what remained of my stuff. About a third of it had gone and I never will see it again. The luggage was hopelessly ripped, two dress shirts had been walked on, my shaving brush was recovered full of sand. I tossed everything back into the battered bag, carried it myself to the wheezy old bus and thought bitter thoughts about all the Arabs who ever lived.

**Over the Sand Dunes.**

Men flocked around now anxious to guide me. I was the one and only passenger in the 1918 Packard. We waited. Oh how we waited! Hours of waiting. Then came three other passengers. A woman who must have weighed 300 and was swathed in one veil after another, a man from Ohio gloriously and riotously tight, and a French soldier.

A boy came and cranked the old car, a driver got up on the seat, another joined him. A third man climbed on the roof as a sort of lookout against the Riffs who are still hard-boiled hombres, and we were away across the brown sand dunes to adventure and new sights. Stick around and I'll tell you about that ride on Monday.

## WHEN CHILDREN CRY

CHILDREN often cry for no apparent reason. Many times we can't guess what is wrong. The crying may mean a touch of colic; the little bowels may be sluggish—or some other upset. It may mean any of the common little ailments that children suffer. To bring quick comfort to your little one, give a few drops of Castoria. Most upsets of children are soon soothed away by this pleasant-tasting remedy that children all love.

In five million modern homes, Castoria is a mother's first thought when a child is out of sorts, feverish, cross, doesn't eat right or sleep right. When bad breath, coated tongue, or languor tells of constipation. These five million wise mothers know that children should never be given stronger medicines meant for the fully developed systems of grown-ups. Castoria is gentle—safe, yet always thorough and effective for a child of any age. It may be given to the tiniest infant for any little upset. When buying, look for the signature of Chas. H. Fletcher on wrapper.

## OBITUARY

### MRS. WILLIAM CREALOCK

NORHAM, April 25. (Examiner Correspondence)—The funeral of the late Mrs. William Crealock, who passed away on Tuesday evening, was held in the Norham United Church on Thursday afternoon at 2 o'clock.

The church was filled with relatives and the large circle of friends of the deceased.

The choir sang "Saved By Grace". The verses being taken as a duet by Mrs. W. Campbell and Mrs. Douglas Knight with the choir, joining the chorus.

The pastor, Rev. D. R. Clare gave an inspiring message based on Psalm 91, especially verse 15, "I will be with him in trouble."

He spoke first of the need and value of comradeship. The person who has no friend is abnormal.

Secondly, we had God's promise to be with us at all times but especially in time of trouble and that is when we need Him most.

In conclusion, he urged that we accept the gift of God's presence which is offered to us.

The pallbearers were Messrs. W. Campbell, S. Gummer, Vanblaricom, Glover, W. Turney and Vanblaricom.

The late Mrs. Crealock who was formerly Emma J. Carr of Morganston, had spent the majority of her married life on a farm south of Morganston, but a few years ago they moved to Norham.

Mrs. Crealock has been an invalid for several years, but bore her illness and suffering with wonderful patience, always meeting her friends with a bright smile and cheery word, and showing a deep interest in the welfare of the community.

She leaves a sorrowing husband.

## SURPRISE SHOWER.

### Ladies of Regent Street Church, Lakefield, Gather at Home of Mr. and Mrs. Kingdon.

LAKEFIELD, April 25.—(Examiner Correspondence).—Mr. and Mrs. Melville Kingdon received a delightful surprise on Thursday when more than sixty ladies of the Regent street church visited them bringing a large basket of gifts constituting a monster miscellaneous shower. The basket was decorated in rose, pink and white and was a triumph of the decorator's art and the contents were varied and both useful and ornamental.

In a short but very kindly speech the basket of gifts was presented to the bride and groom by Mrs. S. S. Spence, who expressed the good wishes of one and all for much happiness both now and in the years which are to come.

Mr. and Mrs. Kingdon replied in graceful manner expressing their very hearty appreciation of the good wishes of their friends and their generous gifts.

Mrs. MacMillen read a humorous poem entitled "The Poor Married Man" depicting the darker side of married life for the bridegroom. Mrs. John Murphy, Jr., gave a dialect reading, "A Yankee's Courtship" which also was highly amusing. Both selections were received with heartiest applause and gales of laughter.

After a social hour the ladies dispersed, having had an exceedingly pleasant evening and one which will always be a pleasant memory.

## Roseneath

There is considerable sickness among the older members of our village and community. Mrs. Gordon Black and Miss Jemima Jackson of Toronto are home with their parents, Mr. and Mrs. William Jackson, who are both confined to their rooms through illness. Mr. Albert Tucker of Belleville was called home, his father, Mr. Arthur Tucker being seriously ill. Mrs. Mary Brown is confined to her bed, suffering the effects of a heavy cold. Miss Gladys Blodgett is attending her. Mrs. Lean, mother of Newman and Austin Lean is in very poor health. Mrs. Lean celebrated her 86th birthday in February last.

Mr. Dave McGrath is progressing favorably in sawing logs these days. He intends to make an addition to his sawmill for completing lumber for fine work, houses, etc., by building a planing mill. This will not only be a boom to Roseneath but also a great convenience to the people of the community.

Mrs Ella Thompson and family received word on Wednesday of the death of her sister, Mrs. J. Crozier of Lindsay.

Dr. Hayden of Cobourg was in the village on Wednesday and made several calls on his former patients.

**"Greatest Kidney Remedy on Earth"**

is Mr. W. S. Harkins' emphatic opinion of Gin Pills. His letter, from New York, goes on to say: "I have been using them for years."

Gin Pills have a soothing, tonic effect upon your kidneys and will prevent painful, expensive ailments such as Rheumatism, Sciatica, Lumbago. Get a 50c box of Gin Pills from your druggist.

## Norham

Mr. and Mrs. Ferguson of Castleton were Sunday visitors at her brother's, Mr. Sam Platt.

Rev. and Mrs. D. R. Clare motored to Omemee on Tuesday. They were accompanied by Mrs. Clare's parents, Mr. and Mrs. A. Scott, who have spent the winter at the Norham parsonage, and are again settled in their own home in Omemee.

Mr. McGee of Peterborough was a business visitor in the village on Thursday.

Miss Daisy Swallow is staying with Mr. and Mrs. Scott in Omemee.

Mr. and Mrs. Wesley Newman motored to Toronto on Thursday.

Mr. and Mrs. Barnes, Colborne attended the funeral of the late Mrs. Crealock.

Mr. W. Dunnett of Dundonald was the guest of Rev. and Mrs. Clare on Thursday.

Mr. S. Gummer, of Stirling was in Norham on Thursday.

Mr. and Mrs. Marks and Miss Marks of Campbellford attended their aunt, Mrs. Crealock's funeral on Thursday.

## EAST EMILY

The very cold wave which passed over this district this week almost made people forget that spring was here for a few days.

Yellow dandelions are to be seen blooming in several places and the spring flowers are beginning to bloom in the woods.

Mr. Allie Casey of Mariposa spent a few days this week with his mother, Mrs. Robert Casey who is seriously ill.

Owing to an attack of flu, Mr. Walter Magee was unable to attend the School Trustees' Convention in Toronto recently.

Miss Marion Storey has returned home after spending the past week visiting relatives in Peterborough.

The Misses Marion Storey and Gladys Smith played a guitar duet at the U.F.O. concert and play in Peterborough on Tuesday evening.

Mr. and Mrs. Richard Davis were visitors to Peterborough on Thursday.

Mr. and Mrs. Leslie Burgess attended the show "Charlie's Aunt" in Lindsay on Tuesday night.

Mr. and Mrs. Vincent Fee attended the show "Charlie's Aunt" in Lindsay on Tuesday night.

Mr. and Mrs. Oswald Ruth and baby were visitors to Peterborough on Thursday.

Those who attended the quarterly Board meeting at Omemee on Wednesday night were, Messrs. Eugene Switzer, William Harrison, Herb Jackson, Milton Sherin and Ira Switzer.

## THOMASBURG

Messrs. Will Booth, Earl Bateman and Murney Blakely motored to Kingston on Sunday.

Miss Eva Wilson, of West Huntingdon, was a recent visitor in the community.

The members of the Y.P.S. of the United Church held a social evening in the vestry on Tuesday evening, this being the last meeting until autumn.

Miss Winnifred B. Taverner left on Wednesday evening for Napanee to attend the funeral of her uncle.

Mr. and Mrs. Melbourne Adams motored to Oshawa on Tuesday morning returning on Wednesday evening.

Mrs. Wesley Morton called on Mrs. Silas D. Prindle on Wednesday evening.

Mrs. Dorothy Elliott and Mrs. James E. Brown were the guests of Mrs. Silas D. Prindle on Tuesday evening.

### DARTFORD

Miss Isobel Herriot underwent an operation for appendicitis in Nicholls Hospital, Peterborough on Wednesday evening of last week.

Mr. and Mrs. M. McDougall and son Clare of Peterborough visited her parents, Mr. and Mrs. C. Copperthwaite on Sunday.

Born—To Mr. and Mrs. Archie McCracken on April 21, a daughter.

Mr. and Mrs. N. E. Latta visited Mr. and Mrs. G. Latta of Belleville on Sunday.

Miss Jean Dulmage and friend of Codrington visited her parents, Mr. and Mrs. B. Dulmage on Sunday.

Mr. and Mrs. W. T. Runnells visited Mr. and Mrs. Harry Wilson of Norham on Sunday.

Mr. and Mrs. W. McCallum and sons Douglas and Donald of Toronto visited Mr. and Mrs. B. Dulmage over the week-end.

Mr. and Mrs. N. E. Latta spent Wednesday in Cobourg.

Mr. Clare Copperthwaite and daughter Jean were in Peterborough Thursday afternoon.

Mr. Arthur Davey is some better after his recent illness.

John McCann died recently in Glasgow, Scotland, aged 102.

Many cities in England are defying the recent court ruling against Sunday entertainments, and are granting licenses for music events on that day.

## Neighborly Notes

Please Phone items to 1900 or 1901

Mrs. W. E. Franks, of Water Street, lent her home yesterday afternoon for a very successful spring tea held there under the auspices of the Evening Branch of the Women's Auxiliary of St. John's Church. The rooms were tastefully arranged with spring-like bowls and vases of daffodils and pussy willow branches, which also decorated the very pretty table, with its lace doylies and its mauve and yellow candles in silver holders. The guests were received by Mrs. Franks and Mrs. Fred Craig, while Mrs. W. E. Conway and Mrs. J. E. Patte assisted in the drawing-room, and little Dorothy Franks opened the door. Mrs. W. Wheeler was in charge of the tea room, where tea was poured by Mrs. George Wesley, assisted by Mrs. W. H. Freel, Mrs. J. Collis, Mrs. J. H. Conway, Mrs. E. H. Spencer, Mrs. L. R. Groombridge, and Miss E. Clementi.

The housekeeping sale was supervised by Mrs. W. M. Lang and Miss Florence Corcoran. Miss E. McKee acted as treasurer.

• • •

Mrs. W. Plackwell, Mrs. W. H. Pretty and Miss Linden Hall motored to Oshawa yesterday for the tea at "Parkwood" the home of Mrs. R. S. McLaughlin. The following interesting report in the Toronto press refers to the affair, which was mentioned several times recently at meetings of the local branch of the Lyceum Women's Art Association: "The marvellous display of orchids in the conservatories at "Parkwood" forming a lovely mass of color shading from palest yellow to rich purple, drew warmly admiring comment from the 400 members of the Lyceum Women's Art Association and their friends who were welcomed yesterday afternoon by Mrs. R. S. McLaughlin in her Oshawa home. The hostess, who had so kindly opened her home for the tea, with the president, Mrs. A. C. McKay, and Mrs. Lawrence Junkin, both of whom had worked untiringly to make the affair such a success, received the guests in the living-room. Mrs. McLaughlin wore a graceful gown of silvery blue lace over beige satin, made very long. The jacquette which was fashioned with long sleeves finished with bell cuffs, was pointed back and front; and bands of beige georgette were used on the cuffs and at the foot of the skirt, and on the soft tie which fastened the jacquette in front. Mrs. McKay was gowned in a becoming coat frock of smoke grey georgette, with hat of purple straw trimmed with matching velvet ribbon arranged in a flat bow at the back of the brim. Her ornaments were amethysts. Mrs. Junkin looked smart in midnight blue chiffon, with lace yoke and wide lace cuffs. Her close-fitting black hat of silk straw had folds of shell-pink satin and she wore a rope of pearls. In all the rooms silver bowls of rose tulips, mauve sweet peas, pink snap-dragon and varicolored carnations were used, and in the sun-room were palms and pots of ferns and the liquid notes of the canaries were heard. The guests wandered down the long hall leading to the conservatories with their masses of orchid blooms, and into the billiard rooms, where the murals picturing Mr. McLaughlin and his daughters on horse-back were of great interest. Other handsome murals decorated the main hall and upstairs little groups gathered in the room filled with Canadian paintings and admired the colored prints and etchings which covered the walls of the long halways. Tea was served in the dining-room, from a table centred with a bowl of carnations shading from a deep purple-rose to pale cream color. Other bowls of roses and tulips, tall red candles in silver holders and the gleaming silver of the tea services completed the attractive decoration.

• • •

Mr. and Mrs. William Hill, formerly of Peterborough, and now living in North Bay, are celebrating on Monday, April 27, the fiftieth anniversary of their wedding, at the home of their daughter, Mrs. F. W. Runnels, of 107 First Avenue East, North Bay.

• • •

Mr. Aleric Letellier and his brother-in-law, Dr. J. O. Langevin, of Montreal, who have been travelling in Europe for some time, are expected home next week.

• • •

Mr. Jack Roberts, son of Mr. and Mrs. F. Roberts, of Thomas Street, is home for the summer holidays from Queen's University, Kingston.

• • •

At the conclusion of the regular meeting of the T.F.S. Tuxis Square Boys of Knox United Church, a delicious supper was served entirely under the boys' management. Harry Anderson acted as toastmaster. Three very amusing talks on "Where We'll Be in 1950" were given by Harold Murduff, John Donaldson, and Ormond Benson. A toast to "The New Members" was proposed by John Londerville, and responded to by George Masters. Walter Ward then proposed the toast to "Our Mentor," which was suitably responded to by John Donaldson. After supper, an advertising contest, with Billy Herd as the winner. At the regular meeting, with the praetor, Harry Anderson, in the chair, the minutes were read by the scriptor, John Londerville, and a number of poems by well-known writers were read by several members of the Square. Plans were discussed for the entertainment on Friday next in the Lecture Hall.

• • •

Mrs. Fred Collins, of Otonabee, entertained at bridge and tea yesterday afternoon, at her home.

• • •

Mr. John I. Allen, president of the Peterborough Kiwanis Club, left this afternoon for New York, to sail on the S.S. Algonquin for Jacksonville, Florida, en route to the Kiwanis International Convention at Miami, next week. Delegates aboard the steamer will be met at port by their fellow-Kiwanians from New England, and the entire party will then motor the distance of three hundred and sixty-six miles to the convention city ,by way of Daytona Beach, Palm Beach, and Lake Worth. The State of Florida has planned to provide the motorcade with an escort of motorcycle officers.

• • •

Mr. and Mrs. L. J. Pettit and Miss Shirley Pettit motored to Toronto this morning to spend the day.

• • •

Mr. and Mrs. Charles Scates of 581 Division street celebrate to-day the thirty-first anniversary of their wedding day.

• • •

Dr. and Mrs. N. D. Buchanan will arrive home to-night on the midnight train after an absence of three months on the Mediterranean trip.

• • •

Mr. Albert Bonney, son of Mr. and Mrs. H. A. Bonney of Water street, is home for the summer holidays from Queen's University, Kingston.

• • •

Mr. W. McMillan, Division street, celebrates a birthday anniversary today.

• • •

Little Betty Kells of Hamilton, who has been visiting her grandparents, Mr. and Mrs. W. Jarvis of 5 Belleview avenue, celebrates her second birthday anniversary to-morrow.

• • •

Miss Gwen Hewett and Miss Elizabeth Mulholland went up to Toronto to-day for the dinner to be given to-night by Miss Mary Edgar of Wychwood Park, for the junior and senior counselors of Glen Bernard Camp, Algonquin Park.

• • •

At the Convocation in Divinity of Victoria University, held in the Timothy Eaton Memorial Church, Toronto, this week, the degree of Doctor of Divinity (honoris causa), was conferred on four well-known ministers of the United Church of Canada, among them being the Rev. W. Harold Young, M.A., B.D., of St. Paul's Avenue Road Church, Toronto, and former pastor of George street Church here. The other ministers honored by the conferring of the degree of D.D., were the Rev. J. E. Hogg, B.A., of Wesley Willis Church, Clinton, the Rev. J. Bruce Hunter, B.A., B.D., of the Metropolitan Church at London, and the Rev. W. A. McTaggart, B.A., of St. Columba Church, Toronto.

• • •

Mr. G. A. Borland celebrates a birthday tomorrow.

• • •

The Social Club of the Canadian Department Stores held a delightful dance last evening at Chemong Park Pavilion, attended by about one hundred and fifty people, including a number from Lindsay. The newly-decorated Pavilion, with its pastel shaded streamers and false ceiling, its pretty lights and shades, formed an attractive setting for the dainty gowns of the ladies. A number of novelty numbers were included in the dancing program, for which very fine music was played by Mowry-Steer and their Silver Collegians. The prize for the spot dance went to Miss Madill of Lindsay and Mr. Jack Killoran. Those in charge of the dance were Mr. H. Turvey, Mr. F. Douglas, Mrs. L. Brown and Miss Flo Hill.

• • •

Mrs. W. H. Kells of Hamilton, with her two children, Billie and Betty, returned home to-day after spending the past three weeks with Mrs. Kells' parents, Mr. and Mrs. W. Jarvis of Belleview avenue.

• • •

Mr. Peter Nicholls, accompanied by Mr. Albert Nicholls, Mr. E. J. Cullen and Mr. William MacDougall, motored to Hamilton to-day to attend the funeral of the late Mr. C. H. Mann, formerly of this city.

• • •

The many friends of Mrs. Frank Marino will be sorry to learn of her illness in St. Joseph's Hospital, following an operation on Tuesday.

• • •

Miss Ida Hilker of Clydesdale is the guest of Mrs. J. Dineen, 307 George street.

• • •

Mrs. B. D. Hall, Mrs. E. H. Wood, Mrs. C. D. Hewett and Mrs. O'Conor-Fenton motored to Port Hope on Wednesday, to attend the tear given by Mrs. Orchard, wife of Dr. Orchard, head master of Trinity College School.

• • •

At the tea hour following the exhibition of Baxter prints in the studios of the Conservatory of Music yesterday afternoon, by members of the Lyceum Women's Art Association, tea was poured by Mrs. T. A. S. Hay and Mrs. R. Gliddon, assisted by Mrs. W. Denston, Mrs. G. N. Gordon, Miss Cameron Edwards and Miss Mamie Rogers. Mrs. H. E. Connelly and Mrs. A. Borton were in charge of arrangements. The table was very pretty with a pure white cloth of Chinese embroidery and lace, centered by a low blue bowl filled with pink snapdragon, green fern and pussy willow branches.

• • •

Mrs. H. M. Flester has returned to her home in Shreveport, La., after visiting her father, Alderman Walter Stocker.

• • •

A very ambitious program of entertainment, in charge of Mr. J. Krogh, has been planned for the big night of the Trinity Young People's Club, in Trinity Reid street hall next Tuesday evening. This promises to be a very enjoyable social evening.

• • •

Mrs. Walter Perks entertained at bridge and tea at her home, on Wednesday afternoon.

• • •

Mrs. J. Dineen of 307 George street has returned home after attending the funeral of her grandfather at Faraday.

• • •

Mr. A. F. Holland, son of Alderman and Mrs. D. Holland, has returned home for the summer vacation from Queen's University.

• • •

In St. Mark's parish hall, Port Hope, this evening, a group of players from Hart House Theatre, Toronto, including Mr. Andrew Allan, son of the Rev. and Mrs. W. Allan, will present the play entitled "The Watched Pot," by H. H. Munro ("Saki") and Charles Maude. Mr. Randolph Crowe of Toronto is taking one of the parts in the play.

• • •

Mrs. Samuel Deyell of 185 Crescent street is celebrating to-day the eightieth anniversary of her birth, in excellent health and spirits Mrs. Deyell has spent practically all of her long life in Peterborough and its environs.

• • •

Mr. Ralph Adair of the School of Practical Science, Toronto, is home for the summer holidays with his parents, Mr. and Mrs. C. B. Adair, Homewood avenue.

• • •

Mrs. H. Keith Braund and Miss Isabel Oke have returned home from a trip to St. Thomas.

• • •

Miss Blanche Baker of Norwood is spending a few days with Mrs. Scott Wildman of 292 King street.

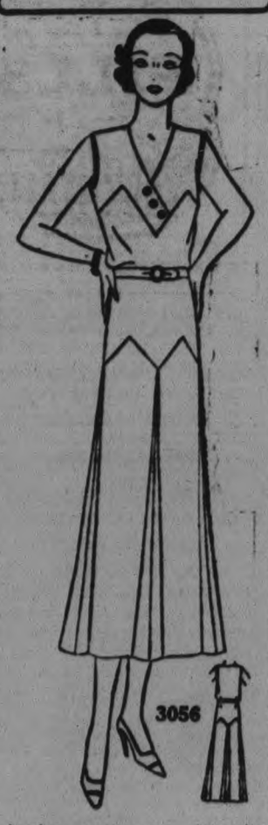
• • •

The many friends of Mr. Ed. Graham of the Empress Hotel will regret to learn of his illness in St. Joseph's Hospital, where he is suffering from pneumonia.

• • •

In the Woodmen of the World Hall on Thursday evening a Whist card party was held in aid of the Caledonian Cheer Fund. Mesdames J. Reid, Donaldson and J. Wyllie were hostesses for the occasion, and eighteen tables were played under the supervision of Mr. J. Wyllie. Prizes for high scores went to Mrs. T. Keiran, Mrs. P. G. Pirie, Miss M. Ralston and Mr. R. Graham. Consolations were awarded Mrs. G. Nimmons and Mr. R. Findley. Prizes for lucky chairs went to Mrs. R. Veitch and Mr. W. Waddell. At the close of the card games luncheon was served, after which Mr. W. Dougal and Mr. G. Low dispensed music for several dances. All voiced the opinion that a very pleasant evening had been spent.

## FASHION SERVICE



Another nappy sports dress that Paris designed for youth.

And to make it is just as simple as falling off a log!

Don't you love the umbrella skirt plaits? The cross-over yoked bodice gives it much distinction. It's sleeveless of course.

This ideal sports type is delightful in opaline yellow flat washable crepe silk.

Style No. 3056 may be had in sizes 14, 16, 18, 20 years, 36 and 38 inches bust.

White shantung is stunning too and may be trimmed with vivid red bindings.

Skipper blue linen with white dots is sportive,

Pale blue flat crepe, white wool jersey light vivid blue, white and black triped cotton broadcloth, calico print in yellow and brown and peach-pink pique will make up beautifully in this moddel.

Size 16 requires 2 3-8 yards 35-inch or 3 yards 39 inch.

Our large Fashion Book shows the latest Paris has to offer in clothes for the matron, the stout, the miss and the children.

Also a series of dressmaking articles. It is a book will save you money.

Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred).

Price of book 10 cents. Price of pattern 15 cents,

**Our large Fashion Book shows how to dress up to the minute at very little expense. It contains most attractive Paris designs for adults and children, embroidery, etc.**

**Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred).**

**Price of book, 15 cents.**

## Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

In majority of the homes in Peterborough there are certain north windows that admit no sun.

• • • • • • •

In many homes and especially in apartments there are other windows through which no sunshine can stream because the light is cut off by bleak walls.

• • • • • • •

Not only is the sun kept out but the view is anything but pleasing. Into such a window sunny effect should be instilled plus an attractiveness that otherwise would be totally lacking.

• • • • • • •

Two elements are needed, a yellow glow and a hint of greenery to suggest; foliage of trees and grass of lawns. The first can be had by the right shade of yellow as hangings at a window with a view.

• • • • • • •

Beneath the hangings use yellow-tinted glass curtains drawn or looped back unless they are so sheer that they do not hide the view. Do not screen out a good view.

• • • • • • •

It will reveal real foliage in warm weather. In wintery months ivy will flourish without sunshine and will supply the wanted note of green.

• • • • • • •

For the window without a view, use a textile for the glass curtains that will let the light through and dim the unattractive look. There are scrims and other window hangings that will serve this purpose.

• • • • • • •

If green side hangings will conform with the color scheme of the room they are just the thing to use. If they will not, use some gay color such as salmon pink, in a plain tone or colored chintz.

• • • • • • •

One woman transformed a north window with a poor outlook into one that appeared to be aglow with impenetrable sunlight. She cut very thin wam yellow tissue paper to fit the window panes.

• • • • • • •

After sticking it to the glass with a transparent agent, she varnished over the paper. Then she proceeded to dress up the window with a very sheer glass curtains, gay hangings and a big hanging water-filled bowl of ivy that fell trailing below.

• • • • • • •

One north chamber in another room in a certain home seems full of sunshine even on a dull day. At the windows are yellow crinkly crepe hangings and valances of fine thin cotton weave.

• • • • • • •

A bedspread of the same color gives a big splash of sunny color, while several ornaments in yellow glaze carry their sunny tones to the old white painted mantle above the fireplace.

## 10 Minutes Allowed In No-Parking Area

Explaining the "no parking" provision on the west and north sides in the downtown restricted area, Chief Newhall explained to-day that some leeway was given motorists engaged in shopping.

Ten minutes is the time allowance for a car on the "no parking" side, said Chief. "We want to give motorists time to unload and load their passengers, but if they think they will be more than ten minutes they had better wheel around and park on the other side, or better on the Market Square or one of the side streets.

"We mean to enforce this parking law," declared the Chief again, reiterating his statements made early in the week.

# MALE VOICE CHOIR WINS APPLAUSE OF LARGE AUDIENCE BY ITS CONCERT

### Singers Were in Splendid Voice and Audience Most Appreciative.

### ASSISTING ARTISTS GOOD.

(By Jeanette)

A very successful concert was presented by the Peterborough Male Voice Choir in the auditorium of the Collegiate Institute, last evening. The singers were in splendid voice, the audience was thoroughly appreciative, so much so that every number might have had an encore, had time permitted, and the work of the assisting artists was exceptionally well received. These were Miss Geraldine Collins, soprano; Miss Gwen Parnell, elocutionist; Master Victor Coleman, boy soprano; an instrumental trio composed of S. Northrop, A.T.C.M., H. Northrop, A.T.C.M. and Jack Thackeray, playing violin, piano and violoncello, respectively; and the orchestra of George Street United Church, with W. H. Cunningham as conductor. H. Northrop acted as accompanist for the evening, giving splendid support to choral and solo numbers alike.

The choir, with its new conductor, Thoma Phillips, presented the concert in aid of the Unemployed Relief Fund and the success of their effort and the good-sized audience of nearly our hundred people, fully justified the endeavor to assist in the present abnormal situation of unemployment and need.

This well-known choir sang with all its usual verve and fine attention to detail in attack and release and in pianissimo and forte shading. Its well-controlled volume was demonstrated most admirably, perhaps, in several buoyant, fresh, full-voiced numbers with ringing rythm: the 'Soldiers' Chorus" from Gounod's "Faust"; "Rolling Down to Rio" by Edward German, and Maunder's "Border Ballad," that swinging, marching song of the lads of the hill and the heather.

Oley Speak's "Morning," that triumphant matin song, was marked by a smooth, rounded volume of one that rolled out in the fresh adences while the extreme enjoyment that this group of singers seems to take in their own music, an enjoyment that adds much to its presentation, was appa ent in the melodic arran ement of the par. song arrangement of the well-known number, "The Bells of St. Mary's," which rendering brought an enthusiastic encore from a pleased audience. It was a catchy arrangement that owed much to the chime accompaniment played by C. Barton.

The chorus entitled, "Zut! Zut! Zut!" (Remember) was a notable one, with a lot of fine work in its careful shading of the old war ballad, "Come! give it a lift, our old-time march-song." set the note of martial remembrance for the unusual reiterated phrasing, that died finally to a soft, murmurous memory. "The Lost Chord" was another sweet-voiced, part song.

The choral program concluded with Pinsuti's soft-toned composition, "Good Night, Beloved," and the National Anthem. A well-sung rendition of "O Canada! Our Fathers' Land of Old," opened the program of the evening. It is an attractive setting: "O Canada! Our Father's Land of Old, thy brow is crowned with leaves of red and gold. Beneath the shade of the Holy Cross, thy children own their birth——"

**New World" Symphony.**

The program was varied admirably by the inclusion of vocal, and in trumental solos and readings. The outstanding artists of the evening were the three clever young men who are progressing with such leaps and bounds in their trio work: the two Northrop brothers, Stanley with his violin and Harry at the piano, along with Jack Thackeray, 'cellist. They play with an absorption and skill, with a smooth, sweet tone and splendid musicianship, that makes their music a delight and promises or them much in the future. Their first number was the lovely, fibrous music of the "Goin' Home" composition from Dvorak's well-known "New World Symphony' (Aus der Neuen Welt), with the plangent, delicate melody twining its way through difficult and varied nstrumentation on the three stringed instruments. This brought the same return of generous, loud applause and the encore number that marked the second rendition by the trio, in the brilliant, dashing music of the "Student Prince."

Miss Geraldine Collins' attractive sweet soprano voice was heard to splendid advantage in an opening double number, Henschel's vibrant, "Morning Hymn,' and the "Ave Maria" of Gounod, with the noble Latin words against a background of violin trings played by Stanley Northrop. This prayer hymn was beautifully sung, as was Miss Collins' later number, the graceful selection, "Bird Songs at Eventide" with a dainty encore.

Miss Gwen Parnell's readings were much appreciated and were finely given. This youthful elocutionist was at her best in the varied mimicry of the jolly selection, "Friday Afternoon in a Primary School," with its cute little encore, and also received an encore for her opening rendition of "The Last Hymn," centering about the song of the shipwrecked sailor. The off-stage echo of the old favorite hymn, "Jesus, Lover of My Soul," which accompanied this selection, was sung by A. V. Lillow in a very sweet voice.

Master Victor Coleman, boy soprano, made a great impression on his hearers last night. This small man with his quiet manner and his clear, pure boyish treble that is capable of such good work, sings with ease and skill and his numbers were both encored heartily and unreservedly. They were the well-known and pathetic "Daddy" song and that old song of love and pathos, seldom heard, always attractive, "In Old Madrid," with the boyish soprano ringing out in the measures of a love song of old Spain. "Who is Sylvia?" was one of the two encore numbers given by the boy soloist.

An octette from the Male Voice Choir provided an interlude in the massed choral singing with several well-chosen and finely sung numbers. The group was composed of Messrs. Fleming, Williams, Flowers, Fulford, Siddall Stevens, Wade, Braund, with Messrs. Williams and Wade providing tenor and bass solo work for the octette, which sang in splendid voice, "The Deathless Army," "The Trumpeter" and 'Annie Laurie."

The bright, gay, well-played music of the orchestra from George Street Church, led by W. H. Cunningham, was a very attractive portion of the entertainment of the evening. They played the audience in and out with three brisk and stirring marches, including Sousa's composition, "The Thunder," and, during intermission, they gave the well-known melodious music of Von Suppe's overture, "Poet and Peasant."

During the interval in the program, the honorary president of the choir, the Hon. G. N. Gordon, K.C., spoke briefly. The appearance of the speaker was greeted with rousing applause. He thanked the choir for the kind thought for the needy which had prompted their effort, also the assisting artists, and went on to speak in eulogistic terms of the work of the recent conductor, M. B. Chenhall, who, in 1929, took the group to New York and there won one of the major awards in a continent-wide choral competition.

During the interval also, two tiny tots, clad in mauve butterfly suits, advertised the coming Y.W.C.A. Gym Pageant very pleasingly in a brief appearance. There were little Barbara Miller and June Brewer.

The setting last night was admirable for the black and white suits of the choral singers. The stage was backed by a large flag and the sometimes dark note of the handsome garnet velvet curtains of the proscenium arch were lightened very effectively and simply by two notes of light from a tall floor lamp placed at either side. Large ferns in pots were placed along the footlight row.

Miss Dorothy Worboy acted as treasurer last evening and ushers were trimly-clad young girls, members of All Saints' choir, the Misses Ivy James, Connie Downes, Annie Williams, Ethel Theobald, Hazel Barrie and Violet Goddard.

The piano for this relief concer was loaned by Heintzman and Company, who also kindly donated the programs, the Canadian Department Store, Ltd. loaned the platform furnishings and D. Jodon provided the decorative plants.

## FASHION HINT

"How to make my old short skirts conform to the new length was a problem to me until I hit on this plain. I dropped the hems; and as the part that had been turned under was darker than the rest, I redyed the entire dress, after having bleached the goods, following directions in the Diamond Dyes package.

"I used Diamond Dyes for the redyeing, of course. I have dyed many things with these wonderful colors. They have saved me many dollars and have never failed to give perfect results—smooth, even colors—fast to wear and washing. Friends think my things are new when I redye or tint them with Diamond Dyes. They do give the most gorgeous colors!"

Mrs. G. C. Levis, Quebec.

# UNITED CHURCH YOUNG PEOPLE ATTEND BANQUET

### Missionary and Maintenance Committee of Presbytery Hostesses for Affair.

### SPLENDID ADDRESSES.

### Rev. George Williams is Special Speaker for the Occasion.

Young people, representing the Sunday schools and Y.P. societies of Peterborough Presbytery, were guests last evening at a delectable supper banquet in St. James' United Church when the missionary and maintenance committee of the Presbytery acted as hosts.

Arrangements for the gathering were in the efficient hands of Rev. J. V. McNeeley, M.A., B.D., of Keene, and chairman of the Young People's department of M. and M. work.

Rev. T. M. Wesley, of Knox United Church, Lakefield, as Secretary of the Presbytery was chairman for the occasion. Homer Borland led the community singing which opened the program. This was followed by a brief address by the chairman, who spoke of banquets as being incentives to greater efforts and urging a spirit of optimism among young people, Rev. A. E. Moorhouse welcomed the conference to his church, emphasizing the fact that even in this time of depression, Canada is a land of plenty, which should augur well for the future of the church.

Representatives from twelve charges in the Presbytery stood in response to the Roll Call.

**Outlines System.**

As a means of early training in missionary giving, George D. Walker, outlined the system adopted by George Street Sunday School in 1917 and known as "The King's Bank." This banking system with an objective of "two cents a Sunday for Missions" has proved an unqualified success, and has been operated with no expense to the Sunday School nor has it detracted from the givings to other sources.

A pleasing variation in the program was the group of delightful vocal solos "The Garden of Your Heart" and "Sing, Sing, Birds on the Wing," contributed by Mrs. Richard Cowan, of Trinity Church, who was accompanied at the piano by Miss Olive Prest.

The Rev. Mr. Stillman, chairman of the M. and M. committee of the Presbytery spoke briefly of the policy of the conference in stressing young people's work along this line. For this purpose such conventions are called bringing Y.P. societies and Sunday Schools together in a common organization. The need is felt for training young people in missionary givings and this year they have been allocated one-eighth of the church budget. Mr. Stillman gave some illuminating statistics of their progress last year, but use of a chart comparative figures.

**Guest Speaker.**

The guest speaker of the evening, Rev. George Williams, was introduced by Rev. J. O. Totten, who spoke of his excellent service to the church as both minister and missionary to Formosa. In his position as Field Secretary for the M. and M. work of the church in Bay of Quinte and Hamilton Conferences, he has also achieved splendid results.

In his stirring address, Rev. Mr. Williams brought a challenge to the young people. First that they catch something of the vision and heroism of the last generation who were practicelly the pioneer missionaries of our church. The task of modern missions is begun—but is not finished. There are millions—not of those who won't believe, but of those who have never had the chance to hear of Jesus.

The second challenge is that of human suffering which might be alleviated if not wholly done away with. The humanitarian spirit is prominent to-day We are blessed in a marvellous way for more than we can appreciate. It is on duty to tell others the message of the God of love, who came to earth to change our outlook upon life. Lastly there is the challenge of the hungry heart. In every land human hearts are hungry for the living God. Sacrifices are being made to meet this hunger. The greatest thing in life is to live so as to give expression to the Life of Jesus. Workers are falling by the wayside, and the challenge comes to you young people to fill up the ranks. In closing, Mr. Williams expressed the wish that through such meetings as these we might catch a great vision of Jesus Christ and let His spirit fill us. Prayer was offered by Rev. David Wren, for the fulfilment of this challenge.

On behalf of the Presbytery, Dr. Middleton thanked the ladies of St. James' who had provided the bountiful banquet, and the chairman thanked Mr. Williams for his inspiring address. The national Anthem brought to a conclusion this successful and mutually helpful convention.

The Ladies Aid are to be congratulated upon their splendid service and the excellent repast. The table decorations were carried out with pussy-willows, daffodils and flowering geraniums.

## WEDDINGS

**HANRAHAN—McKEIVOR**

At the Immaculate Conception Church, on Wednesday morning, the marriage was solemnized at half past seven o'clock, of Mary Helen, eldest daughter of Mr. and Mrs. T. Hanrahan, and Justin McKeivor, son of Michael McKeivor of Douro. The Rev. Dean O'Sullivan performed the ceremony.

The bride wore a lovely gown of poudre blue georgette trimmed with Spanish lace, with a white hat and shoes and white fox fur scarf. She carried a bouquet of white and pale pink carnations.

The bridesmaid, Miss Rita Hanrahan, was in becoming frock of pink georgette and tan hat and shoes.

Max McKeivor acted as best man for his brother.

After the ceremony, a dainty wedding breakfast was served at the home of the bride's parents on Armor Road, with decorations carried out in pink and white.

After a honeymoon spent in the city, Mr. and Mrs. McKeivor will leave for White Plains, New York, where they will reside. For travelling, the bride will wear a dress of sand tricotine, with coat, hat and shoes to match.

## SUNG EUCHARIST PROTESTED

Singing of the Eucharist before the prayer of consecration caused a protest by Protestant demonstrators at St. Faith Church, Great Crosby, England, recently. About a dozen men who sat in three groups taking no part in the service, remained standing, and one man shouted: "I would like to know if this is a Church of England? I protest against this illegal service." Church officials escorted the men from the church, but eventually the service was continued.

GRANT'S
DRY CLEANING
Is Sensible ECONOMY

THE junking of wearing apparel and housefurnishings before they have served their full wearing capacity is unforgivable wastefulness. It is especially so when our thorough and low priced service is so conveniently and effectively at your service with no more effort than a phone call. # Leafs Win First Game Of Baltimore Series

## TORONTO CLUB DEFEATS BIRDS TO LEAD LOOP

**Barnes Puts Indian Sign on Orioles as Leafs Batter His Opponent.**

**TAKE 5-1 COUNT.**

**Bill Rogell Scores Three of His Mates With Four Hits.**

BALTIMORE, Md., April 25. — Frank Barnes, pitching his first game since his acquisition from the New York Yankees by the Leafs, had the Indian sign on the league-leading Orioles yesterday afternoon, the clever southpaw thoroughly taming the clan of Manager Maisel by a 5-to-1 score.

Barnes was invincible. In the seventh inning Don Heffner, 19-year-old Baltimore second-baseman, who hailed from the local sandlots, did manage to wallop the ball into the right-field bleachers; but, with this trifling descent from effectiveness, only one other Bird even reached third base.

In the language of baseball men, Barnes had "plenty." His curve was fast and sharp-breaking, his fast ball cut the ozone, and he was the soul of steadiness, not an Oriole batter being given a ticket to first during the course of the afternoon.

Luther Roy, considered the ace of the Oriole pitching staff, opposed the portside flipper, and while Roy yielded 11 hits, he did not hurl bad ball. However, Roy's efforts suffered by comparison with Barnes', whose flinging was about the best seen at Oriole Park this season.

**Rogell's Hitting a Feature**

While Barnes dominated the mound it was Bill Rogell, "a shortstop with a punch," who used his bat to the subjugation of the Birds. Facing Roy five times, all Bill did was to pound out two doubles and a pair of singles, knocking three of his mates over the plate with his lusty blows.

Another infielder, who had his eye on the ball, was the guardian of the hot corner, and Nolen Richardson with a double and two singles proved that Roy was just another "sweetheart" to him.

Some idea of Barne's effectiveness may be gleaned from the fact that, with the exception of Boyle, Oriole lead-off man, none of the first four batters opposed to him were able to hit safely. Barnes had Johnny Gill, the Oriole clean-up batter, completely muzzled, fanning him twice, and sending him back after weak efforts in the other times he came to bat.

## Wrestling Last Night.

PHILADELPHIA, Pa.—Karl Pojello, Chicago, threw Sandor Szabo, Hungary. One fall, 40:27 (heavyweights); Jim McMillen, Chicago, defeated Rudy Dusek, Omaha, decision 45 minute time limit.

ERIE, Pa.—Wladek Zbysko, 230, New York, threw Ivan Vactuross, 235, Boston. One fall, 22.00. Firpo Wilcox 233, Tulsa, Okla, threw Floyd Marshall, 210, Phoenix, Ariz. 18:00

BOSTON—Jim Londos, 204, threw Sergi Kalmikoff, 260, Russia, in 25 minutes. Tony Roebuck, 255, was disqualified for punching Hans Steinke, 260, Germany.

Fred Crombeier, 200, Des Moines, won decision when Oini Caribaldi, 209, Italy, fell through ropes and was injured. Ray Steele, 204, (Lendale, Calif., threw Rex Smith, Detroit in 15 minutes. Charles urban, Philadelphia, threw Tom Laural, New York, in 20 minutes. Wee Willie Davies, Virginia and Nick Zeleniak, Russia, drew in 30 minutes.

## *Inside Sportin' Dope—By A. Wise Cracker*

Well, Mac, up to to-day, Thurs., them Athaletics of mine ain't been doing a great deal, but I for 1 ain't lost heart. Them babies is going to get going before long, and when they do, old-timer, they'll be looking back over their shoulder at all and sundry. At least that's my story and I'm sticking to it. Their slump has been the only unusual feature about the A. L. race so far, the rest of the teams running along about what the crickets predicted. The Yanks, however, has run into a big chunk of bad luck this week, owing to Mister Geo. H. Ruth, which I call the Big Bambino, having torn a ligament or something in his leg. Without Ruth the Yanks ain't the same ball club, and while the big boy has fooled the prophets often before, the way he collapsed this week looks like the Babe's day is beginning to wane. When a ball player's underpinnings start to cave under him his days in the regular line-up is numbered, though in the case of Mister Ruth, so long as he can stagger up to the plate, they oughta be a place for him as a pinch-hitter.

In the National loop, Mac, so far the Boston Braves has provided most of the fireworks. It looks like the Braves has uncovered some promising kids, this here Rabbit Maranville and this Tom Zachary being likely to stick around for some time. It used to be the Bean Eaters was considered a set-up, but if you think they are this year, just ask Mister Wilbert Robinson over at Brooklyn, but keep a safe distance away from him when you put the question.

At home here, Mac, they ain't much doing, but it begins to look like the senior ball club proposition is having tough sleding. In the 1st place, the Central loop ain't what it used to be. Kingston is definitely out, and they ain't much signs of life from Oshawa, while so far as the locals is concerned, they ain't no rush to line up. The chances is Mister Ranger's team may finally drop into the E. P. loop, taking the place of the Crescents. That will give the East Peterborough circuit a nicely rounded out 4-club group, but unless the E. P. moves up it won't mean a senior team for this berg.

Well, Mac, they ain't nothing you or me can do about it, so why worry

Sportfully yours,
A. WISE CRACKER.

## BATSMEN CLOUT 15 HOMERS IN 7 MAJOR TILTS

**Hornsby Equals Present Day Record by Connecting for 3 Circuits in One Game.**

**DEFEAT PIRATES 10-6.**

**Simmons Has Homer and Two Triples to Allow 10-7 Victory for Athletics.**

By HUGH FULLERTON, Jr.
Associated Press Sports Writer

The major league pitchers have generally held the upper hand over the batters so far this season, but in one swoop the boys have shown that the new "dead" ball is not so dead that it can't be hit hard and far.

Seven major league games yesterday produced 15 home runs, well distributed among the competing teams, and plenty of additional extra base swats. Rogers Hornsby, sturdy manager of the Chicago Cubs, alone exploded the yarn about the thicker cover and raised seams of the pellet used in the National League. He clouted three home runs in succession to play the leading role in his team's 10-6 victory over the Pittsburgh Pirates.

**With one single to boot, these three homers accounted for eight runs and tied the modern major league record for homers in one game. The all-time mark is four, made by Bob Lowe and Ed Delehanty back in the 90's.**

The home run hitting was distributed among nine clubs. The three by Hornsby and two by Glenn Wright of Brooklyn gave the National League with the supposedly deader ball, a 9-6 margin in the number hit. Wright's swats, one homer by Del Bissonette and some fine pitching by Watson Clark, enabled the Robins to win their second game of the season, defeating the Boston Braves 6 to 1.

The Phillies and New York Giants put the first time game of the season on record as darkness halted their clash after 12 innings with the score 7 to 7. Kept idle again by the weather, the St. Louis Cardinals heard good news when Chick Hafey agreed to terms and bad when it was learned an injury will keep center fielder Taylor Douthit out a week or more.

**Simmons Leads A's**

Al Simmons, whose failure to hit has retarded the progress of the champion Philadelphia Athletics, broke loose to show the American League how to clout the ball.

Simmons connected for a homer and two triples to lead the A's to a 10-7 victory over Washington.

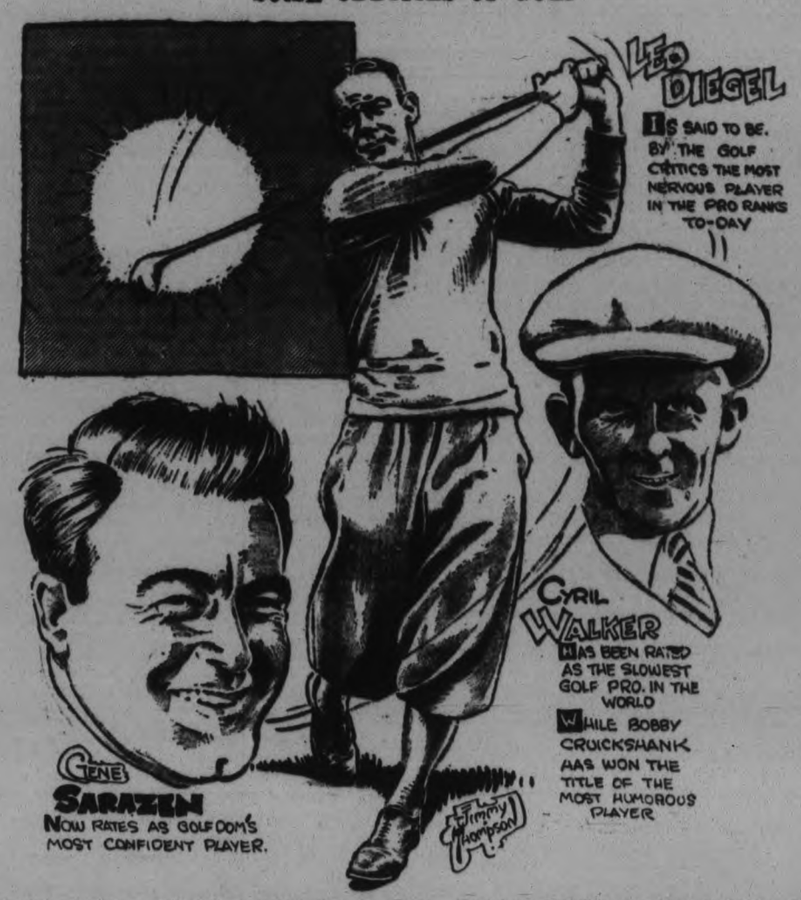
Red Ruffing combined pitching and hitting as the Ruthless Yankees trounced the Boston Red Sox 7 to 4. Pitching alone still held sway in the two western games of the American League. Earl Whitehill gave the St. Louis Browns five hits, two of them homers, in a mound duel against Sammy Gray, Detroit winning 4 to 2. Willis Hudlin of Cleveland pitched a four hit shutout against Chicago for eight innings and let up in the ninth to gain an 8 to 1 triumph. Altogether he gave seven blows.

## *Clayton Sheedy Is Released By Leafs*

BALTIMORE, Md., April 25. (CP) Following the announcement yesterday that the Toronto baseball club of the International league had secured Ivey Shiver, hard hitting outfielder of the Detroit Tigers, of the American League on option Manager Steve O'Neill, of the Maple Leafs announced the outright release of Clayton Sheedy. Sheedy has been with the Toronto club for the past three seasons, coming from the Baltimore Orioles. During his first season with the Leafs he held a regular outfield berth but in 1929 was loaned to Buffalo on option returning to the local club last season.

# Berg Knocked Out By Tony Canzoneri

## SOME ODDITIES OF GOLF



Whenever you see a golf gallery you will usually find them picking out a player here and there for special attention. It is not always the best players who receive all the interest, the unusual demanding just as much or more than the better players. The following list is a selection made by several of the leading professionals. It is to be noted that Bobby Jones excels in almost every part of the game. Finest swinger, MacDonald Smith; finest shotmaker (irons), Armor finest shotmaker (woods), Jones; finest putter, Jones, Horton Smith (1930 edition); most consistent, Jones, Sarazen; finest competitive temperament, Walter Hagen; best liked, Wilfy Cox; most excitable, Harry Cooper; easiest going, Ed. Dudley; most humorous, Bobby Cruickshank; best dressed, Joe Kirkwood; longest hitter, Clarence Gamber; most nervous, Leo Diegel; most confident, Genera Sarazen; most promising, Paul Runyan; slowest, Cyril Walker (runner-up, Tommy Armour); best bridge player, Craig Wood; finest back swing, Joe Turnesa; finest trap player, Johnny Farrell; most worried, Horton Smith. Probably you do not agree with some of the above selections, as it is merely a matter of opinion. Some of them may need an explanation. You could sit down and write a story about the unusual in golf. There is Cooper, who in exasperation breaks his clubs; the very careful Cyril Walker, who annoys all those behind him, and many others. Horton Smith might have been named the best putter last year even by Bobby Jones, but he fell down on his long game, which quickly affected his putting as well, and he was named the most erratic player.

## MOORE'S HOMER WINS FOR BEARS

**Newark's Latest Acquisition Aids Bruins Take 6-5 Decision From Royals.**

**WINGS DRUB KEYS.**

NEWARK, April 25.—Joe Moore, outfielder, obtained an option from the New York Giants, celebrated his first appearance with the Newark Bears here yesterday by driving a home run into the leftfield bleachers with two on bases to enable the Bruins to beat the Montreal Royals, 6-5.

The blow came in the sixth inning when the Bears were trailing 5-3. Al Head, Montreal catcher, also hit for the circuit, driving the ball over the left field wall in the third inning with one man on base.

**WINGS DRUB KEYS**

READING, Apr. 25.—Rochester won the opening game of a five-game series here yesterday by defeating Reading, 8 to 4. It was the Keystone's eighth defeat in nine games. George Bell, Reading's starting pitcher, was blasted off the hill after allowing five runs in the first two innings. George Fisher hit a home run with one on base in the fourth inning, and Paul Florence hit for the circuit with the bases unoccupied in the fifth.

|---|---|---|---|
| Rochester .....230 210 000— | 8 | 11 | 1 |
| Reading .....300 010 000— | 4 | 10 | 0 |

**BISONS BOMBARD PESTS**

Jersey City, N. J., Apr. 25.— The Buffalo Bisons bombarded a quartet of Jersey City pitchers here yesterday for a total of 11 singles and mixed with no less than 10 bases on balls and a couple of errors. They were good for 10 runs, to give the Bisons the first victory of the series by a 10 to 8 score.

West, Morrow, Shinners and Sax hit home runs over the left-field wall.

| Jersey City ....050 030 000— | 8 | 9 | 2 |

Gould, Michaels and Crouse; Graf W. Brown, Nekola, Hartmann and Morrow.

**NUTHALL BEATS RYAN**

LONDON, April 25.—(CP).—Betty Nuthall, the British girl who is women's tennis champion of the United States, yesterday confounded those critics who said she was not playing good tennis by defeating Elizabeth Ryan, the former United States star, in straight sets in the semi-finals of the women's singles of the West Side County Club invitation tournament.

The scores of the match were 6-1, 6-3.

## *Gadou And Dempsey Lead On Sixth Day*

MONTREAL, Que., April 25.—(By the Canadain Press).—Laurent Gadou of Montreal and George Dempsey, Australia, teamed in the six day bicycle race which ends to-night. 1633 miles and eight laps and had 186 points in the sprinting contest. Four other teams, all of which had held the lead at various times since the contest started, were tied for distance in second place, one lap behind the leaders. They were Lepac and Peden, with 234 points, Black and Fielding with 194 points, Laporte and McNamara with 185 points, and order and Bartell with 150 points. Stubecke and Gaston led all in point standing with 269 but were two laps behind the leaders. Baggio and Blondet were five laps behind, Boogmans and Declerck 10 laps, Rossi and Maltese 14 laps and Fischer and Pitz trailing seventeen laps behind the leaders.

**VETERAN ATHLETE DIES**

ST. CATHARINES, Ont., April 25.—(CP).—Herbert Fairfield of the old established firm of Fairfield and Son, stationers, died yesterday at Homewood Sanitarium, Guelph. He was a member of the senior athletics lacrosse club forty years ago.

**HAFEY JOINS CARDS**

ST. LOUIS, April 25.—(CP).—Charles (Chick) Hafey, heavy hitting outfielder yesterday telegraphed President Sam Breadon of St. Louis Cardinals that he would accept Cardinals terms and would leave for St. Louis from Berkeley, California, early next week.

## *Denies Australia Repudiated Debts*

VANCOUVER, B.C., April 25.—"My mission, chiefly is financial: I hope to bring about a funding arrangement of our debt," stated Hon. A. C. Willis, who is here en route to London, where he will be Agent General for the Australian State of New South Wales, in an interview here yesterday.

New South Wales has not repudiated her debts: She merely chose between allowing thousands to starve and meeting interest due in Britain, said Mr. Willis. "In good time New South Wales will meet her just obligations."

"Premier Lang had his choice," Mr. Willis continued. "He could allow thousands to go hungry or he could ask those to whom interest was due to wait.

## NEW YORK ITALIAN RETAINS LIGHTWEIGHT HONORS BESIDES WINNING WELTERWEIGHT TITLE

**Canzoneri Complete Master Over Briton in First Two Rounds of Battle.**

**SPECTACULAR.**

**Terrific Right Across to Berg's Chin Sends Challenger to Canvas for Count.**

By William Weeks
(Associated Press Sports Writer)

CHICAGO, Ill. April 25.—Tony Canzoneri, grinning Italian from New York, has scaled pugilistic heights never before attained by a little fighter.

Little Tony, a shortender in the betting, last night fought one of the finest battles of his eventful career to wreck the drive of Jack (Kid) Berk of Great Britain, by a stunning knockout victory in the third round of their scheduled 10-round title bout last night in the Chicago stadium.

The triumph over the gallant son of Great Britain preserved Canzoneri's hold on the lightweight championship of the world, and added Berg's junior welterweight crown to the Canzoneri collection. Canzoneri, considered more or less washed up after losing the featherweight title to Andre Routis of France, in 1928, surprised the fistic trade by blasting the lightweight championship loose from Al Singer last November.

Before he climbed into the ring last night to tacle Berg, who had not met a reverse in 26 starts against ranking opposition, there was more talk that Canzoneri was washed up—legs gone. But he fought a cold, almost mathematically perfect battle to completely outclass the serious-faced Briton.

Cool and watchful, he walked out in the first round and without wasting a motion or taking an unnecessary step, Canzoneri went to work on the slambang Britisher. In spite of his apparent mastery, the knockout lacked nothing in dramatic thrill. They stood in a neutral corner firing away, Canzoneri carefully and Berg working in his characteristic windmill fashion.

**Tony stepped away, then in, dropping two sharp rights on Berg's head. Berg kept on coming in. But straightened up just in time to take a perfectly aimed right smash full on the chin. He flopped to the canvas like a sack of meal. Thoroughly out, Berg rolled over and instinctively attempted to hoist himself to his feet. He partly succeeded with the aid of the ropes as Referee Little Phil Collins said "seven," but his legs refused to support him and he slumped back on the floor. Collins stepped over and raised Canzoneri's arm.**

The cool, calculating Canzoneri of the fight disappeared and he jumped about the ring, almost delirious with happiness. Then as he received the National Boxing Association's diamond-studded championship belt from General John V. Clinnin, President of the N.B.A., and Chairman of the Illinois State Athletic Commission, tears trickled down through his wide grin. He rushed over to Berg to shake the Briton's hand. Berg, still dazed, hardly realized what had happened.

Canzoneri was still excitedly elated when he started dressing. His 55-year-old father had seen him fight one of his greatest fights, and he had come into his third world title. He had done as he predicted in knocking out Berg in less than five rounds.

**"Berg is a game fighter; but I was sure I could knock him out," the double titleholder said.**

**Berg was almost heart-broken over his failure.**

**"He got to me before I was warmed up," was his only comment.**

The fight was packed with action every second of the way, but the Stadium was far from packed, only 11,780 watching it, and the comparatively small sum of $54,990.48 was taken in at the gate. Of this amount, taxes deducted, Canzoneri received 50 per cent, or between $20,000 and $25,000, while Berg's 10 per cent amounted to about $5,000.

## Yesterday's Stars.

**Rogers Hornsby, Cubs — Hit three successive home runs and a single, driving in eight runs to beat Pittsburgh 10-6.**

**Charley Ruffing, Yankees—Held Red Sox to six hits and contributed homer to Yanks' 7-4 victory.**

**Hughie Critz, Giants — Made four hits in six times up as Giants and Phillies played 7-7 tie.**

**Earl Whitehill, Tigers—Limited Browns to five hits to win 4-2.**

**Al Simmons, Athletics — Hit homer and two triples to help beat Washington 10 to 7.**

**Watson Clark, Robins—Pitched Brooklyn to its second victory of season, giving Braves only five hits to win 6-1.**

**Willis Hudlin, Indians — Shut out Chicago for eight innings to gain 8 to 1 victory.**

## CENTRAL SCHOOL SWAMPED UNDER 19 TO 3 DEFEAT

Good and Bad Ball Displayed in Public School League Fixture.

TWO HOMERS.

Nice Pitching, Extra Base Hitting and Numerous Errors Feature Game.

King Edward School team opened its season on the home diamond by slapping a 19—3 defeat on the boys from Central. A cool breeze bothered the players and the large crowd of spectators alike. Good and bad ball was displayed in a game notable chiefly for nice pitching, extra base hitting and numerous errors, the latter on the part of the losing team.

The first Central batter up, Wiley, connected for a long homer, but only in the third inning did the losers cross the plate again. They got two runs then when another homer, this time by Ascott, drove in McLelland ahead of him. From then on Field, a left-hander, kept the score sheet clear, pitching a fast ball with a nice change of pace that fanned twelve. A total of four hits, including the two homers, was all the Central nine could collect off him.

Wiley, the losers' moundsman, also pitched a good game, striking out nine and only walking a few, but he received little or no support. No less than twelve errors between the infield and the outfield accounted for most of the runs. Patterson nicked him for a four-ply blow in the fourth, but it was the third frame that gave Wiley the most trouble when two triples, two singles and two doubles, along with five errors, let in six runs.

The Central School team was never in the lead but looked to have a good chance until the last of the third. After that, the King Edward bunch had it pretty much their own way, hitting hard and fielding nice, while the losers' were being mowed down one, two, three. And their work in the field grew rapidly worse. The sixth inning finished them when the southenders used two singles, two doubles, a walk and three misplays to tally half a dozen more. Wiley had to strike out three to retire them in this frame.

**No Outstanding Play**

There was no outstanding play made in the field by either squad, though the King Edward boys grabbed off a few nice flies and scooped up a number of fast grounders. At times, the losing team retired the side in short order through fair fielding, but not very often.

The teams:—

Central.—Wiley, p; Fair, ss; Ascott, 3b; Wright, 1b; Marshall, 3; Herron, lf; Anderson, rf; Doherty, cf; McLelland, 2b.

King Edward.—Heal, ss; Mowry, c; Hall, lf; Dunkley, 3b; Jobe, cf; Todd, 1b; Field, p; Patterson, rf; Watson, 2b.

Umpire.—G. Northey.

Score by innings:—

| | R. | H. | E. |
|---|---|---|---|
| Central .....1020000— | 3 | 4 | 12 |
| King Edward .....316126x—19 | 14 | 2 | |

## SPORTS

SOCCER, BASEBALL, GOLFING
**Day by Day**
ACQUATIC, SOFTBALL, TRACK

CASUAL COMMENT

The Seniors are to work out this afternoon at the Exhibition Grounds, sandwiched in between two E P. L. team practises. And the C.O.B.L. meeting is in Belleville today, too. They'll know definitely whether Oshawa is coming in or not.

• • • • • • •

The Motor City outfit may decide to get into the Central League again, now that Kingston has dropped out. "Hank" Cohen never did like that long hop to the Limestone town, and it was never very popular with the Petes either.

• • • • • • •

If those three towns decide to return again, the Central League ought to get along better. Three good teams, with none of them having much travelling to do, should display the old time senior brand of ball that the fans want to see. However, the C.O.B.L. may not function at all this year. No one can tell till after to-day's meeting.

• • • • • • •

They've got a few good exponents of the manly art up in Midland. Some of them ought to be brought here if possible for the show at the Armouries next Friday night. Gord Garwood has the promise of three of the better Lindsay mittsers to come down again, and efforts will be made to get a number of others from different cities to participate.

• • • • • • •

Half a dozen of the local boxers can swap punches with any one in their class, and all the boys have been in good shape a month or so now. They will keep working out nightly next week up at the Armouries and should be hard as nails on May 1st.

• • • • • • •

The baseball season officially opened here Thursday night when Queen Mary School dropped the first game to King George 7-6 on the latter's grounds. This was a scheduled affair in the Public School Baseball League.

• • • • • • •

And yesterday evening, Central bowed under the one-sided score of 19-3 inflicted by the King Edward outfit on their own ground. The last couple of days were not ideal baseball days by any means, but this league must complete its schedule early, hence the early start.

• • • • • • •

However, there was a good crowd of spectators on hand at last night's fixture, despite the cold breeze. And they saw some heavy hitting all around. Three home runs, two triples and six doubles as well as a flock of singles kept the outfielders on their bicycles.

• • • • • • •

Field, hurling from the port side for King Edward, had twelve strikeouts which isn't half bad for seven innings. He fanned McLelland, Wiley and Fair in a row in the sixth. Only a few got free ticket to first base off him.

• • • • • • •

The Central School twirler, Wiley, struck out nine batters and deserved better support for his nice work. Both the infield and the outfield missed some easy ones and this, coupled with the long hits made by the winners, accounted for the big score.

• • • • • • •

Queen Alexandra was white-washed 10-0 by the Prince of Wales crew in the other school game, played at the winners' diamond. The losers were small fellows but they kept trying to break into the run column. The Wales team was too good for them last night.

• • • • • • •

It won't be long until other baseball leagues around the city will be hard at it, but in the meantime, the School League has stolen their thunder and are drawing a lot of fans.

## WEST END TEAM OUTPLAYS QUEEN ALEXANDRA 10-0

Winners Much Superior Both in Defensive and Offensive Sides of Play.

JACK McINMOYLE GOOD.

Fans Twelve Batters in Five Frames and Allows But Three Hits.

In a Public School League fixture played yesterday afternoon on the Prince of Wales grounds, a small but willing Queen Alexandra team lost to the smart Prince of Wales nine by a 10-0 count.

The game was the first clash of the season for both squads and the West End team showed an abundance of class when they whitewashed their rivals, and will prove a tough morsel for the rest of the teams in the league. They proved mighty handy with the willow as the score might indicate, being blanked in but one inning and defensively they were all that could be desired.

Jack McInmoyle turned in a beautiful pitching performance for the winners and in the five frames fanned no less than twelve batters and allowed but three hits.

**Receives Nice Support**

However, he received nice support from his team mates and was helped out of many tight pinches by nice receiving on the part of Kingdon.

It must be said for the losers that while they were clearly out-played by a larger team, they were certainly not out-gamed and it was only hard luck that kept them from not tallying at least once.

Art Ellis, while a bit shaky at times, showed a nice burst of speed on the mound for the losers and with a little steadier support would have held the home team to a much lower count. He showed his mettle in the fourth when after allowing three runs and three hits for a total of five runs, he proceeded to fan the next three batters in a row.

Ash on second base showed up in several nice plays and speared a nice one handed catch in the third when he had to run back for Robert's lob fly.

Clark, on first, also turned in a nice fielding card, holding up everything that came his way, but was rather weak in the hitting department.

**Fans Three in a Row**

To open the first frame, McInmoyle was in rare form and fanned Clark, Ross and Ellis in a row, to chalk up the first goose egg of the lot for the visitors.

For Prince of Wales, Robertson and Kingdon hit safely and came in on loose fielding plays. Menzies and Abrahamson grounded out and McInmoyle fanned to close the inning.

The visitors went out in order again in the second when Ash flied out and Heard and Dainton were strike-out victims.

The homesters tallied three times on as many hits in their half and Roberts, Rusaw and Platt crossed with the counters.

Bradley placed a nice single through short for Queen Alexander in their next chance and stole second. Walton and Morrow fanned and Bradley was caught stealing third.

Prince of Wales were held scoreless in their inning only three men facing Ellis, whose twirling was beginning to prove troublesome to the opposition and it looked as if the visitors might still make it close.

Their inability to hit, made it hard however and when Clark and Ross had fanned in the fourth, Ellis hit, stole second and went to third on Ash's single. But with a fine scoring opportunity in sight McInmoyle rose to the occassion and struck out Heard.

**Tally Five Runs**

The home team went on a rampage in the last of the fourth and before the smoke had cleared, Robertson, Kingdon, Menzies, Roberts and Platt had crossed the platter to send their total to 10. Ellis was a bit wild in this frame, walking three but worked hard to eventually fan the side.

Opening the fifth, Dainton was hit by one of McInmoyle's fast ones and got a free trip to first. He stole second while Bradley and Walton were fanning but the game was over when he tried to make third and after a brief chase in the runway, he was caught by Robertson.

The teams:

Queen Alexandra—Clark 1b., Ross c., Ellis p., Ash 2b., Heard ss. Dainton 3b., Bradley lf., Walton cf., Morrow rf.

Prince of Wales—Robertson 3b., Kingdon c., Menzies 1b., Abrahamson lf., McInmoyle p., Roberts ss., Rusaw 2b., Hope rf., Platt cf.

Score by innings:

| | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| Queen Alexandra .... | 0 | 0 | 0 | 0 | 0 | — | 0 | | | |
| Prince of Wales..... | 2 | 3 | 0 | 5 | x | — | 10 | | | |

Struck out: By Ellis, 4; by McInmoyle 12. Base on balls: Off Ellis 3; off McInmoyle 0. Hits: Off Ellis, 8; off McInmoyle, 3. Hit by pitcher: by McInmoyle (Dainton).

Umpire—E. G. Wagar.

## VOGEL NO MATCH FOR DICK SHIKAT

Clinstock Easy Winner Over Dugid in Wrestling Semi-final.

TORONTO, April 25.—The alleged battle of the Teutons, which brought together Dick Shikat, who now hails from New York, and Karl Vogel, the "bad man" from Germany, turned out to be a mere onesided exhibition, Shikat taking two straight falls in the combined time of 13 minutes and 34 seconds, and sending a crowd of about 3,000 fans, who witnessed the Queensbury wrestling show at the Arena Gardens last night, home very disgruntled. It was a hard blow to Jack Corcoran, and when the end come in the final conflict he arranged for Hills, who had won the curtain-raiser, to oppose Shikat in a fifteen-minute bout of one fall. Shikat threw his second opponent in less than four minutes.

The preliminaries were also far from sensational. George Hills, Nebraska star, took a 30-minute decision from Jack Washburn, of Los Angeles, while in the semi-final Jim Clinstock, the Cherokee Indian from Iowa, who won the favor of the fans in a recent bout with Jim McMillen, former gridiron star, threw Wallace Dugid, Canadian grappler from Halifax, in 10 minutes and 51 seconds.

## British Financier

COMMENTS ON RUSSIA

Sir John Mullens, trustee of the London Stock Exchange and British financier, while in New York recently on world tour on the Empress of Australia, declared that if it meant more business for the rest of the world he hoped the Russian five-year plan would succeed.

## EIGHT TORONTO BOXERS QUALIFY

Fourteen Bouts Decided in Ontario Amateur Boxing Championships Last Night.

FIVE KNOCKOUTS.

LONDON, Ont., April 25 (C.P.) — Popular favorites came through with flying colors in last night's preliminary rounds of the Ontario Amateur Boxing Championships here.

A total of 14 bouts were decided, and to-night the champions will be crowned in all divisions.

Some 2,000 fans saw some splendid leather pushing in the preliminaries. Five bouts were terminated by knockouts. There was only one default, and as a result competition was keen in every class.

Toronto somewhat dominated last night's activities, as eight boxers from that city qualified for the finals and three of them are favored to annex their class titles.

They are Ray Cook, Billy Hughes and Paul Amato, in the featherweight, flyweight and middleweight classes, respectively.

Harvey Fleet, the hard hitting Kitchener lightweight, who is one of the cleverest of the titleseekers, fought his way into the final by a masterful exhibition to outpoint Bruce Campbell of Toronto.

Hamilton will be represented in the finals by Joe Graves, welterweight, and Phil Lighthart, heavyweight. London has one hope for a championship in Dave Smith, welterweight, while Brantford will be represented by Bill Maitch, heavyweight.

Northern Ontario's sole representative, polished Roy Hamilton, qualified to meet Cook in the featherweight final. This bout promises to be one of the highlights of to-night's program. Both boys are fast, clever and hard hitters and appear evenly matched.

**SERVICE AND CO-OPERATION**

Two of the biggest words in modern life are "service" and "co-operation." The service each one can render is made doubly effective by working with one's neighbors. "All for each and one for all"—this way only can Peterborough do better things. Believe in the Peterborough Chamber of Commerce because it is an organization where individual service counts because it becomes a part of a big service to the community.

## Bowling Alley Gossip

By Pin Boy

A heavy-hitting five pin team from the Central Bowling Alleys in Oshawa visited the Duffus Recreation Academy this week and tangled with the Canadians, local city league topnotchers, in the finals of an informal home and home series for an unknown stake. The Canadians who had oozed out squeaky win in the Motor City last week by the slim margin of sixteen pins, came into their own on the local alleys when they unleashed the barrage that smothered the Oshawa crew 3927 to 3513.

The teams consisted of six men each but the visitors who had made the locals step along at a fast pace to stay in the first game at Oshawa were away below their usual form in this week's games. They lost the first two games by over two hundred pins apiece but recovered somewhat to take the third and last tussle by a good-sized margin. Nels Routley with a triple of 804 and Ab. Delahaye with 729 were the "Big Shots" for the Canadians and G. Creamer was the only outstanding pin spiller for the visitors.

| Canadians: | | | | |
|---|---|---|---|---|
| Nels Routley | 223 | 322 | 159 | 804 |
| Freeman | 230 | 203 | 188 | 621 |
| H. Delahaye | 226 | 170 | 190 | 586 |
| G. Gimblett | 185 | 170 | 256 | 611 |
| R. Lewis | 244 | 248 | 184 | 676 |
| A. Delahaye | 252 | 263 | 214 | 729 |
| | 1360 | 1376 | 1191 | 3927 |
| **Oshawa:** | | | | |
| E. Magill | 120 | 181 | 171 | 472 |
| Higgins | 169 | 150 | 229 | 548 |
| L. Magill | 234 | 182 | 163 | 579 |
| A. Roots | 186 | 120 | 186 | 492 |
| M. Morris | 185 | 251 | | 436 |
| G. Creamer | 224 | 201 | 287 | 712 |
| J. Purdie | | | 264 | 264 |
| | 1118 | 1085 | 1310 | 3513 |

The Ladies' City League five pin loop continued the fireworks this week with several exciting battles although most of the scores were just mediocre. The Columbians continued their winning parade by taking eight points from the Brintons, Mrs. D. Prest and Marion Timm with triples of 550 and 502 respectively being high for the winners. Quaker Oats battled to a 6-2 decision with the Metropolitans who won the first game by 12 pins. Nashua Paper produced the surprise of the night when they downed the fast-stepping West Ends in a heavy hitting duel that bristled with excitement. M. Hatcher and D. Copping were the high scorers for the papermakers and T. Pearson was well up for the West Ends.

## THEATRES

### AT THE REGENT

**"Dracula"**

This amazing story was first produced as a stage play in New York more than three years ago, and has since created a sensation when shown in a few of the largest cities of the country. "Dracula" deals with the startling practices of human vampires, those terrible creatures of the "undead" world, who rise from their graves at night and is said to be in many ways the most unusual story ever brought to the talking screen.

Since the picture is filled with such uncanny mystery, the entire setting accords with the mood of the story, and there are said to be remarkable "shots" of fog-shrouded mountain passes, with wolves, howling in the darkness; a terrible storm at sea; and a mysterious, crumbling castle where much of the action of the story occurs.

"Dracula" comes next week to the Regent Theatre, starting on Wednesday, and twenty-five per cent. of the proceeds will be used for relief work and will be turned over to The Examiner's Cheer Fund, which is affiliated with the Peterborough Relief Association.

### AT THE CAPITOL

**MARIE DRESSLER AND POOLY MORAN IN "REDUCING"**

What a comedy team they make—big, rough Marie Dressler with the wonderful inflections in her hoarse, low voice, and Polly Moran with her eternal smile and her buck teeth. They run away with "Reducing," playing at the Capitol Theatre for the last two days of this week. The title, by the way, hasn't much to do with the plot. It is just tacked on, because the laughs don't come from fat ladies reducing, by any means. They gather and crowd about the large and homely form of Marie Dressler as Marie Truffle from South Bend, Indiana, coming to New York to live with her sister, Polly Rochay (Polly Moran proprietor of the Rochay Beauty Parlors. They start when she buys her tickets for the trip from a stammering ticket-seller, progress to hilarity in the crowded sleeping-car where the Truffles bestow themselves for the night, and turn to a riot in New York.

The big heart of the rough-voiced Mrs. Truffle gets its innings in this picture, and she emerges triumphant in the final bit, where the sisters cry comfortably on each other's shoulders, after fighting their tongue battles warmly through most of the production. When her daughter, Vivian Truffle, slides away with the best beau of Polly Rochay's daughter, Joyce, the trouble starts.

It is a production that is packed full of laughs but you must see it to appreciate them. There is the littlest Truffle boy who falls foul of a cuspidor on his arrival in the big city and continues to make mischief throughout. There is Truffle, Senior, with a fondness for a sour-toned flute and a bad habit of snoring. There is Johnny Beasley, a gay young deceiver who loves the ladies, and there is the good young mail clerk who loves Vivian with proper ardor. And then there is Marie Dressler and Polly Moran, Marie with her unconsciously funny wise cracks and her expressive eyebrows, and Polly with her effusion and affection. It is mighty good entertainment.—Jeanette.

What they do on week-days

MR AND MRS.—and their doings as revealed in the comic strip will appear every weekday in The Examiner. Follow "MR. AND MRS.—" and enjoy their human and humorous adventures

"MR. and MRS.-"

EVERY DAY IN THE EXAMINER, STARTING MONDAY, MAY 4

## Fights Last Night

CHICAGO.—Tony Canzoneri, world lightweight champion, knocked out Jack (Kid) Berg., England (3), retained title. Tony Herrera, El Paso, Texas, outpointed Steve Halaiko, Buffalo, N.Y., (8). Omaha, Neb. — Bearcat Wright, Omaha, and Tiger Jack Payne, Omaha, drew (10).

## AB BOX MAY PLAY WITH HAMILTON

Jungle Cats to Adopt Different Tactics in This Year's Schedule.

BILLY HUGHES SIGNS

TORONTO, Ont., April 25 (C.P.) — Smashing line plunges and perfect interference plays may have won Hamilton Tigers a high percentage of football championships during the last five years, but next season the Jungle Cats may adopt different tactics.

Recently the Tiger officials signed Billy Hughes, the well known Montreal mentor, as coach for the team when the "Big Four" champions commence their gridiron campaign next Fall.

Hughes has started strengthening the team already, according to reports here. Albert "Ab" Box, brilliant young punter of Balmy Beach, Canadian champions, has been lured from the Beaches, reports have it, and will do the kicking duties for the Bengals. Box, the greatest backfield find of the season last year, has been reported for various centres. Mid-winter rumors had it Box would be found with a well-known local coach endeavoring to win the Intercollegiate crown for University of Western Ontario.

# CANADIAN PEOPLE SHOULD STOP PREMIER BEFORE EXPORT TRADE IS RUINED LIBERAL RALLY TOLD

(Continued from Page 1)

Wilfrid Huycke of Peterborough was present with groups of Liberals from Hastings and Warkworth.

The meeting was held in the parish hall of Christ Church, which was comfortably filled. Mr. Hepburn's first visit to Campbellford recalled to him, he said, the Northumberland nominations on a sweltering afternoon last July.

"There were two men sitting behind me that afternoon. They were perspiring perhaps more freely than the most of us. After a while I looked around and missed them, and to this day I am not sure that they didn't melt away in that heat."

**W. A. Fraser, M.P.**

After expressing his pleasure in the opportunity of again meeting Liberals of this district, Mr. Fraser said there was one or two things which seemed to be most outstanding in the political and business situation in Canada.

"I believe a great majority of the people realize that prior to July 28 last and on that date they were deceived by the Hon. R. B. Bennett and his colleagues", Mr. Fraser said. "I believe they now realize that Mr. Bennett knew it would be impossible to carry out the promises which he made during that campaign, and also that they realize they made a disastrous mistake. Practically everybody here has followed the course of the present government since they took office, and beyond a doubt they must feel that nearly all the policies of the government have been opposed to their best interests.

After sitting some weeks in the House of Commons and watching the tactics and the attitude of the Hon. Mr. Bennett, I can tell you that there is developing an opposition to his domineering manner among his own followers, and that spirit of resentment will eventually bring about his defeat. His own Ministers will rebel against his dictatorial methods."

"I wish to tell you in conclusion how gratified I feel that Mr. Hepburn has come up with us tonight. There is no more brilliant young man on either side of the House. His friends and admirers have one anxiety and that is his health. If he doesn't let up in his work for the Liberal party he is going to be a physical wreck. He leaves here tonight for Ottawa where he will address the Twentieth Century Club at noon on Saturday. Mr. Hepburn is the member for West Elgin, and the neighbouring riding is represented by William Taylor of Norfolk-Elgin who has also come with us. He is a butter and egg man from near Simcoe, and he is in Campbellford tonight because he is in the dairy industry. One of the big arguments used by the Conservative party in the last election was the question of New Zealand butter. We heard something about it here in Northumberland county. I don't think there is any one more capable of speaking about that question than Mr. Taylor, because of his experience as a practical dairyman. Mr. Hepburn and Mr. Taylor are both young men, and they will give you an idea of the calibre of young blood that is behind the Hon. Mr. King. We have a better group by one hundred per cent than the other side of the House."

**Mitchell Hepburn, M.P.**

"There is a great deal of political thought abroad in Canada to-day; people are anxious to discuss national affairs. We are living in an interesting period; we see conditions constantly changing and are brought face to face with a situation which is taxing statesmen the world over." With these opening remarks, Mr. Hepburn launched into a discussion of the present economic situation.

Back in 1896, the year in which the speaker was born, economists then predicted that before a third of a century had passed the world would be suffering from a shortage of food and clothing and other necessities of life. But we find now instead of that predicted shortage, that the productive capacity has outgrown the consumptive capacity. There is a surplus of goods, notwithstanding which we have suffering and privation. It is a curious situation, and also a terrible state of affairs. There are twenty million unemployed in the whole world, and a condition that has a direct bearing on our standards of living.

Mr. Hepburn proceeded to point out that in this age we have better transportation, better schools and that progress is continually being made in the sciences. We have a responsible government and the right to govern ourselves as we see fit. "Surely," he said, "there must be some solution to the problem of over production."

"We have in office as Prime Minister the Hon. R. B. Bennett. He went around the country condemning the Liberal Party. Now people are beginning to wonder just what it was all about—just what he was roaring about."

The speaker said that Premier Bennett and Armand Lavergne of Quebec, typified the "Tory" mind, the characteristic being that they were opposed to social and economic advancement, or, in other words, conservative in thought, as opposed to the progressiveness of the Liberal school.

"These two men, to my mind, represent the 'Tory' attitude. During the last campaign, Mr. Bennett promised measures for the relief of unemployment if returned to office, but now that he is in office he has no real sympathy for the masses."

As an instance, the speaker quoted from a press despatch from Vancouver, which stated in effect that 1,500 men who were destitute in that city visited Calgary—Mr. Bennett's own town. The Salvation Army officials there described the men as being verminous, dirty and hungry. They were told by the Mayor of the city, that they could not stay in Calgary. Not long ago a deputation of unemployed waited upon Premier Bennett; he was actually rude to them and tried to brand them as 'foreigners.' He drove them away, leaving in them a feeling of hatred against constitutional government and open to the doctrines of Communism.

"This is a dangerous time to have such a man as this in office," he said.

**Quotes Philip Snowden**

Mr. Hepburn said he had been impressed by a statement by Philip Snowden during the time of Bennett's sojourn at the Imperial Conference. Snowden said, "Protection changes the whole order of things, once that principle is applied. It makes Parliament a sink of corruption. . . ."

"There is the key to the whole situation. The principle of Protection is vicious and is contributing to a greater extent than anything else to the situation we are in," said the speaker.

In using the expression, "sink of corruption," the speaker did not wish to hint at anything savoring of bribery or anything of that nature. What he wished to convey was that under the principle of protection M.P.'s are dominated by selfish interests in their own ridings, and have less of a national outlook.

He added that 45 countries are now applying the principles of Protection by increased tariffs. It is a system that is crippling the purchasing power of the people; giving a false stimulation to production, without resulting in a corresponding demand. That is the situation to-day, and a hard situation it is to tackle.

**Butter at 22c a Pound**

Touching upon conditions as they affected the dairy industry, Mr. Hepburn stated, "In this industry we are in a state of chaos. Butter now selling at 22 cents on the Montreal market will," he said, "go even lower yet. The whole trouble is due to false economics."

Australia, he explained, was the first country to commit the sin of bolstering up false prices in the dairy industry, a price which stimulated production without resulting in a corresponding increase in consumption. The same mistake was made by the U.S. who imposed high tariffs on dairy products, and now the Dominion of Canada is the third party to this sin.

"I opposed abrogation of the New Zealand treaty, as a dairyman myself, and said in the House of Commons, do not be disillusioned that this is going to end the competition of New Zealand butter.

**New Zealand Butter**

"Under the Liberal administration we graded our cheese and sold it for two cents a pound more in the Liverpool market than any other producers received. We were importing butter from New Zealand to make up our domestic requirements, and we were exporting millions of dollars' worth of cheese. My contention was that if we shut out New Zealand butter, the New Zealand dairymen would turn to making cheese. They would become greater competitors of ours. There would be a greater production of that dairy commodity and the price would drop. Then, on the other hand, we would greatly increase our production of butter. What happened? New Zealand increased the output of cheese by 36 per cent and the price collapsed. And our butter production has been increasing by leaps and bounds."

"Mr. Bennett's policy has demoralized the dairy industry. We have had a thorough application of the Bennett policy already, and at that rate I can't see any way out. I fear we will end up as Australia has."

Mr. Hepburn's reference to the "nice job Mr. Bennett recently provided for his brother-in-law," was greeted with laughter.

**William Taylor, M.P.**

"We in Canada are facing an economic depression that is felt throughout the world," Mr. Taylor said. "The Liberal Party knew that fact in the last election, and we said so, but Mr. Bennett told the people that the depression in Canada was due to the policies of the Liberal Party. I am in the dairy industry. We have four factories in our county and the present Prime Minister made a particular point to talk about the conditions of the dairy industry. Is the depression last year was largely a result of the Liberal policies, what about the dairy industry under the policy of the Conservative Party this year? I am a milk producer. I defended the Liberal policy. In 1929 we exported sweet cream at 55c a pound and imported New Zealand butter at 40c. I said to the dairy farmers that if we raised the tariff on butter we could thereby artificially raise the price on the domestic market, but if we raised the price to the point of export basis then down would go the price of butter. By the duty of 8 cents a pound you turned the dairyman over to making butter, and the Hon. Mr. Weir this week called in the export men from Montreal and advised them to put butter in storage because the price was going down. Those men know that they dare not store it at this time of the year. The dairy industry is facing conditions worse than we have at the present time, and as a dairyman I hate to say that. And it is because of the policy of the Hon. Mr. Bennett. It is a Canada first policy. But we can't eat all the wheat we produce, and if we don't buy products from other countries, we can't expect to sell our produce to them."

Mr. Taylor spoke of he Imperial Economic Conference, and said that the Hon. Mr. Bennett had raised the duty against British goods, and then went to England with an offer of preference for preference.

"Can you wonder that the Hon. Mr. Thomas called it humbug? Mr. Bennett told the Englishmen they could take it or leave it, because the offer might never come again. In to-day's papers you read almost the same sentiment expressed by Mr. Ferguson last night when he told an audience in Birmingham that in another generation we would be a greater country than Britain. That is an insult to the commonsense of the Britisher. Mr. Ferguson may yet have to remember Sackville-West.

Mr. Bennett is blindly following his policy of protection. In September he put on a tariff that was to alleviate unemployment. You remember what happened to the glass industry and the cotton thread duties. Both had to be taken off again. In my riding a textile company imported the raw product. The duty on it was increased ten per cent. last September. They could not raise the price against the competition, so they lowered the workers' wages. That is how unemployment was helped in that case.

"I sell milk to a powdered milk factory. Last year in January, February, and March I got $1.60 to $1.75 for 3.5 butter fat milk at the factory. This year the highest price was $1.21 for 3.5 milk. In March this year we produced in my dairy 4,660 pounds more milk than during March, 1930, and my cheque was $9.90 less than for March, 1930. If as Mr. Bennett said, the Liberal party was the cause of th conditions in the dairy industry last year, then surely the Conservative Government must be held responsible for the big decline in the dairy industry at the present time."

Mr. Taylor concluded with the assertion that Mr. Fraser's address in the House last week was one of the most thoughtful of the session. The Government talked about wanting suggestions from the Opposition, and Mr. Fraser gave them three, Mr. Taylor said.

"You should be proud of your member for the impression he made at Ottawa."

## Sales Manager.

E. M. BASSINGTHWAIGHTE

Whose appointment as General Sales Manager of De Forest Crosley Limited, radio manufacturers, has been announced by A. L. Ainsworth, Vice-president and Managing Director. Mr. Bassingthwaighte, who has been with the Company since 1925, was formerly manager of the Merchandising Division.

# ANNUAL MEETING OPENS TUESDAY

**Bay of Quinte Conference W. M.S. to be Held in St. Andrew's Church.**

**ENDS ON THURSDAY.**

The annual meeting of the Bay of Quinte Conference Branch of the Woman's Missionary Society of the United Church of Canada, opens in St. Andrew's Church of this city on Tuesday evening and will continue its sessions until Thursday evening. Delegates are expected to attend from points throughout the district extending from Renfrew on the east to Whitby on the west.

The president, Mrs. W. L. Smith, of Pembroke, will preside and at the Wednesday morning session will bring to the conference, the president's address. Mrs. Smyth has won distinction as a speaker and writer on Missionary topics and will undoubtedly contribute a beautiful and helpful message.

The Tuesday evening session is to be devoted to the work of the Young Women, with Miss Constance Young, of Toronto, secretary for Young Women's work, as special speaker. Miss Young, who has spent some years in Trinidad as a teacher, is known to the young women of Peterborough who are interested in Missions, as a most interesting and inspiring speaker.

Miss Effie A. Jamieson, of Toronto, will be warmly welcomed at the Wednesday evening session. As general secretary of the Dominion Board of the W.M.S., Miss Jamieson has travelled widely over the Mission fields of Africa and brings a very wide knowledge of her subject as a charming and fluent speaker.

At the closing session on Thursday evening, Dr. J. H. Arnup, B.A., a secretary of the Dominion Board, will deliver an adress. Dr. Arnup has visited many of the homes in foreign mission fields, quite recently having been to China, and is prepared to present an interesting account of the work as he has seen it carried on.

An excellent musical program has been arranged for each session and pageants will be presented by local missionary groups. Thtse meetings are open to all interested in the work of the W.M.S.

---

Wholesale prices in England have declined 17 per cent in the last year.

**TENDERS FOR PAINTING.**

SEALED TENDERS, addressed to the undersigned and endorsed "Tender for Painting," will be received to 12 o'clock Noon, on TUESDAY, the 28th Day of April, 1931, for the work of Painting at the Queen Mary Hospital, the paint to be supplied by the Board of Health. Specifications may be seen at this office. The lowest or any Tender not necessarily accepted.

S. R. ARMSTRONG,
Secretary,
Local Board of Health.

# 11 BORDER MEN

(Continued from page one)

each of the four counts under the Combines Investigation Act and are made concurrent. On the three charges under the Criminal Code the Court gave suspended sentence. Each of the defendants is under $4,000 recognizance to keep the peace for a period of one year.

The conspiracy charges followed an inquiry conducted by Gordon Waldron, K.C., acting as commissioner for the Federal Government; Louis M. Singer, K.C., of Toronto and Charles E. Padden and Herbert Ward of Windsor were found guilty of conspiracy charges. An appeal has been entered in their cases.

W. F. O'Connor, K.C.; Roy E. Belyea and Harry Weinraub of Toronto were all found not guilty.

The eleven who were fined to-day are Alexander White, Arthur Cook, Herbert P. Pargnell, Albert J Brien, John T. Collins, B. E. Service, F. W. Burford and Frank J. Tansey, plumbers, and J. E. Murphy, J. R. Lynn and H. W. Cunningham, sheet metal contractors.

# Carry Own Liquor To Trophy Final

**LONDON, April 25.—(Canadian Press Cable.) — A dismal dawn with drizzling rain greeted the early arrivals in London from the provinces for the English Football Association Cup final at Wembley between Birmingham and West Bromwich Albion today. The advance guard of the great army of fans from Lancashire arrived at 3 a.m. and thereafter all the railway terminal officials worked unceasingly superintending the unloading of two hundred specials, mostly from the Midlands. One party, mistrusting London's ale, brought their own beer in thirty cases, each containing a dozen bottles, which were reverently taken out of the luggage van and carried shoulder high to a waiting motor coach without a single breakage.**

# MUCH BUYING ON FARMERS' MARKET

**Dairy Products Are Fairly Plentiful—Strawberries Sell at 35 Cents a Box.**

Supplies on the farmers' market had a ready sale this morning, despite the rain. Dairy products were fairly plentiful. Butter sold at 28 to 33 cents a pound, eggs were priced at 15 to 20 cents a dozen, and chickens were 30 cents a pound, with live baby chicks at 16 cents each.

On the outer market, fish was 18 cents a pound, potatoes were 75 cents a bag, little pigs $9 a pair. Beets were 20 cents in six-quart baskets. Maple syrup was 50 cents a quart.

On the fruit stalls, strawberries were a new arrival, at 35 cents a small box, and pineapples were 15 cents each.

435-437 GEORGE ST. PETERBORO

THE SON OF TARZAN No. 48 (Metropolitan Newspaper Feature Service, Inc.) By Edgar Rice Burroughs

With flashing eyes, as she recognized Korak, the girl arose. Nearby lay the Killer's spear—forgotten. Meriem saw and snatched it up. No faintness overcame her in face of this primeval battle. She was excited, but cool and unafraid. Was not her Korak fighting a Mangani that would have stolen her? Deep into the great ape's savage heart she plunged the sharp spear. Korak needed not this help, but smiled his approval of her bravery.

He seemed to be looking at Meriem through new eyes. Had she changed so suddenly within the few hours of his absence? How tall and fine she was! How long it had been since he had found her in her father's village, a little Arab girl, he did not know. Time does not matter in the jungle and he kept no trace of the passing days. His gaze wandered from Meriem to the dead ape. Suddenly he realized something.

Korak's eyes went wide and then closed to narrow slits as they glared down at the abysmal brute at his feet. When next his glance rose to Meriem's face a slow flush suffused his own. Now, indeed, was he looking at her through new eyes—the eyes of a man looking at a maid! He came close to her, the love-light in his face; but she did not understand it, not realizing how close they both were to maturity.

"Meriem," he whispered, and his voice was husky. "Meriem!" Suddenly he crushed her to him. She looked up into his face laughing, and then he bent and kissed her. Even then she did not understand. She could not recall ever being kissed before. It was very nice. She thought it was Korak's way of showing how glad he was. Korak wanted to say something, wanted to tell her how he loved her, but emotion choked him.

# HIGHLY SKILLED TONSORIAL WORK

**By Kent Throop and Assistants in Redecorated Hair-dressing Parlor.**

Another local business man with confidence in the early future of Peterborough is Kent Throop, who has gone to considerable expense in thoroughly renovating his popular hair-dressing establishment on Simcoe street, west of George. The dominating color scheme is pure white enamel, in bold relief of autumn tinted walls, surmounted by a delicately patterned cream ceiling. The three massive and comfy chairs, manned by Kent himself, and Gerald Robson, and Gordon Rothwell, are white with black leather seats and back; the woodwork of the handsome work board and borderings of its huge highly polished triple mirror is also virgin white. The whole effect, coupled with an imposing array of glittering glass containers of hair-dressing and shaving accessories, presents an arresting invitation to enjoy the restful comfort of an immaculately sanitary hair-dressing parlor while undergoing skilled service at the hands of equally immaculate attendants. Kent Throop and his assistants enjoy with both ladies and men a city-wide reputation for highly skilled tonsorial artistry. The decorating was done by Blake Cullen.

# MAIN STREET TOPICS

**Jabs and Jottings as Picked Up by an Examiner Reporter**

**DISTRIBUTING PREMIUMS**

The first distribution of the members' premiums is being made by the Horticultural Society this week-end. The hardy perennials, Delphiniums and Iris are being delivered now, as these two varieties should be planted at once for best results. Members who receive their options should take care of the... without delay to give the roots a chance to make strong growth and bloom well this season.

**BICYCLE OWNERS FINED**

**Two dollar fines were levied on three bicycle owners in Police Court this morning, for riding without lights at night. The Magistrate did not charge costs, but issued the warning that in later cases costs will be assessed.**

**According to the provisions of the Highway Traffic Act bicycles must have at night a lighted-lamp on the front and a reflector on the rear.**

**LOCK YOUR CAR.**

**"Lock your car" is the advice given motorists to-day by Chief Newhall.**

**The Chief said that petty thieves were active in the city and that motorists were inviting losses when they left their vehicles unlocked. "You can't leave anything loose these days and expect to have it when you return," commented the Chief.**

**ENFORCING PARKING BY-LAW.**

Police were busy to-day enforcing the parking by-law. Men were brought in off night duty to take up the job, and a large number of blue tickets, received by the police to-day, were stuck on cars. Summonses will be issued in many of the more flagrant cases.

**HARD TIME PARTY.**

Under the auspices of the Loyal Order of Moose Charity Fund, a "hard time" party was held on Thursday evening, which proved to be a decided success. There were two prizes given, one for the ladies and one for the gentlemen. The former prize was won by Mrs. W. R. Townsend of Chamberlain Street and the latter by John Hodson of Rink Street.

Both prize-winners were certainly "hard" looking cases. The articles of clothing given the prize-winners were of very antique origin. The party concluded with a glass of water and a soda biscuit.

## *Spelling Match Held By Murray Street W.A.*

A real old-fashioned spelling match formed an entertaining item on the program arranged by the Women's Association of Murray street Baptist Church and presented last evening in their Sunday School parlors to an interested and amused audience. The side captained by W. G. Shiner won the match against the side captained by L. H. Ingram.

The program also included a very well-done little once-act play entitled "A Bit of Gossip" with parts taken by Mrs. F. Irons, Mrs. G. W. Fitzgerald, Mrs. D. A. Loomis, Mrs. C. B. Westbrook, Mrs. Stanley Gillespie and Miss Ruth Ellis.

Readings were given by Mrs. H. E Connelly and a piano solo by Mrs. James Ellis, who also played accompaniments for Miss Mignon Mayneord's whistling numbers. A ladies' quartette sang, composed of Mrs. H. H. Graham, Mrs. L. H. Ingram, Miss Trucie Pearson and Miss Marjorie Stenton.

The president of the association, Mrs. F. Irons, occupied the chair.

**HAND-STITCHING**

Shoes are the latest to succumb to the "dressmaker" touch. A pair of white linen sandals with double strap are hand-stitched in a charming modernistic manner in geometric pattern.

## *Reprinting Of Films To Be Done In Toronto*

TORONTO, Ont., April 25.—(C.P.)—An important development in the motion picture industry for Toronto was seen to-day in the announcement by the Toronto Industrial Commission, of the lease of approximately 10,000 squae feet of floor space on Adelaide street west to Film Laboratories of Canada, Ltd.

The new factory, which will engage in the processing and reprinting of motion picture films, has a reprinting capacity of more than 20,000,000 feet of film annually. The work has been done largely in the United States in the past.

# SMITH ARRIVES AT PORT DARWIN

**Second Australian Air Mail Plane Takes Off From Croydon.**

**FIRST WAS IN CRASH.**

PORT DARWIN, Northern Australia, April 25. (AP)—Wing Commander Charles Kingsford Smith reached here at 2.44 p.m. with English airmail stranded at Koepang, Timor, last Saturday, when the first air mail service plane, City of Cairo, cracked up there.

Kingsford Smith early in the week set out in his famous plane, the Southern Cross, for Timor to pick up the mail and carry it on to Sydney.

**Second Plane Leaves**

CROYDON, Eng., April 25. (AP)—The second airmail service plane to Australia left here to-day with expectation of arriving at Port Darwin, Northern Australia, May 5. The trip of ten days will compare with 28 days usually required for Australian mail. The first plane reached Koepang, Timor, where it cracked up last Saturday.

In a recent month, more than 3,000,000 pounds of coffee were shipped from La Guaira, Venezuela.

# SOVIETS' POLICY CAUSES ALARM

**British Chambers of Commerce Association Considers Measures of Protection.**

**FEAR "DUMPING."**

LONDON, Apr. 25.—(AP)—Soviet Russia's growing industrial importance and so-called "dumping" today led the powerful association of British Chambers of Commerce to consideration of protective measures.

A resolution passed by the body instructed its executive to "study the effect upon British trades and industries of Russia's exports, especially of manufactured goods which are steadily increasing as the five year plan is developed, and the offering of such goods for sale at prices which bear no relation to their true cost of production calculated on a regular commercial basis.

"Further, to consider what steps can be taken by the Government and business world jointly or separately to counteract this entirely new method of marketing, which manifestly constitutes an organized serious attack upon the commercial system of the whole world."

In moving the resolution Sir John Sandeman Allen dwelt upon intensive methods of the Soviet Government in employing and buying the best type of machinery and obtaining the help of the most expert people in the world. Many Russian products, he said, were of excellent quality, and it would not be long before Great Britain would feel the effects of Russian competition.

H. E. Metcalfe, of the Russo-British Chamber of Commerce, commented that there were more than 20,000 American and German experts in Russia teaching the Russians everything they wished to know.

**TASTY HASH.**

If you soak the chopped meat for hash in gravy or sauce some time before chopping, the hash will be far tastier than if heated immediately.

## Guthrie Pleads Guilty To Having 'Lunge

## MAN OUT OF WORK AND NEEDED FOOD COUNSEL CLAIMS

Coleman Guthrie Fined $65.00 and Costs For Having 15 Maskinonge.

WARNING IS GIVEN.

Fine is Quickly Paid After Magistrate Gave His Verdict.

"No man has any moral right to take fish out of season," declared Magistrate Langley this morning in Police Court in fining Coleman Guthrie, 39, of East City, $65.00, and costs, for having 15 muskelunge in his possession.

The Magistrate gave warning that further offences against the Fish and Game Act will be heavily dealt with in his Court. "The seriousness of such offences is that it depletes the waters of game fish. To take fish now when they are spawning is robbing the district of thousands of fish, if not millions. It is like taking a mother from her children," he said.

**Pleaded Guilty.**

Guthrie pleaded guilty to the charge. J. A. O'Brien, his counsel, argued that a man out of work should be able to avail himself of the property of the whole people to keep himself from starving. "He is morally justified in helping himself to the bounty of nature," stated Mr. O'Brien. "In all probability he would have sold these fish to buy food. It was not wanton destruction of fish."

His counsel stated that he admired Guthrie because he refused to "squeal and open and tell from whom he got the fish."

"His lawyer has said that Guthrie was selling the fish because he was starving, but only a few weeks previously he had purchased a car, and when I inspected his rooms I found several dozen bottles of beer," stated J. W. Gravestock, president of the local Fish and Game Association and Deputy Game Warden, who arrested Guthrie. "If he was starving, why did he have enough beer to satisfy a whole party of men? He is the big shot of the whole works."

First it appeared that the Magistrate was going to fine Guthrie $150, or $10.00 per fish, but later it was found that his offence came under another section of the Fish and Game Act, and his fine was placed at $65, and costs.

Guthrie, the moment the penalty was fixed, removed a large roll of bills from his pocket, and paid the fine.

## 40,000 START TAKING CENSUS

Taking of Census in Great Britain and Northern Ireland Started To-day.

PAPERS FILLED OUT.

LONDON, Apr. 27.—(CP)—Forty thousand enumerators started this morning throughout Great Britain and North Ireland to collect census papers, filled out by residents, which were expected to reveal a population of about 46,000,000, an increase of about 4,000,000 over the 1921 figure.

Counting of the census papers will occupy probably about two months but answers to many of the questions on them will not be tabulated and available for statistical work until 1933.

The usual mishaps and humorous incidents accompanying taking of the census multiplied early. A considerable number of people had not received the census blanks but thousands of these omissions were repaired at the last moment by police, the post offices, newspapers and other helpers.

Police had difficulty in some instances in collecting information, the vagrants of London and other big cities occasionally refusing information which the police were not empowered to make them give.

## *Falls Under Tractor Farmer Is Killed*

KERROBERT, Sask., Apr. 27. — Thrown from his seat on a tractor he was operating on a farm near Superb, Sask., and under the rear wheels, Alphonse Nault of Kerrobert, was almost instantly killed. His body was discovered when a search after he failed to return to the farmhouse for supper.

### A Free Trader

RT. HON. PHILLIP SNOWDEN
British Chancellor of the Exchequer who delivered his annual budget address in the House of Commons.

## ROY CAVANAUGH WINS OAKLAND

Three Were Tied For First Place in "Mystery Car" Contest.

5,000 ENTERED CONTEST.

Roy Cavanaugh, 176 Brock Street, is the winner of the Mystery Car given away in a big guessing contest by J. K. Hughes, local car dealer, in connection with his recent sale of used cars.

A second draw was necessary before Cavanaugh was finally handed possession of the car. Two others, Walter Barringer, 289½ George Street, and K. W. Green of Havelock, were tied with Cavanaugh within one-twentieth of a mile of the correct mileage, 1875 1-20, registered by the car. Cavanaugh and Barringer each had 1875 1-10, while Green had 1875 miles.

The three drew, and Cavanaugh won the Oakland coach.

Twenty-two others guessed within one mile of the correct mileage. Some of these were: Miss E. Morley, 46 Jackson Street; Frank Heffernan, R.R. 8, Peterborough; Thomas Hickson, Chemong Road; Donald McPherson, Murray Street; Mrs. R. G. Clifford, 212 Barnardo Avenue; Ruth Billings, Gilmour Street, and E. Tucker, 529 Romaine Street.

Nearly 5,000 guessers were entered in the contest, which lasted during the two weeks' sale.

J. K. Hughes stated that the sale was a complete success. More than sixty cars were sold, he said.

Glasgow has cut all teachers' pay.

London schools have a lipstick ban.

## MONTREAL JUDGE GIVES 4 BANDITS LIFE SENTENCE

Smile at 7 Year Term For Conspiracy, Fades as Bench Continues.

ROBBED BANK MESSENGERS.

Quartette Convicted as Leader Turns King's Evidence to Save Himself.

MONTREAL Que., April 27. (CP) Found guilty of robbery with violence in the hold-up of two messengers of the Banque Canadienne Nationale last October, Sam Behan, Leopold Warren, Jack Miller and Morris Weinbaum were to-day sentenced to life imprisonment by Mr Justice Wilson in Court of King's Bench. A further sentence of 7 years each was imposed on the other count of indictment, that of conspiracy to rob.

"There is only one way in which society can be protected from men such as you—that is to confine you within the four walls of a penitentiary," said Mr. Justice Wilson. "I sentence you all to seven years imprisonment on the conspiracy count." The four in the dock relaxed, smiling, only to stiffen when they heard the rest of the sentence, "and to life imprisonment on the count of robbery with violence." The quartette stood stunned and did not say a word as they were led from the courtroom.

**Leader Turns King's Evidence**

The four were convicted largely on the evidence of George Launier by his own admission the man who conceived the holdup, and who turned King's evidence and informed under promise of immunity for himself.

On October 2, two messengers of the Banque Canadienne Nationale were held up and robbed of a satchel containing $3,250, only $269 of which has been recovered. As the messengers were about to board a street car with the satchel, they were rushed by the hold-up men, knocked down, and robbed of the money the men fleeing to climb into a waiting automobile which sped away around a street corner.

## *Futures Commission Is Drafting Report*

NEW YORK, N. Y., Apr. 27.—(CP)—After holding a brief informal conference with Alexander Legge, chairman of the United States Federal Farm Board before they left Chicago yesterday, Sir Josiah Stamp, noted British economist, and other members of the Royal Grain Commission enquiring into the conduct in grain futures trading arrived here today and at once plunged into the work of drafting their report which they hope to complete by Wednesday. Sir Josiah, chairman, will sail for England on Wednesday aboard the Mauretania.

### Premier Baxter May Go to The Bench

Reports from the Maritimes state that Hon. John B. M. Baxter, Premier of New Brunswick (left), is due to be elevated to the Bench as a Judge of the Appellate Division of the Supreme Court of Canada, on May 18. Hon Charles D. Richards (right), Minister of Lands and Mines in the New Brunswick Cabinet, is slated to become Premier.

## BURKE TO SPEND LIFE IN PRISON FOR ONE CRIME

Notorious Killer Pleads Guilty to Slaying of Patrolman Skelly.

HELD IN COUNTY JAIL.

ST. JOSEPH, Mich., April 27. (CP) Fred Burke to-day was sentenced to life imprisonment at hard labor in the Michigan branch prison at Marquette for the slaying of Patrolman Charles Skelly. He is expected to be taken to prison to-morrow.

Sentence was passed by Circuit Judge Charles E. White after Burke had pleaded guilty. The offense on which Burke was sentence was second degree murder. Judge White said there was evidence that Burke had been intoxicated the night he shot the patrolman and was not in full possession of his faculties.

Burke was taken back to the county jail immediately after sentence was passed.

## ALEX ARCHIBALD IS 25 YEARS WED

Presentation of Chiming Grandfather Clock is Made to Mr. and Mrs. Archibald.

100 GUESTS PRESENT.

Mr. and Mrs. A. W. Archibald of 601 Chamberlain street, celebrated their silver wedding anniversary on Saturday by entertaining nearly one hundred of their friends, including forty-three from out of town: Toronto, Montreal, Philadelphia, Scranton, Glen Rock, N.J. and Yonkers, at dinner at the Peterborough Bowling and Tennis club house on McDonnel street. The guests from Philadelphia provided a splendid evening of music and readings and the entertainment concluded with a dance. G. Young of Philadelphia, acted as chairman and toastmaster and brief speeches were made by local and out-of-town guests.

The persentation from the guests of a chiming grandfather clock was made by R. Haddow, while Will Archibald of King street, presented his parents, on behalf of their family, with a silver entree dish. Their other children, Miss Isabel Archibald and Jack Archibald, were also present. Mr. and Mrs. Archibald were married in Peterborough twenty-five years ago by the Rev. W. R. Potter, of St. Andrew's church. Their best man, Ernest F. Reid, was a guest at the celebration, but the bridesmaid, Miss Maude Morton, was unable to be present, owing to indisposition.

## *Trouble Looms in S.A. Over Indian Dealings*

LONDON, April 27 (C.P. Cable). — Rev. Charles Freer Andrews, who has just returned from a three months' visit to the Union of South Africa, today emphasized that a "potentially highly dangerous" situation existed as a result of what he termed the shortcomings of the South African Government in dealing with the large Indian community in South Africa. Australia, he said, had removed all the racial disabilities from resident Indians, and Canada was likely to do the same, but in the Transvaal every fresh act of legislation only made the position of the Indians worse.

## *Bessboro Indisposed Luncheon Postponed*

OTTAWA, Ont., April 27 (C.P.). — His Excellency the Governor-General is slightly indisposed, and thus the Canadian Club luncheon here tomorrow, at which he was to have been the guest of honor and chief speaker, has been postponed until a later date. While the indisposition of the Earl of Bessborough is not considered at all serious, it was said today that it was considered advisable by his physician that he should remain indoors at Rideau Hall for the present, due to the prevailing inclement weather.

## Receives Tributes Meant for Funeral

LINDSAY, Ont., April 27 (Special to The Examiner). — Adam Reid a patient at the General Hospital, Toronto, who is seriously ill, experienced the peculiar sensation on Saturday and Sunday of receiving a number of beautiful floral tributes, wreaths, sprays, bouquets, and Masonic and Oddfellows' emblems, which were in all sincerity meant to rest around his coffin, as word had reached Lindsay, Reaboro, and Little Britain that Mr. Reid had passed away.

He formerly resided at Reaboro and Little Britain. W. W. Hick & Sons, Lindsay florists, telegraphed several orders to Toronto. Messages of condolence were sent to Dr. Nugent of Toronto, a returned missionary from India, who is a relative of Mr. Reid's.

The many friends in this section are pleased to learn that Mr. Reid is still in the land of the living, and they wish him a speedy recovery.

## LEGS DIAMOND AGAIN WOUNDED

Gangster Cut Down By Shotgun Pellets as He Steps From Roadhouse.

RUSHED TO ALBANY.

CATSKILL, N.Y., April 27. (CP)— Jack (Legs) Diamond, reputed gangster, again was cut down and seriously injured by the gunfire of unknown assailants in the early hours of to-day.

Diamond, who six months ago was shot and almost fatally injured in a New York city hotel room, went down to-day under the pattering fire of buckshot, sent into his back as he stepped from a Catskill Mountain roadhouse west of this village. The shooting occurred three days after Diamond had been released in $25,000 bail, pending trial for a charge of assault, second degree.

As in the New York city instance, mystery clothed the shooting. Diamond himself could give no information and the companion who snatched him back into the shelter of the roadhouse as shot smashed glass and blew paint from the wall could only say that gunfire came from the protection of deep shadow, twenty paces from the building.

**Found Hatful of Shells**

A hatful of empty shells, still reeking of the smell of freshly discharged powder and apparently fired from an automatic shot gun, were picked up between the glassed-in porch of the Arratoga Inn and the highway. The gunman obviously fired in haste and fled. Of the nine pellets fired each carrying a dozen pellets, only one shell load struck Diamond; the rest blew out glass and lodged at a point high above Diamond's head.

The fallen "Legs", bleeding freely from wounds in the shoulder, back and arm, was hurried to Albany by two men, who were not identified. At a hospital there, he was placed in bed after examination, pending probe for the pellets. While seriously injured, his condition was not believed to be critical by those at the institution.

Two State Troopers were assigned to watch Diamond immediately after police were notified of his arrival.

**TWO INCHES OF SNOW FALL IN LONDON**

LONDON, Ont., Apr. 27. — Two inches of snow fell in the city and district last night when a blizzard following on the heels of a 24-hour rain swept over London last night.

The snow was driven by a heavy gale. No damage however has been reported.

## AID GIVEN BY MR. SINCLAIR ACKNOWLEDGED

J. F. Strickland, M.P.P., Pays Tribute to Co-operation of Liberal House Leader.

REVIEWS SESSION.

Local Member Tells Rotary of Interesting Legislation Recently Passed.

A warm tribute to the helpful attitude displayed during the recent session of the Ontario Legislature by W. E. N. Sinclair, K.C., the Liberal House Leader, was voiced by J. F. Strickland, M.P.P., in addressing the Peterborough Rotary Club to-day, on the legislation passed by the Ontario body.

"The feeling among all parties in the House," remarked the local member, "was that the situation in Ontario and throughout the Dominion was such that co-operation ought to be given, and co-operation was given."

Introduced by Vice-President R. F. Downey, who was in the chair at today's luncheon in the absence of President Robert Abbott who is attending the Buffalo convention, Mr. Strickland said that while the session was in no sense a contentious one and no matters involving major policies were taken up, a large amount of useful legislation was considered and passed.

The speaker explained that there were three types of bills that came before the Legislature: Public bills introduced by the Government; quasi-public bills brought in by private members; and private bills usually originating from the municipalities. Of these, private bills, he said, outnumbered the others by 50 per cent.

The outstanding legislation passed during the session was reviewed in an interesting manner by Mr. Strickland, who lucidly explained the various measures. He told of amendments to the Highway Traffic Act, imposing penalties on the loafing driver and making it an offense for people to go out onto the paved portion of the road to solicit rides; explained the objection voiced by lawyers in the House to the proposed acceptance of holograph wills, an objection which ultimately resulted in the bill being withdrawn; described the efforts of the Minister of Agriculture to improve marketing conditions for the Ontario farmers and told of the intention of the Department of Public Welfare to establish a school for girls at Galt on the same lines as that for boys at Bowmanville. Other legislation described by the speaker included amendments making it necessary for the Appeal Court to be composed of odd numbers, and requiring parents to be responsible for their children, freeing husbands from liability for illegal acts of their wives.

The placing of a tax on corporations, he said, had been received with regret by many on the Government

(Turn to page 16 please.)

## *Land Values Tax Is Only New Feature Of British Budget*

British Budget is Brought Down By Chancellor of the Exchequer Rt. Hon. Phillip Snowden, Who Firmly Opposes Imposition of Revenue Tariff.

FIFTY PER CENT. INCREASE ON TAX OF PETROL
VALUATION OF LAND WILL LIKELY TAKE 2 YEARS

Debt Conversion Operations Will Be Undertaken to Cover a Considerable Part of Last Year's Deficit of $116,880,000—No Increase in Income Tax.

LONDON, Apr. 27.—(C. P. Cable)—A measure for taxation of land values at the rate of one penny to the pound on capitalized value, or less than half of one per cent, was forecast by Rt. Hon. Philip Snowden, Chancellor of the Exchequer, in his brief budget speech today.

This was almost the only feature of the shortest budget speech on record. The chancellor estimated there would be a deficit of $186,000,000 in the next fiscal year. He proposes to meet this, as well as the $116,000,000 deficit from last year, by temporary expedients, and expects a revival in trade and on the stock exchange.

None of the expected dramatic measures—taxes on beer or tobacco—or new duties were forthcoming, with the exception of an increase in the duty on oil and a change in the schedule of date of payments of income tax. With these comparatively minor changes and the taking of $100,000,000 from the exchange fund in New York, combined with the revival in trade which he confidently expects, the chancellor hopes for a slight surplus at the end of the next fiscal year.

**Political Dynamite**

But the measure for taxing land values carries political dynamite. It cannot be put into effect for at least two years, for it will be an immense task to carry out the preliminary evaluation. The proposal will be debated in the House of Commons on Thursday and whenever it gets to the House of Lords it will be bitterly opposed. There is some belief indeed that Labor means to make this proposal the crucial issue in a battle between "the people" and the "lords," for they have become increasingly angry at the upper chamber with its overwhelmingly Conservative majority.

Mr. Snowden estimated expenditures at $4,016,830,000, and revenue at $3,830,000,000.

The Chancellor spoke for only an hour and nine minutes, and the customary review of the finance of the past year was delivered in the form of a parliamentary paper.

After the Budget speech Right Hon. David Lloyd-George, the Liberal Leader, said the proposal to tax land values "rejoices my heart," but he added he would have adverse comment to make on the Budget as a whole.

**Sternly Opposed by Tories.**

Rt. Hon. Neville Chamberlain, the Conservative financial critic, declared the Budget in some respects might have been worse. On all other counts it would be sternly opposed by the Conservatives, he warned.

**Free Trade Views**

The Chancellor of the Exchequer, emphatically expressed his free trade views. He was scornful of a tariff for revenue purposes. The opposition he said, were estimating that by such a tariff they would get from $250,000,000 to $500,000,000 which "would fall into the lap of the Chancellor of the Exchequer as a gift from providence, as manna fell on the Israelites from heaven" Nobody would pay the duties and incidentally they would be levied on goods which protection has prevented from coming into the country.

Rt. Hon. Mr. Snowden described a tariff for revenue as a return to the pernicious taxation methods of a century ago; as a method of relieving the wealthy at the expense of the poor, as an indirect reduction of wages. I shall never be a party to any such scheme," he flatly declared. Laborites and Liberals loudly applauded this.

The Chancellor's review of the financial situation was more hopeful than had been expected. He caustically described it as disappointing to the Jeremiahs.

Though he had been ill until recently, Mr. Snowden spoke in a good voice to the end and, as Rt. Hon. David Lloyd George described it, "with greater vigor than ever."

**Budget High Spots**

High spots in the budget as brought down in the House of Commons included:

Debt conversion operations will be undertaken to cover a considerable part of last year's deficit of $116,880,000.

Revenue on existing rate of taxation estimated at $3,830,000,000.

Expenditure for coming year estimated at $4,016,830,000, leaving gap of $186,830,000 to be filled.

Estimated deficit includes $60,000,000 for derating operations, and

## BIGAMY CHARGE IS DISMISSED

William Lytle Had Received No Word From Wife in Eleven Years.

BELIVED DEAD.

On the grounds that William Lytle of Dummer township, had had no word of his wife for 11 years and did not know whether she was alive or dead, Police Magistrate Mikle dismissed the charge of bigamy brought against the man.

Lytle with Katharine Dwyer, whom he married in Belleville in July 1928 were arrested here a week ago by Provincial Constable Sylvester and taken to Belleville to stand trial for bigamy.

Lytle pleaded not guilty and entered proof that his wife left him 14 years ago and that since that time he had not heard of her and had reason to believe that she was dead. In view of his evidence the magistrate acquitted Lytle and Katharine Dwyer.

Crown Attorney B.C. Donan K.C. prosecuted, while F. D. Kerr, K.C., of Peterborough, defended.

**FORMER MASSEY HARRIS OFFICIAL DIES.**

WINNIPEG, Man., April 27.— (C. P.)—Charles H. Whitaker, 65, former sales manager of the Manitoba branch of the Massey-Harirs Company, Ltd. is dead here. He had been ill since December. Born in Brantford, Ont., he joined the company in Eastern Canada and in 1901 was appointed assistant sales manager in Toronto, moving to Winnipeg in 1904. He retired in 1926, after 45 years service with the firm.

## THREE ASK SHARE IN SURPLUS FUND OF DOMINION MILLERS' ASSOCIATION

If Claims Allowed, 38 Persons or Firms Will Be Allowed Division of $100,000.

CASE OUTLINED.

TORONTO, On., April 27. (CP)— Three claims to shares of the $100,000 of surplus funds of the Dominion Millers' Association, to be distributed under a resolution passed by the organization last June, were under investigation before G. A. Drew, Master of the Supreme Court of Ontario, at Osgoode Hall to-day.

The three claiments are Quance Brothers Ltd., Delhi M. M. Pincombe Strathroy and V. M. Campbell, Chesley. If these three are found entitled to share of the money to be distributed, the total number of persons or firms so sharing will be 38 and the volume of each share will be approximately $2,630.

The circumstances in which the three claims came before the Master in Chambers were outlined by A. C. McMasters, K.C. The latter explained that the position of the business of the Dominion Millers' Association, which was incorporated in 1892, having changed in recent years, the organization found in 1930 that it did not require all the funds it had accumulated. The association therefore, passed a resolution providing for the distribution of $100,000 of its surplus capital to members in good standing in the date of the adoption of the resolu-

## Gar Wood Fails To Break Record

**MIAMI BEACH, Fla., April 27 (C.P.)—After five unsuccessful attempts to break Kaye Don's world speedboat record of 103.49 miles per hour, Gar Wood to-day postponed further trials in order to give his Miss America IX. a thorough going over.**

**Wood's fastest time to-day was made on his first and second runs, when he was clocked at 102.281 and 101.034 miles per hour respectively, for a two-way average of 101.653 miles an hour.**

## *The Weather*

The light rain of Saturday and the much heavier one of Sunday, will bring gladness to many who had been looking longingly for rain. The total was 1.00, or exactly one inch. While this is a considerable amount, the total for April thus far is little more than one-half the usual amount. The last heavy rain we had was on July 13th, when 1.12 came down. The shortage since last July now amounts to over ten inches, and Jupiter Pluvius will have to exert himself to make up the deficiency. This Monday morning the temperature was at the freezing point and a cold breeze was blowing.—W.P.

## TOURISTS OF SPANISH MOROCCO ARE WARNED AGANIST THE RIFFS

Sinclair Given Speedy Ride Across Desert to Foreign Legion Land.

PAGE CLEOPATRA!

(By Gordon A. Sinclair)

RABAT, Morocco, April 27—France holds Morocco with a strong, just and powerful hand. The Foreign Legion, the French colonial troops and the regular doughboys from the Marne are boss and know it. So does the tourist know it the moment he crosses from Spanish to French Morocco.

The difference is instantly and delightfully apparent. No longer does the bus driver hold sway over everything, no longer is the road twisted and dust strewn, no longer do soldiers loll half dressed in the canteens. Here is efficiency, beauty, pep and respect.

Our 12 year old car fairly flew through the Riffian hills to get away from Spain. I never thought a car could be so powerful after such long hard grinds over hideous roads.. A haunting brown melancholy country. Charming in its way but once is enough. Hard and savage. Poor Praotically nothing grows here. The Bedouins live in tiny brown tents, so squatty that an adult can't stand erect in them. The wind blows across the plain pilling the sand in rivulets.

**Riffs Still Dangerous**

Tourists are warned never to come here at night or to get off the main roads, because the Riffs still resent

## German Sets Mark For Glider Flying

**KASSEL, Germany, April 27 (A.P.)—After taking off from Doernberg Hill near here, Police Lieutenant Henschal, glider aviator, yesterday broke all German records for glider flying by keeping in the air for eleven hours and one minute. He also broke the record of the local Wasserkuppe district which had been nine hours and twenty-one minutes. Squalls, hail and rain made the flight very difficult but only darkness compelled him to land. He reached an altitude of 3,280 feet.**

# GOODS BOYCOTT BY NOVA SCOTIA FACES ONTARIO

**Move is Effort to Get Central Province to Buy More Maritime Coal.**

**OPINIONS SPLIT.**

**Industrial Leaders of Ontario Claim Action Will Lose Markets for Easterners.**

SAINT JOHN, N.B., April 27. — Opinions of New Brunswick Government officials, industrial leaders and business men generally, on the advisability of boycotting Ontario goods, a step advocated by L. L. Snell, Sydney, N. S. manufacturer, differ widely.

Although some said the plan was "a good one," and should be put into effect, the majority were against it, or favored careful consideration before taking any drastic action.

**Ontario Watches**

TORONTO, Ont., April 27—Watchful waiting accurately describes attitude of Ontario industrialists to-day as they turn their eyes eastward to Sydney, N.S., where business men of that city gather to discuss an action which if proved would virtually boycott Ontario products.

While the majority of industrial leaders of this Province have expressed the opinion the Maritime Provinces are not likely to endorse the proposals of L. L. Snell, Sydney bakery head, for creation of an embargo on Ontario products in an effort to make the central Province purchase Nova Scotia coal, there is, nevertheless keen interest shown in the outcome of the Sydney meeting.

H. P. Duchemin, Vice-President and Managing Director of the Sydney Post, Director of the Canadian Press and member of the Nova Scotia bar, commenting on the situation said: "Our business seems to be largely one-way. We buy your automobiles and manufactured articles and we buy heavily of your natural products. The argument that adequate protection on coal would increase the cost of fuel for Canadian manufacturers here is quite untenable, from a protectionist standpoint, as would be an objection in the maritimes to a duty on automobiles."

Elmer Davis, President, John E. Walsh, General Manager, and other officials of the Canadian Manufacturers' Association declined to comment on the matter. However, in the opinion of one prominent Ontario industrialist, the embargo could have only one effect; Maritime producers would lose wide markets now enjoyed in Ontario. In the event of a war of reprisals arising, he said, Nova Scotia and not Ontario would suffer most.

**Exchange Reasonable**

Premier Henry of Ontario said, considering the populations in proportion, he thought the interchange of goods between the Maritimes and Ontario was fairly reasonable. "As to not using Cape Breton coal, it should be remembered," he said, "this coal gets as far as Montreal for distribution, and it would be difficult to persuade Ontario consumers to buy Maritimes fuel when they can buy fuel equally if not better adapted to their purposes which comes a shorter distance and costs less."

**TRENT RIVER**

Rev. Dr. John Lennox of Knox Presbyterian Church made pastoral calls Friday afternoon.

Frank Pollock's condition at Nicholls Hospital is improving daily.

Mrs. Frank Pollock went to Peterborough Friday to see her husband who is confined in the hospital there

## Spanish Count

Count de Romanones, adviser to King Alfonso of Spain, the result of whose visit to the royal palace swung the king's decision in favor of abdication and leaving the country.

# DOUKHOBORS FIND TROUBLE IN CAMP

**Sons of Freedom Refuse to Leave Villages Though Goods Taken to Porto Rico.**

**BLAMED FOR BOMBINGS.**

NELSON, B.C., April 27. (CP)—The Sons of Freedom sect of Doukhobors in the Nelson vicinity, which organization is suspected of being responsible for recent bombings and burning of schools, and who have been residing with community Doukhobors at various villages, must get out of the colonies and shift for themselves. Though they have not yet been forcibly evicted by officials of the Christian community of Universal Brotherhood, their goods and chattels have been seized and trucked to Porto Rico on the Nelson-Spokane highway near Ymir.

The Sons of Freedom are at present residing in their vacant houses, refusing to take up their new abode.

One Doukhobor, having means of transportation, has taken his belongings and moved back. Provincial Police are keeping a match on the activities, but as yet no trouble has occurred although some sort of demonstration is expected.

**In History Before**

Porto Rico has figured in Doukhobor history before. In the fall of 1929 close to 250 Sons of Freedom, men, women and children took up residence there for the winter, after camping on the city limits of Nelson and being forced to leave the vicinity for health reasons.

They existed on food supplied mainly by Doukhobor friends. It was in the spring of 1930 that the Porto Rico Sons of Freedom started a march to Nelson, were escorted through the city and then proceeded along the highway to Brilliant where they staged a nude demonstration. Itch powder used by the police ended the parade.

The Sons of Freedom then started a march to the international border but persistence of the police in keeping them on the move resulted in the march dwindling away—usually they went back to the community.

Eviction of the Sons of Freedom by the community is expected, as they refuse to work or pay any funds into the community which keeps them.

$25 REWARD

for the capture of Mysterious Mr. Beech-Nut

LISTEN IN at 7.15 P.M.

"Don't forget. There are three different flavours of Beech-Nut Gum. Peppermint, Spearmint and Wintergreen. They are all delicious."

# AMATEUR PLAY WELL PRESENTED

**Members of Seymour West Women's Institute Take Part in Program.**

**SEVERAL RECITATIONS.**

CAMPBELLFORD, April 27 (Examiner Staff Correspondence).—Featuring an attractive program of 20 items given by the pupils of the school, a play entitled "How the Story Grew," presented by members of the Seymour West Woman's Institute and a number of recitations by Donald Lloyd, champion boy orator, who represented his own and the five surrounding counties at the Provincial contest staged at Toronto at Easter in connection with the O.E.A. Connelley's School, Seymour, was crowded to capacity on Friday evening, the large audience thoroughly enjoying the splendid entertainment provided. Mrs. Charles Macoun, a former teacher of the school, occupied the chair, the music being supplied by Messrs. A. McMullen and Barton of Rush Point.

The program was as follows:

Chairman's address, Mrs. Charles Macoun; recitation, Nolan Shillinglaw; recitation, Malcolm McCulloch; recitation, Eric McCulloch; dialogue, Merry Maidens' Club by the girls; reading, Ralph Rutherford; music, Messrs. McMullen and Barton; recitation, The History of Northumberland County, Donald Lloyd; drill by five boys; chorus, White Caps, by the school; dialogue, That Dog Rover, by senior pupils; organ solo, Margaret McCulloch; recitation, Alec McCulloch; chorus, by the boys; recitation, Alfred Dutton; dialogue, Brave Boys, by Second Class; recitation, Louna Outingdyke; organ solo, Lillian Stanbury; recitation, Donald Lloyd; music, Messrs McMullen and Barton; recitation, Vera Clark; dialogue, A Sick Baby; reading, Stuart Orser; shadowgrams, by th boys; recitation, Donald Lloyd.

**"How the Story Grew"**

The play, "How the Story Grew," was well staged and presented in a talented manner, the costumes being a feature of the production and adding considerably to its humor. The part of Mrs. Brown was taken by Mrs. Howard Clark; Mrs. Green by Mrs. Ray McCulloch; Mrs. Bean by Mrs. Raymond Free; Mrs. Rice by Miss Ruby Dunham Mrs. Snow, Miss Reta Longmuir; Mrs. Taylor, Mrs. Reginald McCulloch; Mrs. White, Mrs. Douglas Rutherford; Mrs. Doolittle, Mrs. Cecil McCulloch.

Other speakers who were called on during the evening were Miss Jennie Ballantyne, a former teacher of Connelley's School, now on the teaching staff of Toronto public schools; Miss Helen Haig of the teaching staff of Toronto public schools; Everett Fairman, vice-principal of Queen Mary School, Belleville, and Garnet Lloyd, a former pupil of Mrs. Macoun.

Mrs. Howard Clark, president of the Institute, and Earl A. Fairman thanked all those artists assisting on the program on behalf of the Institute respectively. The proceeds amounted to $25, which was equally divided between the two organizations.

# CATALAN WORRY SMOOTHED OVER

**Spain's Provisional President Reaches Agreement on Secession Threat.**

**MACIA VISITS MADRID.**

BARCELONA, April 27.—(A.P.)—Don Nicet Alcala Zamora, Provisional President of the new Spanish Republic, was believed to-day to have reached a personal agreement with Colonel Francisco Macia, Catalan President, removing any immediate threat of secession of Catelonia from Spain proper.

The Provisional President, coming from Barcelonia Sunday on what was heralded as a week-end goodwill visit, found as tumultuous a welcome as if he were newly arriving in Madrid the seat of his government. Flowers were showered upon him from the balconies and thousands cheered him and Colonal Macia as they rode together through the streets.

Later he and Colonel Macia attended an international football match between Irish and Spanish teams, but between their public appearances they were understood to have found time for more intimate conversations the relation that the "Catalan commonwealth" is to have with the Madrid government, pending a constitutional convention.

President Alcala was accompanied to Barcelona by his Minister of Economy, Louis Nicolau, himself a Catelan, whose participation in the Cabinet is considered one of the best proofs of amicability of the Madrid and Barcelona Juntas. Nicolau returned to Madrid with Alcala last night.

## British Princes Land At Pointe de Grave

BORDEAUX, France, April 27. — (AP)—The Prince of Wales and his brother George, one day out from England after a four months trip to South America, landed to-day fat Pointe de Grave, at the mouth of the Gironde, and prepared to fly home to-morrow.

H.M.S. Kent brought them here from Lisbon, where they left their liner the Arlanza to confer the Grand Cross of the Order of the British Empire upon President General Carmona. It was third original intention to use the Kent all the way home, but weary of travelling they decided to save a day's boatride by landing here and flying the rest of the way.

## Japanese Royalty in American City

RECEIVE ENTHUSIASTIC WELCOME FROM PEOPLE.

Prince and Princess Takamatsu of Japan visited Philadelphia, Pa., to see the Liberty Bell and other symbols of American Independence. Tens of thousands lined the streets to cheer and doff their hats to the Imperial visitors. Photo shows Mayor Harry A. Mackay, together with the Prince and Princess at the Liberty Bell in Independence Hall.

# LODGE ATTENDS DIVINE SERVICE

**Millbrook I.O.O.F. No. 308 Celebrate Anniversary of Founding of Order.**

**IN GRACE CHURCH.**

MILLBROOK, April 27 (Examiner Correspondence). — The service of Grace Presbyterian Church was of a special character on Sunday evening, Millbrook Lodge I.O.O.F., No 308, having chosen this anniversary occasion of the founding of the Order for its annual attendance at divine worship.

There was a good representation of Oddfellowship present considering that the weather was most inclement and the congregation was further enlarged from the fact that the regular evening worship of St.Andrew's United Church was withdrawn as a friendly gesture on the part of the pastor, Rev. W. W. Jones, B.D., and his people, toward a brother minister, Rev. John Riddell, who is shortly leaving the community for his new charge at St. Mary's, Ontario, and who has proved a good citizen during the years of his pastorate of the Presbyterian Churches at Millbrook and Centreville.

Beautiful flowers were banked within the altar railing, and the choir had prepared special music, the selections including an anthem, "Sing Unto the Lord in Thanksgiving," with duet by Misses Ruth Thorndyke and Eileen Hunter, and a tenor solo, "More Love to Thee, O Christ," by Charles Thorndyke. Miss Grace Johnston presided at the organ.

Welcome was extended to the visiting Order by the pastor, who chose as a basis for his sermon, "A leaf from the principles of your Order, brotherly love, friendship and truth."

The concluding words of the sermon were addressed especially to the members of the Oddfellows' Order, the speaker urging that their threefold emblem be not in form only, but a rule of daily conduct even at the price of sacrifice, following the law of life as revealed in the Word of God.

Upon return to the Lodge Hall, the usual votes of thanks were passed before final dismissal. C. C. Garside is Noble Grand of the local Lodge of Oddfellows, W. A. O'Brian, Vice-Grand, and H. J. Armstrong, Warden.

# HALT BROADCAST BY MAJ. S. BUTLER

**Speaker Cut Off Air When He Uses Word "Hell" During War Story.**

**OFFICIALS UPHOLD OWNER.**

PHILADELPHIA, Pa., April 27. — Major General Smedley D. Butler said to-day that, so far as he is concerned, the interruption of his radio talk Saturday night is a closed incident.

The General was cut off the air when he used the word "hell" while making an address over a privately-owned station, the owner of the station, Howard Miller, considered the word profane, and officials of the Radio Commission in Washington said he was within his right in putting an end to the speech.

The incident occurred while General Butler was telling the 312th Artillery Association of the capture of Fort Riviere, Haiti, by the Marines in 1915. He had reached a point in the story where he and two Marines were flattened against the fort, firing through a hole. Snipers were shooting through it from the inside.

"I knew I should lead the way into that hole," Gen. Butler said, "because I had brought the outfit up there. But I didn't feel a bit like going and looked at the Sergeant in a hopeless way.

"The sergeant saw that look and, I suppose, said to himself, 'O, hell, I might as well go in first,' and he did go in first. A private followed him and I brought up the rear."

When the speech was finished General Butler went to the control room to protest.

## Freight Foreman Has Foot Badly Hurt

HAVELOCK, April 27. (Examiner Correspondence).—Mr. George Iles met with a painful accident on Saturday morning when a crow bar with which he was working slipped and penetrating the shoe, inflicted a nasty wound to the left foot. Mr. Iles is freight foreman at the C.P.R. shed and will be confined to his home for a few days.

# BANKER SCORES POLICY OF LABOR

**Little Chance For Co-operation With Present Government in Britain.**

**CONDITIONS DISCOURAGING.**

MONTREAL, Que., April 27.— (C.P.)—British opinion was heartily in favor of closer economic co-operation with the Empire and looked for achievements at the forthcoming Imperial Conference at Ottawa but unless the present government in Britain changed its policy it would have little with which to bargain with the Dominions, Sir Frederick Williams-Taylor, vice-president of the Bank of Montreal with headquarters in London, declared upon his arrival here on one of his periodic visits to Canada.

Conditions in Britain, he said, were discouraging but not desperate. With trade still falling off, idle millions under the "soporific influence of the dole," huge budget deficits, "party or personal ambitions prevail" over establishment of a constructive policy calculated to pull the Motherland from the rut, he went on.

There were signs of constructive action in circles outside the government, he went on. The move for tariffs for protection or for revenue was gathering momentum. It now had behind it the Federation of British Industries.

**MONKEY PERFORMANCE FATAL**

When an Italian organ grinder was exhibiting a performing monkey before an admiring audience of young and old in a street in Belfast, Ireland, recently, a motor truck dashed into the crowd Several persons were knocked down. Daniel McShane, 32, was run over and killed and many others were seriously injured.

# FUNCHAL READY FOR LONG SIEGE

**Refugees Arriving in Southampton Claim Populace is Panic Stricken.**

**TRENCHES SURROUND CITY.**

SOUTHAMPTON, England, April 27 (A.P.)—Stories of revolt-torn Funchal, Madeira, its population fear-stricken at the prospect of bombardment by troops and warships from Lisbon, were told here to-day by refugees who arrived aboard the Armadale Castle.

Among those arriving from Madeira were Lord Ullswater and Lady Ullswater, fresh from a Funchal holiday, who with 100 others embarked on the liner when the rebel authorities told them they might not have another opportunity to leave for a month.

Lord Ullswater recounted the elaborate precautions which the rebels are taking against attack by the Lisbon expeditionary force. Trenches have been dug around the town and placed in electric communication with headquarters.

The population he described as panic stricken, with those owning cars or other conveyance fleeing to the hills to escape the expected bombardment.

Lord Ullswater said that heavy guns were being mounted and machine guns manned with steel helmeted crews were being posted at strategic points. Troops were marching about and motor vans with war supplies rushing through the narrow streets of the island city when he left.

He said that unemployment had begun to manifest itself, exports had been stopped and the embroidery trade, upon which a large part of the population depended, was at a standstill. The island has food enough for six months.

## 380 Baby Chicks Are Lost in Fire

**This morning at 2 o'clock fire wiped out four chicken houses on the corner of Western avenue and Lansdowne street, belonging to Thomas Parker, 235 Princess street. In the buildings were 380 chickens, 7 weeks old, which were consumed by flames, the total loss amounting to about $350. It is thought the fire started from an oil burner and through lack of fire-fighting equipment and fanned by the high wind made such rapid headway that nothing could be done to save the property or poultry. No insurance was carried and the loss will be felt by Mr. Parker who had recently launched out on this business concern.**

**PREHISTORIC FIND AT NAIRN**

Workmen constructing a road in the grounds of Carncah Nairn, Scotland, the residence of the Hon. Douglas Cairns, found a prehistoric coffin in a perfect state of preservation It contained the skeleton of a man. The coffin was composed of four stone slabs. The corpse had been buried in a sitting posture.

Greece is buying more bombing planes.

France plans to spend a large sum on public works in Morocco.

Backgammon is capturing London.

**ADVERTISE IN THE EXAMINER**

"It takes more than a New Frock to give you REAL POISE"

says Dorothy Dix

DOROTHY DIX, famous writer on women's problems

"EVER since Eve discovered fig leaves, the best tonic for a woman's self-confidence has been—pretty CLOTHES!

"A colourful new frock—my, how it sets a girl up! But—and here is what some girls forget—**it takes more than a new frock to give you real poise.**

"Others may not know whether your LINGERIE is pretty and colourful and fresh, but YOU do. When it is—when you know that underneath, as well as on the surface, you're exquisite—you FEEL charming . . . Confident . . . Ready to conquer the world!

"Why not try these 2 simple rules:

1. **Buy the loveliest lingerie you can.**
2. **Never let it get faded and drab looking.**

"I wish I could make you feel how important this is! **It's one of the secrets of every truly fascinating woman.**

"Yet it's easy to manage even on small salaries. You know about LUX I'm sure—I find that delicate pastel lingerie wears so long washed in Lux that it's not a bit extravagant. By 'long' I mean literally for YEARS. Lux—unlike the ordinary 'good' soaps—is made to preserve COLOUR and CHARM.

"YOUR SURROUNDINGS, too, can help give you poise! When everything in your home—from pretty curtains to the colourful linens on your dinner table—is dainty and new looking, you feel confident, at ease. Here, too, Lux is your invaluable aid."

Dorothy Dix

DAINTINESS IS MORE THAN *frock-deep*

(Below) Dainty lingerie washed 15 times in Lux—colour perfect, lace and silk intact, charming as new!

(Above) Lingerie washed 15 times in ordinary "good" soap—faded, lace and silk damaged—unattractive.

ANYTHING SAFE IN WATER ALONE IS JUST AS SAFE IN LUX

Lever Brothers Limited, Toronto 9209

# MRS. REBECCA McCAW QUEENSBORO CELEBRATES HER 87TH BIRTHDAY

### Began Teaching Public School Nearly Seventy Years Ago.

### SETTLED ON FARM.

QUEENSBORO, April 27.—On Friday, one of the oldest living former public school teachers in the province of Ontario, in the person of Mrs. Rebecca McCaw, celebrated her 87th birthday and upon that occasion with her daughter Miss Ida, with whom she resides took dinner at the parsonage with the Rev. J. F. and Mrs. Everson. Mrs. McCaw's maiden name was Rebecca Kirk, and Andrew Kirk, of Stirling is a brother. She is of Irish descent and was born in Enniskillen, Ireland, on April 24th, 1844 and came to Canada with her parents when she was a girl of five years settling in Hungerford township. She attended Tweed high school and went to model in Belleville, and taught school in Queensboro for three years beginning her term almost seventy years ago. She gave up her school to marry the late James McCaw, who passed away eleven years ago. With her husband she settled on a farm a quarter of a mile east of the village where she lived until her husband's death. Mr. and Mrs. John O'Rourke now occupy the farm.

Mrs. McCaw is in fairly good health except that her mental powers are failing. She can read well without glasses. She occasionally goes to the United Church of which she is a member and some times is able also to attend the meetings of the W.M.S. For many years she was an efficient Sunday School teacher. She is the mother of ten children, nine of whom are living, Joseph, Wesley and Ida, of Queensboro; William, in Tweed; Lucy, Mrs. Henry Kells, seven miles out of Belleville; Andrew, in Ponteix, Saskatchewan; Lydia, Mrs. Sydney Parson, Wallard, Saskatchewan; and Alice, in Toronto.; John, in Sudbury. Edith passed away twelve years ago. There are twenty-five grandchildren and nine great-grandchildren.

## HOME TOWNERS

**Tidbits Interesting and Humorous CAMPBELLFORD**

After waiting many days for rain, Saturday brought a steady downfall which is being greeted by farmer and resident of town alike as a much needed blessing. The ground was getting particularly dry and coming as it does, this moisture will help the early growth considerably.

The last of a series of three dances staged by the Young People's Club of the Anglican Church was held Saturday evening in the Parish Hall. A very enjoyable evening was spent, Mrs. J. Benor's orchestra furnishing the music for the dancing.

## *A. L. Riendeau Is Appointed Clerk*

CAMPBELLFORD, April 27 (By Examiner Staff Correspondent)—A. L. Riendeau of Campbellford has received the official appointment as clerk of the 11th Divisional Court of the United Counties of Northumberland and Durham, succeeding the late Dr. G. A. Hay, who for many years held that office.

Mr. Riendeau is a well known business man of Campbellford. For the past three years a member of the Water and Light Commission Board, of which he is now chairman, he has also served as a member of the Campbellford town council.

## W.I. IS ENTERTAINED.

### Trent River Members Spend Social Evening at Home of Mr. and Mrs. T. F. Ward.

TRENT RIVER, April 27.—(Examiner Correspondence.)—Mr. and Mrs. T. F. Ward opened their home for a progressive euchre under the auspices of the Women's Institute, Thursday night. Five tables were played, the following winning prizes. Ladies first, Mrs. George Brooks, ladies consolation, Mrs. James Mann, gentleman's first, Mr. Fred Scott, gentleman's consolation, Mr. Norman Wight. A delicious lunch was served after the game, consisting of baked beans, fruit bread, tarts, pie cake and tea. A small admission fee was sharged, the results of which go to swell the Institute funds.

There was a heavy frost Thursday night, ice formed on receptacles containing water left outside.

Two gas tanks were placed on Thursday for Miss Terry, who is having a gas station built at the Sedgwick pavillion recently purchased.

## Growing Deaf With Head Noises? Try This.

If you are growing hard of hearing, and fear catarrhal deafness, or if you have roaring, rumbling, hissing noises in your ears, go to your druggist and get 1 ounce of Parmint (double strength) and add to it ¼ pint of hot water and a little sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy, and the mucous stop dropping into the throat. It is easy to take. Anyone who is threatened with catarrhal deafness or who has head noises should give this prescription a trial.

## Queensboro

Mr. Robert A. Sager unloaded a car of salt here this week.

Mrs. Tessa Keene has moved from her farm and is occupying the home belonging to her sister, Miss Alice Howe.

A car load of potatoes was shipped from here on Thursday.

Mrs. John Alexander, Sr., was a business visitor to Madoc on Thursday.

Mr. and Mrs. R. A. Sager were in Belleville, on Wednesday on business.

Congratulations are being extended to Mrs. Rebecca McCaw upon readhing her 87th birthday. She and her daughter Miss Ida, were entertained to dinner at the parsonage on Friday evening.

## Marmora

Mr. and Mrs. W. A. Sanderson and Mr. and Mrs. W.E. Gould, motored to Port Hope on Friday.

Mrs. Ray Jones, of Wellington is visiting relatives in town.

Mrs. Ellen Terrion spent last week at Eldorado with her daughter, Mrs. Charles Thompson.

Mr. and Mrs. T. J. Byrnes and family, accompanied by Mrs. E. Byrnes and Mrs. M. McGrath, spent Sunday afternoon with Mr. and Mrs. B. Callery, at Read.

A euchre and bridge party was held in the separate school on Monday evening with twenty four tables in play. Mr. Edward Maloney and Miss Bernice Forestell, won the prizes for euchre, Mr. Fred Paquet and Miss Ida Gillen carried off the honors at bridge. Miss G Shannon won the door prize.

Nearly all pumps used in Argentina are from the United States.

## EFFICIENCY LEAGUE.

### Citizenship Night is Put on by Members of Trent River Society.

TRENT RIVER, April 27.—(Examiner Correspondence.)—The topic for Efficiency League which was held Thursday night was "Citizenship," with Miss R. Marion Inkster in charge of the program and Miss B. G. French supplying as organist. Hymn "Onward Christian Soldiers," opened the meeting, Miss Helen Scott read Psalm 72. Hymn "O God our Help in Ages Past" was followed by the Lord's Prayer in concert. The minutes of the previous meeting were read by the Secretary Milton Hawley. There was only one item of business regarding the league meeting for Friday night, May 1st when Rush Point League and Rrent River League meet at Havelock United Church for a social evening. After the offering was taken up the program was as follows: hymn, "Blest be the tie that binds," reading, "Love of country" by Mr. R. W. Umphrey, reading, "In Flanders Fields," Helen Brown; recitation, "A Psalm of Life," Thomas Haywood; reading, "How we have the Victoria Cross," Red Chaplin; recitation, "The Order of Valor," Rena Chaplin; Miss Marion Inkster read an article on "Temperance". Along the line of "Citizenship" from a clipping taken from the Toronto Globe. Hymn "O Canada." Mr. Thomas Haywood conducted a contest "A Country Dinner", the khaki side winning the highest number of points. The meeting closed with the Mizpah benediction.

## At Stirling

Stirling stores and business places will remain open for business on Tuesday, Thursday and Saturday nights on and after May 1st, and continue until next fall. The weekly Wednesday half holiday will be observed after June 1.

On Sunday morning at the Girl Guide service, Miss B. Conley sang "Consider the Lilies." A photographer took a group picture after the close of the meeting.

The Sacrament of Baptism was administered on Sunday to the infant children of Mr. and Mrs. Roy Woodbeck, and Mr. and Mrs. George Mason.

The Stirling bowling greens are being put into splendid shape and the men are becoming most enthusiastic over the coming season.

Mrs. J. S. Sprague of Trenton, and Mrs. Fred Girdwood of Perth were guests at the home of Mr. and Mrs. George Reynolds last Thursday and Friday. Mr. Reynolds is able to be about again after his recent illness.

Mr. and Mrs. Stanley Roblin of Detroit have been recent visitors here; Mr. Roblin has returned to his work in a jewellery shop in the city, but Mrs. Roblin (formerly Mary Belshaw) is visiting her mother, Mrs. George Belshaw.

On Friday evening last, Mrs. Fred Devolin (brother of Mrs. Roy Eggleton) and Ray Carter, who are teaching in Toronto, motored to Stirling and visited at the home of Mr. and Mrs. Roy Eggleton.

On Tuesday afternoon, at the home of Mrs. E. Spinks the W.M.S. met for their regular meeting. The scriptural lesson was read by Mrs. Spinks. Gena Spry led in prayer. Roll call was answered with the key-word, "Light."

A review of The Glad Tidings was given by Mrs. Bissonnette. The topic was taken by the Study Book on British Guiana. In this place there are three types of girls, and their work is mostly looking after the sugar cane. Their school education stops at a very early age; then they must help at home.

On Monday evening when the District Deputy Grand Master paid his official visit to Marmora Lodge, A.F. and A.M., visitors from Stirling were Jerry Craven, Dr. E. A. Carleton and Joe Wilson.

Mrs. Carl Conley has been very ill for some time suffering from an abcess in the throat.

Mr. James Mitchell has rented Mr. Robert Lamb's house on the Frankford road, and will be takeing possession about May 10.

Miss J. B. Chard, of Napanee, has taken a position as book-keeper and stenographer in E. G. Bailey's garage.

"Hands Across the Seas" Mission Band met in the church parlors on Sunday at 2.30 p.m., with a good attendance. Pansy Lansing, the president, was in the chair. An interesting program was put on.

Mr. Alfred Spencer and son Clarence, of Havelock, were Wednesday guests of Mr. and Mrs. Norman Rosebush. They attended the funeral of Mr. Hiram Rosebush.

Mrs. Harper Rollins, supply teacher on the public school staff, is teaching on the Fourth Line of Rawdon during the illness of the teacher, Miss Myrtle M. Reid. Miss Reid has contracted scarlet fever.

Iona Wellman has gone to Fergus, where she will spend the summer months as resident physician in that place in the hospital.

Rev. D. A. McKenzie of Burnbrae, and Rev. D. Marshall of Madoc attended the designation service of Miss Matthews.

## Norham

Mr. and Mrs. Roy Christie and son and Mrs. Ray Campbell and son Howard motored from Buffalo on Friday to visit their parents, Mr. and Mrs. Palmateer and Mrs. E. Campbell.

Mrs. C. Cole of Wooler and Mrs. Gilmers of Colborne visited Rev. and Mrs. Clare on Friday.

Mr. Will Griffis and daughter, Mrs. Brown of Toronto attended the funeral of his sister-in-law, Mrs. Creabook on Thursday.

Mrs. Lou Arkles of Morganston visited friends in the village on Wednesday.

Mrs. Runnells of Dartford visited her daughter, Mrs. Wilson on Wednesday.

Wicklow, Ireland, is trying to find means of housing its poor.

## At Millbrook

Miss Estelle Hetherington, who has successfully conducted a class in leadership training in the community for some years, has pleasure in announcing that pupils who wrote recently on, "The Message and Program of Christianity," have all passed the examination, the names being: Miss Jean L. Burnham, Miss Charlotte Luxon, Mrs. Ross H. Edmunds and Mrs. George Fallis.

Miss Hetherington is beginning now the study of "The Old Testament," and anyone in the community who is interested and cares to join the class, will be made heartily welcome. Leaders in Christian work, or prospective teachers and leaders, would find the course particularly helpful.

Miss Gertrude Spence left this week for Chicago where she has an excellent position with an educational association, her duties, as at present outlined, continuing until the end of June.

Mrs. William Bingham, senior, has returned home after an extended visit at St. Catharines with her daughter, Mrs. William Sanderson. Mr. and Mrs. Sanderson and their two daughters are in the village this week, called here by the death of his father, Mr. W. George Sanderson.

Mr. and Mrs. W. Cavanagh and family have moved to the village from Bethany and are living on Main street, in the house formerly occupied by Mr. and Mrs. James Trick, and belonging to the estate of the late Mrs. (Major) C. Winslow.

Millbrook Lodge I.O.O.F., No. 308, will hold its annual church parade on Sunday, April 26, attending divine worship at Grace Presbyterian Church, when the minister, Rev. John Riddell will preach specially to the Order. Brethren are asked to gather at the lodge rooms promptly at 6.45 p.m.

Mr. and Mrs. William Gray of Peterborough were in the village last week atending the funeral of the late Thomas H. Bradley.

Mr. and Mrs. Jack McLennan, their son Hugh, of Lindsay together with Mrs. McLennan's two sisters, Mrs. (Rev.) Frank Robinson, and Miss Helena Needler, of Toronto were recent guests at the home of their cousin, Mr. A. A. Needler.

Postmaster T. G. Collins and his sister, Miss M. L. Collins motored to Toronto this week and visited friends for a brief stay.

Rev. J. Riddell, who has received a call to the pastorate of the Presbyterian church at St. Mary's, Ontario, last Sunday tendered his resignation to his church boards at Centreville and Millbrook. A congregational meeting to consider Mr. Riddell's removal and other matters of importance was held in Grace Presbyterian Church on Monday evening.

Mrs. R. Hutton, of Toronto, is visiting her sister, Mrs. T. Wilson. Master Jack Wilson is at present with relatives in Toronto.

## Roseneath

Born—To Mr. and Mrs. Archie McCracken, on Tuesday, April 21, a daughter.

Born—To Mr. and Mrs. Ross McCracken, on Sunday, April 19, a daughter.

Rev. R. W. Paton entertained the Young Men's Bible Class on Wednesday evening at the home of Mrs. Lily Turner. A very pleasant evening was spent in social chat and a few amusing contests. The class was organized with Albert Taylor as president and Howard Lapp secretary.

At the conclusion, Mrs. Turner served a delicious lunch which was thoroughly enjoyed. A banquet was planned to be held on Wednesday evening, April 29 at the residence of Mrs. Turner.

The Bert Johnston show company made quite a hit in the village during their three nights of entertainment.

BURDOCK BLOOD BITTERS

Manufactured, for the past 51 years, only by The T. Milburn Co., Ltd., Toronto, Ont.

**Dizzy Headaches and Fainting Spells**

Mrs. Lloyd Babcock, Harrington, Ont., writes:—"Some time ago I was all run down in health. I had dizzy headaches, and suffered a great deal with fainting spells. I was advised to try Burdock Blood Bitters and after taking two bottles I felt like a new person.

"My husband was troubled with indigestion, after meals, and could get nothing to do him any good until he took B.B.B."

Japan imported 631 American motion-picture cameras in 1930.

### OVER-CAPITALIZATION.

The intimation that there are prospects of a pooling arrangement among Canadian newsprint mills to be followed by a thorough re-organization of the industry and a drastic wiping out of over-capitalization will be hailed as good news.

In the first place the success of such an arrangement would eliminate a great deal of anxiety from the present situation and give some hope for steady employment among those who look to the paper industry for work.

In the second place the application of such a common sense business principle as the elimination of over-capitalization is a hopeful sign that the public might well wish could be seen in regard to other industries.

The news print industry is alas nc the only Canadian industry that is suffering from over-capitalization; there are many others that would be on a much sounder footing and have a much greater chance of success if the stock could be effectively de-watered.

In fact the conditions that have developed have been a handicap to successful industrial expansion in this country and there is room for much-needed improvement in that regard.

### TOMATO WEEK.

This week's campaign to increase sales of Canadian tomatoes is in line with the drive to be inaugurated by the Ontario Government in the hope of substituting tomato juice for California orange juice in the diet of Ontario consumers.

Both efforts deserve to succeed for their success is a matter of great importance to the people of this country.

In recent years two very significant discoveries have been made, first that the tomato contains the same much-desired vitamines as the orange, and second, that this vitamine content is not destroyed by the process of canning.

Canned tomatoes, packed under the modern methods used by Canadian canning firms are an ideal food product sold at prices within the reach of almost every body.

Their health-giving properties are not denied, they can be used in such a variety of ways that the palate never tires of them, and they are offered the Canadian people at the present time at remarkably low prices.

Under all these conditions there should be an ever-increasing demand for this very fine food product, especially when it is remembered that Canadian tomatoes are the best in the world and that Canadian canning methods are the last work in cleanliness and efficiency.

### CANADA NEEDS MARKETS.

Whatever their political beliefs may be most Canadians will agree that J. H. Woods, of the Canadian Chamber of Commerce, was right when he declared in an address at Calgary the other day that Canada's future rests upon exports.

If Canada is going to fill her destiny and take the place in the world she should, said Mr. Wood, it will have to be on the basis of a great exporting nation.

There is general agreement that Canada needs more markets for her products.

The head of the Canadian Chamber of Commerce believes that such markets may best be found in the West Indies and South America.

"I have never seen the people of any country more eager than the people of the British West Indies to expand trade with Canada," he said.

The plain duty of the government of the day is to develop the possibilities brought forward by Mr. Woods and to investigate every other possible channel of trade development and it is equally the plain duty of the opposition groups to facilitate that work.

The situation is too serious in short for playing politics and if the politicians of all shades who kept the House tied up for five weeks on a profitless and useless debate believe the people in general approve of such a performance in the face of the pressing problems confronting the Dominion they are all of them very much out of joint with public opinion.

When men are out of work and farmers are out of pocket the political fortunes of any particular party do not occupy a very prominent place on the landscape.

### MOTOR ACCIDENTS.

If there is not a reduction in the number of traffic accidents during the present year the blame cannot be laid at the doors of the Highways Departments of Ontario and Quebec which are to be commended for their efforts to arouse the motorists of their respective provinces to a realization of the need of safer driving methods.

The Ontario Department of Highways has for several years carried on a vigorous newspaper campaign in the interest of public safety while the Quebec department issues a monthly bulletin which contains much sound advice that drivers could absorb with profit.

In the current bulletin it is pointed out that in May and June of last year there were nearly 2,000 automobile accidents in the Province of Quebec and that unless motorists pay greater heed to warnings than they have in the past there is no reason to hope that the next two months will not see at least as many.

The very thought of the probability of 2,000 accidents with all the anguish and suffering involved should be enough to put motorists on their guard.

Ordinary care would eliminate the greater part of these mishaps as the Quebec department explains:

"A cursory examination of statistics reveals the fact that the intersections of streets and roads are most frequently the theatres of accidents," says the bulletin. "Curves, hills, bridges and grade crossings follow in that order.

"It is therefore the duty of the motorists to pay special attention towards avoiding accidents at such dangerous places; to that end he would slow down sufficiently to keep his car completely under control to meet any emergency.

"The safety problem would become very easy of solution could all be convinced of the necessity of avoiding excessive speed through towns, villages and settlements, of keeping to the right, particularly in curves and approaching summits, and of conforming to the law prescribing a full stop before navigating a grade crossing. Caution exercised at the most dangerous places on the highways would suffice to reduce by three-quarters the the number of motor accidents."

### HERE'S THE EVIDENCE.

We read something about a man giving an address in Montreal the other day, in which he said the "very foundations of our existence seem to be in danger. The things we used to do are held up to open ridicule as out-of-date; there is that constant demand for something new and something smart, regardless of the element of danger which may be hidden in it."

Never before had we realized that things had been slipping that bad. We always figured that somehow or other a few of the old things would stick; in them would repose enough virtue to guarantee existence through years to come. But apparently we were wrong.

Since then we have been on the quest for evidence one way or the other. We craved to know if decay and rot were so prevalent that nothing old-fashioned remained.

In the Lindsay Post we saw some correspondence from Bobcaygeon, and therein we read this: "The old-time quilting bees are quite the fashion among the ladies of the several churches. The Anglicans have devoted considerable time, and the Presbyterian and United Churches spent parts of two days in the past week finishing several quilts of various colors and patterns."

That is satisfactory, indeed. Quilting bees? Why, bless you, Mr. Alarmist in Montreal, they are almost as old as housekeeping itself. The ladies talk as they sew; they draw fans and all manner of things and then proceed to ply with diligence the needle and thread. Then tea is served and a good time is had by all. Thus one of the true foundations of our social structure remains.

The Port Dalhousie correspondent of the St. Catharines Standard gave assistance this way:

"All dogs and chickens must be shut up on April 15. . . . Showers for the brides and the brides-elect are much in evidence just now, and they are really very charming and interesting events."

There, there! Has not this civilized land for years been decreeing that dogs and chickens must stay at home during the garden season? Of course, it has.

Have we not for years been having showers for brides and brides-elect? Most certainly. And they have not always been charming and interesting events? Of course, they have.

The idea of any man saying that the sure foundations of our civilization are being shaken at the base and battered at the roof! Bah!

* * * *

Looking around some more we read in the Peterborough Examiner where the correspondent from Trent River told that at the regular meeting of the Efficiency League, Rev. Mr. Archer told that a play "The Road Back," was "to be given by Havelock talent on Friday night at Havelock, and proposed that the Trent River League meet on Thursday night to allow anyone from Trent River to attend the play."

And is it not a fact that for years back local talent has been drawn together by a common desire to give voice to dramatic art? Has the Montreal man never taken part in such a performance?

Then, too, did you notice the fine vein of consideration which spun its golden thread through the announcement about that play? The Trent River folk were going to meet earlier in the week in order that Havelock might have the benefit of a greater number attending their presentation. Ah, there is the spirit which makes the heart of two communities beat as one. Paving the way for that good feeling between Trent River and Havelock is a work to which statesmen could well give heed.

So there is the evidence, and we admit it is good evidence. It is not based on hearsay; it has its firm foundation in the writings of faithful correspondents who know what is going on in their respective communities.

We repeat: The quilting bee retains its honored place; the quilting frames and the clamps may have been borrowed for the occasion, but they will be returned in good order; of that we are certain.

There is law for regulation of dogs and chickens, and there are showers for the brides and the brides-elect.

Then the amateur theatrical lives and one community makes its plans and fashions its activities so the hall may be packed and the receipts may become fattened—verily that is a good turn.

And, mark you, that evidence of the survival of these homely and substantial traits in national character was secured with very little searching. The foundations of our national life being endangered? Bah!—Stratford Beacon-Herald.

### EDITORIAL NOTES AND COMMENT

Three doctors are issuing bulletins as to the condition of Babe Ruth's leg. The King of Swat does things in a royal way.

Mr. Pouliot is still battling valiantly for a station at Riviere du Loup, but it begins to look as if the only way he can get it is to build one himself.

# TANAR OF PELLUCIDAR

BY

## EDGAR RICE BURROUGHS

(Continued from Saturday)

Awakening from a deep and refreshing slumber, Tanar opened his eyes and lay gazing up into the foliage of the tree above him. Happy thoughts filled his mind, a smile touched his lips and then, following the trend of his thoughts, his eyes turned to feast upon the dear figure of his mate. She was not there, but still he felt no concern, thinking merely that she had awakened before him and arisen.

Idly his gaze made a circuit of the little camp, and then with a startled exclamation he leaped to his feet for he realized that both Stellara and Jude had disappeared. He called their names aloud, but there was no response, and then he fell to examining the ground about the camp. He saw where Stellara had been sleeping and to his keen eyes were revealed the tracks of the Himean as he had approached her. He saw other tracks leading away, the tracks of Jude alone, but in the crushed grasses where the man had gone he read the true story, for they told him that more than the weight of a single man had bent and bruised them thus; they told him that Jude had carried Stellara off, and Tanar knew that it had been done by force.

Swiftly he followed the well-marked spoor through the long grass, oblivious of all save the prosecution of his search for Stellara and the punishment of Jude. And so he was unaware of the sinister figure that crept along the trail behind him.

Down across the table-land they went — the man and the great beast following silently in his tracks. Down to a cliff overhanging the sea the trail led, and here, as Tanar paused an instant to look out across the ocean, he saw hazily in the distance a canoe and in the canoe were two figures, but who they were he could only guess, since they were too far away for him to recognize.

As he stood there thus, stunned for a moment, a slight noise behind him claimed his attention, so that he turned a quick, scowling glance in the direction from which the interruption had come, and there, not ten paces from him, loomed the snarling face of a great tarag.

The fangs of the saber-tooth gleamed in the sunlight; the furry snout was wrinkled in a snarl of anger; the lashing tail came suddenly to rest, except for a slight convulsive twitching of its tip; the beast crouched and Tanar knew that it was about to charge.

Unarmed and single-handed as he was, the man seemed easy prey for the carnivore; nor to right nor to left was there any avenue of escape. All these things passed swiftly through the mind of the Sarian, yet never did they totally obliterate the memory of the two figures in the canoe far out at sea behind him; nor of the cliff overhanging the waters of the cove beneath.

And then the tarag charged.

A hideous scream broke from the savage throat as the great beast hurled itself forward with lightning-like rapidity. Two great bounds it took, and in mid-spring of the second, Tanar turned and dove head foremost over the edge of the cliff, for the only alternative that remained to him was death beneath the rending fangs and talons of the saber-tooth.

For all he knew, jagged rocks might lie just beneath the surface of the water, but there was one chance that the water was deep, while no chance for life remained to him upon the cliff top. The momentum of the great cat's spring, unchecked by the body of his expected prey, carried him over the edge of the cliff also so that man and beast hurtled downward almost side by side to the water far below.

Tanar cut the water cleanly with extended hands and turning quickly upwards came to the surface scarcely a yard from where the great cat had alighted. The two faced one another and, at sight of the man, the tarag burst again into hideous screams and struck out swiftly toward him.

Tanar knew that he might outdistance the tarag in the water, but at the moment that they reached the beach he would be at the mercy of the great carnivore. The snarling face was close to his; the great talons were reaching for him as Tanar of Pellucidar dove beneath the beast.

A few swift strokes brought him up directly behind the cat and an instant later he had reached out and seized the furry hide. The tarag turned swiftly to strike at him, but already the man was upon his shoulders and his weight was carrying the snarling face below the surface.

Choking, struggling, the maddened animal sought to reach the soft flesh of the man with his raking talons, but in the liquid element that filled the sea its usual methods of offense and defense were worthless. Quickly realizing that death stared it in the face, unless it could immediately overcome this handicap, the tarag now strained its every muscle to reach the solid footing of the land, while Tanar on his part sought to prevent it. Now his fingers had crept from their hold upon the furry shoulders down to the white furred throat and like claws of steel they sank into the straining muscles.

No longer did the beast attempt to scream and the man, for his part, fought in silence. It was a grim duel; a terrible duel. Deep into the gloomy cavern beneath the cliff the tarag battled for the tiny strip of beach at the far end and grimly the man fought to hold it back and force its head beneath the water. He felt the efforts of the beast weakening and yet they were very close to the beach. At any instant the great claws might strike bottom and Tanar knew that there was still left within that giant carcass enough vitality to rend him to shreds if ever the tarag got four feet on solid ground and his head above the water.

With a last supreme effort he tightened his fingers upon the throat of the tarag and sliding from its back sought to drag it from its course, and the animal, upon its part, made one, last supreme effort for life. It reared up in the water and wheeling about struck at the man. The raking talons grazed his flesh, and then he was back upon the giant shoulders forcing the head once more beneath the surface of the sea. He felt a spasm pass through the great frame of the beast beneath him; the muscles relaxed and the tarag floated limp.

A moment later Tanar dragged himself to the pebbly beach, where he lay panting from exhaustion.

Recovered, nor did it take him long to recover, so urgent were the demands of the pursuit upon which he was engaged, Tanar rose and looked about him. Before him were canoes, such as he had never seen before, drawn up upon the narrow beach. Paddles lay in each of the canoes as though they but awaited the early return of their owners. Whence they had come and what they were doing here in this lonely cavern, Tanar could not guess. They were unlike the canoes of the Amiocapians, which fact convinced him that they belonged to a people from some other island, or possibly from the mainland itself.

But these were questions which did not concern him greatly at the time. Here were canoes. Here was the means of pursuing the two that he had seen far out at sea and who he was convinced were none other than Jude and Stellara.

Seizing one of the small craft he dragged it to the water's edge and launched it. Then, leaping into it, he paddled swiftly down the cove out towards the sea, and as he paddled he had an opportunity to examine the craft more closely. It was evidently fashioned from a single log of very light wood and was all of one piece, except a bulkhead at each end of the cockpit, which was large enough to accomodate three men.

Rapping with his paddle upon the surface of the deck and upon the bulkheads convinced him that the log had been entirely hollowed out beneath the deck and as the bulkheads themselves gave every appearance of having been so neatly fitted as to be water-tight, Tanar guessed that the canoe was unsinkable.

His attention was next attracted by a well-tanned and well-worn hide lying in the bottom of the cock-pit. A rawhide lacing ran around the entire periphery of the hide and, as he tried to determine the purpose to which the whole had been put, his eyes fell upon a series of cleats extending entirely around the edge of the cock-pit, and he guessed that the hide was intended as a covering for it.

Examining it more closely he discovered an opening in it about the size of a man's body and immediately its purpose became apparent to him. With the covering in place and laced tightly around the cock-pit and also laced around the man's body, the canoe could ship no water and might prove a seaworthy craft, even in severe storms.

As the Sarian fully realized his limitations as a seafaring man, he lost no time availing himself of this added protection against the elements, and when he had adjusted it and laced it tightly about the outside of the cock-pit and secured the lacing which ran around the opening in the center of the hide about his own body, he experienced a feeling of security that he had never before felt when he had been forced to surrender himself to the unknown dangers of the sea.

Now he paddled rapidly in the direction in which he had last seen the canoe with its two occupants, and when he had passed out of the cove into the open sea he espied them again, but this time so far out that the craft and its passengers appeared only a as single dot upon the broad waters. But beyond them lazily loomed the bulk of the island that the Jude had pointed out as Hime and this tended to crystallize Tanar's assurance that the canoe ahead of him was being guided by Jude toward the island of his own people.

Well aware of his small experience and great deficiency as a paddler, Tanar held no expectation of being able to overhaul the canoe manned by the experienced Jude. The best that he could hope was that he might keep it in view until he could mark the spot upon Hime where it landed. And once upon solid ground again, even though it was an island peopled by enemies, the Sarian felt that he would be able to cope with any emergency that might arise.

Gradually the outlines of Hime took definite shape before him, while those of Amiocap became correspondingly vague behind. And between him and the island of Hime the little dot upon the surface of the sea told him that his quarry had not as yet made land. The details of the shoreline grew more distinct. He saw coves and inlets and wooded hills and then he saw the canal that he was following disappear far ahead of him beyond the entrance of a cove. Tanar marked the spot well in his mind and redoubled his efforts to reach the shore.

And then—fate arose in her inexorable pervesity and confounded all his hopes and plans.

A sudden flurry on the surface of the water far to his right gave Tanar his first warning of danger. And then, like the hand of a giant, the wind caught his frail craft and turned it at right angles to the course he wished to pursue. The waves rolled; the wind shrieked; the storm was upon him in great fury and there was naught to do but turn and flee before it.

Down the coast of Hime he raced, parallel to the shore, farther and farther from the spot where Jude had landed with Stellara, but all the time Tanar was striving to drive his craft closer and closer to the wooded slopes of Hime. Ahead of him, and upon his right, he could see what appeared to be the end of the island. Should he be carried past this, he realized that all would be lost, for doubtless the storm would carry him on out of sight of land.

Straining every muscle, continuously risking being capsized, Tanar strove to drive inward toward the shore, and though he saw that he was gaining, he knew that it was too late, for already he was almost abreast of the island's extremity, and still he was a hundred yards off shore. But even so he did not despair. He saw the island slip past him, but there was yet a chance, for in its lee he saw calm water and if he could reach that he would be saved.

The Sarian bent to his crude paddle. Suddenly the breeze stopped and he shot out into the smooth water in the lee of the island, but he did not cease his strenuous efforts until the bow of the canoe touched the sand of Hime.

Tanar leaped out and dragged the craft ashore. He hid it beneath the foliage of nearby bushes, and alone and unarmed set forth to face the dangers of an unknown country in what appeared even to Tanar as an almost hopeless quest for Stellara.

To the Sarian it seemed wisest to follow the coast-line back until he found the spot at which Jude had landed and then trace his trail inland, and this was the plan that he proceeded to follow. Being in a strange land and unarmed, Tanar was forced to move with great caution; yet constantly he sacrificed caution to speed. Natural obstacles impeded his progress. A great cliff running far out into the sea barred his way and it was with extreme difficulty that he found a path up the face of the frowning escarpment and then only after travelling inland for a considerable distance.

(To be continued)

## Voice of the People

### SLAUGHTER OF FISH

The Editor, Peterborough Examiner,

Dear Sir,—Those who are in touch with this situation know that the slaughter of lunge this spring has been appalling. Warm weather, early spring and water level conditions have all favoured the poacher. As a representative of this district at the New York, Cleveland and Detroit Motor Boat show, I probably am in a position to realize the value of our fish more than the average citizen, and I want to make this very definite statement. When our fishing is through, this district is through, as one of the great tourist centres of Ontario. Fishing is the magnet which has drawn the sportsman here. Last year our tourist business amounted to over a half million dollars. It is literally a case of "strangling the goose that lays the golden eggs." Maskinonge are rapidly becoming extinct due to these illegal practices, and no successful method has yet been devised whereby they can be propagated artificially. When they are gone from our waters they are gone for good. There is another phase of the situation which is not generally appreciated and that is the fact that the citizens of Peterborough must realize that it is an unsportsmanlike thing to do, as well as an illegal act to purchase or accept these fish from the law breakers who are catching them. If a ready market were not found to dispose of them in Peterborough, there would be very little incentive in taking them. It is a most discouraging thing to the officers of the Peterborough Fish and Game Protective Association who for years past have been attempting to clean up the situation, to find people in Peterborough who will readily purchase these fish at every opportunity. This district owes a debt of gratitude to Mr. J. W. Gravestock for the time and energy he is putting on this job. Every citizen who has the welfare of the district at heart will support him in his efforts.

Fred L. Roy.

## What To-day Means To You

### "TAURUS"

If April 27th is your birthday, the best hours for you on this date are from 8:45 a.m. to 10 a.m., from 1 p.m. to 2:30 p.m. and from 7 p.m. to 8:15 p.m. The danger hours are from 3:30 p.m. to 5 p.m. and from 10 p.m. to 11:45 p.m.

The astrological influences on this date will seem to heighten emotions, and paralyse action, and much will be said and thought, but little will be done, in a material sense. Something will occur, which will act as an "eye opener." Plans will be begun for future development.

The child born on this April 27th will be a born hustler, and will develop into a single-handed fighter and a hard worker. It will be outspoken, honest, fiery tempered, and a good mixer. Strong in its likes and dislikes, it will make many friends, and not a few enemies.

If born under the influences in force on an April 27th, you are an extremely solid and practical being. As a Taurean, you are slow, plodding, patient, enduring, persistent and matter-of-fact. You lack the imagination to become a trail blazer, but you make a most devoted follower, and a courageous one, of your leader. You have an indefatigable spirit, and you often make overdrafts on your energy and physical strength.

You are pretty well master of your emotions, and although it takes a great deal to arouse your anger, it can be kindled into a white and scorching flame. It is difficult for you to swallow an injustice, or to remain passive when others are treated wrongly.

You "get there" through your perseverance, more than your brilliancy of mind. You are a slow deliberate thinker, and you seldom make a move without carefully studying the "pros" and "cons." You are suited, if a man, for callings in which the handling of money is concerned, such as banking, stockbroking, cashiering and other pursuits involving the manipulation of figures.

You have a most reserved nature, and are rather difficult to know. You are very popular amongst your friends, and you are a most loyal being. It would be well for you to marry one born under the Sign of Virgo or Cancer, to ensure mental and physical sympathy with your mate.

## IN DAYS GONE BY

Items Taken From Old Fyles of The Examiner

### APRIL 27, 1921

The provincial convention of the Presbyterian W.M.S. opened here in St. Paul's to-day....The Council decides to pave Simcoe street from Water to Queen....A coroner's inquest found that the death of Asa Downer, who died at the County Goal recently, was due to natural causes....A grove of oaks has been planted in Elgin County as a memorial to the soldiers of that district who were killed....Less than 24 per cent of our wheat exports go from Canadian ports.

### APRIL 27, 1911

News from the Antarctic is that there will be a regular race between Captain Scott and Raould Amundsen for the South Pole....Fourteen immigrants arrived in Peterborough last night, coming from England....Chief Thompson believes that vagrants sleeping and smoking in barns around the city have been responsible for so many fires....The medical health officer, Dr. McPherson, will receive $800 instead of $600 in future ....Mexico protests against the British landing troops at San Quentin ....The G.T.R. will put on a new train giving permanent passenger service between Port Hope and Peterborough.

### APRIL 27, 1901

The Welland Canal opened yesterday, though the water is still low.... The Baltimore Sun calls Andrew Carnegie one of the world's greatest philonthropists....The 57th Regimental Band gave a popular concert last night in Lindsay....The Arbor Day Committee of the Ashburnham Civic Association meets to-night at 7.30 in the Council Chambers....Sir Ellis Ashmead-Bartlett, M.P., was yesterday fined ten shillings for striking a lawyer.

### HALL'S BRIDGE

Mr. and Mrs. Elizah Windover have been visiting their daughter, Mrs. Melville Hall this week.

The junior pupils attended school once more after Miss Dunsford resumed her duties at Hall's Bridge School on Monday.

## NEW COMPANY IS PROPOSED

Only Chance Stimson Creditors Have of Getting Dollar Out of Building, Says Counsel.

### EXECUTIVES DENOUNCED.

TORONTO, April 27 — G. T. Clarkson, custodian for the Commerce and Transportation Building, Limited, a bankrupt Stimson subsidiary, whose officers are shortly to face trial on charges of conspiracy, told a meeting of creditors at Osgoode Hall yesterday that as a result of negotiations a new company may be formed. He was authorized to proceed with plans for reorganization and refinancing.

"This is the only chance the shareholders have of getting a dollar out of the building," H. H. Shaver, creditors counsel, told the meeting, largely composed of creditors from all parts of Ontario.

**Some Assets Valueless.**

Mr. Clarkson said that book assets and liabilities apparently balance. "There were two of these companies," he said, further. "The old one sold out to the new one. Half of the equity of the present Commerce and Transportation Building belongs to the bondholders of this new company. Half belongs to the Stimson Building and Investment Company." Some of the assets of the Commerce and Transportation Building, Limited, were valueless, Mr. Clarkson declared, "and the big asset—the building at Bay and Front Streets—has a $900,000 mortgage on it. Unless it is refinanced, we lose everything."

Mr. Clarkson affirmed that "there are things which look irregular in the transactions of the executives of the firm, but our purpose is to find out what can be done for the creditors. We all know there may have been irregularities or the directors of the company would not now be facing trial."

**Listed Under Assets.**

Listed under assets, according to the custodian's report, are investments, $50,000; amounts due from G. A. Stimson Company, Limited, $850,000 on preferred stock subscription and $106,460 on open account; fixed assets, land and building, $2,825,754 (this building is subject to an $850,000 mortgage); commissions on stock sales, $165,000.

The liabilities were: Due the old Commerce and Transportation Building, Limited, $900,000 and $3,100,000 in stock.

The meeting was featured by stormy denunciations of the executives of the company by creditors speaking from the floor. Norris Windsor of Green River, wanted to know "how it was that the Attorney-General let all this thing go on." The charges kept on until they were firmly silenced by E. O. Lennox, official receiver, who presided.

One thousand scoutmasters recently attended a Boy Scouts meeting at Brighton, England.

## SNOW PLOWS OUT IN ADIRONDACKS

### Blanket Six Inches Deep Clogs Highways—Continues to Fall.

### MERCURY BELOW FREEZING.

SARANAC LAKE, N.Y., April 27.—Snow plows stored for the summer were taken out to-day to clear Adirondack Mountain highways blanketed by six inches of snow. High winds and snow continued to-day.

This village was in darkness for a half hour last night, after a tree fell on a transmission line. The mercury went below the freezing point.

At Malone, snow whipped along on a west wind of gale proportions threatened to block the main arteries of travel as it continued to fall well into the day.

### FOREIGN EXCHANGE.

NEW YORK, N.Y., April 27 (C.P.). — Prime mercantile paper 2¼ to 2½ per cent.

Foreign exchange firm. Demand rates (Great Britain in dollars, others in cents): Great Britain, 4.86 1-16; France, 3.91; Italy, 25.23⅜; Germany, 23.81; Canadian dollar, 1-16 of 1 per cent. discount.

## NEW YORK LIST SLUMPS UNDER HEAVY SELLING

### Many Prominent Issues Weaken as Liquidation Increases in Afternoon.

### HEAVIEST IN WEEKS.

### Suspension of A. West and Company Fails to Upset Action.

NEW YORK, N.Y., April 27.—The stock market broke to-day under the heaviest volume of selling witnessed during the current decline, now in its fifth week.

Suspension of A. West and Company, a prominent Philadelphia brokerage firm, from membership on the New York stock exchange did not upset prices when the action was announced about 11 o'clock this morning, but selling increased early in the afternoon when many prominent issues weakened.

U.S. Steel at 122.50 cold $3 under the Saturday close. Standard Oil of New Jersey, also down $3, recorded the lowest price since 1924, while New York Central's break of $5 carried it to 1923 levels. There were declines of $2 to $4 in J. I. Case, Dupont, American Telephone, Union Carbide, American Telephone and American Can, Allied Chemical and Eastman Kodak lost $5.

The market had a brief upturn in the early dealings, but the improvement quickly disappeared when liquidation and short selling reappeared in volume.

## NEW YORK MART CLOSES HEAVY

### Deflation of Values Given Impetus By Suspension of Investment House.

### OILS DROP SHARPLY.

NEW YORK, N.Y., April 27.—The deflation of share values received fresh impetus from the suspension of a prominent Philadelphia investment house to-day.

The stock market pointed upward for a few minutes in the initial transactions with Continental Share, Inc., and related issues rising briskly, in response to the announced re-organization of the management of continental. Large-scale liquidation soon appeared, however, and although there was a brief let-up after announcement of the West & Co. suspension, fresh waves of selling soon swept over the market.

Oils dropped sharply. Standard of N.J. tumbled 3 points to a new low price since 1924. Issues off 2 to 4 points included Standard of California, Texas Corp., Mexican Seaboard and Houston Oil. Steels also plunged downward, U.S. Steel dropping 3 points to still another minimum level since 1927. In the rails, New York Central broke 4 to the lowest in 8 years. Miscellaneous issues losing 2 to 5 included American Can, American Telephone, Case, Johns Manville, Union Carbide, Dupont, Allied Chemical, Paramount, Nash Motor, Westinghouse, Eastman, Western Union and others.

Only moderate losses appeared in General Motors, General Electric and North American. The decline, however, was one of the broadest since December.

One of the more encouraging developments of the day in world finance was the budget message of Rt. Hon. Philip Snowden, British Chancellor of the Exchequer. Mr. Snowden spoke hopefully of the general trade outlook, and proposed only temporary expedients to tide over the exchequer pending the arrival of better times.

## Chicago Corn Drops To New Lower Level

CHICAGO, Ill., April 27.—(CP)—Wheat scored early advances to-day after a wavering start, but corn touched new bottom levels. Upturns in wheat were influenced by relative firmness of Liverpool quotations and by Frost reports from Kansas, Missouri and Nebraska.

Opening at 1-8 cent off to 3-8 up, wheat later gained all around. Corn started at ½ decline to ½ advance and subsequently underwent a general sag.

### BRAZILIAN TRACTION

The further weakness in Brazilian Traction was undoubtedly due to the falling off of earnings in March and to a certain amount of forced liquidation. This situation was aggravated by a cable report from Rio de Janeiro that the government of Brazil had issued a decree that telegraph service must be conducted by the government itself and that no concessions under which foreign companies now operate will be received. Many similar reports are in circulation but they are largely regarded as propaganda.

However, it is gratifying to know that so far as Brazilian Traction is concerned its franchise to operate telephones in cities and states in Rio de Janeiro and Sao Paulo is unaffected. The franchise in the city of Rio de Janeiro is exclusive to 1950 and in the state it runs to 1990. In Sao Paulo a favorable concession was granted in 1926; in 1930 and every seven years thereafter rates are subject to revision; return on capital is not to exceed 12% after adequate depreciation. The tramways concession for Rio de Janeiro does not expire until 1970 and that for Sao Paulo until 1941. The Sao Paulo Gas Company a subsidiary which supplies gas to the city of the same name has a franchise which expires in 1950.

## BRADSTREET'S TRADE REVIEW

ST. JOHN, N.B.—Reports to Bradstreet's say that the volume of sales passing here at retail establishments keeps up well and is improving with the spring trade. Demand at wholesale also continues very fair and collections are fair. Legislative authority has been given the Provincial Government to enter into an agreement with the Federal Government for the purpose of bringing about a greater development and expansion of the oyster fisheries of New Brunswick. A grain cleaning plant has been opened in Hartland by the New Brunswick Department of Agriculture for the service of growers in Victoria and Carleton counties, to enable them to prepare their grain for export.

MONTREAL—Reports to Bradstreet's indicate that retail sales are well maintained, though at competitive prices. Jobbers are receiving more than the usual quota of filling orders, but hardware men have received some substantial orders for bulk delivery. Wheat exports during the past week showed a satisfactory gain over last year and it is reported that the season's loadings in Vancouver have doubled in quantity. Montreal butter prices have taken a substantial drop, which is reflected in the price of eggs and cheese. Live stock prices have also fallen. Car loadings for the week ended April 11th showed a healthy increase over the preceding week, although well below the level of 1930. Montreal bank clearings showed a drop of 24.58% as against the same week last year. For the fiscal year ended March 31st, Canada's total trade decrease amounted to $669,377,090. It is anticipated that the forthcoming season will show a market advance in the volume of tourist traffic, the extension and improvement of good automobile roads and accommodation at reasonable prices providing a constant stimulus to the northward movement. Collections are still reported to be slow.

OTTAWA—Reports to Bradstreet's say that there has been little change here in either wholesale or retail trade with industrial operations still on a reduced scale. The cut in the price of newsprint has been a further unfavorable development in the industrial situation. The wood used in the 23 establishments specializing in sporting goods in Canada in 1929, according to the Dominion Bureau of Statistics, was chiefly sawn softwood lumber amounting to 1,872,000 feet board measure, valued at $76,576; 756,000 feet of hardwood lumber at $67,609; 341 cords of hardwood bolts at $4,981 and veneer and plywood at $3,640. The more important items among the products were hockey sticks to the number of 632,306 and valued at $207,852 and tennis rackets numbering 48,750 and valued at $213,861.

TORONTO—Reports to Bradstreet's say that retail trade is expanding at a moderate pace with the coming of the fine weather. The season to date has been well ahead of normal and this has been of material assistance to the movement of spring and summer goods. Demand at wholesale is very fair although retailers are buying in limited quantities only and for their immediate needs. Dry goods, millinery, boots and shoes, and spring hardware are meeting a fair request while there is some quickening in builder's supplies although the volume of construction on hand is not up to that of recent years at this time. Manufacturing operations are spotty, there being a fair degree of activity among furniture manufacturers in the province, and with boot and shoe and textile industries. Collections are fair. Crops in this part of the country are doing fairly well but need more rain in some parts.

HAMILTON—Reports to Bradstreets say that there has been a moderate improvement here in retail trade as is usual at this time of year although the increase this year naturally is not as great as in normal times. Wholesale trade continues fair with manufacturing operation spotty. Building permits for the first three months of 1931 in Hamilton, totalled $1,264,550 as compared with $1,862,450 for the similar quarter of 1930, which is considered a favorable showing in view of general world condition. The new Hamilton city directory gives the population of the city as 162,372, this including a few people residing just outside the city limits, and comparing with the city assessor's last summer estimate of 150,065. The Hamilton directory has increased on an average of 50 pages annually during the past ten years.

LONDON—Reports to Bradstreet's say that with the coming of spring there has been more activity here in trade circles and business has shown some tendency to improve. Manufacturing operations are still however, rather quiet compared with normal years. Collections are fair. Poultry keeping is on the increase in Canada. The total number of poultry on the farms in the Dominion at the end of last year was estimated at 60,795,000, of which 56,247,000 were hens and chickens; 2,399,000 turkeys; 1,160,000 geese and 989,000 ducks. The value of all these birds is placed at $54,852,000. Two years ago the total number of poultry was 53,779,000. Poultry are successfully raised commercially in all of the provinces of Canada. The principal centre of the industry is the Province of Ontario.

WINDSOR—Reports to Bradstreet's say that business here shows little change from a week ago. The automotive industry is showing a gradual increase in its operations, but the situation is still below normal. Wholesale and retail trade are fair. Collections are rather slow. Essex county is to have a big creamery—the largest in the British Empire—with a capital of $1,500,000, following an agreement reached between the Minnesota Valley Canning Corporation of Lesueur, Minn., and John Wall and associates of Windsor. Mr. Wall is to be president and general manager.

WINNIPEG—Reports to Bradstreet's say that there has been a little quickening of retail and wholesale trade here, as a result of the coming of spring and the sowing of a new crop throughout the west which always puts new spirit into the people. Acreage will probably be reduced. Industrial operations are showing a little more activity. Collections are fair. The value of building permits in the City of Winnipeg for the month of March was more than double that for the same month last year, bringing the total for the year up to $1,004,400. There is marked activity in home construction this year.

CALGARY—Reports to Bradstreet's say that business here is still quiet but has been stimulated somewhat by the opening of spring and the coming of seedtime which fills the breasts of most people with new hope. Collections are fair. Revenue derived from the Port of Calgary customs branch during 1930 amounted to $3,266,067—the third highest total since 1921. In 1921 the total was $2,11,383 and in 1925 it was $3,094,300. The two years exceeding the 1930 total were 1928 and 1929, when the figures were $4,640,550 and $5,266,321 respectively.

VANCOUVER—Reports to Bradstreet's say that retail sales here are a little more active than they have been, while wholesale trade is fairly steady. Manufacturing operations show a little improvement. Collections are fair. According to unrevised figures of the Dominion Department of Fisheries, salmon landed by British Columbia fishermen made up slightly more than a fifth of Canada's total catch of sea fish in 1930, while cod from Atlantic waters made up a seventh, the figures being, respectively in hundredweights, 2,164,636 and 1,551,253. Pilchards and herring, both from the Pacific, also made good showings, at 1,507,198 cwt. and 1,224,690 respectively.

## SEVERAL MINOR RECESSIONS FEATURE TORONTO TRADNG

### International Nickel Down Half Point While Noranda Gains 1-2 to $23.50.

### MINING ISSUES QUIET.

TORONTO, Ont., April 27 (C.P.)—The market continued its process of slow decline to-day with prices of practically all groups from a fraction to a point lower at the close on Toronto Stock Exchange.

C.P.R. in the early afternoon made a new low for 1931 at 34½, though the stock closed with only ½ point loss at 35. Nickel at one time sold under 15, only a point above its extreme low. Brazilian was unchanged at 1½ to 18⅝. Bell Telephone lost a point, Ford of Canada nearly a point, Gypsum dipped to a new low under 9 and the steels were weak. Steel of Canada lost 1½ points and Page-Hersey descended to record low ground under 80.

Oils were soft and down fractionally. Service Stations, stronger at the end of last week, lost a point on meagre turnover to-day.

Sales were not heavy and the list was narrow.

## Chain Stores Taken Over By Dominion Com.

TORONTO, Ont., April 27 (C.P.).—Chain stores trading under the name of "Stop and Shop" in twelve Ontario cities and towns were taken over this morning by the Dominion Stores organization. The places affected are Brockville, Kingston, Belleville, Port Hope, Oshawa, Barrie, Brantford, Guelph, Galt, London, Chatham, and St. Thomas. It was stated at the head offices of the Dominion Stores here it was not intended to close any stores in any of these locations at present.

## Columario Gold Mines.

Columario Gold Mines, Ltd., is developing a gold property (1,020 acres) located on the Skeena River, near Usk, British Columbia. The property is located on the side of Mount Kleanza and development, therefore, is being carried out by means of a system of tunnels, rather than shifts and drifts as is common in eastern Canada.

Officials state that work to date has veins. Seven tunnels have been driven into the mountain side at different locations and levels and upwards of 3,200 feet of underground work has been carried out through the tunnels. Several ore shoots are said to have been uncovered at the different levels, yielding values in gold.

The management state that it is their intention to install a mill and bring the property into production in the near future, possibly this year. Financing was arranged recently, the company optioning a block of treasury stock to private interests at a price sufficient to supply funds to bring the property into production.

The company is capitalized at $1,000,000, in shares of $1.00 par, of which some 918,500 shares are outstanding, the balance of 81,500 remaining in the treasury. The stock is traded in on the Standard Stock and Mining Exchange, Toronto.

### WORKMAN KILLED IN MINE ACCIDENT.

THE PAS, Man., April 27 (C.P.).—Steve Zabaralo, 40-year-old driller, was killed and a fellow-worker seriously injured at the Sherritt-Gordon Mines at Sherridon Saturday in an accident, the nature of which was not known here.

Nick Zunoc, aged 20, is in hospital and attendants believe he will live. He lost one eye, and his injuries include a fractured arm, injured legs and severe back lacerations.

## FINANCIAL NEWS AND BRIEFS

A Special Service to The Examiner.

### SHIP MOVEMENTS.

The total number of ships moving in and out of the ports of France during 1930 was 128,630 as against 125,899 in 1929 and 119,647 in 1928.

Total tonnage was 148,325,303 tons, up from 140,464,082 tons in 1929. The port of Rouen heads the list with total tonnage of 9,927,542 tons. In 1929 tonnage in and out of this port amounted to 9,486,100 tons and in 1928, 2,500,000.

### DIVIDEND DECLARED.

Canadian Hydro-Electric Six per cent preferred, 1½ per cent, payable 1st June, to shareholders of record 1st May, 1931.

### TO CLOSE BRANCH.

The branch of the Bank of Montreal in Vera Cruz, Mexico, which has been operating for the past ten years, will close its doors on May 1st, owing to the small amount of business which it has been doing in recent times.

### MASSEY-HARRIS OPERATIONS.

"We are operating on very curtailed schedules," said T. A. Russell, president of Massey-Harris, when asked as to the correctness of the rumours that the company has decided to close its plants. "But," he added, "there is no change in the situation. There has been no definite shutting down of the plants." The outlook for the agricultural implement industry is not particularly bright, said Mr. Russell, in view of conditions in the wheat market.

### FOUNDATION COMPANY BUSINESS GOOD.

At the present time the Foundation Co. of Canada, Limited, has approximately $5,000,000 of unfinished business on its books, and although new business prospects for the coming fiscal year, beginning May 1, are dependent upon the general situation, the company is expected to get its share of what is offering. The company's year ends with this month, and in official quraters it is stated that the report, which will make its appearance some time in June, will show the common dividend earned by a substantial margin. The company has 84,600 shares of common stock outstanding, on which is paid an annual dividend of $1.

### DOMINION STORES

A good stock that has given a good account of itself in trading during the recent reactionery market has been Dominion Stores. Although this company does not make a practice of publishing an earnings statement, Financial Service understands that earnings during the first quarter of this year compared very favorably with thoses of 1930. The management is keen and aggressive. Future expansion will be made shortly as it is altogether likely that Dominion Stores will shortly open stores in the Maratime provinces. The stock at 20 returns the holder 6%.

### SMELTERS DECLINE

The substantial reduction in earnings for the year 1930 was responsible for the drastic decline in Consolidated Smelters and naturally the question is also asked—can the present dividend of $2.50 a share and the bonus of $10.00 be continued. The next dividend is payable on July 15th and it is likely that directors will meet the middle of May to take action. Despite the fact that the company had to dip into the surplus account substantially in order to maintain the above mentioned dividend and bonus during 1930 the opinion is expressed in well-informed quarters that there will be no change in the dividend policy this year. No official information is obtainable on this point. However, in discussing the situation with one that is in a position to know it was pointed out to Financial Service that any improvement in metal prices would quickly be reflected in the company's earnings—such a prospect should not be overlooked by shareholders.

### ABITIBI PREFERRED

The recent market action of Abitibi preferred coupled with developments in the newsprint field have been unsettling to the holders of this security who are anxious to know whether the 6% dividend can be continued or not. The dividend on this particular stock was earned with a slight margin in 1930. Last year was a hard one for all newsprint companies. So far in 1931 there has been no alleviation of the situation and under the circumstances earnings for the first quarter of this year were probably under the level of 1930. Financial Service is therefore unable to pass an opinion as to whether the company would continue payment on the preferred stock if earnings were below the requirements.

### ASBESTOS CORPORATION

The court hearing of the case of the Asbestos Corporation Ltd., against the Keasby Mattison Company which was scheduled to be heard yesterday was postponed until April 28th. In this connection it will be recalled that the first mentioned company is claiming damages against the latter for breach of contract.

### NORANDA

The following wire was received in Montreal from Mutch's mining service: "Noranda recent drilling below 1500 level showed 70 foot core length carrying very high gold values with free gold throughout the 70 foot length. Station at 2000 foot level practically complete—is expected recently cut high grade will be this level will be under development in two months."

Don't miss "Dracula" at the Regent Theatre on Wednesday, Thuraday and Friday of this week. The Examiner Cheer Fund gets twenty-five per cent. of the receipts for relief work.

## Winnipeg Review

Special Service to The Examiner through the courtesy of S. J. Bawlf Company, Grain and Stock Brokers, of Toronto

The wheat market acted very nervous and erratic on Saturday, and after opening about unchanged from the close on Friday night, prices broke sharply. At the start there was some buying by Chicago for New York account, but later Chicago was a big seller, which was understood to be Pynchon long or distressed wheat being thrown on the market. The local crowd were also liquidating, all of which found a very indifferent support. At the end of the first hour the market had declined ¾c, but shorts covered on a small rally in Chicago, prices gaining most of the earlier loss, but the selling pressure became more intensive and prices sank rapidly to new lows on the movement probably meeting some stop loss selling on the way down. Export business overnight was very small, confined to a few scattered loads of Manitobas, but worked by New York exporters, and generally speaking foreign interest in North American grains was disappointing. In the cash market there was only a fair demand from shippers for the straight grades, but offerings were light and spreads were unchanged to ¼ better for a certain grade. There was a little better demand for some toughs, but little was coming out, and spreads on the grains wanted were ¼ better. There was no change in the flour situation, which remains quiet. Buenos Aires closed ½ to ¾ lower. Country marketings on Friday were 330,000 bushels, as compared with 66,000 a year ago. On the extreme break Winnipeg prices were 1¾ to 2 lower and closed 1¾ to 1½ lower. Chicago wheat closed 1¼ to 1¾ lower, and corn 2 to 2¼ lower.

Coarse grains — Firmer than the leading cereal except rye which was decidedly weak. There was a little export business, but the other grains were very quiet. Oats closed ¼ to ⅝ lower, barley ½ to ⅝ lower, and rye 1⅞ lower on all months.

Flax — The general weakness affected this market, and prices closed 1¼ lower in the old crop months. There was a very small trade. The stock market lost further ground on Saturday, and this had some effect on commodity markets.

Liverpool due 1% lower based on Winnipeg.

## BROKERAGE FIRM IS SUSPENDED

### House Maintained Branch Officers in Principal Cities Along Atlantic Coast.

### FOR INSOLVENCY.

PHILADELPHIA, April 27.—(CP)—West and Company, stock brokers suspended by the New York stock exchange to-day were also suspended by the Philadelphia exchange.

West and Company's principal office was in Philadelphia. It also maintained an office in Wall Street.

In addition to a commission business the firm acted as underwriters, distributors in dealers and railroad, public utility, industrial and real estate bonds and stocks.

The New York curb exchange later announced suspension of the company from that market.

WEST AND COMPANY

NEW YORK, N.Y., April 27.—(CP)—West and Company was suspended from the New York Stock Exchange to-day for insolvency.

The firm, a well known New York and Philadelphia house maintained several branch offices in Pennsylvania, including two in Philadelphia, and one each in Altoona, Harrisburg, Johnstown, Lancaster, Pottsville, Reading, Williamsport and New York.

WASHINGTON, D.C., April 27. — (C.P.).—The much heralded test case of treasury regulations barring from importation into the United States Russian lumber produced by convicts fell flat to-day when it was determined that a shipload of lumber which arrived at Providence, R.I., Thursday, did not contain any convict produced lumber, and it was ordered admitted.

## DOME SUFFERS 35 POINT DROP

### Standard Opening To-day Reflects Slump in London Base Metals.

### CHEAPER GOLDS WEAK.

TORONTO, Ont., April 27.—(C.P.)—An easier tone, reflecting another slump in base metal prices in London, marked the opening session of the week on the mining market to-day. Trading was light and the list without featuring issues. Dome, when taken at noon, was off 35 to $10.70 and McIntyre a quarter to $23.50. Mining Corp., a strong spot of late, lost 4 to $2.23. Granada firmed 5 to $1.95 and other higher-priced golds were holding in dull turnover.

Fractional recessions were general in the cheaper golds, with Columario and Tashota off a couple each and San Antonio down a cent. Barry Hollinger moved against the trend to sel up a couple at 15. Eldorado were under selling pressure with price down 7 to 64.

Noranda advanced a half to $23 on confirmation of reports of good gold assays in drilling to the 2,700 level. International Nickel was down a quarter to $15.25 and Ventures lost a couple to 51. Other Lindsleys were steady.

Oils were a quiet group with Acme showing signs of renewed strength and Olga up a couple to 15. Home Oil lost 5 to 75 on reports that naptha contest of gas from the company's wells was decreasing.

## THREE ASK SHARE

(Continued from page one)

tion. The Association duly advertised its intention and various suggestions were made, Mr. McMaster said, as to the manner in which the distribution should be made and, consequently, the question raised were referred to the courts and were answered in a judgement of Mr. Justice Middleton.

**Principles to Follow**

His Lordship laid down several principles to be followed in the division of the money. He ruled that no person who by reason of death or any other cause ceased to be a member of the Association prior to the date of the resolution calling for the distribution, should be entitled to a share of the money. Mr. Justice Middleton decided that the distribution should be made without regard to any question of the origin of the fund. Finally, he ordered that nothing in the judgment should prevent any person from taking proceedings to establish that he was a member of the Association at the date of the passage of the resolution dealing with the distribution of funds and so entitled to a share of the money.

It was in conformity with this last declaration of the judgment that claims were discussed before the Master in Chambers to-day. The first of these claims was that of Quance Brothers, Ltd., who sought a share of the fund, to be divided, as assignees of the Norfolk Milling Co. Quance Brothers, Richard I. Quance testified under examination by C. A. Kemp, acquired the Simcoe company in 1923.

## C.H.E.C. Earnings Bigger For Month

The consolidated net revenue of Canadian Hydro-Electric Corporation, Limited, and subsidiary companies, including Gatineau Power Comapny, in February, 1931, after all charges and available for dividends, was $163,650, compared with $135,159 in February, 1930. For the twelve months ended February 28, 1931, net revenue available for dividend was $2,037,517, or two and two-thirds times dividend requirements on the Corporation's First Preferred Stock. This compares with $1,113,238 in the twelve months ended February 28, 1930.

### PRINCE INSPIRES BIG PRIZES

In order to mark the hundredth show of the Highland and Agricultural Society and to demonstrate to the Prince of Wales what Scotland can produce, when he visits it in Edinburgh June 23, prizes totaling $47,700 are being offered for exhibits. Cups, medals and other mementoes also will be awarded.

## Harvey Councillors Have Busy Session

**Sum of $10 is Donated School Fair—Auditors' Report Accepted.**

HALL'S BRIDGE, April 27 (Examiner Correspondence).—The Township of Harvey Council met at Hall's Bridge on Saturday, April 18. The members of Council were all present, the Reeve taking the chair. Communications were received from J. B. Nelson asking for a grant to the School Fair. It was moved, seconded and carried, that the sum of $10.00 be donated to the Harvey School Fair fund.

From Nicholls Hospital re Isaac Johnston—no action was taken.

From Nicholls Hospital re Earl Dixon—The Clerk was instructed to reply that as Earl Dixon is now a resident of Peterborough, the Council of the municipality will not assume the expense incurred.

From W. R. Thompson, claiming for damage to his car. The clerk was instructed to forward the letter to the insurance company for its consideration.

From Clarence Read, offering to buy the timber on the 18th Concession. Bruce Ingram was authorized to sell the timber on the 18th Concession from the Cold Springs north and report back to the Council at its next meeting.

A by-law was introduced and passed appointing pathmasters, fence viewers, and pound keepers for the current year.

J. R. McIntosh addressed the Council on the subject of getting sand off the road allowance opposite Moore's Lot. It was passed that Mr. McIntosh's request be granted, providing he leaves no poles in the roadway and the ditch to be left level and in good condition.

Moved and seconded that the auditor's report be accepted, the clerk being instructed to have 200 copies of same printed. Carried.

It was passed that Messrs. George Potts and Edward Armstrong be notified by the clerk to the effect that if any accident occurs from their wood being piled on the road allowance, the Council will hold them liable for the same.

Darius Hall was authorized to sell the timber on the 12th Concession from Ganges Corner south to the lake for cash, and report to the Council at its next meeting.

The following accounts were ordered paid: J. B. Nelson, for School Fair, $10.00; Clifford Guthrie, $8.00; Robert Fawcett, $9.00; William Thompson, $9.00; William John Stockdale, $6.75; Robert Irwin, $4.50; Bernard Junkins, $13.50; George Bolton, $9.00; George Bolton, cedar for culvert $2.00; W. Dixon, rebate on labor, $3.80; Darius Hall, $4.00; Wallace Shearer, $4.00; John P. Smith, $2.50; M. Pluard, for salary as assessor for 1931, $80.00.

The Council adjourned to meet as a Court of Revision on Saturday, May 23, at 10 a.m.

Poland has started a campaign to enlarge its wheat production.

## Could Only Walk with Cane

**Now light on feet as 40 years ago. Almost immediate relief. Thanks to Dr. Williams' Pink Pills (Tonic).**

"Some years ago," when residing in Birmingham, England," writes Arthur B. Fenn, "I was suffering from a severe attack of sciatica; could only walk by the aid of a cane and every movement caused agonizing pain. A friend asked me 'Why not try Dr. Williams' Pink Pills?' I purchased a box and, strictly adhering to the printed instruction, I was greatly benefited. Before long I was able to discard my stick. I became entirely well. Every symptom of sciatica disappeared—and today I am as light on my feet as 40 years ago."

"Every symptom of Sciatica disappeared"

Mr. Fenn's testimony is just one from hundreds we might give.

Dr. Williams' Pink Pills help to build up the blood—to correct the conditions which cause sciatica and rheumatism. The iron and other elements form a tonic which increases the amount of haemoglobin (life-giving element) in the blood. Another way of explaining it is that they "increase the blood count" or multiply the number of red corpuscles in the blood stream.

Measurement of the amount of haemoglobin (life-giving element) in the blood before and after one to two months' use of Dr. Williams' Pink Pills, shows how greatly this tonic helps in improving a condition of poor blood.

If you suffer from sciatica, rheumatism or anaemia, go today to your drug store for a trial box of Dr. Williams' Pink Pills. Or write to the Dr. Williams' Medicine Co., Brockville, Ontario. 50 cents a box. Don't wait another day. This tonic has helped thousands of others, and you owe it to yourself to give it a trial. 14

## OBITUARY

**JAMES F. BEDFORD**

HAVELOCK, April 27 (Examiner Correspondence).—The funeral of James F. Bedford of Kennedy road, Toronto, was held from the funeral parlors of Matthews Burial Co., Danford road, on Thursday afternoon at 2 o'clock. The deceased, who was in his seventy-third year, was a retired farmer of Reach Township, living first in Oshawa, afterwards removing to Toronto. Besides his widow, formerly Martha Henry, formerly of Bowmanville, he leaves three sons and four daughters. They are Jay Bedford of Havelock, Edgar of Bowmanville, George of Port Perry, Mrs. Logan of Stratford, and Mrs. J. Anderson of Toronto. Also one stepson, Percy Roy David of Toronto.

The funeral services were under the direction of the Rev. Milton Sanderson of Toronto, an old family friend. Interment was made in the family plot at Bowmanville.

**J. C. ASHMORE.**

LINDSAY, April 27 (Special to The Examiner). — The death took place in Lindsay on Friday of J. C. Ashmore, aged 85 years. The deceased was for many years a resident of Millersmith, Emily, and was one of the best known farmers in the township. His funeral took place on Sunday afternoon to North Emily Cemetery.

**MRS. JOHN KRAGER.**

LINDSAY, April 27 (Special to The Examiner). — The death took place at Bobcaygeon, after a very brief illness, of Mrs. John Krager, a native of Germany, and who for a number of years was a resident of Galway and Harvey Townships, Peterborough County. The deceased, with her husband, came to this country fifty years ago. She is survived by five daughters and one son.

**WILLIAM JACKSON.**

ROSENEATH, April 27 (Examiner Correspondence). — Alnwick Township's oldest resident in the person of William Jackson passed away at his home in the village of Roseneath yesterday following a short illness. The deceased was in his 88th year.

He leaves to mourn the loss, his widow and four daughters, Mrs. Gordon Black, Mrs. John Steele, Mrs. John Pilley, and Jamina Jackson of Toronto.

The funeral will be held on Wednesday afternoon at 1.30 from his late residence in the village with interment in Trent Valley Cemetery, Hastings. L.O.L. No. 261 will be in charge of the service.

Petroleum—No. 1 11d. No. 2 1s.

Rosin—Types F and G, 14s 6d.

Turpentine—Spirits, 44s.

**OLD-AGE PENSIONS INCREASE**

The cost of old-age pensions to taxpayers of England this year is $1,750,000 greater than was expected, and had to be covered in a supplementary estimate. Government heads say this increase is because of old methods of estimating the tenure of life, which now for women is 12 years, and for men 10 years longer than it was at the beginning of this century.

---

Cotton industries of Germany are hiring more workers.

## $100 a Month Income

**will be paid to you regularly free of any chance of loss for the rest of your life**

Do you want a definite, sure income that will come to you even though all other sources of income fail? You can have it.

Picture what a hundred dollars a month would mean to some people you know—the totally disabled, the old unemployed man or woman, the widow struggling along on very small means. Resolve that you will now take the first simple step required in order to provide against you or yours ever being in such a position.

For most people it is very difficult task to build up a fund of thousands of dollars in order to provide an income for themselves. It takes years of self-sacrifice. It isn't necessary now.

Why not adopt the modern way and by depositing moderate annual instalments let the Canada Life take over your problem?

We will guarantee you one hundred dollars a month income when you decide to retire at age, say, 50, 55 or 60, or pay you an income personally should you become totally disabled at any time between now and then, or we would start paying it at once to your family if you should die.

Why not find out how it is done? It will mean no obligation on your part.

THIS COUPON WILL BRING YOU VALUABLE INFORMATION

The Canada Life Assurance Company,
Toronto, Ont.

I am interested in this subject. Please send me by mail your booklet, "Getting the Income You Want," without obligation of any kind on my part.

## WILL ROGERS AT ARTHUR'S COURT

### Comedian Scores Another Hit in Mark Twain's Comedy.

### CONNECTICUT YANKEE.

Will Rogers suits the title role of the film of Mark Twain's "A Connecticut Yankee at the Court of King Arthur" so well that if one picks up the book one instantly visualizes this recruit from the saddle and the plains. This film, the title of which is abbreviated to "A Connecticut Yankee," is another tribute to vocal films. And as most of it is a dream, there is nothing one can quarrel with, even if one desired to.

Mr. Rogers is introduced as Hank Miller, a radio expert, on whom a suit of armor falls at the moment that a demented radio enthusiast believes that he has discovered a wave length that permits him to go back through the ages and listen to King Arthur and his Knights of the Round Table. Soon Hank Miller is perceived at the foot of a tree. Sir Sagramor is prodding him with his lance and saying:

Up, wretch—thou are captive of my lance.

Hank gazes up at the Knight and splutters:

Hey—what is this gag? Get on back to your circus parade.

Sir Sagramor desires to know what manner of man is his prisoner, who speaks so strangely.

Hank Miller then is heard mumbling:

This guy ain't kiddin' at that. Say, listen, old ironsides, what have you got me pinched for? You've got the biggest badge I ever saw on a cop. * * * I ain't nobody to argue with the law, but before I go with you will you answer me just one question?

Sir Sagramor replies:

Let thy tongue be civil then, lest I nail it to thy nose.

The nonplused Yankee then puts this question:

I just want to ask you, am I—am—I in my right mind and if I am canst telleth me where the———I am.

Sir Sagramor declares that he now knows that this strange being is mad, but he adds that in the offing lies Camelot Castle, King Arthur's court.

Says Hank:

Brother, one of us is cuckoo. It can't be you. It must be me 'cause this is certainly no part of Connecticut.

After informing the Yankee that he has bandied words with him too long, Sir Sagramor proceeds with his captive and soon Hank is shackled to a wall with an iron collar around his throat. This dry New Englander pulls out a cigar, much to the amazeemnt of Clarence, the page, scratches a light on his throat band and proceeds to smoke. On being taken before King Arthur by the Baron Munchausen-like Sir Sagramor, Hank addresses the King as "Mr. Toastmaster," and he continues by informing Arthur that if he came to his (the Yankee's) country, the King would be entertained and given the keys of the city. He points to his own plight and refers to Sir Sagramor as "a big tin can."

**The 1931 Magician.**

There is a reference to magic, and Merlin, the court magician, pricks up his ears. The cool Yankee bethinks him of his trusty lighter and muttering, "New York, New Haven, Hartford and Bridgeport," snaps the modern gadget, and to the astonishment of Merlin, the King and the Knights, there is a flame, and Merlin promptly essays to do likewise, which draws from the Yankee:

You got to be a pretty good magician to work one of these.

All this is done by Will Rogers in his characteristic witty style. Then comes the threat of the eclipse inspired by the Yankee reading over in his notebook the dates of such astronomical phenomena and discovering that one June 21, 528, there was a total eclipse of the sun. Hank, chained to a wall, says to Sir Sagramor:

Now listen here, Saggy, you go and tell King Arthur if he don't turn Clarence and I loose right away I'm going to put the Yankee curse on him.

Eventually when the Yankee is about to be burned at the stake, he pretends to darken the sun by waving his arms and saying:

All right, King, you asked for it—now you're going to get it * * * Prosperity! Farm relief! Freedom for Ireland and light wines and beer!

When the Yankee consents to try to uncover the sun on condition that both he and Clarence are pardoned, this invader of Arthur's court chants:

Coolidge, Hoover and Al Smith.

And as Arthur observes that the sun is once more shining, he is so grateful that Hank becomes Sir Boss, Will Roger's court costume being something reminiscent of a coster at Hampstead Heath on a bank holiday.

This audible version of Mark Twain's fantasy is modernized in the matter of the inventions that Sir Boss installs in Arthur's kingdom. There are various ideas, including helicopters, tanks, half a hundred tiny automobiles, messengers on roller skates and flirtatious telephone girls at a switchboard, besides The Camelot Journal, and a special shop for polishing and oiling suits of armour, which causes the appreciative King to past Sir Boss on the back and say:

Mighty wonders has thou wrought with thy magic.

As in that excellent silent film of the same story, one of the most humorous sequences in this new work is that wherein Sir Boss matches his lasso against Sir Sagramor's lance. The humbling of the mighty man in steel provoked loud laughter, particularly when Sir Boss pulls the knight around the arena. This tournament is broadcast "by courtesy of the Camelot Iron Works—builders of lance-proof armor."

## SCREEN AND STAGE NOTES

New five-year agreements for Joan Crawford and Polly Moran, of one year and four options of a year each, head the Metro program for 1931-32. Others are for Robert George Young, from Community Playhouse, Pasadena (little theatre) for a term and for Charlotte Greenwood.

After six months' preliminaries on "Blind Husbands", Eric von Stroheim can't see $5,500 for his work. Universal had already spent over $100,000 of the $350,000 production budget when the home office put the lay-off mark on it. Von Stroheim has refused the meg for "Boulevard" and or a part in "White Captive," and is talking through Ralph H. Blum, attorney.

Charles Buddy Rogers chance to go into George White's impending "Scandals' 'was turned down by Paramount.

Rogers intended teaming with June MacCloy, recently dropped by Par.

Marilyn Miller left New York April 22 for the First National studio in Burbank.

The Mr. Beechnut who hands out so many twenties is Andy Passmore, former Toronto Telegram scribe, who cracked four of his city ed's ribs when fired.

When Morton Downey is broadcasting others in the studio can't hear him three feet away.

Irene Dunn, whose brilliant performance in "Cimarron" made her a star overnight, has been chosen by M-G-M for the feminine lead opposite Adolphe Menjou in "The Great Lover." Baclanova, who has returned to Hollywood for her movie career, will play a featured role.

Lewis Ayres is the pugilist hero of "Iron Man," a screen transcription of W. R. Burnett's prizefight novel. It is the rather grim story of a promising young lightweight whose career in the squared arena is hampered by his wife. Jean Harlow, who hasn't been seen around in a long time, is the wife, and in the cast are John Miljan, Mike Donlin, Mildred Van Dorn and Mary Doran. Tod Browning directed the picture.

The new film at the Warner Theatre, New York, is called "Other Men's Women" and is about a wife who falls in love with her husband's best friend. Mary Astor, Grant Withers and Regis Toomey are the three points in the triangle.

Mae Marsh, well known to the silent films of years ago, is to emerge from retirement to play the principal feminine role in "Over the Hill" for Fox. Miss Marsh, now Mrs. Louise Lee Arms and the mother of three children, has been living in the hills of Flintridge, not far from Pasadena. She is now 34 years old. Her screen career dates back to the early Biograph days. She has a featured role in "The Birth of a Nation." Miss Marsh is to begin work immediately. The cast assembled to play with her includes James Kirkwood, Howard Phillips, Gerard Stewart, Donald Dilaway, Cecelia Parker and Nat Pendleton.

The underworld, which is not news on the screen any more, provides a background for "City Streets". Gary Cooper and Sylvia Sidney are presented as childhood sweethearts whose romance is threatened by the feuds of racketeering gangsters. Paul Lukas, Wynne Gibson, William Boyd and Guy Kilbee appear conspicuously. The story is the work of Dashiell Hammett, former Pinkerton detective who wrote "The Maltese Falcon."

## ARE YOU AN EXPECTANT MOTHER?

Photo by White

**MRS. MYRTLE McFARLAND.**

St. Catharines, Ont.—"Dr. Pierce's Favorite Prescription is the tonic my mother had me take during expectancy. I was then suffering with continuous backache and my health was failing. It did not take long for the 'Prescription' to strengthen my body and nerves and to relieve me of the backaches. From then on I had no further distress. Motherhood was easy and my baby fine and healthy. He has always been the picture of health. I would not care to think of motherhood without the help of **Dr. Pierce's Favorite Prescription.**"—Mrs. Myrtle McFarland, 61 Henry St. Druggists. Fluid or tablets.

**Users of Dr. Pierce's medicines are entitled to free medical advice. Write, to Dr. Pierce's Clinic in Buffalo, N.Y., describing all your symptoms if you want professional advice, free of charge.**

## 48 HOURS OF RAIN FALLS IN BRITAIN

### Midland and Southern Counties Are Badly Flooded.

LONDON, April 27 (C.P.).—Thousands of acres of England's Midland and Southern counties and in Wales to-day were deeply flooded after the most severe rains of any April in many years. In some sections the record of the past half century were exceeded.

The rain gauges of many places showed a fall of from one to two inches in 48 hours. The water courses were badly swollen, the Thames being much above the normal April level. Roads in many places were deeply enough flooded to compel diverting the traffic.

Thunder and lightning and storms accompanied the downpour. There was considerable damage to early crops and to houses which were flooded. A characteristic vagary was that while most of Southern England was swamped a small section of the Kent and Sussex coasts enjoyed brilliant, rainless sunshine.

## GEORGE ARLISS IN "MILLIONAIRE"

### Role of Wealthy American Manufacturer For English Actor.

### PLEASING COMEDY.

The Warner Brothers have done well by George Arliss in the selection of his talking pictorial stories. He scored an anticipated success in his first audible venture, "Disraeli." This was followed by his capital performance as the sagacious Hindu rajah in "The Green Goddess," and then came his talented portrayal of Heythorp in "Old English." This brilliant British actor is now seen as a wealthy American manufacturer in the film version of Earl Derr Bigger's story, "Idle Hands," which is known on the screen as "The Millionaire." In his forthcoming screen offering he will be seen as Alexander Hamilton, a pictorial adaptation of the play "Hamilton."

English as he is in his diction, Mr. Arliss through his meticulous performance in "The Millionaire" never for a moment causes one to think of his nationality. From the moment he appears he is the American motor king, James Alden, a crafty business man who bows to nobody, except for a time to his physician. When he puts his pipe between his teeth it is a bad sign for those who wish to sway his convictions, and he has a habit of speaking his mind to himself, so that his colleagues and even his doctor hear what James Alden really thinks of them or their opinions.

Mr. Biggers fashioned his tale with considerable skill, and the adapters are to be congratulated on treating it kindly. The producers, in their eagerness to have something outstanding in the matter of dialogue, engaged none other than Booth Tarkington to do this part of the work, and the novelist has given Mr. Arliss excellent lines. The result is a most pleasing comedy, with Mr. Arliss at his best.

## BREAKDOWN SEEN IN NAVAL ACCORD

### French Officials Study Britain's Reply to Proposals For Solution.

### CONTENTS KEPT SECRET.

PARIS, April 27 (C.P.). — The Foreign Office and Ministers of Marine studied a British Foreign Office note containing Downing Street's answer to French proposals seeking a solution for Franco-Italy-British naval difficulties.

While the contents of the British communication were kept a closely guarded secret, there was undisguised pessimism in some quarters today and feeling that the note would mark a breakdown, for the present at least, of negotiations which had looked to completion of a tripartite accord.

The French note, to which the British note was an answer, was despatched last week, and offered to go ahead with the naval accord, leaving the question of 1934-36 superannuated tonnage to be settled until 1936. The British answer was received here only on Sunday, bbut consideration of it began immediately.

**Hope Left Yet.**

Circles which have wished for a naval accord hoped that Downing Street, while possibly turning thumbs down on France's proposal, had offered new British proposals, or in some other fashion left the door open so that negotiations seeking a settlement of the naval difficulties may continue.

The tendency here is to blame the manner in which the entire naval problem was attacked recently for the state to which the negotiations have come. It is commented widely that through acceptance of Robert L. Craigie, British Foreign Office expert, as intermediary, the Italian Government came eventually to understand one thing and the French Government another.

Consequently it was not until after an agreement had been initialled and announced, in effect making a five-power pact of the London Naval Treaty, that it was discovered there were still serious differences between the two countries. These principally revolved around the question of how much superannuated tonnage France would be allowed to replace.

## SURVEYOR BEING SOUGHT IN ARCTIC

### British Officer Leaves For Norway—Will Charter Plane For Search.

### SWEDEN WILL LEND AID.

LONDON, Apr. 27. —(CP)— The vast wastes of Greenland's ice mountains beckoned today to a youthful British army officer, Captain Raynor, enroute to Norway to head an expedition which will attempt the rescue of his fiance's brother, lost somewhere on the Greenland ice cap.

The missing man is Augustine Courtauld, surveyor of the British Arctic air route expedition, who volunteered to remain alone during the winter at a central station on the Greenland ice cap to make meteorological observations.

**Searchers Turn Back**

E. C. Watkins, young leader of the British expedition, recently cabled London that the relief party sent out last month to find Courtlaud had failed to locate him because of adverse weather conditions. As the survey was due to be relieved this month some anxiety was felt for him.

It is Captain Raynor's plan to charter an airplane fitted with skiis and especially equipped for landing on ice or snow and to search for Courtland from the air. Watkins said that he was starting for the central station with a strong party and would make an effort to find Courtauld before the end of the month.

Captain Raynor left London last night for Norway.

**Will Lend Plane**

STOCKHOLM, Apr. 27. —(AP)— The Swedish Civil Aviation Company "Aerotransport" today promised to place an aeroplane and pilot at the disposal of a representative of the Air Ministry to attempt the rescue of Augustine Courtauld of the British Arctic air route expedition who is stranded in Northern Greenland.

A representative of the Air Ministry is due here today for organization of the relief expedition, and Svenska Dagbladet says that the machine probably will be piloted by Albin Ahrenberg, who is experienced in Arctic flying conditions.

London men are wearing crimson hats.

CONTEST CLOSES MAY 1st

The DOMINION Inlaid LINOLEUM Pattern Selection CONTEST

1—Mr. L. Alex. Holland, Mitchell-Holland, Limited, Montreal.
2—Mr. E. R. Lownds, 99 Clairmont Ave., Norwood, Man. (Winnipeg).
3—Miss Mary-Etta Macpherson, "Canadian Homes and Gardens," Toronto.
4—Mr. Frank Morrison, Jordans Limited, Vancouver.
5—Mr. Louis Mulligan, Montreal.
6—Mr. Fred. W. Palmer, Berner-Palmer Co., Montreal.
7—Mr. R. Malcolm Slimon, Toronto.
8—Miss Anne Elizabeth Wilson, Home Bureau of "The Chatelaine".

Enter NOW!
Before it is too Late
$1600 in PRIZES

First Prize $500 cash
Second Prize $250 cash
Third Prize $100 cash

10 Prizes each of $50 cash
25 Prizes each of $10 credit on the purchase of Dominion Oilcloth & Linoleum Co. products.

Most of you probably have your Contest Books and are working on them now. Those who for some reason have delayed should get theirs today . . . or tomorrow.

All you have to do is select suitable Dominion Inlaid Linoleum patterns for the blank floors in eight coloured room reproductions that are shown in the book; mark the pattern numbers on the Entry Form on the book's last page; sign it; tear it out; and mail it to Contest Dept., Dominion Oilcloth & Linoleum Co. Ltd., Montreal.

The Prizes will be awarded to those whose selections come closest to the combined secret selections of the eight eminent Interior Decorators pictured here, each of whom has chosen one pattern for one room. In case of ties, prizes will be divided.

*Any floor covering dealer who sells Dominion Floor Coverings will give you a Contest Book for the asking. No purchase is necessary. But hurry . . . May 1st is your last chance. Winners will be announced on June 1st.*

## TORONTO GROUP ABLY PRESENTS THREE-ACT PLAY

### Hart House Players Delight Audience in Port Hope Parish Hall.

### WANTED SON MARRIED.

### Andrew Allan Plays Principal Male Role in "The Watched Pot."

(By Jeanette)

"The Watched Pot" (which seldom boils) was the title of a clever and very amusing three-act play presented in St. Mark's parish hall, Port Hope, on Saturday evening, by a group of players from Hart House Theatre, Toronto, with Andrew Allan, son of the Rev. and Mrs. W. Allan, in the principal male role.

The young people produced their play with enthusiasm and skill. They had an attractive stage setting, simple but effective, in a living room scene with dark back hangings; they were gowned right up to the minute, and there was very little prompting necessary in a three-act presentation that called for a great deal of memorization, as the dialogue was the main item. It was of that smart, staccato type that goes in for clever sayings. Even the footman, the tall and impressive William, broke into brilliant repartee on occasion.

The conversation was extremely English, almost painfully so, at moments. Someone has said that, while Americans talk through their noses, English often talk through their tonsils. However, it was an English play.

**Wanted Son Married.**

The action revolves about the efforts of a household of people in an English country house, to get the son of the place, Trevor Bavvel, married. The young man doesn't seem to be worried about his single state, neither does his mother, who wants to continue to rule the household with an iron hand. But all the women in the house party try their hand at capturing the rich, youth, while his uncle, whose political ambitions, also desires to see a new mistress in the home, where Hortensia, as Mrs. Bavvel is generally known, is a real martinet.

With a scheming widow and a couple of very attractive unmarried ladies setting their caps for him, the son of the house has a busy time. The indifferent member of the house party, Clare Hennessey, who doesn't pay much attention to him, turns out finally to be his wife and all ends happily, except for Hortensia, who accepts her dethronement with very bad grace.

The dialogue is cleverly funny throughout and sparkles incessantly with sundry gems of wisdom delivered in staccato fashion. There are sundry humorous bits, like the episode of the cockatoo's egg, while several of the actors demonstrate beautifully just how to eat a banana or finish a jar of pickled walnuts, while carrying on a gay conversation. It is modern from first to last.

Andrew Allan was splendid as the uncle of Trevor, Ludovic Bavvel, carrying the characterization of a rather self-centered, egotistical elderly gentleman of the English county type, through to a triumphant finish. His whole appearance, even to the lines on his forehead, supported the illusion with finished skill and gave just the right note of nonchalant scheming to the entire production.

**Performer Was Ill.**

Randolph Crowe, who came in for the Saturday performance owing to the illness of the scheduled performer, Horatio Purdy, created a fine impression with his dignified, portly portrayal of Colonel Mutsome, an actor with far too short an appearance on the stage. The somewhat artificial character of the play had a note of relief in this strong-minded gentleman.

Miss Katherine Rigby, niece of the Rev. Dr. Rigby, former headmaster of Trinity College School at Port Hope, was admirable in the somewhat unlikeable role of the adventuress, the nasturtium-haired Mrs. Vulpy, and a good supporting cast included other players from the Hart House group, Miss Elaine Wodson as Clare Hennessey; Miss Janet Mallett as Sybil Bomont; Miss Margaret Wilson as Agatha Clifford; the ingenue, Everard Nash as Trevor Bavvel; Margaret Tytler as Hortensia Bavvel; Murray Bonnycastle as the entertaining and irresponsible Rene St. Gall (with an appropriate name); Harry Berry as Stephen Sparrowby, in love with the adamant Sybil; Guy Monypenny as Montague Drummond, one of the playboys of the dance scene, and, last, but certainly not least in point of impressive dignity, William McCulley, as William, the footman. Jack Barbar acted as stage manager and Miss Mary Smart as promptress, also taking the small role of the maid in one scene.

### ACTRESSES GET $35 A NIGHT

Male actors of Budapest, Hungary, are disgruntled over the wage scale just announced by the Theatre Managers' Association of the city. The maximum pay for men is to be $27.50 a night, and that for women $35. Managers are reported to have figured that it costs a women more than it does a man to be well dressed.

## VETERAN LAWYER DIES IN ENGLAND

### Sir Edward Clarke, Grand Old Man of British Bar, is Dead.

### 50 YEARS A LAWYER.

STAINES, England, April 27 (C.P.). — Sir Edward Clarke, one of the picturesque figures of the last century, died at his home here yesterday at the age of 90.

Sir Edward, known as the Grand Old Man of the British Bar, had retired from active practice in 1914, but in his fifty years as a lawyer figured in some of the most sensational cases of the reigns of Victoria and Edward.

These included the famous Baccarat cheating case in which Edward, then Prince of Wales, gave evidence. He also defended Dr. Jameson of the "Jameson's Raid" Boer War fame when he was tried in 1906.

Sir Edward was knighted in 1906 when he became Solicitor-General. He served as a member of Parliament for a number of years, and was noted for his writings, which included works on legal, biographical, and religious subjects.

He was married twice.

Don't miss "Dracula" at the Regent Theatre on Wednesday, Thursday and Friday of this week. The Examiner Cheer Fund gets twenty-five per cent. of the receipts for relief work.

## DR. H. J. KEITH IS HEARD AT KNOX UNITED CHURCH

### First Pastor of Church Conducts Sunday School Anniversary.

### TWO SPECIAL SOLOISTS.

With Rev. H. J. Keith, M.A., D.D., the first pastor of Knox Church, occupying the pulpit yesterday to commemorate the Sunday School anniversary, large congregations attended all services.

Preaching in the morning on the subject, "The Ministry of the River, Dr. Keith took his text from Psalms, chapter 46, verse 4, "There is a river, the streams whereof shall make glad the city of God, the holy place of the tabernacle of the most High." Dr. Keith stated that the prophet had a vision of a river flowing through a land making it rich and fertile.

Telling of the need for visions to-day, he said, "Where there is no vision there is stagnation, but where there is a vision progress is made." John had a vision of the coming Christ, and thereby cheered the hearts of thousands.

It was not easy, commented Dr. Keith, to have visions of a river in Palestine, which has no rivers. Perhaps the prophet saw the need of a river to aid the fertility of his land. But, explained Dr. Keith, what he really spoke of was a spiritual stream flowing from the altar of the temple.

"No man or woman can be without God," declared Dr. Keith. "A great many think they can. Science is helping to close the gaps in our thoughts of God."

He said that there were many thinking and teaching against religious thought, in an attempt to rationalize everything and limiting all human weaknesses a being "natural." "This will cause a moral and physical breakdown," warned the speaker. New York, he said, is hanging its head in shame because of the immortality and corruption of those in high places. "A city which gives itself to pleasure is a city without force," he declared.

Without religion, he stated, that when trials come a man is without reserve and goes under. "God is power, a spiritual power in the hearts of people."

Dr. Keith said that preaching Christianity was not an attempt to get people into Heaven but to get Heaven into people.

In the evening, Dr. Keith preached a powerful sermon on the subject "Man's Greatest Achievement."

Special music added much to both services, two outstanding soloists, Mrs. Robert Young, of Philadelphia, and John Dykes, of Scranton, Penn., being present. In the morning the choir was composed of girl members of the Sunday School.

## Spanish Monarchy Becomes Republic

GRAPHIC SCENES AT LAST OF BOURBONS BOWS TO REPUBLIC

The photograph ABOVE, the first actual photograph of the fall of the Spanish monrachy to reach here, tells a graphic story of Alfonso XIII., last of the Bourbons, as he bows to the overwhelming advance of the new republic. Crown Prince Jaime, heir to the throne that was, accompanied by his younger brother, are seen as they arrived in Paris after their forced journey from Spain upon the collapse of the monarchy.

## Two Young French-Canadians Wanted Canoe So That They Might Paddle Across Atlantic

This is an age of stunts—of the accomplishment of deeds bordering on the impossible. But listen to this one!

An enquiry was recently received by the Peterborough Canoe Company from a point in Quebec Province. Two young French-Canadiens wished to have a quotation on a canoe of unusually large proportions—a canoe of a size which is entirely out the realm of stock sizes.

The prospective customers were informed that such a canoe could be made to their specifications, but it was pointed out that the Hudson Bay Canoe—one of the largest type made, would answer almost any demand or purpose.

Some time later, one of the enquirers turned up at the factory, in person. He had the appearance of a Jack Dempsey, the quaintly pleasing personality of a French Canadian, and an undue proportion of optimism.

To quote Amos 'n' Andy, he had a 'propolition'. It was in effect, that the Canadian Canoe Company, supply this immense craft referred to free, gratis and for nothing, in consideration of the publicity that would result from the proposed stunt.

The stunt in question was nothing more nor less than a trip across the Atlantic Ocean, in a canoe.

Before embarking on the venture, however, he proposed that he should exhibit the canoe in Toronto and Montreal at a charge of 25 cents per person. By this means he planned to raise funds to finance the trip, and spoke glibly of the 'thousands' of canoe orders that would be the immediate result to the Company, of such a scheme.

## PETERBOROUGH CANOE IS INCLUDED IN EQUIPMENT FOR LONG TRIP

### Two Hamilton Men Plan Trip Across Canada in Large Motor Truck.

### TO BLAZE TRAIL.

From Sydney, N.S., to Alberni, on Vancouver Island, clear across the continent, is the aim of an expedition that departed from the City of Hamilton on Saturday morning, carrying with it the good wishes of Mayor John Peeble, and of the whole community.

Two Hamilton men, E. Wharton Shaw and V. E. Steers head the trek, and the attempt to cross Canada from coast to coast by automobile and truck, battling through the badlands of the Ontario muskeg, and making roads in the bush where no roads exist.

The schedule calls for a visit to nearly every large town in Canada. Two weeks will be occupied in travelling through the 2,000 miles of country from Sydney to Hearst, and one month more in completing the 1,500 miles from Winnipeg to Alberni. In these sections where the roads are good the expedition will travel by automobile.

**Visits Peterborough**

En route to the starting point, the expedition passed through Peterborough on Saturday afternoon. They were officially welcomed by His Worship Mayor Roland Denne, and by W. A. Richardson, president of the Peterborough Canoe Company.

Included in the party were Mr. Shaw, one of the promoters of the expedition; his daughter Phyllis, and Harold Puxon. Mr. Steers is to join the party later, probably at North Bay.

Their equipment consists of a six-wheeled Studebaker truck, with specially designed Sawyer-Massey trailer. Painted crimson, it bears in large gold letters the inscription "Coast to Coast in Canada, 1931," and "The City of Hamilton Trans-Canada Expedition," and the names of the two promoters.

The trailer is laden with all the necessary equipment, for breaking trail through the badlands, and includes a 16-footer Peterborough canoe named "Peterborough North Boy"; a Sawyer-Massey 4-wheel-drive tractor complete with a specially designed power winch, and 1,000 feet of cable (Mr. Shaw's own patent); a complete set of pontoons, for transporting the entire equipment across rivers or small lakes, and two Evinrude motors and other necessary camping paraphernalia.

The Evinrude motors, of which Mr. Shaw speaks in highest terms, are a Light Twin to power the canoe, and a Speedifour to propel the pontoon.

What is the object of the expedition? It is an independent, non-political project promoted solely in the interest of the Trans-Canada highway.

**Equipment Cost $9.500**

Mr. Shaw, a native of Bristol, England and a mechanical engineer by profession, stated to The Examiner that he has made an exhaustive study of the Trans-Canada highway project, and while he is motivated in this present trip, largely by the spirit of adventure, he also hopes that it will be a means of bringing the question of a Trans-Canada highway more fully into public consciousness.

"If we can do that," he said, "we shall feel that the project has been worthwhile."

Last summer Shaw spent several months prospecting the bush country for possible routes. One of the results was to quickly abandon the contemplated route through the section. He had thought of striking a bee line through the northern badlands. It was found that this plan would mean cutting the way through not less than 500 miles of forest.

So now it is decided to stick to the railway line as much as possible, not using the track, but only the cleared right-of-way which extends 50 feet on each side of it.

**Start to Work at Heart**

At Hearst the expedition will roll up its sleeves and start battling hardships in earnest. Previous to this they will have travelled in their own cars, stopping at hotels, with the truck and trailer following in the rear. At Hearst the cars will be shipped ahead by rail to Kenora and the camping equipment unpacked from the truck.

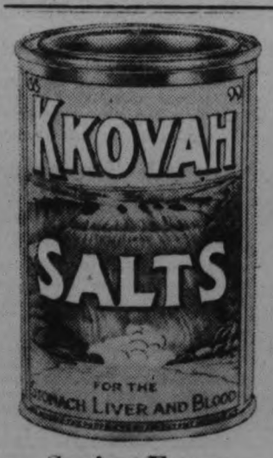
The going for 200 miles outside Hearst will not be so bad. Chief difficulties will be found in crossing the numerous streams in the district. This is done by unpacking the canoe—a Peterborough canoe—from the trailer and sending it across the stream with a rope. Then all hands set to work to erect a pontoon raft.

When the raft is ready the tractor is placed on it and hauled across first. The truck and miscellaneous equipment is taken over the same way. Three trips will be the average for each stream.

However, soon the badlands begin in earnest. The next forty miles, until Hydro is reached, is rocky country, undermined with the muskeg and studded with lakes. Through this progress is slow. Some days ten miles will be covered. Some days less than a mile.

After more than a month in the bush, Hydro is sighted, and from there a road leads to Port Arthur. Six weeks after Port Arthur, Kenora should be reached and then clear roads across to the final objective, which the expedition expects to reach in November next.

Photographs of the party were taken by The Roy Studios.



**Spring Fever**

**Tired out? No pep? What you need is a thorough cleansing of your digestive system. Kkovah Salts before breakfast will eliminate the waste and restore your natural vigor and energy.**

*At druggists and grocers--30c a tin*

## Y.W.C.A. PAGEANT GIVEN REHEARSAL

### Costumes Are Particularly Brilliant and Colorful This Year.

### TWO NIGHTS THIS WEEK.

The Grand Opera House was a busy place on Saturday, when rehearsals for the big gymnasium Pageant of the Young Women's Christian Association, scheduled for Friday and Saturday evenings of this week, were in progress. The Juniors and Babies had their practices in the morning with the Seniors in the afternoon. The rehearsals gave a good idea of the splendid program which will be presented this year, with everything new and novel.

The costumes are practicularly brilliant and colorful. For the dances, which have been described in detail already, no effort has been spared to gown the performers in dainty frocks. The "Glimpse into Fairland" will be especially interesting, with white-clad fairies, mauve and yellow butterflies and moss-green leaves.

Then there are the cunning Baby Bandits, in red, orange and black; the crimson gowns for the Russian Rhapsody and the brilliant frocks of the Ukrainian dancers in their characteristic number.

The drills are clever examples of good training and attention to tuition on the part of those demonstrating these exercises. The Danish exercises, which are less strenuous than the older Swedish drills of the same type, go in for body building, special posture, uniformity muscle control and balance.

The Indian club work this year is the most difficult yet to be presented in these yearly pageants. There are combinations of parallel figures, wrist circles, and the windmill figure, with the coffee grinder double revolving exercise.

The reed work is very pretty and graceful, making for lightness, grace and poise and the wand work also helps along the same lines.

For the dumbell exercises, it is all new work, more advanced than usual. There are prone, fall and leg exercises and the babies' dumbell drill is one of the cutest ye presented.

Don't miss "Dracula" at the Regent Theatre on Wednesday, Thursday and Friday of this week. The Examiner Cheer Fund gets twenty-five per cent. of the receipts for relief work.

## WILL RENEW HUNT FOR LOST FLIERS

### Commander MacMillan Will Search Labrador Coast for Nungesser and Coli.

### MAP OUT AIR ROUTE.

LOS ANGELES, Cal., April 27. — (C.P.).—Commander Donald B. MacMillan said to-day he hoped to solve the disappearance four years ago of Captain Charles Nungesser and Francis Coli, French fliers, when he attempts a round trip flight from Boston to London this summer.

The veteran Arctic explorer said he planned an aerial survey of the northern portion of Labrador, and a side trip to Baffin Land. He added he believed it possible the French fliers, who hopped off from Paris May 7, 1927, for New York, might have been forced down in Labrador. He will keep a close watch for their plane, the White Bird.

With Charles F. Rocheville, of Los Angeles, a former navy flier, MacMillan said, he would pioneer a proposed northern air mail and passenger route at the request of Great Northern Atlantic Airways. Their Lockheed Vega cabin monoplane, capable of flying 2,800 miles without landing, will be ready to fly east early next week.

They plan to take off from Boston June 21 for Labrador.

## MUSICAL SEASON OPENS IN LONDON

### "Rosenkavalier" Features First Night of Grand Opera in Covent Garden.

### KING LEASES ROYAL BOX.

LONDON, April 27 (By Thomas T. Champion, C.P. Staff Correspondent). — To-night will be memorable in the London musical season. The international series of grand opera opens at the Covent Garden with a performance of "Rosenkavalier." Headed by His Majesty, who has as usual leased the Royal box the season will have the support of some of the most notable personages in England. King Manuel of Portugal has taken a box, and the Duke of Westminster, Duchess of Norfolk, Lady Ludlow, Lady Howard de Walden and others are again supporters. Princess Mary will be a frequent occupant of the Royal box, and it is not unlikely that the Queen of Spain and her children, if they are in London, will frequently attend performances. The first cycle of "the ring" will begin on April 29.

The Duke and Duchess of York will occupy the Royal box to-night.

The opening of the opera season marks also the opening of the London season. The Court returns from Windsor on May 4, and granted that the King's health remains unimpaired Their Majesties will have a very full program until Whitsuntide, when they go to Sandringham. Norfolk, for a brief stay. Their Majesties have promised to visit the Royal Tournament, the Horse Show, the Chelsea Flower Show, and the Wimbledon Tennis Tournament.

The Royal Academy opens next week, and Their Majesties will doubtless make a quiet visit or some Sunday afternoon when the gallery is closed to ordinary visitors.

## Candidate Seeking Runs Into Police

**CHICAGO, Ill., April 27 (C.P.). — Tene Bimbo, whose ambition, police say, is to become ruler of all the gypsies in the United States, was brought back from New York yesterday to face a charge of trying to eliminate Angelo Nickels, one of his competitors.**

**Bimbo, police say, produced $250 to pay the gunmen but unfortunately for him the two men he selected to do the work turned out to be policemen, and he left in a hurry for New York, where he was arrested. Police say they plan to question him also about four bombings of various Gypsy establishments during the past month.**

## KING'S BLESSING GIVEN HEPBURN

### New Era For Liberalism is Expected By Dominion Chieftain.

### HAS LIBERALS' LOYALTY.

OTTAWA, April 27 (C.P.).—Selection of Mitchell F. Hepburn, as Leader of Ontario Liberal Party at the Liberal convention last autumn met with the approval of all who had "the interests of Liberalism at heart," Right Hon. W. L. Mackenzie King, Leader of the Liberal Party in the House of Commons, declared here Saturday, when he and Mr. Hepburn addressed a luncheon meeting of the Twentieth Century Liberal Club.

Mr. Hepburn directed a series of assault at the fiscal policy of the Conservative Government, singling out the embargo on Russian trade for particular attention. He provoked laughter by describing Hon. G. Howard Ferguson as "our High Comedian in London." The luncheon was arranged formally to inaugurate the newly formed Twentieth Century Liberal Association of Western Ontario. Mr. Hepburn was the chief speaker.

**"New Beginning," He Says**

"Let me say to Mr. Hepburn how delighted we all were with his appointment as Leader of the Liberal Party in Ontario," said Mr. King. "We all felt when the convention was held in Toronto that Liberalism in Ontario was at a new beginning.

"I was more than filled with admiration at his conduct of the by-elections in Hamilton West and Grenville. It is true neither of the seats was won, but we have only to look at the voting figures to see what a tremendous achievement was made."

The new Leader might find his position at the moment difficult, said Mr. King. He should remember that all beginnings were difficult, and the quality most needed in a political leader was endurance.

Apparently answering criticism of Mr. Hepburn's position as member of the House of Commons and Leader of the Ontario Liberal Party without a seat in the Legislature, Mr. King recalled the case of Premier Tolmie of British Columbia, who retained his seat in the House of Commons after his appointment as Conservative Leader in that Province. He was sure Mr. Hepburn would repeat Dr. Tolmie's performance and soon be called to power in Ontario.

## Rev. C. H. Quarterman Is Appointed To Bancroft

KINGSTON, Ont., April 27 (Special to The Examiner).—Rev. C. H. Quarterman, Flinton Anglican Mission, has been appointed by the Bishop of Ontario to the Mission at Bancroft, in succession to Rev. N. R. Stout, transferred to Lansdowne parish. The changes will take place on May 24th.

Alaska now has 63 air landing fields.

## HITS SHOULDER AND TURNS OVER INTO THE DITCH

### Three Peterborough Men Are Injured in Auto Crash Near Sunderland.

### ONE IN HOSPITAL.

### Automobile Was Badly Wrecked and Adam Woodcock Has Fractured Shoulder.

Three Peterborough men were severely injured yesterday afternoon near Sunderland, when their car hit a soft shoulder and vaulted into the ditch. Those in the crash were: Adam Woodcock, 544 Waterford Street; Leonard Minnicola, 189 Stewart Street, and Antonio Ronco, 553 Bolivar Street.

Woodcock is in St. Joseph's Hospital with a broken shoulder bone. Ronco suffered severe bruises and cuts and Minnicola received a serious cut on his left hand.

The car was being turned on the highway when it ran off the pavement onto the shoulder and turned over. The car was badly wrecked.

## MISSIONARY HELD DESPITE RANSOM

### Reds Refuse to Give Up U. S. Citizen, Claiming Gas Supplies Were Held Up.

### $2,100 PAID IN VAIN.

HANKOW, China, April 27.—(A.P.)—The American Lutheran United Mission to-day paid Reds in the vicinity of Hwangan, Hupeh Province, $10,000 Mexican (about $2,100 as ransom for Bert Nelson of Minneapolis, who has been held captive since last October, but the Communists refused to release him after receiving the money.

The Reds refused to surrender Nelson because the Mission had not sent them supplies of gasoline which they had demanded.

Missionaries said it was difficult to send gasoline to Red headquarters and in view of the development expressed fear that Nelson's release would be much delayed.

The Hwangan Reds April 19 released the Rev. K. N. Tvedt of St. Paul, Minn., upon payment of a ransom of $10,000 Mexican and $5,000 worth of medical supplies. The policy of the Missions is to pay no ransoms, but was modified in the cases of Tvedt and Nelson at the request of United States' officials after receipt of word that the two men were being tortured by their captors.

## Watercraft Minstrel Program Much Enjoyed

The Canadian Watercraft Minstrels last week entertained a large audience at All Saints' Parish Hall. The show was under the auspices of All Saints A.Y.P.A. and was directed by Homer Lundy and Delbert Lucas.

Mr. Lucas acted most capably as interlocutor. End men were: Homer Lundy, Frank Lundy, Ray Leonard, George Weir, Byers Smith and Mark Collins. Soloists were Miss Phyllis Rome and John Hodson. Chorus girls: V. Goddard, V. Grey, H. Barry, G. McMahon, H. Clarke, E. Hodson, B. Leonard, H. Lucas, Mrs. E. Francis, F. Lindsey, G. Peryer and L. Thompson: Chorus men: E. Gilman, B. McGrath, B. Miller, B. Hunter, B Edgerton, L. Collins, T. Dunlop, and D. Weir.

Orchestra consisted of P. Mosley, Ken Gadd and R. Beach. Stage manager was R. Leonard; electrician, C. Scholey, and musical conductor, P. Mosley.

**A Life Income . . . For Business Women!**

Every business woman knows the great temptation there is to live right up to her income . . . spending is so easy . . . and yet she realizes that if this temptation is yielded to, she will regret it at some time in the future. The need, therefore, is for some plan whereby she will not only have comfort and luxuries now, but in later life too . . . *when she will need them most.*

To enjoy a retirement in absolute independence you must save and invest wisely . . . *consistently* . . . to provide for the future; to establish a means of income if your health fails; to create a fund for recreation and travel when you have the leisure.

A safe and profitable way to accomplish this is under one of the retirement income plans of the Confederation Life Association. Then, when you need an income most you will have it . . . *guaranteed for life.* Why not find out how a part of your present earnings, deposited regularly, will bring you independence without sacrifice in earlier years? A request to the address below will bring you full information, without obligation. Write now—*TODAY!*

## WEDDINGS

**BOUSADA—ABOUD**

HAVELOCK, April 27 (Examiner Correspondence).—A quiet but pretty wedding was solemnized in the Church of Our Lady of Mount Carmel on Saturday morning, April 25, when Miss Eva Aboud, youngest daughter of Abraham and Mrs. Aboud became the bride of Mr. Clifford Bousada, only son of Mr. and Mrs. M. Bousada of Knowlton, Que. The youthful bride, who entered the church on the arm of her father, looked very winsome in an ivory satin period gown, with bridal veil, and carried a shower bouquet of white roses and lily of the valley. She wore white corded silk shoes and hose to watch. The bridesmaid, Mrs. J. D.Kouri of Montreal, a sister of the bridegroom, was matron of honor, and wore a lovely gown of peach georgette, with picture hat and carried a sheaf of sweetheart roses.

Mr. J. D. Kouri supported the bridegroom, who wore the conventional morning suit.

The altar was beautifully decorated with cut flowers and ferns; Rev. J. J. McCarthy of Norwood officiated at the Nuptial Mass, and performed the marriage ceremony.

Mrs. Leon Breen presided at the organ and the choir rendered suitable music throughout the service. During the offertory Mrs. Jay Bedford sang, "There Is No Heart Like Thine," and "O Salutaris." After the ceremony at the church, the guests repaired to the home of the bride's parents, where a wedding breakfast was served to about fifty guests. The happy couple left on the afternoon train for a short honeymoon trip to Toronto and Niagara Falls, the bride travelling in a black and white ensemble, with small black hat and bag to match. On their return they will reside at Knowlton, Que., where the bridegroom is a business man.

## Chief Food Of Wilkins Is Canned Tomatoes

When Sir Hubert Wilkins sets forth in the Arctic submarine "Nautilus" in his expedition to the North Pole, the man in charge of meals for the entire personnel will be Harry Rothschild.

When asked what will be the most important item in the under-the-ice menu, Mr. Rothschild is quoted in a news despatch from Yonkers, N.Y., as responding: "Tomatoes."

Mr. Rothschild is insistent in his contention that tomatoes—canned, in catsup or in any other form—have an exceedingly invigorating effect upon people who are subjected to long confinement in stale air, as will be the case in this much-heralded under-the-sea expedition to the top of the world.

Shoe polishes are being sold in drug and grocery stores in Sweden.

## Play Is Presented In Cottesloe Hall

COTTESLOE, April 27—The play, "Wild Ginger," was put on by the Warsaw young people before a large audience when Ernest McDonald acted as chairman and at the conclusion of the entertainment lunch was served to the members of the cast. Theo Douglas in a short speech thanked the ladies for their hospitality.

Those taking part were Misses Delia Tucker, Anna McMurray, Florence Cameron, Dorcas Lloyd, Mary Rose, Ellen Douglas and E. Thompson, Arnold Bell, Ralph Selby, Gerald Payne, Teo Douglas and Gerald Crowe.

The audience was enthusiastic in the reception of the play which has been presented in many centres. The proceeds will be devoted to relief work.

## Ennismore

Mr. and Mrs. Ambrose Crough, attended the Corkery—Leahy, wedding in Douro, on Tuesday.

Mr. W. Carter, of Peterborough, made a business trip through here on Tuesday.

A large number from here attended the wake and funeral of the late Mrs. Thomas McEntee, in Peterborough.

Mrs. C. Milheron and wo children of Toronto, are visiting the former's sister, Mrs. Jerry Sheehy.

Miss Olive Cavanagh, Mr. and Mrs. Joseph Holland and Messrs. William Holland and W. J. Crough and Mr. and Mrs. M. Foley, attended the Corkery-Leahy wedding in Douro, on Tuesday.

## At Bethany

Mr. Edwin Veal, o St. Catharines, who ha been visiting frien s for the past week returned home on Monday, accompanied by Miss Ada Richardson.

The Misses Margaret and Hazel Jackson left for Toronto this week o resume their duties there.

Miss Gladys McKinley, R.N., of Toronto, is spending her vacation with her mother nd sister.

Mrs. J. S. Donley, of Peterborough, was a guest of Mrs. Foster on Monday evening and attended the play, "Abie's Irish Rose" sponsore by S. Paul's Church.

The drama, "No Account David" is to be given at anetville next week by members of th United C urch, Bethany.

The recent rain ha subdued the fire which raged repeatedly south of the village since Sunday.

The Y.P.S. of the United Church cancelled their visit to the Cavan Church on Wednesday evening, owing to the bad weather.

The Drama c Club o Sunderland directed by A. J. Perirn presented the play, "Abie's Irish Rose" to fairly good audience on Monday evening.

## In Royal Party

Countess Beatrice de Buisseret, who is one of members of party of Belgian royalty, including Prince Charles, second son of King of Belgium, which arrived at New York recently upon a visit to America.

## That Body of Yours

By James W. Barton, M.D.

INSULIN AND DIABETES.

One of the incurable ailments that statistics show has been increasing during the past 50 years is diabetes.

That this is due to the fact that life is easier now that there are not the severe trials of former times, is generally admitted. The mechanic has not the difficult work of years ago, nor had the farmer. Both have profited from the inventions of machinery that lessen physical labor.

But with the lessening of the physical labor there has been a lessening also in the effort necessary to obtain food, good food of all kinds, and man has naturally taken advantage of all this.

As you know that body of yours is covered with a mass of muscle, from a fraction of an inch to a number of inches in thickness. As this mass of muscle was expected to work Nature gave you a large stomach to take in enough food to supply this huge bulk of muscle. However, as your stomach is large-three pints in size—you naturally think it should be filled, and so may put in this much—or more—of food and liquid, three or four times a day.

This food does not increase the size of your muscle or increase your strength, because you take no physical exercise, but it is very likely to increase your weight, increase the amount of fat in your system; fat accumulates over the muscles, under them, and sometimes throughout them.

Fortunately this does not cause diabetes in every case, but the figures show that the majority of diabetics were originally overweight.

For years diets to prevent increase in fat were prescribed and wonderful results obtained. In fact many physicians are still able to do supervise a patient's diet that he is kept alive and often able to do his work.

However, diabetes kept gradually increasing until the year 1922 when Banting discovered insulin.

Drs. M. A. Ross and N. E. McKinnon, Toronto, tell us tha the death rates for men and women under 50 years of age, have shown a marked decrease since 1922. When we think of the wonderful contribution in service men and women in the prime of life can make to the world, we certainly have much for which to thank Dr. Banting.

Insulin is now procurable practically everywhere.

## Tourists Warned Against The Riffs

(Continued from Page 1)

with a smouldering hate the coming of the infidels. I remember four years ago writing headline after headline about Abed-El-Krim and his band of savages, how they were seizing stray wanderers and holding them for ransom, how some of them were never seen or heard of again, how Spain had sent her army after him and how peace eventually came. It hasn't come. If you think it has just take one ride with this race driver.

He was warned not to stop anywhere and under no circumstance should he be out after dark. With his foot full down on the accelerator and his brown car lurching around the unmarked roads you could see he had no intention of breaking that order. The country is probably as safe as any other but the driver seemed to get the wind up his passengers by his furious haste. Even the French soldier seemed ill at ease.

We passed browny-white villages in a blur of flying sand only stopping once for water which had to be paid for. On another occasion a group of sheep were grazing near the road. What they saw there to eat was a mystery because I couldn't spot one single blade of grass. Perhaps the sheep were dying of hunger. Certainly they were not spry enough to avoid the car and one was left prostrate in the sand. The driver never even hesitated.

At Ksar-El-Kebir, a filthy hole, we shook the sands of Spain from our clothes, went over neutral ground for a hundred yards or so and drew up at the French outposts guarded by trim youths. Here I was delighted that Canada was officially a French speaking country. The youths went over passports and luggage with a fine tooth comb. They demanded of the American every possible explanation of everything about himself from the moment he left home until the present. At last they passed him. My passport, being an official document, was in French and English. They read it, saluted me and let me go without one word.

Both the American and I carried typewriters. The Customs man pounced on these as super-luxuries, weighed them, marked them and demanded 300 francs each with the assurance that we would get the money back when we left the country. I objected and the immigration man seemed astounded and disappointed that I spoke no French. He asked for my passport again and then returned it to me after assuring himself that all was well.

**Reduce Price for Journalists**

The American had sobered up by now and had paid his money getting along flimsy receipt. I still kicked, pointing out that the machine was 8 years old, that it was necessary in my work and that my work was to tell the rest of Canada just what a high-class country this Morocco was. The boys went into a huddle, the bus man grew impatient. I expressed my willingness to get out there and then and see the main guy but I certainly wasn't going to kick in with $12. For one thing I didn't have that much with me. The immigration fellow wanted my passport a third time. Sure enough it described me as a journalist. He decided to compromise on 50 francs. I paid up and the American never squawked. Ten dollars is ten dollars.

The change on the road into Rabat, capital of French Morocco was instantaneous. Cruel jagged rocks gave place to grain fields. Here was a tractor ploughing up a field ablaze with marigolds. Here was iris growing by the acre. In another field we passed on old wheezy Arab ploughing with one camel and one mule hitched to an ancient blade while a big tractor churned up the furrows within 60 paces of him. Truly a picture of the old and new.

The roads here were excellent, smooth and straight. Eucalyptus trees lined the ditches and occasionally we passed through a small cork forest. Towns however were far between and we were in Rabat—where I had already been on the personally conduced scheme—before we knew it. I marched to what looked like a good hotel. The manager was all attention, all bows, all greetings. "A room and bath? Why of course sir, this, sir, at once, sir!" I hadn't wanted a bath but after all that sand a wash seemed indicated. I followed him into the elevator. We shot aloft, then down a deep shadowed corridor to a corner room.

With about eight bows the boy friend showed me in. Prominent in the room was a canopied bed and a giant bathtub. The midway fat lady could have fitted into this easily. It stood right in the centre of the room. A boy appeared with a bottle of wine. Three boys appeared with my tattered luggage. A man appeared with a shoe shining apdget so I cautiously asked what all this cost. It seemed cheap enough so I prepared to splash around in that jolly old bathtub and along came a shock. A swell tub, shinning taps, everything fine and dandy except water. Not a single drop!

"Why of course sir, we'll bring it at once" the manager exclaimed. So a whole caravan of boys lined up one after another and brought water to me from some unknown pool. Cleopatra had nothing on little Gordie to-night.

A Straightforward Offer

YOU CAN'T LOSE!

Buy a tube of Palmolive Shaving Cream. Use half. Then if you're not satisfied it is the finest shaving cream you've ever used, return the half-empty tube to your druggist. He'll return to you in cash the full price you paid for the whole tube. We will pay him the same amount in cash.

Today MAKE this TEST ...at our risk

Finer shaving comfort or *your money back*

WE'VE such unbounded confidence in Palmolive Shaving Cream that we want you to make this test at our risk. Accept our straightforward offer above. Buy a tube of Palmolive Shaving Cream. Then be judge and jury combined.

Our records show that of the millions of men who test Palmolive Shaving Cream, 87 in every 100 adopt it as their favourite.

Before offering you Palmolive Shaving Cream we experimented with 129 different formulas . . . finally evolved one with all these 5 unique, comfort-giving features. Unknown a few years ago, Palmolive Shaving Cream is now the largest selling in the world.

NEW! Palmolive Shave Lotion

Here's a new way to leave the face tingling and fresh—clean and free of germs that cause infections. Try it!

5 AMAZING New Comfort Features

1. Multiplies itself in lather 250 times.
2. Softens the beard in one minute.
3. Maintains its creamy fullness for ten minutes on the face.
4. Strong bubbles hold the hairs erect for cutting.
5. Fine after-effects due to palm and olive oil content.

A Healthful FOOD and a Tonic DRINK

Yes, it's different!

RICE KRISPIES is the only cereal that's so crisp it actually snaps when you pour on milk or cream.

Delicious toasted rice. Different for breakfast. And what a treat for lunch—with fruits or honey added! Kiddies love it. Use Krispies in candies, soups. At grocers. Made by Kellogg in London, Ontario.

Kellogg's RICE KRISPIES

## Stomach Troubles Headache and Dizziness

If your stomach is sick, you are sick all over. If you can't digest your food, you lose strength, get nervous and feel as tired when you get up as when you went to bed.

For 10 years Tanlac has restored to health and activity many thousands who suffered just as you do.

Mr. Henry Sholer, 175 Edinburgh St., Peterborough, Ont., writes: "Good old TANLAC came to my rescue when heartburn, palpitation, headaches and nervousness almost set me wild. TANLAC seemed to build me up all over again."

Let Tanlac do for you what it did for this sufferer. It corrects the most obstinate digestive troubles—relieves gas, pains in the stomach and bowels. It restores appetite, vigor and sound sleep.

Tanlac is made of roots, barks and herbs. The cost is less than 2 cents a dose. Get a bottle from your druggist today. Your money back if it doesn't help you.

**IVANHOE**

The post office inspector made his official call at Ivanhoe office on Thursday morning.

Mrs. B. U. Lovibond is spending the week with her sister, Mrs. Parks, in Plainfield.

Mrs. W. H. Kerr, of Marmora is visiting her daughter, Mrs. A. Clements.

Miss Myrtle Campion, of Marmora is spending a week with her sister, Mrs. G. McInroy.

Mrs. Baldwin Reid is visiting friends in Belleville.

Mr. and Mrs. S. Kilpatrick and Miss Hilda are spending a few days in Fraserville, the guests of Rev. Mr. and Mrs. Swayne.

**THE MODERN MAN BURNS HIMSELF UP.**

Excepting trained athletes, we moderns are puny creatures compared with our forefathers. Even athletes soon burn out eating acid-forming foods, the great cause of modern physical inferiority. From 32 to 50 Dr. Jackson was one of the unfit. At 50 Dr. Osler gave him four months to live, dying from acid-forming foods. He then invented alkali-forming Roman Meal. Before that he had lived on the ground floor, unable to climb stairs. Four years afterwards he climbed the fifty storeys in Washington's Monument, up and down, solely due to the alkalinizing properties in Roman Meal. In September, 1928, when seventy, he ran five miles in forty-five minutes—was not even winded again due to Roman Meal. Write for free booklet, "HOW TO KEEP WELL," and other literature, also sample of Roman Meal and Kofy-sub, the new alkaline beverage, to ROBT. G. JACKSON, M.D., 502 Vine Ave., Toronto 9, Ont.

Mr. Harold Robson, a member of the editoral staff of The Examiner, left this morning for Belleville, en route to Montreal, where he will embark on Thursday to spend the next three months with relatives and friends in England, and will also visit Paris before he returns to Peterborough. Mr. Robson, who is a very popular member of the editorial staff, was presented with several gifts prior to his departure, among them a handsome monogramed silver cigarette case, the gift of his associates on the editorial staff. The case was presented by the city editor, Mr. Wilson Craw, who expressed in a few words the friendship of the staff and good wishes for a pleasant holiday. Mr. Robson will send to The Examiner articles descriptive of his trip and of several personages whom he will visit during his stay in England and France. As a friendly gesture across the sea, he carried with him a message from Mayor Denne of Peterborough to the Mayor of the City of Peterborough in England.

• •

Mr. and Mrs. W. Patterson and Mr. and Mrs. R. Auld of Philadelphia were guests of Mr. and Mrs. R. Haddow during their visit to the city to attend the celebration of the silver wedding anniversary of Mr. and Mrs. A. W. Archibald.

• • •

Miss Helen Fisher of the staff of the Toronto General Hospital is the guest of her sister, Mrs. Lorne E. Conway of 333 Burnham street.

• • •

Mrs. John Berry (formerly Miss Mildred Irons) returned yesterday by motor to her home in Waterloo, N.Y., after spending the past fortnight with her parents, Mr. and Mrs. F. Irons, Water street. She was accompanied home by her husband and his sister, Miss Marjorie Berry, who motored over from Waterloo last week to take her back.

• • •

The Rev. and Mrs. W. Allan, Mr. and Mrs. C. H. Crowe, Miss Cathleen McCarthy, Mr. H. Dodds and Mr. H. Robson, motored to Port Hope on Saturday evening, to see the performance in St. Mark's parish hall of "The Watched Pot," a three-act play presented by a group of the Hart House Players from Toronto, who are the first to present it in Canada. Mr. Andrew Allan of the University of Toronto, son of the Rev. and Mrs. Allan, had one of the principal roles, and Mr. Randolph Crowe, of Toronto, cousin of Mr. and Mrs. C. H. Crowe, had another important part. This play was presented in Georgetown some weeks ago and is scheduled for Toronto shortly.

• • •

Mr. M. Connell of Philadelphia and Mr. G. Gebbie of Montreal were guests of Mr. and Mrs. D. Campbell, Westcott street, during their stay in the city, when they attended the celebration on Saturday night of the silver wedding anniversary of Mr. and Mrs. A. W. Archibald, 601 Chamberlain street.

• • •

The Trinity Young People's Club will have their big night tomorrow evening in Reid street hall, in a special entertainment for which extensive preparations are being made.

Mrs. B. F. McNeely left this morning to attend the annual Provincial meeting of the Women's Liberal Association of Ontario, in St. Catharines.

• • •

The Misses Barrie of Toronto and the Misses Gebbie of Montreal, who were guests at the twenty-fifth wedding anniversary dinner and dance of Mr. and Mrs. A. W. Archibald, on Saturday night, were guests of Mr. and Mrs. Will Archibald, King street, during their stay in the city.

• • •

Mr. and Mrs. W. J. Morrow of New York City, who were called here owing to the death of the latter's sister, the late Mrs. Ellen Delaney Ward, are registered at the White House. They intend returning to their home in New York, either to-day or tomorrow.

• • •

Mr. and Mrs. A. W. Archibald of 601 Chamberlain street celebrated the twenty-fifth anniversary of their wedding on Saturday by entertaining eighty of their friends, forty-three of whom came from out of town, at a jolly dinner, evening and dance at the Peterborough Bowling and Tennis clubhouse on McDonnel street. Guests came from Toronto, Montreal, Philadelphia and Scranton, Pa.; Glen Rock, N.J., and Yonkers, N.Y. The three children of Mr. and Mrs. Archibald: Mr. Will Archibald and his wife, of King Street, Miss Isabel Archibald and Jack Archibald, at home, were present for the occasion, as was the best man of a quarter of a century ago, Mr. Ernest F. Reid. The bridesmaid, Miss Maude Morton, was prevented by illness from being present. During the evening, the presentation from the guests of a chiming grandfather's clock was made by Mr. R. Haddow, while the gift of the family, a silver entree dish, was made by Mr. Will Archibald. Decorations were very effectively done in bowls and vases of spring flowers, while the head table was done with American Beauty roses, pink crepe paper and pink tapers in silver holders. Mr. G. Young of Philadelphia acted as chairman of the evening and Mr. W. D. Campbell of Peterborough spoke briefly in welcome of the visiting and local guests. The toast to the bride and bridegroom was proposed by Mr. E. F. Reid; Dr. J. M. McCulloch voiced the toast to the two nations, the British Empire and the United States, to which Mr. Alex Donald of Philadelphia made the response, and brief speeches were also made by Mr. R. Haddow of Peterborough and Mr. Thomas Connel of Philadelphia. The entertainment which followed dinner was exceptionally fine. It was presented by the group from Philadelphia, and every number was delightfully rendered and enthusiastically encored. Songs were given by Mrs. Jean A. Young, contralto; Miss Mary C. Black, soprano, of Philadelphia; by Mr. and Mrs. John Dykes of Scranton, Pa., and by Mr. J. McLean Johnston, tenor, of Philadelphia, while Mrs. Johnston gave readings and Mr. J. Milne and Mr. Alex Cairns of Philadelphia provided some very amusing entertainment. Mrs. A. Cairns acted as accompanist. The vote of thanks to the artists was voiced by Mr. J. Richmond. For the dance which wound up the evening, excellent music was provided by a four-piece orchestra. Guests present from out of town were as follows: Mr. and Mrs. R. Barrie, Miss G. Barrie, Miss E. Barrie, Miss A. Barrie, of Toronto; Mr. and Mrs. F. Gebbie, Mr and Mrs. J. Mair, Mr. G. Gebbie, Miss F. Gebbie, Miss Frances Gebbie, of Montreal; Mr. and Mrs. W. Patterson, Mr and Mrs. R. Auld, Mr. and Mrs. T. Connell, Mr. and Mrs. G. Young, Mr. and Mrs. G. B. Young, Mr. and Mrs. A. Cairns, Mr. and Mrs. J. Connell, Mr. and Mrs. R. Young, Mr. and Mrs. J. Milne, Mr. and Mrs. McLean Johnston, Mr. A. Scott, Mr. J. Morton, Mr. M. Connell, Miss M. McMinn, Miss M. Black, of Philadelphia; Mr. and Mrs. J. Dykes of Scranton, Pa.; Mr. and Mrs. A. Donald, Miss Nancy Donald, of Glen Rock, N.J.; and Mr. J. Wissmer of Yonkers, N.Y. Guests from Peterborough included Mr. and Mrs. R. Haddow, Mr. and Mrs. J. Richmond, Mr. and Mrs. R. Ralston, Mr. and Mrs. A. Metheral, Mrs. Lister, Dr. and Mrs. J. M. McCulloch, Mr. and Mrs. E. Reid, Mrs. Mein, Mrs. McCrae, Mr. and Mrs. D. Campbell, Mr. and Mrs. J. Mervin, Mr. and Mrs. A. Duthie, Mr. and Mrs. J. Smith, Mr. and Mrs. R. Best, Mrs. H. Morton, Mr. and Mrs. W. Archibald, the Misses M. Morton, J. Young, L. White, Isabel Archibald, Messrs. W. D. Campbell, W. Byers, H. Morton, Jack Archibald, A. Watson. Mr. and Mrs. Archibald were married on April 25th, 1906, in St. Andrew's Church, by the Rev. R. W. Potter.

• • •

Mr. and Mrs. F. Gebbie of Montreal were guests of Mr. and Mrs. J. Richmond, Chamberlain street, during their visit to the city to attend the silver wedding anniversary celebration on Saturday, of Mr. and Mrs. A. W. Archibald, Chamberlain street.

• • •

Miss Genevieve Smith of Montreal attended the funeral here of her aunt the late Mrs. Ellen Delaney Ward.

• • •

Mr. W. J. McVey of Montreal was in the city for the funeral of the late Mrs. Ellen Delaney Ward.

• • •

In aid of the Cheerio Fund for the Sick Children's Hospital in Toronto, a very interesting entertainment, including moving pictures, was given on Saturday afternoon at the home of Lloyd Rutherford, 541 Aylmer street. The host was assisted by Walter Ward and Max Northey.

• • •

Dr. and Mrs. N. D. Buchanan returned home from their trip abroad, on Saturday.

• • •

Mr. Clifford Jackson of 180 Simcoe street celebrates a birthday anniversary to-day.

• • •

Miss Margaret E. Bateman of Montreal is in Peterborough on business this week, and is the guest of her sister, Mrs. C. W. McGee of Bethune street.

• • •

Miss Selina Aboud, who is in charge of the operating room at St. Joseph's Hospital, is leaving the city about May 20th for New York City.

• • •

The many friends of Mrs. John Bothwell, Senior, will be pleased to know that she is able to be out again after her recent serious illness.

## FASHION SERVICE

When you study this smart model, you'll see it's really very slenderizing.

It's full of charm and so thoroughly wearable.

To be certain, it has the best known slimming feature—the deep V-front that reaches to the waistline. Then there's the softly falling jabot revers that detract so beautifully from breadth.

The hip yoke of the circular skirt is the smartest depth to give the matronly figure confidence.

There are many lovely materials that adapt themselves admirably to this model. Navy blue flat crepe silk with white as sketched is extremely chic.

Crepe marocain, crepy woolens, printed crepe silk and many rayon novelties are ideal selections.

Style No. 2859 may be had in sizes 36, 38, 40, 42, 44 and 46 inches bust. Size 36 requires 4 yards of 39-inch material with ¾ yard of 35-inch contrasting.

Price of book 15 cents.

Price of pattern 15 cents.

Our large Fashion Book shows how to dress up to the minute at very little expense. It contains most attractive Paris designs for adults and children, embroidery, etc.

Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred).

Price of book, 15 cents.

Price of pattern, 15 cents.

## Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

No doubt you have noticed that the vogue of refectory tables for modern dining rooms continues pronounced.

• • • • • • •

These long narrow tables closely resembling davenport tables fit well into apartment rooms, especially those which must serve two purposes, such as living room and dining room.

• • • • • • •

When laid for a meal, that refectory table may have one long runner so wide that plate doilies can be omitted. Or it may have a very narrow, rectanguar centre cover which is supplemented with plate doilies.

• • • • • • •

The homemaker who wishes to produce an effect of refectory style and has a square dining table, can do so by putting in a leaf, or better still, half a leaf.

• • • • • • •

On this go two refectory runners one along each side, instead of plate doilies while a rectangular plate doily fits into the space across each end.

• • • • • • •

The centrepiece is long and narrow but is not as long as the side runners. The runners, especially those along the sides stress the length and minimize the width of the table.

• • • • • • •

Refectory table napery follows the fashion for ornate linens, such as combinations of lace and embroidery, all lace, lace and cutwork, or all embroidery.

• • • • • • •

For simple home breakfast and luncheon sets the pieces are frequently ornamented with applique motifs. This work is also used in exquisitely dainty sets of colored linens with white applique, or with white linen and pastel colored applique motifs.

• • • • • • •

For summertime sets, pale green suggesting the fresh tint of sprouting foliage and white applique motifs are cool and dainty. Or delicate daffodil yellow with green is another charming color combination.

• • • • • • •

Orchid and green or orchid and white are pleasing summertime color schemes but not so adaptable to all kinds of tableware as is the green and yellow.

• • • • • • •

For pure harmony of napery and china the color scheme of the napery should accent some color or colors in the ware.

## A Bedtime Story

by Howard R. Garis

UNCLE WIGGILY AND THE FUNNY HOLE

"Well, how are you feeling today, Uncle Wiggily?" asked the old rabbit gentleman's wife as he came sliding down the stair banister railing to breakfast.

"Oh, I'm feeling just fine!" he answered. "Fine and dandy!"

"I thought you did," laughed Nurse Jane Fuzzy Wuzzy as she threw Uncle Wiggily his breakfast orange which he caught on the end of his nose like a juggling seal in a circus. "You are all better of your cold, then?"

"All over," answered Mr. Longears. "The sassafras tea you made must have cured me."

"I think the way you laughed at the Skillery Scallery Alligator doing a flip flop somersault into the pond after he tried to pull up the sassafras root for

Oh my goodness, cried the rabbit.

you helped to cure you," said Nurse Jane.

"Maybe," Uncle Wiggily agreed. "Anyhow I'm feeling fine and now I am going out and look for another adventure."

"Good for you!" his wife said.

Uncle Wiggily hopped through the woods. He hopped over the fields. He hopped up a little hill and on top the old rabbit gentleman heard a bird singing.

"Cheer up! Cheer up! Cheer up!" sang the bird for it was a Robin with a red vest, a white collar and a blue tie, just like a flag. "Cheer up!" sang the robin.

"I am feeling very cheerful," said Uncle Wiggily. "Thank you for singing as that makes me feel much happier."

"At the same time you must be careful!" chirped the Robin.

"Why?" asked the rabbit.

"Because I have a feeling that something is going to happen to you," went on the jolly bird.

"What will happen?" asked the rabbit.

"That I cannot tell," answered the Robin. "But it will be something."

"I think it will be an adventure and that will be very jolly," said Uncle Wiggily with a laugh. "Thank you!"

Away he hopped down the hill leaving the robin singing his cheer up song and pretty soon Uncle Wiggily came to a tree that had a funny hole in one side. The hole was about as high as Uncle Wiggily's eyes and it was shaped like a lollypop. Such a funny hole!

"I wonder what is down in that hole?" murmured Mr. Longears. "The tree is an old one and must be hollow or it wouldn't have a hole in it. But I wonder what is down in the hole?"

Well, Uncle Wiggily knew he couldn't find out what was in the hole just by wondering and thinking.

"I must take a look," he said. So he hopped over to the tree and, putting one eye to the hole, he squinted his other eye shut and took a good, long look.

All of a sudden Uncle Wiggily felt a lot of water squirt in the open eye with which he was looking into the hole.

"Oh, my goodness! Who squirted water in my eye?" cried the rabbit as he jumped back from the funny hole in the old tree. "Who did it?"

"I did it!" answered a voice, though the rabbit saw no one.

"Who are you and where are you?" asked Uncle Wiggily, wiping the water out of his eye.

"I'm Jackie Bow Wow and I'm hiding in this hollow tree to play a trick on my brother Peetie!" barked Jackie, putting his eye to the funny hole in the tree and looking out at Uncle Wiggily.

"What sort of a trick?" asked the rabbit still wiping water from his eye.

"The same sort of a trick I played on you!" laughed Jackie.

"Oh, did you squirt water in my eye?" asked Uncle Wiggily.

"Yes, if you please, thank you," Jackie answered most politely.

"Oh, you needn't thank me," spoke Uncle Wiggily, quickly. "But how did you squirt water in my eye and how are you going to squirt some in Peetie's eye for a joke if he comes along?"

"Oh, he will come along soon all right and you shall see me play a squirting water trick on him as I did on you. Though I wouldn't have squirted water in your eye, please, much obliged, thank you if I had known you didn't want me to," barked Jackie.

"Don't thank me!" chuckled Uncle Wiggily. "But tell me how you squirted water in my eye."

"It was this way," began Jackie and then, all of a sudden, there was a noise in the woods and the doggie boy in the tree whispered: "Sush! Please keep still and watch me play that trick on Peetie!"

## Pleas For Daughter On Murder Charge

LONDON, April 27 (By The Canadian Press).—A dramatic plea was made by the mother of a well-dressed girl of 23, Ena Garwood, described as a motor driver, who was charged at Brighton with the murder of her infant child. The girl was traced through a laundry mark on some clothes.

Her mother cried bitterly when she entered the witness box. She said that her husband died when the girl was a baby. She herself was a nurse. "Can I ask a question?" she sobbed. She was advised not to do so at this stage, but replied, "I only wanted to know if you could punish me instead of my girl; I could do anything."

## STOMACH GAS NEARLY STOPS MAN'S HEART

"I bloated so after meals that my heart missed beats," says W. L. Adams, Then he took the simple German remedy, Adlerika. This rid him of all gas.

Adlerika washes out BOTH upper and lower bowel. It brings out the poisons which cause gas, nervousness and a dopey, tired feeling. It contains no harmful drugs. Get Adlerika today; in 2 hours you will be rid of all gas and bowel poisons. McDermid & Jury, E. L. Payne, McDermid Drug Co.

## TOMATO JUICE IS NOT EXPENSIVE

Juice Strained From Canned Tomatoes Natural Health Food.

ENDORSED BY DOCTORS.

Tomato Juice has taken its place in the forefront among natural health foods—and not the least of the reasons for the preference now so widely given to tomato juice is its remarkably low cost.

"For your health's sake, eat more tomatoes and drink more tomatoes" advise medical authorities and food exports. And they point the way to a strikingly economical method of obeying tha advice. Canned Tomatoes supply that method.

The ideal source of pure tomato juice for infant feeding is a can of good-quality tomatoes. It is the easiest kind of an operation to separate the juice from the tomatoe solids. Nothing is wasted, as both juice and the solids are highly recommended for their rich Vitamin-Content.

On this point the Hon. Dr. Robb, Ontario Minister of Health, recently made the following declaration: "We know now that Tomato Juice is equally as good as orange juice for infant feeding, and it has the advantage that the required amount of juice may be taken for the infant and the balance of the can's contents, when we serve canned tomatoes, may be used as an excellent food for the family."

Medical endorsation of tomato juice for babies is now general and wholehearted—and the health value of tomato juice served as the appetizing first course of a meal or as a refreshing drink between meals is just as strongly commended.

For whatever purpose it is desired, the economical way to obtain it is to strain the pure juice from canned tomatoes. However, for those who prefer to buy tomato juice already separated, there is canned tomato juice of excellent quality obtainable.

## CHURCH MEMBERS WELCOME RECTOR

Banquets and Social Evening Held in Ida by St. John's Congregation.

CAVAN, April 27 (Examiner Correspondence.).—On Thursday evening in their parish hall, Ida, the congregation of St. John's Church, held a most delightful banquet and social evening in honor of their new rector, the Rev. W. Simpson and his family, and to afford the congregation an opportunity of becoming acquainted with them.

The Rev. Mr. and Mrs. Patterson, of All Saints', Peterborough, the Rev. Mr. Weir of Omemee, the Rev. Mr. and Mrs. Fierheller, Bethany, and the Rev. W. and Mrs. Simpson and Miss Margaret Simpson and Mrs. Bent of Omemee, were guests of the congregation. Mr. L. H. Winslow, people's warden was chairman for a very interesting program. Mr. Leonard McNeil, minister's warden, introduced the rector, the Rev. W. Simpson, who gave an address. Short addresses were also given by the Rev. Messrs. Patterson, Weir and Fierheller. A piano duet was given by Mrs. Allen and her daughter, Mrs. L. H. Winslow. The Misses Emma Fee and Kathleen Sisson also contributed a piano duet. Messrs. Tom McCamus and Claire Winslow sang.

During the program, Mrs. S. Martin, who, with her husband, celebrated the fiftieth anniversary of their wedding in April, was requested to come forward, and was presented with a beautiful bouquet of daffodils. Mr. Winslow in a few well-chosen words, expressed the congratulations of the congregation, and requested her to accept the daffodils as a token of esteem and best wishes.

Mr. Martin was unable to be present. A most enjoyable evening was spent.

# Brintons Defeat Scots 1-0 In Opening Game

## CALEYS BEATEN IN FIRST GAME OF THE SEASON

Opening Fixture Brings Out Many Fans—Number of New Players.

BRINTONS 1, CALEYS 0.

A surprise goal scored by an opponent player gave the Brinton Athletic two valuable league points from the Caledonians, on Saturday afternoon, in the opening league fixture of the local soccer schedule. A good crowd of spectators turned out in spite of the inclement weather.

The Brinton team were at full length while the Scots had only ten men throughout the entire game. The players being unable to get away from business.

**First Half**

There was no advanttage in the choice of goals, owing to there being no wind, but a drizzling rain welcomed the opening of the league schedule. From the kick off, the Brinton took the ball into the Scot's goal area to keep Griffin, the custodian, busy clearing the aggressive attacks of the opposing forwards. They brought out the excellent defensive qualities of Blowers and Pottle at full back, who replied with long punts up field to give the forwards a chance at goal. Visitations of Rodgers, Brintons, resulted in his good work going for nought when he over-done the dribbling code to be robbed at the opportune moment. The non-appearance of the Caley players compelled them to play with ten men against eleven. To off-set the Brinton attacks, Blowers played the one-back game to perfection, thereby placing the opposing forwards in an off-side posititon, inside the goal territory. The most outstanding player on the field was Don Emery who occupied the centre-half position for the Caledonians. He tackled fearlessly, placed to advantage and was a physical example of perfect condition through keeping himself in shape during the off season. He broke up many dangerous raids to force the issue at the other end which forced Curtis to save repeatedly. Added pressure by the Brinton forwards held away for a long while. On one occassion, O'Halloran had an open goal in front of him but he sent the drive back across the goal-mouth where Rodgers connected with a first timer that was travelling into the far corner of the uprights. Quick as a flash, Griffin stretched his hand out to stop its progress in a spectacular manner. This was followed up by long shots from the half back line of the Brinton. Next time Westwood hitting the cross-bar with a lightning drive, for the sphere to go over. Just before the interval, Griffin put in a strenuous time in goal, handling and kicking out when hard pressed. Half time—Brinton Athletic 0; Caledonians 0.

**Half Time**

On resuming, the players set a fast pace to keep the custodians busy handling all kinds of shots ranged at them. While the Scots endeavoured to stick by the close-passing tactics that found a stubborn defense in Green and Laidler. The other style of play was reverted to by Westwood who had instructed his half back line to swing the ball from wing to wing. This placed the Scots citadel in danger more often than previous, through the long shots ranged from all angles. In this respect, Westwood carried the attack right close up to the losers' full backs who replied with energetic kicks that found favour with the Scots' forwards. They made inroads on the Brinton goal to witness the lack of an inside left. The four forwards found it difficult to penetrate the full back division. Scrimmage after scrimmage took place in the Caledonian area to cause them the loss of a goal. O'Halloran kept buzzing around the goal to get the better of the full backs when he rapped a hot shot for goal. Pottle kicked the ball but to his own surprise, he viewed the sphere take a spin in the opposite direction, to give the Brinton the only counter of the contest. The loss of this goal resulted in the Scots travelling to the other end to pepper the goal with all efforts to break down a solid defense. No break came their way, even Bill Curtis being unbeatable at close range. During the closing minutes, the Brinton tried to increase the lead but the play was of a ding dong nature and the final whistle was sounded as the Scots had been awarded a flag kick as a result of a desperate raid on the Brinton citadel. Brinton Athleic 1; Caledonians 0. Goal scorer, Pottie through his own goal.

The teams:

Brinton Athletic—W. Curtis, goal; D. Green and S. Laidler, full backs; R. Creighton, T. Westwood and J. Taylor halves; T. Boon, R. Rogers, A. O'Halloran, J. Sweet and A. Adkinson forwards.

Caledonians—C. Griffin, goal; J. Pottle and G. Blowers full backs; R. Carmichael, D. Emery and A. Fowler halves; W. McCracken, A. McPhate, T. Craig and W. Grant, forwards.

Referee—Alex McKinley.

## Windsor-Montreal 'Cage Team Meet Wednesday

MONTREAL, Que., Apr. 27. (CP)—Windsor, Ont., Blue Arrows and Young Men's Hebrew Association of Montreal will meet here on Wednesday and Thursday in the semi-finals for the Dominion men's juvenile basketball championship, it is announced here.

The winners of the series will receive McAdam high school of McAdam, N. B., for the Canadian title on May 2 and 4.

The series was originally scheduled for Saturday night and tonight but a dispute over dates arose. The Y. M. H. A. executives met Saturday night and decided to try to come to some arrangement with Windsor which was accomplished after a telephone call had been put through to Windsor.

Costa Rica shipped 443,968 bunches of bananas to the United States in the first 10 weeks of this year.

More than $1,000,000 will be spent on new highways in the Spanish Zone of Morocco this year.

## BONEHEAD PLAY SPELLS DEFEAT FOR YANKS AS WASHINGTON WINS

Lary Mistakes Circuit Blow For a Putout and Leaves Base Line For Dugout.

INDIANS TOP CIRCUIT.

(By Gayle Talbot, Jr., Associated Press Sports Writer.)

As if it wasn't bad enough to lose three of his best outfielders, including Babe Ruth, within a week's time, something even worse has arisen to make Joe McCarthy prematurely grey. His New York Yankees have taken to lapsing mentally in the pinches, and to say that McCarthy is perturbed is putting it lightly.

As the outright result of two rarely unintelligent gestures over the week end, the Yankees lost the same number of ball games and dropped out of first place in the American League, a position they had held without a break since opening day. The Cleveland Indians, rained out both days, took over the top without a struggle.

McCarthy's boys pulled the first one Saturday, when Chapman became confused on where to toss the ball at a vital point in the tenth inning and didn't make up his mind until after the Red Sox had scored the winning run.

**But that was scarcely anything compared to the rare skit given by Lou Gehrig and Lyn Lary yesterday at Washington. Lary was on base when Lou smote one far into the center pavilion. Lary, rounding third, looked back in time to see the ball bounce back into a fielder's hands, thought it had been caught for the third out and headed for the dugout. Before they could steer him back on the base path, Gehrig passed by with a fine burst of speed and crossed the plate. There went two runs, the exact margin by which the Senators eventually won, 9 to 7. Chapman later hit one into the stands with a fellow Yankee on base and the whole team turned out to escort them safely past third.**

Carl Fischer relieved Marberry in the third to get credit for the victory, striking out ten batters during his tenure. The Yanks used a quartet, including George Pipgras, who made his first appearance of the year.

Dusty Cooke joined the New York hospital squad when he fell going after Bluege's homer in the third inning. He will be out at least two weeks, physicians said, the result of a displaced collar bone. Myril Hoag is the third Yankee outfielder on the shelf.

**Fourth for Tigers**

In the day's only other American League engagement, Detroit scored its fourth straight victory at the expense of Chicago, 8 to 4. Sorrell and Sullivan allowed the White Sox only three hits, while the Tigers mauled three Chicago curvers for 11, including Stone's fifth home run of the year.

Two sparkling mound performances flecked a curtailed card in the National League. Heine Meine gave only four hits in pitching Pittsburgh to a 1 to 0 triumph over St. Louis. It was the season's second defeat for the champion Cardinals and their first shutout. Two walks, a stolen base and an outfield fly gave the Pirates their only run off Bill Hallahan.

Charley Root, veteran Chicago right-hander, started, finished and won his third straight game in downing Cincinnati, 3 to 1. Root has permitted only four runs in 27 innings. Rogers Hornsby again led his team's offense with three hits in five trips.

Rain spiked the day's festivities at Brooklyn, New York, Boston and Cleveland.

Girls outnumbered boys by nearly 25 to one when 2,600 pupils from 40 London schools attened the recent musical festival.

## Major League Leaders

**NATIONAL LEAGUE**

Batting — Davis, Phillies, .478; Berger, Braves, .463.

Runs—Klein, Phillies, 13; Ott, Giants, 12.

Runs batted in—Hornsby, Cubs 15; Traynor, Pirates, Klein, Phillies, Sheely, Braves 11.

Hits—Berger, Braves, 19; Lindstrom, Giants, Hornsby, Cubs 17.

Doubles—Traynor, Pirates, Arlett, Phillies 4.

Triples—Bartell, Phillies, Suhr, Pirates, Worhington, Broves, Orsatti Cardinals, 2.

Home runs—Hornsby, Cubs 5, Herman Robins 4.

Stolen bases—Berger, Braves 4, Comorsky, Pirates 3.

**AMERICAN LEAGUE**

Batting—Van Camp, Red Cox .474; Alexander, Tigers .463.

Runs—Ruth, Yankees; Gehringer, Tigers 11.

Runs batted in—Gehrig, Yankees, 13; Bluege, Senators; Averil, Indians 12.

Hits—Alexander, Tigers 19; Vismik, Indians 17.

Doubles—Gehringer, Tigers; Voshik, Indians 6.

Triples—H. Rice, Senators; Bluege, Senators 3.

Home runs—Stone, Tigers 5; Ruth, Yankees; Gehrig, Yankees; Simmons Athletics 3.

Stolen base—Cissell, White Sox, 4; Levey, Browns, Burnett, Indians; Johnson, Tigers 3.

## Yesterday's Stars.

**Carl Fisher, Senators—Fanned ten Yankees in Washington's 9 to 7 triumph over Yankees.**

**Jonthan Stone, Tigers — Hit fifth home run of season in seventh inning to break tie as Detroit defeated White Sox 8-4.**

**Rogers Hornsby, Cubs — Made three hits in five times up to help Cubs beat Cincinnati 3 to 1.**

**Henry Meine, Pirates—Shut out Cardinals with four hits to win 1 to 0.**

## BULLDOG PLAYERS RECEIVE $273 EACH

Team Harvests $3,829 as Lion's Share of International League Play-offs.

MONTREAL, Que., Apr. 27.—(CP)—A special despatch from Windsor, Ont., to the Montreal Gazette today says that as champions of the International hockey league for 1930-31, Windsor Bulldog players harvested $3,829 as the lion's share in the 12 game round robin title series, according to figures issued by President C. S. King. Figuring on the melon being cut between 13 players and Manager Herb Mitchell, the share to each of the champions amounts to approximately $273, the despatch says.

The Buffalo Bisons, leaders in the regular season and runners-up for the championship, received $3,282 to be divided. The Bisons got a bonus of $547 for topping the regular season and an additional cut of $3,735 for the second place in the playoffs. Cleveland Indians received $2,188 and Pittsburgh Yellow Jackets received $1,641. The exact split depends upon the number of players on each squad.

## Rosenbloom Is Only Champion In Action

**NEW YORK, N. Y., Apr. 27.—There is not much doing in the boxing world this week. Only one champion is scheduled to see any action and he is Maxey Rosenbloom, light heavyweight title holder who devotes a large portion of his time travelling about the country engaging in non-title bouts and other comparatively unimportant affairs.**

**With a big money scrap still not in sight, Maxie is scheduled to engage George Manley, Denver veteran, in Denver Thursday. Rosenbloom's title will not be at stake in the ten rounder.**

## Babe Ruth Returns Home In Wheel Chair; Will Be Out Of Game Two Weeks Or More

**NEW YORK, N. Y., Apr. 27.—(CP)—The "Great Man" of baseball—Babe Ruth—left home last Tuesday full of vigor, with three home runs to his credit and hopes of producing a new record. He came home last night in a wheel chair.**

**The Babe was discharged from the hospital in Boston yesterday full of optimism about getting back into the game. He wanted to get a crack at the Athletics this week, he said. But by the time he had completed the five hour ride to New York, the predictions of the physician who attended him, Dr. Francis C. Newton, that the Babe would be out of action two weeks more appeared fully justified.**

**Ruth was barely able to navigate under his own power when he left the train to face the usual battery of cameras and reporters and about 500 fans who turned up to greet him on his arrival. He appeared tired from the journey and much of his usual jocularity was missing. He felt "fine" except for his injured leg, he said, but he did not protest when Mrs. Ruth answered "two weeks" to all questions about how long he would be out of the game.**

## THREE GAMES ARE SCHEDULED IN SOUTH END LEAGUE OPENER

Games in Newly Organized Softball Loop Will Be Played on Monday and Thursday Nights.

**ANNOUNCE SCHEDULE.**

The South End Softball League was organized last week, the officers elected and the schedule drawn up. Two nights each week, with three games a night, will be used beginning to-night and ending August 10th. Monday and Thursday nights were the evenings decided upon. The first and second teams will play off at the end of the schedule, three out of five games, with the team finishing first having the choice of where the first two games will be played.

The following officers were elected: President, M. F. Bayliss; secretary-treasurer, F. Parsons; executive composed of one representative from each team, C. Heal, A. Paget, E. Reynolds, C. Smith, C. Bannon, R. Charlton, J. Neary.

The schedule is as follows:

Monday, April 27—Tigers at Hawks; Sea-horses at Orioles; Nationals at Cubs.

Thursday, April 30—Orioles at Peterborough Canoe; Hawks at Nationals; Cubs at Sea-horses.

Monday, May 4 — Peterborough Canoe; Hawks at Nationals; Cubs at Sea-horses.

Thursday, May 7 — Tigers at Orioles; Nationals at Peterborough Canoe; Sea-horses at Hawks.

Monday, May 11—Nationals at Tigers; Peterborough Canoe at Hawks; Orioles at Cubs.

Thursday, May 14—Cubs at Peterborough Canoe; Hawks at Tigers; Orioles at Sea-horses.

Monday, May 18—Orioles at Nationals; Tigers at Cubs; Peterborough Canoe at Sea-horses.

Thursday, May 21—Cubs at Nationals; Orioles at Tigers; Hawks at Peterborough Canoe.

Thursday, May 28 — Orioles at Hawks; Nationals at Sea-horses; Cubs at Peterborough Canoe.

Monday, June 1st—Nationals at Hawks; Orioles at Cubs; Sea-horses at Tigers.

Thursday, June 4 — Hawks at Orioles; Cubs at Sea-horses; Tigers at Peterborough Canoe.

Monday, June 8—Sea-horses at Cubs; Tigers at Nationals; Peterborough Canoe at Hawks.

Thursday, June 11—Peterborough Canoe at Nationals; Cubs at Tigers; Sea-horses at Orioles.

Monday, June 15—Hawkes at Sea-horses; Nationals at Tigers; Peterborough Canoe at Cubs.

Thursday, June 18 — Cubs at Hawks; Tigers at Sea-horses; Nationals at Orioles.

Monday, June 22 — Orioles at Hawks; Sea-horses at Nationals; Peterborough Canoe at Cubs.

Thursday, June 25—Hawks at Nationals; Cubs at Tigers; Sea-horses at Peterborough Canoe.

Monday, June 29—Peterborough Canoe at Orioles; Nationals at Cubs; Tigers at Hawks.

Thurrday, July 2 — Tigers at Orioles; Sea-horses at Cubs; Nationals at Peterborough Canoe.

Monday, July 6—Hawks at Cubs; Orioles at Sea-horses; Peterborough Canoe at Tigers.

Thursday, July 9—Orioles at Nationals; Sea-horses at Tigers; Cubs at Tigers.

Thursday, July 9—Orioles at Nationals; Sea-horses at Tigers; Cubs at Hawks.

Thursday July 16—Peterborough Canoe at Sea-horses; Nationals at Hawks; Orioles at Tigers.

Monday, July 20—Sea-horses at Hawks; Peterborough Canoe at Nationals; Cubs at Orioles.

Thursday, July 23.—Orioles at Peterborough Canoe; Hawks at Tigers; Cubs at Nationals.

Monday, July 27—Hawks at Orioles; Nationals at Sea-horses; Tigers at Cubs.

Thursday, July 30—Nationals at Orioles; Hawks at Sea-horses; Tigers at Peterborough Canoe.

Monday, August 3—Sea-horses at Peterborough Canoe; Tigers at Nationals; Cubs at Orioles.

Thursday, August 6—Hawks at Peterborough Canoe; Tigers at Sea-horses.

Monday, August 10—Peterborough Canoe at Orioles.

**WANTS LONDOS MATCH**

CHICAGO, Ill., April 27. —(CP)—Ed "Strangler" Lewis, former heavyweight wrestling champion, was in Chicago today to ask the Illinois State Athletic Commission to help him to a match with Jimmy Londos, one of the leading claimants to the title. Lou Daro of California, was to present a certified check for $25,000 on behalf of Lewis, to bind the match.

## OVERSEAS MAIL

Closing of mails for Great Britain and European countries:

Mail for Great Britain and countries via Great Britain to connect with steamer Empress of France sailing from Quebec on April 28th mail will close at the local Post Office at 11 a.m. April 27th.

Mail for Great Britain and countries via Great Britain to connect with steamer Duchess of Atholl sailing from Montreal on April 30th will close at the local Post Office at 11 p.m. April 29th.

Mail for Great Britain and countries via Great Britain to connect with steamer Nova Scotia sailing from Halifax on May 2nd mail will close at the local Post Office at 11 p.m. April 29th.

Mail for the New York route to connect with steamer Mauretania sailing from New York on April 29th will close at the local Post Office at 11 p.m. April 27th

Mail for the New York route to connect with steamer Paris sailing from New York on April 30th will close at the local Post Office at 11 p.m. April 28th.

Mail for the New York route to connect with steamer Europa sailing from New York on May 2nd will close at the local Post Office at 11 p.m. April 29th.

**CAVAN**

A big Hydro camp is being built on Mr. Hal Argue's property on the middle road.

It was commenced on Monday. There will be three buildings for the men to sleep in, a dining room and kitchen. There are about twenty men there now and the number is expected to reach sixty.

The third Hydro line is being built through Cavan. It has already been built west as far as the Otonabee River.

A Delco plant supplies light for the camp, which already presents the appearance of a busy little hamlet.

A number are at work and more will be added for excavating.

On Thursday evening, April 30th, there will be a dance in Cavan Community Hall, under the auspices of group 6 and 8 of the Cavan Women's Institute.

Mr. L. J. Hutchison went to Toronto on Tuesday to enter the General Hospital there, to undergo an operation.

## BLUE AND WHITE SQUAD TO HAVE PRO. GRID COACH

U. of T. Directorate Seriously Considering Appointment of Paid Tutor.

OLD SYSTEM FAILS.

(Special to The Examiner—Copyright, 1931)

TORONTO, April 27—Eleven sitting men around a table in the athletic office at Hart House are making history in athletics at the University of Toronto. For the 55 years that football under its varied rules has been played at the university, there has been an honorary coach. Now the advisory board of Varsity Alumni is debating the question of a professional coach who will be hired on a contract for a number of years.

Officially there has been no announcement. The meetings of the advisory board under the chairmanship of Dr. W. B. Hendry are secret and all business carried on there is not to see the light until their recommendations have been passed by the athletic directorate; but it is understood that there will be a professional coach at the blue centre.

At present much of the difficulty is caused by the fact that new steps are being taken that have not been previously on the route. In other years the announcement of the name of the man in whose hands the coaching of the first football team has been known in February or even earlier. Part of the difficulty in appointing a man is due to the desire to get a completely trustworthy one, one who will be able to carry out the new plans brought forward by the advisory board.

It it understood that an alumnus of Toronto is desired although the job is open to a man of ability without consideration of where he spent his undergraduate days.

The new move comes as the result at least in great part of the failure of the blue team to emerge victorious on the gridiron. In the last ten years there have been but two winning teams and it was and is felt by many of the graduates that Varsity with its huge enrollment of men is not making the best of the material available.

Little of the criticism has involved the coach as such. But it was felt by many that the jeb needs a full time man with an appointment of a term of years in order to permit his theories to saturate the men under him. It is quite conceded that if a new man comes each year with the new system that is his, not only is continuity broken but there is little chance of developing raw material that might be on hand.

The system that is worked at present is quite sound in theory but it has failed in actual practice. Under the present style there is a head coach who receives not a salary but an honorarium. Under him are the coaches of the O.R.F.U. intermediate and junior teams. They are supposed to look out for material that is not only good enough for their respective teams but are to recommend men for the senior inter-collegiate twelve.

In addition the herd of men that play interfaculty football are to be observed, and any good enough to be recommended ffr college competition and the head coach has the right to call them to his first team if he thinks they are good enough.

In practice, however, that is not actually done, although there never has been a coach who would not use a man of outstanding ability no matter what college or what interfaculty team he came from. Yet there is no systematic searching for men who might with expert coaching make good football players. The system as it stands at present is much too haphasard.

As far as the question of professionalism is concerned there need be no fear. As long as the university registrar insists on the present adequate standards of entrance to the various faculties and as long as the intercollegiate union insists that no man can play unless he is a sophomore or better and has not failed his year professionalism and angling for players need not be a worry.

## Our Boarding House . . . . . By Ahern

## PETES TO MEET NATIONALS ON LATTER'S HOME GROUNDS IN OPENING GAME MAY 25TH

**Decision to Operate League Reached at C.O.B.L. Meeting on Saturday.**

**OSHAWA NOT REPRESENTED.**

**Locals' First Home Game Will Be May 30 When Petes Entertain Belleville.**

BELLEVILLE, April 27.—The Central Ontario Baseball League will operate this season, the final decision being reached at a meeting held in Belleville on Saturday afternoon, with delegates from Peterborough Kingston and Belleville. Oshawa was not represented at the meeting and it was decided that the league would not look with favor on their application at a later date. The three clubs that will form the loop will play a quadruple schedule, starting on May 24 with Peterborough at Belleville, and will end Aug. 15. The first two teams will play a post-season series of the best two out of three for the C.O.B. title.

President R. A. Elliott of Deloro, who is also prexy of the O.B.A.A., presided at the meeting, with Walter Gerow and M. P. Duff delegates from Belleville. F. A. Johnson, from Peterborough, F. Smith of Kingston and Newton Thompson, Secretary-Treasurer, were also present. Considerable discussion took place before Kingston finally decided to enter. Had they not come in the league would have been disbanded for the year.

President Elliott of the O.B.A.A. sounded a note of warning to all amateurs who were thinking of turning to the professional ranks, stating that the governing body would not entertain their reinstatement at any time.

**Officers Elected**

Officers elected were: President, R. E. Colling, Belleville; First Vice-President, Bert Booth, Kingston; Second Vice-President, Joe Ranger, Peterborough; Secretary-Treasurer, Newton Thompson, Belleville, and Executive, Walter Gerow, Belleville; F. A. Johnson, Peterborough and S. Smith, Kingston, these last three being the managers of the respective teams in the league.

The question of umpires will be taken up at a later date, but it is believed that the home team will supply one of the umpires for each game and the visiting club the umpire-in-chief. This will save expenses considerably. The outlook for a real season of ball was exceedingly bright, as it is understood all the teams in the loop have strong lineups and are ready for the opening games. The schedule follows:

May 25—Peterborough at Belleville.
" 30—Belleville at Peterborough.
June 3—Peterborough at Kingston.
" 6—Belleville at Kingston.
" 10—Kingston at Belleville.
" 13—Kingston at Peterborough.
" 17—Kingston at Belleville.
" 20—Belleville at Peterborough.
" 24—Kingston at Belleville.
" 26—Peterborough at Kingston.
July 1—Kingston at Peterborough.
" 2—Peterborough at Belleville.
" 8—Kingston at Belleville.
" 11—Belleville at Peterborough.
" 15—Peterborough at Kingston.
" 18—Kingston at Peterborough.
" 22—Peterborough at Belleville.
" 25—Belleville at Kingston.
" 29—Peterborough at Kingston.
Aug. 1—Belleville at Peterborough.
" 5—Belleville at Kingston.
" 8—Kingston at Peterborough.
" 12—Kingston at Belleville.
" 15—Belleville at Kingston.

## SPORTS Day by Day

SOCCER, BASEBALL, GOLFING
ACQUATIC, SOFTBALL, TRACK

**CASUAL COMMENT**

The closing date for East Peterborough League entries is to-morrow. There's only three teams in yet, Cogs, Rays and C.G.E. However, there should be little difficulty getting a fourth entry. While the 26th was set as the late date to join, a few days' grace may be given.

• • • • • • •

Rotary Juveniles will work out to-night at six over on the Stevenson diamond, weather permitting. This team is making hay whether or not the sun shines. It ought to be a smooth-working outfit when the City League schedule opens.

• • • • • • •

The South End Softball League is due to begin its game this evening with Tigers playing the Hawks Sea-horses against the Orioles, and Nationals battling the Cubs. There are eight teams entered in this newly-organized loop, and they play six games a week till the middle of August. They might bear watching, who knows?

• • • • • • •

Ho, hum, only six baseball games in the School League this week. Two to-night, one tomorrow, two on Thursday and one more on Friday. It's Queen Mary at Central, and Queen Alex at King George this evening. What's a little thing like cold weather when a kid has a ball in his mitt?

• • • • • • •

Tomorrow night at eight o'clock, the Girls' Softball League meets at Duffus' to consider new entries, a playing field, opening dates, and other business. The somewhat frailer sex ought to be out in force, if they're interested in the game.

• • • • • • •

Seven teams signified their intentions of entering at the first meeting. They were: Brintons, Westclox, Dominion Woollens, Sixth Line, C.G.E. and Keene. There may be a scramble to see which team makes the eighth.

• • • • • • •

The executive of this league is representative all right. It includes, Helen Nelson of Keene, Hannah Shearer of Warsaw, J. Hall of Sixth Line, and Fred Scates of Peterborough. Russ Kitchen is president.

• • • • • • •

O. McCarthy, of Keene, was elected vice-president, but the secretary-treasurer has yet to be appointed, W. Bennett only taking the office for the time being. This position will be filled to-morrow night.

• • • • • • •

The next boxing show here is slated for the Armouries on Friday night, starting at eight o'clock. Gord Garwood will promote the card, and hopes to have a number of towns represented. Who will fight who has not been announced yet?

• • • • • • •

The Central Ontario Baseball League will operate this year. This decision was reached at the meeting in Belleville on Saturday, with representatives from Peterborough, Kingston, and Belleville present. Oshawa was not represented, and it was decided that the league would not look with favor on their application at a later date.

• • • • • • •

The three clubs will start the 24th of May and play a quadruple schedule, ending on August 15th. The first and second teams will play a post-season series of two out of three for the C.O.B.L. title.

• • • • • • •

The Peterborough play Belleville in the Quinte town on May 25 to open their season, with the first home game being against the same team on May 30. Kingston does not play here until June 13.

• • • • • • •

R. E. Colling, of Belleville, was elected president, and the first vice-president is Bert Booth of Kingston. Our own Joe Ranger was elected second vice-president, and Newton Thompson, of Belleville, is the secretary-treasurer for the coming year.

• • • • • • •

The executive is composed of the three managers, "Shiner" Johnston, Peterborough, Walter Gerow, Belleville, and S. Smith, Kingston.

• • • • • • •

Oshawa had no one at the meeting, as the Motor City outfit still hopes to connect with a Toronto league. They will have a representative at the O.B.A.A. meeting in Toronto this week, and try to join with a Queen City loop.

## SPORTS by JIMMY THOMPSON

**A SPORTING DENTIST**

Dr. Murray B. Sherzer, better known as "The Doc" is the official tooth tickler of the United States National Boxing Commission in New York and boasts of knowing some famous sport celebrities in a somewhat unique way. He claims to be the only man who enjoyed the confidence of the late Tex Richard as far as molars were concerned. Tex was afraid of attention from both medical and dental doctors and would never allow his teeth to be pulled and only submitted to having one or two filled. Jack Filman, the rapid-fire radio sports announcer, sports six nice new teeth by "The Doc." Jack Sharkey is also one of his customers. Dr. Scherzer's pet story is about Jim Maloney. One afternoon he pulled one of his teeth and the following night Jim kissed the canvas in a big way in his battle with Sharkey and "The Doc" says you can draw your own conclusion as to why Maloney took the count.

## E.P.L. MEETING TUESDAY NIGHT

**Entries, Umpires and Pre-seasonal Game Will Be Subjects Discussed.**

**MANY MINOR DETAILS.**

The East Peterborough Baseball League meets to-morrow night at eight o'clock in the Board Room at Duffus'. This was the date set for all entries to be in, but as there are only three teams in the league yet, it is probable that the date will be extended a few days. The officers are confident that no trouble will be experienced in bringing in a fourth team.

The committee which was to attend to the overseeing of the diamond, and to the obtaining of the wire screen, will report back at this meeting. The question of umpires, as well as that of pre-seasonal exhibition games, will also come in for some discussion. The E.P.L. hopes to be organized and set around the first of May, with the schedule beginning about the middle of the month. Many minor details should be cleaned up at to-morrow's session.

**BIG AIR SHOW FOR STOCKHOLM**

Stockholm, Sweden, is to have an international aeronautical exhibition during the latter part of May. It is said to be under patronage of the Crown Prince. The exhibition will be divided into sections covering every branch of aviation. There will be competitive flying and visits of foreign aircraft.

## LEAFS SHARE SECOND PLACE WITH ROYALS

**Guy Cantrell Fails to Hold Oriole Batsmen and Toronto Loses 9-4.**

**THREE HOMERS FOR EACH.**

**Monte Weaver From University of Virginia Hurls Steady Game.**

BALTIMORE, April 27—Guy Cantrell reported to Manager Steve O'Neill yesterday morning, but at 4.30 o'clock yesterday afternoon he was headed for the showers and his mates were continuing a losing battle. The Orioles defeated the Leafs by 9 to 4 in the second game of the series, rain preventing one of the games carded which was to form the first twin-bill of the season.

Cantrell appeared to have a lot of "stuff" but the Birds had on their batting clothes, and after the Canucks had taken a two-run lead in the second inning, the Birds pounded out three in their half of the session, to assume a lead which they maintained throughout the remainder of the tilt.

Monte Weaver, the tall pedagogue from the University of Virginia, opposed the invaders and turned in an excellent performance. "Chick" Shiver, Stack and Cantrell solved his delivery for lusty home runs, but Weaver continued to stick to his knitting, and with perfect control held the mastery against both Cantrell and Butzberger, the latter hurling the final two innings.

The Leafs played flawless ball in the field, and that was some feat, for it had been raining all morning, the ground was wet and slippery, and a wind blew over the diamond which at times bore resemblance to a gale.

**Tough Luck**

Toronto batsmen had the misfortune to crash for the circuit with not a comrade on the sacks. On the other hand, Heffner hit for the circuit in the second with two on; Kuhel did the same thing in the fifth with Southern on first base and "Heine" Sand derricked his blow out of the park in the seventh, with Kuhel perched on the initial station.

Neither team could send a runner over the plate in the first frame although Richardson did manage to insert a single to centre into the proceedings. The second inning was different. Shiver hit an extra long homer over the barrier between centre and right, and with two down Stack slammed over the left field fence in another honest drive.

The Birds refused to stay in place, and when Stroner doubled to left and Sand walked, Heffner, a Baltimore boy, electrified local fans by a hard-hit homer into the right-field bleachers.

After two scoreless efforts to put Weaver to flight, Cantrell caught one to his liking in the fifth, and sent it rocketing into the right field bleachers. Just one more run came to the Leaf standard, and that was registered in the seventh. With one down, Ruble batted for Cantrell and singled to centre, Morehart advanced him with a hit which Weaver could not handle, and he scored when Richardson uncorked a double to the left field fence.

## British Tennis Star To Wed Film Actress

LONDON, April 27 (C.P.)—H. W. Austin, British tennis star, known to his friends as "Bunny," will announce his engagement shortly to Miss Phyllis Konstam, British actress and film star, members of his family said today. "Bunny" helped to defeat Monaco in a Davis Cup tie at Plymouth last week, and is at present at Bournemouth playing in the hard court championship.

The couple met two years ago aboard the Berengaria en route to New York, Miss Konstam during the voyage beating Austin at deck tennis.

She is a keen tennis player and fencer outside of her stage life, in the course of which she has appeared in many successful West end productions.

## Postponed Games.

**AMERICAN LEAGUE**

Detroit at Chicago, postponed; cold.
Philadelphia at Boston, postponed; cold.

Don't miss "Dracula" at the Regent Theatre on Wednesday, Thursday and Friday of this week. The Examiner Cheer Fund gets twenty-five per cent. of the receipts for relief work.

## Billy Rogell Retains Batting Aerage Lead

**TORONTO, April 27. — Billy Rogell, the Leafs' stellar shortstop, dropped a few points from his batting average when held to one hit in four tries at Baltimore yesterday, but he still maintains a big margin over the other regulars. His percentage dropped from .516 to .486. Nolen Richardson continued to bat consistently, and with two hits out of five trips to the plate added one point to his margin, bringing it to .386. Art Ruble, in the roll of pinch-hitter, increased his average by 49 points when he came through with a single. Harry Davis and Ken. Strong, both failing to register in four attempts, dropped slightly. Ivey Shiver, the new outfielder from Detroit, gave promise of being a dangerous man on the attack, hitting twice in four trips, one being a four-ply swat.**

**BIGGER BEER TAX SOUGHT**

Several Socialist members of the English Parliament have formed a group to supply suggestions for increasing the government income. One problem is to find a way to get more money from the brewers in a manner precluding a rise in price to the drinker. Land values taxation and higher death duties also are being considered.

## Jack's In Reno

**NAME LINKED WITH FIGHTERS**

Mrs. Elizabeth Church, Pittsburgh divorcee, whom Jack Dempsey, former heavyweight champion, now in Reno awaiting divorce from Estelle Taylor, screen actress, is reported escorting about the divorce colony.—Copyright by Acme Newspictures.

## Cricket

Owing to the weather, no practice was held at the Oval on Saturday afternoon; therefore, it was postponed until Wednesday evening next at 6 p.m. All players are then requested to turn out, as the team to open the season's fixtures will then be picked.

Next Saturday afternoon the team journeys to Lakefield to entertain The Grove School and staff on their grounds. The game will be called at 2.30 p.m. Supporters and all other cricket enthusiasts are cordially invited to attend.

## Examiner Bowlers Beat Belleville Y.W.C.A. 2-1

Six girls, picked from The Examiner Ladies' Bowling League, went down to Belleville Saturday and defeated the Y. W. C. A. team two out of three games in an inter-city exhibition series. The Quinte crew will return the visit this Saturday, playing the local team in the Duffus Bowling Alleys.

The girls who went from here were: M. Crosby, G. Zeihr, H. Turner, M. McMillan, E. Roseborough and Mrs. Killingbeck. They won the first and third games, dropping the second one 892 to 877. The first game ended 870 to 815, and the last one 936 to 877. The total for Peterborough was 2683 for the three games, and for Belleville 2585.

E. Roseborough, bowled 555 for the highest individual score in the three games, while M. Crosby, with a 226 in the second game, had the highest single score. All the local girls were going nice, but had to be to stand off Belleville threats. The game here Saturday ought to be good.

After they had bowled the final game, the Peterborough girls were guests at a banquet put up by the Belleville "Y" girls, and spent a very enjoyable evening in the Quinte city.

## Lacrosse

Although the weather was unfavorable there was quite a number of lacrosse players out to practice on Saturday afternoon. Another practice will be held on Tuesday evening at 6 o'clock. Sponsors would like to see Gene Donovan, Jack Colorne, and a few more of the young fellows turn out. Jack Gillespie has taken an interest in the game and has allowed the boys a place to change their clothing, which will be greatly appreciated.

Don't miss "Dracula" at the Regent Theatre on Wednesday, Thursday and Friday of this week. The Examiner Cheer Fund gets twenty-five per cent. of the receipts for relief work.

**BABE RUTH INJURED AT BOSTON**

**This A. T. & T. telephoto shows teammate carrying Babe Ruth from the field after he had collapsed in the sixth inning of the game on Wednesday, April 22, between the Yankees and Boston. Reports from the hospital are that the Babe will be out of the game for at least two weeks.**

# MISS FRIEDA MATTHEWS TO TAKE POSITION WITH MISSION SCHOOL

### Designation Service Conducted By Presbytery of Kingston.

### IN STIRLING CHURCH.

STIRLING, April 27.—(Examiner Correspondence.)—On Wednesday a Designation Service was conducted by the Presbytery of Kingston, in St. Andrew's Church here, as Miss Frieda Matthews, is about to take her departure for Kenora, where she has a position on the staff of the Cecilia Jeffrey School.

Rev. H. Reid, of Foxboro, preached the sermon, taking for his text the words found in Matt. 7:20, "By their fruits ye shall know them."

The greatest undertaking on earth is the Christian church. How may a christian be known in a community?

They must be characterized by certain distinguishing merits:

First, goodness: A God'ly life is likened unto a tree, which bears fruit in season a life which we can designate as holy.

Second, service: A Christian does not live unto himself, seeks not his own glory, but brings new life to others. To be able to give, we must have.

An empty well quenches no thirst, a barren tree satisfies no hunger.

Thirdly: Love for mankind. Church service demand love. It is the greatest motive power. In the words of Jesus "ye are my disciples if you love one another."

Fourthly: A christian must recognize God as the source of life, must believe in Christ as full revelation; must live in devotion.

The beautiful parable found in John 15, shows the link between the Christian and the Master as between the vine and the branch.

Designation ceremony was then conducted by the moderator of Presbytery, Rev. A. N. Reid, M.A., following this the members of Presbytery extended the right hand of fellowship.

Rev. C. Nichol addressed the newly designated deaconess from the words found in Cor. 3:9.

"We are labourers to ether with God" There is a most solemn thought contained in the fact that we are co-workers and co-operators."

"The master was always ready to recognize the value of service, as when the lad fed the multitude with his simple meal the loaves and fishes, and even in his plans for the triumphal entry into Jerusalem, Christ had use for the young colt.

"Christ is honored by a king our assistance in extending his work."

In concluding, Mr. Nichol assured Miss Matthew that the Presbyterian church was behind her, and also Jesus the King and Head of the church was ever present to support and assist.

Rev. C. K. Nichol, of Trenton, as a member of the Board of Missions of the Presbyterian church in Canada.

Mrs. Fargey, on behalf of the W.M.S. presented Miss Matthew with a Deaconess pin from the church.

The benediction was pronounced by Rev. R. J. Craig, M.A., of Demorestville, clerk of the Presbytery, moderator of fifty years ago.

At the close of the service, Miss Matthews was presented with a sum of money in gold from the church.

The address was read by F. G. Ward. The service was held here by appointment of Presbytery at request of Board of Management of Deaconess Training Home of the Prebyterian Church in Canada.

## *Vice-President*

J. H. Wyatt has recently been appointed Vice President of the Kroehler Mfg. Company, Limited, Stratford, Ont., and Montreal, Que., makers of living room furniture. For some years Mr. Wyatt was Assistant to the late F. W. Trebell, former Vice President, whose sudden death last December was a great shock to the furniture industry. Early last year Mr. Wyatt moved to Montreal, to direct sales and manufacturing activity in Eastern Canada, from the newly established Montreal factory. He now returns to Stratford, and will take active control of the merchandising and financial end of the Canadian business.

# DISTRICT NOTES

## She Was Able to Resume Her Work

### By Giving Dodd's Kidney Pills a Trial

"I work quite a lot out of doors and any heavy lifting seems to pull the backbone apart," writes Mrs. Boyles, R.R. No. 1, Cavan, Ont. "About seven years ago I suffered terribly. I couldn't bend to pick up anything. Liniments did not seem to do any good so I remembered my father had used Dodd's Kidney Pills for his Lumbago and I tried them and it is hardly necessary to say I found relief. A few weeks ago I felt my back strained and could not do any work until I purchased some Dodd's Kidney Pills."

640

Mrs. Garnet McMann has returned home from Picton where she was the guest of her brother.

Mr. H. Lamb was in Toronto Friday, on Business.

Mr. J. Douglas, of Peterborough, was in town Thursday, on business.

The Y.P.S. met on Tuesday night, with ten members present. The scripture lesson was read by Miss Mary Lockhart. The splendid topic "Voices from Afar" given by Miss M. Bethel, was enjoyed by all. The next meeting will be a social evening in the Sunday school hall. Miss Martha Fleming has charge of the meeting.

New South Wales has postponed its 1931 radio show indefinitely.

# HOW A WOMAN LOST 17 LBS. FAT IN 4 WEEKS

## Feels Better and Looks Better

## She Gives Good Advice to All Fat Folk

Here's a letter that should be read by every overweight woman.

When stout women can lose fat and at the same time gain in energy and vigor.

Gain in charm and vivaciousness. Gain a healthy complexion and have eyes that sparkle with buoyant health. And at insignificant cost—isn't it time to use common-sense?

Please read this letter carefully:—

"Gentlemen,

"I first saw your advertisement in a local paper, and decided to try Kruschen Salts.

"I started taking them every morning as directed as I was very much overweight and wanted to reduce.

"I had tried going on a diet, but would get so hungry that my diet would not last long, so I decided to give 'Kruschen Salts' a fair trial. The day I started to take them I weighed 256 lbs., and at present, which has just been four weeks, I weigh 239 lbs. And I must say, I feel better in every way, besides looking much better.

"I have recommended Kruschen Salts to many of my friends; in fact, have a number of them taking Kruschen Salts.

"May all large people, both men and women, who want to reduce in an easy way, give Kruschen Salts a fair trial. Just try one bottle and by following directions, I am sure it will convince anyone. I bought my second bottle to-day."

Kruschen Salts is obtainable at all Drug Stores at 45c. and 75c. per bottle.

# CAPTAIN W. HOLT 100 YEARS YOUNG

### Newport's Oldest Citizen Followed the Sea Until His Eighties.

NEWPORT, R.I., Apr. 27. — Newport's oldest citizen, Capt. William Holt, celebrated his 100th birthday on March 27.

A hale and hearty sailor, born and brought up in the Point section of Newport, Capt. Holt followed the sea until he was 84.

A little hard of hearing and eyesight not as keen as when he traded in the West Indies, Capt. Holt spends his days in a comfortable arm chair in the living room of his home at 10 Gould street.

He had a strenuous time opening letters of congratulations, welcoming friends and a family reunion of his three daughters and son, his eight grandchildren and his three great grandchildren.

Holder of a 50-year jewel in the Rhode Island Lodge, Independent Order of Oddfellows, Capt. Holt was among those present at the laying of the cornerstone of the lodge's new building last winter. Scarcely a week goes by that he does not motor about the city, especially over on the Point, where he recalls the scenes of his childhood, now greatly changed, and sniffs the salt air from the wat rs which he knows like a book.

His long life, he attributes to abstinence from tobacco and alcoholic liquor.

Born in Newport, March 27, 1831, Captain Holt was the sixth generation of the Holt family which came from London to America aboard the 'True Love,'' a fast schooner in th early 1600's. The family eventually settled in Rhode Island.

At an early age, Cap ain Holt obtained a captain's ticket and a pilot's license and for many years was a familiar figure along the Newport waterfront. Although he served in the coastal trade for several years betwe n southern ports and the West Indies, the greater part was spent fishing locally.

During the season, he pulled his lobster pots from Block Island to Nantucket and Martha's Vineyard and at other times engaged in deep sea fishing, but all that time he added to his income by piloting big vessels through Narragansett Bay.

Early in life Captain Holt joined the Friends' Church where for many years he was superintendent of the Sunday School, and while not as active as formerly, he still maintains his interest in that church.

## Aids New Republic

Appointed by the Provisional Cabinet of the new Spanish Republic to be Director-General of Prisons, Senorita Victoria Kent, lawyer, is a typical example of modern Spanish womanhood.

...''it looks a different place. I asked my dealer for a shade card, and chose the colors myself. It didn't take long to finish the job, for Crown Diamond paints are so easily applied, and quick drying. I'm going to do my bedroom next.''

*Ask your nearest dealer for a Crown Diamond quick drying Enamel and Floor Paint shade card, or write to us. We make a pure paint for every purpose.*

# SLIGHT CHANGE IN C.P.R. TRAINS

### Early Morning Train Now Leaves City Seventeen Minutes Later.

### NO CHANGES ON C.N.R.

Changes in the local schedule of the C.P.R. which became effective to-day give Peterborough people seventeen more minutes of sleep if they are going west on the early morning train. Its departure has been moved back from 5 a.m. to 5.17 a.m. standard time.

Another minor change sends the Port McNicholl mixed away from Peterborough at 6.40 a.m. instead of 6.50. It is also announced that the buffet parlour car on the noon train to Montreal now goes through to the end of the run, instead of to Ivanhoe as in the past.

The C.P.R. telegraph connection between Peterborough and Montreal and been improved by a direct wire which speeds this service up to two minutes.

The only change on the C.N.R. service to-day applied to the noon connection at Port Hope for Toronto. The Brockville to Toronto local has been withdrawn, and passengers will now have a wait at the Port Hope junction until three o'clock.

## Battle Of Blacks Enacted In Court

MONTREAL, Que., April 27( By The Canadian Press).—A bit of humor enlivened police court the o her day when two colored w men related their troubles. Things looked black in their ways for one of the women until he other told the story: ''That woman tried to kill me with a knife,'' she started off. ''Not only that, she wanted to throw red pepper and salt in my eyes and I ain't even done no wrong to her. Sure I hit her with my shoe and I don't deny it. Wouldn't you if you saw a big butcher knife right under you nose? Her children are bigger than mine and they are always trying to hurt my little girl. I won't stand for hat nohow. Anyhow, I suffered more than she did because after I hit her, her husband and sh started chasin' me down the street and here I was with one shoe on and the other shoe off, making a fool ofmyself before everybody.''

### TENDERS FOR PAINTING.

SEALED TENDERS, addressed to the undersigned and endorsed ''Tender for Painting,'' will be received to 12 o'clock Noon, on TUESDAY, the 28th Day of April, 1931, for the work of Painting at the Queen Mary Hospital, the paint to be supplied by the Board of Health. Specifications may be seen at this office. The lowest or any Tender not necessarily accepted.

S. R. ARMSTRONG, Secretary, Local Board of Health. 3d-23,25,27-1086

### NAVIGABLE WATERS PROTECTION ACT. R.S.C. CHAPTER 140.

The Hydro-Electric Power Commission of Ontario hereby gives notice that it has, under Section 7 of the said Act, deposited with the Minister of Public Works at Ottawa, and in the Registry Office for the Registry Division of the County of Peterborough at Peterborough, Ontario, a description of the Site and the Plans of its 8,000/4,600 volt Electrical Transmission Line proposed to be erected across the Trent Canal following the boundary highway between the Townships of Douro and Otonabee, both in the County of Peterborough, and more particularly in front of Lot 1, Concession 12, in the said Township of Douro.

And take notice, that after the expiration of One Month from the date of the first publication of this Notice, The Hydro-Electric Power Commission of Ontario will, under Section 7 of the said Act, apply to the Minister of Public Works at his Office in the City of Ottawa for approval of the said Site and Plans and for leave to construct the said Electrical Transmission Line across the Trent Canal as aforesaid.

DATED at Toronto this 31st Day of March, A.D. 1931.

THE HYDRO-ELECTRIC POWER COMMISSION OF ONTARIO, W. W. POPE, Secretary. 4d-27,4,11,18-1072

THE SON OF TARZAN No. 49 (Metropolitan Newspaper Feature Service, Inc.) By Edgar Rice Burroughs

Akut, with a low growl of excitement, came crashing through the underbrush. He paid no attention to Meriem and Korak but with hair bristling began strutting, stiff-legged, about the fallen ape. Something stirred in his little brain. Something which the sigh and smell of this great bull had aroused. It awakened in the heart of Akut a longing for the companionship of his own kind. So Korak was not alone undergoing a change

Of the three, Meriem alone underwent no change. Always she had loved Korak. He was her ''big brother.'' She still loved him—as a sister. Very proud she was of him too. Never was there another jungle creature so strong, so brave or handsom as her Korak. Suddenly Akut gave a deep growl—the one of warning. Korak looked quickly up from the glorious vision of Meriem's sweet face. Now his other faculties awoke. His ears, his nostrils were on the alert.

Something was coming! The Killer moved to Akut's side. The three stood, statue-like, gazing into the jungle's leaf tangle. Presently a great ape broke through the thicket. Seeing them he halted, giving a grunt over his shoulder. A moment later came cautiously another ape, soon followed by others, both bulls and females with young, until two score hairy monsters stood glaring at the silent group of three. Akut was the first to speak.

He pointed at the body of the dead bull. ''Korak, mighty fighter, has killed your king,'' he said. ''There is none greater than Korak, son of Tarzan. Now, Korak is king. What bull is mightier than Korak?'' It was a challenge! The apes chattered among themselves, taking counsel. At last a young bull in the prime of his strength, stepped forward, bristling, growling, terrible. He was enormous. Even natives seldom see these great, hairy primordial men.

## In Police Court

Noah Taylor may be known as "Bright Eyes" or "Hawk Eye" about the Curve Lake Indian reservation, but if his lawyer, J.A. O'Brien, is to be believed, it was his keen eyesight which cost him $100 fine in police court this morning.

Mr. O'Brien explained that Taylor was going home when he noticed an empty beer bottle on the road. His interest awakened, the young Indian decided to investigate, explained the lawyer. Behind a tree he found six quart bottles of vendor's beer.

However, Taylor took the beer to his home, and the next day Provincial Constable Sylvester descended upon the house, finding the beer.

Mr. O'Brien told the story of Taylor finding the beer as his only defence in explaining its possession by the Indian, who was charged with having liquor illegally.

He was fined $100 or given the alternative of spending three months on the hill.

Charged as second offenders under the L.C.A., James Akey and Grover Halpin, were given the alternative this afternoon by Magistrate Langley of paying $50 fine each or spending two months in jail.

Both pleaded guilty to being drunk yesterday on Leahy's Lane. They paid their fine.

IN MEMORIAM

**Y.W.C.A. WEEK'S ACTIVITIES**

**Gym Pageant Friday and Saturday—**
This is the week of the Y.W.C.A. Gymnasium Pageant. The 'Y' is a busy place with extra rehearsals, giving out costumes, telephone calls for more tickets etc. Each year thousands of people see this big Pageant and marvel at the wonderful training and beauty of the drills.

There are still tickets available. The public is reminded that the seat sale plan opens at the Grand Opera House Wednesday, 10 a.m. All tickets should be exchanged for reserved seats.

**Ticket and Costume Returns—**
Gymnasium pupils are reminded to bring in ticket and costume money this week.

**Annual Meeting—**
The Y.W.C.A. extends a cordial invitation to all Senior members and friends of the Y. W. C. A. to attend the association Annual Meeting in May.

**Swimming Attention—**
Hurrah! The Y. W. C. A. Pool will be open on Tuesday. Everything will be like summer in the pool. Get your doctors certificate and come on and enjoy the first swim of the season. Enquire at Office for Lesson Schedule. Swimmers Season Ticket $3.00; Life Saving $2.00; Junior Lessons, 6 lessons for $1.50; Senior lessons 6 for $2.00. Registration or Membership Seniors $1.00 per year; Juniors 50c per year.

**Camp Shower—**
Don't forget Camp Shower May 11. Everyone welcome.

**Camp Holidays—**
Camp folders are now ready. How about sending one to your friends. A camp holiday is a happy holiday.

**Extra Pageant Rehearsals—**
Gymnasium pupils are asked to attend all classes this week.

**Monday at Y.W.C.A.—**
4:30 — Intermediate Gymnasium, Inter. Dancing Class, 8:00—Elementary; Special Danish Group.

**Tuesday at the Y.W.C.A.—**
4:30—Junior and Babies' Gym and club classes; Babies Junior Dancing; Intermediate gymnasium. 5:30—Intermediate and Senior Dancing; Sen. School Girls, advanced class and elementary gym at the Opera House.

**Wednesday—**
4:30—Junior and Babies' Gym, Club Classes, Intermediate gym at the Y. W. C. A. 5:30 At the Opera House—Babies' and Junior Dancing; Intermediate and Senior dancing. 6:15 at the Opera House—Senior School girls, elementary and advanced classes.

**Thursday—**
All classes will be suspended during Thursday and Friday afternoon. Girls taking part in the Gym Pageant are urged to rest and relax. All junior and babies' classes will meet at the Y.W.C.A. gym Friday and Saturday evening at 7:30 to be marched or taken in cars to the Opera House. All parents and guardians are asked to co-operate.

## AID GIVEN BY

(Continued from Page 1)

side, but the Provincial Treasurer declared that new sources of revenue were necessary and these had to be provided by those best able to pay. Some of the teeth of the measure, however, had been withdrawn through opposition from Government members.

The most exciting days of the session, Mr. Strickland said, were those spent in considering the question of hunting deer with dogs, about which hunters had most pronounced opinions. The compromise ultimately decided on did not please either side of the controversy.

The speaker praised the action of the Government in imposing a quota law in regard to the use of British films and commented on the fact that something of a precedent had been created when it was not found necessary to call a meeting of the Public Accounts Committee.

Rotarian Walter Blackwell moved a vote of thanks to the speaker.

A telegram of greetings was received from Rotarians R. Abbott, James Juby, Tom Dutton and Jack Gillespie, who are attending the district conference at Buffalo.

The nominating committee named the following field from which five directors will be elected at the meeting on Monday, May 11. Dr. M. A. Morrison, Dr. A. Moir, Elmer Metcalfe, Alex. Darling, James Juby, J. K. Hughes, T. H. Gillespie, Jack Gillespie, J. Hornsby, R. F. Downey.

Don't miss "Dracula" at the Regent Theatre on Wednesday, Thursday and Friday of this week. The Examiner Cheer Fund gets twenty-five per cent. of the receipts for relief work.

## MAIN STREET TOPICS

Jabs and Jottings as Picked Up by an Examiner Reporter

**"DRACULA."**

A picture that centres about the activities of the human vampires who prey on weaker individuals is to be presented at the Regent Theatre, in "Dracula," on Wednesday, Thursday, and Friday of this week. It was held over, after its preliminary engagement, for another week, at the Tivoli Theatre in Toronto.

## THEATRES

### AT THE REGENT

The strangest creature in America is living today in Hollywood, surrounded by a brooding atmosphere of horror and madness. A tall, straight figure of a man, he goes among his fellows with a strange aloofness that marks him as a man apart. Unfathomable thoughts gleam behind his deep-set eyes, and on his throat he bears two tiny wounds that prove a terrible attack by a human vampire.

Bela Lugosi is the name of this strangest of men, a Hungarian born amid the black, mysterious mountains where vampires take a heavy toll among the natives, and the whole countryside lives in terror of the night. For it is only after sunset that these strange undead creatures rise from their graves.

Lugosi is loath to discuss his terrifying experience in his native land. "It is all a terrible nightmare which I am destined never to forget," he says, "until a certain woman in Hungary shall go to a peaceful and lasting death. She is an actress with no more than usual amount of feminine charm, but many men are her abject slaves, because within her smoulders the burning flame of the vampires.

"It was her sharply pointed teeth which made these wounds in my throat, and it was her unspoken but irresistible commands which caused me to visit her again and again. At length my mother noticed that I was rapidly losing weight, and she soon divined the cause. I had fallen under the influence of a vampire. Shortly afterward, at my mother's insistence, I fled the country—and I shall probably never go back.

"But even now I dare not sleep at night. This is the time when we feel the thought impulses of the vampires, and I dare not lose consciousness during the hours of darkness. With a light burning low in my bedroom, I read and pace the floor—and think. If I rest at all, it must be during the day. Bela Lugosi comes to the Regent on Wednesday, Thursday and Friday of this week, in "Dracula," one of the most talked-of plays of the moving screen. Its presentation will bring The Examiner Cheer Fund twenty-five per cent. of the receipts for relief work in the city.

**IN MEMORIAM**

TRUDE—In loving memory of Violet Mae, beloved daughter of Harry Pearson who passed away April 28, 1929.

Fond were the ties that were broken,
Dear is the one that is gone,
In memory we shall keep her
As long as the years roll on.
A few more weary footsteps,
A few more lonely years,
And we shall meet our loved one,
Beyond the gate of tears.

—Sadly missed by Father, Sister and Brothers.

Don't Wait Any Longer For The Sound Health You've Always Wanted

Take the Advice of Thousands of Men and Women Who Are Obtaining Amazing Results Through Use of New Herbal Medicine — Vital Organs Helped — Entire System Strengthened In Many Cases.

Meet the NU-ERB MAN at BOND'S DRUG STORE TO-DAY.

Following the recent introduction of Dr. French's NU-ERB Medicine in this vicinity, literally hundreds of men and women suffering from various health troubles have called at Bond's Drug Store to meet the Specialist who has come here direct from the laboratories in Ontario where Dr. French's NU-ERB is made, and learn about this new and different medicine, which is meeting with amazing success everywhere throughout the Dominion of Canada.

"It is surprising the vast number of persons in this vicinity who are suffering from some ailment from which they have failed to obtain relief," says the NU-ERB Specialist. "I invite every such person to call on me and take advantage of my generous offer to present them with a trial bottle of my new herbal medicine, and I have full confidence that after using this preparation for a few days they will be not only surprised with the results, but will find themselves enjoying a new feeling of health."

Dr. French's NU-ERB cleanses the system of poisonous waste matter, and after a few weeks' treatment the vital organs respond with renewed strength and activity; particularly is this true of the stomach, liver and bowels. Weak and undernourished, these organs are often the cause of untold misery. Dr. French's NU-ERB speedily cleanses these organs of impurities, toning and regulating their action until they and the whole system responds with vigorous glowing health.

THE NU-ERB SPECIALIST

"For several years I was in a weak, nervous, run-down condition," says Mr. John Harrison, 82 Melbourne St., Hamilton, Ont. "I felt tired and worn-out all the time, couldn't sleep nights, suffered from staggering, dizzy spells, severe headaches and indigestion."

"Dr. French's NU-ERB has rid me of each of those troubles and now, after using only a few bottles, I am feeling strong and well again. I sleep fine now, have a good appetite, and the dizzy spells, indigestion and nervousness have disappeared. I heartily recommend this medicine to those who suffer as I did."

The NU-ERB Specialist is located in Peterborough at Bond's Drug Store where he is every day explaining to scores of local men and women the merit of this remarkable medicine.

## Chicagoan Who Hid $700 in Old Icebox Has Hot Time When Landlady Discards It

CHICAGO, Ill., Apr. 27.—It was hard for George Morrish to keep cool yesterday despite the fact that his principal concern was about two ice boxes, one of them new, the other old.

He withdrew $700 in cold cash from the bank the other day, reasoning that there could be no more appropriate place for it than the family ice box, at least until he could find a chance to use the money to pay his taxes. Then he went away, returning last night.

"Look" said his landlady, Mrs. Ida Fischer as she took him to the kitchen. "A new ice box for you. I threw the old one away."

"Help" yelled George, "My $700 was in that box."

The old box had been tossed into the basement but a search failed to reveal George's frozen assets. His roommates tried to find it, but to no avail. So did the furniture movers. George was about to give up in despair when he thought of the police. A police sergeant came with an axe. He smashed the box. Inside a drain pipe he found George's cash—intact.

## OBITUARY

**DAVID FLEMMING.**

David Flemming, of Young's Point passed away yesterday afternoon at the residence of his cousin, Mrs. Mary Brady, 177 Douro Street, after a long illness. Mr. Flemming was 71 years of age, and was born in Peterborough, son of the late Mr. and Mrs. William Flemming. He had lived in Seattle, Washington, before removing to Young's Point two years ago. Left to mourn his passing are his brother, Robert of Chicago, his sister, Mrs. Phelan of Seattle, Washington, and a cousin, Mrs. Mary Brady of this city.

The funeral will be held from 177 Douro Street at 8.45 on Tuesday morning to the Immaculate Conception Church at 9 o'clock. Interment will be made in St. Peter's Cemetery.

**MRS. ROBERT CASEY.**

EAST EMILY, April 27 (Examiner Correspondence)—The death occurred this morning, after a short illness, of Mrs. Robert Casey, a life-long resident of Emily Township, at her late residence, three miles east of Omemee on the Lindsay Highway.

The late Mrs. Casey, whose maiden name was Mary Mills, leaves to mourn her loss her husband and three sons and one daughter: Allen of Mariposa, William of Peterborough, and Cecil and Flossie at home.

The funeral will be held on Wednesday afternoon at 2 o'clock from the family residence to Emily Cemetery, Rev. J. T. E. Blanchard of the United Church officiating.

## Sir Ronald Lindsay Will Visit Canada

WASHINGTON, D.C., April 27 (By Ken Clark, C.P. Staff Correspondent).—The itinerary for the first Canadian visit of the British Ambassador to the United States, Sir Ronald Lindsay, has been announced as follows:

Leaving Washington on April 30, Sir Ronald will arrive in Montreal Friday morning and will address the Canadian Club at lunch. On Saturday he will go to Ottawa, where he will stop until the 4th. He will address the Canadian Club and will be the guest of the Government at a dinner. On Tuesday and Wednesday Sir Ronald will be in Toronto, where he will make another address.

The Ambassador will be unaccompanied on his Canadian trip.

He will leave Toronto for Buffalo on the 7th.

## LAND VALUES TAX IS NEW FEATURE OF THE BUDGET

(Continued from Page 1)

$40,000,000 for unemployment benefits.

A special tax on motorcycles will be reduced from 30 to 15 shillings.

The Exchequer will come to the assistance of the road fund to meet cost of unemployment schemes.

A revenue tariff was rejected as a means of raising revenue.

The government will meet the deficit by means non-recurrent revenue and "temporary expedients"

No increase made in standard rate income tax.

Duty on oil increased by two pence bringing petrol duty to six pence.

An appropriation of $100,000,000 will be made from the $165,000,000 foreign exchange account kept in New York.

Recovery in stock exchange activities is looked for during the coming year.

A further drop in consumption of alcoholic liquors is looked for.

Re-adjustment in income tax payments provisions to increase revenue $50,000,000 within next financial year.

Prospects of trade recovery are seen by the Chancellor of the Exchequer.

**Chancellor Sick Man**

Mrs. Snowden kept an eye on him from the ladies gallery high above the speaker's chair and near her was a doctor and a nurse, for the "Iron Chancellor" is a sick man. Only a few days ago he underwent a serious operation.

Prolonged applause from the government benches and sympathetic cheers from the Opposition greeted him as he began to speak.

The Chancellor, who was looking remarkably well for a man just through a siege of sickness, began in good voice.

He foreshadowed considerable debt conversion operations during the coming year. Provisions would be made, he said, to cover considerable part of last year's deficit of £23,276,000 (approximately $116,880,000) from ordinary sources.

Mr. Snowden told the House that he looked for some recovery in stock exchange activity during the year.

The Chancellor estimated the yield of revenue for the next year on the existing basis of taxation at £766,000,000 (about $3,830,000,000).

He said that consumption of alcoholic liquors had fallen during the past year and that he had estimated for further falls this year "because a fall seems now to be a permanent tendency in the social habits."

He estimated expenditure for the coming year at £803,366,000 (approximately $4,016,830,000) leaving a gap of £37,366,000 ($186,830,000) to be filled.

This estimated deficit on the existing basis of taxation included £12,000,000 for derating operations and £8,000,000 for transational (unemployment) benefits.

The Chancellor said he intended to introduce a special tax on motor cycles and added that it would be necessary for the Exchequer to come to the assistance of the road funds to meet the cost of schemes for unemployment. Provision would be made to enable loans to be raised for this purpose.

Mr. Snowden said he rejected a revenue tariff proposal as a means of obtaining the additional revenue needed.

This, he declared was a method of relieving the rich at the expense of the poor and amounted to an indirect attack on wages.

"I shall never be a party to any such proposal," he said.

He indicated that he would meet the deficit by means of non-recurrent revenue and temporary expedients, owing to prospects of trade recovery.

There will be no increase in the standard rate of the income tax, he said.

By arrangement with the bank of international settlements, he would appropriate $100,000,000 of the $165,000,000 foreign exchange account. This fund is commonly called the dollar exchange account and is kept in New York.

**Increase Duty on Oils**

"I have come to the conclusion" he said, "to increase the duty on oil as from to-morrow by two pence."

This increase would make the petrol duty six pence instead of four pence as at present.

While there would be no increase in the standard rate of the income tax, certain sections of income tax payers would lose the concession of paying in equal semi-annual instalments, the Chancellor said.

They would pay three-quarters of the tax on January 1 next, with the second instalment of one-quarter payable on June 1, 1932. This would give the treasury an extra quarter of a year's revenue—about $50,000,000—within the financial year.

# More British Interest Is Wanted In Canada

## FERGUSON MAKES PLEA AT LEEDS LUNCHEON CLUB

High Commissioner Claims Situation in Canada is Worth Serious Thought.

CO-OPERATION LOOKED FOR.

Points Out That Britain Has Only $1,000,000,000 of $4,500,000,000 Invested in Dominion.

LEEDS, Eng., Apr. 28.—An appeal for increased British interest in the development of Canada was made by Hon. G. Howard Ferguson, Canadian High Commissioner to Great Britain in addressing the Leeds Luncheon Club yesterday.

"I have been coming to England for a number of years" said Mr. Ferguson, "and I have come to the conclusion that there was an unfortunate lack of knowledge of Canada's importance to the Empire and her desires and attitude on imperial questions."

"It was worth serious thought from people in England that the Dominion was a country thirty times the sizes of the British Isles available for development and looking for co-operation, he said. What was happening at present was that out of $4,500,000,000 invested in Canada from outside sources, $3,500,000,000 was American capital and barely $1,000,000,000 from this country. "Think of the insidious influence in that connection with its introduction of American executives, American methods and contacts," continued the Canadian High Commissioner. "Here was a country bubbling over with opportunities and there were people from the great Republic standing about to take advantage of them."

**Ferguson's Mission.**

"My mission is to endeavor to arouse in the minds of the people of

## GIRL GETS 6 DAYS ON THEFT COUNTS

Brantford Judge Lenient When Told of Jobless Husband, Baby in Family.

WANTED IN HAMILTON.

BRANTFORD, Ont., April 28.—(C. P.)—When Frances Alisbury, alias Lewis, walked into the court room to face Magistrate Jones to-day, the legal counsel and spectators were very much surprised to see just a young girl, well groomed but certainly not as well nourished, face the charges of theft of money and purses from dental and beauty parlors.

The girl pleaded guilty to four charges. She was represented by her counsel, E. C. McIntosh, Kitchener, who made a plea for leniency telling a dramatic story of the girl's misfortunes. Her husband was suffering from tuberculosis, there was one child and the family was without funds. His Lordship took a merciful view of the case and the girl was sentenced to six days in jail, the sentence to start from the time of her arrest.

She is also wanted in Hamilton and Paris on similar charges.

## *Norwood Boy Wins O.A.C. Scholarship*

The results of the final examinations for 1931 at the Ontario Agricultural College, Guelph, for the degree and associate courses have been issued, and sveeral local students have been successful candidates.

A scholarship of $25 was awarded for proficiency to F. A. Stinson of Norwood, first year degree class, Group 2, who had an average of 83 per cent. In the first year associate class, W. C. Outram of Peterborough went down in only one subject: chemistry. Successful students in the first year degree class were F. A. Stinson, A. F. Gardiner of Norwood, and H. A. Horton of Peterborough. Three were given passes in the intermediate year: A. S. Mervin, of Peterborough, N. D. Hogg of Orono, and H. I. Seymour of Ida. R. C. Rosborough of Peterborough obtained second place in the third year examinations.

## 16-Room Colonial House Brings $8

**TOWNSEND, Mass., April 28.—A sixteen-room Colonial house, dating from 1827, was sold here the other day for eight dollars, fireplaces and all. Frank Bennett of Ashby bought the house at an auction held by the town. John McLean purchased a barn for one dollar; and Martin Dudley acquired a summer house for $3.50.**

**No sudden depreciation in values has taken place in Townsend, but the community wanted the ground as a school site, and the buildings had to be moved. Prospective buyers were few, because a large chimney running through the centre of the house made moving a difficult proposition. The town readily accepted the eight dollar bid.**

## CAR MISSES TURN TWO ARE KILLED NEAR FREELTON

Hamilton Lawyer and Insurance Adjuster Die Instantly in Terrific Crash.

MACHINE TAKES FIRE.

Victims, Hurled Through Roof, Found 40 Feet Away by Traffic Officer.

HAMILTON, Ont., April 28 (C.P.).—When their car failed to negotiate a Y curve on the Guelph Highway, one mile north of the Village of Freelton, last night, Hugh McKenna, promient lawyer of this city, and Alexander Johnston, insurance adjuster, were hurled to instant death.

The two men were returning from Guelph to Hamilton and the car is believed to have been travelling at a fairly rapid pace. When they reached the curve beyond Freelton, the automobile negotiated the turn partly, then skidded and went out of control. Marks on the road revealed it slid about two hundred feet, then left the pavement and crashed into a telegraph pole. Then it hurtled off, and proceeded further along the side of the road to end up with a terrific impact against a tree.

The two passengers were hurled through the roof of the vehicle and landed on the ground forty feet from the car. After the crash, the automobile burst into flames and was consumed.

**Glare Attracts Officer.**

The tragedy was discovered by Motorcycle Officer Fred Culp, who passed along the road at what he estimated to be about fifteen minutes after it had occurred. He had been attracted to the spot by the glare from the blazing car and on searching found the bodies of the two men

(Continued on Page Five)

## COMMONS' RULES ON NON-VOTERS MAY BE AMENDED

Bourassa Expected to Move That Members' Action Be Optional.

STATE MEDICINE ARGUED.

Tendering For Burial of Dead War Veterans Denounced in House.

OTTAWA, On., April 28. (CP)—The House of Commons to-day will probably have an opportunity to amend its own rules.

Parliamentary procedure dictates that if a member is in his seat when a vote is called, he must register his vote. At times honored in the breach rather than in the observance, the rule caused a serious situation last Tuesday when, acting upon a precedent permitted by a former Speaker, eleven members refused to vote on the amendment to the address in reply to the speech from the throne. The situation was then adjusted temporarily; but on Wednesday Henri Bourassa (Ind. Labelle), one of the members concerned, gave notice of a motion the effect of which would be to eliminate this compulsion and make a member's action optional.

**Gov't Business**

When this is disposed of, the House will consider Government business. Attention will again be drawn to the matter of providing compensation for Government employees not members of His Majesty's forces—in the event of injury or death arising out of and in the course of their employment. When last before the House some discussion developed over the clause which sets forth that the compensation award will be in accordance with the terms prevailing under the provincial act in the province where the accident occurs. The disparity in the various workmen's compensation acts was the ground of contention.

A proposed amendment to the Customs Act in respect of discounts allowed in estimating value for duty purposes of providing for power to examine witnesses under oath and of imposing penalties for smuggling operations, will be presented as a preliminary resolution and explained by the minister of National revenue, Hon. E. B. Ryckman.

Following that, the Commons will go into Committee of Supply, taking up again the estimates of the Public Works Department.

Yesterday was listless, in spite of three divisions. Little was accomplished beyond clearing the order paper of three private members' resolutions. A somewhat protracted debate ensued from that sponsored by Dr. J. P. Howeden (Lib., St. Boniface) in which the Manitoba member sought an opinion respecting State medicine. He advocated strongly that some system be developed, with

(Turn to page 6, please.)

## Hopes to Pilot Her Famous Father

**The latest celebrity to join the ranks of the air students is Miss Ishbel MacDonald, daughter of the British Prime Minister, who is here shown with her instructor, Captain C. D. Davis, about to hop off for her first lesson at Brooklands, England. Premier MacDonald frequently travels by aeroplane and his daughter's ambition is to pilot him on future occasions.**

## WOLVES ATTACK HERD OF CATTLE

Pack in Somerville Township Grow Bolder as Deer Become Scarce.

APPEAR IN DAYTIME.

LINDSAY, Ont., April 28. (CP)—A pack of several wolves attacked a herd of cattle in Somerville township, in the northern part of Victoria County, on two nights last week, and although none of the cattle was killed, three had their flanks badly torn, one had a fore-shoulder rip, another had most of its tail torn off and another was found in a swamp almost dead from exposure and fright. One of the wolves was seen walking between the barn and house in broad daylight.

M. H. McCallum, Fenelon Falls authority on wild life says the deer in this district have been wiped out by the wolves, farmers can keep sheep no longer unless they stand guard over them or keep them locked up, as the wolves are becoming more numerous, farmers can expect considerable trouble from now on, with wolves chasing their cattle.

**CREW PREPARE DO-X FOR FLIGHT**

LAS PALMAS, Canary Islands, April 28. (AP)—The crew of the DO-X giant Dornier seaplane, were active to-day in preparations for resumption of their trans-Atlantic flight.

The next lap of their hitherto frequently interrupted journey will be to Rio de Oro and from there to Bolama, Portuguese Guinea, from where they will begin the jump across the Atlantic proper.

## *H. Milner Appeals $33,000 Judgment*

TORONTO, Ont., April 28. (CP)—Harley Milner and Co., Toronto brokers, against whom Mr. Justice Garrow gave judgment for $33,000 in the action brought by Lewis Lewison Hamilton, and Jacob J. Dubey, Toronto manufacturer for $40,000 as commission in an option transacted, appealed in the Second Appellate Court, through their counsel, W. N. Tilley, K.C., at Osgoode Hall, today. Judgment was reserved.

## UNKNOWN MAN DIES OF POISON

Victim Drinks Carbolic Acid, Then Leaps in Front of Car at Hamilton.

HAD ONLY TWO CENTS.

HAMILTON, Ont., Apr. 28. — An unidentified man, determined to die, was granted his wish in the General Hospital during the night when he succumbed to poison which he had gulped from a bottle. Standing at King and James Streets last night, with scores of passers-by near him, the man raised a bottle of carbolic acid to his lips, drank deeply, spat some of the burning acid on the pavement, and then hurled himself beneath the wheels of an automobile. The driver halted the vehicle in time, and the traffic officer on duty, believing the man intoxicated, summoned the patrol.

It was then noted that he had taken poison and he was rushed to the hospital where death occurred several hours later.

The deceased is described as being about 33 years of age, and five feet six inches in height. He wore a brown suit, marked with the tag of a Montreal manufacturer, and brown shoes. Only two cents were found in his pockets.

## GOV'T DOWNFALL IS BEING SOUGHT BY LAND OWNERS

Result of New Land Tax Scheme Creates Desire For Conservative Ministry.

BE DIFFICULT TASK.

Snowden's Plan Likely to Have Backing of Liberal Group.

LONDON, April 28 (C.P.).—Among British land owners to-day there appeared an increasing determination to bring about the fall of the Labor Government and to replace it with a Conservative ministry. Upon this class, if the Government is not displaced during the next two years, is expected to fall the brunt of a new tax of one penny on the pound valuation in land values, notice of which was given yesterday by Rt. Hon. Philip Snowden in an otherwise unspectacular budget speech.

The task of upsetting the Government on this issue alone will be doubly difficult, since a similar proposition once was fathered by Rt. Hon. David Lloyd George, Liberal leader, and although later abandoned, is understood to have his sympathy and that of his Liberal following, who hold the balance of power in the House of Commons.

**Proposal Unexplained.**

Mr. Snowden's proposal went unexplained and several papers withheld their comment until the Government's project was broadened upon, but the Times recalled that the proposal "was invented by Mr. Lloyd George when he was Chancellor of the Exchequer and was abandoned by the Cabinet of which he was a member." It goes on to describe Mr. Snowden's proposal as a "discredited form of impost."

The Ministerialist Herald said that the tax was not to apply to agricultural land, and that in any case the tax would not fall exclusively upon large hereditary landowners, a great part of whose holdings consist of well-farmed agricultural lands, but would also hit the urban building speculator and people of moderate means who have bought homes for their own use.

The Chancellor's proposal to take $100,000,000 from the dollar exchange fund in New York to balance his budget elicited little criticism of any sort beyond being hailed in some quarters as a stop gap measure.

## Falls In Channel Trying to Climb Hard Clay Bank

David Alexander, Who Had Been Employed on Dredge Working in Scugog Marsh Becomes Lost in Maze of Channels and Craft Runs Out of Fuel.

MISHAP OCCURS AS VICTIM, NUMBED WITH COLD, TRIES TO FIND BEARINGS BEFORE DARKNESS ARRIVES

Coroner Mathers Piecing Lone Tragedy Together Claims Youth Fell From Craft, and Weakened, Was Unable to Scale Mud Piled High Along Bank.

PORT PERRY, Ont., April 28 (C.P.). — Numbed by exposure to the cold, wind, and rain, David Alexander, 21-year-old Scottish youth, perished in a vain attempt to climb over a clay embankment of a channel through the Lake Scugog marsh where he had been trapped when he fell from a motor boat. The body of the young man was taken from the waters of the recently dragged channel yesterday, and it appeared he had slipped from the bank into the water and had been drowned.

There were no witnesses to the lone tragedy in the lake and marsh where the young man met his death, but according to a doctor who investigated, it was suggested his death had come after a vain struggle to climb out of the chilling water of the lake.

Alexander who had been employed on the dredge clearing the channel left with his employer's motor boat on Sunday, and not being acquainted with the operation of the craft, he left without taking a paddle for emergency.

**Became Lost in Channel.**

It is believed he became lost in the channel and the motor failed. Caught by darkness and lacking sufficient clothing, Alexander had attempted to get the boat somewhere near dry land, and had apparently fallen out. He managed to reach a bank of earth cast up in dredging the channel, but was prevented by the slippery surface from getting a foothold to climb from the water.

Finally, according to Dr. J. A. Mathers, who investigated, he had become numbed by exposure and slipped back into the water, where he died.

## HIGHWAY WAGES ARE NOT REDUCED BY COMMISSIONS

Motion to Reduce Wages is Defeated at Joint Meeting of Two Commissions.

10 HOUR DAY.

Teamsers Will Get $6.00 Per Day and Laborers $3.

Wages on the road systems under the management of the Suburban Area commission and the County Roads Commission will not be reduced this season.

At a joint meeting of the two commissions on Saturday a motion by Reeve Henry Coons of Smith, seconded by Deputy-Reeve W. G. Waterman, setting the following scale of wages was defeated:

Team and man ..... $5.00 a day
Foremen and mechanics. $4.00 a day
Laborers ..... $3.00 a day

Ten hours constitute the working day in the county's road building. The division on the motion was: Yeas, Coons and Waterman; nays, Sanderson, Smithson, Kitney and Gainey.

The members of the Suburban Area Commission are: C. F. Kitney, chairman, M. E. Smithson and M. H. Gainey; and the members of the County Roads Commission are Reeve John Leahy of Douro, who was chairman of Saturday's meeting, Reeve Richard Sanderson of Havelock, Reeve James Hawthorne of Dum-

## FLIER LOSES WAY CRASHES IN GALE

Airman Headed For New York From Chicago Driven 200 Miles Off Course.

LANDS NEAR DESBORO.

OWEN SOUND, Ont., April 28. — (CP)—Lyman Voelpel, Chicago airman who lost his way on Monday afternoon while enroute from Detroit to New York, being driven more than 200 miles out of his course when he ran into a series of snow storms and finally crashed on a farm near the little village of Desboro, about half way between Chatsworth and Chesley, is still resting in the hotel at Desboro to-day.

He miraculously escaped serious injury when he loosened his life belt and was catapulted from the plane, just as it hit the ground on an angle and escaped with a minor scalp wound.

The plane being an open Travel Aid biplane Voelpel was chilled through and through, and it took some time after he had been attended by Dr Carson before he became comfortable.

An examination of the plane revealed the fact that it can be repaired, but will be shipped by train or truck to Detroit.

Voelpel who was flying for the Warner Bros., air transport company of Detroit hoped to land at Buffalo before proceeding to New York, but the storm, aided by a bad compass drove him away off his course.

## CANADIAN MONEY IS NOT WORTH SAWDUST WEIGHT MOROCCO STATE

American Dollar is Only Worth Ten Francs—Sinclair Starts New Bank.

SCENES OF BEAUTY.

By GORDON A. SINCLAIR

RABAT, Morocco, April 4.—(Copyright, 1931).—Here's one capital city in this gay old world which neither appreciates, respects or covets the American dollar. Merchants don't go so far as to refuse it. They'd even accept Mexican money or Roman-off rubles, but they tack on plenty extra if they discover you wish to pay in U.S. money and trim their price to the very bottom if you are willing to pay in French francs.

**Bought American Silver.**

The franc is currently worth four cents, the U.S. dollar worth 100 but I had a delightful morning buying in American silver at ten francs to the dollar which is a discount of 60 per cent and will probably make some senators view with alarm. The trouble is, however, that you can't buy actual dollars at this delightful discount. You must take silver. Then you take the silver to a bank and

## Five People Fed For $9.45 Weekly

**BOSTON, Mass., April 28. — Thousands of families are living on a healthful diet costing only 27 cents a day for each person, Miss Blanche F. Diamond, nutrition supervisor of the Boston Community Health Association, told the Association's committee on nutrition.**

**A family of five could be fed for a week on a grocery order costing $9.45, she said. This figure represented the average prices at different grade stores and could be reduced by careful shopping. It also represented family, and not quantity, buying. Provision for a small amount of meat was included.**

**Food money should be divided into fifths, stated Miss Diamond: one part for vegetables and fruit, one-fifth or more for milk and cheese, one-fifth or less for meat, fish and eggs, one-fifth for bread and cereals, and one-fifth for fats, sugar and other groceries.**

**NINE WORKMEN KILLED**

MAGREBURG, Germany, Apr. 28. —(AP)—Nine workmen were killed and nine seriously injured in an explosion and fire in a sugar factory here today.

## 200,000 CORDS OF PULPWOOD HELD FOR SALE IN NORTH COUNTRY

Retail Business Greatly Hampered by Lack of Funds in North.

WORTH MILLION DOLLARS.

Two hundred thousand cords of pulpwood in the hands of jobbers and farmers in Haliburton and the northern section of Victoria County have seriously affected industry and business over a large area of the immediate north country, a recent visitor told The Examiner to-day.

The value of the unsold pulpwood is estimated at one million dollars, a large sum to be temporarily withheld from the channels of trade in the northern counties. Retail business is hampered by the lack of ready money which is ordinarily available from the cut of pulpwood, and the amount of credit on merchants' books is said to be considerably heavier than usual. This industry is an important asset in Haliburton. It is one of the most remunerative activities in that section.

## *Masked Bandit Fails In Taxicab Holdup*

TORONTO, Ont., Apr. 28.—(CP)—Masked with a white handkerchief, an armed man walked into the garage of a local taxicab company early today and fired a shot at George Agar, one of the night drivers, before demanding the money in the place. Agar, after dodging the armed man around a dozen cars, escaped from the garage and called the police. But meanwhile the gunman had vanished without taking any money.

**AMENDMENT PASSED.**

CANBERRA, Australia, April 27 — The Commonwealth Bank Act amendment, empowering the Government to use the bank's gold reserve to meet Australia's liabilities abroad was passed to-day in the House of Representatives.

## ARREST MADE IN BANK THEFT CASE AS SUSPECT EMERGES FROM BUSH

Montreal Teller Absconding With $5,000 Captured Earlier When Car Crashes.

TWO COMPANIONS MISSING.

MONTREAL, Que., Apr. 28.—(CP)—Chief Lepine of Ste. Anne de Bellevue, on watch at the scene of the automobile crash yesterday which solved the mystery surrounding the theft of $12,000 from the Banque Canadienne Nationale earlier in the day, arrested a man who gave the name of Joseph Hadelle as the latter emerged from the woods this morning. He is believed to be one of the two men, who, with a woman, accompanied C. E. Latour, teller of the bank, who was discovered in the wreckage of a car with his leg broken, yesterday. Latour, his clothing padded with $5,000 in bills, is alleged to have told police that he and his companions had been attempting to leave Montreal in a new automobile when the crash ended their flight. Hadelle had $1,000 in cash on his person when arrested. Police stated that they had the names of the man and woman who were still missing.

**Taken To Hospital**

Taken to hospital under guard Latour is alleged to have told police that he was assisted by two men and the wife of one of them, and that the three deserted when the car was wrecked against a tree near St. Anne de Bellevue yesterday afternoon.

The theft was discovered when Latour failed to return to his duties after lunch. The teller is said to have told police that he had passed our $7,000 to his accomplices when

(Turn to Page 5, Please)

## *Inquest On Friday Into Arden Tragedy*

KINGSTON, Ont., April 28 (C.P.) —The inquest into the death of Freeman Newton, Rockwell Newton, and Archibald Scott, who were instantly killed when the truck in which they were driving was struck by the C.P.R. west-bound express near Arden on Monday, will not be held until Friday afternoon at Arden.

Witnesses have been summoned, but owing to the absence from the city of Crown Attorney T. J. Rigney, the date of the inquest was held over until Friday.

## *Newsboys Arrested By Fascist Authorities*

ROME, April 28. (CP)—The Government's immediate reaction to-day to the Pope's letter published in yesterday's Osservatore Romano, in which he warned that the Fascist regime must follow the teachings of the church, was to arrest the news vendors who shouted the contents of the paper on the streets.

The paper itself, which often is used to disseminate official announcements from the Vatican, was not suspended, but the newsboys who shouted, "Pope's Open Letter" received suspended sentences of six days each and a warning that in future they must sell the Osservatore Romano without calling attention to its contents.

## *Tweed Would Test 6-Hour Working Day*

KITCHENER, Ont., April 28 (C.P.) —S. C. Tweed, Member in the Provincial Legislature for North Waterloo, believes that to solve the unemployment situation one of the first steps that ought to be taken is the introduction of a six-hour working day, in two shifts if necessary. In an interview to-day he urged the call of a meeting of municipal representatives by the Premier to discuss the institution of the six-hour working day on Government and Municipal jobs. He also believes that the introduction of the six-hour-day in industries would be practical in the majority of cases. Unless the six-hour day is adopted the member fears increased demands for relief next winter.

# Train Strikes Car Three Are Killed

## AUTO STOPPED THEN PROCEEDED TO CROSS TRACK

### Three Young Men Are Instantly Killed Near Ardendale By C.P.R. Express.

### OPERATED GARAGE.

### Crossing Considered Safe as There is Clear View in All Directions.

HAVELOCK, April 28 (Examiner Correspondence). — When the brakes of their car failed and allowed three young men to be carried on to the right-of-way on the C.P.R., about 45 miles east of here, at Mileage 35, just east of Ardendale Station, Freeman Newton, his brother Rock Newton, and a chum Arthur Scott, all of Ardendale, were instantly killed at 1.05 on Monday afternoon by passenger train Number 35, Montreal to Toronto express.

The three young men, all in their early twenties, had recently decided to open a repair garage in Ardendale, and with this end in view had erected a small building where they intended to install a gasoline tank and do repair work.

Everything was ready for business, the car, a touring converted into a truck, was pressed into service to round up a stove, as the weather was too cold to dispense with that adjunct in their repair shop. The stove was purchased, and the three were on the return trip, two of them in the cab of the car, with Scott standing on the platform of the truck holding the stove.

**Aware of Train.**

About five hundred feet from the garage, where the three had high hopes of earning a living for the summer months at least, the railway crosses the road. The boys were well aware of the oncoming train, travelling at this point at about forty-five miles an hour. The whistle blew the usual four blasts, two long and two short, and the bell was ringing continuously as is the custom at level crossings. The car slackened and came to a stop a short distance from the tracks. The road at this point slopes with a sharp downward grade to the railway. Fireman William Fraser of Havelock, was on the lookout and saw the car stop; suddenly he noticed to his horror that the car had again started moving and seemed to glide right in to the path of the oncoming train. The brakes were applied immediately, but it was too late. The car was hit broadside and demolished by the terrific impact.

The train was brought to a stop about ten telegraph pole lengths from the crossing.

The bodies were not thrown clear as in most accidents of this kind, but remained on the pilot of the engine. Two of them were well back and the third resting on the operating lever. All were badly battered and it is thought death was instantaneous. The car was pushed ahead of the train and reduced to junk.

The engine crew cannot understand why the young man in the back of the car did not jump, as he could have done so with safety, and seemed about to do this when the car started to move towards the track.

The train was in charge of Conductor Samuel Cross of Toronto, and had as an engine crew Peter Haig, engineer, and William Fraser, fireman, both of Havelock. Ross Webb, also of Toronto, was trainman. The bodies of the unfortunate young men were brought to Ardendale Station. No one saw the accident except the engine crew. An aged lady living near the crossing heard the crash, but was unable to see what happened. The crossing is considered a safe one, as there is a clear and unobstructed view from all directions. The engine was Number 2206, and on its arrival here bore evidence of the terrible tragedy.

## Scullen Asks Senate To Pass Bank Act

CANBERRA, Australia, April 28.—(AP)—Premier Scullin, speaking before the House of Representatives today, made an earnest plea for expeditious adoption of the Commonwealth Bank Act. The act, which would place the bank's gold reserve at the Government's disposal, embodies his hopes of saving Australia from an interest payment default.

He announced his intention to rush the measure, which already has passed its second reading. He said that he had been advised it would be impossible to renew or re-issue $25,000,000 in treasury ills which are falling due in London June 30, the only way to avoid default being to ship the money to London, which the bill authorizes. He commented that he trusted the Senate would pass the measure.

## Royal Family Before Leaving Spain

**SPANISH QUEEN AND CHILDREN LEAVE FOR EXILE**

The photograph reproduced (above) shows the former Queen of Spain, (centre) with two of her children, Infanta Christina and Infanta Juan looking from the window of the railway carriage at Madrid prior to the start of their journey into exile, following the collapse of Alfonso's throne. The queen looks here as she did throughout her enforced journey to France, sad, and at times on the brink of tears.

## ITALY TO BOOST RUSSIAN TRADE

### Interchanges Under New Commercial Treaty Expected to be Doubled.

### SOVIET NEEDS OIL TANKERS.

ROME, Apr. 28.—(AP)—Under the terms of a renewal and expansion of 1930 the Italo-Russian Commercial Treaty signed yesterday commercial interchanges between the two nations are expected to be almost doubled the remainder of 1931.

The original convention, dated August 2, 1930, provided that Italy would furnish 200,000,000 lire worth of goods to Russia, which was in turn granted the privilege of selling oil and coal in Italy at a price below the world market.

The amount of business specified was done in the first eight months thereafter, making unnecessary the renewal, which increases the amount for the next eight months to 350,000,000 lire (about $18,500,000).

The original idea was for the amount of Italian goods sold in Russia to be increased to 350,000,000 lire the second year of the treaty and to 500,000,000 the third year, but Russia, under the impetus of its five year plan, had to buy more than anticipated, resulting in the credit established being exhausted in the first eight months of the first year.

There are reports here that Soviet Russia plans to establish supply stations for its oil in Italian ports making Italy a base for operations in the Mediterranean. Italy is expected to supply Russia's increased need for oil tankers.

FALSE TEETH ARE A GREAT INVENTION but KEEP YOUR OWN AS LONG AS YOU CAN

Ten years too late most people seek *Protection*

The greatest mistake you can make is to wait until gums are swollen and spongy before you begin to think of pyorrhea. A famous British doctor states that many people have this disease for ten years before the symptoms appear.

And pyorrhea is to blame for half of all adult teeth extracted. Protect yourself now from this disease of neglect. You should, of course, see your dentist twice a year.

And, in addition, keep teeth clean—massage the gums—with Forhan's, the dentists' dentifrice. It was originated by R. J. Forhan, D. D. S., a specialist in pyorrhea.

Brush your teeth at least twice a day with Forhan's, for it is a mild, safe, scientifically correct cleanser, which restores your teeth to their natural gleaming beauty.

At the same time, use Forhan's for massage (full instructions with every tube). It is specially prepared to tone up the gums when applied with gentle rubbing, and to awaken sluggish circulation. The health of the gums depends on this circulation. Only when they are firm and strong can they hope to resist infections which bring such trouble to almost every adult later in life.

Here, then, is double protection in Forhan's—a protection which every member of the family should have. Adopt Forhan's as your dentifrice: it comes in two sizes, 35c and 60c—just a few cents per tube more than ordinary toothpastes, and exceedingly well worth it. Forhan's Ltd., Montreal.

FORHAN'S FOR THE GUMS

Any mouth may have pyorrhea and as it is the odds are 4 out of 5

## POLICE SEIZE RED LITERATURE

### Bundles Contained Propaganda For Distribution on May Day in Winnipeg.

### COMMUNISTS DEFIANT.

WINNIPEG, Man., April 28 (C.P.). — In a raid on Communist headquarters, a squad of police constables last night seized several bundles of The Worker, a Communist publication.

The bundles, it was said, contained 15,000 copies of the paper, a special edition which was to have been distributed in connection with the May Day celebration here.

Police authorities declined to comment on the raid, but Communist leaders expressed defiance, declaring "We are going to distribute literature and bring the message of the Communist Party to the workers."

"Tactics to suppress us are similar to those which were adopted by the Czar of Russia,' 'declared I. Minster, prominent local Communist. 'And what happened to him? The same will happen to Canadian capitalists."

## EAST SEEKING RECIPROCITY WITH ONTARIO

### Buy Coal and Steel From Nova Scotia, East Asks Ontario

### SUPPORT IS ASKED.

SYDNEY, N.S., April 28 (C.P.).—A policy of "interprovincial reciprocity" was asked of Ontario by the Sydney Board of Trade in special meeting yesterday. The resolution unanimously endorsed by the board, while it calls for all "reasonable steps" to impress on Central Canada, particularly Ontario, the importance of purchasing products of the Maritime Provinces, make no direct reference to the invitation issued by L. L. Snell, Sydney bread manufacturer, to join him in refusing to buy in Ontario until the Province purchases Nova Scotia steel and coal.

Mr. Snell, whose views appeared in newspaper advertisements Saturday, and provoked much comment from Cape Breton to Ontario, in a statement to the board, declared the Maritime Provinces "spend approximately $100,000,000 in Ontario yearly," while on the other hand, the greater portion of Maritime products are sold in Quebec. In view of this situation he felt that if Ontario would not buy a greater amount of the products of the Maritimes, particularly steel and coal, that Province was not entitled to such a large share of Maritime business.

**Protected Goods.**

"Much of the goods we buy from Ontario enjoys a very high protection," he said.

"In return they cannot see their way clear to overcome the economic difficulty the purchase of our coal entails, then, I say, and I am going to practice this policy: 'Buy our requirements where our coal is sold! I am particularly anxious that this be not referred to as a boycott. I would call it interprovincial reciprocity."

A. N. McLennan, board member, and John A. Young, prominent ship broker, were in accord with Mr. Snell, but felt that less drastic steps should be taken. It was suggested that more information regarding the amount of purchases made by Ontario in the Maritimes be secured.

## Stenographer Chided Then Slays Her Boss

MEXICO CITY, April 28.—(A.P.)—Cardo Vargas Diaz, office manager of the Comptroller General's Department yesterday chided Senorita Irene Barorn, a girl stenographer, for a dereliction in her work.

The girl, flashing her black eyes at him, took her revolver from her hand bag and shot him. Then, realizing what she had done, turned the gun on herself and committed suicide.

Vargas, who was wounded in the head, may die.

## BUS QUESTION IS LEFT OVER

### Matter of Student Transportation Left to Committee for Investigation.

### CAMPBELLFORD BOARD.

CAMPBELLFORD, April 28 (Examiner Staff Correspondence). — The regular meeting of the Campbellford Board of Education was held last evening in the Public Library, with the Rev. N. Clark Wallace in the chair. D. J. Lynch reported that he had written the Railway Board on behalf of the Town Council and the Board of Education in regard to the change of train schedule, and had received a reply to the effect that the proposed change would not take place. Rev. Wallace, reporting for the committee handling the train schedule matter, stated that when the Board had been notified that no change would be made no action was taken in regard to a bus service.

The question of a bus service for the coming season was discussed by the Board in deatil, it being felt that if one were established an increase in pupils attending the High School would be the result. G. O'Sullivan pointing out that the fine results obtained at the school had been the factor that had caused its growth.

This discussion ended in a motion being put by Dr. H. O. Richardson and W. Cook that the matter be left with the Internal Committee to investigate and report to the Board on. This was followed by an amendment by J. Loucks and G. O'Sullivan that a committee composed of T. E. Hall, Dr. O. C. Watson, Principal E. H. Greig, A. G. Thompson, Dr. H. O. Richardson, and G. A. Kingston be named to organize a canvass of pupils with power to contract for a bus service subject to the ratification of the Board. On the question being put, the amendment carried.

J. Massie, caretaker of the school, addressed the Board pointing out that the paint on the frames and sashes of the High School was in a bad shape and should be seen to at once, these frames being of steel and easy to rust.

Principal Greig also addressed the Board urging that a toilet and wash basin be installed in the ladies' room at the High School for the use of the lady teachers, pointing out that at present there was no proper facility for them, and that this addition could be easily installed.

Dr. H. B. Longmore also brought up a matter which had been under consideration by the Board before. This was the advisability of installing electric fans in the auditorium of the school. He pointed out that this hall was used by the public and that a proper system of ventilation was necessary.

All these matters were left to the Property Committee to investigate, with power to act.

Principal C. Haig of the Campbellford Public School asked the Board for permission to purchase medals for the officers of the Cadet Corps. On motion permission was granted.

## ORDER ATTACK UPON FUNCHAL

### Raid on Rebel Wireless Station is Victor For Gov't Forces.

### 7 PRISONERS TAKEN.

LISBON, Portugal, Apr. 28.—(AP)—An immediate general attack upon rebel forces at Funchal, Madeira, was ordered today by the war council of superior officers of the Lisbon expeditionary force to the island group.

The expeditionary force is using the nearby island of Porto Santo as a base for its operations against Funchal, which has been in the control of a rebel Junta for the past month.

A raid on the rebel wireless station at Sao Lourenco, outside Funchal, yesterday met with complete success, the Government claiming to have dismantled the station, which was feeding "fantastic" reports to the world.

The Federal troops captured seven prisoners from among the group of 75 rebels who defended the station.

## SYDNEY JUDGE RECEIVES BOMB

### Other Notables Sent Packages But Timely Warning Prevents Tragedies.

### CLUMSILY MADE.

SYDNEY, N.S.W., April 28.—(A.P.)—Small, clumsily made bombs were delivered through the mail to-day to Chief Justice Sir Adrian Knox, the division manager of the Bank of New South Wales, which closed last week, Warwick Farfax, owner of the Sydney Herald, and other prominent persons.

Their explosion was averted, however, when a person whose identity was not revealed, warned police and they forestalled opening of the parcels.

The packets were found to contain cans of gun powder and a rather roughly made ignition apparatus. Opening probably would have caused blindness or other injury but not death.

The police informant told a story accounting for his knowledge of the infernal machines but police have not accepted it.

**CRUISE IN BALTIC SEA.**

LONDON, April 28 (C.P.). — The Daily Express said to-day that a British naval force, including the battle cruisers and destroyers, had been ordered to cruise in the Baltic in June, possibly returning by way of Kiel Canal and visiting with the German fleet at Kiel. This would be the first ceremonious meeting of the two fleets since the Great War.

Don't miss "Dracula" at the Regent Theatre on Wednesday, Thursday and Friday of this week. The Examiner Cheer Fund gets twenty-five per cent. of the receipts for relief work.

**BROKER LOSES APPEAL.**

MONTREAL, Que., April 28 (C.P.).—The appeal of Maurice J. Boulianne, Quebec broker, against his conviction and sentence for false pretences, was dismissed by judgment of the Court of Appeals here to-day. The judges of the court dismissed the appeal with only one dissenting.

Congress Hall, the London home of the Salvation Army, where 15,000,000 are said to have attended meetings, has just been reopened after its $150,000 reconstruction.

Four-fifths of the foreign eggs eaten in Argentina are from America.

**ALFONSO DECLINES TO LIVE IN IRELAND**

LONDON, April 28.—(AP).—The London Daily Mail today said that the Irish Free State had invited Alfonso, deposed Spanish Monarch, to reside there, but that he declined the invitation.

Many Irish people claim Spanish ancestry, dating back to the Spanish Armada, some ships of which were wrecked on the Irish coast

# BRITISH EMPIRE EXHIBITION MEETING WITH HUGE SUCCESS

**B. M. Bellasis, a Former Resident at Young's Point is General Manager of Exposition.**

**WIRES DESCRIPTION.**

B. M. Bellasis, formerly a resident on his father's summer resort near Young's Point, and at present general manager of the British Empire Trade Exhibition, has given an account of the success of the Exhibition to the London (England) Daily Telegraph. This feature story, appearing in a recent edition, was transmitted 6,200 miles over the ocean from Buenos Aires to London by wireless telephone.

Although Mr. Bellasis was born in India, he spent a few of his early years near Young's Point, where his father owned and operated a popular tourists resort on the lakeshore. He attended the Grove School, Lakefield and was later educated in McGill University and through a long series of promotions has attained the high position which he now holds.

The following is a verbatim report of Mr. Bellasis' talk given over the phone and reported in London:

"I have had long-standing connection with exhibitions, and I have never know exhibitors so universally satisfied as they are with this one. In every section of the Exhibition firms are being inundated with enquiries, and a huge number of orders are being booked.

"Not only from Buenos Aires and the Argentine come the visitors, but from all parts of South America—from Chili, Bolivia, Brazil and other countries of the continent. Up to the present 850,000 people have attended the Exhibition.

It is difficult to give details of the trade which is being done until the end of the exhibition, but I can provide some indication of what is being done and of the permanent beneficial results to British Trade in South America, which, I am confident, will be accomplished by this great Empire show.

"One firm dealing in agricultural machinery say they will be engaged for a whole year in following up the enquiries they have already received. Another firm, selling textiles, stated that if they had been selling retail they could have disposed of thousands of pounds worth of their goods. That fact, I think, throws light on the business they are doing themselves.

"In heavy machinery, too, enquiries have been many, and trade has been considerable. Motor-car manufacturers have made a large number of sales. One firm specialising in fittings have disposed of 300 bathroom equipments in a single order. There is much demand in the retail section for such things as soaps and cleaning articles, and for foodstuffs and beverages. Indeed, I do not know of a section of the exhibition which is dissatisfied.

## *Annual Sucker Hunt Is Held At Westwood*

WESTWOOD, April 28 (Examiner Correspondence)—The annual Westwood sucker hunt was held last week at Welbeck, the home of W. C. Brackenridge, and was largely attended.

Although weather conditions were not very favorable for wading, the fishermen were not daunted in the least, and many sackfuls of suckers were hauled or thrown out upon the sand from the icy waters.

As in other years, the suckers were plentiful and some were of extraordinary large size.

# AUTOS COLLIDE WOMAN INJURED

**Mrs. C. M. Roberts, of Port Hope is Badly Shaken Up in Crash.**

**CUP FOR CADETS.**

PORT HOPE, April 28—In a collision on the King's highway between Bowmanville and Newcastle Saturday, in which cars driven by C. M. Roberts, Port Hope, and E. Hunsburger, Brantford, figured the former's vehicle was considerably damaged. Roberts' wife, who accompanied him, was badly shaken up but not seriously injured when the car ran into the ditch. The car driven by Hunsburger was owned by Robert MacGregor, Walkerton.

**Intoxicated; Pays $10**

Pleading guilty to a charge of being intoxicated Harry Gibbs, Port Hope, was remanded to Monday when he appeared in police court Saturday morning before Magistrate Campbell. On a second charge of assaulting Chief Murphy in the course of his arrest, he pleaded not guilty and the case was laid over following the accused's request to procure counsel. Bail of $100 was granted.

**Steal White Lead**

Some time during the course of the past week, thieves entered Chalk's Carriage Works on Cavan St. and stole a 20-pound pail of white lead used in the making of paint. A window at the rear of the building was used as a means of entrance.

**Cup for Cadets**

Reynolds Bros., local jewellers, have announced the presentation to the local high school of a cup for yearly competition among the cadets of the school corps. The cup will be awarded to the best all round cadet on parade and will be presented at the annual inspection day.

**Re-elect W. F. McMahon**

W. F. McMahon, local solicitor, was re-elected president of the Port Hope Liberal Conservative Association. The meeting was well attended and speeches were made by F. W. Bowen, M.P. for Durham, and Milton Elliott, mayor of Bowmanville and 1929 Conservative candidate for provincial honors. Other officers elected were: Past president, R. U. Hayden; first vice-president, H. Mitchell; second vice-president, F. Douglas; secretary-treasurer, E. P. Sanders; executive, J. Rowcliffe, E. Brown.

**Confidence in Union**

At a meeting held in the United church, the committee of the local Temperance Education Council unanimously passed a resolution reaffirming its confidence in the Ontario Prohibition Union. The motion added that the local organization would carry out the platform of the union to the best of its ability.

| No. 1, per bushel | 7.80- 9.00 |
| No. 2, per bushel | 7.00- 7.80 |
| **Timothy** | |
| No. 1, per bushel | 9.00- 9.60 |
| No. 2 (No. 1 Purity) | 7.50- 9.00 |
| **Sweet Clover** | |
| Yellow blossom, No. 1, per bushel | 7.20- 9.80 |
| No. 2 | 6.60- 7.20 |
| White blossom, No. 1, per bushel | 4.50- 5.40 |
| No. 2 | 4.00- 5.10 |
| **Alfalfa** | |
| Ontario grown—No. 1, per bushel | 14.00- 15.60 |
| No. 2 | 13.00- 14.00 |

**TORONTO PRODUCE**

TORONTO, April 28.—There was slightly more activity on the local butter market yesterday, but sales were at prices one cent below those quoted last week-end. Many who had hoped that last weeks' decreases would result in a steady market were disapointed, but with the drop yesterday, buyers were more interested and fair amounts moved. Brokers were endeavoring to secure ½c better than the 23c for No. 1 and 22c for No. 2, creamery solids, that formed the basis for most sales, but buyers were not inclined to "split the difference" on last week-end's close and transactions had to be governed by the lower levels.

**Cream.**

Cream prices were steady with those quoted on Saturday, or at the decline of last week. Country shippers were quoted 27c for special, 26c for No. 1, and 23c for No. 2 f.o.b., country points.

**Cheese.**

New cheese was finding a fairly better market and prices were unchanged from those quoted during the latter days of the past week. The range quoted by brokers was 10½c for new large, 10¾c for twins and 11c for triplets. Wholesalers' prices to the retail trade were steady at 12½c for new large, 12¾c for twins and 13c for triplets.

**Eggs**

Brokers were offering graded eggs in free cases at prices ½c lower than those of last week-end, at 19c for extras, 17c for firsts and 15c for seconds. They were slow in selling even at these prices and storing was not any more active than previously. Country shippers were quoted steady prices at 17c for extras, 15c for firsts and 12c for seconds, ungraded, delivered, cases returned. These prices were new, however, on Saturday when local dealers changed their lists for the week. Retailers were able to secure supplies at prices steady with Saturday or 1c lower than those generally in effect last week. They were quoted extras in cartons at 24c, extras loose at 22c, firsts loose at 20c and seconds at 17c.

**CHICAGO GRAIN**

CHICAGO, April 28.—Grain prices rebounded yesterday after corn and oats had broken bottom records unequalled in many years. Giving stimulus to upturns were substantial reductions of United States visible supplies of wheat. Another bullish factor was word that the Saskatchewan Supreme Court had decided the Grain Marketing Act unconstitutional.

Wheat closed irregular, a shade lower to 1¼c higher; corn unchanged to ¾c down; oats ¼c off to ½c up, and provisions at 5c to 12c advance.

**Wheat Leads Rally**

Wheat led the rally in grains, and throughout the day showed stubborn resistance to declines. The maximum setback of prices, 2c a bushel in corn, carried that cereal to within 1c of 50c a bushel, almost duplicating a record of 50½c in 1921. Weakness of corn was associated with persistent liquidation sales by holders of May contracts, and to instability shown by securities. Notice was also taken of report of an immense surplus of corn in Argentina, with no adequate European outlet. An Argentine Government estimate, however, placed Argentina's 1931 corn production at figures much below private estimates.

**TORONTO LIVESTOCK**

TORONTO, Ont., April 28.—(CP)—Cattle receipts 2675. Trade opened slowly with prices steady at last week's close. Butcher cattle sold from $5.50 to $5.75, with a few choice steers at $6. Choice fed calves brought $7.50 to $8. Butcher cows were steady from $4 to $4.50 for choice.

Steers up to 1,050 lbs. Good and choice $5.50 to $6; medium $5.25 to $5.50; common $4.50 to $5.25; steers over 1,050 lbs. good and choice $6 to $6.50; medium $5.50 to $6; common $5 to 5.50; heifers good and choice $5.50 to $5.75; medium $5 to $5.50; common $4.50 to $5; fed calves good and choice $7.50 to $8; medium $6 to 7$; cows good $4 to $4.50; medium $3.50 to $4; common $2.50 to $3.75; canners and cutters $1 to $2; bulls good $3.50 to $4; common $2.75 to $3.25; stocker and feeder steers good $5 to $5.25; common $4.50 to $5; milkers and springers $50 to $80.

Calf receipts 916. Calves were steady from $7.50 to $8 for good and choice with a few tops at $9. Common calves brought $4 to $6.

Good and choice veal $7.50 to $9; common and medium $4 to $7; grassers $3.50 to $4.

Hog receipts 1148. Hogs were unsettled with packers bidding from $7.50 to $7.75 f.o.b. for bacons or from $8.25 to $8.50 weighed off car.

Sheep receipts 174. There were no good yearling lambs offered. Good spring lambs brought $9 to $11 each. Sheep were steady from $1 to $6 per hundredweight according to quality.

Good ewe and wether lambs $10.50 to $11.00; medium $9.50 to $10.25; bucks $8.50 to $8; culls $7 to $9; good light sheep $5.50 to $6; heavies $4 to $5.25; culls $1 to 3.50.

**MONTREAL PRODUCE**

MONTREAL, April 28.—Prices of butter, eggs, cheese and potatoes held unchanged on the produce and dairy market here yesterday.

No. 1 finest fresh and regraded butter was quoted at 22½c to 22¾c a pound and to retailers solids were 24c to 25c and prints 25c to 26c a pound. Receipts were 1,195 boxes.

Ontario and Prairie fresh eggs, in car lots, were unchanged, extras being quoted at 21c to 22c, firsts at 19c to 20c and seconds at 17c to 17½c a dozen. To retailers fresh seconds gained a cent at 19c to 20c a dozen, while fresh specials were quoted at 27c, fresh extras at 25c and fresh firsts at 23c a dozen. Receipts were 2,482 cases.

Ontario colored cheese was quoted at 10¼c to 10½c a pound and receipts were 89 boxes.

New Brunswick Green Mountain potatoes in car lots were 80c per 80-pound bag and to retailers 90c per 80-pound bag.

**LIVERPOOL QUOTATIONS**

LIVERPOOL, April 28.—(AP)—Closing.—Wheat, Spot No. 1 Manitoba, 88⅜; No. 2 87½.

Hams—Long cut, 12 to 16 lbs., 79s; short cut, 12 to 14 lbs. 73s 6d; extra skinned, 99s; picnics, 5 to 8 lbs., 50s 6d.

Bacon—Cumberland cut, 32 to 40 lbs., 66s 6d; Canadian Wiltshires, 94s; clear bellies, 14 to 20 lbs., 59s; long clear middles, 28 to 35 lbs. 73s 6d; short clear backs, 20 to 25 lbs., 69s.

Shoulders—Square, 12 to 16 lbs., 56s.

American refined in boxes, 49s 6d.

Cheese—Canadian finest, white, 76s, colored 78s.

Linseed Oil—Raw, 22s 9d.

Petroleum—No. 1, 11d; No. 2, 1s.

Rosin—Types "F" and "G", 14s 6d.

Turpentine—Spirits, 44s.

**WINNIPEG GRAIN.**

WINNIPEG, April 28. — Erratic trading, influenced by lack of export demand and failure of New York Stock Exchange firms, took on a firmer tone near the close, and value, which had eased steadily during the morning came back to close ¾c to 1¼c higher than Monday.

May closed at 59½c, up ¾c; July at 61c was up ⅝c; while October climbed to close 1¼c higher at 63c.

An uneasy feeling was in evidence throughout the session, and liquidation set in early on reports of favorable conditions in the winter wheat territory and lower foreign cables.

Demand for cash wheat was limited, with spreads unchanged. Coarse grains were narrow and featureless. Futures prices were easier.

Futures: :

| Wheat— | Open | High | Low | Close | Prev. Close |
|---|---|---|---|---|---|
| May | .58¼ | .59¾ | .58 | .59½ | .58¾ |
| July | .59½ | .61¼ | .59½ | .61 | .60 |
| Oct. | .61½ | .63¼ | .61½ | .63⅛ | .62 |
| **Oats—** | | | | | |
| May | .28¾ | .28¾ | .28¼ | .28¾ | .28¾ |
| July | .29¼ | .29⅝ | .28½ | .28¼ | .29¼ |
| Oct. | .30¾ | .30¾ | .30 | .30⅜ | .30¼ |

**BUFFALO LIVESTOCK**

EAST BUFFALO, N.Y., April 28.—(CP).—Hogs, 9,300; dependable trade to all interests; steady to 10 over Saturday's average; desirable 160-200 lbs., mostly 7.90; weights below 150 lbs. generally 8.00; 220-230 lbs., 7.75; 240-260 lbs. 7.50-7.65; packing sows, 6.00-6.50.

Cattle 1,500; butcher cattle slow; barely steady; quality rather plain; good steers and yearlings 8.00-8.50; thick fleshed, 1,250 lbs. steers, 7.50-7.75; medium steers and heifers, 7.00-7.75; common, 6.50-6.75; cows strong to 25 higher; fat cows 4.75-5.75; few 6.00 and better; cutter grades 2.50-4.00.

Calves 2,400; vealers generally 50 lower; good to choice 8.50 to mostly 9.00.

Sheep 4,500; snappy lamb trade 15-25 higher; choice shorn lambs 9.50-9.75; sparingly 10.00; similar grades woolskins 10.50-10.75; one load 11.00; few spring lambs 12.00 down.

# MISSIONARY WORK IN SASKATCHEWAN

**Interesting Program is Presented by the Queenboro' Young People.**

QUEENSBORO, April 28 (Examiner Correspondence)—An interesting program was given at the meeting of the Young People held in the church on Friday evening. Miss Jessie Delyea, R.N., gave a paper on "Glimpses of Religious Education in Saskatchewan" which related the experiences of a student missionary who had spent four years in that province and who had visited public schools and conducted camps for boys and girls with gratifying results.

A paper entitled, "The Church Grandmother" was given by Miss Margaret Delyea. This was a story of a saintly old lady in China who had become a convert to christianity and whose presence and life had proved a benediction to her people as well as to the church.

Roy Rollins read a paper about a young man who was inadvertently kept from Sabbath school and who because his class mates did not inquire about him or ask him back or tell him he was missed, continued to stay away. It was pointed out that much good can be done by taking a kindly, sympathetic interest in the people who may rightly be expected to patronize the church services.

The scripture lesson was read and explained by the pastor the Rev. Mr. Everson, who also gave some facts about the province of Saskatchewan recorded in 5,000 facts about Canada. Here it was learned that Saskatchewan is the greatest wheat producing province in the Dominion and also surpasses every other province in the raising of horses.

**Awful Headaches, Couldn't Do Work. Now Feel Like New.**

**"Nerves," Constipation, Also Go Quick With "FRUIT-A-TIVES"**

"For a long time I was tortured with terrible Headaches, Constipation, Indigestion. Also so nervous I could hardly work, eat or sleep. Since taking 'Fruit-a-tives' Headaches, Constipation are gone."—Josephine Duplante, Cornwall, Ont.

People everywhere praise "Fruit-a-tives" as quickest, surest relief from bilious headaches, pain in back, constipation, nervousness, stomach trouble, sleeplessness. Why? This famous Canadian doctor's discovery combines 6 of the finest herbal tonics with a special secret extract of apples, oranges, prunes and figs—Nature's own remedies to make and keep you well. No habit-forming drugs.

Get "Fruit-a-tives" from druggist today. New health, vigor quick. Results guaranteed or your money promptly refunded.

Don't miss "Dracula" at the Regent Theatre on Wednesday, Thursday and Friday of this week. The Examiner Cheer Fund gets twenty-five per cent. of the receipts for relief work.

Directing

*Canada's Oldest Trust Company*

THE TORONTO GENERAL TRUSTS CORPORATION

The Directors of this oldest trust company in Canada are proud of its forty-nine year old reputation, of its conservatism and of its wise progressiveness. It was founded on the principle that the business of trusteeship carries with it the obligations of public service. All the property entrusted to the Corporation is managed in this spirit. The Toronto General Trusts is an independent Corporation with exceptional financial resources and a national organization devoted to the single business of managing property for others. Its directorate combines a wide range of experience in Business, Law and Finance. Today, with its knowledge and its leadership, it is in a better position than ever to manage personal estates and corporate trusts of all kinds.

*A historical booklet on the Corporation will be mailed on request.*

TUESDAY, APRIL 28, 1931

### DAYLIGHT SAVING.

The annual confusion attendant upon the inauguration of a checker-board system of daylight saving has arrived.

The fact that a number of cities on this side of the line and 17 of the American States voluntarily adopt summer time while the railways operate on standard time and the farmers do likewise, creates a most undesirable situation.

Even its most ardent supporters are forced to admit that daylight saving is seen at its worst under this haphazard arrangement.

It is unfortunate that the scheme cannot be generally carried out, but that, in the face of rural opposition and the deference politicians pay to the same, is virtually impossible.

It should, however, be possible to have all centres which desire the operation of summer time synochronize its introduction so that at least some of the confusion now inevitable could be avoided.

With some cities on a daylight saving basis, the rest on standard time and the number of the former increased from time to time as more centres swing into line later in the summer, it is no wonder that a good many people have reason to complain that the whole thing is an intolerable nuisance.

Among them are the radio fans who find it difficult to get their pet programs lined up as they are accustomed to receive them.

### PROTECTING SOCIETY.

If Canadian courts of law continue to mete out long sentences to bandits it is reasonable to suppose that crimes of violence will soon become scarce.

The action of Mr. Justice Wilson of Montreal in sentencing four men to life imprisonment on a charge of robbery with violence will stagger gangland.

It will be a notice to American bandits to keep out of Canada, and at the same time a warning to those who might be influenced by trashy magazines into trying to make a living at the point of a gun that there are easier and more desirable ways.

A life sentence for robbery while armed may appear drastic.

That kind of offense, however, requires drastic treatment.

The man who undertakes to make war on society has no right to squeal when society makes war upon him.

If he threatens the lives of those engaged in lawful occupations, he must expect to be placed where he is no longer capable of menacing the safety of law-abiding people.

The law does not make the choice; it is the individual, and he has no ground for complaint if the racket turns sour.

Mr. Justice Wilson did a good day's work for the protection of the people when he gave the limit of the law to four particularly flagrant offenders against society.

It was a sentence that will be whispered with a sense of awe in many a haunt of criminals.

### THE BRITISH BUDGET.

The budget of Right Honorable Philip Snowden, brought down in the British Parliament yesterday, in a speech noted for its brevity was devoid of the drama many commentators had predicted.

True, the Chancellor of the Exchequer did introduce one feature that is likely to cause a heated debate.

His intention to tax land values at the rate of one penny to the pound on capitalized value will create a storm, particularly in the House of Lords.

In fact, in some quarters the introduction of this levy is credited to a desire on the part of the Labor Government to make it the issue in a battle between "the people" and "the lords."

New duties on beer or tobacco were predicted.

Mr. Snowden has failed, however, to include them in his budget.

Nor will be even think for a moment of imposing tariffs for revenue purposes, bitterly denouncing the idea of raising revenues in that way.

He estimates that Great Britain in the coming year will spend $4,016,830,000, while the revenue on the existing rate of taxation would be $3,830,000,000, leaving a deficit of $186,830,000 to be met.

And this, Mr. Snowden explains, will be covered by non-recurrent revenue and "temporary expedients."

Chief interest in the budget will centre on the debate which begins on Thursday and on the reception of its proposals by the lords.

### ENCOURAGING ILLEGAL FISHING.

In police court yesterday a local man who pleaded guilty to being illegally in possession of maskinonge was fined $65 and costs.

An automobile and a rifle owned by the prisoner have also been confiscated by the authorities.

The case, it is hoped, will be a warning to other offenders.

To take fish during the spawning season is, as the magistrate pointed out, like taking a mother from her children.

It does not mean the loss of the particular fish taken at this time, but of thousands of other fish that are destroyed in the process.

The men who net or spear or shoot spawning muskies deserve no sympathy when they are caught.

It is doubtful, however, whether their offense is any more serious than that committed by the people who create a market for illegally taken fish.

The majority of purchasers are people who would be offended if they were called undesirable citizens.

Rather do they pride themselves on being useful members of society.

And yet they encourage the destruction of thousands of game fish by making it profitable for poachers to defy the law.

If the fish seized in this particular case were for sale—and that is the most likely conclusion—it is a pity the customers could not have been lined up with the prisoner yesterday morning.

It would have made the case complete had they been given a warning in the region of their pocket-books that might have had the effect of causing them to realize that their claim to good citizenship is based on a fragile foundation.

### HOW RUSSIA WORKS IT.

Twenty students who are taking the journalistic course at the University of Missouri are going to spend three months in Russia, and it is announced that "a member of the Soviet Government will pilot the students through the principal points of interest in the Russian nation."

The students are going with every good intention. They feel it will help them in their future work to know a good deal about various parts of the world, and that idea is excellent.

It is safe to say that the representative of the Soviet Government who has been appointed as the man in charge of the party will see to it that the students see exactly what the Russian rulers desire them to see. It is quite possible that under such an arrangement the students may get a very good impression of what is going on in Russia.

The Soviet officials are not so blind that they cannot see the value of impressing a group of 20 students in journalism. They probably see in the situation the chance to have 20 friendly advocates on the American press in years to come.

We know of a number of reputable writers who have failed to get a chance to enter Russia. They will not go in a party conducted by a Soviet agent. They desire to be given freedom to go where they wish and see what they care to, but in every case the request for entrance under such conditions has been denied.

The Missouri students, we are certain, will not see all they should see in Russia. The official in charge will see to that.—Stratford Beacon-Herald.

### TOURIST FIGURES.

Of the four billion dollars that are to be spent in the United States on touring, Mr. Babson allots four-fifths to motoring, counting, presumably, short trips with longer, one-fifth to railway travel, and a petty twenty-five million to aviation, a figure destined greatly to increase. These figures give interesting suggestions as to how entirely new activities and needs come in to soften the slump in the labor market caused by changed methods of production. All that money spent represents an equivalent in service rendered by somebody. Nor will the American expenditure end with the United States. Allowing for the new spirit of economy, he puts down American expenditure in Canada this year at two hundred and fifteen million dollars. That would be over ten per cent. on our recent vast expenditures on good roads. To travel "abroad" he puts down five hundred million dollars. This he rightly holds, will be well spent. Two hundred million dollars, American dollars, will thus flock to Europe to help European nations to pay their debt to the United States, and should go some way in enabling Europe to buy American products, which, owing to the practical embargo of the new American tariff, it cannot, now that its money has run out, pay for in return trade. Where Mr. Babson gets his figures, we do not know. By giving his whole mind to the study he can at least guess as well as any one. A Polish potentate, on receiving a sage, taxed him with the question how much water there was in the Baltic. The scientist gave him the figure in gallons. To further questioning he replied: "If your majesty doubts, let him measure."—Montreal Witness.

### PRECAUTION IN SMALL THINGS.

Recent despatches emphasized the need of precaution in small things if loss of life or property is to be averted. Perhaps the most sensational of these was the killing of a youthful bystander during the shooting of a horse which had broken its leg in a fall on a Montreal street. One of the bullets which a policeman fired at the horse missed the target, struck a wall, and bounding back, fatally wounded a young man who had been attracted to the scene of the accident. Apparently, the policeman was a poor shot or was so afraid that the horse might bite him that he didn't get near enough to make his shot hit the mark. This regrettable incident points to the need of having a good marksman kill an animal that may have to be dispatched in a public street. A horse's head is a fairly large target and an officer of the law who misses it should be made to undergo some shooting practice in the interests of public safety.

Another despatch told of a plasterer who broke his neck in a five-foot fall on a Kingston job, and died in a few minutes. Just as one can drown in a few inches of water, so one may be killed in a fall of only a few feet. So many people, when working about the home, are prone to trust their lives to a makeshift scaffold, thinking that if they did fall they wouldn't injure themselves as they would drop only a few feet. The Kingston fatality shows that death can follow a little fall, so those who have to work a few feet off the ground will be wise if they make their standing as safe as if they were working 100 feet up.

A third despatch told of the destruction of a Morrisburg mill valued at between $40,000 and $50,000 as the result of a nearby resident setting fire to his grass. Grass fires call for the utmost caution, particularly during very dry weather. They should never be started when they are likely to approach frame buildings on board fences as they spread with great rapidity, especially if there is a wind. Only recently a grass fire got out of control in this city, but fortunately was checked before it could do any damage. It resulted, however, in a warning by Fire Chief Miterlla that grass fires or bonfires must not be built near buildings. Such fires have caused much destruction of property and have taken a heavy human toll. Hence they should always be under adult supervision, and children should be kept at a safe distance.—St. Thomas Times-Journal.

### EDITORIAL NOTES AND COMMENT.

Have you had your tomato juice to-day?

The Border Cities Star admits that Mr. Ferguson's remarks may not meet with approval, but adds that they will get into the British newspapers, and that is something of an achievement for a Canadian spokesman.

Philip Snowden only took sixty-nine minutes to present his budget to the British Parliament yesterday. That is an example that other statesmen might profitably follow.

Legs Diamond may not be the big shot in gangland, but at least he has some right to the claim of being the biggest target.

If the assets of King Alfonso are only two million, he wasn't much of a king after all, certainly not in the Kaiser class.—St. Catharines Standard.

# TANAR OF PELLUCIDAR

BY

## EDGAR RICE BURROUGHS

(Continued from yesterday.)

Beyond the summit rolled a broad table-land dotted with trees. A herd of thags grazed quietly in the sunlight. At sight of the man passing among them, these great-horned cattle became restless. An old bull bellowed and pawed the ground, and Tanar measured the distance to the nearest tree.

But on he went, avoiding the beasts as best he could and hoping against hope that he could pass them successfully without further arousing their short tempers. But the challenge of the old bull was being taken up by others of his sex until a score of heavy-shouldered mountains of beef were converging slowly upon the lone man, stopping occasionally to paw or gore the ground, while they bellowed forth their displeasure.

Th re was an opening among them just ahead of him, and Tanar accelerated his speed, but just at that instant one of the bulls took it into his head to charge and then the whole twenty bore down upon the Sarian.

There was naught to do but seek the safety of the nearest tree and towards this Tanar ran at full speed. With scarcely more than inches to spare, Tanar swung himself into th branches of the tree just as the leading bull passed beneath him. A moment later the bellowing herd congregated beneath his sanctuary. For a while they milled around beneath him and then several deliberately lay down beneath the tree as though to prevent his escape.

But the Sarian possessed a certain philosophic outlook upon life that permitted him to accept his fate with marked stoicism and to take advantage of the enforced delay by fashioning a bow, arrows and a spear from the material afforded by the tree in which he was confined.

The tree gave him everything that he needed except the cord for his bows and this he cut from the rawhide belt that supported his loin cloth—a long, slender strip of rawhide which he inserted in his mouth and chewed thoroughly until it was entirely impregnated with saliva. Then he bent his bow and stretched the wet rawhide from tip to tip. While it dried, he pointed his arrows with his teeth. In drying the rawhide shrunk, bending the bow still further and tightening the string until it hummed to the s ightest touch.

The weapons were finished and yet the great bulls still stood on guard, and while Tanar remained helpless in the tree, Jude was taking Stellara toward the interior of the island.

But all things must end. Impatient of delay, Tanar sought some plan whereby he might rid himself of the sort-tempered beasts beneath him. He hit upon the plan of yelling, and throwing dead branches at them, and this did have the effect of bringing them all to their feet. A few wandered away to graze with the balance of the herd, but enough remained to keep Tanar securely imprisoned.

A great bull stood directly beneath him. Tanar jumped up and down upon a small branch, making its leafy end whip through the air, and at the same time he hurled bits of wood at the great thags. And then, suddenly, to the surprise and consternation of both man and beast, the branch broke and precipitated Tanar full upon the broad shoulders of the bull. Instantly his fingers clutched its long hair as, with a bellow of surprise and terror, the beast leaped forward.

Instinct took the frightened animal toward the balance of the herd and when they saw him with a man sitting upon his back they, too, became terrified, with the result that a general stampede ensued, the herd attempting to escape their fellow, while the bull raced to be among them.

Stragglers, that had been grazing at a considerable distance from the balance of the herd, were stringing out to the rear and it was the presence of these that made it impossible for Tanar to slip to the ground and make his escape.

The thag, now thoroughly frightened because of his inability to dislodge the man-thing from his shoulders, was racing blindly forward, and presently Tanar found himself carried into the very midst of the lunging herd as it thundered across the table-and toward a distant forest.

The Sarian knew that once they reached the forest he would doubtless be scraped from the back of the thag almost immediately by some low hanging limb, and if he were not killed or injured by the blow he would be trampled to death by the thags behind. But as escape seemed hopeless he could only await the final outcome of this adventure.

When the leaders of the herd approached the forest, hope was rekindled in Tanar's breast, for he saw that the growth was so thick and the trees so close together that it was impossible for the beasts to enter the woods at a rapid gait.

Immediately the leaders reached the edge of the forest their pace was slowed down and those behind them, pushing forward, were stopped by those in front. The herd slowed down and concentrated itself with pushing steadily onward toward the woods with the result that when the beast that Tanar was astride arrived at the edge of the dark shadows his gait had been reduced to a walk, and as he passed beneath the first tree Tanar swung lightly into its branches.

He had lost his spear, but his bow and arrows that he had strapped to his back remained with him, and as the herd passed beneath him and he saw the last of them disappear in the dark aisles of the forest, he breathed a deep sigh of relief and turned once more toward the far end of the island.

The thags had carried him inland a considerable distance, so now he cut back diagonally toward the coast to gain as much ground as possible.

Tanar had not yet emerged from the forest when he heard the excited growling of some wild beast directly ahead of him. He thought that he recognized the voice of a codon, and fitting an arrow to his bow he crept warily forward What wind was blowing came from the beast toward him and presently brought to his nostrils proof of the correctness of his guess, together with another familiar scent—that of man.

Knowing that the beast could not catch his scent from upwind, Tanar had only to be careful to advance silently. Thus, he came in sight of the beast without being discovered by it.

It was, as he had thought, a huge wolf, a prehistoric but gigantic counterpart of our own timber wolf. The codon stood snarling beneath a great tree, occasionally leaping high against the bole as though he sought to reach something hidden by the foliage.

Tanar crept closer and presently he saw the figure of a youth crouching among the lower branches above the codon. It was evident that the boy was terror-stricken, but the thing that puzzled Tanar was that he cast affrighted glances upward into the tree more often than he did downward toward the codon, and presently this fac convinced the Sarian that the youth was menaced by something above.

Once more he crept to a new position, without attracting the attention either of the codon or the youth, and from this vantage point he could look farther up into the tree, and then it was that he realized the hopelessness of the boy's position, for only a few feet above him and moving steadily closer, appeared the head of a great snake, whose wide, distended jaws revealed formidable fangs.

Tanar had now crept to within seven paces of the codon, from the sight of which he was concealed by a low shrub. Fitting an arrow to his crude bow and inserting four others between the fingers of his left hand, Tanar arose quietly and drove a shaft into the back of the codon between its shoulders.

With a howl of pain and rage the beast wheeled about, only to receive another arrow full in the chest. Then his glaring eyes alighted upon the Sarian and, with a hideous growl, he charged.

With such rapidity do events of this nature transpire that they are over in much less time than it takes to record them, for a wounded wolf, charging its antagonist, can cover seven paces in an incredibly short space of time; yet even in that brief interval three more arrows sank deeply into the white breast of the codon, and the momentum of its last stride sent it rolling against the Sarian's feet—dead.

The youth, freed from the menace of the codon, leaped to the ground and would have fled without a word of thanks had not Tanar covered him with another arrow and commanded him to halt.

The snake, seeing another man and realizing, perhaps, that the odds were now against him, hesitated a moment and then withdrew into the foliage of the tree, as Tanar advanced toward the rembling youth.

"Who are you?" demanded the Sarian.

"My name is Balal," replied the youth. "I am the son of Scurv, the chief."

"Where is your village?" asked Tanar.

"It is not far," replied Balal.

"Will you take me there?" asked Tanar.

"Yes," replied Balal.

"Will your father receive me well?" continued the Sarian.

"You saved my life," said Balal. "For that he will treat you well, though for the most part we kill strangers who come to Garb."

"Lead on," said the Sarian.

Balal led Tanar through the forest until they came at last to the edge of a steep cliff. Not far from the cliff's edge stood the stump of a great tree that seemed to have been blasted and burned by lightning. It reared its head some ten feet above the ground and from its charred surface protruded the stub end of several broken limbs.

"Follow me," said Balal, and leaping to the protruding stubs, he climbed to the top of the stump and lowered himself into the interior.

Tanar followed and found an opening some three feet in diameter leading down into the bole of the dead tree. Set into the sides of this natural shaft were a series of heavy pegs, which answered the purpose of ladder rungs to the descending Balal. Tanar entered the hollow stump and followed Balal downward.

The Sarian was aware that the interior of the tree led into a shaft dug in the solid ground and a moment later he felt his feet touch the floor of a dark tunnel. Along this tunnel Balal led him and presently they emerged into a cave that was dimly lighted through a small opening opposite them and near the floor.

Through this aperture, which was about two feet in diameter and beyond which Tanar could see daylight, Balal crawled, followed closely by the Sarian, who found himself upon a narrow ledge, high up on the face of an almost vertical cliff.

"This," said Balal, "is the village of Garb."

"I see no village nor any people," said Tanar.

"They are here, though," said Balal. "Follow me," and he led the way a short distance along the ledge, which inclined downward.

Presently the ledge ended and here Balal, lowering his body over the edge, clung a moment by his hands and then dropped. Tanar looked over the edge and saw that Balal had alighted upon another narrow ledge about ten feet below. Even to a mountaineer, such as the Sarian was, the feat seemed difficult and fraught with danger, but there was no alternative and so, lying down, he lowered himself slowly over the edge of the ledge, clung an instant with his fingers, and then dropped.

As Tanar had an opportunity to look about him on this new level, he saw, and not without relief, that the ledge was much wider and that the mouths of several caves opened upon it. In places, and more especially in front of the cave entrances, the ledge widened to as much as six or eight feet, and here Tanar obtained his first view of any considerable number of Himeans.

"Is it not a wonderful village?" asked Balal, and without waiting for an answer, "look!" and he pointed downward over the edge of the ledge.

Following the direction indicated by the youth, Tanra saw ledge after ledge scoring the face of a lofty cliff from summit to base, and upon every ledge there were men, women and children.

"Come," said Balal, "I will take you to my father."

A log into which wooden pegs were driven served as an easy means of descent from one ledge to the next, and after descending for a considerable distance to about mid-way between the summit and the ground, Balal halted at the entrance to a cave, before which sat a man, a woman and two children, a girl about Balal's age and a boy much younger.

These leaped to their feet and seized weapons when they saw Tanar.

"Do not harm him," said Balal. "I have brought him to you, Scurv, my father, because he saved my life and I promised him that you would receive him and treat him well."

Scurv eyed Tanar suspiciously. "Who are you and what are you doing in our country?" he demanded.

"I am looking for one named Jude."

"What do you know of Jude?" asked Scurv.

"We were prisoners together among the Coripies on the island of Amiocap."

(To be continued)

## Coming To Toronto

VINCENT LOPEZ

Who with his celebrated orchestra direct from the Hotel St. Regis in New York City, will come to Toronto on Thursday, April 30, to play at the ball given by De Forest Crosley Limited, radio manufacturers, to the fifteen hundred delegates attending the sixth annual De Forest Crosley Convention. Lopez, whose personal radio signature, "Hello everybody, Lopez speaking," is known all over Canada, will be heard from a central network of Canadian stations as he plays for this colorful event.

## U. S. to Canada

(A Gesture of Friendship)

Elder brother am I,
You are the younger son;
Bound by ties of kinship,
We work together as one.

The weblike line between us,
Needs not sentry nor gun;
In mutual understanding,
We work together as one.

Some may boast of warfare,
Of that we will have none;
In peace and fruitful labor,
We work together as one.

The race now sets before us,
Alike with patience we run;
Girded with truth and honor,
We work together as one.

Elder brother am I,
You are the younger son;
Under the guidance of God,
We work together as one.

—Grenville Kleiser.

# COOK REMANDED IN SHOOTING CASE

### Five Companions of Campbell, Who Was Wounded, Will Also Appear on May 12.

### BAIL RENEWED.

TORONTO, Ont., April 28 (C.P.)—William Cook was remanded until May 12 when he appeared in Brampton Police Court to-day on a charge of shooting Oscar Campbell with intent to maim, when Campbell and several companions sought to gain admittance to Plaza Lodge, formerly Chicory Inn, on the Hamilton Highway on the morning of April 19.

Campbell's five companions who are held as material witnesses were granted a similar remand. They are Albert "Frenchy" Belanger, Melville Campbell (brother of Oscar), Richard Ashcroft, Gerald Brown and Harry Prise. Bail in the case of the five latter was renewed at $1,000, while Cook was freed on bail of $10,000.

## What To-day Means To You

"TAURUS"

If April 28th is your birthday, the best hours for you on this date are from 7 a.m. to 9 a.m., from 2:30 p.m. to 4 p.m. and from 11 p.m. to midnight. The danger periods are from noon to 2 p.m. and from 6:30 p.m. to 8 p.m.

The Signs predict that Destiny or Fate will direct your actions on this date, do, think, or say what you may. The straw which will break the back of further resistance, pertaining to something of vital interest to you, will be blown your way. Social affairs taking place during the evening are marked for success.

The children born on this April 28th will be inclined to be selfish and self-centered, and will be bigoted and stubborn-minded. They will be patient workers, exact and precise in their methods, and attentive to small details. They will be fond of ease and comfort, and will work for the luxuries of life.

Born on April 28th, there are many impractical planks, a few weak ones, but none which are vicious, in the platform of you character. You faults react against yourself, more than they unpleasantly affect others. You scatter your energies, whereas another would bale them. You try to keep too many balls rolling at the same time. Your generosity is so extrme that it becomes a fault instead of a virtue, as far as you are concerned. You not only give until it hurts, but many a time until you are ruined. He who seeks your sympathy never turns away without receiving some balm. Your happiness lies in doing for others.

You have considerable pride, and you like to go one better than the other fellow to make a splash on your own. You act on the spur of the moment, and prompted by impulse, rather than logic, you often pull a "boner." You have the soul, if not the fingers or technic of an artist. You are a child of Nature, and her beauties are not lost upon you. Your heart bleeds for the suffering of animals, and you are an active fighter for their cause.

You are not in the least reserved, and are a most approachable person. You seem to find something good in everybody, and the nice things you say are not all blarney. It is difficult to pick a fight with you, for your good humor disarms everybody. You will reap the rewards of a kind heart and you will never be spiritually poor, or chronically unhappy. (Copyright, 1931, The Bell Syn., Inc.)

# IN DAYS GONE BY

### Items Taken From Old Fyles of The Examiner

**APRIL 28, 1921**

Frank Leader escaped with a few bruises last night when he fell off the Auburn dam....In an attempt to settle the coal strike, the British Government has offered to pay part of the wages of the miners....The usual boat livery business at H. B. Rye's boathouse is opening up earlier than usual, owing to the mid-summer heat....Magistrate Dumble thinks that Trent Bridge is a bad name for a municipality, as it suggests that the inhabitants are fishes....Yesterday was the warmest day of the year so far, the thermometer going a trifle over 80 degrees in the shade.

**APRIL 28, 1911**

France has thirty thousand soldiers in the field against Morocco rebels....Jules Motor Company of Toronto may establish factory here for the manufacture of their products....The steamer Otonabee is now open for excursions and dates are being taken rapidly....A Y.M.C.A. baseball game at Riverside Park on Saturday will open the season here.

**APRIL 28, 1901**

The Chinese are forced to evacuate the Province of Suo Lu by the German forces....Lord Kitchener continues the process of wearing down the Boers....The Canadian Government has decided to reduce the royalty on gold mined in the Yukon from ten to five per cent....A hundred thousand machinists in New York may go on strike for a nine hour day....The Mohawks of Canada and New York State are to have a newspaper printed in the Indian tongue.

# GEORGE T. BISHOP TO SUCCEED EATON

### Cleveland Financier Retires as Chairman of Continental Shares Board.

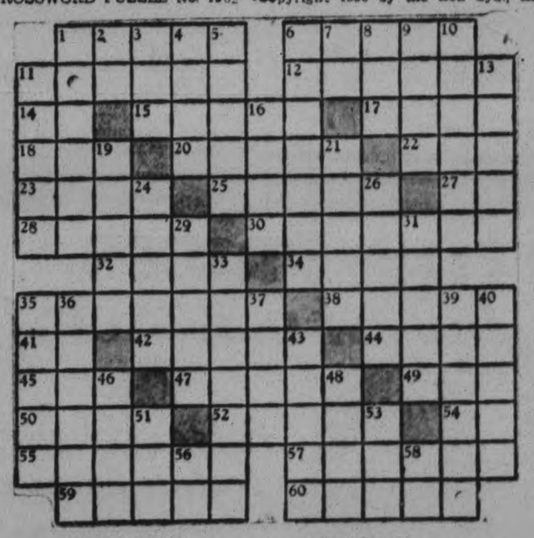
CLEVELAND, O., April 27.—(CP) Cyrus S. Eaton, Cleveland financier, who founded Continental Shares, a $156,000,000 investment concern, has resigned as chairman of the board and the heads of four Cleveland banks have been elected directors.

George T. Bishop, Cleveland and New York financier and widely known public utilities and railroad executive, came from virtual retirement to become president of the corporation, which holds large public utility, steel and rubber interests.

Bishop declared that "in my opinion there is absolutely no reason for Continental shareholders to be apprehensive as to the entire solvency of the corporation and the ultimate substantial enhancement of their investments, providing, of course, the financial storm ever stops."

Eaton does not relinquish any of his holdings and the move was made to inspire confidence in Continental shares should it have been threatened by the six stockholders' suits recently filed, it was stated by Theodore L. Bailey, spokesman for Continental shares and Otis and Company, Cleveland brokerage house.

CROSSWORD PUZZLE No. 1962 (Copyright 1930 by the Bell Syd., Inc.)



HORIZONTAL

1—Pit.
6—Threshing tool.
11—Tongue.
12—Surgeon's instrument.
14—Greek letter.
15—Gracious
17—Roman garment.
18—Everyone.
20—Aridities.
22—Surface fibres.
23—Outbreak.
25—Fact.
27—Symbol for tellurium.
28—Kind of beer.
30—Fruits of bean family.
32—Series of epic events.
34—To scold.
35—Opposes.
38—Part of fort.
41—Part of "to be."
42—Transactions.
44—To set into a groove.
45—Babylonian god.
47—Vessel.
49—Fate.
50—Coat of grain.
52—To ascertain.
54—Note of scale.
55—To pass unnoticed.
57—Wandered.
59—Bordered.
60—Savants.

VETRICAL

1—Former division of Italy.
2—Part of "to be."
3—Affirmative.
4—To run before wind.
5—Broken piece.
6—Swifter.
7—Musical note.
8—Insect.
9—Sacred image.
10—Representative.

### DIVIDEND DECLARED.

NEW YORK, N.Y., April 28.— (C. P.—The United States' Steel Corporation to-day declared the regular quarterly dividends of $1.75 each on common and preferred stock.

## Galt Enters Protests Against New Taxation

GALT, Ont., April 28 (C.P.)—At the largest attended meeting of the Board of Trade held here in years, two important resolutions were passed, one protesting against the recent amendment to the Corporation Tax Act, increasing the taxes on industry and requesting the Government not to enforce it; and the other requesting the Federal Government to deepen the Port Dover Harbor, into which boats cannot now enter and through which 200,000 tourists came last year.

### DONALD RESIGNS

BRANTFORD, Ont., April 28.— It was learned to-day that Bruce Donald, assistant superintendent of the Massey-Harris verity works here had resigned his position as from last Saturday.

Don't miss "Dracula" at the Regent Theatre on Wednesday, Thursday and Friday of this week. The Examiner Cheer Fund gets twenty-five per cent of the receipts for relief work.

## IRREULAR IMPROVEMENT TO BE THE WORLD'S LOT

Advances Now Observable in Some Countries Are Being Offset by Declines in Others.

### DULL SUMMER PROSPECT.

TORONTO, April 28.—That recovery may come to some nations, leaving others still in a depressed economic condition, is now the opinion held by some observers of business trends in their broader aspects. In Germany, for instance, sentiment has greatly improved. On the other hand, major manifestations of depression are only now making themselves apparent in France.

In most countries the situation during the past couple of months has shown little change, improvements in one quarter being offset by declines in another. Credit is scarce, though not for lack of funds. Bankers are pursuing a cautious policy in face of uncertainties.

On the whole, therefore, recovery, in its broader phases, will be slow and highly irregular; and a common opinion among observers is that the worst of the depression is in the past, even though general conditions remain essentially unchanged for several months to come.

Generally speaking Central and South American countries are still showing little improvement. In the last two months Mexican conditions remained poor, though foreign trade reports are better. There was little change in Colombia, where government salaries have been cut and a government program of highway construction is now in the making to relieve distress. Unemployment in Brazil is on the increase with no relief in sight. Practically all public construction has been stopped to save government money.

In the Orient there has been little change. Chinese trade is still stagnant and only infinitesimal improvements are observable in Japan.

The outstanding recent event in Europe has been the overthrow of the Spanish monarchy. An early tendency to believe that economic stability would follow has been modified, as sectional jealousies have become more apparent. In Great Britain the rate of increase in unemployment has been checked, but wages are being generally reduced. Dividend payments are being cut in wholesale manner by most companies. Foreign rtade declined again in March.

In France it is observed that unemployment has been slowly but steadily increasing as foreign competition is cutting deeper into this country' trade. Foreign trade declined sharply in the first 1931 quarter.

Retail tradde in Germany is reported to be improving and a fair increase has been registered in the manufacture of textiles, some Saxony mills being now on full time. Steel production has been off, but there is evidence of increased buying. Money market conditions have improved slightly. But the level of unemployment has shown an increase, on the whole, Germany still is in need of an abundant supply of long-term, low-rate money.

In Italy no encouraging signs are seen. Trade is at low ebb, unemployment increases, the financial situation shows no improvement and collections are difficult.

## HEAVIER TURNOVER IN CHEAPER STOCKS

Price Action Irregular But Confined on Standard Market To-day.

TORONTO, Ont., April 28.—(CP)— Price action was irregular, but confined in to-day's forenoon session on the mining market. Turnover in the cheaper stocks showed a slight improvement, but tone of the board, as a whole, remained listless.

Nipissing, following announcement at yesterday's meeting that future dividend may be passed, was uner liquidation, price declining 32 from last night's close to $1.25 at mid-day. Mining Corp. moved sympathetically lower, losing 15 to $2.

In the olds section Teck-Hughes and Granada advanced 10 and 5 respectively, and majority of other higher-priced members were steady. Premier and Sylvanite sold off 3 apiece and Eldorado was down 5 to 58. Tashota and Gem were stronger among the pennies.

Base metals were quiet, Nickel holding around last night's figure. Noranda came in for renewed attention, selling above $24 for a time and standing up 40 at $23.40 when taken.

Oils were mixed and quiet, Nordon, on reports that drilling had been suspended in Buttonwillow field, California, was off 4 and Olga dropped a point to 13.

## Ford Sharp Break On All Exchanges

TORONTO, Ont., April 28 (C.P.).— A sharp break in the shares of Ford of Canada which carried the price down to a new all time low for the present stock of 18 7-8 per share unsettled the local market for a time this afternoon. Later Ford recovered part of the loss suffered in the sudden drop and the whole market toned up as inter-listed stocks firmed with New York. Closing prices for majority of leaders were unchanged to a fraction higher.

Ford of Canada broke when selling originated from New York. The stock went down rapidly, Toronto being a ready purchaser on the way down. After selling under 19, the stock rebounded to 19½ and then worked up to 20 and better at the close, where it compared with a closing price last night of 21.

## Five Peterboro Men Named To Executive

At the Convention of the Industrial Accident Prevention Association, held last week in Toronto five Peterborough men were elected to the executive committee of the association. They are: C. H. Rogers of Canadian Watercraft Ltd.; J. H. Vernor Western Clock Company Ltd.; J. J. Turner of J. J. Turner & Sons Ltd.; H. A. Cranfield of the C.G.E. Ltd.; and J. A. Beatty Morrow and Beatty Ltd.

Representatives from many cities throughout the province attended the convention.

## Winnipeg Review

Special Service to The Examiner through the courtesy of E. J. Bawlf Company, Grain and Stock Brokers, of Toronto

Wheat market was very nervous and erratic yesterday although prices fluctuated within a range of about two cents. At the outset there was renewed liquidation similar to that seen in the latter part of the previous week, but this was recovered on scattered support including a little buying by New York and Chicago interests. Thereafter the market sagged again, recovered, and finished showing a much improved tone. There was nothing in the way of export interest to help the buying side. Very little was done over the week-end and even at the lower levels yesterday, it was difficult to trace any further business. Importers appeared to be disturbed as to financial conditions in Europe and because of the unsettled markets on this side. Liverpool cables were on the easy side, the same applying to Buenos Aires. Liverpool was affected by the very indifferent continental demand and the North American easiness. A good decrease in the Canadian wheat visible supply for the week was a help to the market, and Southern markets gained some encouragement from a further decrease of 1,233,000 bushels in the United States visible figures. Altogether the firm tone shown at the close was indicative of a much better feeling generally. The announcement that the Saskatchewan Marketing act had been found Ultra Vires may have had something to do with the change in sentiment. The cash wheat situation was quiet. Country marketings for Saturday were 366,000 bushels as compared with 86,000 a year ago.

Coarse Grains.—Actual export business was limited by the small quantities available of grades wanted. Other grains were inactive and in all, the domestic trade was featureless.

Liverpool Cables due 1¼ to 1 3-8 higher based on Winnipeg.

## CAR MISSES TURN

(Continued from Page 1)

entangled in parts of the top of the vehicle.

Dr. Hopper of Waterdown, coroner, was summoned to the scene, and the remains were conveyed to Hamilton.

It was a cold night with variable weather, occasional squalls of snow or rain somewhat obscuring the road. Trafic was very light, with few perple travelling the highway. The Guelph highway at this section is a 'black" asphalt road and vision is very limited at night.

**Born at St. Thomas**

Hugh J. McKenna was born at St. Thomas, Ont., in November, 1887, but had resided in Hamilton for the past seventeen years. He was a member of the law firm of Stephens, McKenna and McCombs of this city. Deceased attended central Presbyterian Church, was a member of Barton Lodge number 6 A.F. & A.M., Murton Lodge of Perfection, Hamilton Chapter Rose Croix and the Moore Consistory. He also was a member of Phi-Delta-Phi, Toronto University, and of the Ancaster Golf and Country Club.

He is survived by his wife, Rosabelle McKena, his parents, Mr. and Mrs. James McKenna, Aylmer, Ontario; one brother, A. J. McKenna of Ottawa; two sisters, Mrs. Herbert White, Aylmer, Ontario and Mrs. George Hambleton, of London, England.

The funeral will take place from his residence, 23 Mapleside Avenue on Wednesday afternoon at 2.30 o'clock to Hamilton mausoleum for entombment.

It is understood the two men were returning from the sittings of the Ontario Supreme Court at Guelph when they met with the accident.

The authorities are continuing their investigation.

Alexander William Johnson was a native of Sandusky, Ohio, but has lived in this city for some years. He was a member of the L.O.L. of Rochester, New York, and of the Irish Protestant Benevolent Society of Hamilton. He was an active worker in the Conservative party. Surviving are his wife, Mary Johnston; one son, Charles, Hamilton; two daughters, Mrs. Harold McGowan, New York; Miss Lillian at home; his mother, Mrs. A. A. Johnston, Hamilton; two sisters, Mrs. William Toms of Hamilton and Miss S. Johnston also of this city. Two brothers also survive, James of this city and Fred J. of Pittsburgh.

### 4 MINERS ARE KILLED

NUNEATON, England, April 28 (C.P.)—Four miners were killed today when they were engulfed by a fall of slate while at work. Three others were saved by rescue squads.

## CANADA STEAMSHIPS HAVE CUT EXPENSES

Freer Wheat Movements Lead Officials to be Hopeful— Early Season Helps.

MONTREAL, April 28.—Shareholders of Canada Steamship Lines, at the annual meeting yesterday were informed of a considerable improvemtn in operations in the first quarter of the current year, at least in expenditures. This is a period in which the company has no earnings, but is entirely concerned with outfitting for the coming season.

The President, W. H. Coverdale, stated that the net loss for the first quarter amounted to $585,000, compared with a loss of $726,000 in the corresponding three months of last year.

Describing rates at the present time as fair, Mr. Coverdale announced that the company had sixty-eight ships in operation, while nineteen passenger boats would be ready in about ten days. He stated that bank loans were about $875,000 lower than at the same time last year, and made it quite clear that no capital expenditures were under way or contemplated.

## SMELTERS DROPS ON MONTREAL LIST

Bell Telephone, Dryden and McColl Frontenac Also Down One Point.

MONTREAL, Que., April 28.—(CP) —The Montreal stock market was unsettled this morning, later trading showing a weaker tone than was apparent at the opening.

Consolidated Mining and Smelting stock declined 2 points to 110. Bell Telephone was off a point at 144, Dryden down one at 3, and McColl Frontenac off a point at 14. Brazilian Traction sold down 3-8 to 18¾ and Nickel lost 1-8 at 14 7-8.

British Columbia Power "A" gained 1½ at 39, Canada Car was up 3-8 at 12¾, Cement gained ¼ at 12½. Gurd moved up ½ at 26, Montreal Power moved up ½ at 56, and Power Corporation and Price Brothers each gained 1½.

Atlantic Sugar, Canadian Pacific and National Breweries unchanged.

## Olsen To Represent U.S. At Wheat Parley

WASHINGTON, D.C., April 28 (C.P.). — N. A. Olsen, chief of the Bureau of Agricultural Economics, has been selected to represent the United States at the World Grain Conference to be held in London on May 18.

A representative from the Farm Board also probably will be sent to the conference. Secretary of Agriculture Hyde announced the selection of Olsen after the Cabinet meeting to-day.

### FOREIGN EXCHANGE.

NEW YORK, N.Y., April 28.—(CP) —Prime mercantile pepar 2½-2¾ per cent.

Foreign exchange firm; demand rates (Great Britain in dollars, others in cents): Great Britain 4.86 9-16; France 3.90 15-16; Italy, 5.23¾; Germany, 23.81.

### RUMOR DENIED

TORONTO, Ont., April 28 —(CP)— Head office officials of the Massey-Harris company to-day declared the company had not considered the closing of the Bain works of the Massey-Harris Co. in Woodstock, Ont., and the removal of the work now done in the Bain plant to the Massey-Harris works in Brantford, Ont.

## NORANDA RISES 1 POINT TO 24

Prices Show Small Changes in Individual Instances on Toronto Exchange.

### LEAD ISSUES UNCHANGED.

TORONTO, Ont., April 28.—(CP)— Trading slackened perceptibly on Toronto Stock Exchange this morning and the market went through an uneventful session. Prices showed small changes in individual instances with the broad average about the same as last night.

Ford of Canada was still a weak spot declining to its old low of 20½ under comparatively heavy trading. C.P.R. also was easier and for a time Brazilian threatened to sell lower, but around midday firmed at 19, where it was unchanged from last night. Bell Telephone, International Nickel, Walkers here unchanged for the most part. Nickel sold at from 15 to 15⅛.

Noranda rose 1 point to 24 in a short spirited rally which came in the second hour.

Consolidated Smelters was firmer and up 3 points at 112 and Page-Hersey Tubes sold up as high as 81. Oils wer firmer and unchanged to higher, with Imperial and International Petroleum showing fractional gains, Canadian Oil up a point and the remainder of the group unchanged. Service Stations rose nearly a point to 18¾. Liquor stocks were holding well in light trading.

## Noranda Drill Cores Show High-Grade Ore

MONTREAL, April 28.—Noranda Mines, Ltd., shows earnings equivalent to 75c per share on the outstanding capitalization for the first quarter of this year, according to an early estimate by Financial Service. Recent discoveries from development and diamond drilling have been so important as to have completely changed the outlook for the company, and the opinion now held is that Noranda is likely to develop into one of the most important of the world metal producers.

Noranda is proceeding with diamond drill exploration, and according to officials is meeting with very good results. The following is a record of a drill-hole put down below the 1,475-foot level to a further depth of 1,250 feet, or approximately 2,725 feet from the surface: Where the mineralization was first cut in the hole it returned values of $5.25 for a distance of 105 feet. This was followed by 213 feet showing an average value of $10.60 to the ton; 170 feet of $15.60 ore, 60 feet averaging $4,67,120 feet averaging $19,58, 100 feet averaging $98,78 and 10 feet of an average value of $26.25. The values shown above are combined gold and copper, the latter material being based on an estimate of 10c per pound. Gold values are high throughout the entire distance.

## COARSE FREE GOLD IS FOUND IN RUN

Wright-Hargreaves is Big Feature of To-day's Mining News.

(Over Butler, Hevenor and Co. Wires)

TORONTO, Ont., April 28.—Wright Hargreaves was featured in Northern despatches this morning and it is claimed that the ore encountered in the shaft, at and below the 2,700-foot horizon, is running exceptionally high grade. Considerable ore is being bagged, it is said, for direct refining on account of coarse free gold.

**Sylvanite.**

Sylvanite officials are hopeful of also encountering encouraging conditions below 2,000 feet, similar to the experience on Wright Hargreaves. The main shaft is being rushed to 2,500 feet and will probably reach this horizon in about a month. It is then possible that it will be continued down to 3,000 feet, but this has not yet been decided. It is planned to open levels between 2,000 and 2,500 feet at as early a date as possible. Milling has been stepped up to about 270 tons daily, and last month production exceeded $80,000, the highest yet. Ore reserves are being added to steadily and now there is well over a year's supply ahead, already broken in the stopes.

**Malartic.**

Operations will resume shortly on the property of the Malartic mines, according to a despatch from the north. It is claimed that financing has been arranged between the company and interests connected with Granada Rouyn.

**Central Patricia.**

Shareholders of Central Patricia Mines have received notice from the company that they should send in their present stock certificates to the Chartered Trust and Executive Company, Toronto, for stock in the new company. The Central Patricia Gold Mines holders will receive one share of the new for every four shares now held.

## ARREST MADE

(Continued from Page 1)

they visited the bank as customers yesterday morning. Then taking $5,000 for himself he joined the trio in the afternoon and they attempted to leave the city in an automobile just purchased. The wreckage and the injured fugitive was found by three policemen on a fishing holiday.

Latour, 26 years old, is a native of Montreal. Apart from his broken leg his condition was not serious.

## LIQUIDATION FLOOD BECOMES LIGHTER TO-DAY AT NEW YORK

Decline Narrowed Down to Industrial and Specialty Issues in the Main.

### U. S. STEEL OFF.

NEW YORK, N.Y., April 28.—(Associated Press)—The shrinkage of share values was uninterrupted but considerably retarded in to-day's stock market.

The recent stream of liquidation, which flooded most of the list yesterday, was narrowed down to the industrial and specialty issues in the main. Electric Power issues held up fairly well and rails continued to decline only in spots.

U.S. Steel sold off a couple of points, then recovered practically. The market action of the stock reflected the fairly general opinion that the regular dividend would be announced after the close of the market. In the rails, the reduction of Illinois Central quarterly dividend from $1.75 to $1 had been fully discounted, and the stock rallied as shorts covered. Pennsylvania, however, sagged 2 to a new low since 1926. Allied Chemical, coincident with the retirement of the Nichols interests from the management dropped 10 points to the lowest since 1926. Miscellaneous issues losing 3 to 5 points included Eastman, McKeesport, Inland Steel, Case, American Tobasso "B", Corn Products and Columbian Carbon. Transamerica was a weak feature, declining 2 points to a new low under 8. American and International telephone lost about 2, as did Standard of California, although New Jersey was steadier.

## Man Found Drowned In Roadside Ditch

MONTRTAL, Que., April 28. (CP) George Beauchamp, 30, of this city was found drowned in three feet of water in a ditch by the La Prairie highway near Montreal early this morning. Nearby was the shattered ruins of his car in which he had been returning to his home late last night. It was apparent that the car had skidded off the road and that Beauchamp, stunned in the smash-up, had fallen into the ditch and drowned. The car was shattered against a stone wall that parallelled the ditch.

## JAPANESE PRINCE VISITS DOMINION

Royal Party Given Magnificent Reception on Detraining at Quebec.

### MET BY DUPRE.

QUEBEC Que., April 28. (CP)— Their Imperial Highnesses, Prince and Princess Takamatsu, of Japan, who are making a round-the-world honeymoon trip, arrived in the ancient capital at one o'clock this afternoon and were tendered a magnificent reception on detraining at the palace station. The Prince and party before entering Quebec City, were met at Charny, southern portal of the Quebec bridge, by Hon. Maurice Dupre, Solicitor-General for Canada, who boarded the royal coach and extended to the couple a welcome to Canada on behalf of the Dominions Prime Minister, Hon. R. B. Bennett.

## Early Upturns Seen In Chicago Grains

CHICAGO, Ill., April 28.—(CP)— Announcement France would allow an additional 5 per cent mixture of foreign wheat gave an early upward impulse to grain prices to-day. Continued absence of moisture in North American spring wheat territory was also a bullish influence. Opening 1-8-¼ cent off to 1-8-¼ up wheat afterward showed an all around advance. Corn started unchanged to 3-8 higher and subsequently held near the initial limits.

## C.N.R. Revenue Shows Decrease For Month

MONTREAL, April 28.—(Special to Examiner.)—Gross revenues of the Canadian National Railways for the month of March, 1931, were $15,030,052, a decrease of $3,694,135 as compared with the revenues of March 1930. Operating expenses during March 1931 were $14,249,112, showing a decrease of $2,018,324 as compared with March last year, leaving net revenue for the month of March of $780,939, a decrease of $1,675,810 from that of March last year.

Gross revenues for the three months' period ending March 31st, 1931, were $42,200,990, a decrease of $10,980,743, while operating expenses for the period were $42,102,528, a reduction of $6,428,986 from the figures of 1930. Net revenue for the first three months of 1931 was $96,461, a decrease of $4,550,736 from the figures of the corresponding period of 1930.

### JIMMY WALKER FREED

ALBANY, N.Y., April 28 (C.P.) — Governor Roosevelt to-day dismissed the charges brought against Mayor James J. Walker of New York by the City Affairs Committee.

The committee had asked that Mayor Walker be removed for incompetence and neglect of duty.

### STEAMER IS OFF REEF

SAULT STE. MARIE, Mich., April 28 (C.P.)—After lightering her cargo by unloading forty thousand bushels of grain, the steamer Wm. H. Wolf, which went aground at Hay Point in the lower St. Mary's Sunday night, was released last night, apparently without damage.

### CONNAIRE BILL IS LAW

ALBANY, N. Y., Apr. 28. — The Connaire Bill committing the State of New York to state development of the water-power resources of the St. Lawrence River became law today. With the signature of Governor Roosevelt.

Passage of the measure by the Legislature and its approval by the Governor ended a legislative controversy of twenty years standing.

## Bank Robbed of $4,000 Storekeeper Wounded

CEMENT CITY, Mich., April 28 (C.P.). — The Bank of Cement City was robbed of about $4,000 today by five well-dressed men who shot a storekeeper in a gun battle as they escaped in an automobile.

Lester Wolf came out of his store across from the bank as the roobers were leaving. He shot at the men and they returned the fire, wounding him in both legs.

J. R. Flint, the president, and Mrs. Mabel Parker, the cashier, were alone in the bank when the roobers entered.

## PIKE ARRAIGNED ON THEFT CHARGE

Pleads Not Guilty and Elected Jury Trial Before Judge Coatsworth.

### $75,000 IS MISSING.

TORONTO, Ont. April 28. (CP)— Arraigned on an amended charge of theft of $75,000 from Keystone Securities Corporation, Herbert T. Pike, former President, pleaded not guilty and elected jury trial before Judge Coatsworth to-day.

The original charge was that Pike stole $75,000 from Abba Mines Ltd., E. W. Cans, T. W. Perks, F. J. Aitchison, F. W. Black and other persons who contributed to the capital of Abba Mines.

E. G. Gower, chartered accountant, who examined the books of the Keystone Securities for the Attorney General's department said the company had sold stock in Keystone Mortgages Ltd., to the extent of $130,000 in Trethwey-Ossian Mines, $180,000, and in Abba Mines, $314,000. Of these amounts $38,000 was paid by Keyston, Securities to Keystone Mortgages, $31,000 to Trethwey Ossian mines and $72,000 to Abba Mines, a total of $162,000 out of total receipts of $624,000.

Asked by W. J. Fair, of the Attorney-General's department, where the difference went, Gower said that $123,000 was represented in withdrawals by Pike. $175,000 was paid to salesmen for commissions and $150,000 went for other expenses, including interest, dividends on Keystone Securities stock.

Pike's personal account in the Dominion bank from March 1, 1926 to February 28 1930, showed deposits totalling $127,

# DISTRESS GROWS AT GOLD FIELD

### Prospector Arriving at El Tambor Not Permitted to Stake Claims.

### LITTLE WEALTH FOUND.

MAZATLAN, Mexico, April 28 (C. P.). — Stories of great suffering and starvation among the prospectors in the new gold fields near El Tambor, Sikaloa, have been brought here by disheartened miners who, abandoning efforts to make a fortune, are returning home.

Caravans of prospectors and their families arrive at the field daily, but find that they cannot stake claims until legal points connected with those already set up have been settled. The new arrivals, most of whom spent all they possessed in getting to the field, find nothing in the mining settlement to give them a means of living.

Troops have been thrown about the field to prevent new staking of claims. Those who have claims and work them manage to eke out only a miserable existence, finding themselves at the mercy of money-lenders who have established a flourishing business in the settlement.

# HAVELOCK SOCIETY STAGES COMEDY

### "The Road Back," Under United Church Auspices, Proves Drawing Card.

HAVELOCK, April 28.—(Examiner Correspondence.)—A delightful comedy under the auspices of Havelock United Church Dramatic society, was held in the town hall on Friday evening, and was in every way a great success. This society has won a reputation for excellence in amateur dramatics, and those who attended their presentation on Friday evening, were in no way disappointed. The play, entitled The Road Back is a story of a family, living in a poor locality in a small eastern city.

All three acts take place in the living room of the Fowler family. The characters are Pa Fowler, a little discouraged man of fifty years, shabbily dressed, and gradually losing his grip on the family, Ma Fowler is a large fat woman the complaining, shallow, easy-to-cry type, addicted to novels and chocolates, afflicted with all kinds of imaginary ailments, with no energy for housework, but plenty of pep when a movie is inthe offing.

Jenny, the eldest daughter, is a quiet forceful girl of twenty-three, a valued employee of the Bank, and a distinct contrast to her easy going parents. Milly her sister, is a loud slangy girl of twenty-one, a decidedly flapper type. She wears gay colours, has decided opinions which she does not hesitate to express, and indicates by her manner that she considers herself a very capable young woman. George the son, is a shiftless, ne'er do well boy, of nineteen, a clerk in the bank.

Arthur McLeod, friend of Jenny, and Blake Chester, friend of Milly, are just average young men. Mrs. Blinders is a tall slender woman, of the same type as Ma, a roomer in the Fowler home, and constantly on the lookout for news or scandal, and with a flair for dropping in at the mo t inopportune moments, Mrs. Chester is an aristocratic, well dressed woman of forty-five and Mr. Harrison is a typical business man, manager of the Bank. Uncle Ben is a man about the size of Pa, with a breezy Western manner

The curtain raises on the Fowler living room, a cheaply furnished room, littered with clothing on chairs, hanging from nails on the walls, and a generally untidy appearance. Ma Fowler, of huge dimensions is seated on a chair, her stockinged feet on another with her head buried deep in a novel, a box of chocolates open at her elbow.

Minnie Williams, as Ma Fowler, is a scream from start to finish. She throws herself into the part of the slovenly, lazy mother with an abandon that is remarkable. Jos. Little, as the meek discouraged father, chief cook and bottle washer, afterwards as the head of the house, who will be master in his own home, was perfect in the part. Edith Roberts, as the elder daughter, with great solicititude for her parents and the mainstay of the family is very realistic and winning. Mildred Redden, as the flapper daughter, who has no scruples about expressing her opinion of her mother's laziness, and her brother's uselessness, is exceptionally good. Grant Sceney as the ne'er do well brother, and Harry Sexsmith as Jenny's beau are both exceedingly good. Mrs. Campney as Mrs. Blinders acquitted herself with her usual ability, and Edna Haig as Mrs. Chester was very realistic. Everett Chiles as Mr. Harrison, made the most of his part, and Will Sexsmith, as Uncle Ben, with a very good part, was exceedingly good. Great credit must be given Rev. Mr. Archer as director of the play, who proved himself a real genius at picking the characters and coaching them throughout the rehearsals.

During the intermissions, delightful numbers were given by the mixed quartette composed of Misses Una Archer and Barbara Fennell, and Messrs Everett Chiles and Henry Campney. Miss Victoria Robinson gave two excellent readings.

Miss Robinson is an elocutionist of no mean ability, and delighted the audience with her humorous numbers. Miss M. Redden gave a number of popular pianoforte numbers before the curtain rose. During the intermission bags of home made candy were sold, which added to the treasury in no small degree. Those who were unable to attend the play on Friday evening, and who have heard about it from those who attended, will be as anxious to see it the next time it is done here.

# *Will Use Aeroplane For Eskimo Census*

### Enumerators Will Fly Along Hudson Bay's West Coast to Count Population.

WINNIPEG, Man., April 28. —By the Canadian Press.)—In connection with the taking of the Canadian census this year the aeroplane will be used for the first time in the history of the Dominion to count the population in the stretches of the far north, according to E. S. MacPhail, Chief of the Division of Census and Vital Statistics, Ottawa, in a recent interview appearing in a special despatch from Saskatoon to the Manitoba Free Press. Arrangements have also been made for a complete survey of the Eskimo population for the first time.

Mr. MacPhail was in Saskatoon in connection with a conference of the commissioners apointed to take the census in the northern part of the Province of Saskatchewan, after which he proceeded to Edmonton on his official duties.

The census-taking in the far north will begin on June 1, and it is thought the work will be completed by the end of the month. The unorganized sections of the great northland will be enumerated by members of the Royal Canadian Mounted Police, while the aeroplanes will be used for taking the census along the west coast of Hudson Bay.

Before the freeze-up last fall census forms were sent through to the outlying sections of the north, as far as King William's Land and Aklavik.

### As We Do It To-day

The family were eager to rent a cottage in the country for the summer. But no one had time to make the necessary investigations. However, it was all easily managed by telephone. A half-dozen calls found them the very place they wanted. And all so quickly and simply! There is nothing like Long Distance!

Don't miss "Dracula" at the Regent Theatre on Wednesday, Thursday and Friday of this week. The Examiner Cheer Fund gets twenty-five per cent. of the receipts for relief work.

*In line—*

*Universal—to meet a Universal Need*

INSTITUTIONS which have grown up with Canada, sharing in its development and furthering its enterprises, are peculiarly well equipped to serve you.

The "Dominion", Canada's oldest and strongest Casualty Company, prides itself upon a Canadian record in which the following features stand out: Promptness in settlement of claims, generous treatment and unsparing service on the part of our representatives, who give time and forethought to plan Insurance forms to meet individual needs.

Dominion of Canada General Insurance service is a universal service, as wide as the Dominion itself, built to serve *all* and to meet *every* Insurance need.

# *Celebrate Fall Of Monarchy*

HAPPY SCENES IN MADRID

One of dramatic scenes typical of celebrations that marked the fall of King Alfonso and the establishment of a Spanish republic. Riding on the shoulders of their colleagues in Madrid, these republicans are waving the new Spanish flag.

# COMMONS' RULES

(Continued from Page 1)

the aid of the Dominion Treasury, to compel people to undergo periodical medical examinations.

The principle that prevention is better than cure was invoked by Dr. Howeden, who found support from a number of physician members of the House. All were agreed that the burden of sickness fell upon the so-called middle classes. The wealthy could afford to be sick; those less generously endowed with this world's goods could not.

**Dies Honorable Death**

The subject was exhaustively reviewed. But the stumbling block was Dr. Howeden's insistence upon the State medicine scheme being undertaken as a Federal obligation. Some members felt the Provinces were more competent to exercise jurisdiction in this respect. The suggestion was made to Dr. Howeden that he withdraw his resolution, but he preferred, to quote his own words, to have it "die an honorable death." It did. The vote was 70 to 41.

Better fortune attended a resolution moved by General A. E. Ross (Cons., Kingston), who desired that the practise of calling for tenders for the burial of indigent deceased ex-service men be discontinued. This was an indignity to returned soldiers, he said. While there was a reservation, in calling for tenders, that the undertakers should be acceptable to the deceased's family, there were nevertheless difficulties on that score. In some cases the price was as low as $40.00 and as high, in others, as $100.00. The House sympathized with the motive of the resolution and approved it without a division.

The Commons have heard a great deal about Riviere Du Loup within the last few weeks. Yesterday it heard some more. J. F. Pouliot (Lib., Temiscouata) asked that experts be requested to examine the facilities of that place and report to the Government on its suitability as a coal-discharging point and as a distributing centre for Northern New Brunswick. Mr. Pouliot quoted figures to show how inexepensively coal could be water-borne from Nova Scotia to Riviere Du Loup and dispatched from there to its destinations along the line of the Transcontinental.

**Pouliot Loses Out**

Hon. Alfred Duranleau, Minister of Mines, twitted Mr. Pouliot with having remained silent on this point during the nine years the former administration (of which Mr. Pouliot was a supporter) was in office. Surely with a Liberal Government in Ottawa and another, headed by Mr. Pouliot's "friend," Premier Taschereau in Quebec, the member could have got something done. This sally drew a laugh, for Mr. Pouliot's attitude towards Mr. Taschereau is at times less than cordial. The House snowed the resolution under. Mr. Pouliot finding only 27 supporters, while 7 members registered disapproval.

Twenty-three other resolutions, standing in the name of private members were called and allowed to stand. The House then adjourning them. These were Hon. Peter Heenan's, calling for an amendment to the Representation Act so as to enfranchise several hundred persons in the unorganized portion of the District of Patricia, and one sponsored by A. W. Neill (Ind., Comox-Alberni), the latter has for its object the definite settling of Nov. 11 as "Armistice Day."

As the present stands, Armistice Day in Canada is set for the Monday of the week in which Nov. 11 falls, and that same Monday is also known as "Thanksgiving Day." Mr. Neill desires to ensure that the country observe Armistice Day on no other date but Nov. 11, irrespective of whatever date may be set for Thanksgiving day.

A motion by Col. James Arturs (Cons. Parry Sound) to adjourn the second reading of this bill was contested, and resoluted in the third division of the day. The House supported Colonel Arthurs by a vote of 74 to 52.

**Answers Tabled**

A number of answers to questions, and documents ordered by the house, were tabled. Many of them dealt with the reasons why various postmasters and other officials, whose position do not come under the civil service commission, were dismissed. "Active political partizanship" was the reply that threated the vast majority of the replies.

Interesing information disclosed by the documents was that the importation of butter into Canada had greatly decreased between August of last year and the end of March, as compared with the corresponding period the year previously. For these eight months which ended on March 31, 1930, this country imported 28,176,634 lbs., but for the same period that ended four weeks ago, the quantity was only 6,375,109 lbs.

### RUSH POINT.

Messrs. Carl and Murnie Barton are spending a couple of days with their uncle, Mr. John McMullan, at Springbrook.

Miss Alma Dobbin and Miss Stewart of Peterborough, Miss Anna Dobbin, of Rochester and Miss Viola Dobbin, of Lindsay, were Sunday guests of Mrs. Chas. G. Petherick.

Mr. Robert Denny and Mr. David Jacobs, of Rush Point, left recently for Smiths Falls.

Mr. Guy Saul is spending a short time at Rush Point with his sister, Mrs. Norman Blakeley.

Mr. Frank Keating, of Campbellford, and Chas. G. Petherick, spent Tuesday in Peterborough.

Mr. D. Moore, of Round Lake is moving to the Bert. Robson farm near Marmora.

Mr. and Mrs. Bruce Johnston of Marmora visited relatives here recently.

Mr. and Mrs. Ross Hart and family were Sunday guess of Mrs. Norman, Blakely.

Mr. Reg. Barton was at Rylestone on Saturday, on a business trip.

Many factories in Uruguay are returning to full-time schedules.

# CADETS INSPECTED BY CAPT. ISBESTER

### Annual Cadet Inspection Was Held in Cobourg This Morning.

COBOURG, April 28—Inspection of Cobourg collegiate and public school cadets was made separately this morning, one corps in Victoria Park and the other at the institute, by Captain M. Isbester of the district cadet office with headquarters in Kingston. The collegiate corps under the instruction of T. H. McClelland, athletic director, was inspected at 11 o'clock.

**Begin Sentences**

Leslie Forbes of London and Harold Blanchard of Des Moines, Ia., self-confessed robbers of the Dominion Bank in February, have been taken to Guelph Reformatory, there to serve their sentences of two years less one day. Walter Clifford, the third of the gang, is still in Cobourg jail, not being well enough to be removed.

**Mrs. Charles Kelly is 84**

Mrs. Charles Kelly, one of Baltimore's oldest residents, celebrated her 84th birthday on Thursday and was the recipient of many thoughtful presents from her hosts of friends. Mrs. Kelly is the daughter of the late Mr. and Mrs. John Mulholland, who came to this country from Ireland more than a hundred years ago and who were among the earliest local settlers. She was married in the year of Confederation, and her husband lived for two years after they celebrated their golden wedding anniversary together in 1917.

**Court Starts May 18**

Supreme Court sittings of the High Court of Ontario will open in Cobourg on Monday, May 18, with Mr. Justice Garrow presiding. It appears now to be probable that Sheriff D. J. Nesbitt will present white gloves to Mr. Justice Garrow as he did to Hon. Mr. Justice Rose on March 17 at the spring assizes.

## YOUNG'S POINT

On Friday evening the sons and daughters of Mr. and Mrs. Andrew Wilson, Young's Point, gathered at the home of their parents and presented them with a solid walnut dining-room suite, it being the occasion of their thirty-sixth wedding anniversary. A number of the neighbors also called to express their congratulations, and a pleasant evening was spent in music.

## OBITUARY

**MRS. JOSEPH ROBINS.**

ROSENEATH, April 28.—(Examiner Correspondence.)—The death occurred in Roseneath on Monday, April 27, of Jennie Webb, beloved wife of Joseph Robins, aged 75 years.

Besides her sorrowing husband she leaves to mourn her loss four daughters, Mrs. Herbert McCracken and Mrs. Rupert Nichol of Alnwick township; Mrs. Thomas Hall, of Campbellford, and Mrs. James Brown, of Clarkston.

The funeral will be held on Thursday afternoon at 2 p.m. from her late residence to St. James' church and burial will be made in St. James' cemetery.

Gyproc *Says*

"KEEP OUT"

*to*

Fire, Draughts, Rodents

GYPROC Wallboard that *does not burn* is the way of least expense when you desire to make alterations in your home, store, factory or on the farm. Use it for all walls, ceilings and partitions.

Gyproc is made from gypsum rock into sheets 4 to 10 feet long, 4 feet wide and ⅜ of an inch thick. It nails and cuts as easily as lumber with a minimum of waste or muss.

Gyproc is fire-resistant, easily and quickly erected, structurally strong and has insulation value. It is draught and vermin-proof as well as fire-safe.

Because it is ivory-coloured, it does not require decoration (when panelled) yet it is also a suitable base for Alabastine, Gyptex or wallpaper.

Consult your nearest dealer to-day. He will gladly supply you with a direction sheet on Gyproc. Or write for the interesting, free booklet, "Building and Remodelling with GYPROC". 879

# RICHARD HALL LIMITED

# MADOC DISTRICT CHEESEMAKERS ELECT OFFICERS FOR ENSUING YEAR

John Finnegan Succeeds W. E. Brennan as President—A. Johnson Secretary-Treasurer.

**FINE ADDRESS GIVEN.**

MARMORA, April 28.—(Examiner Correspondence) — John Finnegan, cheesemaker for the past eleven years at Silver Leaf Cheese Factory, Marmora, was elected president of the Madoc District Cheesemaker's Association at the spring meeting held in Madoc on Tuesday of the past week. He thus succeeds W. E. Brennan, the enterprising young man who has handled the reigns of office for the three years which have passed since the inception of the movement. Mr. Brennan, to the regret of his colleagues, has left the district but still retains the presidency of the Central Ontario Cheesemakers Association.

Mr. Finnegan, the new president of the Madoc Association is becoming a veteran since he has been making cheese for 26 years and has carried off several high honors. He capably filled the office of Secretary Treasurer in the first year of the Association's short history and with his wide knowledge and popularity is expected to closely approach the splendid leadership hitherto given by "Ernie" Brennan.

**Officers.**

Bert Anderson, Oak Leaf Factory, Cooper, was elected to the vice presidency and Alex Johnston, Spring Hill Factory, Madoc, was wisely given the Secretary-Treasurer's position for a second term. The directors appointed were W. Johnston, Charles Spencer and Frank Nathan.

Herbert Bailey, the local instructor, before asking for the election of officers remarked that ten of the makers in his district has a 100 per cent record last season. Five have left the district and are being replaced by younger men, whom it is hoped will be able to keep up last season's record. The newly elected president first called on Charles Linn, instructor for the Stirling district, to speak. Mr. Linn is always most at home in his old district and his remarks are always deeply appreciated. He warned makers to be extremely careful in accepting milk in rusty cans this season and also advised them with the low price of cheese, to do their utmost to keep the overhead of the factory as low as possible. His closing remarks were in the nature of a plea for scrupulous cleanliness in and about the factory.

James Irwin, Government grader always a welcome figure at these meetings, spoke on the various contests and expressed the hope that the Griffin Shield would come to Eastern Ontario this season. He believed that next season would see the elimination of special grade cheese. J. Cooke, buyer, urged the manufacture of better quality cheese.

J. Griffin of the Ontario Milk Producers Association also gave a very helpful address. Mr. Williams of Picton, followed with a talk on group accident and sickness insurance.

Instructor Bailey, concluding speaker thanked preceding speakers for their timely addresses and made some very practical observations.

Meetings will be held this season at the following factories: Queensboro, Silver Leaf, Daisy, Eldorado, Stoco and Pineview. Patrons are being given a cordial invitation to attend these meetings.

## *Fight Ends In Death For Farmer And Wife*

STUTHBURY, Conn., April 28.—The bodies of Edgar T. H. Oxford, 30, a farmer, and his wife, Laurie, 25, were found in their home early today by state police who had been called by neighbors when the couple were heard quarrelling.

After an investigation police expressed the opinion that Oxford had killed his wife and then turned the revolver upon himself. A three-year-old son, Peter, was unhurt.

## *Canadian Money Found Worthless*

(Continued from page one)

they won't allow a dime on it. Even the British banks turn up their noses at U.S. silver over here. In case this makes Canadian readers feel lofty and important it's worth noting that our own silver is not worth it's weight in sawdust.

I learned this last week at the base of the famous Hassan tower where tourists are considered legitimate prey for countless merchants who come around loaded with leather, Morocco leather at amazingly low prices. I was buying nothing because I had no room. I also had not money but didn't discover that until afterwards.

One youth with his head all shaved off except for a long pig tail Chinese fashion stuck a really beautiful bill fold in my pocket and demanded "two dollaw." I handed it back so he clawed and pawed in typical Arab fashion. He was willing to do anything there and then for money except have his picture taken. Every time I'd thrust the purse away he hurled it back again. We had a two-man ball game there among earthquake ruins while stray tame monkeys looked on hopefully.

Finally out of sheer exhaustion I went into my pocket and produced five francs, (.20) two pesetas (.24) two quarters (.50) and a Canadian ten cent piece. I offered the works for the purse. It amounted, as you see, to $1.04. The boy gleefully accepted and vanished.

I climbed the amazing deep shadowed tower to emerge at the top facing one of the most beautiful views human eyes will ever look on. The white capital of Morocco was spread out in brilliant panorama. Away toward the desert was the sultan's palace. To the right was the Atlantic sparkling in the bluest of all blues and just to add a touch of mystery two veiled women were taking the air right at the edge.

**Ruins Of Largest Mosque.**

Below was the ruins of the largest mosque ever built by man. Four hundred stone pillars spread out like ghostly sentinels. Pillars which had never seen a worshipper because an earthquake came and destroyed this huge temple a few weeks before it was formally opened. Storks had built nests atop most of them now and spent their days in a heroic fight to try and stop the baboons and lesser monkeys from stealing their eggs.

Down at the bottom boys were running around with monkeys on their heads anxious to have you photograph them for money—photograph the monkeys, not the boys.

When I descended one of these had collected quite a neat pile of American silver. He treated it as so much tripe. He spotted me as an amateur banker and offered me four quarters for 10 francs. That was a bargain in any man's language so I hurried among the tourists I knew, borrowed 50 francs and set out to establish the Sinclair International Bank. The bank did a thriving trade and the first day's profit was roughly 4000 percent of the initial capital.

Perhaps there was no initial capital at all because I borrowed the 50 francs and the men who lent it were delighted to get back $2 American. That let me with $3 profit but there was still silver to be bought as additional U.S. funds were kicked in for figs, postcards, picture frames and brass cups. I borrowed more, returned the original capital and profited by another dollar.

On the way back to Casablanca my fellow travellers were green with envy when this little tale was unfolded. J. E. McCully who works in the Bank of Montreal will probably never get over this shock because Joe knows all about exchange rates in the first place, and contributed some of the francs in the second.

But you can't pick up expense money quite so easily every day because there aren't Americans here every day. I roamed around the tower to-day anxious to find similar big hearted suckers and there was none. I could have had lires and marks but no quarters. However a batch of Americans are due day after tomorrow and the Sinclair International Bank will once more be in operation.

Don't miss "Dracula" at the Regent Theatre on Wednesday, Thursday and Friday of this week. The Examiner Cheer Fund gets twenty-five per cent of the receipts for relief work.

## C. J. WINDRIM IS ROTARY SPEAKER

Addresses Campbellford Rotary Club on Chain Store System.

**DISPLAY EMPHASIZED.**

CAMPBELLFORD, April 28 (By Examiner Staff Correspondent) — An address on the modern chain store by C. J. Windrim was the feature of the weekly luncheon of the Rotary Club, held yesterday in the St. Lawrence Hotel, vice-president Alex MacColl occupying the chair.

Mr. Windrim, who is the local manager of the Sell-Rite store, described how the chain store business started with S. W. Woolworth, who now operates one of the largest concerns in this line in the world. He said that Woolworth had the conception of a variety store business which would cater to all classes of people, sell at a reasonable price and command a quick turnover.

The first essential was the selecting of articles that sell in the community in which they were placed, these commodities differing according to the location. Quantity is also a factor, the larger stores carrying an extensive variety of lines, the smaller stores cutting the lines considerable, the average number of varieties in the latter class store being about two thousand. Then again the speaker explained, these lines have to suit the community in which they are placed. A mining centre would need lines that would not command a sale in an agricultural area.

This work of selection is handled by the manager of the store, and Mr. Windrim stated that it is often asked "how does the manager know what lines are saleable in the community seeing that he makes no canvas?" This information, he explained, is obtained from behind the counter. Each clerk has a want list, and when a customer asked for a line of goods which the store does not carry, this is noted. This list being carefully considered by the manager and his stock is equipped from the information gained from it.

**Toronto Headquarters**

Of the Sell-Rite Store Mr. Windrim stated that the headquarters were in Toronto. This concern carries its own departments, including printing and advertising, the heads of these departments being specialists. This business also has its special buyers.

The speaker pointed out that one of the main factors in selling in this type of store was through the system of display. Every line carried was given careful consideration and according to its sale value, was given space on the counter. "Counter space was always determined by the sale of the article," Mr. Windrim stated, pointing out that one of the main features in drawing people to the variety stores was the counter display which could be viewed irrespective of whether a person bought or not.

In moving a vote of thanks to the speaker the chairman said that Mr. Windrim's store was a distinct asset to the town because of the novelty and variety of the stock and the reasonableness of the prices.

## RHEUMATISM

### Neuritis—Sciatica

**For Swift Relief Here's Something That Never Fails**

Make no mistake—there is one supremely good remedy for ailing joints and muscles and the name of that wonder worker is—JOINT-EASE.

All over the world people use it for the agony of Rheumatism, Neuritis and Sciatica—and find it good.

Just rub it in—and rub it in good—it's a splendid penetrating emollient is Joint-Ease and when you rub it in—away it goes—right to the seat of pain and agony—Then blessed relief comes speedily.

Use it freely for joints that are stiff, inflamed—swollen or creaky—use it to put youthful suppleness into joints that are growing old.

Use it for swollen knuckles—for stiff neck—lameness—lumbago and lame, aching back—it will never disappoint you.

Joint-Ease is made in Canada and sold wherever good medicines are sold—60 cents a generous tube.

## SCOUT NEWS

**1ST CAMPBELLFORD TROOP**

CAMPBELLFORD, April 28 (By Examiner Staff Correspondent) — For many weeks past the 1st Campbellford Troop, Boy Scouts has been mystified as to what the secret was that headquarters were keeping from the local organizations. At last however, this "mystery campaign" has been uncovered.

This proves to be a big drive to make sure that every Boy Scout and Rover in Ontario has a practical knowledge of the Schafer (sometimes known as the Prone Pressure) method of artificial respiration and in this way prepare to do something to help minimize fatalities during the 1931 "drowning season." A second phase of the campaign will aim at spreading this knowledge among those boys who are not scouts.

This campaign will officially open on May 1st. All members between that date and May 16th will concentrate on this training regardless of their Scout grades. Expert instruction will be obtained where possible, citizens of the town and community being asked to help. From May 16 to the end of the month Troops and crews are asked to pass their knowledge of artificial respiration on to as many boys as they can. In some cases trained teams of boys will give demonstrations at schools and before other boy organizations.

The 1st Campbellford Troop under Scoutmaster M. H. Sergeant will fall in line with this campaign and conduct these classes and every boy in the troop is called upon to play his part in this campaign to the best of his ability.

## HOME TOWNERS

**Tidbits Interesting and Humorous CAMPBELLFORD**

Mr. and Mrs. C. B. Williams were visitors to Hamilton on Sunday.

Regret is expressed that Reeve N. Stone is again confined to his house through illness.

Messrs. H. N. Carr and E. C. Dolman are attending the Rotary convention being held at Niagara Falls this week.

Quite a number on the Bunker Hill Line are down with the flu.

After a successful operation at Nicholls Hospital, Peterborough, Miss Isabell Herriott returned home on Saturday.

Mr. A. Hazell is getting along fine with the singing lessons at S.S. No. 13. Watch for high class singing at the school concert next Christmas.

## *Constables Differ On Man's Sobriety*

LINDSAY, April 28 (Examiner Correspondence)—Two police constables at variance as to whether a man was intoxicated or not, was a feature of an interesting court action before Police Magistrate ordan at the police court on Saturday afternoon.

Provincial Constable Porter laid a charge of intoxication against J. W. Patterson, of Reaboro, a trustee of S.S. No. 10, Ops, following a visit of the latter to a dance recently held in the school. The accused, it is understood, objected to the dance being held and in registering his protest, accidentally upset the collection table at the door. Constable Porter in his evidence declared that Patterson was intoxicated, but Provincial Constable Nelson gave evidence to the contrary. Three witnesses for the Crown and six for the defence in their evidence would not say that the accused was intoxicated, although two swore that they smelt liquor on his breath.

Police Magistrate Jordan remanded Patterson for judgment. Mr. Cecil Frost, counsel for Mr. Patterson, asked for a non suit as he could not be convicted on a "smell."

## Lakefield

Mr. E. W. Bailey, plant superintendent and E. Hill, safety engineer of the Lakefield Plant (No. 7) of the Canadian Cement Co. were in Toronto last week as delegates to Industrial Accident Prevention Association convention being held at the Royal York.

Mr. W. E. Leonard of Queen's University, Kingston, has returned home for the summer vacation.

Mrs. MacMillen was in Sunderland and Whitby last Sunday.

Mr. R. J. Jory was at Kawartha Park on Sunday last.

Mr. and Mrs. F. R. Hendren and children of Toronto were week end guests of Mr. and Mrs. Abel Hendren.

Mr. Paul Payne of Mount Julian was in the village on Wednesday last with friends.

Mr. and Mrs. J. W. Ridpath spent Sunday last at Kawartha Park.

Miss Ora Dunsford of Hall's Bridge was a week end visitor at her home in the village.

Mr. and Mrs. D. H. Charlton and daughters were at Kawartha Park on Sunday last.

Mr. Abel Hendren of Toronto spent the week end with his family in the village.

Mr. Frank E. Madill of Queen's University, Kingston, is home for the vacation.

Mr. and Mrs. James Millar were visiting friends at Kawartha Park on Sunday last.

Mr. John I. Ridpath of Toronto spent a few days in the village last week with Mr. and Mrs. J. W. Ridpath.

Mrs. W. W. Yale and Miss Lois Yale are visiting the former's father, Mr. D. R. Farquharson, in Chatham.

Miss Thelma Carveth of Curve Lake spent the week end at her home in the village.

Mr. and Mrs. Nathan Payne were in Sunderland and Whitby on Sunday last.

Mr. Wilfrid Pluard of Loyola College, Montreal, is visiting Rev. J. J. Garvey.

Miss Elva Hendren of Toronto was a week end visitors at her home in the village.

Miss Helen Porter of Queen's University, Kingston, is spending her vacation with her parents, Mr. and Mrs. J. A. Porter.

Dr. J. C. Smith was in Toronto last week.

Mr. R. Bloomfield of Marmora was in the village last week visiting friends.

Dr. and Mrs. H. E. Moore and family were visiting friends in Whitby on Sunday last.

Mrs. Winslow of New York was in the village last week visiting her sons, Hugh and Terry, who are at the Grove.

Mr. Gordon Porter, B.A., of Queen's University, Kingston, returned home last week.

Mr. Sam Spencer of Queen's University, Kingston, is spending his vacation with his parents, Mr. and Mrs. Percy Spencer.

Mr. and Mrs. Charles Thomson and the Misses Thomson were at Kawartha Park on Sunday last.

Mr. William Thompson or Mount Julian was in the village on Saturday.

There was a fair crowd at the dance held on Friday evening under the auspices of the Lakefield Hockey Club and the young people, who constituted the major portion of the crowd, all had a delightful time. The music was supplied by Morcrief's orchestra.

The choir of St. Paul's Church, Peterborough, consisting of seventy voices are putting on the grand opera, 'Martha" in the Lakefield Town Hall on Thursday evening of this week under the auspices of the Woman's Association of St. Andrew's Presbyterian Church. This should be the outstanding musical event of the season.

## PROFITS IN HOGS DECLARES MOORE

Veteran Reeve of Elziver Clears $214.50 on 18 Hogs.

**AVERAGED 230 POUNDS.**

QUEENSBORO, April 28 (Examiner Correspondence)—James A. Moore, lot 14, concession 2, Elziver township, who is serving his 20th consecutive year as reeve of the township and who has been for several years chairman of the roads and bridges committee has recently demonstrated the fact that there still is profit in raising hogs for the man who will study the science and economics of the industry.

Mr. Moore fattens and markets from forty to sixty hogs each year which are shipped from Queensboro station. He believes in feeding only twice a day after weaning and in providing the hogs with a warm, clean pen and comfortable bed of straw.

This year Mr. Moore marketed 18 well bred Yorkshire hogs for which he received the handsome sum of $379.50. At feeding time the hogs were given, first all the water they would drink and then what barley meal, well moistened, they could clean up in an hour. Care was taken not to be overfed. The hogs lacked two days of being six months old and their average weight was 230 pounds. Mr. Moore bought the feed at $22 a ton delivered on his premises. He kept an accurate account of the expenses and states that he had $214.50 for his labor and the initial value of the porkers, which weaned themselves at ten weeks of age, after which time they were kept housed until marketed. Not allowing for some whey fed during the first three months the total cost of feeding amounted to $50 and for the last three months $115, a total of $165 leaving the handsome margin stated above. Two grown hogs also consumed some of the feed for which no allowance was made.

Mr. Moore claims that this is as much or more than he has ever realized in profit from hogs at any time during his many years of farm life and states that as long as he farms he expects to keep hogs for business is to quite an extent just what a man makes it.

## REV. J. F. EVERSON WINS DIPLOMA

Six Students Are Awarded Certificates in Teachers' Training Course.

QUEENSBORO, April 28 (Examiner Correspondence) — The Rev. J. F. Everson, of Queensboro United Church, who has been engaged in Leadership Training work each year since 1925 has just received from the United Church of Canada the Christian Leaders Diploma, having completed all the requirements of the Standard Leadership Curriculum as prescribed by the Board of Religious Education.

Mr. Everson has conducted two classes since last fall and the following six students have just been issued certificates on "The Teaching Work of the Church," Miss Ida McCaw, Mrs. C. B. Hamm, Mrs. John Alexander, Sr., Miss Marion Love, Mrs. J. F. Everson and Miles Dyer.

**Queensboro Personals**

Mr. Charles Sager has been engaged for the past several days erecting a new wire fence for Mr. Bruce Leslie along the north side of his farm.

Miss Jessie Delyea was in Madoc Saurday on business.

Mrs. Tessa Keene, who broke a bone in her ankle some time ago is still having trouble with it and has gone to live for a while with her sister, Alice at Calabogie.

The Rev. J. F. Everson and Mr. George A. Ketcheson represented the Queensboro charge at the Presbytery meeting held in Bloomfield United Church, Tuesday, April 28th.

Mrs. J. F. Everson and Mrs. John Alexander, Sr., are spending a few days this week the guest of friends in Belleville.

Mr. Sorel of West Huntingdon has been engaged to make cheese at the Remington factory this summer.

Mrs. Bailey, of Cooper has returned home after spending several days the guest of her daughter, Mrs. Fred Rollins.

The Misses Fleming, of Ivanhoe were the guests on Sunday of Mr. and Mrs. George Harris and attended church at Hazzard's Corners in the afternoon.

## Warsaw

The Dummer S.S. Association executive met in the United Church basement on Friday evening.

The convention will be held at Bethel Church on afternoon and evening of Wednesday, May 20. The Bethel ladies will serve supper, but it was decided there should be a small charge made. The convention has gone the round of all the Sunday schools in the township and at each a free supper has been served. The executive considered it just to announce a charge.

The only change in ministers is Rev. Mr. Wilkinson is on the Warsaw United charge instead of Rev. Mr. Herrington.

Ninth Line Sunday school is still without a superintendent.

Mothers' Day and Rally Day will be held on the second Sunday in May in most of the schools in the township.

Miss Verna Miller, nurse-in-training at Nicholls Hospital, is home on her vacation.

Mr. and Mrs. George Weller arrived home on Friday evening after visiting Mrs. Weller's father at Sharbot Lake.

Gordon Payne finished his Spring sowing on Tuesday, April 21.

Mr. and Mrs. W. Hawthorne, who recently moved to Smith were in the village on Saturday to attend Mr. Choate's funeral.

## *Marmora*

Percy Gray, son of Mr. and Mrs. Floyd Gray of Deloro was admitted into Nicholls Hospital, Peterborough, on Sunday evening, suffering from appendicitis.

## STOP MOTH ** DESTRUCTION

In one years time moths do damage to the extent of thousands of dollars. Do your share to stop this destruction by using FLY-TOX . . . the guaranteed moth killer. No moth can live when touched by FLY-TOX penetrating mist. Spray directly on clothing, rugs, upholstery, etc. FLY-TOX will not stain.

31-9-M

*FLY-TOX is Made in Canada*

## Cuticura

**Ointment** → Pure, soothing and healing, it quickly banishes blemishes and itching skin affections.

**Soap** → Pure and fragrant, it brings to the skin **Health** as well as **Cleanliness.**

**Talcum** → Pure and smooth, it soothes, cools and refreshes the skin.

Sold everywhere. Soap 25c. Ointment 25c. and 50c. Talcum 25c. Shaving Cream 25c. Canadian Depot: J. T. Wilt Co., Ltd., Montreal. Try the new Cuticura Shaving Cream.

# HASTINGS RIFLE CLUB ORGANIZED

**Conditions and Playing Field Thoroughly Discussed at Saturday's Meeting.**

**OFFICERS ELECTED.**

HASTINGS, April 28 (Examiner Correspondence)—Despite the inclement weather on Saturday night there was a large crowd present at Lynch's Hall for the purpose of forming a Rifle Club.

Captain H. Neilson of Westwood who has considerable experience in the forming and carrying on of rifle clubs was the guest speaker of the evening and also acted as chairman.

In calling the meeting to order, Captain Neilson explained the purpose of the meeting. He had been approached a short time ago in regards to forming a club in Hastings he had written to Kingston and secured all the information, rules and application forms. The club in order to receive a grant must have forty members for which they would receive $2 for each member as a grant; for each member over forty the grant would be $1. This grant would be used for the purpose of getting equipment and fixing up the range. The club would become defunct if their membership dropped below thirty members. Rifles would also be granted, one to every four men as well as ammunition.

The matter of a site was gone into very thoroughly. Captain Neilson explained the main things in picking out a suitable site. It was necessary to have six hundred yards for the range, also five hundred yards on each side and twenty five hundred yards at the rear.

The election of officers resulted as follows: captain of the range, George Lynch; secretary-treasurer, W. W. Knight; committee: Messrs. Walter Whitred, William Whitred, E. J. Lynch and E. Radford.

The fee was set at $1 for each member. This will go towards the purchase of trophies and cups in which to create an interest.

The secretary had secured almost the required forty members Saturday night at the meeting and there is no doubt but the membership will be very close to one hundred.

The captain, secretary and committee will look over the different sites the first of the week and will call another meeting to report.

# FORMER NURSE GIVEN SENTENCE

**Mrs. Amy Irish Gets 2 Years Less Day For Part in Cab Office Hold-up.**

**COMPANION TO HANG.**

MONTREAL, Que., April 28 (C.P.)—For her part in planning the hold-up of the De Luze Cab Company offices that led to the shooting of Arthur Graham Reid, night cashier, Mrs. Amy Irish, a former nurse, today received a sentence of two years less one day in the common jail.

Mrs. Irish stood trial with Thomas McHugh for the holdup in which Reid lost his life defending $15,000 of the company's funds. McHugh was convicted of murder and sentenced to hang, but Mrs. Irish, who lived with him and helped plan the crime, was convicted of a lesser charge, that of manslaughter.

In passing sentence to-day, Chief Justice Greenshields, who presided over the trial, paid tribute to her fine record as a nurse, and laid her troubles to bad company.

**MOUNT JULIAN**

Mrs. Ianson and Miss Miller, of Oshawa spent a few hours at "Viamede," on Thursday.

Mrs. John Thompson spent a few days last week visiting in Lakefield.

Mr. and Mrs. Oxley and son, Barney of Toronto have opened their summer home on Stoney Lake and are there for the season.

Joseph Northey and John Thompson carried off the first prizes at the euchre party last week. The consolation prizes were taken by Ernie Lean and Mabel Northey.

The next party will be held at Gordon Reid's home on Wednesday evening.

The Sherins, of Lakefield visited their summer cottage near here on Sunday.

Miss M. Kidd spent Monday in Lakefield, due to the accident which befell her nine year old niece there.

The South Burleigh Dairy Company held its spring meeting on Thursday afternoon and decided to commence operations on May 18th. William Matthews and Bruce Reid are hired to draw the milk for the coming season.

# OBITUARY

**CHARLES H. MANN**

HAMILTON, April 27.—Charles H. Mann, one of Hamilton's best-known residents and a prominent fraternalist, passed away Thursday evening at his home, 45 Fairholt road south, at the age of 57 years. Some months ago Mr. Mann was stricken with heart disease, and hopes were held for his recovery, but he passed away quietly Thursday evening about 7 o'clock, following a second heart attack.

Mr. Mann had been secretary-treasurer and general manager of the I.O.O.F. temple of this city for some years, having previously held the position of president of the company. He was also a past grand master of the grand lodge of Ontario and a past grand representative of soverign grand lodge of the world. Mr. Mann's outstanding career in the I.O.O.F. began with his initiation into Unity lodge, No. 47, in 1903, and he rose rapidly in the order until he became past district deputy of Hamilton. In 1914 he was elected grand warden and in 1917 elevated to the office of deputy grand master from a membership of 80,000, and later became grand master. During Mr. Mann's tenure of office as grand master of the lodge, it flourished in all departments and on the expiration of his term he was presented with a past master's jewel. Other recognition of the deceased's faithful service was the presentation in 1916 of the P.D.D.G.M. jewel. He was identified with the following lodges of the order, Unity, Canton, Burlington, Encampment of Hamilton, and Justicia Rebekah, as well as being a member of the home board. For years, Mr. Mann played an outstanding part in the first degree team of Unity lodge, being especially gifted for initiation work.

Mr. Mann held the vic-president's chair on the board of the Odd Fellows' home in Toronto, and there his wise counsel was continually sought regarding matters of administration. His amiable disposition made him a general favorite at the institution, especially with the children and the aged folk, whose lives he had done much to brighten.

The deceased belonged to the Masonic order, claiming membership in Hugh Murray lodge, A., F. & A. M., St. John's chapter, No. 40, R.A.M., and the Godfrey de Bouillon preceptory, and was ever zealous in upholding the high ideals of Masonry. He attended Wesley United church.

Mr. Mann was born in Bridgenorth, Ont., and is survived by his wife, Alexina Mann; two sisters, Mrs. John LeDrew, of Brantford, and Mrs. Jennie Roseborough, and one brother, Edward Mann, both of Davidson, Sask. A sister-in-law, Mrs. James Mann, resides in this city. The funeral was held on Saturday afternoon at 3 o'clock from the I.O.O.F. temple, Core street, to the Hamilton, mausoleum.

**MRS. JAMES MURPHY**

HASTINGS, April 28 (Examiner Correspondence)—The funeral took place on Sunday afternoon of a former very highly respected resident of Percy Township in Mrs. James Murphy, in her 87th year.

The late Mrs. Murphy whose maiden name was Ellen Nealon has been residing in Marysville with her son, Michael where her death took place. Before going to Marysville some six years ago the deceased resided in Percy Township for a great number of years.

The funeral which was by motors arrived in Hastings about 1.30 and was met by a very large number of friends. The bearers were Messrs. Tom Currie, Charles Maher, Peter Fields, R. Kennedy, M. McAlpine and J. McCullough. There are left to mourn her loss one son Michael.

Interment took place in Hastings R.C. cemetery. Rev. Father P. J. Kelley said the prayers at the grave.

**ARTHUR FRANCIS CHOATE**

WARSAW, April 28.—(Examiner Correspondence).—The funeral of the late Arthur Francis Choate took place from the home of his son, H. G. E. Choate, Burnham street, Peterborough, on Saturday afternoon, to Warsaw Church and burial was made in the family plot in Warsaw cemetery. Members of All Saints' choir, with Mrs. Charles Foster as organist, lent the dignity of a surpliced choir to the church service.

Rev. J. T. O'Conor-Fenton, rector of Norwood and Warsaw, led the service at the church and at the grave; Rev. J. D. Paterson, rector of All Saints' Church, Peterborough, read the Epistle and Venerable Archdeacon Warren, of Toronto, gave the sermon, and it was inspired by forty-two years of friendship and based on the words, "Every man living is altogether vanity." The speaker said these words did not mean life was of no value, but that human life is transitory, a passing, a breath. "Death reminds us life is transitory, but death is the doorway through which we pass when life on earth is done. There is no stated time for us to pass through the doorway—the years may be few, or as with Mr. Choate, many. Mr. Choate placed on life a real value and strove to fulfill the demands of that value. He took a broad view of life and of its universal interest. Jesus Christ died and rose again; so shall we rise again from the ashes of our former life for 'as by man came death, by man came also the resurrection and the life.' Do not be downcast by what we do not know—have faith; we have eternal life, through Jesus Christ our Lord."

Circumstances were such that contrary to the usual custom of the Anglican Church the casket was opened and Rev. Mr. Fenton asked the friends who wished to look again upon the well-known face, to do so.

Pall-bearers were Sam Hunter of Toronto; James Lynch, of Peterborough; Nathan Payne, of Lakefield, and three grandsons, Eugene Bell and Grover Choate, of Toronto, and Kenyon Choate, of Peterborough.

Among those from outside Warsaw who attended the funeral were Dr. and Mrs. Herriman of Cobourg; Mr. and Mrs. George Stevenson of Toronto; Mr. Ralph Wilson, of Toronto; Mr. and Mrs. Arthur Galt and Mr. Robert Myers, of Napanee; Mr. and Mrs. O. B. Earl of Toronto; Mr. R. M. Grover, of Norwood.

# WIFE DESERTER IN POLICE HANDS

**Regina Man Missing Six Months Captured at North Dorchester.**

**MOUNTIES ON TRAIL.**

LONDON, Ont., April 28. — The famous long arm of the Royal Canadian Mounted Police has reached across three Provinces, to gather in Robert McCloy, wanted in Regina, Sask., for deserting his wife and two children. McCloy was arrested as the result of a circular sent to Inspector R. H. Gardner of the Provincial Police here, and arrangements have already been made to return him to face the charge. A Mounty is expected to reach London on Wednesday to take him back.

Provincial Constables Sherville and Ostranger, of St. Thomas, arrested McCloy on Saturday afternoon in North Dorchester. According to police the wanted man had been working at odd jobs on Elgin County farms. He had been missing from home for about six months, it is claimed.

Mr. Clare O'Brien spent Wednesday evening with Mr. and Mrs. Victor Craft.

Mr. William Collins of Peterborough has returned home after spending a few days with his uncle, James Collins.

Mr. Herbert McKay and family spent a day visiting relatives in Norwood recently.

# MRS. DORLAND DALE IS ENJOYING GOOD HEALTH AT RIPE OLD AGE

**Pioneer Resident of Granddaughter of One of Canada's Earliest Parliamentarians.**

**BORN IN BRIGHTON.**

MARMORA, April 28 (Examiner Correspondence)—In the person of Mrs. Dorland Dale, mother of Joseph Dale of the village of Marmora, one meets the granddaughter of one of Canada's first parliamentarians, James Wilson. This kindly old lady who has spent a good share of recent summers with her son in this village was born at Brighton, Ontario on February 3, 1846, the youngest of thirteen children born to Mr. and Mrs. Mark Devlin. Her father was associated with the late Joseph Fraser Way, who was the Crown timber agent at Belleville and his occupation was described in those days as that of a penman.

Brighton during Mrs. Dale's girlhood was a mere settlement. As a young girl she came to reside at Marmora with her brother John who was several years her senior. John Devlin's name has been passed down the many intervening years and is to-day thought of as a shoemaker of repute. Mrs. Dale attended the old village school, that stone building which later underwent changes through reconstruction and fire till now it is known as the Soap Factory ruins. William Armstrong whom records point to having been a village worthy was the teacher at that time.

It is interesting to note that a fellow scholar of Mrs. Dale's still resides in Marmora in the person of James Bowen, son of the late Daniel G. Bowen, J.P. Though she was only three years of age at the decease of her grandfather, Mrs. Dale has proudly treasured up much of what her father narrated to her concerning him. For twenty-one years successively, the late James Wilson, M.P., sat in Canada's parliament. After his first election acclamation was accorded him as Liberal member for the riding wherein he lived. On one occasion he was returned to his seat during an enforced absence in the province of Quebec. Mrs. Dale has expressed the opinion that there was more unity among members of Parliament in the earlier days to what there is now. Though she is of pure Irish descent, this is her claim, "There is no other country equal to Canada and when I say this I mean also that I am loyal to my King and country." When the subject of ancestry was being discussed she declared that people do not have such pride in their ancestry as formerly. She further volunteered the opinion that ministers of the various denominations are mingling more with each other than in the past. She was brought up in the Methodist faith and little conversation with her is required to prove that her religious instruction was not left to chance. Her eyes brightened at the mention of the three cardinal virtues, "Now abideth faith, hope and charity, these three," quoted her interviewer, "and the greatest of these she responded is charity."

**POLISHED SILVER.**

If you drop silver that has been used on eggs into a pan of salt water the minute they come from the table, they are less likely to be discolored.

## *Young People Hold Out-Of-Door Meeting*

FRASERVILLE, April 28 (Examiner Correspondence)—A very enjoyable out of door meeting of the C.G.I.T. group and Tuxis Boys was held on Friday night at the creek just below Mr. Snelgrove's. At the beginning of which both held their regular meeting, two very cheerful bonfires providing sufficient light.

Eleven members and one visitor was present at the C.G.I.T. meeting.

Business was discussed and it was decided that the girls would be responsible for decorating the church with flowers during the summer months.

At the conclusion of the meeting a very interesting debate took place between members of the C.G.I.T. and Tuxis, "Resolved that summer sports are more enjoyable than winter sports." The judges, Miss B. Reesor, Harry Cunningham and Rev. E. F. Swayne had much difficulty deciding which side should win and finally called it a tie. Those supporting the affirmative were: Roberta Holden, Mary Atchison and Roberta Wood; the negative Ralph Hanbidge, Melville Wood and Raymond Atchison.

# WOMAN WRITER SEES GANGLAND

**Mrs. Cecil Chesterton Writes Second Book on Shadier Side of Old London.**

**IN WORLD OF CRIME.**

LONDON, May 1.—(By the Canadian Press)—I do not suppose any other woman has explored the underworld of London as Mrs. Cecil Chesterton has, says a reviewer. Her book, "In Darkest London," is now in its fourteenth thousand and she has followed it up with further accounts of her adventures among the outcasts of the great city. In "Women of the Underworld" she tells of the lives of pove ty and crime which are all about us, so closely akin to, yet so strangely alien from the ordered existence of the average citizen. She has gone into the haunts of thieves, has sat in the kitchens of doss-houses, lingered at public-house bars, shabby and inconspicuous, so that she can observe and listen without being observed. "Usually" she says, "I can melt into the landscape of the underworld and become so absorbed in its atmosphere that I escape attention. You never quite know, in the world of crime, who may be spying on you, and suspicion once roused is very difficult to allay." Nervousness and restlessness are characteristic of the habitual criminal, and it speaks much for Mrs. Chesterton's ingenuity, not to mention courage, that she has been taken into the confidence of men and women whose mode of life made it dangerous for them to trust a stranger. In one establishment where women of no permanent address might get a night's lodging, she came across "a pretty fair-haired creature, with soft, big blue eyes, a dimpled baby face and the whitest little hands imaginable. She wore a well-cut coat of black cloth with a fashionable fur collar and cuffs and a chic felt hat." When she loosened her coat—fur-lined and obviously an expensive one—she disclosed just above the waistline, imbedded in the fur, "three or four hooks, from one of which was suspended a small and very valuable stone marten skin, fresh from the furrier." Later the girl related her story an amazing one; the book is full of such amazing stories, and of pathetic tales of men and women brought low by circumstance. Her wide experiences have made Mrs. Chesterton tolerant.

## That Body of Yours

*By James W. Barton, M.D.*

**PREVENTING HEART FAILURE**

You have often heard it said, "Hard work never hurt anybody," also, "it is better to wear out than rust out," and similar expressions, but there is one organ in the body that often wears itself out from overwork.

That organ is the heart.

Did you ever try to figure out how much work it does in a minute, in an hour in a day, in a year, and then think of the years you have lived? It is almost beyond your comprehension.

And yet your heart could do this without any trouble, without getting tired, if it had only the "regular" work to do. It is the "extra" work put upon it that is the cause of its failure sometimes. Every little ailment of childhood or of manhood or womanhood means extra work for the heart to do. It must pump blood oftener and harder to overcome these ailments. A heart that ordinarily beats 72 times to the minute may have to beat 120 or 140 to the minute for a number of days, thus doing twice its regular amount of work.

But it is not the severe ailments—pneumonia, typhoid fever, rheumatism—that wear out many hearts; it is some simple condition that is really unknown to the individual because he feels no particular pain, just a lazy or tired feeling. He finds that his pulse, instead of being 72 is beating about 90.

The simple condition is infected teeth, or infected tonsils. Their fight against his body processes is so quiet, so gradual, that he is unaware of it, except for the extra beating of his heart, a tired feeling, and getting out of breath rather easily.

These infections use up a great deal of the reserve power of the heart, with the result that the heart will not stand the shock of an acute illness.

Another severe strain on the heart, that uses up much of its reserve, is getting up and out of bed too soon after an illness. Even an illness that keeps you in bed with a temperature for two or three days, means that the heart must be rested for another two or three days, after the temperature becomes normal. A rule that many doctors use, is to keep the patient in bed, after temperature is normal, one day for each degree of temperature he had during his illness. Thus a temperature of 102° F., about three degrees above normal, means resting in bed three days. This seems like a hardship, but it will prevent many cases of heart failure.

Don't give your heart unnecessary work by keeping infected teeth and tonsils, and getting up too soon after an illness.

# 37 IN ATTENDANCE AT LEAGUE MEETING

**Citizenship Committee Had Charge of Young People's Meeting.**

PETHERICKS CORNERS, April 28.—(Examiner Correspondence). — The citizenship department, under the direction of Mrs. Lorne Barnum, took charge of the Wednesday evening league service in Zion church. Thirty-seven were in attendance with the Boosters in the lead. In the absence of Rev. Mr. MacTavish, Mrs. Barnum took the combined devotional talk and discussion topic. Accordion music by Elsie Forde and a reading by Evelyn Barnum were well received. The next league meeting is withdrawn on account of the annual pie social and play to be given in Sentinel Hall on Friday evening, May 1st. The members of the cast feel that in "My Irish Rose" they have one of the best of the many productions which have been presented by this group.

The Sabbath school at Zion will open on May 3rd at 2 p.m. for the 1931 session following an organization meeting the previous Sabbath. Fred Barnum is the new superintendent of the school this year.

**Personal**

Mr. Navod Brinton has been quite ill for some days past.

Miss Helen Jeffs of Campbellford was the week end guest of Miss Alma Simpson, at her home here.

Mr. Harry Owens is a welcome addition to the social circle at Petherick's just now. He is assisting Mr. Albert Petherick, who has been suffering from blood poisoning.

## Doings In Commons.

**TODAY IN PARLIAMENT**

The Senate will not sit.

The House of Commons will consider Government legislation and estimates for the Departments of Public Works and external affairs.

**YESTERDAY IN PARLIAMENT**

The Senate did not sit.

In the House of Commons: Resolutions favoring federal state medicine and the development of the harbor at Riviere du Loup, Quebec were defeated; a resolution to stop the practice of calling for tenders for the burial of deceased ex-service men was passed; debate on two private members' bills, one to amend the Armistice Day Act, and one to amend the Representation Act, was adjourned.

## *Princess Like Queen Victoria*

**WHERE PRINCESS BETSY GETS HER GOOD LOOKS**

An interesting photograph study of late Queen Victoria, with Princess Mary, daughter of present King and Queen, sister of Duke of York and, of course, aunt of the five-year-old Princes Elizabeth, who had her birthday party this week. The resemblance of Princess Mary, who is the great granddaughter of Queen Victoria, to the wee Princess Betsy, the great great grandaughter, is quite striking.

# CANNED TOMATOES ALL FOOD AND DRINK

**Health Authorities Advise Practice of Serving Both Juice and Solids.**

Doctors and dietetic specialists are pointing to canned Tomatoes as an inexpensive corrective food for the whole family, supplying as they do the health value needed to make up for the deficiencies commonly occurring in the average diet.

Canned Tomatoes, leading medical authorities declare, are even more potent in Vitamins than are oranges, and Tomato Juice is much richer in iron content than is orange juice. Tomato Juice has another virtue that commends it to the heads of families—it is pleasingly inexpensive.

The most economical way of obtaining pure Tomato Juice—whether for Baby's daily "health drink," for table service as a cocktail or for serving as a refreshing "pick-me-up" between meals—is to strain good-quality canned Tomatoes. As little or as much juice as is required can be easily separated and the remainder of the contents of the can used in making one of a score of delicious, healthful tomatoe dishes. There is positively no waste.

Canned Tomatoes as a healthful food and a tonic drink are being widely endorsed by high authorities. The Hon. Dr. J. M. Robb, Ontario Minister of Health, and the medical officers of health in many Canadian centres have, in published statements, advised a general use of canned tomatoes, both as a food and a drink.

Dr. Robb recently stated, in an interview, that "our regular diet requires a supplement to provide for the deficiency in Vitamin C. Tomato Juice adequately supplies this deficiency." And to this declaration Dr. Robb added: "A fortunate fact in this connection is that Vitamin C in tomato juice is adequately protected by the presence of fruit acids, so that the heat required in the process of canning is not sufficient to materially reduce the Vitamin C content of the juice."

## HASTINGS

Mr. and Mrs. W. J. Abbott are guests of friends in Toronto.

Mr. and Mrs. Charles Coughlan of Norwood spent Sunday at the latter's parents, Mr. and Mrs. Robert Cleary.

Mr. William McCarthy of Peterborough spent the week-end with friends in town.

Mr. William Tinker of Peterborough was a business visitor in town on Friday.

**DO-X GIVEN TESTS.**

LAS PALMAS, Canary Islands, April 28 (C.P.). — The DO-X, giant German seaplane, which has been laid up for several months for repairs, made necessary by an injury at the outset of a projected trans-Atlantic flight, was refloated this morning.

Several test flights are planned to determine if the machine is ready to continue its interrupted flight to New York.

## *To Fly Across Atlantic*

**TO TAKE OFF IN MAY FROM NEWFOUNDLAND**

Miss Ruth Nicholls of Rye, N.Y., holder of the worlds speed and altitude records for women, is planning to fly alone across the Atlantic, using the same machine in which she flew across the continent in 13 hours, 22 minutes last December and with which this year she established her altitude and speed records. She expects to take off in May from Harbor Grace, Newfoundland. Her destination in Europe has not been selected dfinitely. She is shown here standing beside the plane after she had set her altitude record.

# FRIENDS HONOR MRS. H. RAYMORE

**Premier Bennett and Rt. Hon. Arthur Meighen Send Congratualtions.**

**94 YEARS OLD.**

TORONTO, April 28.—Surrounded by congratualtory messages, including telegrams from Premier R. B. Bennett and Rt. Hon. Arthur Meighan, Mrs. H. S. Raymore, 138 Indian Rd., yesterday celebrated her 94th birthday. Many immediate relatives assembled to do honor to this active old lady.

Born in the county of Stormont, near Cornwall, Mrs. Raymore, who is the widow of the late Henry Stimson Raymore, was, before her marriage, Miss Sarah McGill, sister of the well-known minister, Rev. William McGill. With her husband, she moved to Toronto in 1887. A life-long interest in religion and politics is still maintained by Mrs. Raymore. Until a severe illness about four years ago prevented her from leaving the house, Mrs. Raymore was an active member of the Howard Park United church. With the return of her health, she hopes shortly to continue attendance at this church.

One son and four daughters are living: Charles Theodore Raymore of Toronto; Mrs. B. O. Britton of Gananoque, Mrs. W. D. Scott, Peterborough; Mrs. J. M. Denholm, Blenheim, and Miss Hattie Raymore of Toronto. Four grandchildren and four great-grandchildren are also living.

## WEDDINGS

**McAULEY—WEBB**

CENTRETON, April 28 (Examiner Correspondence).—A quiet but pretty wedding was solemnized at the Centreton United Church Parsonage on Wednesday night, April 22, when Alice Emeline, second daughter of Mr. and Mrs. Aobert Webb, Centreton, was united in marriage to Harold Edward McAuley, only son of Mr. and Mrs. John A. McAuley, Centreton. The Rev. M. F. Hawley officiated.

The bride looked charming in a gown of blue, with hat to match, and was attended by her sister, Miss Edith Webb, Grafton. The bridegroom's attendant was Mr. Archie Webb, brother of the bride. The happy couple are residing in Centreton.

"Railwaymen" carry heavy responsibility. Need clear, alert minds. Good tea never fogged brain or vision.

# PLAY IN MARMORA WELL PRESENTED

**Hall is Crowded For "Erin Go Bragh" by St. John's Roman Catholic Young People.**

MARMORA, April 28 (Examiner Correspondence).—A real Irish play put on in a real Irish manner, fitly describes the presentation of "Erin Go Bragh," or "The Mountain Rebel," by the Youn People of St. John's Roman Catholic Church at the Town Hall on Monday evening.

This was the third performance of these splendid amateur artistes and the large audience at times became hilarious over the well-sustained, humorous situations presented in the play. Between the acts songs were given by Cecil Casey and a trio composed to C. Casey, F. Yanch and L. Lessard, and instrumental selections were furnished by Frank Yanch, violin; Nellie Lessard, guitar, and Alice McMahon, piano. Elwyn Yanch took well also with his accordion solos. The acting on the whole was exceedingly good.

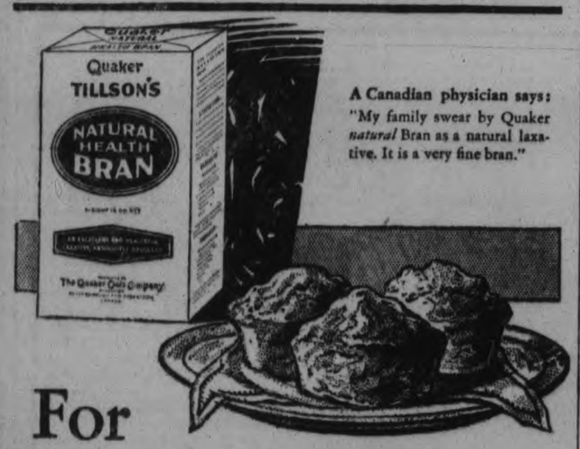
Following is the cast of characters: Squire Donnelly, an English official residing in Ireland, Harold Yanch; Bartle Brannigan, formerly an Irish patriot but now an informer and traitor, Kenneth Champagn; Phil O'Connor, a young Irish-American, Joseph Dion; James O'Brian, captain of a band of mountain rebels, George Champagne; Terry Murphy, proud of his birth and ready to fight for "Erin Go Bragh," Cecil Casey; Margaret Donnelly, Squire's daughter, who fails to know her own heart, Veronica Yanch; Blanche Flynn, Margaret's cousin, and a young lady of good common-sense, Kathleen Barrett; Alice Gorman, Margaret's maid and Terry's future better half, Ida Lessard; Old Nancy, the mountain witch who tells more than folks like to hear, Mrs. J. Yanch.

After the fall of the curtain, seats were cleared for an enjoyable period of square and round dancing.

## Miscellaneous Shower For Havelock Bride

HAVELOCK, April 28 (Examiner Correspondence) — A miscellaneous shower was given on Friday evening at the home of Mr. and Mrs. Abraham Aboud, in honor of their daughter Eva, who on Saturday morning was married to C. Bousada of Knowlton, Que. Many beautiful and useful gifts were presented to this young lady, who was born in this village, and educated at the local school. The ladies of Our Lady of Mount Carmel Church, of which the bride was a member presented her with a handsome silver fruit basket, as a token of the esteem in which she is held. Many other lovely gifts, of silver, cutlery, linen and china were among the gifts received. Among those from out of town who attended the wedding on Saturday were, Mrs. M. George, Knowlton, Que.; Mr. and Mrs. J. D. Kouri of Montreal; Mrs. Leo Kouri, Tweed; Mrs. E. Sickery, Grand Rapids, Mich.; Mr. and Mrs. F. Peters of Toronto; Mr. and Mrs. Hutchinson of Toronto; Mrs. George of Montreal; Mrs. Frank Said, Toronto.

Don't miss "Dracula" at the Regent Theatre on Wednesday, Thursday and Friday of this week. The Examiner Cheer Fund gets twenty-five per cent. of the receipts for relief work.



A Canadian physician says: "My family swear by Quaker *natural* Bran as a natural laxative. It is a very fine bran."

For HEALTH . . .

eat Muffins made of Quaker *natural* Bran

YOUR body needs the natural roughage of bran for proper digestion and natural elimination of waste. No bran is so perfect a laxative as Quaker—no other tastes so good when baked into muffins or other dishes.

Constipation causes a multitude of ills. Headache, stomach disorders, bad breath, sallow complexion and mental depression can often be traced directly to faulty elimination. Without the proper roughage the intestinal muscles become lazy—they do not work to remove insidious poisons which are poured into the system.

But Quaker Tillson's *natural* Bran banishes constipation. Use it in the many ways suggested in the recipes in each package. Or, sprinkle it liberally over your regular cereal. Your doctor will tell you that its laxative action is safe, gentle and sure.

"Don't grow old"

WARNS JOHN BOLES, *Universal Star*

JOHN BOLES

"Nowadays no woman need be afraid of birthdays," John Boles, Universal singing star says. "Charm isn't by any means measured by years!

"These days not only stage and screen stars but hundreds of other women have learned a very important secret of allure. YOUTH is recognized for the priceless thing it is . . . complexions are kept glowing."

How amazingly the famous stars keep youth!

"To keep youth, guard complexion beauty," they will tell you. "Keep your skin temptingly smooth, alluringly aglow!"

The actresses famous for their charm the world over use Lux Toilet Soap, and have for years.

Guard complexion beauty as 9 out of 10 lovely screen stars do

Because they are so dependent on it, Lux Toilet Soap is found in theatres everywhere—is the *official* soap in the dressing rooms of all the great film studios.

*Your* skin will respond to it, too!

Lever Brothers Limited, Toronto

Mrs. M. McNabb, Senior, of George street, acted as hostess last evening for the meeting of the Women's Patriotic League of Ashburnham. There was a good attendance and acknowledgment was made of a large number of donations to the Memorial Park on Armour Hill, received after the recent tea which was held in aid of the fund. It was decided to hold a bridge party on the afternoon of June 2nd, at the home of Mrs. C. H. Rogers. The evening concluded with a social hour and the service of dainty refreshments.

• • •

Mr. A. S. Mervin of Peterborough has passed the examinations for the Intermediate year of the Ontario Agricultural College at Guelph.

• • •

The captain of the First Company of Girl Guides, Miss Isabel Connelly, with Miss Ruth Sutton, received the guests at the tea held under the auspices of the Guides on Saturday, at the residence of Dr. and Mrs. N. H. Sutton. The tea was a very pelasant one, with the Guides forming a unique personnel in their trim uniforms. Tea was poured by Mrs. H. E. Connelly. Miss Dorothy Kelly acted as head waitress, with a corps of assistants that included the Misses Louise Lundy, Beverley Rogers, Gwenyth Boorman, Audrey Whittaker, Betsy Scott, Gladys Carvolth, Betty Middleton and Joan Ottewell. Miss Alicia Langley and Miss Jean Howson had charge of the sale of candy, which was sold in baskets of the two tones of blue that form the Guides' colors. Miss Jean Stinson officiated at the door and Miss Beverley Cowell looked after the lighted fireplace. A demonstration of Guide work was given in the living room by the Misses Loretta McDougall, Phyllis Cruthers, Jean Doris, Violet Watkins, Madeline Thompson, Helen Thompson, and Ruth Simpson. The table was done very prettily with a cloth of pale green damask, centered by a green gold filled with marigolds, and orange candles in green holders.

Mr. R. C. Rosborough of this city has passed successfully the third-year examinations of the Ontario Agricultural College at Guelph.

## MOURNING WARDROBE

"A death occurred in our family and I had to go in mourning. I could hardly afford to buy all black clothes, so decided to dye what I had. I consulted our druggist and he advised using Diamond Dyes. Everything came out beautifully; coats, wool dresses, stockings and all. I have since learned to appreciate the excellence of the black Diamond Dyes. I tried another black dye and the results were impossible. I had to get Diamond Dyes and do the work over. Recently I have tinted my curtains a beautiful raspberry shade and dyed a rug a lovely garnet with Diamond Dyes. They are real money savers—the finest dyes money can buy—I truly believe."

# Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

Of course every housewife knows that cooking on the top of a stove may be a quick process or an extremely slow one, or it can be of any degree of heat between these extremes.

• • • • • • •

Cooking in fat is the fastest way of all. The fat may be deep, in which case the name for the cookery is deep-fat frying.

• • • • • • •

If the fat is only deep enough for the food being cooked in it to be partially immersed, then the process is called by the one word, frying.

• • • • • • •

When the fat greases the pan so that the food being cooked is merely prevented from sticking during the process the French word, "saute" is the correct one to use.

• • • • • • •

Saute is a word of two syllables, and is pronounced as if spelled "saw-tay". The final letter "e" is accented.

• • • • • • •

When foods are cooked in water on top of a stove, the process is termed either boiling or simmering according to the degree of heat. If the water is so low in temperature that it scarcely bubbles at all, the process is simmering.

• • • • • • •

Unless food simmers it scarcely cooks at all. It merely keeps very hot. Food that is left in hot water although over a flame spoils after a time.

• • • • • • •

Food that simmers does not for it would continue to cook as long as water remained in the container, after which it would burn. It would not turn bad, although it would spoil eventually by burning.

• • • • • • •

If food is to simmer it is important for the heat to be evenly distributed under the container. If the container is very small, it can be left over the small burner called the simmerer in a gas range.

• • • • • • •

If the container is larger it must go over a bigger burner, turned down so that the water is kept slightly active under a larger area. Otherwise the food will not cook evenly.

• • • • • • •

Cooking in fat whatever the depth of this agent, has to be carefully watched. Unless the fat is piping hot the food soaks up the fat and gets greasy, which means poor cookery.

• • • • • • •

Therefore the food must be either partly cooked previous to the frying or it must be in small enough portions to get "done through" in the short time.

• • • • • • •

As the fat sears the food almost immediately, it burns soon, hence the necessity for watching the food in the hot fat, to remove it just as soon as it is done.

## PONGEE SUITS.

One should consider the pongee suit when planning the spring wardrobe. The little skirt and bolero coat are easily fashioned from inexpensive materials and are jaunty and stylish.

# ANGLICAN CLERGY TO MEET IN CITY

Archdeaconry Meeting Opens Wednesday in All Saints' Church.

## IMPORTANT CONFERENCES.

The clergy of the Archdeaconry of Peterborough will meet in All Saints to-morrow (Wednesday) and Thursday, Archdeacon Davidson presiding.

A united service will be held in All Saints' church at 8 p.m. to-morrow when it is hoped that a large and representative congregation will be present expressing the interest of Peterborough church men. The preacher will be Rev. Dr. McElheran the distinguished Principal of Wycliffe College who is well known for his pulpit ability.

All visiting clergy will be present. The Bishop of Toronto will at 2 p.m. open the Conference at which the Laity are invited.

# Kingston Woman is Awarded $1,252 By Court for Six Years' Board Bill

**KINGSTON, Ont., April 28.—(Special to Examiner)—Evaristo Dini, boarded with Mrs. Elizabeth Stewart of this city for 20 years and never paid her a cent. After his death she sued his executors for six years arrears. She could only recover for last six years of his life as any prior indebtness was barred by statute of limitations. Her bill was $2,191, calculated at the rate of one dollar a day. There was lots of evidence given before Judge Lavell. Dini was a hard man to get money out of. Mrs. Stewart's brother upbraided him for never paying for his keep but Dinis reply was simply an assurance that the board money would be paid.**

**By will, Dini left Mrs. Stewart a bequest of one thousand dollars but in discussing this gift, Dini expressly said Mrs. Stewart could put in her claim for his board. Judge Lavell, in view of Dinis' services in the household and limited accommodation given him, he having no room assigned to him but only a screened off partition of the dining room, allowed her four dollars a week thus raising her claim $1,252. Cost come out of the estate.**

# Elaine And Her Ideas From Paris

# GEN. BERENGUER HELD IN PRISON

Premier After Rivera's Fall Held For Execution of Rebels Recently.

## WILL BE GIVEN TRIAL.

MADRID, April 28 (A.P.)—General Damaso Berenguer who as Premier staved off a Spanish revolution in the months succeeding the fall of Primo de Rivera, looked at the world to-day from behind prison bars, where he will await trial for responsibility for the execution of two rebel leaders last December.

The General was informed last evening that the Supreme Council of War and Marine had decided to call him to account for the execution of the two men, who in death have become national heroes, and in compliance with his previously given word he appeared at the military prison and surrendered.

He was taken to cell No. 2, reserved for Generals, and there met General Mola, who served as Chief of Police in Madrid during the Berenguer regime, and is charged with unnecessary suppression of student demonstrations. They greeted each other, companions in tribulation.

Later General Berenguer asked that General Franco, Director of the General Military Academy and brother of the Republican hero aviator, Commander Ramon Franco, serve as his counsel, and the Government sent to Zaragoza for General Franco to come here.

**Will Prosecute Heredia**

The Supreme Council of War and Marine also has ordered prosecution of General Fernandez Heredia, Captain General of Aragon at the time of the two rebels' execution, but he will not be committed to prison.

Teh two rebel leaders were Captains Garcia Hernandez and Fermyn Galan, chiefs of the movement at Jaca last December. Both were placed before a firing squad after their troops had been deefated by Government forces.

The mother of Captain Garcia yesterday at Seville received 22,800 pesetas (present value $2,280) raised by a Barcelona newspaper in a public subscription for her benefit.

# Application Granted By Supreme Court

OTTAWA, Ont., Apr. 28. —(CP)— An application of the Canadian Radio League to intervene in the reference on roadio broadcasting between the Dominion and the Provinces was granted by the Supreme Court of Canada today. The application was made at the opening of the sessions of the court by Brooke Claxton of Montreal, and was opposed by Paul Leduc, K. C., representing the Province of Quebec.

The radio hearing is set for May 5 and is to determine whether the Provincial or Dominion government has the right to control radio broadcasting in Canada. So far the Dominion has exercised control but its right was challenged by the Province of Quebec. Other Provinces are joining with Quebec in the court battle.

ACHE?

## BETTER THAN A CIRCUS.

When you see the crowds heading in one direction, fall in line — the attraction is a good one.

# Make Tomato Week One Grand Success

**This is Tomato Week all over the province and our citizens are asked to use canned tomatoes in the many forms on the table in order to stimulate the use of that wonderful food. The Provincial Government is behind the campaign and the consumption of tomatoes means a great deal to the producer in this Province and especially in this district where it has become a leading product of the market garden.**

**Eating canned tomatoes not only this week but every week will be found to be an economic and health-giving food but a practical effort that will keep our dollars turning over in our Province and district.**

# BURKE ON WAY TO LIFE IN CELL

Sheriff With Seven Men Form Bodyguard on Trip to Marquette Prison.

## PRISONER CHEERFUL.

ST. JOSEPH, Mich., April 28. (CP) Fred Burke, notorious gangster who was sentenced to life imprisonment after he had pleaded guilty to the killing of Patrolman Charles Skelly here, Dec. 14, 1929, was moved swiftly and under heavy guard from Berrien County jail at 4.37 this morning, accompanied by two automobiles, for Marquette where he will begin serving his sentence there Wednesday.

The departure was quiet and without much ado, there being few spectators around the jail at that early hour, Sheriff Fred. J. Cutler, with three of his deputies and four state policemen formed the body guard.

According to announced plan the party headed north toward Kalamazoo and Grand Rapids, for Mackinaw City. A ferry there will take them to Newberry where they will probably remain overnight and continue to Marquette to-morrow morning. After a good night's sleep Burke appeared cheerful. He was dressed nattily in a tailored gray suit and a light colored topcoat. He had nothing to say to the small gathering of newspapermen who witnessed his leave.

He will be eligible to apply for a parole after 25 years, less time off for good behavior according to Michigan law.

Don't miss "Dracula" at the Regent Theatre on Wednesday, Thursday and Friday of this week. The Examiner Cheer Fund gets twenty-five per cent. of the receipts for relief work.

# English Star

TALLULAH NOW ON SCREEN

Tallulah Bankhead, the Alabama beauty who climbed to stardom on the English stage, has returned to America and is now making her first picture in Hollywood. She is a daughter of Congressman Bankhead.

# A BEDTIME STORY

By Howard R. Garis

UNCLE WIGGILY AND JACKIE'S TRICK.

Uncle Wiggily stood near a hollow tree in the woods. It was a hollow tree with a funny hole, shaped like a lollypop. On one side and a little while before, as Uncle Wiggily was looking in, the rabbit felt a lot of water squirt in his eye.

The water was squirted by a little puppy dog named Jackie Bow Wow, who said he was hiding in the hollow tree with the funny hole to play a trick on his brother Peetie. Jackie was going to squirt water in brother Peetie's eye when that little puppy came along.

"Only you happened to come first, Uncle Wiggily!" said Jackie, laughing a little inside the hollow tree. "Thank you."

"Don't thank me!" spoke the rabbit gentleman quickly. "But I guess that wasn't Peetie who made the noise, Jackie."

"No, I don't guess it was, either," Jackie barked. For, as I told you in the story before this, when Jackie was telling Uncle Wiggily about the trick he was going to play on brother Peetie the two of them, Jackie inside the tree and Uncle Wiggily outside the tree, heard a noise in the woods. They thought it was Peetie coming to look in the funny hole of the tree and have the trick played on him.

"It must have been the wind blowing," barked Jackie.

"I guess so," Uncle Wiggily agreed. "So now, Jackie, while we are waiting for Peetie, you can tell me how you squirted water in my eye, and how you got inside the hollow tree. For," went on Mr. Longears, "you didn't get in though that funny hole. It is too little. And I don't see any other hole that you could have crawled in."

"First about squirting water," said Jackie. "I have my little water pistol here in the tree with me. Thank you!"

"Ha! Ha!" laughed Uncle Wiggily. "You don't need to thank me for having squirted water in my eye, Jackie."

"Oh, that's so, I don't!" barked Jackie. I keep forgetting. But if you will go off a little way, over by the sassafras bush, Uncle Wiggily, thank you," barked Jackie, "you will see a hole in the ground. That hole is like a tunnel and it leads up inside this hollow tree. I crawled in that way and I'm hiding here until my brother

The Bob Cat ran howling away!

Peetie comes along. When he looks in the funny hole as you did, I'll squirt my water pistol in his eyes."

"I hope it won't hurt him!" said Uncle Wiggily.

"It won't, thank you!" Jackie said. "Did it hurt you, much obliged?"

"There you go again—thanking me!" cried Uncle Wiggily with a laugh. "Please stop!"

"I will — thank ——" I mean no thanks," chuckled Jackie. "But, if you want to be sure whether or not the water I squirted on you hurt, you could look in this hole with your other eye and I could try again."

"No, thank you," said the rabbit.

"Ha! Ha!" laughed Jackie. "You needn't bother to thank me. It was a pleasure. But hark! Listen! I think I hear Peetie coming! Hide in the bushes and when he gets here and looks in this hole I'll squirt."

Uncle Wiggily hid in the bushes and waited. Jackie, hiding inside the hollow tree with his water pistol, also waited. The noise no longer sounded and it grew still and quiet in the woods. Uncle Wiggily fell almost asleep and when the rabbit gentleman rousts himself he saw no sign of Peetie.

"It must have been the wind again," said the rabbit gentleman. "And I may have dozed off. Jackie may have come out of the tree and gone home, getting tired of waiting to play that trick on his brother. I'll go take a look through the hole and see if Jackie is still inside the hollow tree."

Uncle Wiggily looked, this time with his other eye, and, as he did so: "Squish!" a lot of water squirted out and Jackie, who was still inside the tree, laughed and whispered:

"Surprise on Peetie!"

"This isn't Peetie!" cried the rabbit.

"Oh, Uncle Wiggily, I got you in the other eye, didn't I?" barked Jackie. Before Mr. Longears could answer he heard a noise behind him and this time he thought sure it was Peetie. But it was the Bob Cat!

"Ha! What's this!" howled the Bob Cat. "What is in that hole you just looked at, Uncle Wiggily?"

"Nothing for you!" said the rabbit gentleman, wiping the water from his eye. "Nothing for you at all!"

"Ha! You are trying to fool me!" howled the Bob Cat. "I'll look for myself!" He put his eye to the hole and again Jackie squirted his water pistol. The Bob Cat got both eyes full of water and ran howling away.

"Ha! Ha!" laughed Uncle Wiggily. "That was a good trick, Jackie!"

# NATIVE ESKIMO IS FAMILY MAN

Self-respect and dignity Mark Character of the Northerners.

## SAYS G. H. BLANCHET.

TORONTO, Ont., April 28 (By The Canadian Press)—Interesting facts about Canada's most northern residents are contained in the report of G. H. Blanchet, famous explorer, who recently made a survey of Keewatin and the Northwest Territories. Mr. Blanchet, speaking of the family life of the Eskimo, says:

"The domestic life of the Eskimo is of a family rather than tribal nature and the remarkable feature of it is the self-reliance with which a family or an individual will strike out into the country at any season, depending on their own skill and ingenuity to obtain a living and provide the necessary shelter. They are inured to hardships early and learn to accept them without resentment. They are endowed with a simple, kindly nature, easily pleased, frank and open in their dealings and generous in sharing their possessions and in offering their services.

"The northern Indians regard the white man with contempt and among themselves ridicule his peculiarities. Such an attitude was not observed among Eskimos. They conduct themselves with self-respect, approaching dignity, and meet the white visitors to their country with hospitality and courtesy, observing his ways with serious interest, quick to approve what is new and useful, and interested in what is strange."

The Eskimo does not drive a bargain, Mr. Blanchet says. He gives freely what he has and leaves it to the other party to make adequate returns. Should he be dissatisfied with trade he would probably avoid again having dealings with the one who offered it, but would make no comment. The family life is harmonious. The men hunt and trap and the women are occupied with the care of the children, cooking and preparing the skins for clothing. When travelling in winter the wife catches and harnesses the dogs, while her husband ices the komatic, or native sleigh and loads it. On the trail she runs ahead while the man handles the dogs and sleigh. In general the women are given the light work but are more continuously employed, while the men are essentially the providers of food and the artisans.

The custom of rubbing noses is still retained among the people of the west coast, the explorer says.

# HENRY DEFENDS BUYING OF POWER

Satisfied Acting as Real Trustees of People of Ontario.

## AID FOR NEXT 7 YEARS.

TORONTO, April 28. — "We have been criticized for going to Quebec. I am not going into anything of a critical nature, but I feel satisfied that we made bargains with Quebec interests —private interests, it is true—but at figures that the engineers and the Commission felt to be reasonable."

This observation was advanced by Premier George S. Henry, when addressing the members of the Canadian Club yesterday on various aspects of Provincial development, and particularly the Hydro situation.

**Fed Into Niagara System**

"We are prepared to take care of our needs for the next seven or eight years through the purchases we have made from Quebec during the last three or four years," continued the Premier, who pointed out that power was already being fed into the Niagara system, thus relieving the strain on the demand from the western part of the Province by using less current from Niagara in Toronto and more from the East.

"The other purchases that have been made," Premier Henry stated, "are to be delivered as we need them on the schedule that has been prepared by the engineers based on their experience as to what the demand will be year by year. It is interesting just in passing to give you figures. We have in Ontario a possible development of five and a third million horsepower, while in Quebec there is a possible development of 8,450,000 horsepower. We have developed close to 2,000,000 horsepower through Hydro and through private interests in this Province, or 36 per cent. of our possible at the present time.

"In Quebec," continued the speaker, "there is a development of 2,590,000 horsepower at the present time, being 30 per cent. of their possible, some of which we have bought from them so that we are very largely using in the two Provinces about an equal amount."

## STORM SIGNALS ARE OUT

CLEVELAND, O., Apr. 28.—(CP)—Southwesterly storm warnings for the lower great lakes were hoisted today by the United States Weather Bureau here. The Bureau forecast strong westerly winds and possibly moderate gales for this afternoon diminishing tomorrow. Disturbances of considerable force centered over the northwestern part of the province of Ontario, moving toward the Upper St. Lawrence River.

### OGDEN TURNS BIRDS.

### Ken Strong Hits Homer While Bill Rogell Continues Heavy Hitting.

BALTIMORE, April 28.—The Leafs who started the series here in a blaze of glory behind the clever pitching of Frank Barnes, lost another verdict to the Orioles yesterday afternoon 11 to 6, although they rang up thirteen hits during the course of a slugging bee participated in by both teams. The result sent the Leafs from second place into the second division.

It wasn't failure of the slugsmiths to function that humbled the Leafs but ineffective pitching by Art Smith and "Lefty" Shanklin. Warren (Curly) Ogden, who twirled the final three innings, being the only Toronto twirler sent to the raised portion by Manager O'Neill, who was able to control the artillerymen of the Birds.

The result might have been entirely different if Ogden had been the starting pitcher, for "Curly" turned the Orioles back in order in the sixth and seventh, and Southern, who doubled in the eighth, was the only opposing batter to solve his slants.

But the game was lost when Ogden took up the task which had proved disastrous to his predecessors. The Birds treated Smith to a heavy barrage of safeties in the first inning, five hits and a walk accounting for four runs, and they continued the attack on him in the second until he yielded to Shanklin, who was also given a dose of bad medicine in both the third and fifth frames.

**Koupal Effective.**

While Smith and Shanklin were tossing the game away, Lou Koupal, veteran right-hander, was holding the lead presented to him by the Flock, and while the sixth, when the Leafs collected three runs and four hits, was nothing to rave about, from an Oriole standpoint, he was never seriously threatened with the big lead his team was holding.

Manager O'Neill didn't have so much to enthuse over in the game, but the continued good hitting of Bill Rogell, who yesterday afternoon cracked out a triple, double and single in five times up, and indications that Art McHenry and Shiver have started to get their eyes on the ball ,atoned somewhat for the erratic work of his flingers. McHenry and Shiver each collected two hits, while Shiver was robbed of another in the sixth by a great catch by Don Heffner.

The game was played under near-Arctic conditions, for a cold wind swept the park, and the few spectators huddled together in a shivering group. The final game of the series is carded tomorrow, and if the weather doesn't moderate by then the players will need fur coats to prevent frost bites

In the first inning the Leafs went down in a row, but Smith issued a walk to Boyle, and McGowan, Southern and Kuhel followed with singles, and, after Stroner had pushed over the third run with an infield out, Heffner and Linton singled, the latter putting over Stroner with the fourth run of the inning.

**Strong Clouts One**

Ken Strong, first batter in the second, connected for a long home run, the ball zipping over the fence to the right of the clock, a mighty wallop, and the Leafs picked up another tally in the fourth when Rogell doubled to centre and Shiver and McHenry singled.

Walks and solid hits by the Orioles were responsible for two runs each in the second and third, and in the fifth singles by Heffner and Linton combined with two infield outs and a long triple to right centre by Frank McGowan and a single to left by Southern sent in three more runs and put the Birds far out in the lead.

Rogell, whose hitting has been deadly during the series, started the Leafs on some run-getting in the sixth, when he tripled down the third-base line. Koupal lost control and walked Strong, and only a star catch by Heffner retired Shiver. McHenry was equal to the occasion, and shot a sharp single to left to bring in Rogell. Davis's high fly was gathered in by McGowan, but Strong dashed in with yards to spare after the catch. Daly followed with a single to right. Ruble batted for Shanklin, his hit to centre scoring McHenry. Morehart had a great chance to cause further trouble for Koupal, but his grounder to Heffner resulted in the final out at first base.

## Bambino Will Be Fit To Play Next Sunday

NEW YORK, N. Y., Apr. 28.—(CP)—Babe Ruth, the battered Bambino, has given up all hope of being able to play against the Philadelphia Athletics in the three game series starting here Thursday, but is confident his injured leg will have improved sufficiently for him to suit up against the Boston Red Sox on Sunday.

It was in a game with the Red Sox just a week ago that the Yankee clouter received the jolt that sent him on to the hospital.

Artie McGovern, Ruth's trainer, started working on the big fellow's bruised thigh yesterday and expressed the opinion he would have him back in the game by Sunday. "Probably he will have to take it easy for a time," said McGovern. "It might be several weeks before he is fully recovered."

# Braves And Pirates Win In National

## SPORTS by JIMMY THOMPSON

**THE SAFETY PIN KID**

Clarence De Mar has become famous as the seven-times winner of the famous Boston Marathon and is beyond a doubt the greatest marathon runner of this day and age. One would think that due to his experience De Mar would be a hard man to excite during a race but the opposite is true. During one of the Port Chester marathons in which he was running he was passed by a young Montreal runner, Frank O'Donnell at the twenty-mile mark. He at once turned to his pacer and asked all kinds of worried questions about the runner. Should you ever happen to see this famous marathoner in action take a look at his shoes. They are apparently being held together by safety pins. As a matter of fact the pins are to keep his socks from slipping in his shoes and making his feet sore while he is running.

## WEINERT FORCES IN RUN TO ALLOW SENATORS 12TH INNING WIN OVER YANKS

### Byrd, New York Outfielder, Clouts the Only Home Run of the Day.

### BRAVES LEADING LOOP.

### "Socks" Seibold Shuts Out Phillies—Cardinals Bow to Pirates.

WASHINGTON, D. C., Apr. 28. — The Nationals made it two in a row from the Yankees yesterday when Weinert, third New York pitcher, forced in a run to make it 9-8 after twelve innings.

Same Rice, Washington rightfielder, went to bat with the bases filled, Harry Rice had singled for his fourth hit; Hargrave was purposely passed, and Hayes, batting for Burke, had walked. Harry Rice was forced in with the winning run when Sam was hit.

Byrd, Yankee leftfielder, clouted the only home run of the day in the seventh inning, scoring alone.

Washington used Tauscher, Crowder and Burke as pitchers, while New York used Pennock, Pipgras and Weinert.

**BRAVES IN FIRST PLACE**

PHILADELPHIA, Apr. 28—Brilliant pitching by "Sox" Seibold and a timely single by "Rabbit" Maranville enabled the Boston Braves to beat the Phils here yesterday, 2 to 0 and ascend to first place in the National League.

The right-handed ace of the Boston Club limited the Phillies to four hits and was master at all times. "Rabbit" Maranville delivered his timely hit in the third inning, with one out, Seibold on third and Wilson on second.

**CARDS VACATE FIRST PLACE**

ST. LOUIS, Mo., Apr. 28.— The St. Louis Cardinals, pennant winners last year ,dropped from first place in the National League race for the first time this season when the Pittsburg Pirates defeated the Cards, 5 to 3, in yesterday's game.

oBston defeated Philadelphia today to climb into the top position, vacated by St. Louis.

Gelbert's fumble, a walk, Traynor's single and a poor throw to third paved the way for the Pirates' scoring spree in the first inning which gave the visitors four runs.

After Lindsley had relieved Rhem as the Cardinal hurler St. Louis staged a ninth-inning rally, when, with two out, the bases were filled, and Delker doubled to score Gelbert and Wilson. With men on second and third, Blades struck out.

**DODGERS IN FULL RETREAT**

NEW YORK, Apr. 28.—A big first inning, in which six runs crossed the plate, gave the New York Giants an 8-to-5 victory over the Brooklyn Robins in the first of their series yesterday. Ten Giants went to bat in the opening inning, as Joe Shaute and Clyde Day were driven to the showers. Phil Gallivan, recruit hurler, finally halted the attack.

Johnny Vergez led the Giants' offensive with his second home run of the season, a double and a single.

## Jack Sharkey Signed For Carnera Battle

NEW YORK, N.Y., April 28. (CP) The United States very shortly is to outdo itself in the crowning of two "recognized" world heavyweight boxing champions.

The country has boasted at least one heavy king almost since it was a country, but only the most optimistic ever dreamed of possessing a pair. Their vision and foresight at last is to be rewarded.

Jimmy Johnston, dapper Brooklyn promoter, yesterday gathered all the boys in the same room and announced, very formally, that Jack Sharkey and Primo Carnera had signed for a 15-round championship engagement the night of June 10 at Ebbets Field.

That makes it a pair, as Max Schmeling and "Young" Stribling already were under contract to clash at Cleveland July 3 for the very same purpose. There is, technically speaking, only one available heavyweight title, but that is beside the question. Four of them are going to fight for it, just the same.

## Wrestling Last Night.

St. Louis—Jimmy Londos defeated Pat O. Shocker, Salt Lake City, one fall 56:10. Jim McMillan, Chicago, threw Andrew Zaharoff, Russia, 14-14. Dick Shikat, Germany, and Kola Kwariani, Russia, drew in 30 minutes. George Zaharias, Pueblo, Colo., defeated Jim Clinkstock, Oklahoma, in 10:25. All are heavyweights.

New Castle—Mike Romano, Chicago, defeated George Tracos, Kansas City. Ivan Vacaroff, Chicago, threw Tony Felece, New York. F. Wilcox, Virginia, defeated W. Davis, Oklahoma City. G. Allen, Pittsburgh, beat Joe Bonneck, Chicago.

Milwaukee— Gus Sonnenberg defeated Ernie Scharpegge, Milwaukee, two out of three falls, Hank Bruder defeated George Kogut, Chicago. Doc Lurick, Chicago, defeated Bull Montana, Hollywood.

## Fights Last Night

Philadelphia— Lou Massey, Philadelphia, beat Harry Blitman, New York, 130 pounds, decision. Pete Latzo, 176, Scranton, beat Matt Algie, 137. 10 rounds.

Pittsburgh — Emmett Rocco, 191, Ellwood City, Pa., beat King Levinsky, 182, Chicago. Decision.

Quebec— Varnon Cormier, Boston, 125, and Jackie Cohen, New York, 127, drew. 10 rounds.

Canton, O.— Tiger Roy Williams, Chicago, 171, beat Patsy Perroni, Canton, 160. 10 rounds.

**GRADS AT VANCOUVER**

VANCOUVER, B.C., April 28 (C.P.)—St. Catharines basetball team, Senior champions of Eastern Canada, arrived here Sunday to engage University of British Columbia in the final for the Dominion title, the first game of which will be placed to-night.

The boys from Ontario arrived in good condition for the struggle.

## GRADS WINNERS BY ONE POINT

### Eastern Canada Representatives Defeat U. of B.C. in First Game 18-17.

### THRILLING BATTLE.

VANCOUVER, B. C., Apr. 28. — (CP)—Fitting finish to a Canadian senior basketball championship match, St. Catharines Grads, monarchs of Eastern Canada and University of British Columbia, gave a thrilling exhibition of the popular court game here last night with only one point separating the squads. The final score read, 18 to 17 for the eastern champions. At half time they led, 9 to 8.

It was the first game of the series, the deciding tilt will take place on Friday night and, in addition to winning Dominion honors, the victorious quintette will also earn the right to represent Canada at the 1932 Olympiad.

St. Catharines—Dix, G. (3); Meavern, G.; Ace Cambray, Centre, (4); Peart, F. (7); Howard, F.; Cambray, F.; subs, Newman, (4); Beacher, Lesson, Collins, Cambray—18.

Varsity—Henderson, G.; Osborne, G.; Cy Lee, centre, (4); Campbell, F. (8); Nicholson, F. (2); subs, Alpen, (3); Tervt, Champman, Armstron—17.

## TRICKY HOLES ON NEW COURSE

### Peterborough Country Club Now Among Foremost of Ontario Courses.

### WILL OPEN SHORTLY.

Members of the Peterborough Golf and Country Club are going to have some remarkable changes register upon their optics when they shoulder their clubs and start the long hike over the new course for the first time. In fact it may take some of the members a month or two to get that "homey" feeling again.

Things have altered. The old 9-hole stamping ground isn't what it used to be; it's a full-grown 18-hole course now.

In moving out of the "baby class" of golf courses and definitely donning long pants, the club did not stop, but climbed right into the front rank of Ontario courses.

Players are going to have this difference forced upon them as they swing around the 18 holes because it means a hike of something more than three and a half miles now, or 6,330 yards to be exact. It's a championship course, with few better in the Province.

The whole course has been changed, only three of the old holes remaining as they were. Tons of sand have been dropped at strategic points and a small corps of workers have been occupied since last summer in building greens, fairways, bunkers, and what-nots. It's no golfer's paradise either, but tricky, with many a trap for unsuspecting club-swingers.

Five holes are 400 yards or more. The longest is the sixteenth, with 452 yards of green sward and hillocks to be maneuvered over before the little ball rolls into the cup. Other long holes are: The fourteenth of 442 yards, the seventeenth 441 yards, the fifth 439 yards, and the second of 400 yards.

The first nine holes are 3,042 yards, while the homeward jaunt is 3,288 yards.

The past few days of rain will put the greens in great shape, and the biggest season in the club's history, which extends back to 1902, is confidently forecasted.

Players have been on the course for three weeks now, making an all-time record for early play. However, the season is not officially under way as yet, and the clubhouse will be decorated with several coats of paint before it will be opened.

Annually the membership of the club has mounted. It is safely predicted that with the added attractions now afforded by the improved course many more golfers will be seeking membership.

## THREE HOME RUNS HIT BY SHINNERS

### Ex-Leaf Has Field Day as Bisons Defeat Jersey City 7 to 5.

JERSEY CITY, N.J., April 28. — Spectacular batting of Ralph Shinners, who smashed three home runs and a double in five official trips to the plate, was enough to put the Buffalo Bisons on the right side of the ledger in the third game of their series with Jersey City Skeeters here yesterday by a score of 7 to 5.

Both starting pitchers, Perkins for the Skeeters, and Fussell for the Bisons, were driven out of the box.

Don't miss "Dracula" at the Regent Theatre on Wednesday, Thursday and Friday of this week. The Examiner Cheer Fund gets twenty-five per cent. of the receipts for relief work.

## Yesterday's Stars.

(By The Associated Press)

**Harry Seibold, Braves.—Pitched Braves to top of National League with a 2 to 0 victory over Phils. Allowed four hits and scored winning run.**

**Rabbit Maranville, Braves.—One of his two singles drove in two runs that beat the Phils.**

**Johnny Vergez, Giants—Hit home run, double and single as Giants beat Robins, 8 to 5.**

**Roy Spencer, Senators.—His three hits drove in three runs to help beat Yankees, 9 to 8.**

**Lou Gehrig, Yankees.—Made up for his previous day's lapse on the paths by stealing three bases.**

## BECKETT'S CRIME TO COST HIS LIFE

### Nova Scotia's Supreme Court Refuses Appeal of Halifax Man.

### HANGS APRIL 30.

Halifax, N.S., April 28 (C.P.). — George Alfred Beckett must pay with his life for the murder of Nicholas Marthos, Glace Bay taxi driver. A telegram received by Deputy Attorney-General F. F. Mathers from the Under-Secretary of State, and forwarded to Neil R. MacArthur, Crown prosecutor at Glace Bay, reads: "Law will take its course in capital case of George Alfred Beckett."

Beckett, a native of Old Perlican, Newfoundland, will hang at the Cape Breton County Jail on Thursday morning, between the hours of one and ten o'clock. The appeal on his behalf, dismissed by the Nova Scotia Supreme Court, is finally disposed of by to-day's word from Ottawa.

## SOCIETY HONORS ENGLISH EXPLORER

### Man Who Traversed Great Arabian Desert is Prime Minister to Sultan.

LONDON, April 28 (By The Canadian Press)—An Englishman, who is Prime Minister to a Sultan, has just been awarded the Founder's Medal of the Royal Geographical Society. The recipient is Bertram Thomas, Prime Minister to the Sultan of Oman and Muscat, an independent Arabian State. In the spring of 1930 he undertook the journey for which he has been awarded the Founder's Medal, and he is the first non-Moslem and probably the first man to accomplish it. The total distance covered was about 900 miles, and the time taken 58 days, of which 45 were spent in marching. When a paper on the subject was read before the Royal Geographical Society the feat was described as "the first and greatest step towards the final elucidation of the riddle of the sands." The Rub al Khali, or Great Sandy Desert of Arabia, is one of the largest unexplored sections of territory in the world. It extends 650 miles from north to south, and 350 miles from east to west.

Rear-Admiral Richard E. Byrd of the United States Navy has been awarded the Patron's Medal for his expedition to the Antarctic and his flights over both north and south poles. Rear-Admiral Byrd, whose exploits in both Polar regions have been the subject of various publications, recently announced his intention to lead another expedition to the Antarctic, this time to explore the opposite side of the pole field approached either from South America or South Africa. He expressed the view that the unexplored region on the other side of the Pole might reveal another continent.

## TWELVE BOUTS MAKE UP SHOW

**Boxers From Toronto, Lindsay and Belleville Expected to Participate.**

**TWO HEADLINERS.**

Four towns will be represented on the boxing card at the Armouries this Friday night, if present plans of Gord Garwood, promoter, materializes. Boxers from Toronto, Lindsay and Belleville will tackle the home talent in the most ambitious show put on here yet. Twelve bouts will be run, ten prelims and two headliners. Seats enough to accommodate one thousand fans have been obtained for the night.

Garwood has been promised three boxers from Toronto, and he is trying to get "Red" Springer as one of them to fight Reg. Lesurf a return match in one of the main bouts. Those battlers put up a great scrap here in the last show, with Lesurf getting the nod after four gruelling rounds in which both boys got plenty peeved and tried their hardest to put the other away. If another go can be arranged between them, it should be a "natural" in the way of a grudge fight.

**Two Welterweights**

The other two Queen City pugs will likely be welters, and if suitable opponents can be obtained, they may be put on toegther in the other main bout. Perhaps Cy Horner, the aggressive 145-pounder who won in short order by a knockout the last time he was here, will be one of those sent down, but this has not been ascertained yet. Further announcement as to who the out-of-town leather-pushers will be, and how they will be paired off, will be made before Friday night.

At least three Lindsay scrappers will be in the tournament, as they have promised Gord to be on hard. Only the better ones will take part, both out-of-town and local, and they will be matched according to weight and ring experience so as to give fans twelve close fights.

Efforts are being made to get a pair of Belleville fighters to go on against Art Hamilton and Hank Noakes, just before the main bouts. There are several good exponents of the mitt game down in the Quinte City, and it is hoped a few of the best ones can be obtained.

The home boxers are keeping in good shape, and after several month's training, and participation in two tournaments, they ought to be experienced ringmen, and in the pink of condition. There are half a dozen smart boxers in Peterborough who can go on with anyone their own weight and make it a scrap, and these are the boys that will be seen against the invading pugs on Friday night.

Insufficient seating capacity marred the show to some extent three weeks ago, but this will not occur again. Chairs and benches enough to seat one thousand spectators will be installed for the show, with two or three rows of chairs at the ringside going as the reserved section, and the rush seats being rows of benches further back. Further particulars as to matches, judges, etc., will be announced before Friday night.

## SPORTS

SOCCER, BASEBALL, GOLFING

**Day by Day**

AQUATIC, SOFTBALL, TRACK

**CASUAL COMMENT**

Two meetings called for to-night at Duffus', both at eight o'clock. One is the Girls' Softball League, and the other one is a meeting of the East Peterborough Baseball League. Both these loops ar figuring on getting away to an early start this year.

• • • • • • •

There was a fair turnout of lacrosse players Saturday, though the weather wasn't so good. There's another workout scheduled for to-night at six down at the Exhibition Grounds, and unless it's raining, a sizeable bunch is expected out.

• • • • • • •

Prince of Wales is supposed to play King Edward in a Public School League fixture this evening on the latter's grounds. We ought to be able to say something about a battle royal in connection with these two schools. Anyway, it should be interesting, unless rained out.

• • • • • • •

And now we'll be seeing senior baseball around here again. After a year's layoff, the games should pack 'em in like they used to do. What with Kingston and Belleville coming here to play the Petes, and another fast local intermediate league, fans who like to see fast ball will have no kick coming this summer.

• • • • • • •

As the 24th of May falls on Sunday, the opening game of the Central League will be played on Monday, the 25th. The Peterborough outfit will play Walt Gerow's bunch in Belleville that day, with Kingston being idle.

• • • • • • •

While those at Saturday's meeting in Belleville decided to look with disfavor on any attempt of Oshawa to enter in the future, yet the Motor City might be permitted to join within the next week, although the schedule would have to be revised.

• • • • • • •

It's too bad to see a Central Ontario League with Oshawa out of it, but the fault lies entirely with that town, as they kept refusing to commit themselves all along in the hope that they might get something better. They may now find themselves out in the cold, with no baseball at all this summer, except exhibition games.

• • • • • • •

The Examiner Men's Bowling League finished up last night down at Duffus' with Frank Gray's crew taking first place and the Duffus Cup. They took three in a row from Jerry Cullen's team which finished second. Bill Zeihr's outfit took third money, and Bob Baker's landed fourth.

• • • • • • •

There were eight teams in this league, and the schedule started away back on October 10, finishing April 24. And now the playoffs are all over. The bowlers had a great season, lots of fun and exercise, and they'll be sorry to see it over.

• • • • • • •

Baker's team won hands down as far as noise was concerned last night, but somehow got the queer idea that the head pin should be hit square.

• • • • • • •

Ralph Holyman, the hard-working secretary, was on hand to see the wind-up, too. Although the league is finished, many of the bowlers are taking part in the grand tournament going on now at Duffus'.

• • • • • • •

The Public School League baseball games were called off yesterday evening due to the cold weather, and will have to be replayed again before the end of the schedule.

• • • • • • •

Looks like the boxing show on Friday night at the Armouries ought to be a whiz, what with scrappers from Peterborough, Toronto, Lindsay, and Belleville taking part. Twelve bouts will give all the fight fans their money's worth.

• • • • • • •

And this time no one will have to stand. Seating capacity for a thousand—lo less—spectators has been aranged, with chairs for the reserved section and benches for the rush seats. Gord Garwood is again the promoter of the card.

• • • • • • •

Three boxers will come down from Toronto, three or four from Lindsay, and efforts will be made to get at least two from Belleville, battle the local mittsers.

## LAWN BOWLING OPENS MAY 25

**Friday, May 15th Set as Last Day for Membership Applications.**

**GREENS IN GOOD SHAPE.**

Residents living in the north-western section of the city have had occasion recently to notice an increasing number of citizens walking and motoring in their vicinity. Investigation shows that the spring fever has been affecting members of the Peterborough Lawn Bowling Club, with the result that they have commenced visiting the club house to look over the greens and find how things were shaping up for the approaching lawn bowling season.

In answer to questions, members are asking, it may be stated that the season will not open until May 25. By that time Messrs. C. Butcher, D. Smith, and J. Cole, who are looking after the greens, state that they will be in excellent condition and ready for an all-day open tournament for which there will be no charge and for which 16 prizes will be offered, four prizes for each of the four winning rinks.

Last year, considering that the grass was new from the first seeding, it was in surprisingly good shape throughout the season. This year the sod will be stronger and the greens in still better condition. They have had a good rest since last fall and as a result of the use of fertilizers and careful attention, they are in remarkably fine shape.

The directors anticipate that they will hear a lot of kicking in less than four weeks from to-day. This will be from men who have failed to join up in time to have their names included in the 41 rinks that are now being formed. Only about 15 or 16 places are left unfilled, which means that anyone who intends to join the club this year should do so without delay if they desire to get their names on the schedule which will shortly be printed. All names should be in by May 15, as a schedule will then be printed giving a complete list of the members and the rinks they are on and the dates the games will be played throughout the season. A little neglect, therefore, on the part of intending members to get their applications in early may result in their being left out of a lot of the best bowling of the season.

The next open event after May 25 will be held on June 24. It will be for doubles. This is because Cannington is holding an open tournament on the same day. It is felt, therefore, that it will be in the interest of both clubs to hold a double tournament on that day in Peterborough instead of one for full rinks.

The officers of the club intend to see this year that new members who have not had experience in bowling will be given instruction by their skips or other experienced bowlers so that they need not feel awkward when starting. President J. D. Fitzpatrick and Secretary Roy Disney report that the directors have been meeting weekly for some time, getting things in shape for the season, with the result that a busy time is expected around the club house from the opening day of the season.

LAST TIMES TO-NIGHT 7 and 9

James Oliver Curwood's Thrilling Epic

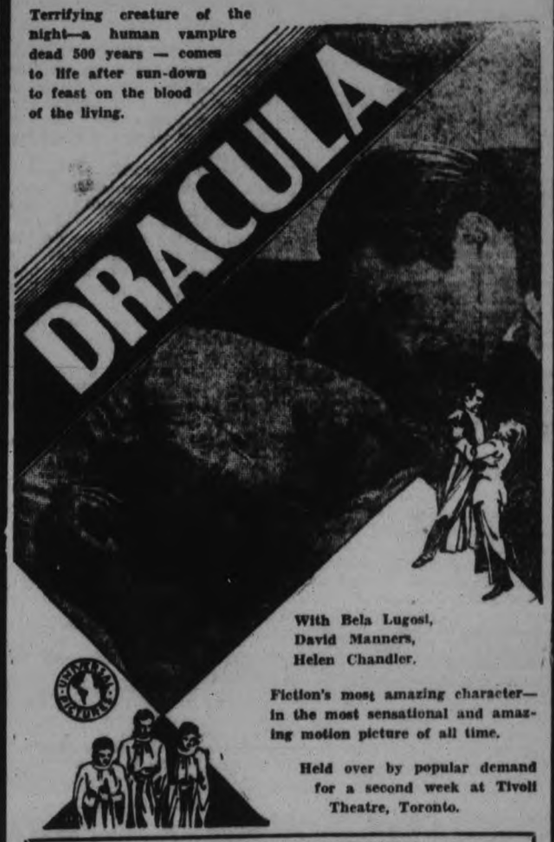
"RIVER'S END"

Of the Canadian Northwest and the men who always get their man.

Wednesday - Thursday - Friday

FICTION'S STRANGEST CHARACTER IN THE WEIRDEST THRILLER THE SCREEN HAS EVER SHOWN.

Terrifying creature of the night—a human vampire dead 500 years — comes to life after sun-down to feast on the blood of the living.



With Bela Lugosi, David Manners, Helen Chandler.

Fiction's most amazing character—in the most sensational and amazing motion picture of all time.

Held over by popular demand for a second week at Tivoli Theatre, Toronto.

NOTE—25% of the GROSS RECEIPTS for the three days business go to THE EXAMINER CHEER FUND for relief work in the city.

*Spend an enjoyable evening and help a worthy cause*

## KAY AND ROBSON LEAD PRO FIELD

**Willie Lamb Breaks Par in Afternoon Round at Islington Club.**

TORONTO, April 28.—Although the weather was far more suitable for winter pastime than golf, the members of the Ontario Professional Golfers' Association held their first competition of the season at the Islington Club, twenty-one pros and seven assistants taking part, although some of them found the cold weather and snowflurries too much for their comfort and picked up. The scoring was high, Andy Kay and Lex Robson, who tied for the lead, turning in totals of 154 far the 36 holes, eight over par. Willie Lamb of Uplands, the Canadian professional champion, was the only player to break par on either round; in fact the second lowest scores of the day were 76's by the two leaders.

Lamb, just recently back from Mexico, could not get going in the morning round and used up all of 84 strokes, but in the afternoon he played a remarkable round, his 72 being one under par. This was a brilliant effort for so early in the year and under the existing weather conditions. He started off with a five, one over par, but made amends with a birdie on the second and then rattled off four successive pars. He had birdie threes on the seventh and eighth and finished up with a par for a 34, two under par. Coming home he was one over on the tenth, but dropped a birdie on the twelfth. Then followed two pars, but at the fifteenth he again slipped a stroke. He finished up with three pars.

## Mickey Roach Confers With Syracuse Club

FORT ERIE, April 28.—Mickey Roach, manager of the Buffalo International League hockey team during the past two seasons, will confer with officials of the Syracuse club this week relative to handling that team during next season, it was learned here yesterday. Roach was offered a contract by the Syracuse club immediately after the close of the local season, but deferred action until he had time to talk the matter over with officials of the Buffalo club.

After this latter conference Roach definitely stated he was through, as far as the Bisons are concerned, inasmuch as the Syracuse club had offered him a considerable increase over the salary he was getting here.

GRAND BOWLING Tournament All This Week

This interesting function, coupled with ideal bowling weather, is Peterborough's major attraction this week. It is a health-promoting and enjoyable event, affording an opportunity for Peterborough Bowlers to join with bowlers from out of town in a climax to a splendid bowling season.

Cordial Invitation Extended to All Bowlers.

J. J. Duffus Ltd.

BOWLING ACADEMY.

## THEATRES

### AT THE REGENT

**"DRACULA."**

A ship of death sails into Whitby Harbor. Literally freighted with horrors, the cargo vessel Maude lurches up to the dock, after an escape from a terrific storm at sea. The ship has been abandoned by its crew. The mate, shrieking in terror, has thrown himself into the surging waters of the Atlantic. The captain, dead, and with a look of incredible horror on his face, slumps against the wheel, his hands lashed to its spokes. A brooding silence hangs over the vessel.

This is one of the striking situations in "Dracula," Universal's weird screen production of thrills and horrors, which is playing at the Regent Theatre on Wednesday, Thursday and Friday of this week.

Eventually the awed officials of the village go aboard the ship, to find a gibbering maniac locked in a cabin, intently engaged in catching flies. The superstitious villagers are completely mystified. They do not know that during the voyage the terrible Count Dracula, arch-fiend in human form, has crept out of a box deep in the hold of the ship and created a night of horror on the swaying decks!

Bela Lugosi plays "Dracula." Helen Chandler and David Manners assume the romantic roles. Dwight Frye, brilliant young dramatic actor, is seen as Renfield.

## Canada Applying For 1940 Olympics

**HAMILTON, April 28.—M. M. Robinson, honorary secretary of the Canadian Olympic Committee, announced yesterday that formal application, on behalf of Canada, for the 1940 Olympic Games, had been made through Sir George McLaren Brown and James G. Merrick, Canadian representatives of the International Olympic Committee.**

**The formal request was placed before the International committee at the meeting in Barcelona last week. At that time Canada voted in favor of Berlin for the 1936 games.**

## SOCCER CLUBS SIGN PLAYERS

**C.P.C. and Canadian General Meet Saturday—Referees Registered.**

**PLAY DOUBLE SCHEDULE.**

The legislation of soccer in the city brings forth many questions of interest before the Peterborough District Football Association, every regular meeting. A full attendance of the executive were present, along with representatives from the Canadian General, Canadian Packing, Caledonians and Brinton Athletic.

**Official Registration**

The local referees received their official registration cards from the secretary per Robert Muir, O.F.A.

Jack C. Russell made application as referee to the local executive and he will be requested to meet a committee appointed by the board to conform with the rules. He will be accompanied by Jack Hodson and Alex McKinley. This will give them ample time to study and construct the rules and the interpretation thereof so that they will be the same on all decisions. All the minor technicalities can be decided upon and confirmed.

**Club Representatives**

Canadian General was represented by Charlie Foster, Canadian Packing by Charlie Fenner, Caledonians by Robert Gilmour and Brinton Athletic by George Ferrence. Any change in person must be given in writing.

**Players Registered**

Canadian Packing registration forms handed to the secretary included: James Buchan, Arthur Bromley, Malcolm Fletcher, Ralph Brunton, Robert Preston, Thomas Foster, Harry Hotson, Frank Nicholls. All the players played for them last season with the exception of Malcolm Flecher and Frank Nicholls from Oshawa.

Canadian General registered Joseph Bolton, Ernest W. Cooper, James Quinn, Frank G. Stannard, Robert Murphy, Harold Darling, E. J. Chamberlain, R. C. Lewington, Stan Clark and William Bolam.

**Game on Saturday**

Arrangements were completed so that the Canadian General and Canadian Packing will play a league game on Saturday on King Edward Park. Kick off at 2.30 prompt. The early kick off being made at the request of the C.P.C. who have two players on their list they must accommodate. Referee Jack Hodson. Nets and ground marked out by the C.G.E.

**A Double Schedule**

All the clubs were agreeable to the double schedule. A committee composed of Fred Sutcliffe and Jack Cairns were appointed to draw it up and report at the next meeting. Any team desiring a particular date to be left open must notify Fred Sutcliffe.

**BARRISTERS AND SOLICITORS**

Apr 6/32-77f

## SAMARITANS HOLD GRAND LODGE RALLY

**Degree Team From Ottawa Has Charge of Interesting Ceremony.**

Cyzicus Sanctorum No. 24, Ancient Mystic Order of Samaritans held a rally on Saturday at the Oddfellows Temple, which consisted of a combination of very interesting items that will long be remembered by those privileged to be present. Visiting Samaritans were here from Ottawa, Cornwall, Toronto, Bowmanville, Lindsay, Whitby and other centres throughout the Ontario jurisdiction.

Activities commenced about 7 o'clock when the local Samaritans marched to the Empress Hotel headed by the A.M.O.S. brass band. The return parade, although somewhat curtailed, owing to the inclement weather, was interesting to the crowds which were assembled four and five deep on both sides of George Street. With the Union Jack leading, followed by a stalwart drum major, three feet eleven inches tall, attired in a multi-coloured uniform, plus a genuine military busby, the members marched from the hotel headquarters of the visitors south to King Street, thence west to George Street north, to Brock Street, circling there to the Oddfellows Hall at Hunter Street and George Street. In addition to the A.M.O.S. brass band, their Scotch pipers band also assisted the marchers.

On arrival at the hall, the regular session was held during which the splendid degree team of Gotno Sanctorum from Ottawa, led a large number of Neophytes across the burning sands of the desert. Much praise was showered upon the team under the directorship of Samaritan Lamb for the excellent and thorough way their work was accomplished. Following this degree of humility, the district installing officers from Xerxes Sanctorum of Toronto, with District Deputy Grand Monarchos Hamilton Ness in charge, then installed the officers who have been chosen to guide the destinies of Cznicus Sanctorum for the 1931 and 32 term.

This team was also congratulated for the splendid manner in which they conducted the installation of the following officers: Grand Monarch A. H. Mowry, Vice Grand Monarch Wm. J. Bull, Grand Counsellor Dick Bate, Grand Monitor J. Thompson, Venerable Friar D. McIntyre, Registrat W. F. Green, Grand Chief Guide T. Doughty, Grand Herald J. Rogow, Grand High Executioner Sam Thompson, Grand Director F. Batten, Collector of Shekels Ed. Norman.

At the Moonfeast which followed the installation ceremonial, about 150 sheiks and tribesmen stayed to partake of the desert sweets which included "Hulwah" a favorite Oriental sweetmeat, and refreshing drinks from the sacred well of Ishtosh. Both these items are always considered great delicacies among the Samaritans.

A toast to the visitors made by Samaritans Alderman Bob Cotton and Fred Tuggey, who welcomed them on behalf of both Cyzicus Sanctorum and the beautiful city of Peterborough.

## Baseball Gossip.

The Rotary Juveniles will hold a workout in James Stevenson Park on Wednesday evening at 6 o'clock. Weather permitting.

## Postponed Games.

**AMERICAN**

Philadelphia at Boston, postponed, cold weather.

**LOWDEN CHARLTON SUICIDES.**

STAMFORD, Conn., April 28. — (C.P.)—Lowden Charlton, concert manager, whose wife, the former Helen Stanley, is a noted concert singer, committed suicide to-day at his home here by shooting himself in the brain.

Losses in the stock market are said to have caused the act.

Don't miss "Dracula" at the Regent Theatre on Wednesday, Thursday and Friday of this week. The Examiner Cheer Fund gets twenty-five per cent. of the receipts for relief work.

The President of Uruguay has recommended the establishment of nation-wide employment exchanges to care for the unemployment situation.

No. 94—8.47 p.m., for Port Hope, Cobourg, Kingston, Montreal New York, Boston. Carries through sleeper from Peterborough to Montreal. Daily except Saturday and Sunday.

# NEW MAGAZINE COVER VOGUE SEEN BY PARRISH, NOTED ILLUSTRATOR

### Believes Wave of Landscapes Will Replace the "Girl-on-a-rock"

### BEEN FAVORITE 13 YEARS.

PLAINFIELD N.H., April 28.—Maxfield Parrish is painting his last "Girl-on-a Rock."

The veteran illustrator is afraid they'll make a "rubber stamp man" of him and he's convinced that there's a new vogue coming in magazine covers and calander designs.

He believes—and, in the art world, his opinions carry weight— that the pretty girl not if in illustrations is due to yield to a wave of landscapes. He thinks that the business man the laboring man, and the housewife need pictorial "windows" to widen their horizons To supply these "windows" will be the work of the artists of the future he says.

Standing and reclining against backgrounds of oceans, forests, mountains and waterfalls, "Girls-on-Rocks" have been as characteristic of Parrish paintings as the artist's inimitable reproductions of the azure skies.

**Painted Last Girl.**

Parrish tall, his face bronzed beneath an upstanding shock of white hair, discussed his plans for "something new" as he lounged outside his studio door.

"I'm done with girls on rocks," he said.

"I've painted them for 13 years and I could paint them and sell them for 13 more. That's the perio of the commercial art game. It tempts a man to repeat himself.

"It's an awful thing to get to be a rubber stamp. I'm quitting my rut now while I'm still able.

"Magazine and art editors—and the critics too—are always hunting for something new, but they don't know what it is They guess at what the public will like and, as we all do, they guess wrong about half the time.

"My present guess is that landscapes are coming in for magazine covers, advertisements and illustrations.

## The Fairy Queen's Christening Gift

Once upon a time the Fairy Queen was asked to be God-Mother to a very important Baby Princess and wanted an especially nice Christening Gift—So she sent her five cleverest Elves to fly all over the world in search of wonderful scents and rare perfumes and rich oils for a magic soap that would make the Baby Princess as lovely as the day is long.

Well, the first Elf flew to France and Algeria and Bulgaria, where the loveliest roses grew, and asked them to give their pretty frocks for the Magic Soap. And the roses showered their sweet petals into a big sack the Elf had brought with her, all ready to be scrunched up and give a lovely perfume.

The second Elf flew to Africa and there she made friends with the king's daughter, who gave her cloves and Vevivert—that is a scented root—rather like our sweet grass.

And the third Elf went to India and found Patchouli—a plant whose leaves smell something like mint, and the pretty yellow wood of the sandalwood tree, which is very fragrant.

But the fourth Elf had the most dangerous time, for she daringly flew to an island near Italy called Messina, where there lived some fierce fruit called Bergamots who were very nasty and disagreeable but who nevertheless wore exwuisite perfumed coats. The Elf crept up when the whole treefull were asleep and snipped off a bit of their coats here and there where it would not be missed—and was just tiptoeing away when a big fat Bergamot awoke and with a great yell prepared to fall on her and crush her. But the Elf called to the flower Fairies to help her and they seized her quickly and hid her beneath a toad-stool till the Baagamots had gone to sleep again when she scampered off home with her treasure.

On her way she met the fifth Elf who had clear golden cocoanut oil from Cochin China and sticky scented gums from the East Indies.

And when they all arrived back they found that the Palace Pussy Cat who wanted to help his mistress had been all the way to Abyssinia (that is Bible Story Land) to see a cousin of his, the Civit Cat, who carries a delicious perfume with him in a tiny bag and had gladly given it to Pussy—And Civit had kindly introduced the Fairy cat to a Chinese friend of hi the Musk Deer, who had some rare scent in a secret sack under his tummy which he also gave for the Christening Gift.

How pleased the Fairy Queen was! Quickly she carried all the marvelous things to a Mortal friend of hers who was a soap maker and he worked with his help rs day and night and produced the most wonderful soap he had ever made just in time for the Christening.

And the Princess grew up so beautiful that she married the richest and handsomest Prince that ever was, and on her wedding day when the Fairy Queen came to see her, she said: "Dear God-Mother, couldn't you ask your friend the Soap-Maker to make heaps and heaps of my wonderful soap and give it to all the little folk and all the big folk in the world, I feel so elfish enjoying it all to myself."

"That is a good kind God-Daughter," said the Fairy Queen—and she told the soap maker, who promised to do as the Princess wished.

And he went on making the Magic Soap all his life, and after that his son and grand-son went on making it. And do you know it is really your Baby's Own Soap, and it is because it is made of the perfume oils from all the wonderful things that the five Elves found all over the world that it smells so sweet and makes such heaps of fluffy creamy bubbles and helps little folk and big folk to grow as lovely as the day is long

## Marmora

MARMORA, April 27 (Examiner Correspondence).—Mrs. H. F. Lloyd, of Bannockburn, spent Wednesday and Thursday at Deloro with Mr. and Mrs. N. A. Kilpatrick.

Mr. and Mrs. Manley Lavender and young son, Glen, spent Sunday with relatives at Glanmire.

Mr. and Mrs. W. H Derry and family and Mr. T. Derry attended the funeral of the late Mr. Rosebush at Stirling on Wednesday.

A sale of home cooking and bridge party was held by the Ladies' Guild of St Paul's Church in the store owned by J. Barlow on Saturday afternoon.

The motion picture "Evangeline" is being shown by the Ladies Guild at Deloro on Tuesday evening and at Marmora the following evening.

## Crown Drops Counts Against J. Hamilton

STRATFORD, Ont., April 28. — Word to the effect that the Crown will not proceed with any of the remaining charges of false pretences on which J. Hamilton, Listowel lawyer, was committed, has been received in the city and was made known to-day by Acting Crown Attorney L. J. Long. The cases were to have opened here to-day before Judge Clement of Kitchener. The charges were about twenty-five in number, all arising out of Hamilton's activities as Listowel agent for the Toronto real estate firm of Hubbs and Hubbs. Hamilton has been convicted on one charge of false pretences and is now serving a two-year-term in the Guelph Reformatory.

## Air Eagle's Mother Broadcasts

LINDBERGH'S MOTHER TAKES TO AIR

Mrs. Evangeline Lindbergh of Detroit mother of the flying colonel has taken to the air, too, but by the microphone route. Here she is seen in her home city of Detroit giving a radio address on how to bring up children.

## Officer On Carpet Over Eight Robberies

GALT, Ont., April 28.— A special meeting of the Preston Police Commission has been called, as a result of an aroused public sentiment over the breaking into of eight stores over the week-end in which the thieves obtained but $30 and a quantity of goods. The Police Commission meeting will conern why the night policeman did not discover the break-ins. In Hespeler, an electric shop was entered over the week-end, a pistol, an old revolver and a flashlight were taken.

# LONDON HONORS STOW'S MEMORY

### Lord Mayor and Aldermen in Full State Regalia Attend Service.

### ANCIENT CUSTOM.

LONDON, April 28. (C. P. Cable) —That the city of London is ever eager to keep green the memory of its worthiest citizens was evidenced to-day when the Lord Mayor and Aldermen in full state regalia attended the service to the memory of John Stow, the chronicler of the reign of James I. To Stow, the present generations owe most of their knowledge of London as it was before the great fire.

The service was at St. Andrews-Under-the-Shaft, so-called because for centuries it was the custom of the citizens to erect a maypole in the shadow of the church.

Following ancient custom, the Lord Mayor to-day placed a quill pen in the hand of Stow's effigy.

The sermon was delivered by Rt. Rev. William Wellcox Perrin, rector of St. Andrew's, who is 83 years of age, but still renders valuable service in his diocese. He was Bishop of British Columbia from 1893 until 1911, and came back to London in 1912.

# SAFE CRACKERS GET $500 IN RAID

### Trio Elude Pursuers After Gun Battle By Blowing Up Bridge.

AGASSIZ, B.C., April 28 (C.P.)—Blowing up a highway bridge between here and Deroche, two safe-crackers who stole $300 from the Harrison Hot Spings Hotel, Harrison Lake, early to-day escaped police pursuit.

It is believed a third man was in a car which awaited them outside the hotel.

They leaped into their car, fired several shots, and then made their escape by placing a charge of dynamite under a bridge about ten miles west of here.

The safe-blowers were hailed near Mission by two Provincial Police constables, but they refused to stop and fired several shots, one of the bullets hitting the police car. Several police shots hit the bandit car.

# HUGE NEW STARS ARE DISCOVERED

### Professor Claims They Are 40,000 Times as Radiant as the Sun.

### CENSUS IS TAKEN.

A.P. Science Writer.

WASHINGTON, D.C., April 28.—(AP)—Discovery of stars 40,000 times as radiant as the sun and as much as 186,000,000 miles across was announced to-day before the National Academy of Sciences.

Dr. Harlow Shapley, astronomer and director of the Harvard Observatory, told of the huge new stars in describing explorations into distant reaches of space that may shed new light on the "limits" of the universe and on mathematical theories about the nature of space.

He spoke at the opening session of the three-day annual meeting of the national academy, whose members are chosen as a result of outstanding accomplishments in science.

**Found During Census.**

Discovery of the enormous new stars resulted from a census being taken by the Harvard Observatory of the thousands of remote galaxies, giant star clusters that contain tens of billions of stars and are thousands of light years across. The galaxies serve as distant "mile posts" in the night sky with the aid of which Dr. Shapley is seeking new knowledge of the universe.

The "boundaries" of space, or at least the boundaries of the space occupied by galaxies, apparently still are far beyond the reach of man's largest telescopes, Dr. Shapley said, So far as his galaxy census has shown no evidence that telescopes are approaching these boundaries. The greatest distance the largest telescopes have been able to "see" is about 200 million light years. That is the distance light would travel in 200 million years at its speed of approximately 186,000 miles a second.

Dr. Shapley said he had found the more distant galaxies do not seem to be uniformly distributed in space, and this may be significant in relation to mathematical theories concerning the universe. Uniformity of matter, he explained, is assumed by Albert Einstein and other mathematicians, to simplify working out of their calculations dealing with the universe.

# WOMEN THE WHOLE WORLD ENVIES

Laura La Plante

THEY wear the latest clothes with such stunning effects. For every woman within this charmed circle there are thousands dieting to achieve such a figure.

Some succeed. But too many pay the penalty. Weight may be lost but years of age are often added. The skin becomes sallow. The eyes tired. Energy is lost.

The diet that produces such unhappy results frequently lacks roughage.

Kellogg's ALL-BRAN in a reducing diet helps you keep fit.

ALL-BRAN does not add fat to the body. But its abundant bulk relieves and prevents internal congestion safely, and it contains iron to color cheeks and help prevent dietary anemia. Made by Kellogg in London, Ont.

Kellogg's ALL-BRAN

### Ever Ready

The "Minute Man" of to-day is the telephone. Almost anywhere — and back again—in the shortest possible time—you are transported by this ever-ready servant. Long Distance knows no barriers, admits no distance. It is the means to an easier, pleasanter way of living.

# SIX COMMUNISTS APPEAR IN COURT

Nine Were Arrested Following Demonstration in Montreal Square.

ALL ARE FINED.

MONTREAL, Que., April 28. (CP) Six alleged Communists of which three were women were fined in the recorder's court here yesterday and bench warrants were issued for three others who failed to appear. The nine were arrested on April 15 when they attempted to start a demonstration on Victoria Square. Dave Weiss, 19, charged with attempting to hold an illegal assembly, was fined $25 and costs or one month in jail. Henry Grebbler, 33, was charged with interfering with the police and fined $50 and costs or one month's hard labor while Anna Louis 16, on a similar charge was sentenced to pay costs or eight days in jail and bound over to keep the peace for six months or forfeit $200 which she was ordered to pay.

Bertha Bercovitch, 35, was fined costs or eight days in jail on the charge of refusing to move when ordered and Mary Winner, 26, and Louis Smith, 29, charged with the same offence were fined costs or ten days in jail.

Bench warrants were issued for Martin Byork, 25, John McIver, 44, and Andre Russi, 28, who failed to appear in court.

## *Newmarket Man Is Committed For Trial*

TORONTO, Ont., April 28 (C.P.). —David Lipson, councillor, of Newmarket, Ont., arrested last night following the coroner's inquest into the death of John Newton of Willowdale, whose body was found in the ditch near his home several weeks ago, was committed for trial on a charge of criminal negligence when he appeared in County Police Court today. After entering a plea of not guilty his counsel asked for trial by jury. Bail was renewed at $2,000.

435-437 GEORGE ST. - PETERBORO

THE SON OF TARZAN No. (Metropolitan Newspaper Feature Service, Inc.) By Edgar Rice Burroughs

Korak advanced to meet the monster. He too, was growling. In his mind a plan was forming. To close with this powerful, untired brute after having just passed through a terrific battle with another of his kind, would be to tempt defeat. He must find an easier way to victory. Crouching, he prepared to meet the charge; nor had he long to wait. With wide open jaws and clutching fingers the ape came down on the waiting Korak with the speed of an express train.

Korak did not move until the great arms opened to embrace him. Then he dropped low beneath them, swung a terrific right to the side of the beast's jaw as he side-stepped his rushing body, and swinging quickly about, stood ready over the fallen king. Each time the beast struggled to rise a sledge-hammer blow sent him sprawling. Froth flicked its hideous lips. Blood-curdling roars tumbled from the deep chest but not once did he gain his feet.

The apes who had cheered on their king, now jeered at him. One more terrific punch from the Killer and then the stubborn bull's lips came faintly the word "Kagoda!" meaning "I surrender." "Then rise and go with your people," said Korak. And old bull came slowly toward the Killer: "You have beaten our king. We do not want him now. Where shall we find another? Will you come and be our ruler?" Korak turned toward Akut. "There is your king," he said.

Akut did not wish to be separated from Korak. He wanted Meriem and Korak to live with the tribe. But Korak knew Meriem would never be safe there. "We will live near you," he said, "but we shall not dwell among you." Akut at first refused to leave his human friend. But the call of blood would not be denied. He saw the admiring glances cast upon him by a young female ape and with a farewell grunt to his beloved Korak, he turned and followed the tribe.

**ARCHIDIACONAL MEETING**

The meetings of the Archidiaconal Conference of Peterborough will be held in All Saint's Church on Wednesday and Thursday of this week. The services to which the public are cordially invited will be held on Wednesday at 8 p.m. when the Reverend R. B. McElheran, Principal of Wycliffe College, Toronto, will be the preacher and on Thursday morning at 9 a.m. there will be Holy Communion. The Venerable Archdeacon Davidson is chairman of the gathering and Bishop Sweeny is expected to open the conference.

## Good Entertainment Association Meeting

The monthly meeting of the Home and School Association of the Prince of Wales School was held in the kindergarten room last evening at 8 o'clock with a good attendance. The president, Mrs. G. H. Spicer, occupied the chair and the meeting opened by repeating the Lord's Prayer in unision.

The secretary, Mrs. W. R. Parnell, gave a fine report which was approved after which a delightful program was rendered by the Cheerio Band, a local organization which received a great deal of well-merited praise. H. McCannon is the leader and director and last evening they gave the audience a real treat of old-time favorite selections, intercepted with duets by members of the band. The personnel is as follows: F. Skitch (Bass Viol); Walter Fitzgerald and M. Peters (violins); H. McCannon J. Freeman, C. Crouter and Mr. Rose (harmonicas); H. Hodson and F. Clarke (banjos); C. Church (traps); Mr. Freel (piano). J. Smith led the band for the evening and M. Peters gave two interesting readings.

The rol was then called and it was found that the banner went to Miss Huffman's room for the ensuing month.

A very hearty vote of thanks to the entertainers was moved by W. R. Pernell and extended to them by the president. Refreshments were served by the social committee under the convenorship of Mrs. G. Davis and Mrs. Pearson and a social hour enjoyed.

**LONGESHOREMEN GO ON STRIKE.**

DULUTH, Minn., April 28. (CP)—More than 400 longshoremen at Duluth and Superior went on strike to-day following announcement of a 15 per cent. reduction in wages.

The new wage scale is 75 cents an hour for overtime and 60 cents for regular time. The previous scale had been 85 and 70 cents.

# LIBERAL WOMEN HOLD CONVENTION

### Over 300 Delegates Gather For Annual Meet in St. Catharines.

### OFFICERS ELECTED.

ST. CATHARINES, April 28. (CP) Three hundred delegates are in attendance from all parts of Ontario at the annual convention of the Ontario Liberal womens sessions being held at the Hotel Leonard. The convention was opened this morning by an address of welcome by Miss Jane Thompson President of the St. Catharines Association and responded to by Mrs. E. F. Bawtinheimer, President of the Galt Association, the latter being the youngest organization of Liberal women in Ontario.

The morning was spent in hearreports from various officials of the Association showing that financial position is strong and the membership ever on the increase. This afternoon the delegates elected their officers and later took a drive through the district as guests of the St. Catharines Chamber of Commerce. Miss Gertrude Rankin, Stratford, president of the organization presided over the morning session.

The speakers at to-night's banquet will include Mitchell F. Hepburn, M.P., Ontario Liberal leader.

# DRINK TOMATO JUICE TO GAIN STRENGTH

### Canadian Canners, Limited, of Hamilton, in Examiner Show Window.

Drink tomato juice and grow strong! Drink tomato juice and provide your blood with those mysterious little missing vitamins that we have discovered lately and that apparently make so much difference in our supply of pep, or otherwise.

A young gentleman who seems to be a cross between a kewpie and a brownie holds a large goblet of rimson tomato juice on high, in The Examiner show window, where he advertises very effectively the health-giving properties of the juice of the loveapple, as it used to be called. In this south window of The Examiner offices there is a very effective display, carried out with a bright red and yellow background, of the products of the Aylmer processes of the Canadian Canners, Limited, of Hamilton. A large red tomato against a rising sun forms the highest poin of decoration in this window.

A returned missionary from Africa told of the importance of tomato cans in that far-away land, where semi-civilized natives use them as decorations on their little front-room tables in their two-room dwellings. They occupy a place of honor, along with Eaton's catalogue, in these homes and they seem to be, in fact, very decorative. They come in red, yellow and green cans that hold all sorts of nice things to eat: tomatoes, of course, first, last and always, and then corn, red cherries, peaches, Bartlett pears, pork and beans, peas, boned chicken. And a grey Jumbo elephant is the main advertising idea for the tall bottles of Tiger brand catsup that some from these wor h-while vegetables.

But the principal idea just now is the importance of tomato juice as a healthbuilder and to supplement the diet with that Vitamin labelled C that is so necessary to the health of adults and juniors alike. Take a look at the goblet of rich red tomato juice and you will probably want to sample it, for "Your Health's Sake," as the tomato logan puts it.

This window is only one of themany fine windows in the city that are being prepared for next week: "Tomato Week." It was dressed by the local Haboco Stores.

# MARK PENGILLEY IS DOG CATCHER

### Official Dog Catcher Starts on His Rounds Cleaning Up Dogdom.

### EXPERT AT THE JOB.

The city's newly-appointed dog catcher began the chase this morning.

Selected from more than a dozen eager aspirants, Mark Pengilley, a veteran of the Royal Navy and the British Imperial Army, with more than 25 years of service in India, Egypt, South Africa and other farflung outposts of the Empire as his background, was given the job yesterday. Mark knows his dogs, since he officiated as dog catcher in 1929 and during the early part of last year, until succeeded by that canine catcher extraordinary, James Gates.

**Expert Catcher.**

The City Council maintains that Mark is the best dog catcher ever to patrol a local laneway. His admirers claim that he can catch a wandering dog, return it to its owner and collect his dollar fee without ruffling anyone's temper, not even the dog's.

Although he secured the appointment yesterday, Mark did not start out until this morning. But he wasn't idle all yesterday. He was busy with hammer and nails repairing holes in the city's pound. "When I get 'em I want 'em to stay got" was the thought behind the hammer.

Mark told The Examiner that business wasn't so good to-day. He had been up around the north-end checking up on dog owners who have been lax in buying tags for their pets. He hadn't a dog in his re-inforced pound by noon to-day. But no doubt things will get better.

# MORE FORGERY CASES REPORTED

### Two Old Age Pensioners Claim Checks Were Stolen From Mail Box.

### BOTH BEEN CASHED.

LONDON, Ont., April 28.—Two new cases of theft and forgery of Old Age Pension cheques are being investigated by county police, who announced to-day that further developments could be expected shortly. The victims are two aged persons living in West Missouri Township.

In the latest cases, the elderly persons reported the loss of their allowance cheques and believed that they had been stolen from mail boxes at the homes where they had been living. Investigation has so far revealed that the cheques were signed, supposedly by the pensioners, and cashed. The signatures, if the stories of the old people are to be believed, are forgeries.

The services of an authority on handwriting are being obtained to check up the signatures on the cheques, which are said to bear a close resemblance. It is believed that both documents were signed by the same person.

# HIGHWAY WAGES

(Continued from page one)

mer, Reeve H. Coons of Smith, and Deputy-Reeve Waterman of North Monaghan.

**Discussed in Council.**

The proposal to cut the wages of the employees on these two road systems was first broached at the meeting of the County Council in January by the two representatives from Otonabee, Reeve McIntyre and Deputy-Reeve Huston. Even before that occasion the ratepayers of Otonabee at their nominations meeting had criticized the wages which these employees of the county had been paid last year, and speakers had urged a lower scale for this season corresponding, they said, with their own diminished incomes.

Wages paid last year were $6.00 for teamsters, $5.00 for patrol and machine men, and $3.00 for laborers. Presumably, the two representatives from Otonabee considered that they were carrying out the wishes of their ratepayers as expressed at the nominations meeting, by urging the paslash for this year. It is recalled tha they even suggested twenty-five cent an hour for laborers, but other members of the Council objected that thi was an extreme measure. Reev Cavanagh of Ennismore and Deputy Reeve Waterman were two of thos who protested that the laborer should not be paid less than $3.0 for a ten-hour day. In so far as th County Council was concerned the Otonabee proposal was adopted a the February meeting of the Council.

Saturday's vote was as follows:

Yeas—Coons (Smith) and Waterman (North Monaghan).

Nays — Sanderson (Havelock), Smithson (Otonabee), Kitney (Otonabee), Gainey (city).

The meeting was called for the purpose of receiving applications for the position of traffic officer on the suburban-county roads.

Mr. Sanderson and Mr. Tanner moved that the tenders be opened, but an amendment by Messrs. Gainey and Smithson to hold them for thirty days carried. The division on the amendment was: Yeas, Gainey, Kitney, and Smithson; nays, Tanner, Waterman, and Coons.

The amendment was adopted on Mr Leahy's decisive vote, as chairman.

Mr. Tanner moved, seconded by Mr. Gainey, that the clerk correspond with the Provincial Inspector as to arrangements with the Provincial authorities to have the county and suburban area roads brought within the authority of the Provincial Police.

# Downtrodden Cockerels Square Scores By Holding "Overlord" for Justice

MARMORA, April 28.— (Examiner Correspondence) —Harry Edwards of Marmora has a trio of roosters which staged for him on Sunday evening one of the most amusing sights he has ever witnessed. For several months his flock of forty odd hens have been under the vigilant eye of a stately old bird.

Last fall two promising youngsters were born which the owner desired to keep. Matters went allright until they began to put on weight and so it came about that recently they have been so driven away from the flock as to miss the grain which was their rightful share Things changed on Sunday evening in this remarkable way.

Mr. Edwards endeavoured to catch the offending rooster and thought to succeed best by driving him into the hen roost. Here, however Junior No. 1 stood on guard at the entrance and repulsed the fugitive from justice. Then the strangest part of the whole affair happened. Junior No. 2 grabbed the old bird by the neck in dog-like fashion until the owner came up to complete the capture.

# GOOD SHIP PROHIBITION BATTLING STORMY SEAS

### Main Skit at Newspapermen's Dinner Revolves About Wickersham Boat.

### PROHIBITION TAKE OFF.

WASHINGTON, D.C., April 28. (CP)—The "good ship prohibition" battled through stormy seas last night so members of the gridiron club could cast their annual spring barb at everything from magicians to Bolsheviks, not overlooking the president.

At the newspapermen's dinner the main skit revolved about a vessel captained by a man resembling George W. Wickersham. As President Hoover looked on, the lights went out and a voice chanted:

"It's a dirty night on the policical deep. That battered and belabored ship, the Eighteenth Amendment, is swept by gales and rocked by storms. What will be her fate as she plunges through the heavy political seas, trying to make harbor in 1932, with the ancient mariner, George W. Wickersham, at the wheel?

**Ship Sprung Leak**

As a man who walked and talked like Representative Laguardia of New York warned that the ship had sprung another leak and Scotch was pouring in, the captain sang:

"Water, water everywhere
"Ye how the dry votes shrink,
"Water, water everywhere
"And only Scotch to drink."

Laguardia asked how the mariner proposed to get out of the storm.

"If you'll read the report of my commission" was the answer, "you'll find I haven't the slightest idea."

A few minutes later, in another exchange, the reply was extended in this way:

**Look Both Ways**

"I intend to do exactly what the commission recommended—look both ways at once, trust in Herbert Hoover, hope for the best and expect the worst."

Then the mariner asked:

"Did somebody send my SOS to the White House?"

A man who resembled Senator Fess of Ohio, replied:

"Yes, Captain Wickersham. Here is your radiogram to the White House: 'We are all wet. I don't know what to do.' Here is the answer: 'Glad to hear you are all dry. I know what to do'."

The President had an opportunity to respond to the fun-making but, as usual, there was an agreement that no reporters were present and his remarks were confidential.

There were numerous skits besides that on prohibition. In one of them the "1931" Nobel prize" was awarded to Calvin Coleridge because among other reasons, he "personifies 'habbitt" to the highest degree."

The prize winner was told:

"Now, if you wish, you are free to slap Theodore Dreiser in the face."

# FERGUSON MAKES PLEA AT LEEDS

(Continued from Page 1)

Britain the importance of giving attention to the opportunities Canada offers," said Mr. Ferguson. "These opportunites give reasonable chance of return but surely apart from that one owes a duty to the nation and the Empire."

If Canada were impoverished or destitue, Mr. Ferguson said perhaps he might apologize for making such an appeal but since Confederation Canada had grown that now with ten millions of people she was the fifth trading nation in the world.

"It is true we have felt a general falling off in business but I will venture the prediction that Canada will be the first country to emerge from the depression," he said. "We have a very appreciable evidence of our recovery to-day and before the snow falls in Canada again all unemployed there will be absorbed back into useful occupations and the problem will then be to expand our industries to take care of our agricultural opportunities and make people prosperous and happy."

Mr. Ferguson declared Canada had to follow the leadership of the British Isles and was intensely British in her ideals and desires. Canadians had the friendliest feeling towards her American neighbors, but the Canadian ideal national life was one thing and the American another, and Canadians proposed to pursue theirs.

**IN MEMORIAM**

GRAY.—In loving remembrance of our dear son, Royden Gray, who passed away April, 29, 1929.
Broken is the family circle,
Dear is the one that has gone;
In memory we shall keep him
As long as the years roll on.
—Sadly missed by Mother, Father, Sister Evelyn and Cousin Jim.

**IN MEMORIAM.**

TRUDE. — In loving memory of our dear wife and mother, who passed away on April 28, 1929.
God called her home, it was His will,
Why so young, we wonder still;
'Tis sad but true, we wonder why
The best are always first to die.
—Sadly missed by Husband and Son Sam and Harold Trude.

Don't miss "Dracula" at the Regent Theatre on Wednesday, Thursday and Friday of this week. The Examiner Cheer Fund gets, twenty-five per cent of the receipts for relief work.

## Snowden Bears Up Well After Speech

LONDON, April 28 (A.P.)—Rt. Hon. Philip Snowden, Chancellor of the Exchequer, appeared none the worse to-day for his strenuous exertion yesterday in delivery of the Budget speech, more than an hour long, before the House of Commons.

The Labor Government's "Iron Chancellor" planned to attend this evening's session of the House, listen to the Budget debate, and to-night deliver a 25-minute explanation of his financial program.

Mr. Snowden, a cripple, is recovering from a severe attack of cystitis and an operation.

# Three Bandits Captured In Bank Hold-Up

## ONE IS WOUNDED DURING SKIRMISH WITH DETECTIVES

Five Officers Waiting Outside Montreal Branch Follow Trio Inside.

ALL CARRIED GUNS.

Steel Vest Saves Detective's Life as Despero Fires Point Blank.

MONTREAL, Que., April 29 (C.P.). — A squad of city detectives shot and seriously wounded a would-be bank bandit in a gun battle in the lobby of an east-end branch of the Bank of Montreal during the lunch hour to-day, and captured the wounded man's two companions

The wounded man gave his name as Joe Malouff, but the names of the other prisoners were not available. Malouff fired at Detective Laroche, but the bullet glanced off the officer's chest, rebounding from a steel vest the officer wore under his coat. Shock caused Laroche's gun to discharge, shooting Malouff in the shoulder.

**Suspicions Aroused.**

Looking for oter bank old-up suspects in connection with the robbing of the Banque Canadienne Nationale on Monday, the detectives were parked outside the Bank of Montreal branch. Their suspicions aroused by the action of three men hanging about the entrance to the bank, they followed them inside. The trio walked into the bank lobby and produced guns. The detectives unlimbered their own pistols and called uopn the bandits to surrender. Malouff whirled and shot at Laroche, and a moment later was lying on the floor, wounded by a bullet from the detectives gun. The other two were disarmed and captured by the five detectives.

## PRAYER SERVICE UPSET BY FIGHT

Intruder in South End Tabernacle Fined in Police Court.

WIFE A MEMBER.

Charged with breaking up a religious service in the Tabernacle of the Standard Church of America on Townsend street last night, a local man pleaded guilty before Police Magistrate Langley this morning and was fined $5.

Chief Newhall said the man entered the church at a most solemn moment in the service and started a fight. "He was trying to bring out a young man, who wouldn't go out, and started the uproar which ended the service," said the Chief.

Police were called to end the row.

"He was kneeling at the altar supposed to be being filled with the Holy Ghost when I tip-toed up and knelt beside him," explained the accused. "His arms suddenly went out, striking me and bowling me over."

He explained that his wife was "mixed up" with the sect. "I moved across the river in an attempt to keep her from going to so many services. She goes five times a week besides Sundays. I work at night and the children are left alone. I'm thinking of putting them in the Shelter.

He was warned that he couldn't interrupt religious services and that he had better come to the police with his troubles before using force as a remedy.

## TRUCKS TOO HEAVY.

Four local men pleaded guilty in Traffic Court to-day to driving overloaded trucks on the highway. Their fines ran from $10 to $15, being at the rate of $100 for each one hundred pounds overweight.

Patrol Officer Ted Hornick made a check up of the trucks on the Lindsay highway recently and the charges followed. The fines ran as follows: Tom Doughty, $10; Harvey Sanderson, $15; Claire Payne, $10; D'Arcy Foster, $12.

Because it has run out of money the Liverpool Reform Club, the headquarters of the Liberal party in Liverpool, England, for 50 years, has quit.

## 100 Are Killed In Soviet 'Quake

MOSCOW, April 29 (C.P.). — At least one hundred persons were reported killed or injured to-day in an earthquake which struck three districts of the Soviet Republic of Nikichevan, in Transcaucasia.

Several villages were reported to have been wiped out and many of the houses in other settlements were destroyed. The Transcaucasian Government moved immediately to organize relief.

## DAMAGE ACTIONS ARE ADJOURNED UNTIL SATURDAY

15 Witnesses Were Called Yesterday In Suites Against Belmont Township.

CLAIMING $1,000

Both Actions Arose From Motor Accident on Rock Hill, Stoney Lake Road.

Two actions against the Townships of Belmont and Methuen for $1,500 were heard at special sitting of County Court here yesterday before Judge L. V O'Connor, of Cobourg.

Both actions arose from a motor accident on Rock Hill, Stoney Lake road, on March 16, 1930, in which Fred Wrightley of Havelock, and Cora Kirby of Illinois, claimed they suffered damages totalling $1,500.

Fifteen witnesses, all but five being for the plaintiffs, were hear yesterday, but with the case still far from completed and 6 o'clock being passed, Judge O'Connor adjourned further hearing until Saturday morning.

**Dangerous To Motorists**

W. F. Huycke, acting for the plaintiffs, hinged his case on an effort to prove that the Rock Hill stretch of road was dangerous to motorists, being steep and narrow and with insufficient railing to protect cars from going over the embankment. Many witnesses were brought in to describe the road and engineers and surveyors submitted drawings.

Perhaps the most startling evidence was supplied by Mrs. Cora McCarthy and her sister, Miss Pollock, who stated that after the accident Mrs. Fred Wrightley, driver of the car, had admitted to them that she was going too fast and that her brakes wouldn't hold on the icy road.

Hon. G. N. Gordon, K.C., is appearing for the townships, while W. F. Huycke is acting for the plaintiffs.

Captain Gerald Marryat, a civil engineer and first witness for the plaintiffs, submitted a drawing of

## DAVIS HILL AND WIFE OF DUMMER ARRESTED ON CHARGE OF ARSON

RE-ELECTED.

JOHN R. MARSHALL,
Chairman of the Peterboro Branch of the Canadian Manufacturers' Association, who was re-elected at the annual meeting of the branch Tuesday afternoon.

Barns of the Old Hill Homestead Burned Tuesday Night.

HOUSE DAMAGED.

Held responsible for the fire which las tnight destroyed the barn and outbuildings of the old Hill homestead in Dummer township, Davis and his wife, Permila, appeared before Police Magistrate Langley this morning charged with arson.

G. N. Gordon, K.C., appeared for both accused and did not plead or elect. The husband was remanded to jail until May 6, but his wife, because of her young baby, which she caried in court, was allowed her freedom.

Davis Hill and his family have been living at the old Hill homestead throughout the winter. The property is said to be owned by Russel Hill.

It is alleged that yesterday afternoon Davis and his wife set fire to the barn and outbuildings and placed fire in four places in the house.

First intimation of the fire was given by Russell Hill's hired man who saw the smoke. Russell Hill and neighbors rushed to the place and attempted to put out the blaze. The barn and outbuildings were destroyed, but the fires in the house were put out before much damage was done. Russell placed the loss at $1,500.

Provincial Constable Sylvester was notified of the fire late last night. He found Davis Hill and his family at the home of Wallace Dewart and arrested Hill and his wife.

## SEARCH STARTED FOR COURTAULD

Wireless Message Supposedly From Lost Scientist Says Provisoins Done.

TWO PLANES ON WAY.

MALMO, Sweden, April 29 (A.P.)—Capt. Albin Ahrenberg, the Swedish aviator, took off at noon to-day on a flight to Greenland to search for Austin Courtland, the British scientist, who is lost there.

COPENHAGEN, Denmark, April 29 (A.P.)—A wireless message received at Reykjavik, Iceland, to-day purporting to be from Augustine Courtland, British scientist, who is lost in Northern Greenland, stated: Absolutely without provisions.

An airplane leaving Iceland to-day with the Iceland inspection ship Coln, will fly from the edge of the ice barrier to Tasloak and to Angmagsalik, searching for Courtland en route. If the plane can find him, it will drop provisons on the ice for his use.

He is believed to be somewhere in the vicinity of the station at which he was left to spend the winter and obtain meteorological data for use of the British Arctic air route expedition. The site of this station has not been located thus far by rescue missions which have gone to Courtland's aid.

## OFFICER SEIZES CARGO OF LIQUOR

Discovery Made When "One-eyed Truck is Halted Near Newcastle.

TWO MEN ARRESTED.

OSHAWA, Ont., April 29. (CP)—Stopping a truck driven by R. Roberts of Montreal, on the highway near Newcastle last night, when the vehicle had only one light, Traffic Officer J. Hawkshaw accidently discovered 1200 bottles of alleged contraband liquor. In the truck with the driver was his brother Maurice Robert. The two were placed under arrest, and loged in the Bowmanville jail on a nominal charge of having liquor in an illegal place.

Traffic Officer Hawkshaw casually asked the men in the cab what kind of a load they were carrying, and received the answer: "Don't know." His suspicions aroused, the officer decided to investigate, and found under a tarpaulin several large cases filled with bags each containing a dozen bottles of liquor. The driver would state only that he picked up the liquor in Montreal, and was taking it to Toronto, where it was to be transferred to another truck just outside the city limits. Inspecor Lougheed of the Provincial Police staff at Kingston, arrived in Bowmanville to-day to make further investigations.

## DIAMOND'S HOPE OF LIFE EBBING

Gangster Rallies During Night But Doctors See Little Chance of Recovery.

SAYS ASSAILANT UNKNOWN.

ALBANY, N.Y., April 29.—The thread of Jack Diamond's life was running thin to-day, but the wounded gangster was showing some of the same amazing vitality which enabled him to pull through last year when gangland bullets had cut him down. Late last night he was slightly stronger than he had been at any time since unknown assailants poured buckshot at him near his Catskill Mountain hideout. His physician made plain that this slight rally might be only temporary, and still despaired of saving his life.

He was still too weak to permit an operation for the removal of the buckshot in lung which had been punctured in the former shooting and the danger that pneumonia would set in was an ever present one.

Diamond has said he does not know who shot him as he opened a door of the Aratoga Inn to leave the place early Monday morning.

## ADVOCATES PROTECTION

GEORGE R. KERR,
Vice-President and Treasurer of the Canadian Westinghouse Co., Ltd., Hamilton, retiring chairman of the Ontario division of the Canadian Manufacturers' Association, whose annual convention is being held here to-day.

## MILNE IS GIVEN LIFE SENTENCE BY JUDGE RANEY

Prisoner Found Guilty of Manslaughter—Kicked Wife Fatally.

TAKES VERDICT CALMLY.

Jury Out Hour, 20 Minutes Enters Strong Plea for Leniency.

TORONTO, Ont., April 29 (C.P.)—William Scotty Milne, 43, charged with the murder of his wife at their home here last March, was found guilty of manslaughter by an Assize Court Jury under Mr. Justice Raney here to-day. He was sentenced to life imprisonment.

Milne is alleged to have fatally kicked his wife when he arrived at their home on March 11; to find her under the influence of liquor. During the course of the trial, which started yesterday, evidence to the effect that Mrs. Milne had been drinking steadily from Christmas until the day of her death was submitted by neighbors of the Milne family.

**Plea for Leniency**

After deliberating one hour and twenty minutes the jury returned their verdict with a strong plea for leniency. His Lordship passed sentence a few moments after the verdict was read.

Milne was asked to stand up when the verdict was delivered and on the advice of his counsel said he saw no reason why sentence should not be passed on him.

Following a lengthy outline of Milne's war record, by E. J. Murphy, defence counsel, Mr. Justice Raney said, "I cannot understand the motives which have moved you to add a strong recommendation for leniency to your verdict.

"Perhaps, in the years to come, the proper authorities may see their way clear to respond to the application for mitigation of the penalty. But this case is too close to the murder line for me to adopt the course your recommendation suggests. I do not feel myself free to adopt such a course."

Milne heard the life sentence imposed on him without visible emotion and after a short talk with his counsel he was removed to the local jail.

Mexico will pay for all highway construction in silver.

## Backing Columbus Poor Investment For Queen Isabel

**NORTH HOLLYWOOD, Cal., Apr. 29.—C. J. Starkey, attorney, who has a flair for statistics and history, figures Queen Isabella of Spain made a poor investment when she financed Christopher Columbus in his discovery of America.**

**Nobody knows the exact value of the jewels the Queen gave Columbus, said Starkey, but the best antiquarians agree on $6000.**

**If she had invested this money at 5 per cent interest to be compounded semiannually, it today would have reached a total of more than $4,500,000,000,000. This is 11¼ times the value of the United States and all its possessions.**

**She ough; to have consulted her banker.**

## MURDER SUSPECT BATTLES TO LAST FOR HIS LIBERTY

Irish Farmer Carrying Gun Flees on Lough Swilly in Rowboat.

FIGHT LASTS 6 HOURS.

Soldiers and Guards Make Capture Only When Shells Sink Fugitive's Craft.

LETTERKENNY, County Donegal, Northern Ireland, April 29. (AP)— John Harrity, 55, who was captured after a bitter struggle yesterday, today was formally charged with the murder of Annie Tinney and remanded for trial on Tuesday.

At the coroner's inquest the woman's brother said his sister had been killed after telling Harrity that her family objected to his attentions.

Harrity, who is a noted sporting shot, embarked with a shotgun yesterday in a rowboat in the Lough Swilly, Donegal County, and for six hours held a large force of pursuers at bay until his boat was shot to pieces and sunk.

A Rathmullan dispatch to The Daily Express said that when four civic guards rowed after him he kept up a lively fire until all four were wounded. Meanwhile people ashore phoned to the Bucrana Barracks, a few miles distant, for soldiers, and a strong force hastened to the scene.

**Faces Stream of Fire**

Three boats manned by soldiers and detectives from Kilkenny started to help the wounded guards who, notwithstanding their injuries maintained a fire upon the fugitive. When the three boats came within range they poured a stream of rifle bullets into Harrity's boat.

The beleaguered man continued reloading his gun and returning the fire until the riddled boat sank beneath him, when the pursuers closed in and brought him ashore. Hundreds of people along the shore of Lough watched the battle, which lasted from 2 p.m. to 8 p.m. Harrity was slightly wounded.

## *Thief Pays Visit As Pair Get Wed*

**TORONTO, Apr. 29. —(CP)— While Mrs. Alice MacKay was being married in a local church last evening a thief entered the vestry of the church and stole her handbag containing $520 in cash, the bride's and bridegroom's ticket to Montreal and a receipt for passage to England, besides a bank book.**

**After the wedding ceremony, the bridal couple went to get their belongings but found them gone.**

## *New Tariff Policy Reviving Industry George R. Kerr Says*

Retiring Chairman of Ontario Division of Canadian Manufacturers' Association Surveys Industrial Scene at Annual Meeting in Peterboro This Afternoon.

PURCHASE OF CANADIAN MADE GOODS WOULD PROVIDE WORK FOR OUR PEOPLE

Foreign Goods Admitted for Sale at Prices Below the Level of Canadian Costs, Mr. Kerr Explains.

Tariff changes enacted by the Bennett government during the special session of Parliament last September "have paved the way for increased employment" and have already produced marked improvement in the textile industry, said George R. Kerr, vice-president and treasurer of the Canadian Westinghouse Co., Ltd. in his address to the members of the Ontario Division of the Canadian Manufacturers' Association at their annual convention here today.

WITH MANUFACTURERS.

JAS. C. ARMER, B.A.Sc,
Vice-President of Dominion Forge and Stamping Co., Ltd., Walkerville, and prospective chairman for the coming year of the Ontario division of the Canadian Manufacturers' Association in annual convention here to-day. Mr. Armer this afternoon presented the report of the executive council of which he has been chairman.

Mr. Kerr has been chairman of the Ontario Division for the year closing with the present meeting. In his review of the association's activities and of the problems which have been thrust upon manufacturers as a result of the economic depression, Mr. Kerr emphatically endorsed the protective policy which, he said, the Manufacturers' Association had consistently upheld for sixty years. A contributing factor to the industrial decline of the past year has been the importation of goods from foreign countries in competition with our own Canadian products, Mr. Kerr asserted.

Mr. Kerr's address was in part as follows:

"The period of economic disturbance which broke upon us about a year and a half ago, while causing distress to many of our people because of unprofitable prices for our grain, the shrinkage in exports and decline in the purchasing power of our markets at home and abroad, has served to show us conclusively the necessity of giving first preference to our own producers.

Many of our industries have been forced to curtain operations because the domestic market has been supplied with competing goods produced abroad and sold at prices that in fairness to workers cannot be duplicated in this country or because goods are offered at prices which do not provide reasonable returns to producers. Unemployment has resulted and it has been necessary to provide large sums of both public and private money to tide over those who have been in want. A great deal of this privation could have been avoided by buying in Canada at reasonable prices, thus providing work for our own people rather than sending our money abroad in search of bargains. Prices that do not provide sufficient to cover costs including investment returns are of no advantage to sellers and of little advantage to buyers. Any imaginary gain which buyers may think they have secured by unnecessarily sending money outside the country is likely to be offset by shringage in our home markets and by additional taxation to provide for unemployment relief.

**Protective Policy.**

Throughout the sixty years of our history the association has consist-

## AT OTTAWA CONFERENCE.

Mayor Denne and Alderman J. D. Fitzpatrick are in Ottawa to-day attending a big conference of municipal chiefs. The aim of the conference is an effort to find some solution of the unemployment problem and to secure more unemployment relief measures from the Government.

Salaries of office and store clerks in Ecuador are being reduced.

## TO-DAY'S BURDENSOME PROBLEMS PRESENT CHALLENGE TO MANKIND TO REGENERATE A WEARY WORLD

Theme of Address at Convention of United Church Women.

BAY OF QUINTE W.M.S.

Many Delegates From District Welcome Extended by Ald. Turner.

"In the tension that arises between the state of the world at the present and our desire to do something about it, there is a challenge to young and old alike to lose ourselves in the cause of trying to create a better world order, that through it we shall find it and find also a better meaning for that phrase: 'He that saves his life shall lose it, and he that loses his life shall save it.' It is only by throwing ourselves wholeheartedly into a great cause that we can really achieve.

"Between races friendships are more natural than enmities. Missionary endeavor should be a force working for international relationships, and as such a world force it should have a strong appeal for young people."

Miss Constance Young of Toronto speaking last evening to the opening public session of the sixth annual meeting of the Bay of Quinte Conference Branch of the Women's Missionary Society of the United Church of Canada, in St. Andrew's Church where the three-day sessions are being held, made a strong plea for better understanding of international affairs as they relate to the cause of missions. Her address was a thoughtful and eloquent one, and held the attention of the large audience, mainly of women, that listened with interest to the address and the series of brief reports by department secretaries that preceded it, characterized by the Rev. Dr. McLean, presiding for the session, as full of "progress, courage, and grace." These were given by Miss V. E. Spargo of Bowmanville, reporting on Young Women's Work, Miss P. Templeton of Belleville, for the Canadian Girls in Training, and Mrs. E. W. Rowland of Stirling, reporting for Mission and Baby Bands.

Up to the opening hour of the session last evening, one hundred and one delegates to the meeting had registered, with about fifty more ex-

## Pickford Films To Be Destroyed

**LONDON, April 29. — When Mary Pickford dies, all her films will be destroyed and her face will disappear for ever from the screen, her husband, Douglas Fairbanks, revealed on his arrival here. He added:**

**"Recently Mary added a codicil to her will requesting that all her films be destroyed posthumously because her sole aim has been to bring joy to the present generation."**

## CAMEL CAUSES GREAT CONFUSION BY CRASHING INTO SACRED MOSQUE

Near Riot Caused as Aimless Steed Invades Arab Holy of Holies.

BAKERS AND BARBERS

(By Gordon A. Sinclair)

SALE, Morocco, April 29—Panic momentarily ruled throughout this ancient town of smells to-day as the mosque, holy of holies to the Arab populace, was invaded—by a camel.

No outsider like you and I may ever under any consideration enter a mosque and I assume by the uproar that a camel holds about the same importance as we do. This particular camel, loaded with empty bottles, seemed to wander about the place quite as aimlessly as I did.

He peered curiously at the barber shop where turbaned and sheet swathed Arabs were having their heads shaved, then deliberately crossed a sandy patch of waste and crashed the gate. Screams tore the air. Women bowed in supplication. Men rushed out nursing threats against the infidel idiot who owned the camel. One sped from his tiny shack toting a huge curved sword

## Rum Supply Varies According to Wind

**MONROE, Mich., April 29 (C. P.). — The local liquor supply seems to depend upon how the wind blows.**

**On Monday there was a strong west wind which blew the waters of Lake Erie several hundred yards off shore.**

**When the natives awoke yesterday morning they found a great quantity of beer, whisky, and wine scattered along the beach.**

**Rum runners from Ontario, fearing capture, are believed to have dumped the contraband overboard.**

CANADIAN CLUB ELECTS PRESIDENT

OTTAWA, Ont., Apr. 29.—Arthur Beauchesne, K. C., clerk of the House of Commons, was elected President of the Canadian Club of Ottawa at the annual meeting held yesterday.

CAPT. STACK'S FLIGHT HALTED

LYMPNE, Eng., Apr. 29. —(AP)— Captain T. Neville Stack, attempting a round-trip flight to Australia in 21 days, took off here today but was forced back by bad weather over the Rhine Valley.

## POLICE PROBING JANITOR'S DEATH

Victim Believed Drunk, Left Dying of Fractured Skull in Tool Room.

DIES IN HOSPITAL.

TORONTO, Ont., April 29. CP)— Police are investigating the death of Harry Mockbridge, 60, janitor for a local optical company, who succumbed to a fracture of the skull, at St. Michael's Hospital, early to-day. It is believed Mockbridge lost his life because friends in the building where he was working sought to save him his job. He was found last night lying at the foot of the stairs on the second floor of the building and, being thought drunk, was placed in a small tool-room where he lay badly injured for many hours before being taken to St. Michael's Hospital. Examination there showed that Mockbridge, instead being drunk, was dying of a fractured skull, a fractured leg and serious internal injuries.

Police, at first unable to find how Mockbridge had been injured, now believe he fell downstairs.

After the man's death this morning, Chief Coroner Crawford had the body taken to the morgue.

# Flaming Oil Gusher Takes Seven Lives

## THREE INJURED EXPECTED TO DIE AT GLADEWATER

Blast Traps Crew Attempting to Halt Flow of Wild Well.

FRICTION STARTS FLAMES.

Foreman Has Narow Escape, Being Hurled 20 Yards By Explosion.

GLADWATER, Tex., April 29. — Flaring heavenward in fiery defiance after it had blasted at least seven men to death in liquid fire and injured three others, the Sinclair No. 1 Cole well, two miles southwest of Gladewater, was unquenched today.

Taming of the wild gusher was within a few minutes of accomplishment late yesterday when friction in the lowering of a valve ignited millions of feet of gas gushing from the casing. Fire shot skyward and a terrific explosion followed, igniting the gusher and oil filled slush pits.

The crew of ten terrified workmen ran screaming from the scene, the clothing of nine afire. Sinclair Oil Company officials and workers were checking rumors that 14 or 15 persons, including spectators, were killed.

**The Known Dead:**

Roy Blankenship, Seminole, Okla.
George Albright, Oklahoma City.
Virgil Woltz, Oklahoma City.
Bill Harroun, Oklahoma City.
Bob Murdock, Oklahoma City.
W. H. McClassin, ..., Winona, Okla.
W. H. McClassin, Sr., 53, Winona, Okla.

The injured were Tom Cole, part owner of the well; John Keys, 39 Oklahoma City, and Frank Xelock, 35, Longview. Keys and Felock were in Longview, Texas, hospitals dangerously injured. Physicians said they probably would die. The younger McClassin died after being rescued from the flames.

Lee Bromley, foreman of the drilling crew for the Loffiin Drilling Company of Tulsa, Okla., said he did not believe any others lost their lives.

**Escapes by Freak.**

Brumley said he escaped death by a freak of the blast which hurled him twenty yards away from the derrick and out of the path of the boiling, flaming oil. Cole was burned about the hands when he seized one of the crew who ran from the scene, his clothing ablaze. Cole tripped the workman and tore the flaming clothing from his body.

The roar of the flames could be heard for more than a mile and the column of smoke was visible in Longview, Tyler, Kilgore, and other oil field towns—an ominous warning to seekers after liquid gold. Eleven other persons had lost their lives in a series of sudden fires in the East Texas fields within the last three weeks.

**CALL TOO LATE.**

OKLAHOMA CITY, Okla., April 29 (C.P.). — A hurry up call for members of a wild well crew from the Oklahoma City field to speed to Texas and attempt to tame the wild gusher at Gladewater came too late.

Glenn Harroun, Sinclair production superintendent in charge of the Texas gusher, sent the call yesterday to members of a wild well crew he formerly headed, only a few hours before the gusher caught fire. One of the dead was Harroun's young brother Bill.

Glenn, before going to Texas, directed a band that successfully fought several oil and gas well fires in the Oklahoma City field.

## Movie of Wedding Jails Bridegroom

**NEW YORK, April 29.—Betrayed by a moving picture which showed him leaving a wedding with a stolen overcoat, Herbert L. McClair, of Montclair, N.J., was sentenced in Newark yesterday to eighteen months in the penitentiary.**

**Baltimore prison officials pleaded for clemency for him, but in vain. They said that while in Baltimore jail for a minor theft, McClair gave valuable service during an epidemic of scarlet fever by reason of his knowledge of bacteriology.**

## DOG ON RAMPAGE KILLS 14 SHEEP

Twelve Others Injured Before Ralph Greenbank Arrives With Rifle.

MARAUDER SLAIN.

HAVELOCK, April 29 (Examiner Correspondence)—Twelve sheep killed, twelve others injured, one lamb killed and another one missing, was the toll taken by one lone dog, thought by some to be a husky, by others a police dog with wolf ancestry, on the farm of Adolphus Greenbank, on No. 7 Highway, just west of Norwood.

A Mr. Chamberlain, who was employed on the highway, noticed the dog running among the flock, and sheep strewn here and there on the meadow land adjoining the highway, on Mr. Greenbank's farm. He notified the farmer, and Mr. Greenbank's son Ralph came running out with a rifle and immediately dispatched the dog.

On examination it proved to be a huge brute, yellowish brown coloring, weighing about one hundred pounds or thereabout. It had no tag, and no one seemed to know anything about it, as it was apparently a tramp dog.

Sheep Valuator Umphrey journeyed to the scene of the killing, and valued the sheep at twelve dollars each for those killed, four dollars for the lamb, and six dollars for each injured sheep. In cases of this kind where the owner of the dog is unknown, the township council is obliged to reimburse the farmer for the loss sustained. It is said that when dogs have run a flock, killing and maiming, the remaining sheep never thrive thereafter.

**HARBINGER OF NEW SPANISH REPUBLIC**

One of the demonstrations that marked the beginning of the end of the monarchical rule in Spain. The photo was taken on election day in Madrid and shows some of the wildly enthusiastic voters who cast the overwhelming republican vote that forced the abdication of King Alfonso. Many gatherings of Republicans were dispersed by police and civic guards on that day but today the Republicans rule.

**CENTRETON**

Mr. and Mrs. John Gillespie and Mrs. John Merriam were visitors to Cobourg on Friday.

Mrs. James Hope, of Grafton, was in the village on Thursday.

Mr. F. Birney was a visitor to Baltimore on Friday.

Mr. William Harden, of Vernonville, held a sale on Friday and was attended by many residents from Centreton.

Mrs. James McKenzie entertained a number of her friends at a quilting on Wednesday.

The members of the Ladies' Aid met on Wednesday to paper the parsonage.

Mr. Ernest Harden and family are moving to Vernonville on his father's farm.

Mr. John A. McAuley was a visitor to Cobourg on Saturday.

Mr. Henry Chapple, of Toronto, is in the village.

Mr. and Mrs. James Hope, of Grafton spent Saturday afternoon with the latter's parents, Mr. and Mrs. John Merriam.

Mr. Wilbur Wilton, of Centenary was in the village on Sunday.

Mr. Archie Eddy, of Cobourg, was home over the week-end.

Mr. F. Blake, of Campbellford, was a guest of Mr. R. Honeywell on Saturday.

Miss Mildred Nichol, of the Collegiate Institute, Cobourg, was home over the week-end.

Mr. Carl Eddy has purchased a new car.

Rev. M. F. Hawley preached a splendid sermon on Sunday when he chose as his text, Luke 15:22. The Reverend speaker spoke of the Robe of Righteousness, saying it was something one could wear at all times; not having to take it off with the rest of the Sunday garments. The Sacrament of the Lord's Supper will be dispensed at the Centreton United Church next Sunday and the Quarterly Official Board will meet on Monday evening.

Tractors, combines and accessories purchased by Soviet Russia in this country in 1930 had a total value of $84,927,480.

## No Bloodshed Marks Revolt In Sao Paulo

DIO DE JANEIRO, Apr. 29.—(AP)—Disturbances in Sao Paulo, coffee capital of the world, yesterday were declared by the Government today to have been checked without bloodshed.

Disquieting rumors of trouble in the Southern Brazilian city, second largest in Brazil, were met by an official statement of Dr. Afranio do Mello Franco, which said:

Administrative reforms caused a movement of indiscipline among police quartered at the headquarters in Sao Paulo.

The movement, which was not political in character was promptly checked without bloodshed. Banks and commercial houses are functioning normally.

## SCHOOL BURNS BOYS ESCAPE

Three Women Employes Rescue Two Lads Overcome By Smoke.

LOSS $35,000.

MARLBORO, Mass., Apr. 29. — Two boys, overcome by smoke were carried to safety and 14 others ran from a blazing dormitory early today when fire destroyed Chumway Hall and an adjoining building at the Hillside School for boys. The cause of the fire was unknown and damage was estimated at $35,000.

Warren Hyde and Robert Ernst, new pupils who had been at the school but a week, were carried from their dormitory by three women employes of the school. The two boys were overcome by smoke as they lay in their beds.

The institution is an agricultural school for Massachusetts boys between 8 and 16 years of age.

## BENNETT DENIES MAKING PROMISE TO PAY PENSIONS

Manitoba Making No Provision to Bear Pensions Cost.

CLOUDED STATEMENT.

Western Member Queries Premier About Old Age Relief.

OTTAWA, April 29.—When one of the most important of Premier Bennett's election promises— that respecting Federal assumption of old-age pensions payments—came home to roost in Parliament Tuesday, Premier Bennett denied having made it, according to the interpretation placed by Liberals on his words in reply to Arthur L. Beaubien (Liberal, Provencher).

Mr. Baubien read to the House the published expression of opinion by D. L. McLeod, Municipal Commissioner for Manitoba, in making public a telegram reputedly received from the Dominion Prime Minister, that the Dominion Government was unlikely this year to undertake to pay 95 per cent. of old-age pensions. The Winnipeg newspaper despatch added: "In reply to a wire from Premier John Bracken of Manitoba, Mr. Bennett advised the Provincial Govern-

## PROTEST STIRRED BY DEPORTATION

Canadian Immigration Department Enters Into Case of Detroit Widow.

WASHINGTON SENT WIRE.

WALLACEBURG, Ont., April 29.—(C.P.)—That the Canadian Immigration Department has entered into the investigation into the recent deportation of Mrs. Lillian Larsh, Detroit widow and her four children is indicated by a telegram which has been received by Harry Shirley, chairman of the Charity committee details in regard to the case be forwarded by wire.

Local officials are unanimous that whether the woman's citizenship is established as American or otherwise they are determined to carry through their strongest disapproval against the method which was employed in conducting the deportation in the course of which it is claimed there was laxity on the part of the Canadain immigration officials at Walkerville to which port the woman and her family were conveyed.

A wire has been sent to the National Women's Party in Washington placing the facts of the deportation before them and asking them to register a strong protest to the American Labor Department. The deportation of this United States' woman is understood to be a direct violation of the Department's policy.

**PACIFIC OCEAN PROVES BOND**

WASHINGTON, D. C., Apr. 29. — (AP)—In a speech broadcast across the Pacific Ocean to Japan, Secretary of State Stimson today said that largely because of the success of the London Naval Conference of 1930 that ocean no longer separates but rather unites Japan and the United States.

The Secretary of State's message was part of the celebration of the thirtieth birthday anniversary of Emperor Hirohito.

Major-General H. E. Elliott, Senator for Victoria, Australia, who led in heroic fighting in Gallipoli and the Somme, died recently at Melbourne.

## BLACK PICTURE BY WESTERNERS DRAWS ATTACK

Premier Claims Opposition Seeking to Exploit Condition For Political Purposes.

REMEMBRANCE DAY NAMED.

Debate on Obligation to Vote on All Questions is Left Over.

OTTAWA, Ont., April 29. (CP)—Painting a black picture of the condition of agriculture in Western Canada was no service to the country or to the farmers, Premier R. B. Bennett declared in the House of Commons last night when he was met with a frontal attack from Western Liberals who precipitated a debate on western conditions.

By moving an amendment to Mr. Bennett's motion to go into committee of supply, John Brown, Liberal member for Lisgar, Manitoba, confronted Mr. Bennett with a want of confidence motion. Debate on Mr. Brown's amendment will continue today.

**Takes Offensive**

Without waiting for other Western Liberals to continue the debate Mr. Bennett assumed the offensive and charged Mr. Brown and those who have spoken in similar vein with seeking to exploit depressed conditions for political purposes rather than remedy them. The Premier indicated Hon. Robert Weir, Minister of Agriculture, had a very definite policy for the benefit of agriculture which would be disclosed in the house at an early date.

Mr. Brown's attack was a two-fold one. He first of all complained of Mr. Bennett's recent speeches in the House and claimed they showed he was wholly out of touch with conditions in the west. There was actual distress despite Mr. Bennett's statements that farmers had $300,000,000 invested in automobiles and tractors and money in the bank.

These things indicated nothing, he said. The automobiles were not paid for and it would be a strange thing if some farmers did not have bank accounts after many years of farming. But these reserves were rapidly being depleted.

He next charged the Government with failure to implement its promises to agriculture. The tariff policy of the Bennett Government, he claimed, tended to aggravate rather than improve conditions.

**Conditions Exaggerated**

If it was good business to fix the price of everything the farmer had to buy by tariffs, it was good business to peg the price of wheat, said Robert McKenzie (Lib., Assiniboia), who seconded Mr. Brown's amendment.

**BUYING CANADIAN CATTLE**

WINNIPEG, Man., April 29 (By The Canadian Press)—British cattle buyers should be encouraged to come to Canada and purchase livestock direct from the Dominion stockyards, declared Col. Harry A. Mullins, M.P. for Marquette, recently.

Mr. Mullins advocated buying of cattle by British representatives direct from Winnipeg and other yards, maintaining that such a course would eliminate worries and responsibility livestock men now suffer in shipping their cattle overseas.

SMILING through the rain! They supply their own sunshine, these two, because they feel well and full of pep all the time.

Doctors pretty well agree that (barring germ diseases) most illness and headache are due to failure to keep "clean inside."

In blaming this condition for much of our sickness, so they agree on the safest way to relieve it—keeping clean inside by the Nujol type of treatment. Nujol is not a medicine at all. It has no drug in it. It is crystal-clear—tasteless—and children love it.

Remember two things if you want to enjoy "Nujol Health."

One: Don't expect results over night. This is nature's own method, and nature is never violent.

Two: Don't accept any substitute. Your druggist has Nujol—in a sealed package—trademarked "Nujol" so you will be sure to get it.

Nujol health

If you want health's sunshine to brighten your whole life, why not give the sensible "Nujol" treatment a trial? Begin today!

INSIST ON NUJOL . . . REFUSE SUBSTITUTES

DELICIOUS!

Shortbread fresh from the Christie Ovens

Never before have you tasted a morsel quite as delicious as fresh, crumbly, crunchy Lorna Doone—a bonnie rich shortbread of exactly the right richness, which really does "melt in the mouth". Sold by the pound and in small packages for the children.

Christie's LORNA DOONE
A BONNIE RICH SHORTBREAD

## REMEMBRANCE DAY IS NEW NAME DECIDED UPON FOR ARMISTICE DAY

Thanksgiving To Be Held Upon Separate Date Deecided by Order-in-Council.

NOV. 11 LEGAL HOLIDAY.

OTTAWA, April 29.—Armistice Day passes and each recurring Nov. 11 henceforth is to become officially Remembrance Day, and a legal holiday, according to the terms of a bill represented by Alan W. Neill (Independent Liberal, Comox-Alberni), which the House of Commons adopted and passed on to the Senate last night.

According to the bill's proposals, Thanksgiving Day, which has fallen on the Monday of the week in which Nov. 11 occurred, is to be fixed by Order-in-Council, as was the case several years ago. Thanksgiving Day, therefore, may revert to its previous October observance.

The measure obtained House approval, despite the objections of two Toronto members, G. Reginald Geary (Conservative, South Toronto) and J. Earl Lawson (Conservative, West York) the former of whom feared that under its holiday status some of the sacredness formerly symbolized in the two minutes' silence would be lost. Mr. Lawson declared that many ex-soldiers in his riding wished Armistice Day to be celebrated on the Monday nearest Nov. 11.

**UNEMPLOYMENT INSURANCE**

WINNIPEG, Man., April 29 (By The Canadian Press)—Special committee of the Winnipeg Trades Union Unemployment Conference is forming an unemployment insurance plan for presentation to the federal and provincial governments. The plan will be applicable to conditions in the Dominion, it has been explained.

Miss Lucy G. Moberly, who died recently in London at the age of 70 wrote 57 novels, the last of which was "The Eternal Dustbin."

A German company has been made official carrier of air mail in Colombia.

nothing like it!

NO OTHER cereal so crisp. Rice Krispies actually crackle out loud in milk or cream. Children love them.

And such flavor! The taste of toasted rice. A different treat for breakfast. Wonderful for the kiddies' lunch. So wholesome and easy to digest. Rice Krispies are handy to use in recipes. Take the place of nutmeats. At grocers. Made by Kellogg in London, Ontario.

# MEMBERSHIP IN LEGION JUMPS

### Committee Appointed to Interview Hydro Authorities Regarding Dismissal of E. Greenly.

### AT CAMPBELLFORD

CAMPBELLFORD, April 29 (By Examiner Staff Correspondent) — Five new members were added to the Campbellford Branch No. 103, Canadian Legion B.E.S.L. at their regular meeting held last evening in the Armouries, Campbellford, this bringing the total in the April Provincial membership drive of the local branch up to twenty-nine. The objective set by the Campbellford branch is fifty, and this number is likely to be reached now that the Provincial Command has notified the branch that the drive is to be extended until May 18. The president, G. A. Ironside, occupied the chair at this meeting.

A matter that has caused a great deal of interest was brought up by members of the Legion. This was in reference to the dismissal by the Hydro Power Commision of an ex-service man and a member of the Campbellford Branch, Earl Greenly.

Mr. Greenly has been employed by the Hydro in the Campbellford area for the past ten years and as far as can be ascertained no cause is given for his dismissal. This matter was discussed by the meeting and the vice-president, the Rev. N. Clark Wallace was appointed to choose his own committee to interview the Hydro authorities at Belleville and find out the exact state of affairs in regard to this matter.

A letter was read by the secretary from the Christie Street Hospital thanking the local branch for their kind gift to the institution of six checker boards and six cribbage boards, the work of A. H. McKeel. The letter expressed the delight that the patients of the institution were getting from this donation.

In regard to the matter of the Legion entering a softball team in the proposed town league this year, the Sports Committee chairman, G. H. Free, was appointed to attend the meeting with the idea of giving the matter consideration.

The branch was also notified of the appointment of Major J. F. B. Belford of Codrington as zone representative for this half of Zion 14 that has been divided, and in which the Campbellford branch is located.

## Indigestion Pains Made Me a Wreck No Trouble Now

### Constipation, Nervousness Gone Too, Since Taking "FRUIT-A-TIVES"

"For years I suffered terribly with knife-like pains from Indigestion. Was badly constipated, too. No medicine helped. I was a nervous wreck. After reading about "Fruit-a-tives" I decided to try them. Almost at once my stomach stopped troubling me, I could eat everything I wanted. My nerves calmed down and Constipation disappeared. — Mrs. H. Dauray, Pointe Gatineau.

Thousands of people praise "Fruit-a-tives" as quickest, surest relief for indigestion, stomach pains, constipation, nervousness, headaches, backaches. Why? This famous Canadian doctor's discovery combines 6 of the finest herbal tonics with a special secret extract of apples, oranges, prunes and figs—Nature's own remedies to make and keep you well. No habit-forming drugs.

For new health, vigor quick, get "Fruit-a-tives" from druggist today. Results guaranteed or money refunded promptly.

Jones it was decided that the sum of $50 be applied on the Building Fund for the church shed.

Mrs. Scott sang a beautiful solo, "Glorious Land of Spring" in pleasing voice and which was very much enjoyed. A letter was read by the secretary from a member, Mrs. Fred Bowen and which also contained a contribution to apply on the autograph quilt.

The hostesses Mrs. Dawe, Miss Jackson, Miss Jones and Mrs. Lee served lunch after which Miss Fair contributed a pleasing piano solo, concluding the social part of the meeting.

# MINISTERIAL HEARS RABBI EISENDRATH

### Twenty-Seven Candidates Will Be Confirmed at Hatfield Hall To-night.

COBOURG, April 29—Mrs. James Bulger is elected vice-president and Miss Enah Austen secretary of the Cobourg Inter-Church Softball League, which has been organized for the coming season with a team from St. Michael's Roman Catholic, one from St. Peter's Anglican, another from Trinity United and one from St. Andrew's Presbyterian. The first game of the season will be played May 19.

**Need New Conception**

"The world to-day needs a new conception of God, a new outlook upon God," ministers of charges in Northumberland and the four adjoining counties were told by Rabbi M. N. Eisendrath, of Holy Blossom synagogue, Toronto.

"Ministers and rabbis made more atheists during the planetary cannibalism of 1914 to 1918 that could ever be made by atheistic enthusiasts with their soap-box propaganda," he said. "Thousands had their faith shattered when they heard ministers of the Provincial God praying to God to slaughter their fellow-men."

**Will Confirm Class**

Twenty-seven young people, eight of whom are of Hatfield Hall School for Girls, will be confirmed to-night at eight o'clock in St. Peter's Anglican Church. Rt. Rev. James Sweeney, D.D., LL.D., Bishop of Toronto, will administer the apostolic rite.

**Pays $100 for Liquor**

J. Barriage, of Belleville, was fined $100 and costs in police court yesterday by Col. W. H. Floyd for breach of Liquor Control Act, and Robert Taylor was sentenced to three months for third offence under the same Act.

# Seven Dollars Bid For Autograph Quilt

### Women's Association of Bethany United Church Holds Monthly Meeting.

BETHANY, April 29 (Examiner Correspondence) — The monthly meeting of the Women's Association of the United Church was held in the Sunday School room on Friday afternoon, with nineteen ladies in attendance.

Mrs. Walter Rowland read the scriptural lesson. On motion it was decided to cancel the account for renovating the parsonage.

The bids on the autograph quilt were then read, the sum of seven dollars being the largest amount. Miss Jean Thorndyke, of Toronto is the possessor of the lovely quilt just recently completed by the ladies of the church.

The usual May 24 tea was fully discussed and various committees appointed. A letter of appreciation was read from William Lee for flowers sent him during his recent illness. On motion of Miss Jackson and Mrs.

| Over 4 lbs. each | 10 | 00 |
| Domestic rabbit carcasses— | | |
| Over 3 lbs. | 00 | 18 |

Above prices for "A" grade poultry "B" grade will receive 3c less and "C" grade 7c less. All chickens crooked-breasted, torn or badly pinned come under the class of "B" and "C" poultry.

Quotations above indicate the general market range in value to poultry on delivery basis.

**SEEDS.**

Toronto retail merchants are quoting country buyers the following prices for Government graded seed:

| | |
|---|---|
| **Red Clover** | |
| No. 1, per bushel | $18.00-$20.50 |
| No. 2, per bushel | 16.80- 19.20 |
| Import, No. 1, bushel | 12.50- 13.80 |
| No. No. 2 | 11.40- 12.90 |
| **Aslike** | |
| No. 1, per bushel | 11.40- 12.60 |
| No. 2, per bushel | 10.50- 12 00 |
| **Aslike and Timothy Mixture** | |
| No. 1, per bushel | 7.80- 9.00 |
| No. 2, per bushel | 7.00- 7 80 |
| **Timothy** | |
| No. 1, per bushel | 9.00- 9.60 |
| No. 2 (No. 1 Purity) | 7.50- 9.00 |
| **Sweet Clover** | |
| Yellow blossom, No. 1, per bushel | 7.20- 9.80 |
| No. 2 | 6 60- 7.20 |
| White blossom, No. 1, per bushel | 4.50- 5.40 |
| No. 2 | 4.00- 5.10 |
| **Alfalfa** | |
| Ontario grown—No. 1, per bushel | 14.00- 15.60 |
| No. 2 | 13.00- 14.00 |

**TORONTO PRODUCE**

TORONTO, April 29.—Local brokers reported sales of small and fair-sized lots of butter yesterday, but at prices 1c lower than those quoted on Monday. Many thought the bottom price range on creamery solids had been reached with the decline of 1c on Monday, but yesterday brokers were forced to take a cent less on both grades to make sales. Butter changed hands at 23c for No. 1 creamery solids and 21c for No. 2, with brokers trying to secure higher prices, or 22½c for No. 1 and 21½c for No. 2. Quotations to the retail trade were also lower yesterday, wholesalers dropping prices on their offerings 1c per pound to make a range of 27c for No. 1 prints and 26c for No. 2.

**Cream Steady**

Cream buyers reported unchanged levels from the declines made last week-end. They quoted country shippers 27c for specials, 26c for No. 1 and 23c for No. 2, f.o.b. country points.

There was very little demand for new cheese, and though receipts were not burdensome, prices held steady at the low levels touched the middle of last week. Brokers quoted new large at 10½c, new twins at 10¾c and new triplets at 11c, Government-graded, colored, paraffined. Prices to retailers were steady at 12¼c for new large, 12¾c for twins and 13c for triplets.

**Eggs**

Prices for eggs, graded and ungraded, were steady with those quoted on Monday. Brokers found trading fair at 19c for extras, 17c for firsts and 15c for seconds, graded and in free cases, and moved considerable receipts, though storing activity was not very encouraging. Country shippers were quoted 17c for extras, 15c for firsts and 12c for seconds, delivered, ungraded, cases returned. Retailers were offered supplies at the same levels as on Monday, at 24c for extras in cartons, 22c for extras loose, 20c for firsts loose and 17c for seconds loose.

**CHICAGO GRAIN**

CHICAGO, April 29. — Persistent abnormally dry weather throughout North American spring crop territory, Canada in particular, strengthened wheat prices yesterday, whereas corn tended to sag. Wheat holders were also encouraged by notice that France would hereafter allow an additional 5 per cent. mixture of foreign wheat, making the total 25 per cent. Corn weakened on account of slackness of demand from shippers and as a result of prospective big increase of corn acreage this season.

Wheat closed firm, a shade to ⅝c up; corn, at ⅛c decline to ⅝c advance; oats, ⅛c lower to ⅛c higher, and provisions showing 5c to 7c setback.

**TORONTO LIVESTOCK**

TORONTO, Ont., April 29.—(CP)—Cattle receipts 746. Left-overs totalled 300 head. Trade was fairly active with unchanged prices. Fair to good butcher cattle brought $5.25 to $5.50 with choice light steers from $5.25 to $6.00. Fed calves sold mostly from $6.50 to $7.50 with $8.00 being paid for a few tops. Good butcher cows made $4.00 to $4.50. Weighty feeding steers sold around $5.00.

Quotations:

Steers up to 1,050 lbs., good and choice, $5.75 to $6.00; medium, $5.25 to $5.75; common, $4.50 to $5.25; steers over 1050 lbs., good and choice, $6.00 to $6.50; medium, $5.50 to $6.00; common, $5.00 to $5.50; heifers, good and choice, $5.25 to $5.75; medium, $5.00 to $5.50; common, $4.50 to $5.00; fed calves, good and choice, $7.50 to $8.00; medium, $6.00 to to $7.25; cows, good, $4.00 to $4.50; medium, $3.50 to $4.00; common, $3.00 to $3.50; canners and cutters, $1.00 to $2.00; bulls, good, $3.50 to $4.00; common, $2.75 to $3.25; stocker and feeder steers, good, $4.75 to $5.00; common, $4.00 to $4.50

Milkers and springers, $50.00 to $80.00.

Calf receipts $46. Calves sold 50c lower on top grades with good and choice vealers from $7.00 to $8.00. Common light calves sold from $4.00 to $5.50 per hundredweight.

Good and choice veal, $7.00 to $8.00; common and medium, $4.00 to $6.50; grassers, $3.50 to $4.00.

Hog receipts 553. Hogs were unsettled with bids again 25c lower at $7.50 f.o.b. for bacons or at $8.25 off car.

No quotations.

Sheep receipts 75. Good spring lambs made $8.00 to $10.00 each with common calves from $5.00 to $7.00. Good light sheep made $5.00 to $5.50 per hundredweight.

Good ewe and wether lambs $10.50 to $11.00; medium, $9.50 to $10.00 bucks, $8.50 to $9.00; culls, $7.00 to $9.00; good light sheep, $5.00 to $5.50; heavies, $4.00 to $.50; culls $1.00 to $3.50.

**MONTREAL PRODUCE**

MONTREAL, April 29. — Egg and cheese prices declined, while butter and potato quotations were unchanged on the produce and dairy market here yesterday.

On the egg market carlot prices of Ontario and Prairie fresh extras and firsts lost a cent to 20 to 21 cents and 18 to 19 cents a dozen respectively. Fresh seconds were one half to a cent lower at 16 to 17 cents a dozen. To retailers fresh specials and extras declined one to two cents at 25 to 26 cents, and 23 to 24 cents, while fresh firsts were two to three cents lower at 20 to 21 cents, and fresh seconds lost one to two cents at 18 cents a dozen. In cartons fresh specials were quoted at 27 to 28 cents, fresh extras at 25 to 26 cents, fresh firsts at 22 to 23 cents, and fresh seconds at 20 cents a dozen. Receipts were 4,939 cases.

Ontario colored cheese dropped one-half of a cent at 9¾ to 10 cents a pound and receipts were 247 boxes.

No. 1 finest fresh and regraded butter was quoted at 22½ to 22¾ cents a pound and to retailers solids were 24 to 25 cents, and prints 25 to 26 cents a pound. Receipts were 26 boxes.

New Brunswick Green Mountain potatoes, in carlots, were quoted at 80 cents per 80-pound bag and to retailers 90 cents per 80-pound bag.

**LIVERPOOL QUOTATIONS**

LIVERPOOL, April 29.—(AP)—Closing—Wheat, Spot No. 1, 88⅝; No. 2, 87⅛.

Hams—Long cut, 12 to 16 lbs., 79s; short cut, 12 to 14 lbs., 73s 6d; extra skinned, 99s; picnics, 5 to 8 lbs., 50s 6d.

Bacon—Cumberland cut, 32 to 40 lbs., 66s 6d; Canadian wiltshires, 94s; clear bellies, 14 to 20 lbs., 59s; long clear middies, 28 to 35 lbs., 73s 6d; short clear backs, 20 to 25 lbs., 69s.

Shoulders—Square, 12 to 16 lbs., 56s.

Lard—Prime western in tierces, 46s 6d; American refined in boxes 47s 3d.

Cheese—Canadian finest white, 76s; colored 78s.

Linseed Oil—Raw, 22s 6d.

Petroleum—No. 1, 11d; No. 2, 1s

Rosin—Types "F" and "G", 14s 6d.

Turpentine—Spirits, 48c 1½d.

**BUFFALO LVESTOCK**

EAST BUFFALO, N.Y., April 29.—(CP)—Hogs, 1,300; weights below 210 lbs., fairly active, steady to strong; others about steady; desirable 180-210 lbs. 7.90; weights below 170 lbs. 8.00; mixed offerings 7.65; 280 lb. butchers 7.40; packing sows 6.00 6.40.

Cattle 50; cows unchanged; cutter 2.50-4.00.

Calves 100; veals firm 9.00 down; some held higher.

Sheep 200; lambs steady; near choice clippers 9.75; medium kinds 9.25.

**WINNIPEG GRAIN.**

WINNIPEG, April 29. — Better buying abroad boosted wheat prices on the Winnipeg market yesterday more than a cent a bushel and absence of selling-pressure allowed the gains to be retained. The market closed ¾c to 1¼c higher.

Exports during the last 24 hours were estimated to exceed 500,000 bushels and Liverpool's stronger market had an encouraging effect here. Outside interest in trading here was light and trade volume was the smallest in several days.

Up ¾c at the finish, the May future was quoted at 60⅝c. July moved up 1c to 62c, and October 1c to 1¼c to 64¼c to 64¼c.

Demand for cash wheat was indifferent, spreads remaining unchanged. Coarse grains trade was featureless.

# OBITUARY

MILLBROOK, April 29 (Examiner Correspondence). — Older residents of the community, whether still living at Millbrook or having moved to other parts of Canada to reside, will learn with regret of the death of Charlotte (Shaddie) Knowlson, widow of Daniel Montgomery, which occurred at Toronto on Friday, April 24, in her eighty-second year.

Deceased was born at Millbrook, and was a daughter of the late Mr. and Mrs. Matthew Knowlson, her father being in business here as a druggist several years ago. The Knowlson family indeed was closely connected with the history and development of Millbrook's earlier years.

A brother of Mrs. Montgomery's, W. G. Knowlson, filled the position of postmaster at Millbrook for some years, and a sister married the late Richard Howden, and thus became connected with another of the community's well-known families of former days. Two other sisters, Mrs. Wing and Mrs. Halstead, are also deceased, the only remaining member of the family being Albert Knowlson, now of Detroit, who attended the funeral which took place at Chelsey on Saturday.

**MRS. ROBERT LUNN**

MILLBROOK, April 29 (Examiner Correspondence).—Mrs. Robert Lunn whose death following an acute heart attack occurred suddenly on the evening of Thursday, April 23, in her sixty-sixth year, was a daughter of the late Mr. and Mrs. James Kennedy, pioneer settlers of Clarke township, and with the exception of a few years when her parents resided at Gorrie in western Ontario, had spent her entire life in this vicinity.

Deceased, whose maiden name was Margaret Jane Kennedy, was united in marriage to the late Robert Lunn forty-seven years ago in May of this year, her husband predeceasing her by just five months. To their union were born three children who survive their parents: John, of South Monaghan; William and Martha, who reside on the homestead, Second Line, Cavan.

Mr. and Mrs. Lunn spent practically all of their married life in the vicinity of Carmel, and had lived for the past seventeen years on the farm where the son and daughter continue to make their home. Hospitality has always been, and still is, the outstanding feature of the home of the late Mr. and Mrs. Lunn, faithful support of the church at Carmel, and an active interest in all its undertakings, being other characteristics for which they will long be remembered, and which are capably continued by the members of their family living in the neighborhood. Mrs. Lunn was a valued member of the Woman's Missionary Auxiliary of Saint Andrew's United Church at Millbrook, and her daughter, Miss Martha, is also enrolled in its membership.

Deceased was one of a family of ten children, two of whom were previously deceased, the surviving members including five sisters: Mrs. Robert Cartmell, of Toronto; Mrs. William Elmer, Cavan; Mrs. Joseph Byrans, Garden Hill; Mrs. J. Thirtle, Springville; and Miss Ida Kennedy, of Oak Hill; and two brothers, Samuel Kennedy, of Cavan; and Thomas Kennedy, of Oak Hill. There are two grandchildren, Wilfrid and Lazelle Lunn.

The funeral took place from her late residence on Sunday, at 2.30 p.m., and was largely attended though the weather was most inclement. Rev. W. W. Jones, B.D., pastor of Saint Andrew's church, Millbrook, had charge of the services, and the pall-bearers were six nephews: Messrs. Kenneth and Gerald Thirtle, Willis Byrans, John Elmer, William Lunn (Peterborough), and David Lunn. Interment was in Gardiner's cemetery.

There were many beautiful floral tributes, included among these being wreaths from the United Church Sunday School at Carmel; and from the Women's Institute, Millbrook. The flower bearers were: Lawrence Byrans, Virtel Kennedy, Norman and Sam Elmer, Cyrus and Stanley Kennedy, and Will Paterson.

Among those from outside points who attended the funeral were: Misses Violet Thirtle and Mary Elmer, Toronto; Miss Helen Bryans, Garden Hill; Miss Hanna, Oshawa; Mr. John McMillan, Cobourg; Mr. Karl McMillan, Oshawa; Mr. George Thorne, Port Hope; Mrs. Meadows, Port Hope; Miss Tucker, Mr. and Mrs. Barraball, Mrs. Burgess, Robert Lunn, Andrew and Wilbert Lunn, Orono; Mr. and Mrs. Patton and Miss Boyd, Kendal; Mr. and Mrs. Will Lunn, Peterborough; Miss Howlett, Peterborough; Mr. and Mrs. John Lane, and son, Clarence, Lotus; Miss Marjorie Elgar, Quebec; Mr. and Mrs. Lawrence Gray Canton; Mr. James Morton, Mr Joseph Rusk, Mr. Stanley Church, Mr. and Mrs. Jackson, Peterborough; Mr. and Mrs. S. Kennedy, and two sons, Cyrus and Stanley, and Mr. Muldrew, of Oak Hill; Mr. and Mrs. C. Hoskin, Mrs. Byrans and family, Garden Hill; Mrs. Thirtle and son, Kenneth, Springville, and Mr. and Mrs. Gerald Thirtle of Peterborough.

**READ THS ONE, TOO**

# JUNIOR INSTITUTE PLANS CARD PARTY

### Former Havelock Resident Injured in Car Accident at Toronto.

(Examiner Correspondence)

HAVELLOCK, Apr. 29.—At the last meeting of the Junior Institute, held in the Orange Hall it was decided not to send a delegate to the girls conference at Guelph. A committee was appointed to see about having to quilt, for which tickets are now being sold, placed in the window of one of the local stores. Beatrice Crawford and Gladys Anderson were asked to act in this matter.

It was also decided to have the next meeting take the form of a progressive euchre, to be held in the basement of the Orange Hall, May 6. Play will commence sharp at nine o'clock. Alma Hagerman and Ethel Longmuir will act on the advertising committee. Margaret Dafoe, Evelyn Leng, and Evelyn Haig will act on the refreshment committee. Beatrice Crawford, and Irene Craighead will see about purchasing the prizes for the card party. Five dollars was voted as the girl's share of the hall rental. A demonstration of cake icing was given by Edna Haig. Annie Buchanan read a most interesting paper on the United Empire Loyalists. A social half hour was then enjoyed.

**Ben Haig In Auto Smash**

On Monday evening as Ben Haig of Toronto, formerly of Havelock was driving along Fleet Street near Bathurst Street, he lost control of the car, and crashed into a Hydro pole at the corner of Bathurst Street. It is thought the wind shield was blurred with the fine rain which was falling at the time.

He sustained a double fracture of the right leg, and lacerations to the face and head. He was taken to the Western Hospital where his injuries were attended to. He will be confined to the hospital for several weeks. The car was badly damaged.

**Efficiency League**

The regular meeting of Havelock Efficiency League was held in the basement of the United Church on Monday evening, April 27 and was a strictly business meeting. Plans were made for the large meeting of the three leagues, Havelock, Rush Point, and Trent River which will be held here on Friday evening next. It is expected there will be an attendance of about one hundred and eighty on this occasion. Committees were appointed to look after the interests of the members and visitors.

**Rush Point League**

The regular meeting of Rush Point Efficiency League was held at the Church on Monday evening, when there was a goodly attendance of the membership. The president occupied the chair. Meeting opened with a hymn "What a Fellowship", followed by "Come Ye that Loveth the Lord". Rev. Mr. Archer gave a most interesting talk on Safety First. Mrs. Earl Pollock took the topic of the evening, "Mothers of the Bible", which she dealt with in an able and efficient manner. This was followed by a solo "Always Doing Something", by Miss Jean Pollock. The meeting with the Mizpah benediction.

# Salmon Boat's Crew Are All Feared Lost

VICTORIA, B.C., April 26.—(C.P.)—Fears for the lives of the unknown crew of the Canadian trawler Sea Belle, found split in half on a reef at Goose Island in Queen's Sound, opposite Bella Bella, are held by the provincial police. Continued search has revealed no trace of the party, believed to have included a woman.

A woman's clothing was found in the splintered wreckage by Indian fishermen. The provincial police launch from Prince Rupert is searching nearby waters for the bodies.

Coste made the first non-stop, East to West flight from Paris to New York—the world's record for aeroplanes.

The RECORD SPEAKS for ITSELF

RECORD-HOLDERS do not have to say "I will do" or "I intend to do". The records speak for themselves—for cigarettes as well as for aces of the air.

The record of Turret Cigarettes in winning and holding the smokers' favour, is the best possible proof of their consistent quality.

After all, nothing can replace good, honest tobacco; grown and ripened right out in the field under nature's own sunlight—nothing artificial about that—and the high quality is "inbred."

WEDNESDAY, APRIL 29, 1931

### WELL WORTH TRYING.

The proposal of Hon. Wm. Finlayson to establish a 22,000-acre park reserve in Matchedash Township sounds like good business.

This territory, like other land closer to home, should never have been opened for settlement.

There is no future for agriculture under the soil conditions found there, and with the country cleared of its forest wealth Matchedash Township offers little hope of revenue, unless it come from the plan suggested by the Minister of Lands and Forest.

It is situated in Simcoe County, close to the Muskoka area, and has possibilities from a torist viewpoint that make Mr. Finlayson's plan a sound business proposition.

"If Matchedash regains a forest covering, its waters a re-stocking of fish and the park is provided with travellers' accommodation," remarks the Globe, "the experiment may become one of great profit as well as enjoyment."

Certainly the growth in tourist traffic justifies the opinion that such areas, useless for anything else, may well be converted into summer playgrounds that will return a much greater revenue than could be hoped for from any other source.

### GIVE A MAN A JOB.

A great deal can be done at this season of the year to provide temporary employment for men who are out of work.

This is the house-cleaning season.

Around many homes there are little jobs to be performed that might well be turned over to some of the unemployed.

Windows to be cleaned, carpets to be beaten, gardens to be put in shape, and a score of other similar tasks provide the opportunity for work for men who are anxious to earn a little money.

Citizens who are in a position to pay for this kind of service should apply to the Employment Bureau, which has a list of unemployed.

This clean-up period can be made a period of opportunity for a good many folks whose earning power has been reduced by economic conditions.

Give a man a job. It will help him, help his family, help to give business an impetus it needs.

It will be a good thing for the whole community to put to work numbers of men who for some time have not been able to find anything to do.

Relief is necessary and the generosity of those citizens who have made the local fund possible cannot be too highly commended.

Employment, however is better than relief, and the greatest help that can be offered at the present time is to give a man a job.

### THE PART OF GOOD CITIZENS.

Good citizens will do everything in their power to discourage the taking of game fish during the spawning season.

They will, if they are alive to the seriousness of the situation, refuse even to accept the gift of an illegally caught lunge or bass.

There are some people who in a misguided spirit of generosity arrive at the conclusion that they are conferring a favor on some friend in pressing upon him a fish caught out of season.

It may take a little moral courage to refuse such a gift and to give your reason for so doing—but the result would be decidedly helpful.

If the poaching fraternity found it impossible to either sell or give away their illegal catch their enthusiasm for fishing out of season would be materially reduced.

Unfortunately, under present conditions they are encouraged in their work of destruction.

When they find a ready market the fish they slaughter and know that citizens who are supposed to be leaders in the community eagerly avail themselves of a chance for a fish dinner, they feel no compunction about breaking the law.

It is a ridiculous situation.

Everybody admits the importance of game fish as a tourist lure and as a means of sport for our own citizens.

Everybody knows the harm that is done by the taking of fish during the spawning season.

Yet law-breakers have the co-operation of many of our citizens, and the task of protecting our reserves of game fish is left to the fishery overseers and a few public-spirited enthusiasts.

### THE RIGHT OF THE RATEPAYERS.

In the news columns of The Examiner last evening appeared the report of a joint meeting of the Suburban Area Commission and the County Roads Commission.

The meeting was held on Saturday morning.

It is not particularly good proof of wideawake newspaper service to publish news on Tuesday that should have appeared three days before.

The fault, however, does not lie with The Examiner.

A reporter was detailed to cover the proceedings of that meeting on Saturday morning, but he was asked to leave, with the result that the people who foot the bills for what is done by these two commissions had to wait until Tuesday to learn what took place.

There is no good reason, The Examiner feels, why the press should be refused admission to the deliberations of these important public bodies.

What these commissions do is of interest to the ratepayers. The money comes out of their pockets, and they have the right to know what is going on and to know it through the medium of the press, and not when and how county officials choose to hand out the news.

None of these public bodies should be a closed corporation, nor should the newspapers be forced to depend upon official hand-outs when the business transacted is of interest to every ratepayer.

Such treatment, it may be said, is not accorded the press elsewhere in the district served by The Examiner.

The Council of the United Counties of Northumberland and Durham accords representatives of this newspaper every facility for obtaining complete, timely and accurate reports of meetings of committee, as well as of Council.

The result is that more information is published of the activities of the Northumberland and Durham Council than in regard to the Council of our own county, despite the fact that the majority of The Examiner readers live within the boundaries of Peterborough County.

It is a condition for which this paper is in no way responsible.

### ORILLIA IN LINE.

The Peterborough Chamber of Commerce is perturbed by the report that the Orillia Board of Trade has again declared against any effort to press the Dominion Government to complete the locks on the Severn River. But this time there is no basis for the perturbation, as the Orillia board has taken no action in that direction. On the other hand, they have assured the Peterborough chamber that they are ready to join in any steps considered desirable for bringing the absurd condition at the northern end of the waterway to the attention of the department. Experience has shown that once pressure is withdrawn and the undertaking allowed to slip from the attention of the authorities, it is difficult to get the work under way again. Besides there is a feeling that it is better that the Government should provide for unemployment by carrying on such public works as the completion of the waterway rather than fritter away money in millions on "relief." And it is now nearly twenty-five years since a minister of railways and canals promised that the northern outlet would be completed without further delay.—Orillia Packet.

### USING IMPORTED PRODUCE.

A man from the rural parts of Elgin came to St. Thomas on Thursday and had dinner at a hotel, where the choice of pie given him was either date or raisin. The pie tasted all right, but he didn't like the idea. He says the practice followed in many hotels, restaurants and in private homes of serving pies made from imported fruits, instead of from apples, peaches, cherries and other small fruits, or even custard, from our home-grown produce is all wrong. It isn't in the interests of the people of Canada. The same applies to other lines of produce served on our tables. We continue to buy goods and produce from a country whose high tariff wall keeps Canadian produce out of that country, while right at our own doors we have practically everything we need.

Our farmer friend recalled the farmers' banquet to St. Thomas Kiwanians in January, when everything on the menu, with the exception of the coffee, sugar, salt and pepper, was produced in Canada. There was nothing lacking, and it was declared to be one of the finest meals ever served at a banquet in the city. Yet with this example before them the people who serve meals continue to resort to the use of imported fruits and other produce. It is regrettable that the people cannot see which side their bread is buttered on.

This particular and discerning Elginite also thinks the people of Canada should use more ice cream as dessert, although he declares that the price the farmer is getting for his milk doesn't warrant the prices now charged for this delicacy. He believes a return of the old-fashioned five-cent dish would extend the use of ice cream and result in the increased consumption of milk and cream.

All of which shows that the farmer, who is getting only rock bottom prices for the products of his farm, and even then cannot get rid of them, has his thinking cap on when he comes to town and sees us consuming great quantities of imported produce. There is still room for us to advance in our "Use Canada Goods" campaign.—St. Thomas Times-Journal.

### OIL AND GOLD.

New wealth by the millions of dollars comes out of the ground every year in Canada. Oil and gold—liquid and metal—are two great sources of this new wealth. Every ounce of gold, every barrel of oil, adds its quota to the visible riches of the country.

Oil and gold will be the two factors that may completely change the economic map of Canada. The world is searching for gold. The world, on wheels, is always searching for more oil. It has abundance of oil for the present, but it must assure its supply for the future. It has only ten billions or so of gold, and an actual shortage is not so far away.

So that Canada, second greatest gold producer, and potentially one of the world's leading oil countries, occupies a strategic position in world economics for generations to come.

Canada is adding to the world's gold stock by new production of 40 million dollars a year. And this year the estimates run as high as 50 millions. The famous Hollinger, in Northern Ontario, produces 10 millions annually itself. Canada's gold greatness is a known quantity. To that greatness, British Columbia contributes handsomely. This Province alone has produced 215 millions of gold to the existing stock. And as yet the possible supply is only beginning to be trapped.

And again in oil, Canada, has yet to reveal the true richness of her supply. One of these days they are going to strike the main body of crude oil which underlies a large part of Western Canada, and then Alberta will be another Texas, where single wells are valued in the millions of dollars.

The world finances its 68 to 70 billions of annual trade with ten billions in metal. It needs more, vastly more, and its needs are growing rapidly. Canada is helping supply that need.

Oil and gold—vital lubricants for the world's wheels of progress. They are both in Canada, in enormous quantities. Both will be major themes in the history of a major theme is the history of the world.—Vancouver Sun.

### EDITORIAL NOTES AND COMMENT.

Have you had your tomato juice yet?

Canada has applied for the Olympic Games in 1940. That will give us time to get rid of the wheat surplus.

The chances are that Mr. Ferguson's speeches are causing a great deal more fuss in Canada than they are in the Motherland.

How the times have changed! Conservatives in Three Rivers-St. Maurice, Quebec, are endeavoring to secure Rt. Hon. Arthur Meighen as their candidate in the by-election in that riding.

It is about time Mr. Pouliot, M. P., went on leave. He has been battling in the front line trenches ever since the present session of Parliament opened.

Sure medicine, it is evident, is still some distance off so far as Canada is concerned.

Ontario tomatoes are the world's best. They should be found more often on Ontario tables.

# TANAR OF PELLUCIDAR

BY

## EDGAR RICE BURROUGHS

(Continued from yesterday.)

"You are an Amiocapian?" demanded Scurv.

"No," replied Tanar, "I am a Sarian from a country on a far distant mainland."

"Then what were you doing on Amiocap?"

"I was captured by the Korsars and the ship in which they were taking me to their country was wrecked on Amiocap. All that I ask of you is that you give me food and show me where I can find Jude."

"I do not know where you can find Jude," said Scurv. "His people and my people are always at war."

"Do you not know where their village is?" demanded Tanar.

"Yes, of course I know where it is, but I do not know that Jude is there."

"Are you going to give him food," asked Balal, "and treat him well as I promised you would?"

"Yes," said Scurv, but his tone was sullen.

In the center of the ledge, opposite the mouth of the cave, a small fire was burning beneath an earthen bowl, which was supported by three or four small pieces of stone. Squatting close to this was a female, who, in youth, might have been a fine-looking girl, but now her face was lined by bitterness and hate as she glared sullenly into the caldron, the contents of which she was stirring with the rib of some large animal.

"Tanar is hungry, Sloo," said Balal, addressing the woman. "When will the food be cooked?"

"Have I not enough to do preparing hides and cooking food for all of you without having to cook for every enemy that you see fit to bring to the cave?"

"This is the first time I ever brought any one, Mother," said Balal.

"Let it be the last, then," snapped the woman.

"Shut up, woman," snapped Scurv.

The woman leaped to her feet, brandishing the rib above her head. "Don't tell me what to do, Scurv," she shrilled.

"Hit him, mother!" screamed a lad of about eleven, jumping to his feet and dancing about.

Balal leaped across the cook fire and struck the lad heavily with his open palm across the face, sending him spinning up against the cliff wall.

"Shut up, Dhung," he cried, "or I'll pitch you over the edge."

The remaining member of the family party, a girl, just ripening into womanhood, remained silent where she was seated, leaning against the face of the cliff. Suddenly the woman turned upon her.

"Why don't you do something, Gura?" she demanded. "You sit there and let them attack me and never raise a hand in my defense."

"But no one has attacked you, Mother," said the girl, with a sigh.

"But I will," yelled Scurv, seizing a short club that lay beside him. "I'll knock her head off if she doesn't keep a still tongue in it."

At this instant a loud scream attracted the attention of all toward another family group before a cave, a little further along the ledge. Here, a man, grasping a woman by her hair, was beating her with a stick.

"Hit her again!" yelled Scurv.

"Scratch out his eyes!" screamed Sloo.

Tanar looked on in consternation and surprise. Never had he witnessed such tumult and turmoil in the villages of the Sarians, and coming, as he just had, from Amiocap, the island of love, the contrast was even more appalling.

"Don't mind them," said Balal, who was watching the Sarian and had noticed the expression of surprise and disgust upon his face. "If you stay with us long, you will get used to it, for it is always like this. Come on, let's eat, the food is ready," and drawing his stone knife he fished into the pot and speared a piece of meat.

Tanar, having no knife, had recourse to one of his arrows, which answered the purpose quite as well, and then, one by one the family gathered around and fell upon the steaming stew with avidity.

The caldron emptied, Scurv and Sloo crawled into the dark interior of their cave to sleep, where they were presently followed by Balal.

Gura, the daughter, took the caldron and started down the cliff toward the brook. As she made her precarious way down rickety ladders and narrow ledges, little Dhung, her brother, amused himself by hurling stones at her.

"Stop that," commanded Tanar. "You might hit her."

"That is what I am trying to do," said the little imp.

He hurled another missile and with that Tanar grabbed him by the scruff of the neck. Instantly Dhung let out a scream that brought Sloo rushing from the cave.

"He is killing me," shrieked Dhung, and at that the cave woman turned upon Tanar with flashing eyes and a face distorted with rage.

"Wait," said Tanar, in a calm voice. "I was not hurting the child. He was hurling rocks at his sister and I stopped him."

"What business have you to stops him?" demanded Sloo. "She is his sister, he has a right to hurl rocks at her if he chooses."

"But he might have struck her, and if he had she would have fallen to her death below."

"What if she did? That is none of your business," snapped Sloo, and grabbing Dhung by his long hair she cuffed his ears and dragged him into the interior of the cave, where for a long time Tanar could hear blows and screams, mingled with the sharp tongue of Sloo and the curses of Scurv.

Far below him, Tanar saw the girl, Gura, washing the earthenware vessel in a little stream, after which she filled it with fresh water and lifted the heavy burden to her head. He wondered at the ease with which she carried the great weight and was at a loss to know how she intended to scale the precipitous cliff and the rickety, makeshift ladders with her heavy load. Watching her progress with considerable interest he saw her ascend the lowest ladder, apparently with as great ease and agility as though she was unburdened. Up she came, balancing the recepatcle with no evident effort.

As he watched her, he saw a man ascending also, but several ledges higher than the girl. The fellow came swiftly and noiselessly to the very ledge where Tanar stood. Paying no attention to the Sarian, he slunk cautiously along the ledge to the mouth of the cave next to that of Scurv. Drawing his stone knife from his loin cloth he crept within, and a moment later Tanar heard the sounds of screams and curses and then two men rolled from the mouth of the cave, locked in a deadly embrace. One of them was the fellow whom Tanar had just seen enter the cave. The other was a young man and smaller and less powerful than his antagonist. They were slashing desperately at one another with their stone knives.

At this juncture, a woman came running from the cave. She was armed with the leg bone of a thag and with this she sought to belabor the older man, striking vicious blows at his head and body. This attack seemed to infuriate the fellow to the point to madness, and, rather than incapacitating him, urged him on to redoubled efforts.

Presently he succeeded in grasping the knife of his opponent and an instant later he had driven his own blade into the heart of his opponenet.

With a scream of anguish the woman struck again at the older man's head, but she missed her target and her weapon was splintered on the stone of the ledge. The victor leaped to his feet and seizing the body of his opponent hurled it over the cliff, and then, grabbing the woman by the hair, he dragged her about, shrieking and cursing, as he sought for some missile wherewith to belabor her.

"It is terrible," said Tanar, nodding toward the battling couple.

Gura shrugged indifferently. "It is nothing," she said. "Her mate returned unexpectedly. That is all."

"You mean," asked Tanar, "that this fellow is her mate and that the other was not?"

"Certainly," said Gura, "but what can you expect where there is nothing but hate?" and walking to the entrance of her father's cave, she set the water vessel down, then she sat down and leaned her back against the cliff.

Tanar, for the first time, noticed the girl particularly. He saw that she had neither the cunning expression that characterized Jude and all of the other Himeans he had seen; nor were there lines of habitual irritation and malice upon her face; instead it reflected an innate sadness.

Tanar crossed the ledge and sat down beside her. "Do your people always quarrel thus?" he asked.

"Always," replied Gura.

"Why?" he asked.

"I do not know," she replied. "They take their mates for life and though both men and women have a choice in the selection of their mates they never seem to be satisfied with one another and are always quarreling, usually because neither one nor the other is faithful. Do the men and women quarrel thus in the land from which you come?"

"No," replied Tanar. "They do not."

"But suppose that they find that they do not like one another?" insisted the girl.

"Then they do not live together," replied Tanar. "They separate and, if they care to, they find other mates."

"That is wicked," said Gura. "We would kill any of our people who did such a thing."

Tanar shrugged and laughed.

"At least we are all a very happy people," he said, "which is more than you can say for yourselves."

The girl thought for some time.

"Perhaps you are right," she said presently. "Nothing could be worse than the life that we live. My mother tells me that it was not thus in her country, but now she is as bad as the rest."

"Your mother is not a Himean?" asked Tanar.

"No, she is from Amiocap. My father captured her there when she was young."

"That accounts for the difference," mused Tanar.

"What difference?" she asked.

"I mean that you are not like the others, Gura," he replied. "You neither look like them nor act like them—neither you nor your brother, Balal."

"Our mother is an Amiocapian," she replied. "Perhaps we inherited something from her."

"Do many of your men take their mates from Amiocap?" asked Tanar.

"Many try to, but few succeed, for as a rule they are driven away or killed by the Amiocapian warriors. They have a landing place upon the coast of Amiocap in a dark cave beneath a high cliff and, of ten Himean warriors who land there, scarce one returns."

For a few moments she was silent. "I should like to go to Amiocap," she mused, presently.

"Why?" asked Tanar.

"Perhaps I should find there a man with whom I might be happy," she said.

Tanar shook his head sadly. "That is impossible, Gura," he said.

"Why?" she demanded.

"If you went to Amiocap, they would kill you."

"Why?" she demanded again.

"Because, although your mother is an Amiocapian, your father is not," explained Tanar.

"That is their law?" asked Gura, sadly.

"Yes," replied Tanar.

"Well," she said with a sigh, "then suppose I must remain here and seek a mate whom I shall learn to hate and bring children into the world who will hate us both."

"It is not a pleasant outlook," said Tanar.

"No," she said, and then after a pause, "unless——"

"Unless what?" asked the Sarian.

"Nothing," said Gura.

For a time they sat in silence, each occupied with his own thoughts, Tanar's being filled to the exclusion of all else by the face and figure of Stellara.

Presently the girl looked up at him. "What are you going to do after you find Jude?" ashe asked.

"I am going to kill him," replied Tanar.

"And then?" she queried.

"I do not know," said the Sarian. "If I find the one whom I believe to be with Jude, we shall try to return to Amiocap."

"Why do you not remain here?" asked Gura. "I wish that you would."

Tanar shuddered. "I would rather die."

"I do not blame you much," said the girl, "but I believe there is a way in which you might be happy even in Hime."

(To be continued)

## SECURITY

I built a castle in the air;
It seemed so very real to me,
Until one day a monsoon came
And blew my castle out to sea.

I built a bungalow on sand,
Of charm and beauty fair to tell;
Floods came, wild winds blew,
Beat upon it, and it fell.

I built a house upon a Rock,
Built it so to long endure;
Let rains descend and tempests smite,
I know my house will stand secure.

—Grenville Kleiser.

## What To-day Means To You

"TAURUS"

If April 29th is your birthday, the best hours for you on this date are from 8:30 a.m. to 10:50 a.m., from 3:30 p.m. to 5:15 p.m. and from 7:10 p.m. to 9:15 p.m. The dangers hours are from 11:30 a.m. to 1:45 p.m. and from 9:30 p.m. to 11 p.m.

Many good opportunities will, so the signs denote, present themselves on April 29th, and it is necessary to be more than usually on the "qui vive." There is a danger of over-estimation of ability, and every effort must be made to guard against any such eventuality.

Children born on this April 29th will be, according to their horoscope, long-lived and materially successful. As they mature, they will prove to be far-sighted, determined and well-balanced. They will have a keen sense of justice and love their home ties above all else.

Born on April 29th, you will, all through life, be fortunate in being helped and assisted by others. You will not, of course, depend on this for success, but it will prove to be a very powerful factor in your career. Others will came to your assistance, not because they are asked to do so, but because of the natural charm which you show in every relationship of life, and because of the absolute sincerity of your character.

You are a hard worker, energetic and constant. Neither in youth or old age will you ever become a slacker. Your temperament is equable, and it takes a great deal to ruffle your feelings. When however, these are aroused, you can "let fly" just as excitedly as the next one. You keep your promises, and never assume an obligation that you cannot perform. You are truthful, even in little things. This is the acid test of veracity.

Your horoscope indicates a fair amount of success and a large degree of happiness. Your outlook on life is tolerant and sympathetic, but you never assume troubles of others, or attempt the role of a "buttinsky." Your home life promises to be placid, full of quiet contentment and enduring felicity.

## CLEVELAND SOCIETY VIEWS TRENT FILMS

### Have Already Been Shown at Three Motor Boat Shows in United States.

A letter of recent date was received from the Cleveland Photographic Society by the local offices of the Trent Waterway-Iroquois Trail Association, thanking them for the use of their two films. The letter states that the films were shown before 125 members of the Society on Wednesday evening last, and it was the unanimous opinion of all those who saw the pictures that this was the most beautiful section of Ontario, and one which they would like to visit.

The films, which depict scenes from and life in the Trent system and the Kawartha Lakes, were shown at the New York, Philadelphia and Detroit motor boat and sportsmen's shows this year, and are at present in circulation in various cities in the United States.

A request was recently received from the Knights of Pythias in Ann Arbor, Michigan, for the loan of the films. They had seen the views advertised in an old number of the Cine-Kodak news and thought this type of picture would bring the best crowd out to a special meeting they wished to hold. Needless to say, the local Association are making arrangements for the showing of the films there.

## Accompanies Royalty

When the official banquet is given in honor of His Imperial Highness Prince Takamatsu of Japan and his Princess in Montreal next week, Hon. C. H. Cahan, Secretary of State, will preside. Mr. Cahan may accompany Prince Takamatsu during part of His Highness' stay in Canada.

## IN DAYS GONE BY

### Items Taken From Old Fyles of The Examiner

**APRIL 29, 1921**

The entente for war crimes will try nine hundred Germans soon at Leipsic....R. J. Soden of this city yesterday was elected first vice-president of the Ontario Hunters' Game and Fish Protective Association....The striking coal miners have rejected the latest offers of the British Government ....A report from Bombay this morning says there is serious rioting in India....The local Golf Club has engaged an experienced professional in the person of Hugh Mason.

**APRIL 29, 1911**

The thirteen bells composing the People's Chimes are completed and tuned, and will be shipped to Peterborough within a few days....The Rex Theater on George street, south of the Customs House, will open tomorrow night....The rat season closes to-day with thirty cents being the average price paid....The formal opening of the J. D. Tully drug store, 467 George street, takes place this afternoon....Canada's trade for the past year exceeded $750,000,000.

**APRIL 29, 1901**

Next Sunday, a G.T.R. locomotive will pass through London on a trial trip from Sarnia to the Bridge.... Mrs. Josephine Londerville, matron of the Protestant Home, died in Nicholls Hospital...The local corps of the Salvation Army celebrated its 16th anniversary yesterday with appropriate services...The local lacrosse team will likely play Cobourg in that town the 24th of May.

# BOYS ARE GIVEN 4-MONTH TERM

### Guilty of Obstructing Game Overseers Near Bobcaygeon.

### PASTORS ACCEPT CHARGES

LINDSAY, Apr. 29.—At yesterday's session of the county police court Mossom and Orville Kimball, of Bobcaygeon, who resisted Game and Fishery Overseers Windsor and Gooderham by display of violence and by threats and who were trapping on a reserve, were given four months in the county jail.

The overseers had no desire to push the charge against the boys, being satisfied with the minimum punishment in each case.

County Crown Attorney Anderson pointed out that Mossom Kimball had several informations previously laid against him—one for assaulting an officer, and was even now on suspended sentence. Only one conviction had been registered against his brother.

**Pastors To Change**

Rev. C. C. Washington, B.A., B.D., Chairman of the Lindsay Presbytery and pastor of Fenelon Falls United Church, has accepted a call to Fairlawn Avenue church, Toronto. His successor will not be known until next meeting of Presbytery. Rev. R. M. Patterson of Janetville, will assume the pastorate of Sunderland United Church, Rev. C. D. Daniels, of that church, having accepted a call to Peterborough.

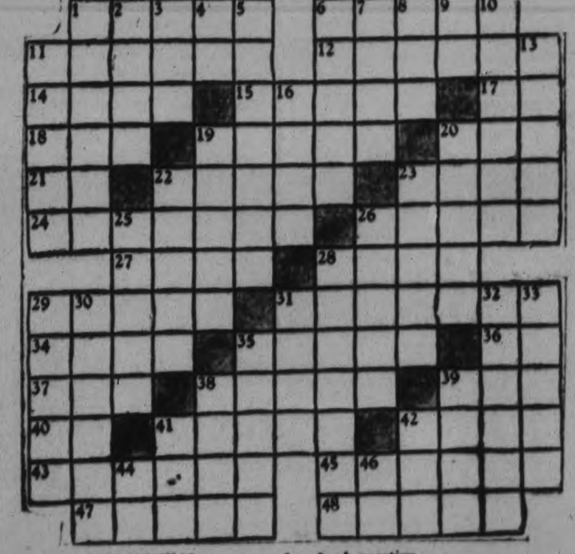
M. A. McCallum, president of Fenelon Falls Board of Trade, a member of Ontario Hunters' Game Protective Association, and one of the best known authorities on game, etc., in this district, has issued a statement concerning the ravages of wolves in Victoria and Haliburton Counties. He is satisfied, after careful investigation, that the destruction of deer and farm stock is undoubtedly due to the presence of wolves. They have cleaned the deer out completely in the northern part of Victoria County and are now turning their attention to farm stock.

## Welland Police Fear Woman Is Kidnapped

WELLAND, Ont., April 29 (C.P.)—City police to-day are investigating the reported kidnapping of a local young woman last night. Two men reported they saw the alleged affair in which an auto said by them to be bearing an American license, drove up behind the woman. A man sprang from the car and placing his hand over the woman's mouth, hustled her into the auto which was said to have driven quickly away. Border bridges are being watched. Police said no one has been reported as missing to-day.

Don't miss "Dracula" at the Regent Theatre on Wednesday, Thursday and Friday of this week. The Examiner Cheer Fund gets twenty-five per cent. of the receipts for relief work.

CROSSWORD PUZZLE No. 1941 (Copyright 1930 by the Bell Syd., Inc.)



HORIZONTAL

1—Appearance.
6—Twilled cloth.
11—Political division.
12—Gully.
14—Worthless leavings.
15—Subject.
17—Egyptian god.
18—Fuss.
19—Canvas-like substance.
20—Pronoun.

## Nude Man Mystery Is Finally Solved

CHICAGO, April 29.—The mystery of the nude man with a long gray beard who roamed the Austin police district late at nights frightening women has been solved.

Several times recently the police received calls from hysterical women who told of being chased by the man. Early today they receive another.

Officers Frank Dyer and Andrew Fashley of the flivver squad took up the hunt. They searched every street in the neighborhood without success, then started touring the alleys on foot.

Suddenly something flashed in front of them, and down a narrow space between two buildings. All they could determine was that it was white and had a long beard.

Dyer raced down the passage. Nearing the walled end of the space, he again glimpsed the flash of white, dived and captured the "nude man" who had caused so much commotion in the vicinity.

The mysterious culprit was a billygoat.

## Tory Call Goes Out Caucus Is Rumored

TORONTO, Ont., April 29 (C.P.)—All members of the Conservative Party in the Ontario Legislature from all parts of the Province have been called to the Parliament Buildings here tomorrow to attend a luncheon at the Speaker's apartment.

The invitation to all members has been sent out by W. H. Island, M.L.A., Conservative Whip, who declared the luncheon is called to greet Premier Henry on his return from Atlantic City, where he has been on a ten-day vacation. While this is the official message, it is understood the luncheon will be followed by a caucus.

Importance is attached to the caucus in view of the impending Conservative convention, at which endorsation is to be given to the Prime Minister or whoever the convention selects.

## FORD OF CANADA IS IN DEMAND

### Stock Bought Up at New Low Figure 18¼ at Toronto as Liquidation Continues at New York.

### C.P.R. ALSO DOWN.

TORONTO, Ont., April 29.—(CP)—Only a scattered few of Toronto Stock Exchange stocks were traded this morning, but most of these declined from the level of last night's closing and a few broke into new low ground. Selling did not reach heavy proportions in any individual stock and despite the extent to which the continual decline has now been carried, very little liquidation of a forced character came into the market.

Ford of Canada, failed to vary through the rally initiated in the final hour last night and this morning settled back to a new low at 18¼. As was the case yesterday, New York was the heavy seller and Toronto a purchaser of the stock on the way down. At midday the stock had recovered to 19, where it was still off a point, however.

C.P.R. made a record low at 34, Page-Hersey Tubes dipped below 80 to record a new low for the year and Brazilian was easier around 18½. International Nickel sold under 15, and Noranda lost part of yesterday's gain.

Oil stocks were fairly firm but experienced very small turnover. Imperial was slightly lower, but other leaders were unchanged to a small fraction higher.

## ONE POINT LOSSES FEATURE TRADING

### C.G.E. Drops 30 Points in Single Sale on Montreal Exchange.

MONTREAL, Que., April 29 (C.P.).—The Montreal stock market trend of prices was generally soft this morning, though losses in most cases did not exceed one point.

Canadian General Electric was an exception making one of its infrequent appearances on the board at 2:30 in a single sale it dropped 30 points under the previous transaction establishing a new low for the year.

Montreal Power lost a point at 56; National Steel Car dropped a point at 24, and Consolidated Mining and Smelting was also off a point at 108. Shawinigan lost 3-8 at 48 1-8. Nickel was off 3-8 at 14 7-8 and Brazilian was down ½ at 18¼. General Steel Wares, and Sherwin-Williams all lost ½ point in the morning trading.

## MRS. C. THOBURN RESIGNS OFFICE

### J. Fred Davey, Ottawa, Succeeds as Head of Canadian Council on Child Welfare.

### OFFICERS ELECTED.

OTTAWA, Ont., April 29. (CP)—After seven years as president of the Canadian Council on Child and Family Welfare, Mrs. C. H. Thoburn of Ottawa, retired at the annual meeing of the council here yesterday and J. Fred Davey of Ottawa, was elected to the vacancy. A beautiful clock was presented to Mrs. Thoburn by the national board.

Vice Presidents elected for 1931 are Dr. H. E. Young, Victoria, B.C., and F. N. Stapleford, Toronto. Other officers include:

Treasurer, Mrs. Jules Tessier, Quebec; Child Welfare Division Chairman, Robert E. Mills Toronto; Family Welfare Division, Chairman G. B. Clarke, Montreal; Executive Directo, Miss Charlotte Whitton, Ottawa.

## FLIERS PREPARE FOR GLOBE HOP

### Panghorn and Herndon Start on Test Flight to Porto Rico.

### CAPT. YONEY IS INSTRUCTOR

ROOSEVELT FIELD, N.Y., April 29.—Flying the monoplane in which they propose to travel around the world, at a later date, Clyde Pangborn, veteran air circus pilot, and Hugh Herndon, Jr., wealthy aviation enthusiast, took off at 7.24 a.m. (E.S.T.) to-day on a 2,500 mile test flight to Porto Rico.

Their first stop will be at Jacksonville, Fla.

Accompanying them was Capt. Lewis E. Yancey, New York-to-Rome pilot, who is teaching Herndon navigation.

On their return to Roosevelt Field in a week or ten days the fliers hope to start their globe-girdling flight. They will attempt to break the record of the Graf Zeppelin.

They plan to fly first to England; then to Moscow, Tokyo, Seattle and back to New York.

## TO DECIDE ON WOMEN ELDERS

### Ordination of Ministers Hinges on Result of Issue.

### VOTE DUE SOON

WINDSOR, April 29.—Churches of the United Church Presbytery of Essex, including the Border Cities, will soon be voting on the question of permitting women to be ordained as elders. The issue will be presented at the quarterly Presbytery meeting at the United Church, Essex, on Friday, May 8, when clerical and lay delegates of the 26 independent United Church congregations will assemble prior to the annual convention of the London Conference at Chatham early in June. Action to be taken in this as well as other United Church Presbyteries throughout the Dominion will have emphatic bearing on the wider question as to whether women may be admitted to the ranks of ordained ministers in the United Church.

## ONE FIRE ALARM.

Only one call has broken the quiet of the last few days at the Fire Hall. At 4.44 yesterday afternoon an alarm came in for a chimney fire at 475 Mark street. Chemicals were used to extinguish the fire, and little damage was noted.

## Elevator Wheat Drops 8½ Million Bushels

FORT WILLIAM, Ont., April 29 (By The Canadian Press).—Stocks of Canadian wheat in elevators on the continent dropped 8½ million bushels in the week ending last Saturday but export clearances were discouraging, amounting to only 2½ million bushels. The report of E. A. Ursell, statistician to the board of grain commissioners, making public these figures, explains the drop in elevator stocks is due to the increased amount of wheat in transit to the seaboard and indicates an improved export trade in May.

The report states that 34 boats are chartered from Atlantic ports in Canada and 15 from Vancouver for May, presaging a jump in the export clearances shortly. A total of 162,452,638 bushels of wheat are in store in all elevators on the continent. A year ago 182,891,951 bushels rested in the elevators. Export clearances for the week ending last Saturday amounted to 2,592,258 bushels compared with 3,146,785 the previous week.

## SALARY CUT FOR C.P.R. EMPLOYEES

### Office Staffs Throughout Canada Effected By Notice To-day.

### GOT STOCK DIVIDEND.

(Special to The Examiner)

TORONTO, April 29.—Choice of a twenty per cent. salary cut; one day a week off without pay; or dismissal of certain junior clerks, has been offered office employees of the Canadian Pacific Railways throughout Canada as a necessary economy measure, according to notices issue to the staff.

A vote is being taken in the individual offices from coast to coast and it is thought that upon the decision of the majority will depend which of the three alternative measures is adopted.

The possibility of junior clerks being thrown out of employment is considered unlikely because of the general feeling among employees that they should do what they can to keep as many people as possible in work.

Likewise, it is said in railway circles that the trend of the vote inclines to the proposal of a day off a week instead of a straight wage cut. If the employees decide to take an extra day off a week, it is said they will be given Saturday morning, as they are already paid for a whole day Saturday, but work only half. The wage decrease for this alternative will be somewhat lower than 20 percent.

Employees point out the irony of the situation in that they are large holders of Canadian Pacific stock, which they bought in better days for $170, when its market value was above $200. Some time ago the shares were split four for one and now have a market value of around $35. Therefore the employees are holding stock which, if sold would bring about $30 less for one of the old shares, or about $7 less for one of the new shares, than they paid for it.

At the same time, they received a ten percent dividend on their holdings on April 1. This dividend has been stable for several years and it is considered in financial circles certain that it will not be reduced no matter what economy measures are found necessary.

## EASIER TONE IN NORANDA STOCK

### Prices Move Irregularly Lower on Standard Exchange Today in Lighter Trading.

TORONTO, Ont., April 29.—(CP)—Prices moved irregularly lower on the Standard Stock Exchange to-day. Volume was small.

Noranda was easier at the start, but recovered in later dealings to sell at $24. From here the stock eased off, to show a small loss. International Nickel and Hudson Bay were easier, losing about a quarter each. Nipissing was weak throughout the first hour, but came back to within one of its previous close later. Ventures recovered its three-cent loss of yesterday. Eldorado Columario, San Antonio, and Teshota were lower Abana improved fractionally.

Golds declined, although losses were not large. McIntyre lost a quarter, Kirkland Lake 3 Northern Canada 1, Teck Hughes 5, Hollinger 5, and Dome 10. Bidgood and Wright Hargreaves displayed small advances.

Oils were quiet. Chemical Research Peninsula and Nordon eased off, while Alberta Pacific, Acme, Ajax and Home were just holding at yesterday's finals.

## Claim Upward Swing Started In Germany

BERLIN, Apr. 29.—(AP)—Germany has turned the corner of economic depression, at least psychologically, and there is a firm basis for predicting a gradual recovery, Hans Luther, president of the Reichsbank, told the bank shareholders today.

Recent business improvement can hardly be considered more than seasonal, he said, but he emphasized the steady decline of inventories in many lines and called attention to the fundamental shift in the psychological attitude in Germany and abroad from extreme pessimism to confidence in the solidity and solvency of Germany.

## Appointed To British Embassy

BECOMES COMMERCIAL COUNSELLOR AT WASHINGTON

Mr. H. Owen Chalkley, C.B.E., commercial counsellor to the British embassy in Buenos Aires, and promoter of the British Trade Fair, who has been appointed to the post of commercial counsellor to the British Embassy in Washington.

## JOHN R. MARSHALL IS RE-ELECTED CHAIRMAN OF LOCAL C.M.A. BRANCH

### Executive of Peterborough Manufacturers' Association Returned to Office.

### MEETING ON TUESDAY.

At the annual metting of the Peterborough Branch of the Canadian Manufacturers' Association on Tuesday, the following officers were elected for the coming year: John R. Marshall, chairman; Robert Abbott, vice-chairman; R. M. Glover, treasurer; George W. Green, secretary.

The chairman presented a brief review of the activities of the branch during the past year, during which time he also acted as chairman and representative on the executive of the Ontario Division of the C.M.A. He reported that in June of last year he attended the annual general meeting of the association in the Royal York Hotel, Toronto. Many items of interest to the manufacturers of the Province were discussed, and the local branch, in sending members to the convention, contributed towards the success of the proceedings.

Mr. Marshall also reported that the association was not able to effect any decrease in freight rates on coal eastbound from Toronto.

**Tribute to E. G. Patterson.**

Mention was made of the dinner and meeting of the local organization held on December 29, 1930, in honor to the "Dean of Peterborough Manufacturers," E. G. Patterson, formerly works manager of the Canadian General Electric Company. Mr Marshall outlined the activities of Mr. Patterson. He was on the Board of Education, he was active in the Chamber of Commerce, and was an active member of the Manufacturers' Association.

The branch opposed the recent impost of the Provincial Government in taxing incorporated companies at the rate of 1-10 of 1 per cent. on capital stock. The objections, however, were of no avail, although they were undoubtedly added to the protests from municipalities and manufacturers all over the Province.

Mention was also made of the twelfth annual meeting of the Ontario branch of the Canadian Manufacturers 'Association held this afternoon (Wednesday). Suitable souvenirs advertising Peterborough will be presented to the delegates, through the courtesy of W. R. Breyfogle, general manager of the De Laval Company.

**Treasurer's Report.**

The treasurer, R. M. Glover, managing director of The Examiner, was then called upon to deliver his statement of the branch's financial position. He reported receipts for the year amounting to $1,012.73 and disbursements totalling $1,000.71, leaving a balance in the bank of $12.02. These figures weer audited by Messrs. Morrison and Lawrie.

William L. Ferguson, chairman of the Nominating Committee, which consisted also of W. R. Breyfogle and J. J. Turner, reported that he was pleased to recommend that last year's executive be reinstated for a further term. Following this, the officers were officially installed, and with an optimistic outlook are prepared to carry on for another year.

### CAPT. PEEL TO COMMAND MAURETANIA

MONTREAL, Que., April 29 (C.P.)—Captain R. V. Peel who brought Cunard liner Ausonia here this week, has been appointed Commander of the Mauretania, one of the big three of the Cunard Atlantic fleet, it is announced.

### Winnipeg Review

Special Service to The Examiner through the courtesy of E. J. Bawlf Company, Grain and Stock Brokers, of Toronto

The wheat market continued nervous and somewhat erratic, but prices were mostly higher than the previous close, although a dip around mid-session carried prices 1-8 under the close of Monday night. Early prices were about ¾ higher with fair buying by seaboard-houses, but after this demand was satisfied the market eased off about ⅜ cent but in the final stages the market came back, establishing new highs for the day, with good buying again by seaboard interests. There was considerable spreading going on yesterday, selling May and buying the deferred futures, the latter showing a little more strength than the nearby. There was export business working, overnight sales probably reached half million bushels, with further new business drifting in during the session. Liverpool closed firm at 1 to 1¼ higher and Buenos Aires was 1-8 to ¼ higher at noon. There was only a moderate demand for cash wheat. Offerings were not pressing and spreads were unchanged. There was no change in the flour situation which is generally quiet with a fair domestic demand but very little doing in export circles. Broomhall reported a better demand continental for wheat with forecasts of a likely reduction in the German import duty while the French government is allowing millers to use a further five per cent. of foreign wheat in their grindings making a total of 25 per cent. now permissible. There has been no moisture over spring wheat territory, and reports are coming in of farmers waiting for rains before sowing, and there are so many reports of cut worms being plentiful, but the seconds are being ignored so far but will probably attract a little more attent on shortly. Winnipeg futures closed 7-8 to 1 1-8 higher practically at the day's high.

Coarse Grains.—There was very little doing in the coarse grains and the markets were inclined to be draggy. Eastern Canada took a few carlots of oats, but there was nothing doing in export circles in oats, barley or rye. There was some scattered liquidation in May and some local buying of the deferred months. Oats closed half lower to ¼ higher, barley 1-8 lower and rye 3-8 to ½ lower. Flax market was firmer, but there was very little going on and nothing of feature. Closing prices were ½ higher to ¼ lower.

Liverpool due half to 5-8 higher based on Winnipeg.

### 38 DIE IN TRAIN CRASH.

CAIRO, Egypt, April 29. — Thirty-eigt persons, including ten children were burned to death and thirty-six others were injured to-day when the Cairo-Alexandria express caught fire.

### IMPORT DUTY NEWS.

CHICAGO, Ill., April 29.—(CP)—Helped by reports of an almost certain large reduction of Germany's wheat import duty, grain prices showed an early upward trend to-day. Continued dry weather in the North American spring wheat belt was also a strengthening factor. Opening at 1-8 cent off to ½ up, wheat afterward showed a general advance. Corn started at 1-8 decline to 3-8 gain and subsequently rose all around.

### STEAMER ON FIRE

PERTH, West Australia, April 29 (A.P.)—The British steamer, Demosthenes, out of Brisbane for Liverpool, radioed Lloyds to-day that her forward bunker was afire and she was putting into Freemantle. She sailed from Freemantle last Saturday with several passengers.

## DRASTIC SLUMP IN U. S. STEEL EARNINGS THROWS N. Y. LIST INTO DECLINE

### U. S. Steel Common Registers Widest Drop Since Crash of 1929.

### LIQUIDATION SPREADS.

### Rails Fairly Well Sold Out—Several Issues Register New Lows.

NEW YORK, N.Y., April 29.—(CP)—The shrinkage of equity share values quickened to-day, as the stock market took its cue from the unexpectedly drastic slump in the earnings of the United States Steel Corp., as shown in its quarterly statement.

Many issues dropped 2 to 10 points, with U.S. Steel common recording one of the widest drops since the crash in 1929. Liquidation spread to the electric power issues after midday, although that group had been holding up relatively better than other division with some exceptions, the rails appeared to be fairly well sold out.

Selling was in rather large volume for a time, but after sharp declines at the opening, the list sank slowly. U.S. Steel common tumbled 8 points, getting under 117, and within a few points of its 1927 low. Westinghouse Electric dropped 6 to the lowest, in seven years, and Bethlehem Steel more than 3 to the lowest in five years. Other issues losing 3 to more than 4 points included American Can, American Telephone, North American, American Water Works, New York Central, Byers and Allied Chemical.

A weak spot in the rails was Nickel Plate preferred, down 8. Radio, General Motors and General Electric were among issues off a point or more. Selling lightened in Transamerica, yesterday's weak spot, and the issue held its ground fairly well.

## Local Girl Guides Hold Joint Meeting

On Monday evening, in St. Peter's Lyceum, the 1st and 2nd Peterborough Companies of Girl Guides met to have a joint meeting. The meeting opened with the roll call, after which both companies sat down to enjoy a pleasant program. Some of the parents of the girls were present also.

Miss McCarthy, Captain of the 2nd Peterborough Company, gave an introduction to Mrs. C. H. Rogers, Divisional Commissioner, who gave an address about Girl Guiding. A pleasing piano duet was given by two girls of the 2nd Peterborough Company and was proceeded by a play entitled "The New Recruit" given by some girls of the 1st Company. This play illustrated some useful knowledge which is obtained at Girl Guide meetings. Those taking part in it were: Dorothy Kelly, Betsy Scott, Beverly Rogers, Ruth Sutton, Phyllis Cruthers, Gladys Carvolth, Alicia Langley, Patricia McLellan, Jean Howson, Margaret Lyttle. At the end of the play the 2nd Company gave a vote of thanks to the other company and Miss Connolly, Captain of the 1st Company, responded with a short speech saying that she hoped we should have more of these joint gatherings.

On April 27th the first company of Girl Guides held a meeting in the bandroom of the Armouries at 6:30 p.m. The girls participated in high jumping, broad-jumping and relay races until the meeting was called to order at 7 p.m. Then the roll call and prayers took place. The company then dismissed to their patrol corners to study Second Class tests.

Each patrol was told to have everything looked up about the bird after which their patrol was named. Also each girl was told to have their Morse signalling flags completed by the next meeting. The girl then gathered together, joining hands to sing "Taps" and so ended a jolly meeting.

### FOREIGN EXCHANGE.

NEW YORK, N.Y., April 29.—(CP)—Prime mercantile paper 2¼-2¼ per cent.

Foreign exchange irregular; demand rates (Great Britain in dollars; others in cents):—Great Britain 4.86 3-16; France, 3.90 7-8; Italy, 5.23¼; Germany, 23.80½ Canadian dollars at 1-32 of one per cent. discount.

## KING WELCOMES PRINCES HOME

### Affectionate Family Scene as Brothers Enter Windsor Castle.

### BACK FROM SOUTH AMERICA

WINDSOR, Eng., April 29. (AP) The Prince of Wales and Prince George arrived at Windsor Castle today and were joyously received by the King and Queen at the conclusion of their lengthy good will tour to South America.

There was an affectionate family scene when the Princes entered the private apartments of their parents. The returned pilgrims were welcomed happily by Their Majesties and by the Duchess of York, exchanging greetings all around.

A moment or two later little Princess Elizabeth who had been told that her Uncle David and Uncle George were due back, caught sight of them and ran eagerly across the room. Each of the princes gave his little niece a very special kiss. She had been waiting impatiently for them since early morning.

## Degrees Conferred By I.O.O.F. No. 56

The regular meeting of Mount Hebron Encampment, No. 56, I.O.O.F., was as usual, of interest to all present, when the Patriarchal Degree was conferred and after the meeting all present adjourned to the dining room and enjoyed the repast provided by the Junior Warden.

This Encampment was organized in 1847 and is going strong, and the present officers are to be congratulated for the interest being manifested.

The Dominican Republic expects a bumper cacao crop this year.

## DOG TRAVELS GODERICH TO SAULT WHEN LEFT BEHIND BY HIS MASTER

### Route Collie Took Crossing Border Twice Proves Mystery.

### MAKES TRIP IN WEEK.

SAULT STE. MARIE, Ont., Apr. 29.—(CP)—The attachment which Don, a thoroughbred collie dog, just a little over a year old, has for Sault Ste. Marie and his master, John Brodie, has made him the hero of a most remarkable incident, which includes a journey, through difficulties which must have been almost insurmountable, from a lonely farm near Goderich back to this city, after Mr. Brodie had taken him to that place, via Michigan. How the animal managed to make his way back is a mystery, and it is not yet known just what route he travelled. If he came through Michigan, retracing his route when taken to Goderich, he would have to cross the international border twice, at Port Huron and the Sault, and also manage to make the crossing at the Straits of Mackinac. Yet he made the trip in just one week.

**Moves Near Goderich**

Mr. Brodie secured the dog, when a pup, from kennels at Cornwall, and it became quite attached to him and the family. The first week in April Brodie decided to leave here and take up residence on a farm in Ashfield Township near Goderich. The trip was made by auto, the dog being conveyed in a trailer drawn behind the car. The usual route was taken down through Michigan, necessitating a crossing on the ferries at the Soo, Mackinac and Port Huron, and thence to Goderich via London, the Farm was reached without incident.

Mr. Brodie stayed on the farm two weeks and then returned here by train, leaving the dog with the family on the farm. It is known through letters received here, that Don was still at the farm of April 21. Then he disappeared. The next heard from him was when he arrived yesterday at the home of Mr. and Mrs. J. Cousins, Dufferin Avenue, Sault, where Mr. Brodie is staying.

**Arrived In Bad Shape**

Don was in bad shape when he arrived. He apparently had eaten little food enroute, was lank and lean, dusty and very tired. His feet were raw and sore, and his toenails were worn away right to the flesh. But he was glad to get back in the Sault, and to see his master. He is in better shape today, but it will take a long rest to get him into his former condition.

Mr. Brodie will return to the Goderich farm on Friday, taking Don with him.

# TO-DAY'S BURDEN SOME PROBLEMS PRESENT CHALLENGE TO MANKIND

(Continued from Page 1)

pected. They included members from the district extending from Renfrew to Whitby and they came from Whitby, Bowmanville, Brighton, Port Hope, Millbrook, Myrtle Station, Port Perry, Oakwood, Cannington, Orillia, Lindsay, Belleville, Foxboro, Kingston, Picton, Campbellford, Almonte, Pembroke, Frankford, Arnprior, Carleton Place, Eldorado, Smith's Falls, Tweed, Renfrew, Appleton, Clayton, Lorneville, Woodville, Napanee, Odessa, Brockville, Deseronto, Trenton, Lakefield, Woolcr, Beaverton, and Brechin.

The evening session, which was devoted to the work of Young Women., opened with a service of worship led by Miss Vera Squire and Miss Gladys Coon, followed by special music from a quartette of singers from St. James' United Church, A. Lee, J. Worrall, H. Turner, and J. Baldry, followed by greetings from the city extended by Alderman Melville Turner, taking the place of Mayor Denne, who was absent from the city last evening. The greetings from the Bay of Quinte Conference were extended, in place of the president, also absent, the Rev. A. J. Wilson, B.A., B.D. of Napanee, by the Rev. J. E. J. Millyard, pastor of George Street United Church, while the Rev. Dr. McLean voiced the greetings of the conference church. The president of the W.M.S., Mrs. W. L. Smyth of Pembroke, thanked the speakers for their greetings, in a graceful brief acknowledgment.

**"In the Hands of His Friends."**

In the ten-minute reports which followed, Miss Spargo, the first speaker, reporting for Young Women's Work, said two Y.W.'s and three new Circles had been added during the year, with an increase in both membership and givings. More girls had taken part in the programs also this year. Miss Spargo referred to the presentation at Bowmanville this year by the society, of ninety Testaments to the United Church members among the boys at the Training School at Bowmanville, and concluded with a reference to the writer who spoke of a meeting between Christ and the Angel Gabriel, and the saying of Jesus that He had left His work on earth in the hands of His friends.

Miss Templeton, for Canadian Girls in Training work, spoke of four new groups and an increase in membership of twenty. New groups had been added, but membership in the older groups had fallen off. Group reading during the year had included such a wide range of subjects as volumes dealing with missionary efforts, the League of Nations, the poems of Pauline Johnston and Maria de Chapdelaine, and discussions had been held on such subjects as immigration, the North American Indians, the Finns and the Doukhobors. Presents had been sent to a Western Indian Reserve School and to New Canadians arriving at the Port of Montreal. Friendship rallies had been held at Oshawa, Cobourg, Belleville, Kingston, and Renfrew, these following out the line of the Study Book of the year in taking the form of Japanese festivals. Miss Templeton spoke of "a new spirit abroad in the land, the spirit of co-operation between the W.M.S and the C.G.I.T." and went on to recommend attendance at summer camps and encouragement by the leader of such attendance, as conducive to the right kind of missionary education.

Mrs. Rowland of Stirling, speaking for Mission and Baby Bands, said there were 12 new Mission Bands and five new Baby Bands added during the year. She spoke of the importance of missionary training in youth, and mentioned the 1,700 Mission Bands which exist in Canada, Newfoundland, and Bermuda. The worship period, she said, should teach the child that Jesus is a friend, and the study period should emphasize the fact that children of other lands are friends, not enemies The Golden Rule should be so fitted into life that it would become an influence of conduct.

**Citizens of the World.**

Miss Constance Young, the principal speaker of the evening, who is secretary of Young Women's Work, and who spent some years in Trinidad as a teacher, quoted Anatole France as the basis of her theme in his words: "The hour has come when we must be citizens of the world or see civilization perish."

"That is true now," said Miss Young, "and it necessitates on our part an understanding of world citizenship and a development of that quality. The world is no longer unrelated. We have become an economic neighborhood, but unfortunately not a world brotherhood. It is said truly that two men walking side by side are more likely to get into one another's way than if they were miles apart. Someone has remarked 'We are like a jointed doll, each part having no relationship to the other.' That is why we are unlike politically, whereas economically we are interdependent. And that is why a political issue can be made of such a thing as unemployment, for instance.

"One mark of world citizenship is knowledge, but beyond knowledge there must be concern deep enough there must be concern deep enough to drive us all to do what we can about this world situation, be it little or much. 'If we would create a world order based on justice and love, these values must reign in our own lives.'

"To be a world citizen we cannot retain our prejudices. We must see that there is something in the principle of Communism that is more Christ-like than the capitalistic order and something more than the 'red' aspect that we read so much of in the daily press. We must see missions in their world-wide relationships and their implications in the world in which we live.

"For what do we send missionaries to the foreign field? We take Christianity to the foreign field because it means for those people as it does for us, a release of personality. If we accept Jesus as a way of life and a principle of living, we find a release and a development of personality an it is our responsibility to help others to that way of life.

"In our own country we see a social order that cramps personality and gives the lie to the teachings of Jesus. We must be concerned about that social order and about what we as chuch members are doing. In our country, we are spending fifty per cent. of our revenue for armaments. How can we send missionaries to preach peace while we are maintaining the attitude that we are pacifists as long as war does not come. In that, we see the denial of Jesus Christ. How can we send missionaries to foreigners while we do not subscribe to His principle of love? It was youth that paid the price in the last war. Youth should think of these things.

"The young of to-day are thinking about Christianity in the light of scientific knowledge. They are no longer willing to accept an ancient creed, or a religion without ethics They are forging for themselves a tremendously dynamic religion in many instances. Young people are more concerned about unemployment than they are about creed, and that is very good. We are living in a day when the problems are tremendous and when the solution of those problems promises to have a far-reaching effect.

"If we study the way of Jesus, we see that we must overcome prejudices of race and class, we must see ourselves and our failures honestly and we must go ahead hopefully. As Masefield has said: 'Not for us are content and quiet and peace of mind, for we go seeking a city we shall never find.'"

Miss Young concluded her discourse with the sentence: "May God deny you peace and give you glory."

The evening concluded with the presentation of a very pretty little pageant of missionary type, entitled "The Blue Bowl," by the C.G.I.T. group from George Street United Church.

The dedicatory prayer was offered by Mrs. Lorne Cunningham of Peterborough. Rev. Dr. McLean pronounced the benediction.

To-night's program includes an address by Miss Effie Jamieson of Toronto, while to-morrow evening has a scheduled address by the Rev. J. H. Arnup, B.A., D.D., a secretary of the Dominion Board, who has recently returned from a trip to China.

# Don't Be Skinny

**Gain pounds of weight in few weeks with new IRONIZED YEAST—a special combination of dried brewer's yeast plus iron—*or pay nothing***

It seems almost unbelievable how fast new Ironized Yeast has added pounds of good firm flesh—on men and women, children and old people. Nervousness, tired feeling changed quick to new strength and pep; constipation, indigestion vanished.

People ask—what is the wonderful power in Ironized Yeast that has transformed sallow, lifeless, blemished complexions into fresh, smooth, lovely skin. No wonder thousands of women pour in letters praising the youthifying effects of Ironized Yeast.

Yet the answer is simple. Ironized Yeast is two tonics in one—special weight-building dried brewer's Yeast and blood-enriching, strengthening Iron. The yeast is the same used in making malt and which makes malt so beneficial. It is specially cultured and concentrated to give the utmost in flesh-producing value. Double-tested for strength, purity and potency. Used by doctors and big hospitals.

To this concentrated dried brewer's Yeast is added three kinds of easily assimilated Iron to quickly make rich, red blood and tone up nerves and muscles. By this special process Ironized Yeast is made more effective than yeast or iron taken separately. Contains no starches, flours or gas-forming fillers. That's why Ironized Yeast works so quickly. Pleasant little tablets — no nasty taste, no gas or bloating. Never spoil, safe for all.

Go to any drug store today, get a full size treatment of Ironized Yeast, and take the little tablets as directed. If after this generous trial you are not delighted with quick results, your money refunded by manufacturer.

If inconvenient to buy from druggist, send $1.25 direct to Canadian Ironized Yeast, Co., Ltd., Box 1323, Montreal, Que., Desk 2104.

## Trent River

The interior of the cheese factory has been thoroughly overhauled and cleaned in preparation for the opening May 1st.

Mr. John Boyd, Jr., left Monday for his home at Sudbury after spending over-Sunday with Mrs. Boyd and little son Jackie who are guests with their uncle, Mr. John Boyd, Sr.

Mr. Will Christie of Toronto, was at his cottage for over the week-end.

A flock of wild geese were seen circling around overhead seemingly undecided which direction to go.

As the result of the campaign conducted by the Goverment of the Dominican Republic large acreages in that country will be sown to rice this year.

# LINDSAY HYDRO GETS GOOD NEWS

**"Thirteenth Bill" Received by Commission is Credit Note for $1,678.94.**

**DEFICIT LAST YEAR.**

LINDSAY, April 29.—At a special meeting of the local Hydro Commission Monday, good news, in the form of a credit note of $1,678.94 from the Ontario Commission, was received. This credit note, the 13th bill, is sent to the various municipal commissions at the end of each year, and is an uncertain thing, for it is not known whether the bill will contain a credit or one showing a deficit.

At the end of the year, the Ontario Hydro Commission balances the cost of supplying the power to the individual commissions, with the amount received in payment for the power.

Last year, the local commission was short $298.82, while this year's credit not of $1,678.94 brings it to almost $2,000 in favor of the commission.

The power bill for the past month amounted to $4,481.96, but the credit note from the commission amounting to $1,678.94, leaves the power bill at $2,803.02 for the month.

# GEORGE FRANKS DIES SUDDENLY

**Life-Long Resident of Emily Township Passes Away While Driving Car.**

**WIFE WAS ALONG**

EAST EMILY, April 19 (Examiner Correspondence)—George C. Franks, a life-long resident of Emily Township, died suddenly yesterday afternoon while returning to his home on the eighth concession of Emily after visiting his son Alvin who resides on the seventh concession.

Mr. Franks was driving the car and his wife accompanied him and while driving along by the farm of Richard Davis, Mrs. Franks noticed the car swerving. She managed to stop the car and ran to Mr. Davis' house for help. Pat McAuliffe, residing across the road from Mr. Davis heard Mrs. Franks calling and he and Mr. Davis reached Mr. Franks almost together, Dr. Earle of Omemee, was called, and he pronounced death due to heart trouble.

The late Mr. Franks, who was a member of St. James' Anglican Church leaves to mourn his loss besides his wife, three daughters, Mrs. Stanley Magee and Mrs. James Davis, of Emily and Jean at home; also two sons, Alvin and Gilbert.

Mr. Franks, who was sixty-one years old, was conscious and spoke to his wife before he passed away.

The funeral will take place tomorrow afternoon at two o'clock from the family residence to Emily cemetery, with the Reverend A. P. Weir officating.

# TRUCK DAMAGED NEAR MILLBROOK

**Vehicle Owned By Leslie Bristow Crashes Into Ditch on Peterborough Highway.**

**OCCUPANTS UNINJURED.**

MILLBROOK, April 29. (Examiner Correspondence).—An accident occurred on Argue's Hill, north of the village, about five o'clock this afternoon as a result of which Leslie Bristow's truck, purchased some two months ago, was badly wrecked and in danger of being destroyed by fire.

The driver, accompanied by Chas. Sanderson, and it is said having also as passengers Floyd McMahon and William Lunn, was on his way from the village toward Peterborough, when he apparently lost control of the truck on the hill and just below the curve it left the road, overturned and righted itself again, finally coming to a halt across the fence, with the engine facing the roadway. Fire broke out but fortunately Clifford Elliott, of Cavanville, an employee in Tinney's garage, came along in time to disconnect the wires before too much headway had been gained by the flames.

The owner and driver, L. Bristow, suffered minor injuries, while C. Sanderson required medical attention from severe cuts in the face, H. C. Argue bringing him to the village where Dr. H. A. Turner gave the necessary treatment.

Provincial Police Kidd, of Cobourg was in the village last night investigating details of the accident.

## WEDDINGS

**HICKSON—McBAIN.**

OMEMEE, April 29. — (Examiner Correspondence.)—A quiet but pretty wedding was solemnized at the United church parsonage, Stirling, April 14th, by the Rev. E. Rowland, when Martha Violet McBain, only daughter of Mr. and Mrs. F. A. McBain, Omemee, was united in the holy bonds of matrimony to Vincent Cameron Hickson, only son of Mr. and Mrs. David Hickson, Mt. Horeb. The happy couple left by motor for points west and on their return will reside at Mt. Horeb.

Don't miss "Dracula" at the Regent Theatre on Wednesday, Thursday and Friday of this week. The Examiner Cheer Fund gets twenty-five per cent. of the receipts for relief work.

# BLACK PICTURE

(Continued from Page 1)

Mr. Bennett had charged Opposition members with exaggerating conditions but this was almost impossible.

Opposition members with one breath were holding the West up as bankrupt and with another were demanding more credit from the banks, said Mr. Bennett. How much credit could a man secure if his neighbors went to the banks and said he was broke? he asked.

The West was not bankrupt, however. The same people were there as in the days of prosperity and they had the same courage. The only difficulty was the Opposition members were smarting under their defeat. When challenged about gloom in his own campaign speeches, Mr. Bennett said he had never made a speech in which he did not stress his faith in the greatness of Canada. Another member reminded him he had said he would cure all difficulties.

If given my health, my strength and a term of office I will, he replied.

**Remembrance Day.**

After a brief debate in private members' hour last night the House endorsed a Bill to change the name of Armistice Day to Remembrance Day and have it celebrated each year on November 11. At present it is celebrated on the Monday of the week in which November 11 falls jointly with Thanksgiving Day. The date of Thanksgiving Day will be fixed as it was some years ago by the Government.

The vexed question of whether a member of the House is obliged to vote on all questions received a thorough airing when Henri Bourassa (Ind., Labelle) presented his motion to change the rules. The motion arose out of an incident last week when a number of Independents declined to vote on a motion and were threatened with the discipline of the House.

Out of the discussion arose a suggestion from Right Hon W. L. Mackenzie King, leader of the Opposition, that the whole system of registering votes be changed by the adoption of the arrangement used in the British House of Commons. Under that system the vote is counted by the members going out into Opposition and Government lobbies. Here the name of each member is called as he rises in his place to register his vote. No action was taken as debate was adjourned for further consideration.

# BENNETT DENIES

(Continued from Page 1)

ment to make provisions for paying old-age pensions this year on the same basis as it has in the past.

Mr. Beaubien—In view of the fact that the Province of Manitoba in its Budget has made no provision to pay old-age pensions this year, will the Prime Minister tell us whether he intends to introduce old-age pensions legislation and pay 95 per cent., as I understand it was promised the three Prairie Provinces during the conference last fall

Premier Bennett — (1) No such promise was made. (2) This Government is not responsible for the conduct of the business of the Government of Manitoba.

Mr. Beaubien—Was this wire sent—Mr. Bennett—That is all I propose to say.

Mr. Beaubien—Thank you.

Hon. Ernest Lapointe—Do I understand my right honorable friend to say no promises were made?

Premier Bennett—I said no such promise.

Mr. Lapointe —No such promises were made?

Premier Bennett — No; no such promise was made.

**IVANHOE**

Mr. John Craig of Toronto called on friends here on Sunday.

We are sorry to learn that Miss Myrtle Reid, teacher on the fourth line of Ranton has contracted scarlet fever.

The many friends of Mrs. H. Henderson will be glad to learn that she is progressing favorably after her recent operation in Belleville Hospital.

Mr. Henry Elliott sold his house and lot to Mr. Cecil Lockhart. Mr. Lockhart intends going into the garage business.

A GENERAL utility farm explosive with an average of 150 sticks to the case—twenty more sticks than other farm dynamites.

This powerful explosive will break stick for stick with any farm dynamite you have ever used. It is made in Canada to meet Canadian conditions.

You can blast with it in either dry or wet ground and it works efficiently in winter weather.

Blastol makes land clearing easy and practical. It turns a two or three man job into one man's work. Its cost is very low compared with the extra money it will make your farm earn.

The new Blastol booklet tells how to use explosives on the farm in the best and most economical way. It is yours for the asking. Just drop us a post card with your name and address for your copy. Address Department "A".

# SPECIAL KELVINATOR OFFER

ANY MODEL KELVINATOR INSTALLED IN YOUR HOME

FOR $10 DOWN

MONTHLY PAYMENTS AS LOW AS $9 DEPENDING ON THE MODEL YOU CHOOSE

HERE'S the opportunity to realize your ambition of having an Electric Refrigerator in your home—to have it right away, with monthly payments so small you'll never notice them.

This is our offer:

For a cash payment of only TEN DOLLARS, we will install any one of the many Kelvinator models in your home. The balance to be paid in small payments which in some cases (depending upon the price of the model you select) will be as low as NINE DOLLARS A MONTH!

To fully appreciate this offer you must consider too, that each model carries on Kelvinator's remarkable record—in 17 years not one Kelvinator has ever worn out!

Think what this offer means to you! For ten dollars down you can have installed in your home immediately, one of the Kelvinator standard or deluxe models—at a time when you need electric refrigeration most—at a time when the preservation of food is a problem—when dainty salads, iced drinks and frozen desserts should form a major part of your diet, and will be so necessary a convenience for successful entertaining.

Visit your nearest Kelvinator dealer today—see the models on display—ask about the Kelvin Crisper, the Flexo-Rubber ice trays, the Iso-Thermic Tubes (which give the world's fastest freezing automatically), the Frost Chest, the 4-way cold—examine the many other features—then take advantage of our remarkable small down payment offer right away.

MADE IN CANADA — Kelvinators range from $215 up. f.o.b. factory, and are made in Canada by Kelvinator of Canada Limited, London, Ont.

# PHILATELIST TELLS SOME NEW TALES OF THE ROYAL FAMILY

### Charles J. Phillips Recalls Intimate Incidents at Buckingham Palace.

### SPEAKS AT HAMILTON.

HAMILTON, Ont., April 29 (By The Canadian Press).—Intimate and interesting stories of members of the Royal Family, from Queen Victoria to the Prince of Wales, were given to the St. George's Society of Hamilton the other night by Charles J. Phillips, of New York. Mr. Phillips added a great many new stories to the large collection of stories of Royalty, for as one of the philatelists in the world he had been in close touch with Queen Victoria, King Edward, King George and Queen Mary, the Prince of Wales and his brothers. For 32 years, from 1890 to 1922, he was chairman of the largest stamp business in the world, located in London and during most of that time was royal philatelist to their Majesties.

Of peculiar interest to the Dominion was Mr. Phillips' account of a gentleman walking into his stamp shop in London and offering a perfect copy of the rare Canada 12-pence stamp of 1851, now valued at $2,000. The purchase was concluded—and then he learned the seller was the Marquis of Lorne, who had obtained this and several similar stamps while he was governor-general of Canada from 1878 to 1883.

Mr. Phillips' address was of rare value because it dealt throughout with personal contact with royalty. He spoke of Queen Victoria however as one who had not met her personally. He told of the general belief the Queen was quite angry when she saw the special "Mafeking Besieged" stamps issued in 1900 by authority of General Baden-Powell. One of the stamps showed a despatch rider; another a bust of General Baden-Powell. Mr. Phillips recalled the report the Queen said that up to that time her own portrait and that of her family were considered correct on all the stamps of her dominions, and the incident probably mitigated against any further honors that the General would otherwise have received.

Mr. Phillips told of King Edward inspecting the erection of a large marquee at Buckingham Palace. He threw a half-smoked cigar down and then found several of the workmen quarrelling over who should have it: "Disdraceful, go on with your work," he said. Afterwards he sent down a box of his special cigars, one for each workmen.

Of King George, Mr. Phillips had recollection of a particular incident which, he said, "impressed me more than anything else in my life as to the immense amount of work undertaken by our Royal Family." He was inspecting an offer of stamps made to the King, and was seated in a corner of the King's room when a delegation was announced. The date was some time in November, 25 years ago. The deputation wanted His Majesty to officiate at the 50th anniversary of the founding of the Young Men's Christian Association, the following May. The King turned to Major-General de Winton, his private secretary, and was informed that he was fully booked up for that week—six months ahead.

King George of course is well known as a keen stamp collector. Mr. Phillips was his philatelist from 1910 to 1922 and met His Majesty many times. "He is a charming host and quickly puts one at his ease," Mr. Phillips went on. "We sat and talked together just as any two collectors do when they foregather."

The Canadian Government has on two occasions presented His Majesty with albums containing special issues of the Dominion, Mr. Phillips remarked, while important additions to the royal collection came from many other parts of the Empire. Foreign stamps are not included.

The Prince of Wales was a stamp collector until he went to College and Mr. Phillips related that while he was a youth, the Prince and his tutor came to see him about stamp collecting. He suggested the Prince should collect issues of Prince Edward Island and the Prince agreed. Mr. Phillips gave him an unused set to start with. But the next day the tutor returned with the news that he had got "in an awful row" at the Palace, when the King heard that the magnificent set had been a presen . "You may be sure that since that time, about 25 years ago, I have never offered any present to any member of our Royal Family," Mr. Phillips concluded. "The unwritten rules and regulations of Royalty must be respected by all loyal subjects."

## *Westerner Arrested For Stabbing His Wife*

YORKTON, Sask., April 29. — (C. P.)—Fred Schrader appeared in court Tuesday charged with attacking his wife with a knife and then hopping into a 40-foot well in an attempt to commit suicide. Schrader, police testified, was found uninjured in four feet of water at the bottom of the well.

The accused, it was declared, refused to allow his wife to visit a neighbor. An argument developed and it is alleged Schrader then attacked his wife with a knife. His mother and children intervened and he ran from the house and hopped into the well. Schrader will appear at the next session of the court of King's Bench to face charges of attempting to maim and attempted suicide.

# CLUB MEMBERS ENJOY BANQUET

### Cast of Play Are Guests of Honor at Jolly Gathering.

### MUSICAL PROGRAM.

A splendid banquet was enjoyed last night in St. James' Sunday School Hall when the Cognawaga Club entertained the members of their play cast.

William Laren, in his usual pleasing manner, presided as chairman for the splendid program presented. With Jack Cuff as pianist and Elmer cLaren, song leader, the music went forward with a swing, taking everyone into the spirit of the affair from the beginning.

The toast to the King was proposed by the chairman and met with the usual loyal response, "God Save The King." D. Davis, in his toast to the Church and the Sunday School, spoke of the vast influence this church life holds over the youth of to-day; and of the debt they owe to both the Church and school. On behalf of the church, Rev. A. E. Moorhouse, the pastor, responded, while A. E. Prest, superintendent of the Sunday school, replied acknowledging the toast. Fred Cripps proposed the toast to the Cognawaga Club, which has come to hold a definite and proud place both in St. James' Church and in the sports of the city and community. The president of the club, William Prest, responded in a fitting manner.

The toast to the ladies was in the capable hands of Al. Davis, who quite did the subject justice. Mr. William Prest, on behalf of the ladies, replied. A hearty vote of thanks was tendered the play cast, the convenor and the committee by Frank Kunst, and seconded by A. Rooke. Art Vannest, the convenor of the play responded.

An unusually fine musical program was provided by the club including a group of violin solos, "Mazurka" and "Mighty Lak a Rose" by Cecil Searles. A sextette, "Sweet Adeline," brought down the house in applause. In this number, Fred Cripps, Sherman Rowe, Elmer McLaren, Clifford Heal, J. Brandt and Jim Field excelled themselves. The vocal solo, "Heartache," by Oscar Sloane, was also a favorite. One of the most enjoyed numbers of the evening was "the movies," the contribution of Fred Cripps. These pictures featured "Jack Miner's Sanctuary," "A Trip Through the Holy Land," and "The Cogs in Action" at Bethany, May 24th, 1930.

In a brief and pithy address Ken. Sloan spoke on "Service." He maintained that life is a business and that any service rendered to the church or to our fellowmen on the walk through life brings its own reward. As manager of the Tip Top Tailors, Mr. Sloan expressed the hope that the cup, given annually to the East Peterborough League by his firm, might be won by the Cogs of St. James'. This cup went last year to the C.G.E.

William Prest, the president, voiced a vote of thanks to the social committee of the club and to all who contributed to the success of the evening; especially to Jack Cuff for his efficient service as pianist and to Fred Cripps for providing the splendid pictures.

A vote of thanks was also tendered by J. Field to the ladies, who so bountifully provided the sumptuous repast and for their attentive service at tables. This vote was seconded by John Wilson and heartily endorsed by the assembly.

Rev. Mr Moorhouse pronounced the benediction, bringing to a conclusion the final gesture of another successful year for the Cognawaga Club.

### FIRST ST. JOHN'S TROOP

The weekly meeting of the 1st St. John's Troop took place in the Parish Hall with the Assistant Scoutmaster in charge. After the usual opening and patrol inspection the boys were sent to their various patrol corners for 'Patrol in Council" and instruction work.

Later in the evening Mr. Tompkins of the St. John's Ambulance Corps took instruction in first aid. Mr. Tompkins has asked the boys to come prepared with a triangular bandage for next week.

After the first aid demonstration which proved very interesting, the A.S.M. lead in a short recreational period.

The camp-fire period was dispensed with. However before dismissing the boys the Scouter congratulated them on the success of the father and son banquet and anticipated an "open night" to be held towards the last of May.

"The leaders and boys of the troop wish to thank all who helped make their father and son banquet so successful". This was the general opinion expressed about the troop room last Friday.

The meeting closed in the usual way.

AUTOMOBILES

THE "two car size" family can economically join the "Two car OWNERS" group by selecting a Used Car from among the many surprising value offered each day in The Examiner Want-Ad columns . . . The "one car family" may also fulfil that desire for automobile ownership.

## *Soviet Lumber Is Refused Entry*

ABOVE is shown the Finnish ship Anversoise off Providence, R.I., with a cargo of four million feet of Soviet lumber. The ship rides at anchor awaiting word from the United States treasury department who recently decreed an embargo against importation of products of convict labor. It's now up to the shipper to prove that the lumber was not produced by convict labor.

## HOME COOKING SLUMPS

MARGARET E. BATEMAN,
Sales representative of Standard Brands Limited, Montreal, in address to employees of Stocks, Limited, last night, said the modern small apartment is discouraging domestic cooking and expanding the demand for the complete lines of the modern bakery.

# BAKERY PRODUCTS ARE BECOMING MORE POPULAR WITH HOUSEWIFE

### "Outside Interests Have Taken Housewife Away From Kitchen," Says Miss M. E. Bateman.

### SEVERAL VARIETIES

"Small apartments where cooking facilities are limited have killed the urge of baking" said Miss Margaret E. Bateman, representative with the Standard Brands Limited (Fleischman Products) who is in the city all this week in connection with a nation wide sales promotion program being sponsored by that company.

Interviewed today, Miss Bateman said "The days of home-baking are almost over. If the public could look behind the scenes, and see the high-grade flour, sugar, malt, eggs, butter, milk, fruits, and spices that a baker uses in his products, they would be easily convinced that bakers are turning out as good foods, as can be produced by the housewife in her own kitchen". Women to-day, do not want to make at home. A good many of them live in small apartments, where cooking facilities are limited, and then too, modern women have so many interests such as golf, and bridge, church and club activities, that they have little time to spend in their ktichens—nor do they want to spend time over a hot stove, when they can depend on their baker to the extent they do.

**Several Varieties**

"Modern Bakeries are as clean and spotless, as the modern kitchen. The greatest care is taken in turning out goods that are well-made and well-finished. Selling methods are improving daily, and the varieties now offered, make choice an easy matter." Miss Bateman illustrated the increase in sales of bakery products. "In 1918 our Company made a survey which showed that 40% of all bread consumed, was made in the bakeshops, and 60% in the homes. At the present time, only 6% is being made in the home. But with sweet goods, we find a different story. In 1926, another survey, showed us that 81% of sweet goods, was still being made in the homes, while only 19% was made by the bakers. We are trying to show the bakers that he can get a share of this market, by appealing to the housewife through quality and variety in his products."

"If the baker is going to attract the housewife, he must keep his products on a par with those made in the home. He must cater to the woman who is particular in her home, and who likes to serve dainty dishes on her table."

"Salesmen as well as salesgirls, are being trained, to serve their customers efficiently and intelligently, and up-to-date sales-girl is not merely a parcel-wrapper, she is helping her customer to plan her menus, and to find just what will be most suitable ods used, in teaching salesmanship. "Cleanliness, personally, and in the shop, is absolutely essential. A courteous, manner, and a cheerful personality, are also most important, and an efficient salesgirl, is a real hostess in her store."

Miss Bateman received a very favourable impression of the quality and variety of bakery products being offered in Peterborough, and states that in her opinion, the bakers here are progressive, and anxious to give their customers everything possible, in the way of quality, and variety, and service.

# APRIL CONTRACTS ARE BELOW AVERAGE

### Dearth of Major Awards Responsible, Says MacLean Building Reports, Ltd.

Construction contracts awarded in Canada during April amounted in value to $22,707,500, say MacLean Building Reports Ltd. This brings the awards for the year to date up to $96,248,500. Of this amount over $52,000,000 relates to building construction, the remainder to engineering work. Awards for this year to the end of April are down 30% from the same period of 1930.

Proposed work, included in the contemplated figures indicates that so far close to $205,000,000 of work is planned for 1931. The amount for buildings only is $117,000,000.

Contracts for residential accounted for 36% of the April contracts awarded figures for all Canada and had an estimated value of $8,171,000. Engineering work took care of 34.1% or $7,731,500. Contracts for new business buildings amounted to $5,368,200 which was 23.6% while industrial amounted to $1,436,800 or 6.3%.

The April awards were largely in the Province of Ontario which shows $8,448,700 worth or 37.2% of the Dominion total. 31% is credited to Quebec where $7,035,300 worth of new work was awarded. Prairie Provinces shared to the extent of $4,403,400 or 19.4%; British Columbia, $1,993,000 or 8.8% and the Maratime Provinces $827,100 or 3.6%.

During the first four months of the year, 38.5% of all contracts throughout Canada has related to work in the Province of Ontario, the total being $37,028,000. $33,656,300 worth of new work has been awarded in the Province of Quebec or 35%. The Prairie Provinces accounted for $12,236,100 or 12.7%. British Columbia 9.6% or $9,227,700 and the Maratime Provinces $4,100,400 or 4.2%.

By groups, engineering work for the four months has amounted to $43,951,100 or 45.7% of all construction. Business buildings show $26,829,000 or 27.9% while residential took care of 22.2% or $21,384,900 and industrial $4,083,500 or 4.2%.

### BLACK FACE POWDER BOOMS

Manufacture of cosmetics for native in West Africa is having a boom in London, for flappers of the jungle are trying to keep up with the outside world in beautifying. The face powder is black and is made of finely ground charcoal. The dressing for the hair has an eye-watering pungency.

# NEW TARIFF POLICY

(Continued from Page 1)

ently advocated adherence to the policy of reasonable protection. Changes in the customs tariff of distinct advantage to Canadian industry were made in the emergency session of Parliament in September. These changes paved the way for increased employment and some lines of industry have shown marked improvement notably the textile industry, a matter of considerable interest to the City of Peterborough and other industrial centres in this Province

**Unemployment.**

"While some lines of manufacture are indicating fair results, it cannot be said that industrial conditions are satisfactory as long as we have unemployed workers, and idle producing capacity, but the announced tariff policy of the Government and the provision for unemployment relief have had a stimulating result. Had it not been for this action there is no doubt that conditions would have been worse than they are.

The situation which has confronted us during the past eighteen months has made it necessary for us all to search for ways and means of keeping our organizations in operation and many industries have kept their people employed, while passing dividends, and in some cases impairing capital, but from this situation new lines of manufacture have emerged and goods formerly imported will henceforth be produced by our own workmen. Tariff changes and prospective Empire preferences have induced many new industries to locate in Canada, and it is, therefore, reasonable to expect that the time is not far off when our workers and our productive capacity will be more fully employed.

**"Wages Not Reduced."**

"Notwithstanding the fact that many workers have been unemployed, others have been working part time, and some salaries have been reduced, there has been no disposition to reduce wages. It is to be hoped that we will emerge from this depression with no impairment to the standard of living which modern industrial practice has developed on this continent.

I wish to take this opportunity of commending the Government for its prompt action in initiating provision for unemployment relief and to express similar commendation of the action taken by Provincial and municipal Governments in co-operating so splendidly in this work. The total value of work and relief provided for up to the end of February was in excess of $68,000,000. It will take some time to complete the works for which appropriations have been made, but up to the end of February 3,975,355 days' work were provided for 228,351 people."

**Sixtieth Anniversary**

"Our association will celebrate its sixtieth anniversary this year," Mr. Kerr said.

The members of the association and firms eligible for membership are responsible for over 80% of the industrial output of Canada. There are very few large manufacturers who are not members. Membership is regarded as a necessity by every well-organized manufacturing business. We each pay our part of the expense without question or without hesitation. We support it because through long years of experience the manufacturers in this country from coast to coast have built for themselves an institution subject at all times to the direction of its members, responsive to their needs, enjoying their complete confidence, rendering invaluable individual service.

We produce in Canada close to $4,000,000,000 worth of goods. As a charge upon production our association costs about one 150th of 1%.

**Produced in Canada**

The association came into being when Canada consisted of five provinces, all east of the Great Lakes. The bulk of the people were engaged in agriculture. Industry was localized, serving a comparatively small portion of the needs of the Canadian people in manufactured goods. The United States, step by step, were closing their market to us and it therefore became necessary to think in terms of the development of our own industry, so that we might supply our own industrial needs and provide home markets for soil production, or in other words, we set in operation that which is now known as the "Produced in Canada" policy. In the sixty years of our history there has been steady and consistent adherence to this policy in the territory east of the Great Lakes. Within that period our Western plains have been opened up for agricultural settlement providing splendid opportunities for the production of grain and the raising of cattle, a large part of this production finding an outlet in the United States. But here history has repeated itself and step by step we have seen barriers raised against the export of our Western production to the South.

Manufacturing industry has followed agriculture in Western development and as these two factors in production depend so much upon each other, the Western provinces, like the older provinces, have became adherents to the "Produced in Canada" policy.

Because we had a co-ordinated industrial structure firmly rooted in all the provinces of Canada, manufacturers have not been divided in their views, and have at all times sought to work harmoniously with those representing other interests in promoting the use of our own products, and the development of our own resources."

**Workmen's Compensation.**

A comprehensive report by the Executive Committee covered a number of interesting topics. The following reference touched upon the Workmen's Compensation enquiry by the Ontario Government:

The Ontario Government having appointed a Royal Commission to enquire into the working of the Workmen's Compensation Act, the Industrial Relations Committee on behalf of Ontario members appointed a special committee to take such steps as they might consider necessary to present the employers' views to the Commission.

Those appearing on behalf of organized labor requested, amongst other things, that—

1. The scale of compensation be increased from 66 2-3 per cent. to 75 per cent.
2. An increase in the wage base from $2,000 to $2,500.
3. An increase in minimum weekly benefits from $12.50 to $15.00.
4. That all such increases be retroactive, having regard to future payments of awards already made.

The representatives of your association submitted in opposition—

(a) That the present Ontario scale is the most liberal in the world.

(b) That the proposed increases would require an immediate capital outlay of over $6,000,000 and an annual increase of $1,400,000 in compensation awards.

(c) That it would be inequitable to increase the special privilege now enjoyed by favored classes of workers, at the expense of other classes not covered by the Act (e.g., the farming community), because these costs are borne in the cost of goods.

(d) That the present scale of compensation is in reality in excess of 90 per cent. of average earnings, because in addition to the 66 2-3 per cent. of wages employers pay hospital charges, doctors' charges and 4½ per cent. of the benefits awarded for administration cost.

The committee in charge of this case made an exhaustive study of all the relevant facts. The report of the Commission is being awaited with great interest.

**Technical Education.**

The Association, as members are aware, has taken a leading part in the promotion of vocational training. It is interesting to note that vocational schools have been established in thirty-nine municipalities in Ontario with an attendance of about 25,000 day pupils and 42,000 at night classes. These figures may be compared with an attendance of about 60,000 at high schools. In Toronto about half the secondary school population is being vocationally trained. During the past twenty years manufacturers in Toronto have provided scholarships and prizes to the value of about $35,000 for one thousand pupils in the technical schools who have qualified for these awards. In the City of Hamilton, through the association's branch, a number of scholarships are provided annually for students who qualify for them."

### FRANCE TO CHANGE AUTO TAX

France is considering substituting a surtax of nearly five cents a gallon on gasoline for the present unpopular horse-power tax on automobiles. The new tax is expected to give approximately the same revenue to the government as the old, which is about $30,000,000 a year.

# JAMES RETTIE WILL GRADE HERDS OF HOLSTEIN CATTLE IN DISTRICT

### Additional Application Expected Before Grading Starts This Week.

### SELECTIVE REGISTRATION

In the two weeks that have elapsed since the annual meeting of the Peterborough County Holstein Breeders' Association more than ten herds of cattle have been listed with the secretary, Charles E. Moore, to be graded for selective registration, and additional applications are expected.

It is likely that grading will be started about April 30 by James Rettie, chief inspector. He has been one of the most successful breeders of Holsteins in Canada, and has frequently been a very satisfactory judge at the largest Canadian shows. The work which Mr. Rettie will do for the breeders in this county should be of immediate and lasting benefit to the dairy industry.

This inspection ensures practically show ring grading on the farm without the usual preparations for the show ring being taken into account. If a cow is thin and out of condition it will not be detrimental to her grading. The object of this work is to show the breeder the class of cow that can be reasonably expected to reproduce animals of the highest type.

**The Cow Grades.**

The cow grades are six in number, and are determined on the official scale of points for the breed. They are:

Gold medal—85 points and over.
Excellent—75 points to 85.
Extra—65 points to 75.
Good—57½ points to 65.
Fair—50 points to 57½.
Poor—Under 50 points.

**Cost of Inspection.**

The cost to the breeder is 50 cents for each cow inspected, and 50 cents for each certificate. The department of advanced registration of bulls comprises three classes—Class x, class xx, and extra.

Class x—(a) The bull must be from a record dam; (b) his sire must be at least by a qualified sire or out of a record dam; (c) after two years, his dam and daughters (if any) shall be inspected; if the dam is not available, evidence satisfactory to the Association must be accepted; (d) he must score at least 75 per cent in each of the main divisions of the scale of points; (2) he must not be under eight months of age at the time of inspection.

Class xx—(a) The bull must be from a cow with a record of 33 1-3 per cent above the standard for qualification; (b) his sire must be a qualified bull or an extra bull; (c) his dam and daughter (if any) shall be inspected; if the dam is not available, evidence satisfactory to the association must be accepted; (d) he must score at least 85 per cent in each of the main divisions of the scale of points; (e) he must not be under eight months of age at the time of inspection; (f) if a bull is under twenty months at the time of inspection certificate of class xx standing shall be withheld, and he shall be re-inspected at the expense of the association at that age, and certificate granted, providing he meets the prescribed requirements; until such time he shall carry class x standing only.

Class "extra"—To be eligible for registration in this class a bull must be at least an "x" bull, and he must have at least 60 per cent of his daughters, available for inspection, graded as "excellent" in the department of advanced registration for females, with a minimum often. The inspection fee for a bull when the females are not also inspected shall be two dollars. When inspected at the same time as the female the fee is 50 cents for inspection and 50 cents for the certificate, if granted.

## Oddfellows Attend Sunday Church Service

On Sunday last, Peterborough Lodge No. 111 and Otonabee Lodge No. 13, of the I.O.O.F. celebrated their 112th anniversary. Close to two hundred members marched in a body from the Lodge Hall, Sunday evening, to St. Andrew's church. They were headed by the Salvation Army band.

Reverend Dr. McLean conducted church services, and the subject of his address was "The city built on a hill". He was pleased to see such a fine turnout, despite the inclement weather, and he touched upon the long and honorable existence of this Order, and its steady growth. The church choir offered special music for the occasion, and the ceremony was very impressive.

Col. Miller, who has been Marshal for many years, again filled that position at the Sunday celebration.

Scotland recently observed the centenary of the Scotsman, William Symington, the first man to make a steamboat there.

ROY W. HOWARD

*Chairman of the Board*
**Scripps-Howard Newspapers**

● "The twenty-five Scripps-Howard newspapers are members of the Audit Bureau of Circulations because of their high regard for the Bureau's integrity and efficiency. The A. B. C. has provided the advertiser and his agent with the yardstick for intelligent buying of advertising space. The almost all inclusive membership in the Bureau is a tribute to the high standards of honesty prevailing in the publishing business."

ADOLPH S. OCHS

*Publisher*
**The New York Times**

● "The ABC of circulation is good—essential—as far as it goes; but there are twenty-three more letters in the alphabet of advertising, and knowledge of their application is also essential for the intelligent use of A. B. C. reports. 'All is not gold that glisteneth.' A printing press and a sheet of paper are not all that is necessary to make a newspaper, nor is the number of circulated copies the only information necessary to measure the value of newspaper space."

As one of the leaders in American journalism puts it, "—nor is the number of circulated copies the only information necessary to measure the value of newspaper space."

An A. B. C. report is full of other information quite as important to the advertiser as the number of copies of the publication distributed. Men whose business it is to buy space should read every page of an A. B. C. report, for therein they will find answers to every question an advertiser wants answered. Only thus can they judge whether or not the publication will meet the requirements demanded.

Advertisers, publishers and agencies are working to give the advertiser—for whom the service is planned—this only complete, accurate knowledge about a publication's circulation. The maintenance of the organization which makes these facts available is vital to every advertiser. To help support it costs each an insignificant sum as compared with what it saves each advertiser yearly.

Those publishers who have given freely verified circulation information should be encouraged to continue this most valuable contribution to advertising.

The advertisers in the United States and Canada, having profited by this action on the part of publishers, should give their support to the A. B. C. by becoming members and taking an active interest in its work.

Complete information regarding membership may be had upon request.

HELP EMPLOYMENT! BUILD PROSPERITY!

# CLEAN-UP PAINT-UP

PROCLAMATION

In the interests of a cleaner, brighter, more attractive Peterborough, it appears to be advisable for all citizens to unite in making a thorough job of city cleaning—Numbers arouse enthusiasm, and if we all go at it in earnest we are going to make a wonderful change for the better. I therefore declare the first week of May,

**Friday, May 1st to Saturday May 9th, to be Clean-Up Week for the City of Peterborough**

Everybody is urged to make a special effort to clean-up their own yards, and grounds, paint where at all possible, and prepare to ornament the place with flowers, shrubs, baskets and boxes, and make each home a part in a general transformation. Help the unemployed to as great an extent as can be afforded by using some one who is out of work at the present time.

Water Street, Opp. Market Square

YOU CAN HELP MEN TO GET WORK! WILL YOU?

Business as usual around the homes and gardens of Peterborough this season is the substance of Mayor Denne's appeal to the citizens, which is published elsewhere on this page.

Flowers will bloom, trees and shrubs will unfold their leaves, and the grass is already green and ready for the first cutting. Beauty is to be evoked again as the summer setting of Peterborough's homes and parks, repaying us a thousandfold, not perhaps with the profits of dollars and cents, but with the aesthetic imponderables that bring rest and joy to the spirit, color, fragrance, the innocence of the violets and pansies, the freshness of the morning glories, the unmatchable perfection of roses.

Mayor Denne's message emphasizes the practical phase of home adornment and maintenance. Wood must be repainted for its preservation. "Save the surface and you save all." That is an obvious economy. Repairs should be made to remedy the wear and tear of time.

There is practical profit to the property owner in all these seasonal renewals and renovations, but this year a pressing urgeney of employment should bestir the citizens to special endeavour and expense in the work which they need done and can thereby create.

Mayor Denne deserves the generous co-operation of every citizen who can assist him and the community. By our own initiative we can help ourselves to a very considerable extent; but the success of the Mayor's broad program rests with the individual citizen.

If you have work for painters, carpenters, laborers you can respond to Mayor Denne's appeal, and the Mayor speaks on behalf of the whole body of citizens by calling upon or telephoning to Hugh Robertson, 179½ Charlotte street, the Ontario Government's Employment Service office.

The truth that he gives twice who gives quickly applies to work which becomes doubly effective if it is begun at once. If you can afford it, there is no reason for putting it off. What gain can come from waiting? Many men are looking for work, for a chance to help themselves. Think of the human aspect of it when you have a job that needs doing. You will help yourself, and you will help others and the whole community.

That is the pith of Mayor Denne's spring message.

# MYSTERIOUS JOKER CLAUSES SLIP INTO HALIFAX CHARTER

### One Forbids Mayor From Signing Cheques—Also Change Qualifications

### AND NO ONE KNOWS.

(Special to The Examiner—Copyright, 1931)

HALIFAX, N.S., April 29—With the smoke and dust of a civic election just around the corner, and a rough and stormy session of the local Legislature just over, Halifax citizens are wondering who on earth slipped two short but very potent clauses in the amendment to the City Charter passed by the Legislature in the session just concluded. City Hall officials and members of the Legislature alike deny any knowledge of the "joker" clauses, and the question of "who slipped one over on city officials and the legislature alike?" is rapidly assuming the important proportions which the classic question "who threw the overalls in Mrs. Murphy's chowder?" had a generation or two ago.

One of the joker clauses concerns the qualifications necessary to be mayor of the city. The City Charter, as recently drawn up, provided that a person, to be eligible for mayor, should, besides other usual qualifications, be worth "the sum of three thousand dollars over and above his just debts and liabilities." But somebody, with or without malice aforethought, slipped among the papers which contained the draft of the charter, a little typewriten slip reading as follows: "Paragraph 3 of Clause D of Section 14 of the City Charter is repealed." And repealed it was, and overboard went the three thousand dollar qualification.

**Can't Sign Cheques**

As if that wasn't enough, a few days later, His Worship, the mayor, L. A. Gastonguay, discovered that according to the 1931 amendments, his power of signing cheques for the city had been taken away from him by the same mysterious process, and that his name at the bottom of a City of Halifax cheque wasn't any better than anybody's, and not nearly as good as the City Treasurer's.

Then the storm signals went up, and members of the City Council were called before the official desk; but to no avail, however, for each and every one of them strenuously denied all knowledge of either of the "joker" clauses. Next the City solicitor went "on the carpet," but he too denied that he knew anything about it. The next step was to find from the Legislature's Committee on Local and Private Bills if they had any knowledge of the matter. The chairman of this Committee, Hon. G. C. Nowlan, said that he remembered the bill distinctly, and stated that when the bill was referred to the whole House, neither of the clauses appeared in it.

**And so the matter stands; but the wrath of the Mayor and the Council is by no means appeased, and the question of who slipped the joker in the deck is an exceedingly live one in Halifax.**

## Free Trade Scored By Chamberlain

LONDON, April 29 (C.P.)—Rt. Hon. Neville Chamberlain, Conservative spokesman, participating in the budget debate in the House of Commons to-day declared the budget brought down yesterday by Rt. Hon. Philip Snowden, Chancellor of the Exchequer, "with its sham optimism and makeshift expedients shows the total inadequacy of Free Trade of meet a modern problem."

Mr. Chamberlain reiterated his belief that a tariff is necessary for revenue purposes and as a stimulus to home industry.

A previous speaker, Sir Donald MacLean, contrasted conditions in Great Britain with those in the United States, "where the budget deficit reaches $750,000,000." Arguing for Free Trade against Protection, Sir Donald declared: "There is no breadline in this country nor is there organized apple selling to help feed the children. This is, after all, an emergency budget, and I prefer an emergency budget to an emergency tariff."

**Don't miss "Dracula" at the Regent Theatre on Wednesday, Thursday and Friday of this week. The Examiner Cheer Fund gets twenty-five per cent. of the receipts for relief work.**

## TRIAL CONTINUES OVER SMUGGLING

### Expect Case of Four Implicated at Buffalo Will Go to Jury Late To-day.

### RAILWAY CARS RE-ROUTED.

BUFFALO, N.Y., April 29. — Two former Government officers and two former railroad clerks to-day heard themselves described alternately as conspirators against the laws of their country and as innocent victims of a knowledge which they had not sought.

The fourth week of the trial of the four men, charged with conspiracy to smuggle liquor, opened to-day with the defense summation after which the prosecution reviewed its evidence. The case was expected to go to the jury later in the day. Those on trial are Charles F. H. Dreher, former chief Immigration Inspector at Black Rock; Lawrence E. Roehm, former Customs Inspector; Arthur E. Sharpe and Thomas E. Gannon, former railroad clerks.

The prosecution contends that, with the connivance of Dreher and Roehm, liquor-laden freight cars were slipped across the international boundary here, billed as scrap rubber destined for well-known rubber companies in Akron, Ohio. It is also charged that once across the line, these cars were re-routed by the railroad clerks.

2 O'CLOCK SPECIAL THURSDAY
Quaker Corn Flakes, Pkg. 7c
(Limit of 6 to a Customer)
—EATON Groceteria.

THE CANADIAN DEPARTMENT STORES LIMITED

# WOULD LIFT BAN AGAINST DIVORCE IN U. S. CHURCH

### Episcopal Church To Be Asked To Change Marriage Laws.

### REPORT COMPLETED

### Bishop Page of Detroit Announces Result of Recent Survey.

DETROIT, April 29—Revolutionary change in marriage and divorce laws of the Episcopal Church is proposed in a report made public Sunday by Rt. Rev. Herman Page, bishop of the Episcopal diocese of Michigan and chairman of a commission of distinguished clergymen and laymen appointed by the general convention of the church in New Orleans in 1925.

**The Major Changes**

The major changes will be submitted for consideration by the fiftieth general convention of the church in Denver, September 16.

They are as follows:

1. Removal from the laws of the church of all grounds for divorce, including adultery, and inclusion in a new canon of nine grounds for nullification of marriage.
2. Permission to priests of the church to marry persons who have been divorced, whatever the cause.
3. Creation of an ecclesiastical marital court to pass upon the right of such persons to contract a second marriage.
4. Provision that where such marriages are approved by the marital court, the ceremony shall not be performed in the church, nor shall the approved service in the book of common prayer be used.
5. Public and private instruction on the nature of Christian marriage is made compulsory. Without such instruction, together with a written pledge signed by the contracting parties to conform to the doctrine of the church regarding marriage, solemnization of the marriage by a priest of the church is inhibited.

**Grounds for Nullification**

Section deals with the nullification of marriages, which is authorized on the following nine grounds:

Lack of free consent.

Failure of either party to have reached the age of puberty.

Impotence of either party.

Mental deficiency of either party, sufficient to prevent the excercise of intelligent choice.

Insanity of either party.

Consanquinity, whether of the whole or the half blood, within the following degrees: (a) One may not marry his ascendant or descendant; (b) One may not marry his sister; (c) One may not marry the sister or brother of his ascendant or descendant of his sister or brother.

Mistake as to the other party to the marriage.

Existence of veneral disease.

Previous marriage, unless the other spouse has died or the previous marriage has been declared null and divorve has been granted by a civil court.

"The most striking change in the proposed canon, probably, is that it removes all grounds for divorce, including adultery," said Bishop Page Sunday. "On the other hand, it should be noted that all penalties are removed so far as divorced persons are concerned.

"There was a practical agreement of the commission in regard to these changes. Indeed, the suggestion came from one of the most conservative members of the commission.

"There is one outstanding reason for removing the exception of adultery; namely, that in a divorce given by the civil court for adultery, it is only too often that the innocent party is penalized.

"Many times, when the wife is guilty of adultery, the husband makes himself the apparent offender in the eyes of the law. Moreover in many cases where adultery is the real cause for divorce, some other ground is given, such as drunkenness, cruelty or desertion. This is often done for the sake of the family reputation, especially for the sake of the children.

"The present church canon often penalizes a husband or wife who is high-minded and chivalrous as compared with some other man or woman who is, all things considered, looking for self-protection. Every clergyman is familiar with such cases."

**As to Marriages**

As to the lifting of the ban against marriage by the church of those who have been divorced on statutory grounds, Bishop Page said:

"It should be made clear that the door for re-marriage of divorced people is by no means thrown wide open. Under the proposed canon, no clergyman of this church can remarry divorced persons unless the bishop, or a duly constituted court, after due inquiry, shall declare that the purposes of Christian marriage will be best served by the proposed marriage, and even then the clergyman may not use the form of service contained in the book of common prayer, nor may the service be held in the church."

Bishop Page, discussing the proposed establishment of an ecclesiastical court, said that in the event annulment and remarriage were not placed in the hands of a court or bishop," then the bishop must appoint some communicant of the church who is well versed in the law of church and state to ascertain the facts of the case and report to him.

"There is," he said, "a very definite difference of opinion in the commission as to which is the better method. Under the present canon, the bishop is already free to act in marital cases with the advice of a good lawyer. The proposed canon simply emphasizes and defines his responsibility."

## Tailored Effects Are Smart For Spring Wardrobe

NOSE VEILS SHADOW MILADY'S EYES IN NEW HAT STYLES

(1) A smart green and white tailored tweed with green leather belt, a Paris model. (2) A chic little hat of block straw suggesting the new spring bicorne, ornamented by a cluster of turquoise blue feathers and a veil falling to the nose. (3) an interesting suit for semi-formal afternoon wear is this clever combination of black and yellow. The semi-fitted jacket of yellow wool crepe is worn over a blouse of yellow flat crepe that has a black and yellow scarf and half sleeves of black crepe. The new flare skirt is of black wool crepe.

CHILDREN love best the sparkling deliciousness of genuine Jell-O. And the high quality of Jell-O makes it so good for them. Be sure you get it.

## FINAL MEETING HELD

### Campbellford Young People's Society Closes Activities for Summer Months.

CAMPBELLFORD, April 29.—(By Examiner Staff Correspondent).—The closing meeting of the spring term of the Young People's Society of St. Andrew's Presbyterian Church, Campbellford, was held Monday evening in the church parlor with the president, Mrs. H. T. Scott, in the chair. Miss Mary McGregor was pianist and Miss Grace Blue, secretary, for the meeting.

After the devotional exercises and business period the topic, "British Guiana" was read by Miss Mary McGregor, the meeting closed with the Benediction.

year's work, which was very encouraging, after which the rector, Rev. A. T. Weir, took the chair and presided over the election of officers. Jim Johnson and Will Chattan acted as scrutineers. At the conclusion of the election the following officers were elected:

Pres., Horace Hill; Vice-Pres., Howard Bent; Sec., Mabel Rowan; Treas., Irene Clemett; Publicity Sec., Bill Stephenson; Convenor of Missionary Committee, Helen Johnson; Musical Con., Audrey Weir; Literary Con., George Stephenson; Social Con., Ada Atwell; Lookout Con., John Bent; Dramatic Con., Maggie McQuade; Ground Con., Allen Adams.

The "Spotlight" was read by the editor, H. Hill and assistant editor Bill Stephenson giving an added interest to meeting. The meeting concluded with the Benediction, pronounced by Rev. A. T. Weir.

# Criminal Robs Church Poor Box

## Finger Print Told Who He Was. Arrest Followed

On a winter night a man stood in the doorway of a Church in Toronto. He looked furtively about, then hurried into the shadows where the Poor Box stood. He coveted the few coins the Church had collected for the poor. He broke open the box, took the money and ran away.

The police found him. They took his finger prints. Then they let him go on suspended sentence. Careful police officers took time, however, to compare his finger prints with those on file of known criminals. They found his were indentical with those of a man who had escaped from Westchester Penitentiary, in New York State.

Word came that he was loitering near another church He was soon re-arrested by detectives and put behind bars. He could not escape his finger prints. They held danger for him.

## Your Prints are Dangerous

You say "I am not a criminal—how can my finger prints hurt me?" Of course you are not a criminal but your prints are dangerous in another way. Your fingers touch articles in a store, in an office, in your home. They pick up germs left there by other hands. Hands which may have checked a cough or a sneeze and become infected with "Flu" germs.

**27 Germ Diseases**

You leave those germs on everything you touch—on food, for instance — on fruit, a chocolate or a cookie. Your hands convey them to your mouth and so they get into your system. If you are in a weakened condition you may fall ill. Life Extension Institute states there are 27 germ diseases which may be conveyed in this way. Children may be the victims.

But we can kill these germs before they reach our food. Lifebuoy Soap is made specially to do that. It contains a germicide.

Keep your hands germ-free with Lifebuoy Soap — before a meal or when you go out. Scientists have proved that the lather from Lifebuoy either kills all germs or makes them inactive.

**Luxury and Safety**

Revel in the glorious, creamy lather of Lifebuoy. It is a luxury soap—made from two palm oils. No soap was ever created that will do more for your skin and complexion. Yet it offers real protection against germ infection. No perfume, but a refreshing, *extra-clean* scent of safety that disappears at once.

Body odours are banished. Before you go out in the evening or before you start the day, bathe with Lifebuoy. It makes you safe from body odours for many hours.

Millions are now enjoying Lifebuoy's protection every day.

Keep a cake of Lifebuoy Soap on the wash basin, always. Then it will be easy for the children, the whole family, to benefit by its protection. Your dealer has Lifebuoy ready for you. Order a good supply today.

# B.Y.P.U. CLOSE WINTER SESSION

### Splendid Entertainment Staged With Large Attendance to Mark Occasion.

### AT CAMPBELLFORD

CAMPBELLFORD, Apr. 29.—The close of the winter's activities of the Young People's Union of the Campbellford Baptist Ch[illegible] was pleasingly celebrated on Monday evening when a very successful entertainment was staged by the young folks in the school room of the Church. A large attendance was registered.

A. Gifford was the chairman for the evening and welcomed the people in a short opening address. The program was varied and featured many real star turns. The audience was very appreciative and encored the numbers generously, the artists responding in a pleasing manner.

The first item on the program was a springtime phantasy "The Awakening of The Flowers", this opening with the Rev. L. M. Smith at the piano playing "Spring Song", (Beethoven). Those taking part in this number were: Muriel and Helen Montgomery, Jean, Betty and Glennis Shaw, Freda and Margaret Ellis and Shirley Dunbar.

The Rev. Mrs. Smith rendered a vocal solo, "An April Fancy", (Sudds) and Miss C. Perry gave two very interesting readings, "The Scotch Ministers Sermon," and "Accepting the Baby." Two humorous vocal solos were given by John Storie, with Mrs. Storie accompanying, and Donald Lloyd, the champion boy orator, delivered two orations, "The Minister's Sermon," and "Nothing Suited Him."

A vocal solo by Mrs. C. Weston, "Alice Blue Gown", was very well received and Mrs. Gwen E. Lewis very pleasingly rendered a piano solo, "By the Brookside", (Tours). Miss Perry gave two more readings, "A Little Girl Entertains the Missionary Lady" and "A Pardon", and Mr. Storie rendered two more numorous vocal solos.

E. H. Lewis sang two numbers, "Little Mother of Mine" and "Out of the Dusk", Mrs. Lewis accompanying and Fred McMullen delighted the audience with several violin selections, proving an ever popular favorite.

The final number on the program was "The Family Album" as exhibited by Mrs. Almira Pease, this presentation being a reading with living photographs of friends and family.

# MADOC INSTITUTE PLANNING DANCE

### Proceeds From Home-Cooking Sale Amounted to $13.50.

(Examiner Correspondence)

MADOC, April 29—The April meeting of the Madoc Women's Institute was held at the home of Mrs. E. M. Tumelty with an attendance of 36, Mrs. C. N. Whytock presiding. The Institute Ode was followed by correspondence regarding District Annual, Branch Annual and Summer lecture. The subjects chosen for the Summer Lecture were "Thrift—making all things count," and "Worthwhile Life Purposes."

Report was received of the Home Cooking sale, proceeds $13.50. Discussing finances, it was moved by Mrs. W. Ross and Mrs. E. West that a dance be held early in May in the Armouries, the admission price to be 50c. Committees appointed: Music, Mrs. W. Whytock and Mrs. J. B. Hough; Refreshments: Mesdames West, Smith and Ross; Canvassing: Mesdames Ross, Avery, Hill, Henderson, Phillips, Smith; Cards and tables: Mesdames C. Whytock, Parks and Irwin; Mrs. Nickle in charge of advertising and bills.

Mrs. J. B. Hough then very ably took up Current Events of the month, after which Mrs. Huffman gave an excellent paper on "Making the best of what we have."

Arrangements were made for the annual meeting and election of officers in May at the home of Mrs. C. McCoy, and the convenors of Standing Committees were requested to present their reports for the year in writing.

The National Anthem and a social half-hour followed.

nights will include members of the Rotary, the Kiwanis and the Kinsmen clubs and members of the 'Y' Board of directors.

About five hundred healthy, happy girls take part in the Pageant, which brings into its production tiny tots of two and one-half years and seniors of adult years. There is a great variety of interpretive dances, ranging from the vivid Russian Rhapsody, red-gowned and striking, down to the Baby Bandits, cunning and frolicsome.

And there are drills which display physical training and control to perfection, in the Danish excercises, the Indian club, dumbell, wand and reed work that call for skill and perfected effort.

The big event of the evening will be the lovely "Glimpse into Fairyland," with the moss-green leaves; tiny things with emerald bodies lying asleep on the stage, as the fairy-like Earth Child comes in. In her rose-pink frock, she is almost like the famous Alice in Wonderland and the naughty little butterflies, with their mauve and yellow wings and their saucy faces, lure her into the make-believe country where she is entranced by the lovely blue-clad dancers with their silver balloons. Then come the flowers in pastel-tinted frocks and the charming little fairies, with their white ballet skirts.

Don't miss "Dracula" at the Regent Theatre on Wednesday, Thursday and Friday of this week. The Examiner Cheer Fund gets twenty-five per cent. of the receipts for relief work.

# 500 HEALTHY GIRLS WILL BE IN PAGEANT

### Y.W.C.A. Stands for Many Things in Community—Pageant Two Nights.

The Young Women's Christian Association stands for many things in the community, not the least of them being the training of small and large girls in the three-sided triangle of life which is epitomized in the blue triangle of the 'Y', and symbolizes the physical, mental and spiritual growth of womanhood. A glimpse into the physical and also the mental side of the 'Y' training will be afforded in the big gym pageant to be presented at the Grand Opera House on Friday and Saturday of this week, May 1st and 2nd.

The city as a whole stands behind the effort which is annually presented with such success, under direction of Miss C. Littlefield, at the Grand Opera House. Tickets may be obtained at any time up to Saturday night, with many choice places still available. Box-holders for the two

# OMEMEE A.Y.P.A. ELECTS OFFICERS

### Horace Hill is Re-elected as President of the Young People's Society.

### Y.P.U. MEETS

OMEMEE, April 29. — (Examiner Correspondence.)—The regular weekly meeting of the Y.P.U. of Trinity church was held Monday evening. The meeting was under the leadership of Roy Faulkner who gave a very interesting topic on "Social Life." Miss Race rendered a piano solo, after which a contest was enjoyed, the meeting concluding with the Benediction.

**A.Y.P.A. Meets.**

The A.Y.P.A. of Christ church held their annual meeting Monday evening in the Sunday school room of the church, with a large attendance. The president, H. Hill, conducted the opening exercises. The secretary and treasurer gave splendid reports o the

New! Moirs NOVA MILK CHOCOLATE BAR

Your first bite into the new bar will be a surprise. Your palate will thrill to a soft and mellow flavour hitherto unknown in chocolate.

THE modern housekeeper, with the aid of Crown Diamond paints, varnishes and quick drying enamels, is continually improving the appearance of her home. ★ These prepared paints are so simple to apply, that it is possible to change the color scheme of a whole room in a few hours at a very low cost. A wide range of artistic shades allows the most delightful combinations of tones

*Ask your nearest dealer for a Crown Diamond Prepared Paint shade card, or write to us. We make a pure paint for every purpose.*

A very enjoyable and successful Hard-Tyme party was held last night in Reid street hall, under the auspices of the Young People's Club of Trinity United Church. The program, which was an exceptionally interesting one, was in charge of Mr. J. Krogh and opened with some splendid music by Max and his Paragon Revellers, whose playing during the evening was one of the high lights of the entertainment. This was followed by a reading by Miss Jessie Tully; a guitar selection by the male quartette of Trinity Young People's Club; a vocal solo by Miss Eleanor Brown, and a reading by Miss Nellie Boorman. Max and his Paragon Revellers played a series of popular tunes between each number. At the close of the musical program, a contest was staged and several games. The conetst involved filling in blank spaces with adjectives in an interesting letter, and proved very amusing. Dainty refreshments were served later. The hall was tastefully decorated with Japanese lanterns and colored streamers were suspended from the large chandelier in the centre. The guests were seated at small tables servied by trim maids dressed in black and white. Delicious soft drinks were donated by Boorman's Bottle Works. An orchestra which provided snappy music during the evening was composed of Messrs. Vigo Denessen, piano; Harold McFarlane, trumpet; Arthur Knott, saxaphone; Harold Soden, saxaphone, and Ray Cooke, traps. All the visiting musicians responded to several encores. Among the guests present were Mrs. D. Wren, Mr. and Mrs. W. Saunders, Mr. and Mrs. Leif Krogh, the Misses Eleanor Brown, Jenny Steele, Margaret Allan, Mabel Nixon, Enda Forster, Alice Cocks, Edith Belleghem, Marjorie Byers, Olive Rome, Beulah Huffman, Mildred Dobbin, Jean Padget, Lillian Dickens, Chris Forrest, Doris Ackford, Gwylda Pakenham, M. Lackey, E. White, B. Cheyne, Jessie Tully, Margaret Seabrooke, Gladys Byers, Maude Joyes, Ruby Colmer, Lola Leach, Anne Davis, Bertha Edmonson, Nellie Boorman, Grace Sargent, Pearl Graham, Messrs. Perrin Clerk, Bob Armstrong, George E. Nicholls, Ernest Horton, Richard Clayton, Gerald Perks, Reg. Perks, Stanley Lawrence, Bill Holgate, Jack Lee, K. V. Gadd, J. W. Koehler, Herbert Hodgens, Russell Barton, James Ridyard, M. Latimer, Russel Kitchens and John E. Krogh.

• • •

The many friends of Mrs. M. Pilling 222 Wolfe street, will be sorry to hear that she is in a very serious condition at St. Joseph's Hospital.

• • •

Miss Peggy Roche entertained seven of her friends last evening at dinner at her home on Engleburn avenue, followed by a theatre party at the Capitol, in honor of Miss Marcelle Tobin, who leaves this week with her mother to reside with Mr. Tobin in Toronto.

• • •

Mr. F. Detcher celebrates a birthday anniversary to-day.

• • •

Mr. and Mrs. W. McMillan, Division street, have returned home after spending the past six weeks in Beverley Hills, California.

• • •

Mrs. C. A. White, Frederick avenue, returned recently to the city after visiting her son, Dr. Cecil C. White, in Windsor, Ontario.

• • •

Bouquets of roses with long tulle ties were presented to Madame Nellie Leuty and Miss Reta Swain during the very fine concert presented in St. Paul's United Church, Avenue Road, Toronto, this week. With Mme. Leuty and Miss Swain, who is well known in Peterborough, on the delightful program were Mr. Lawence Lugsdin and Mr. Fred A. Watson. Following the concert a buffet supper was served in the church parlors, when the guests were the artists and others assisting with the program. Mrs. Harold Young, formerly of this city, poured coffee at a table attractively arranged with lighted candles and flowers.

• • •

Mr. Joseph Collinson of Elm street celebrates a birthday anniversary today.

• • •

Mr. and Mrs. D. R. Howat left this morning for Toronto to attend the Paderewski concert in Massey Hall to-night.

• • •

Mr. H. L. Archambault of Murray street is absent on a business trip to Three Rivers, Quebec, and Charlottetown, P.E.I.

• • •

The many friends of Mr. William Russell of the Lundy Apartments will be pleased to know that he is progressing satisfactorily after his recent illness in St. Joseph's Hospital.

• • •

Under the auspices of the Otonabee Chapter I.O.D.E., a very successful bridge party was held at the Paragon Hall yesterday afternoon. Tables of bridge were also played at the homes of Mrs. J. A. Aylmer and Miss Mary Archer, and the funds donated to the work of the Chapter in educating several children who are attending the Peterborough Collegiate Institute. Twenty-four tables were played, with Mrs. W. N. Hayes as general convenor. The guests were received by the regent, Mrs. C. A. White, Mrs Hayes and Mrs. B. W. Harvey, who assisted with arrangements. Prizes, which were donated by Mrs. J. A. Robinson, Mrs. D. W. Clark and Mrs. R. J. Wolstenholm, were drawn for and were won by Mrs. Bruce MacLean, Mrs. H. S. Huffman and Miss Lillian Simons. Those present included Mesdames A. White, T. J. Wilson, A. M. Weldon, C. B. Westbrook, R. J. Wolstenholm, C. White, H. B. Taylor, C. J. Seymour, F. A. Shannon, W. J. Preston, E. A. Taylor, J. A. Robinson, E. J. Ruiter, Stout, O. Steer, H. Seabrook, T. J. Squire, H. Staunton, J. McCaw, C. Newman, J. P. Pulkinghorn, W. H. Peryer, McDonald, J. M. McCulloch, J. A. Aylmer, A. L. Killaly, Gordon Smith of Montreal, A. Stevenson, T. W. H. Young, B. MacLean, M. McNabb, F. Merrett, G. Moore, F. Miller, Morrow, S. H. Mitchell, W. Lytle, Amys, Archibald, W. Andrew, Ashbury, H. Beatty, W. P. Blackmore, H. Beal, J. S. Bell, G. A. Borland, B. W. Harvey, W. N. Hayes, M. Blewett, Chandler, C. H. Cheverill, J. D. Cameron, H. A. Cranfield, W. Comstock, D. V. Canning, R. R. Hall, D. S. Clarke, C. M. Cox, J. A. Robinson, D. W. Clark, R. Cottrell, G. Coleman, Davern, L. H. Deyman, E. J. Elms, A. E. Edmonds, J. S. Fanning, H. Frost, D. R. Fleming, V. S. Foster, H. S. Huffman, Gregson, W. A. Greenslade, F. Hart, Hicks, R. Hendry, F. Holmes, W. J. Hancock, J. Jackson, L. J. Leclair, W. Jackson, D. A. Loomis, Lawrence, B. Law, T. G. Louden, and the Misses E. Bolton, H. V. Bell, Lillian Simons, Betty Runnett, M. Rogers, M. Archer, H. Hugel. The pretty tally cards which were used for the party were donated by Mrs. B. W. Harvey.

• • •

Miss Pearl Carruthers of Aylmer street left for Toronto this morning to attend the Paderewski concert to-night in Massey Hall.

• • •

Messrs. Thomas Allen, John Cousin, Will Found, Harold Quinn and Cecil Stephens, of the Peterborough Normal School, and will attend the Paderewski concert to-night in Massey Hall.

• • •

Mr. Thomas Dutton, who has been transferred to the London, Ontario, branch of Stock's Bread, Limited, was presented by the staff of the local branch with a handsome club bag, at a sales meeting held last evening in the Paragon Hall. Mr. Dutton made a suitable acknowledgment. Mr. Harvie, production manager, of Toronto, was present, also Mr. Gilchrist of Toronto; Mr. Scheppelmann of New York, who spoke briefly, and Mr. James Dutton. Miss Margaret E. Bateman of Montreal, who is making a business visit in the city just now, was also present, and gave a practical talk to the salesmen, emphasizing the value of essential qualifications in salesmanship: enthusiasm and cheerfulness which are so necessary, also the right type of production and display of wares. Miss Bateman made a very happy little speech and was listened to with interested attention.

• • •

Mr. W. A. Davidson, secretary-treasurer of the Grafton Company, Limited, is playing a business visit to the local Grafton store. He is accompanied by Mrs. Davidson and their daughter Dorothy.

• • •

Mrs. Mary Vyvyan of Midland is the guest of Mr. and Mrs. G. C. Carruthers, Aylmer street.

• • •

Out-of-town clergymen who are here to-day and to-morrow for the Archi-Deaconal Conference being held at All Saints' Church, include the Rt. Rev. J. F. Sweeny, D.D., Bishop of Toronto, who was the luncheon guest of the Rev. and Mrs. J. D Paterson at All Saints' Rectory and left later in the afternoon for the confirmation services in Cobourg to-night; the Ven. Archdeacon Davidson of Toronto, who is the guest of Mrs. W. E. Conway, Park street; the Rev. Dr. McElheran, Principal of Wycliffe College, Toronto, who is the guest of the Rev. and Mrs. Paterson at the Rectory; the Rev. W. Simpson of Millbrook, who is the guest of Mr. and Mrs. G. B. Richardson, 270 Sherbrooke street; the Rev. P. W. Robert, of Colbornes who is the guest of Mr. and Mrs. W. Simmons, Orpington road; the Rev. Dr. C. E. Whitaker of Blackstock, who is the guest of Mr. and Mrs. A. H. A. Robinson, 497 Gilmour street; the Rev. R. E. Lemon of Coboconk, who is the guest of the Rev. and Mrs. Paterson, at the Rectory; the Rev. P. G. Powell of Uxbridge, who is the guest of Mr. and Mrs. R. Price, Bolivar street; the Rev. F. H. Mason of Newcastle, who is the guest of Mr. and Mrs. W. Thorn, Boswell avenue; the Rev. M. R. Kingsford of Gore's Landing, who is the guest of Mr. and Mrs. Hotson, 164 Prince street; the Rev. R. B. Patterson of Oshawa, who is the guest of Mr. and Mrs. F. H. Dawson, 457 Downie street; the Rev. M. Clarke Wallace of Campbellford, who is the guest of Mr. and Mrs. F. Pakenham, 300 Boswell avenue; the Rev. Mr. Fierheller of Bethany, accompanied by Mrs. Fierheller, who are guests of Mrs. K. D. Sisson of 680 Water street; the Rev. R. J. Shires of Haliburton, who is the guest of Mr. and Mrs. P. Hooper, Gilmour street; the Rev. H. M. Withers of Haliburton, who is the guest of Mr. and Mrs. R. Pilling, Wolfe street; the Rev. H. E. Pelletier of Haliburton, who is the guest of Mrs. P. Fitzgerald of 300 Aylmer street; the Rev. P. D. DeLomb of Cobourg, who is the guest of Mr. and Mrs. G. A. Warmington, Bolivar street; the Rev. W. G. G. Dreyer, with Mrs. Dreyer, of Bobcaygeon, who are guests of the Misses Wallace, Park street; the Rev. C. A. G. Spence of Apsley, who is the guest of Mr. and Mrs. J. Edgar, Sherbrooke street; the Rev. C. R. Spencer of Bowmanville, who is the guest of Mr. and Mrs. L. Dobbin, Stewart street. Other clergymen who are here for the day only include the Rev. T. A. Nind of Port Perry; the Rev. Dr. Rigby of Port Hope; the Rev. Mr. Moore of Young's Point; the Rev. A. T. Weir, Rural Dean, of Omemee; the Rev. Canon Marsh of Lindsay; the Rev. A. J. Goldring of Lindsay; the Rev. Dr. T. S. Boyle of Cobourg, and the Rev. Mr. Jackson of Cobourg.

• • •

Mr. and Mrs. Stanley J. Richardson of King street are in Toronto today for the Paderewski concert in Massey Hall to-night.

## FASHION SERVICE

Of course you'll want a sleeveless dress.

And this one is full of charm and practicality.

It poses a circular flounce around it just below the hips to give youthful animation to its slender skirt that bursts into graceful fulness at the hem.

It offers a charming variation of the capelet collar that ties in a bow at the front.

It's so versatile for afternoons or Sunday night dining and dancing.

Style No. 2904 may be obtained in sizes 14, 16, 18, 20 years, 36, 38, and 40 inches bust. Size 16 requires 4½ yards of 39-inch material.

Black chiffon, lace in black or beige, wool crepe in royal blue, canton crepe in ever popular black and flat crepe in a gay print lend themselves beautifully to this model.

Price of book 15 cents.

Price of pattern 15 cents.

Our large Fashion Book shows how to dress up to the minute at very little expense. It contains most attractive Paris designs for adults and children, embroidery, etc.

Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred).

Price of book, 15 cents.
Price of pattern, 15 cents.

## Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

Friday—the day after tomorrow—is May Day!

• • • • • • •

Perhaps it is not so much the case now but for centuries past the first day of May has been a gala one, on which out-of-door celebrations, festivals and dances have been features.

• • • • • • •

There still lingers, however, about May Day an atmosphere of festivity and entertainments are given then. The suggestions given to-day may prove helpful to the hostess who intends to give a May Day Party.

• • • • • • •

Two elements should be featured in a May Day party. Dancing is one, for it was on this day in the past that the Morris Dancers tripped on the greensward of Merrie Old England.

• • • • • • •

Springtime is another element to accent since Nature played an important part in old festivals. Be as lavish with flowers, newly budding springs from trees and bushes as the purse will allow and the premises warrant.

• • • • • • •

A May pole can be erected even indoors. Use the handle of a floor brush. Fill a jardiniere or pail with enough dirt to make the pole stand upright in it.

• • • • • • •

Wind the pole with green paper. Cut long ribbon strips of many gay-colored papers and fasten one end of each to the top of the pole.

• • • • • • •

Bring the paper ribbons out from all sides of the pole and fasten them like streamers in a circle about the pole and a little way from it and then you will have the keynote of decoration for your party.

• • • • • • •

Matching plain colored streamers of tiny maypoles secures dancing partners.

• • • • • • •

Frost a round cake with green vegetable-colored icing. In the centre of it thrust a round wooden stick painted some bright color or wound with paper.

• • • • • • •

Fasten streamers of paper or number one ribbon to the top and loop the ribbon evenly around the edge of the cake, allowing the ends of the ribbon to hang below.

• • • • • • •

Pin a small spring flower just where each streamer touches the edge. This can be a May Pole Jack pie and each piece of cake have concealed within it some tiny favor.

• • • • • • •

After the pieces of cake have been served, use the ribbon decked pole as a Wishing Rod. Each person takes hold of one end of a ribbon, making a wish while the hostess counts ten when the ribbons of those completing the wish are pulled. Those pulling will get their wishes within a year.

• • • • • • •

Those who have not finished making wishes are asked not to pull. Their wishes will not come true within the year.

### CURTAIN CLIPS.

With rain, snow and other disagreeable weather, the glass curtains are hard put to it to stay fresh. Patent clothespins, painted the color of the room's decoration, make admirable clips to hold curtains back when the windows are opened nights.

Soviet Russia bought nearly 85,000 tons of German iron and steel last year.

## Canadian Women To Make Court Bow

LONDON, April 29.—(C. P. Cable.)—Many Canadian women will be presented to their Majesties the King and Queen at the courts to be held this spring. At the court to be held May 20 those attending will include the following: Miss Jocelyn Botterell, Winnipeg; Miss Helen Boyle, Edmonton; Mrs. Robert and Miss Mary Dennistoun, Winnipeg; Mrs. Frederick Hammond and the Misses Priscilla and Fredericka Hammond, Banff; Miss Kathleen Kingstone, St. Catharines; Mrs. Robert and Miss Leila Mackenzie, Montreal; Miss Helen Longmuir, Niagara Falls and Miss Clifford McEwen.

## A BEDTIME STORY

By Howard R. Garis

UNCLE WIGGILY'S ORANGE CAKE

"Have you any orange cake?" asked Uncle Wiggily one day as he looked across the table, first at Nurse Jane Fuzzy Wuzzy and then at his wife. "I'd like a slice of orange cake."

"Orange cake!" spoke the muskrat lady housekeeper as she swept up some crumbs around her plate to save for Squeakie Belkie the cousin mouse. "Orange cake!"

"Why, yes, isn't there such a cake?" asked Uncle Wiggily.

"There may be but we have none," answered his wife.

"Why not?" the rabbit gentleman wanted to know.

"For one reason we have no oranges," Mrs. Longears said.

"And for another reason I suppose you have no cake. No oranges—no cake no orange cake!" chuckled Mr. Longears.

"Oh, I could easily make the cake if I had the oranges," Nurse Jane went on, gathering more crumbs, this time for Jollie and Jillie the little mousie boy and his sister.

"You shall have them!" cried Uncle Wiggily with a jolly laugh that made his pink nose wrinkle twice as fast. "I am going out to look for an adventure and on my way home I'll bring some oranges."

"Then I'll make you an orange cake," promised Nurse Jane.

We'll take them out and eat them.

Uncle Wiggily hopped ove the fields and through the wood. Very soon he saw a little old toad lady hopping toward him as fast as she could hop. Of course the toad lady couldn't hop as fast as the rabbit gentleman, but she did very well.

"What is the matter? Why are you in such a hurry?" asked Uncle Wiggily as the toad lady reached him.

"Oh, I came in a hurry to tell you to be careful and watch out!" gasped Mrs. Toad.

"Why so?" Mr. Longears wanted to know.

"Because," answered Mrs. Toad, "I hopped through the wood just now and I heard the Fox and the Bob Cat talking together. They are going to wait until you get tired and sleepy, after looking for your adventure, and then they will catch you!"

"Ha! Ha!" laughed Uncle Wiggily.

"It isn't anything to laugh at," croaked Mrs. Toad. "They mean to catch you, Uncle Wiggily.

"And I don't mean that they shall!" said the rabbit. "I shall fool them as I always do. But thank you for warning me, Mrs. Toad. I am going to buy some ornages and I shall give you one for being so kind."

"Thank you!" croaked Mrs. Toad and Uncle Wiggily hopped on to the orange store which was kept by an old pussy cat lady living in a hollow log covered with moss. "I shall have an adventure when the Fox and Bob Cat try to catch me," thought Uncle Wiggily, "so there is no use in looking for one any longer. I'll get the oranges and Nurse Jane can make the cake."

With the soft, golden yellow oranges in a bag, Uncle Wiggily started to hop back through the woods. Soon he came near to the place where the toad lady had told him the Fox and Bob Cat would be waiting to chase him.

"But I'll play a trick on those chaps!" chuckled Mr. Longears. "I'll squirt orange juice in their eyes."

The rabbit gentleman was tired when he reached the woods where he expected to meet the Fox and Bob Cat, so Uncle Wiggily said:

"I will lie down and take a little sleep. The, when those teasing chaps come after me, I will be fresh and strong to squirt orange juice in their eyes." Uncle Wiggily stretched out beside a big stone and was soon asleep. And while he slept along came Jackie and Pectic Bow Wow, the puppy dog boys.

"Oh, look!" softly barked Jackie. "There's Uncle Wiggily and he is fast asleep."

"And he has something in a bag!" whined Pectic. "Let's see what it is." When he opened the bag and saw the oranges Peetie said: "I guess Uncle Wiggily was bringing these oranges to us."

"How kind of him!" barked Jackie. "We'll take them out and eat them," which the doggie boys did, all but one. They left one orange in the bottom of the bag. Uncle Wiggily was still asleep so Peetie said:

"Here are a lot of round, yellow stones that look just like oranges. Let's play a little joke on Uncle Wiggily and put the yellow stones in his bag. He'll think they are oranges."

"Ha! Ha! Ha!" laughed Jackie. So the doggie boys filled the bunny's bag with hard, yellow round stones like oranges and then they ran away and Uncle Wiggily still was asleep.

### MEXICAN DUTIES EFFECTIVE MAY 2

MEXICO CITY, Apr. 29.—(AP)—Greatly increased import duties will go into effect May 2 on a long list of dairy and farm products as a consequence of Government approval of a measure of the Cabinet Council which takes this means of helping Mexican farmers. Wheat, corn, beans, flour, lard, butter, eggs, wool, silk cottonseed, cottonseed oil and vegetable oil, are affected.

## That Body of Yours

By James W. Barton, M.D.

TIRED—BUT NOT BY WORK.

The man or woman who sits in an office all day, with many different matters to consider, many plans and decisions to make, find himself or herself tired toward evening and naturally blames it on the trials and difficulties of the daily work. Tenseness of body and mind during hard mental tasks will tire one quite readily.

Other men and women will have simple routine work all day and they will also find themselves "tired out" toward evening. It cannot therefore be the work that is so fatiguing but something else. The real cause is due in many cases to overeating or constipation.

Why?

Because food that is not used up by energy is stored up in the body as fat or is deposited in the large intestine as waste.

It is this sitting all day, eating large meals which leave a large amount of waste that is the cause of constipation in many cases, and usually what leads to the poor color and texture of the skin of indoor workers. The skin becomes muddy in appearance.

These same individuals in most cases feel that they must have "he man meals" and eat large quantities of meat and vegetables. Thus food which is Nature's way of reviving man becomes, by overeating, the very cause of his tiredness, his fatigue.

But you say "exercise will make one tired also, so what's the difference whether I get tired from too much food and constipation, or from exercise, as they both cause the formation of wastes in the blood."

But the wastes manufactured by exercise ,owing to the greater strength of the heart, and increased circulation of the blood, are soon removed from the body by the greater activity of the skin, the lungs, the kidneys, and the intestine. On the other hand wastes from overeating accumulating in the large intestine remain there, and a portion of them is absorbed into the blood and carried to every part of the body. A constipated individual is therefore a tired individual all the time.

So just think about the matter a little, and if you feel tired all the time, and your work is not sufficient to cause this tiredness, it is very likely that you are eating more than you need for your particular work, or that your intestine is a little slow in action.

A hard working mechanic, or a person that engages in outdoor work or exercise can safely eat a little more than they need because wastes will be removed regularly by the increased activity of the organs whose duty it is to get rid of wastes.

### THE MISTAKE OF A FAMOUS DOCTOR

Dr. Robert G. Jackson's paternal grandfather, father and eleven paternal uncles and aunts, and his own brother and sister, all died of heart disease. At 50 the great Sir Wm. Osler gave the doctor himself only four months to live, dying from heart disease and "general breakdown." He'd lived five years on the ground floor, unable to climb stairs. Four years after Osler gave him up he climbed the fifty storeys in Washington's Monument, up and down, and was not even tired. All a result of changed living habits—chiefly a change from civilization's disease-causing acid foods to alkali-forming Roman Meal. His 438-page book, "HOW TO BE ALWAYS WELL," tells the entire story—shows how anyone may be always well, by natural means. Remit $3.00 by P.O. order for a copy, or write for descriptive literature, to ROBT. G. JACKSON, M.D., 502 Vine Ave., Toronto 9, Ont., or write for his free booklet, "HOW TO KEEP WELL," and sample of Roman Meal and the new alkaline beverage, "Kofy-sub."

## Tweed

Miss Ruby Cordy and Bruce Handsford have returned from Queen's University, Kingston for the summer holidays.

Mr. and Mrs. Charles LeBarge of Ottawa spent the week-end with Mr. and Mrs. M. J. Quinn.

Mr. A. E. R. Wevitt left for Montreal Saturday taking one of the large tanks the Gordon Steel Works built for him.

Mr. Borden Rollins of Queen's University, Kingston is home for the summer holidays.

The forestry plane arrived Saturday to make Tweed headquarters for the summer. Pilot, mechanic and photographer accompanied it.

Rev. Father Feeney of Kingston spent Wednesday with his parents, Mr. and Mrs. James Feeney.

Miss Hilda Sampson returned after spending a couple of weeks with her aunt, Mrs. James Black in Campbellford.

Miss Mary Goulah spent Sunday with her cousin, Miss Marie Goulah.

Mr. Purdy, Sr. of Belleville spent a couple of days with his son Harold Purdy in Tweed.

Mr. and Mrs. Dalton Way of Belleville spent the week-end in town.

Mr. Frank McGrath of Detroit is visiting his sister, Mrs. P. Whalen.

Miss Edna Lafontain of Reid spent the week-end at her home here.

Mr. W. E. Tummon, M.P. of Ottawa spent the week-end with his family in Tweed.

Mr. Wellman of Madoc made a business trip to Tweed on Monday.

Mrs. Steenburg of Campbellford is visiting her sisters, Miss Devey and Mrs. Sampson here.

MILBURN'S HEART NERVE PILLS

Price 50c a box

Was Weak and Run Down
Could Scarcely Do Housework

Mrs. Edward A. Allen, Bezanson, Alta., writes: "I would like to tell you of the great benefit I have received from your Milburn's Heart and Nerve Pills. I was feeling very much run down in health, and was so weak I could scarcely do my housework, in fact, I would have to lie down in the afternoon for an hour or so. I saw your Pills in the drug store and took a box home with me, and I was delighted with my renewed strength. I have recommended them to a neighbor and feel sure they will help her too."

Sold by all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Let us help you to find that "HIDDEN ROOM!"

. . . THERE'S one in nearly every home . . . a room that has been lost . . . overlooked in planning.

Maybe it's there just below the roof, or hiding in the basement, or out on the upper gallery at the back. Maybe you just call it "lost space," but what is a room but space within four walls? And we can show you how to provide the walls. TEN/TEST Insulating Building Board—that's the secret. The all-Canadian board that insulates against heat, cold and sound.

So now you can have a comfortable den, or the children a play room, or the wife a recreation room, or the maid a bedroom . . . and all just produced "out of space" with TEN/TEST.

Telephone and ask us to help you locate your hidden room.

# Three Teams in Tie For International Leaa

## O'NEILLMEN BREAK EVEN BY TAKING FINAL GAME FROM ORIOLES IN NINTH

**Birds Make Strong Finish But Are Held in Leash By Frank Barnes.**

**USE FOUR HURLERS.**

**Veteran Baseball Followers Figure Leafs Team to Beat for International Flag.**

BALTIMORE, Md., April 29—In the most exciting game of baseball that has been presented at Oriole Park this year, Toronto defeated the Orioles in the final contest of the series, 6 to 5, the Birds having the tieing and winning run on the bases in the ninth, when Frank Barnes, rushed into service with Boyle at bat, caused the latter to send a weak grounder, which Richardson handled with ease to toss to Davis for the third out.

By raising their colors in yesterday's game the Leafs obtained an even break in the four-game series, bad weather preventing the fifth contest carded. The Canadians used four hurlers and the Birds three, and a perfect peg, which retired Heine Sand at the plate in the final session, with Ken Strong back of the toss, was the turning-point in a tilt which had the few fans present yelling with excitement.

Toronto looked good in the series here, and veteran baseball followers figure the Leafs the team to beat for the flag. The team is hitting the ball, and even in the two games dropped appeared to have a real punch and defensive strength. It is likely that the brand of pitching Manager Steve O'Neill gets will determine the issue.

**Mills Good at Start**

Art Mills, Nick Harrison, Guy Cantrell and Frank Barnes went to the mound in the order named, and for five innings it was plain that the Orioles did not admire "Art." Mills simply toyed with the flock in these sessions, and a lone single by Sand was their only hit during this period. Mills was flashing a sharp-breaking curve that gave the best Oriole batters plenty of trouble, but the Birds found him for a pair of runs in the sixth, and were in such a savage mood in the seventh that Harrison was deputized to relieve him. Harrison, in turn, yielded to Cantrell in the ninth, with Heffner up, and Barnes southpawed to only one batter.

Joe Cascarella, one of the younger Oriole pitchers, who is regarded as something of a singer, was the first to face the Canucks, but Joe as a singer-pitcher was not a howling success. Morehart doubled on the first ball pitched in the initial frame, and Richardson scored him with a ringing single to left-field fence on the first ball offered him. Although Rogell walked, Strong fanned after obtaining three balls and no strikes, and Shiver hit into a double-play.

### Wrestling Last Night.

(By the Associated Press)

CHICAGO—Ed. Strangler Lewis defeated Jean de Duck, France, two falls (8:36 and 0:43), heavyweights. Hank Bruder, Chicago, threw George Schwab, Germany, 11:32 (one fall).

BALTIMORE — Dick Daviscourt 224, threw Rex Smith 210, one fall (7:35); Ray Steele, 214, threw George Trago, 205, one fall (39:50).

SPOKANE, Wash.—Stanley Pinta, 210, Ravenna, Neb., threw Doc Meyers 200, Chicago, (two out of three falls.

## SOFTBALL LOOP IS ORGANIZED

**Come-back of Popular Pastime is Hoped for by Campbellford Sportsmen.**

**FOUR TEAM LEAGUE.**

CAMPBELLFORD, April 29 (By Examiner Staff Correspondent). — Campbellford will this year have a Softball Town League was the decision reached by the Campbellford Softball Association at a meeting held last evening to discuss the prospects for the game. This sport has not been featured in the town since 1929, and a come-back of a popular pastime is hoped for. The idea is to run a four-team schedule if possible. These teams as yet have not been selected, but it is expected that the Hydro and the Clerks will be in action and St. Andrew's, a team from the Mill and Meyer's aggregation will be in the running. The tone of the meeting favored four strong teams in preference to a five or six-team schedule, which would include one or two weak outfits.

Election of officers for the current season was also featured at this meeting, the following slate being chosen: President, G. H. Free; Hon. President, Mayor J. M. Bygott; Vice-President, Jim Storie; Secretary-Treasurer, H. Dunk; Chairman of Umpires, Vince Farrell; Auditors, H. Tinney and V. Farrell; Official Scorer, E. H. Lewis.

It was ruled that the same system as 1929 should be adapted, that of individual entry cards for the players, the one dollar entry fee for teams, however, being omitted. The League will supply balls for league games, the arrangements for the grounds being left to the executive committee. Date for entries to be in is set at May 5, while the first official game will be played during the week of May 18.

## TWEED BOWLERS ELECT OFFICERS

**D. H. Morrison is Elected President of the Tweed Lawn Bowling Club.**

**DRIVE FOR MEMBERS**

TWEED, April 29. — (Examiner Correspondence.)—The Tweed Bowling Club is away to a good start. There was a splendid attendance at the annual meeting held in Council Chambers on Monday evening and the devotees of this popular game are looking forward with keen anticipation to a season of real sport.

The treasurer, F. J. Hunter, presented his report which showed a small deficit carried over from last season.

Officers were elected as follows:
Pres.—D. H. Morrison.
Vice-Pres.—J. D. Corcoran.
Games Committee— H. E. Wager, W. E. Spackman, A. W. McGuire.
Ground Committee—W. Beatty, Dr. Bowlby, James Ryan.

The president, vice-president, secretary-treasurer and chairman of committees will constitute the executive. Work will commence on the greens at once and every effort will be made to have them in first-class condition for the opening about the middle of May. The club is anxious to increase the membership this year and to this end a special drive will be made.

### Yesterday's Stars.

(By the Associated Press.)

**Bill Cissell, White Sox—Hit his club's first4 homer of season to beat Detroit 6 to 5.**

**Harry Rice, Senators— Tripled and scored in 9th inning to tie Yankees at 7-7.**

**Hughie Critz, Giants—Made two out of four hits granted by Watson Clark and scored winning run as Giants beat Brooklyn 3-2.**

**Burleigh Grimes, Cardinals — Pitched Cards into tie for first place by scattering Pittsburgh hits for 8-3 triumph.**

**Johnny Hodapp, Indians—Made four hits in six tmes up to help beat St. Louis 10-9.**

**Rabbit Maranville, Braves—Hit three doubles against Phillies.**

DO YOU KNOW THAT— by GEORGE GUNDERSEN (CANADA'S YOUNGEST DAILY FEATURED CARTOONIST.)

**Help Gundersen and Win a Prize**

Send in your interesting fact today. It need not necessarily refer to tobacco. For every fact we use we will send you a package of 20 Buckingham Cigarettes. Give a reference with your fact. If interesting enough Mr. Gundersen will cartoon it and you will receive the complimentary package of Buckinghams, Canada's most popular blended cigarette. Buckinghams are all that is fresh, cool and mild—a blend of all that is finest in tobaccos, packed for your pleasure and enjoyment. Address your facts to George Gundersen, Dept. M Tuckett Tobacco Co. Limited, Hamilton.

**Set of "Do You Know" Cards**

For ten cents in stamps we will send you a set of "Do You Know" cards—sixty interesting subjects printed in color with full description (size of cards 2½" x 1¾") or for twenty cents we will include cards and also an album in which the cards can be placed to give a complete collection in permanent form.

## Elmwood Defencemen Sign With M.A.A.A.

WINNIPEG, Man., April 29.— (By the Canadian Press.)—Elmwood Millionaires, Winnipeg's junior hockey champs, will have their ranks depleted this coming winter. Bill McKenzie and Kitson Massey, star defence boys for the youthful titlists, will leave for Montreal Monday, May 4, prepared to join the senior hockey team of the Montreal Amateur Athletic Association. McKenzie and Massey were the bright lights of a sparkling junior hockey aggregation that fought its way through the Winnipeg city series to capture the Western Canada junior hockey title from the brilliant Regina Pats. The Millionaires, led by the redoubtable defense pair, journeyed eastward and trounced the Ottawa Primroses in the Memorial Cup finals for the junior hockey championship of Canada.

# Belanger K.O's Weigand in Seventh Round

## NEW PITCHER FOR CARDINALS

**PROMISES TO WIN 25 GAMES**

Jerome "Dizzy" Dean, six-feet three inches tall, who is looked upon as one of the most promising members of the St. Louis Cardinals. Although only 20 years old he has a pitching record that any big league pitcher would be proud to boast of. He promises to win at least 25 games for the "Cards" this season. He hails from San Antonia, Texas.

## CLEVELAND TRIBE CONTINUES HITTING SPREE TO TAKE 10-9 VICTORY FROM ST. LOUIS BROWNS

**Warriors Collect Sixteen Safe Hits Off Two Kansas State Hurlers.**

**3RD WIN FOR GRIMES.**

**Yankees and Senators Play 7-All Tie in Fourteen Innings.**

By GAYLE TALBOT, Jr.
Associated Press Sports Writer

Whatever the effect of the new sphere on other major league clubs, it has acted as nothing but a tonic for those clubbing Cleveland Indians.

In eleven contests to date, the American League pace setters have given one of the greatest demonstration of collective hitting seen in either circuit in recent years. They literally blasted their way to the top, averaging slightly better than 12 hits to the game. Their own pitching has been nothing to get excited about, but they haven't needed it.

In only three bouts has the tribe been held under double figures in the hit column. Yesterday Roger Peckinpaugh's Warriors propelled 16 safe ones off two St. Louis Brown pitchers to win their fifth victory in six starts, 10 to 9. The Browns broke loose on their own account in the ninth, scoring eight runs, but the Indians had the punch to come back and score three in their half to tie it up and then win out in the tenth.

**By winning the Indians gained ground on their closest rivals, the Yankees and Senators, who battled to a 14-inning draw at Washington, 7 to 7. It was their second extra-inning tilt in as many days. The Senators scored three runs in the ninth to prolong the duel. Pincher did not allow the Yankees a hit the last five innings, but his mates could not score on young Vernon Gomez.**

Detroit's four-game winning streak was snapped by Pat Crawway of the White Sox, 6 to 5. Bill Cissell provided the winning margin with a homer, the first hit by a Chicago player this season.

The Brooklyn Robins encountered another southpaw, with the usual result. They collected 11 hits off crafty Clarence Mitchell of the Giants, but he tightened in the pinches to beat them, 3 to 2. Nine of the Robins' ten defeats have been credited to lefthanders. The Giants bunched their four blows off Watson Clark.

**Third Win For Grimes**

After taking two on the chin, the St. Louis Cardinals came back to stop the Pirates, 8 to 2, Burleigh Grimes registering his third straight win. Bottomley's homer was one of the five Cardinals hits off Wood and Spencer.

Bill McKechnie gave his veteran pitchers a rest and the Boston Braves dropped a 9 to 8 decision to the Phillies. The defeat knocked the Braves back into a virtual tie with the Cubs and Cardinals for the National League lead. The Phillies scored once in the seventh to tie it up and then put across the winning run in the ninth. Virgil Davis led the winners' attack with two singles and a double, and Maranville punched three doubles for the losers.

The scheduled game between Cincinnati and Chicago at Cincinnati was postponed for the funeral of Garry Herrmann, former president of the Reds. Cold weather again blocked the Athletics and Red Sox at Boston.

## WINNIPEG LIGHT HEAVYWEIGHT STAGES COMEBACK AFTER 4TH TO KNOCK OUT BUFFALONIAN

**Weigand Has Belanger Groggy on His Feet During Opening Rounds.**

**TIDE TURNS IN FOURTH.**

**Loser Takes Terrible Beating, Crashes to Floor Twice for Counts of Eight.**

TORONTO, Ont., April 29 (C.P.)—Giving the most impressive display of the fistic art he has even shown in a local ring, Charlie Belanger, hard hitting Canadian light heavyweight champion of Winnipeg, last night smashed Art Weigand, Buffalo heavyweight to the canvas for the full count less than two minutes after the start of the seventh round of their scheduled 10-round bout.

The match, headline attraction of the Shamrock Athletic Club's boxing show, provided some 5,000 fans with plenty of excitement. Weigand, outweighing the Canadian champion by 12 pounds, gambled on an early knockout. He almost accomplished this in the second and third rounds when his jolting left hooks rocked the Winnipeg boxer to his very heels. In the third frame, Belanger was practically out on his feet. He weathered the storm, however, and, changing his tactics in the fourth round commenced to forge to the front.

In the fifth Belanger continued to make full use of his superior boxing ability and kept the Buffalo southpaw from doing any damage. In the sixth the champion belabored Weigand with terrific body punches and the loser crashed to the floor twice for counts of eight. The finishing touches administered in the seventh were superficial as Weigand was out on his feet before the round started.

Last week Belanger outpointed the Buffalonian in a thrilling bout and his splendid showing created such favorable comment among the fans, efforts are being made to keep him here and match him with one of the leading light heavyweights across the border.

Like the main tussle the other four bouts on the card were exciting. In the semi-final Jimmy Travis, recently arrived from England, scored his second straight triumph here by outpointing Eddie Judge, clever local leather pusher, who has been meeting with much success in the Eastern States. The men are featherweights.

### Fights Last Night

(By the Associated Press)

TORONTO — Charley Belanger, Winnipeg, knocked out Art Weigand, Buffalo (7).

KANSAS CITY — Gorilla Jones, Akron, O., outpointed Ham Jones, Denver, (10); newspaper decision.

INDIANAPOLIS — Benny Touchstone, Detroit, outpointed Walter Pickerd, Indianapolis, (10).

FARGO, N.D.—Red Haggerty, Bemidji, Minn., outpointed Kid Rippatoe, Sioux City, Ia., (6).

## ODD ANGLES OLD COUNTRY SPORT

**THE FAMOUS TOM LONGBOAT**

Twenty-three years ago, Tom Longboat, famous Indian runner, won the Boston Marathon from a field of the most outstanding runners on the continent. He turned home to the greatest reception ever given any individual in Toronto at that time. He was showered with praise and adulation and was given a house and lot and a grant of $500 by the city of Toronto. He was sitting on top of the world. To-day at the age of 44 he is a humble city employe while other men of his own age are running and winning the same race. He is now the father of four children one of whom he is training to be as great a runner as himself. He blames his misfortunes on a curse set on him by his fellow tribesmen but believes that despite the spell he and his family are under, his son, Tom, will repeat the feats he accomplished in his youth.

### At the Theatres

**AT THE REGENT**

**"DRACULA"**

An ancient superstition, which claims that "undead' 'persons hovering strangely between life and death might leave their graves on a certain night of each year, forms the basis of "Dracula," the hair-raising drama which comes to the Regent Theatre, today, Thursday and Friday.

This old belief still persists in certain parts of Europe, and as the fateful night approaches abject terror seizes the peasants of the district, who cease all activities at sundown, and securely bolt all doors and windows. Wolves howl in the hills—and it is claimed that these animals are in reality human vampires who are able to change themselves at will into either wolves or bats, and thus gain access to places where a human being could not penetrate.

Count Dracula is the strange vampire of this startling story, and a trail of terror and death results from his horrible influence. The picture, it is said, has been produced with such sincerity and such artistry that the spectator is apt to forget for the moment that the story is what might be described as a glorified fairy tale, and to be completely carried away by the strange atmosphere of the play.

Bela Lugosi plays the title role "Dracula" while other members of the cast are Helen Chandler, David Manners, Edward Van Sloan, Frances Dade, Dwight Frye and Herbert Bunston. Tod Browning directed.

**NORHAM**

Rev. W. J. H. Smyth of Wellington and his sister, Miss J. H. Smyth of Belleville were the guests of Rev. and Mrs. Clare on Saturday.

Mr. and Mrs. Wesley Newman and son W. J. returned from Toronto on Sunday.

Rev. F. McTavish of Campbellford and Rev. D. R. Clare of Norham motored to Cobourg on Monday to hear Rabbi Maurice E. N. Eisendrath, Toronto, who addressed the combined ministerial associations of Northumberland and Durham on "Why I am not an atheist," and addressed a public meeting in the evening on the subject "Were I a Christian."

Mr. and Mrs. Stanley McNutt motored to Rochester on Monday to visit their daughter.

Mrs. Smale of Warkworth, Miss Darling of Dartford and Mrs. D. R. Clare of Norham went to Peterborough on Tuesday to attend the branch meeting of the W.M.S. of the Bay of Quinte Conference of the United Church.

Mrs. Will Robinson had the misfortune to cut off part of her thumb when handling an axe recently.

## Rugby Star's Widow Is Awarded $12,000

NIAGARA FALLS, Ont., April 29— A jury in Buffalo yesterday awarded $12,000 to Mrs. Belle Reeves of Port Hope, widow of Chas. R. Reeves, former Balmy Beach rugby star, who was killed last June 16 when his auto plunged from the Falls View bridge here and ropped 190 feet into the Niagara gorge. In her suit against the International Railway Co., owners of the bridge, two children of Mrs. Reeves were awarded $8,000 by the verdict.

Mrs. Reeves sued for $100,000 for the death of her husband. The plaintiff claimed that the bridge railing was rusted and too frail to withstand the crash of the Reeves' car against it after the machine skidded on the slippery bridge flooring. The defence contended Reeves was speeding on the bridge.

Reeves was on his way home to start out with his family on their vacation when the accident happened. The younger child was born three months after its father's death.

## WINGS DEFEAT KEYS IN NINTH

**Florence Hits Home Run to Score Winning Margin—Royals Also Victors.**

**BISONS WIN SERIES.**

READING, Pa., April 29. — Paul Florence's home run in the ninth inning, delivered after George Fisher doubled, gave Rochester a 10 to 9 victory over the Reading Keystones here yesterday. The Wings swept the short two-game series. Each team blasted out 17 hits.

**ROYALS WIN THOUGH OUTHIT**

NEWARK, April 29.—The Newark Bears outhit the Montreal Royals, 11 to 9, here yesterday, but lost 7—1 in the last game of the series. Five errors contributed to the downfall of the Bruins, who could not bunch their hits effectively, as did the Royals.

**BUFFALO WINS SERIES**

JERSEY CITY, N.J., April 29.—The Buffalo Bisons copped their initial series of the year with the Jersey City Skeeters here yesterday, taking the final game of a four set-to affair by a score of 12 to 7 in a free hitting tussle.

An erratic start by Bob Walsh and poor relief hurling by Kennar Graf, who relieved him in the first, staked the Bisons to an enormous lead.

Harris, Sax and Cote hit home runs for the winners.

## CROWDED PROGRAM FOR SIR R. LINDSAY

**British Ambassador to U. S. Will Be Guest of Sir William Clark.**

OTTAWA, Ont., April 29 (C.P.). — A crowded program of public and social functions has been arranged for the visit of Sir Ronald Lindsay, British Ambassador to the United States, who arrives in Ottawa next Friday evening to remain as the guest of Sir William Clark, British High Commissioner, and Lady Clark at Earnscliffe until May 5.

On Saturday at noon Sir Ronald will address the Canadian Club on the subject, "The Machinery of Diplomacy." In the evening he will be a guest at the Rideau Hall dinner given by Their Excellencies the Governor-General and the Countess of Bessborough for Their Imperial Highnesses Prince and Princess Takamatsu of Japan.

On Sunday evening Sir William and Lady Clark will entertain in Sir Ronald's honor at Earnscliffe. On Monday noon the Ambassador will be the luncheon guest of Col. Hanford Macnider, United States Minister to Canada, while on Monday night he will attend the state dinner for Prince and Princess Takamatsu given by the Canadian Government in the Parliament Buildings.

On Tuesday noon Sir Ronald will be guest of honor at the luncheon and reception given by the Government in the parliamentary restaurant at which will be present to meet him the members of the Senate and the House of Commons. In the evening he will attend a dinner and reception given by Hon. I. M. Tokugawa, Japanese Minister, for Prince and Princess Takamatsu. Later he will take the night train for Toronto.

CASUAL COMMENT

The Public School League game, and the lacrosse practise, both scheduled for last night, had to be postponed while old Jupe Pluvius had his inning. Well, we hope the old fellow will get over with now, and let old Sol get to work again in a week or so.

* * * * * * *

Meantime, the prospective senior players here are sort of champing at the bit, and rearing to get out there on the diamond—if a mixed metaphor or two will be excused. "Shiner" Johnston doesn't anticipate any trouble having a big turnout when he calls the next practise.

* * * * * * *

Bob Elliot tried to get Gananoque interested in joining the C.O.B.L. but the latter town thought the Central loop was a little too fast. Anyway, Gananoque is a long, long way from Peterborough. Oshawa will likely be seeking entry in the league about next week.

* * * * * * *

While they will not be welcomed with open arms, perhaps the executive may relent and make it a four-team outfit. The quadruple schedule would permit this all right, and the three present entries might want more than eight home games through the summer.

* * * * * * *

Local players will soon be signing on the dotted line now. The different managers have received the certificates, and there can be no reason for players continuing their bashful attitude of steering shy when asked their intentions.

* * * * * * *

The entrance fee must be paid by the 15th of May, and the first game will be May 25th, when the Petes journey to Belleville. The seniors are supposed to work out to-night at 5.30 on the Exhibition Grounds diamond, provided the weather is suitable. Perhaps, a number of them will affix their John Hancock's to the certificates, then.

* * * * * * *

Not so much done at the E.P.L. meeting last night. Most of the business was shelved until this Saturday when the league meets again. They're figuring on another entry by that time, and so nothing much could be accomplished until the loop is complete.

* * * * * * *

However, practice dates for the Cogs, Rays and C.G.E. were arranged for the week. And the seniors will use the diamond tonight and for an hour Saturday afternoon. The league officials still have hopes the Crescents will be in, or else some other outfit to make it a four-team affair.

* * * * * * *

There was at least twenty-five enthusiastic girls at the Girl's Softball League meeting last night, and perhaps fifteen men. A great deal of work was gone through, and things are getting squared around in fine style for a return of that once-popular game here.

* * * * * * *

Several business men around town have promised to donate a few bats, balls, and such, to the Girl's League, and a committee will call on them for this equipment. The fair ones really need a lot of softball extras before they can get started, and any donations along this line by interested followers of the league will be appreciated.

* * * * * * *

While the Men's Softball League and the girls loop will run in opposition to each other this summer, as far as attracting the crowd goes, the men are co-operating in every way to help the re-organized league get going again.

## SOCCER NOTES

A practice game by the Canadian Packing will be held to-night on King Edward Park at six o'clock. All players are requested to attend and any person desiring to be associated with them will be made welcome.

All Canadian General players please turn out for training practice on Thursday evening on King Edward Park. Arrangements will be made for he game on Saturday. Kick off is scheduled for 2.30.

## Lacrosse

Although the weather was unfavorable, Coach Creighton had fourteen players out for two hours' practice last night at the Exhibition Park. Another practice will be held on Thursday at 6 p.m., and the coach would like to see Jack Killoran, Gene Donovan, Johnnie Ward, Johnnie Williams, and more of the young fellows turn out. On Saturday it is the intention to line up two teams for a real practice game at 2 p.m. All are asked to turn out.

## LIKELY TO PLAY EAST CITY BOWL

**Considerable Business Discussed at Large Representative Meeting Last Night.**

**OFFICERS APPOINTED.**

Most of the usual pre-seasonal details were cleared up last night in a snappy two-hour session of the Girls' Softball League. One more team was entered, a secretary and a treasurer were elected, and the matters of grounds, finances, equipment, cups, play-offs and time of games, all came in for considerable discussion, and were settled to the satisfaction of the majority.

The minutes were passed on, and President Russ Kitchen, addressing the large gathering of some twenty-five girls and fifteen men, opened nominations for secretary, and then treasurer. Several were named for each office, and a vote resulted in Miss K. Ashmore being elected secretary, and Leo Martin being the new treasurer.

All the teams were represented with the exception of Warsaw, which has already promised to enter. Choate's Hardware is thinking of putting in one which would make it an eight-team loop. Those which have indicated they will enter are: Dominion Woollens, Keene, Westclox, Sixth Line, Brintons, C.G.E., and Warsaw, as well as the new entry, Choate's.

It was moved and carried that in all scheduled games, the league would get one-third of the gate receipts with each team receiving another third apiece, the league supplying the balls and the umpire.

**Grounds Question**

The ground question will not be known for sure for another week, but it is thought the East City Bowl will be used for the girls' games. Men are working on it now, and the city is spending about one hundred and fifty dollars to put it in good shape. It will be known definitely when the Men's League has found out where it will be playing. Only one ground will be used for home games in the Girls' League.

The C.G.E. will be approached shortly and asked to put one of their softball cups up for competition by this league. Confidence was expressed that the company would do this, and that, at any rate, there would be little trouble getting a cup.

The schedule, which will be drawn up after the entries are all in, will consist of two halves, with the first and second team of each half playing off and declaring a winner to meet the other in the final play-offs at the end of the season.

Players do not have to play for the shops they work in, it was decided last night, and the girls agreed to adopt the men's rules with such amendments as desired. As a number of business men had offered to donate balls and such equipment to the league, a committee of men, including Scates, Hall, Martin, Kitchen, Latimer and Brady, will call on them.

The matter of time for the games caused some argument, but it was voted to start Peterborough games at six o'clock, Standard time, when out-of-town teams were playing here, and at 6.30 daylight saving time, when two Peterborough teams were playing here. When games are being played out of town, the same rule will be followed.

The entrance fee will be five dollars, and must be in before the first game. Entries will have to be in at the next meeting, May 9th, at 7.30. At this meeting, the question of umpires and the drawing of the schedule, with other details will be cleared up.

## Three Toronto Boxers On Friday's Program

The three Toronto boxers promised for the show at the Armouries on Friday night are "Red" Springer, Maurice Hiller and Joe Solberg. Springer wants another crack at Reg. Lesurf, who took the decision over him their last fight, and they should put up a great scrap. Hillier and Solberg, 118-pound Central "Y" rivals, will go on against each other in the second last main bout. They are fast, hard-hitting mittsters, and will provide a whirlwind exhibition of the ring game.

Who the other out-of-town scrappers will be and how they will be paired off will be known in another day or two. Things are shaping up fine for the fight card, and seats enough to accommodate one thousand have been installed for the crowd expected Friday night.

## *Phil Perkins Wins By Narrow Margin*

HOTSPRINGS, Va., April 29 (CP) T. Phil Perkins, former British amateur champion, was still in the competition for the old Dominion golf tournament trophy to-day by the narrow margin of a 2 and 1 victory over Samuel E. Corwin, of Richmond, a college boy.

Their match yesterday was give and take until the fourteenth and fifteenth, which Perkins won. The next two holes were halved.

Others who qualified for to-day's quarter finals in the tournament were Billy Howell, Richmond, Va., Middle Atlantic champion; C. W. Timpson, champion of the Rockaway Hunt Club; Fay Ingalls, and E. H. Bobbitt, of Hot Springs; M. H. Wheeler, Augusta, Mine, C. G. Littrell, Chicago and W. Donham, Montclair, N.J.

## Cameronian Is First Two Thousand Guineas

NEWMARKET, Eng., Apr. 29. — Cameronian today won the classic Two Thousand Guineas with Goyescas second and Orpen third.

Cameronian, owned by J. A. Dewar, won by two lengths with three separating the second and third horses. The horse was an outsider in the betting at 100 to 8 with Goyescas at eight to one and Orpen 18 to 1.

The race is at one mile, the stakes 2000 guineas (about $10,000) with extras.

## E.P.L. MAY HAVE FOURTH ENTRY

**Final Date For Entries Laid Over Until Saturday at Last Night's Meeting.**

**GROUNDS REPORT.**

Not a great deal was done last night at the East Peterborough League meeting, held in Duffus', as the league expects another entry in next Saturday. Therefore, most of the business had to be held up until that time. The loop, at present consists of the Rays, Cogs and the C.G.E. and if this new team comes in, the schedule can be drawn up soon, and the league begin operating about the middle of May.

The committee which attended to the repairing of the Exhibition Grounds diamond, the new dugouts, and an improved wire screen, reported everything satisfactory. Dates for practises at the south end park were arranged, leaving Wednesday night, and an hour on Saturday afternoon open to the seniors if they wished to work out there.

The entry date which had been named for last night was postponed to give the prospective new entry a chance to decide, and at the next meeting, which will be at eight o'clock Saturday night, May 2nd, a final decision will be reached. If the league does not have a fourth outfit in by then, it will likely operate as a three-team loop. As nothing more could be done for the present, the meeting was adjourned.

## OLD COUNTRY SOCCER TEAMS' RELEGATION

**Two Soccer Teams Go Up and Two Go Down in Each League —Scots League Settled To-day.**

Soccer relegation is the main topic of conversation by the local football fans at the present moment and for the convenience of many who do not understand the general routine of the question that is settled every season in the old country schedules is as follows. The reason for this explanation is to educate the Canadian enthusiasts that would like some enlightment on the procedure adopted.

**Two Go Up and Two Go Down**

In the English first division, Woolwich Arsenal have won the championship with a total of 64 points with 41 games played. The two teams that will be relegated are Leeds United and Manchester United with a total of 29 and 21 points to their credit.

The winners of the second division, along with the runners-up go up into the vacated positions in the first league. It is Everton for a certainty. Then the second team has not been settled, owing to West Bromwich being engaged in the cup ties. If they win all their remaining games they will go into the first division and losing one will give Arsenal the opportunity of getting promotion but they must win all the engagements, otherwise they stay in the second division.

| | P | W | D | L | F | A | Pts |
|---|---|---|---|---|---|---|---|
| Everton | 41 | 28 | 8 | 5 | 120 | 65 | 61 |
| Tottenham | 41 | 22 | 12 | 7 | 88 | 54 | 51 |
| West. Brom. | 40 | 20 | 10 | 10 | 79 | 47 | 50 |

A win or lose for either Tots or West Bromwich gives either one promotion.

The two teams that will revert back to the third division are:

| | P | W | D | L | F | A | Pts |
|---|---|---|---|---|---|---|---|
| Reading | 42 | 26 | 10 | 6 | 101 | 56 | 58 |
| Cardiff City | 41 | 8 | 24 | 9 | 48 | 83 | 25 |

While the winner of the third division Northern Section—Chesterfield, along with the winner of the Southern Section—Notts County go up into the second division. The last two teams in each section must make application to be allowed to play in the league the following season.

**Scottish League**

The Glasgow Rangers have won the Scottish league this year again, with Celtic being runners-up with only a point behind. The interest attached to relegation being of most importance. At present, Edinburgh Hibs are second from the bottom in the league table of the first division in the Scottish league. They will be very lucky to escape relegation because Ayr United are playing Kilmarnock in their final game. The Ayrshiremen have only to tie to keep themselves in the first division. If they lose the Irishmen of Edinburgh will remain with a better goal average, which stands 48 goals for and 85 against. Ayr United goal average stands 52 for and 92 against. East Fife is the other team that will go back into the first division.

Great To The Last Gasp!

## WOLVES ATTACK INJURE CATTLE

**Flanks of Somerville Farmer's Animals Severely Torn by Marauders.**

**LARGE WOLVES IN PACK.**

FENELON FALLS, April 29.—One night last week, Mrs. Harry Hughes was awakened by the frantic barking of the dog, a large and fearless collie. Mr. Hughes got up to investigate, and lit his lantern before leaving the house.

The dog acted so strangely, Mr. Hughes went to his barn to try and find out if there was anything wrong. To his surprise he found all his cattle that had been in the fields huddled in the stable, and trembling as though terribly frightened. He could find no cause for this unusual state of affairs.

The following day, Mrs. Hughes saw a very large gray animal pass between the house and barn, did not know what it was. When Mr. Hughes was told of this circumstance he decided it must have been a wolf.

**Second Attack.**

Two nights later, his dog began to bark and would not leave the house. As it was almost daylight Mr. Hughes got up to solve the deepening mystery. It was well that he did so. He found all the cattle on the main road several hundred yards from his farm. As the road was graded the previous evening it was easy to locate tracks in the fresh clay, and on careful examination the tracks of several large animals could be distinctly seen.

**Badly Injured.**

Three of the cattle were badly torn, one on the hind quarters, and another on the front shoulder, while another had lost a good portion of its tail. After looking for several hours a fourth was found in a black alder swamp and was almost dead from fright and exhaustion.

**More Trouble Ahead.**

M. A. McCallum, Fenelon Falls, possibly the best authority on deer and wolves in this section of Ontario and a member of the Ontario Hunters' Game Protective Association, investigated the surroundings, and is convinced beyond the shadow of a doubt the destruction of deer and farm stock in that locality is being caused by wolves.

He states that they have cleaned the deer out completely, and as they are becoming more numerous, farmers will suffer as a result. Farmers a short distance north have been compelled to go out of sheep raising entirely on account of their flocks having been depleted by wolves.

## Baseball Gossip.

The Kinsmen Bantams, City League team, are working out at the James Stevenson Park tomorrow night at six o'clock. A number of positions on this outfit are still open, and all players wanting a tryout should be on hand.

## MACNIDER ENJOYS WORK IN CANADA

**U. S. Minister to Canada Mentioned as Hoover's Running Mate.**

**TAKING STRAW VOTE**

OTTAWA, April 29.—Colonel Hanford MacNider, United States minister to Canada, does not attach any serious significance to the straw vote taken by the Washington Post of delegates to the 1928 Republican presidential convention which places him sixth in the list of choices for the presidential nomination in 1932.

In first place, he says that the vice-presidential nomination is not something that one "runs" for and in the second place, he is enjoying his work in Ottawa and has "no ambition or expectation of running for any political office."

In Ottawa, however, there has been a feeling that Colonel MacNider might be sought after as Mr. Hoover's running mate next year, that the President himself might seek his companionship in that capacity in the election campaign. Ottawa has not welcomed rumors to this effect, as it would be loath to lose the very popular American minister.

Colonel MacNider made the following statement in connection with the Washington Post straw vote:

"No one takes pre-convention vice-presidential talk seriously. The nominee is usually selected either from the section of the country where party affiliation of the moment may be in doubt. My state, Iowa, cannot usually be placed in that category.

"I am having a great time in my present job in Canada. I have no ambition or expectation of running for any political office.

Colonel MacNider leaves for the Maritimes where he will address the Canadian Clubs at St. John and Halifax and later the Quebec Canadian Club.

**ORGANIZER DIES**

YOUNGSTOWN, O., April 29. — (CP)—James R. (Jimmy) McAleer, 66, one of the organizers of the American League, former owner of the Boston Red Sox, and former manager of the St. Louis and Washington American League clubs, died today, after a long illness.

# DAMAGE ACTIONS ARE ADJOURNED UNTIL SATURDAY

(Continued from Page 1)

the hill, and said that there were three steep grades, the steepest being a 30 point grade.

Dr. D. J. Holdcroft described Cora Kirby's injuries as being a fractured left wrist, three broken ribs, strained muscles about the chest and right knee sprained.

Mrs. Wrightley, driver of the car, stated that as she proceeded down the hill she put the car in low gear. It skidded out of a rut and the rear end swung around, hitting the railing. It then broke through and crashed headlong down the seven-foot embankment.

**Rear of Car Skidded**

Frederick N. Wrightley said he was the owner of the car which figured in the accident. It was a small car, 1927 model, for which he had paid $685. He stated that he was taking his mother home, driving from Havelock.

At the top of the hill his wife, who was driving, asked: "How will I go down this hill." He instructed her to put the car in low gear, which she did. The rear of the car skidded out of a rut, struck the railing and went over the seven-foot embankment. Mr. Wrightley said. The car came to rest on its top.

Witness said he was employed by the C.P.R. and was off work for nearly a week as a result of the injury to his knee he suffered in the accident. Loss of wages he estimated at $400.

"I figure damages to the car at $200," he said.

Mr. Wrightley said that the Rock Hill road had been built about five years. He considered the road too steep and without sufficient protection.

Cross-examined he said he was a train man with the C.P.R. and had been working steadily previously. He said he allowed his wife to drive the car on the day of the accident because his arm was stiff with a little rheumatism.

The car had no chains, he admitted. Brakes were not applied, witness said, but was going in low gear at a speed of about five miles.

**Didn't Have A Chance.**

Mr. Wrightley was closely questioned by Judge O'Connor as to the circumstances of the accident and what precautions he might have taken had he been driving. "We didn't have a chance," said witness.

Anna Kirby, next witness, said her home was in the United States. She said she was in the back seat of the car in the accident. She said that Mr. Wrightley's mother is her sister.

Her left arm was broken, three ribs fractured and a muscle in her right side was damaged in the accident, keeping her in bed for five weeks, she said. She was under Dr. Holdcroft's care from March 16 to May 3. She said she still had continuous pain as a result of her injuries and can not sleep. She demonstrated that she could not raise her left arm fully.

She said she was 67 years of age, and before the accident was a practical nurse. She made $42 a week at her work in Illinois, but since her injury had not worked.

Oliver Smith, land surveyor, and a defense witness, said that most of the hill was a 14 point grade.

Robert J. McCutcheon, who repaired the Wrightley car, said his bill of $57 was a reasonable one. He could not estimate the value of the car.

Charles Cumming, local car dealer, stated that any car which had gone through an accident depreciates in value from $50 to $100, depending on the extent of damages.

Cross-examined, he said the car would be worth between $200 to $250.

Harry Keslick, another car dealer, said that the depreciation of a car in a crash such as that the Wrightley car went through, would be $45 to $125.

Andrew M. Quackenbush, a resident of the Stoney Lake Road, said he knew the Rock Hill very well. He said the road was very steep and he considered the railing insufficient. He said he generally goes around the hill.

**Not Sufficient Protection.**

Arthur Munro, also a resident of the Stoney Lake road, said the Rock Hill was very steep and he did not consider that there was sufficient protection. He said that he generally used the road with his car.

Cross-examined he said he would not want to drive over the hill without chains if the road was icy.

Dan Menzie, Wm. Munro, Frederick Ellis, Fred Howell described the steepness of the hill. All used the hill frequently and considered it rather dangerous.

A. N. Fellows, engineer of Department of Highways, was the first witness for the defence. He said that the road at Rock Hill was considered wide and safe enough for driving providing the driver used a fair amount of care. He said the guard rail was merely a warning to drivers that there was a depression or curve. He considered the railing sufficient for the traffic on the road.

Dr. T. W. H. Young stated that Anna Kirby was suffering from progressive arthritis and that the injuries she received in the accident could not be given as the cause for her existing ailment.

**Accident Own Fault.**

That Mrs. F. J. Wrightley, the driver of the car had admitted to them that the accident was her own fault was the statement of Mrs. Cora McCarthy and her sister, Miss H. Pollock. The witnesses said that Mrs. Wrightley was brought to their home after the accident. She admitted that she had been driving too fast and that when the brakes were applied they would not hold on the icy road, these witnesses stated.

Duncan MacFarlane, county road superintendent, said that in his opinion the Rock Hill stretch of road was a good piece of road building, and was suitable for the traffic on that road. He said that with due caution it was perfectly safe for motor cars.

The court adjourned until Saturday morning.

## Remarks Resented

United State Ambassador to Spain, Irwin B. McLaughlin, whose alleged remark that members of provisional government looked to him like jailbirds, has aroused considerable indignation in Madrid. It is reported that he may be declared "persona non grata" by the repuolican government.

## At Bethany

Mr. Victor McCartney, of Cromwell spent the week-end with his parents, Mr. and Mrs. William McCartney.

Mr. and Mrs. Joseph Stanley and son Paul, of Toronto spent the week-end with Mr. and Mrs. D. Cairns.

Miss Washington entertained a number of her friends at her home on Wednesday evening. Euchre was played, Mrs. W. A. Brown being winner of the ladies' first prize and Mrs. S. Armstrong the consolation prize.

Mr. and Mrs. McCartney, accompanied by their son Victor, were business visitors to Peterborough on Saturday.

Mrs. J. R. Sisson was a visitor to Peterborough on Saturday afternoon.

Mrs. Joseph Medd accompanied Mr. and Mrs. McCartney to Peterborough on Saturday.

Miss Ada Richardson returned home on Friday from St. Catharines where she had been visiting her brother, who is critically ill in a hospital there.

Mr. and Mrs. Argue, of Manvers Station called on friends in the village on Monday.

Mrs. Arnott was at home to a number of her friends on Monday evening.

Mrs. Murphy, Mrs. O. H. Madill and Mrs. Foster were guests of Miss Washington at dinner on Saturday evening.

The Sterling Silver Orchestra sponsored a dance on Friday evening in the community hall.

# CAMEL CAUSES GREAT CONFUSION

(Continued from Page 1)

anxious to carve up this gate crasher here and then.

**Forgot to Take Shoes**

One of the hunters forgot to take his shoes off as he dove into the mosque in pursuit and he too was set upon. To make his apologies all the more sincere he brought his shoes outside and parked them. They vanished in a split second after he went inside again. What horrors the camel was committing inside can't be reported because I didn't try to go in and the mosque is one of the places I never will invade.

Finally the placid beast sidled out again curious as to what the row was about, the women who had gone into a swoon remembered that their faces were uncovered and blushed for shame and peace came again; if there can ever be a condition described as peace in the Arab quarter.

Sale, (pronounced Sally) has nothing else but an Arab quarter. It dates back dozens of centuries and smells like it. It commands the Bou Regreg which is a river not worth commanding, and it lives on Heaven knows what. It is not safe for Europeans after dark and an awkward spot at any time with a perfectly astonishing red light district and many mosques.

People try to sell everything on the streets from chickens tied three in a bundle to live cobras—most vicious of all known snakes. Since Europeans are warned not to enter here and since everyone else is a salesman of some kind or other it beats me who they sell to. But who am I to worry about that?

The barber shop is a thing of mystery and disease. No Arab would ever shave. He would at once be unsexed, worthless, disgraced. But he does shave his head—and how! The shops I watched had no chairs. Smelly men and boys sat around the walls on great benches. Men have been sitting there so long that they have worn niches in the stone walls. The barbers wield enormous razors but use neither soap or water. They just scrape away at the top of the man's head and clean it cleaner than an egg. Then they collect a half cent and go on to the next. There may be nothing in this theory that shaving a head makes the hair grow quicker but certainly there was not a single bald-headed man on the tiny streets of Sale to-day.

Boys' heads are done differently. Always one long tuft is left, usually at the top of the head, sometimes three are left. In this case the appearance is weird indeed because the lad has one long tuft on the roof of his skull and another over each ear. The idea of this is to assure the boys safe arrival in heaven if he dies before producing offspring. Allah, it seems, will reach down from somewhere or other, seize the lad by these hair tufts and drag him to heaven. The Moslem heaven, being what it is, I can't conceive what fun a boy would have there, but you will have to inspect an encyclopaedia to see what that heaven is. This is a respectable family newpaper and such things can't be discussed here.

**Bake Shop Place of Fights**

The place of all fights is the bake shop. And how they do fight. Coal in this neck of the woods is unheard of except for ships. Because Sahara is just around the corner there is practically no wood. Gas and electricity are also out so such essentials as bread can't be cooked in the home.

The usual thing is to go to the baker and buy your bread, and heavy sour stuff it is. But some housewives, proud of their own dough, mix it up themselves and go to the baker's to have it cooked. What they supply is unceremoniously flopped into the oven with the rest and when brought forth again—only half-cooked it seems—it is put in a different pile. The woman then comes and picks it out. Par at this picking out process is one fight for every two minutes. Every woman swears by the beard of the prophet that the biggest loaf is her loaf. She seizes it and they go to the mat with whoops and shrieks.

When a woman's face is all smeared up in towels and sheets and flour bags she can't see to properly do her fighting so a right merry time is had by all. These fights would make a delightful picture but I am still nursing wounds from a different photographic attempt and to step in among these harem ladies while they're in the heat of battle sounds to me like an excellent method of suicide. We'll have to come back into this market again. There is so much more to tell you, but my column is full.

**Nothing remotely like this new cereal**

*in looks . . in taste . . in what it is*

ALL that's best in Canada's three supreme grain foods . . . wheat, oats, corn . . . is in Crackels. Oven-blending gives this new breakfast delight finer flavour, crisper texture. Crackels stay crisp in your cereal dish right to the last spoonful . . . in spite of milk or cream. You'll delight in this unique, fresh-from-the-oven crispness . . . this lingering flavour. Try Crackels for breakfast. Ask your grocer.

## Claim Germany Plans Young Plan Revision

PARIS, April 29. (C. P. Cable via Havas).—Le Journal to-day reports rumors are current in Berlin that German Government intends shortly to introduce the question of revision of the Young Plan. Official circles are reported to be very reserved on the subject but it is said Chancellor Bruening informed the Ambassador to the United States of the Government's intention. The Ambassador sailed on April 24.

Don't miss "Dracula" at the Regent Theatre on Wednesday, Thursday and Friday of this week. The Examiner Cheer Fund gets twenty-five per cent. of the receipts for relief work.

## THURSDAY IS FINAL DAY FOR INCOME TAX RETURNS

### Fewer Returns May Be Filled Owing to the Financial Depression.

### FOR FOUR COUNTRIES

BELLEVILLE, April 29—Thursday, April 30 is the last day for filing income tax returns, A. A. McGrory, district inspector in the Dominion Income Tax office stated yesterday. In other words, as long as the envelope bearing the return is stamped by the post office April 30th it will be accepted by the department. This is to give those from the far nothern section of the county an equal chance with local filers.

For those who neglect to make their returns in time there is a dire penalty. They will be assessed a 5 per cent fine on their payable tax, so it is a good idea to be on time.

"Each year there is an improvement in the promptness with which the returns are filed and in their accuracy," Mr. McGrory stated to the press this morning. "Correct calculation can be seen to be improving every morning."

Mr. Gregory stated that he expected a detachment of Royal Canadian Mounted Police in Belleville this evening from the Ottawa train. "I do not know exactly just how many will be coming here," he said. A martial air is lent to the offices on Campbell street when the "mounties" in their trim uniforms are stationed outside and inside the building.

Four counties fall under Mr. McGrory's jurisdiction. These include Hastings, Prince Edward, Northumberland and Peterborough Counties, quite a territory, although the Inspector stated that this district is considered one of the smaller ones. When queried he could not estimate how many returns would be filed. "We expect them to be smaller this year," he stated. Perhaps there will be fewer filed, too. This can be laid at the door of the present depression.

## m Lost

LADY'S WATERMAN PEN, ON REID or Park Streets, Monday, April 20. 488 Patterson. 2d-101-1500M

## OLDFELLOWS HAVE TEMPLE REDECORATED

### Walls of Temple Are Done in a Tapestry Finish in Gold and Bronze.

### FINISHED IN WALNUT

A very interesting scheme of decoration has just been completed at the Oddfellows's Temple on George street. The big rooms and the handsome, large Temple itself, where the mysteries of the Order take place, have a new spring dress. Everything has been brightened up and new coats of paint and wall finishes give a bright, cheerful aspect to the popular rooms which have a greater patronage, possibly, than any other lodge-room in the city.

Harris and Boddy and Boreham and Morrison had the contracts for the work, the former confining their attention to the Temple and its refurbishment, the latter doing the work in the other parts of the building.

The walls of the Temple have an entirely new aspect. They have been done in what is termed a tapestry finish in gold-bronze effect, while the ceiling is tinted cream, trimmed with a rich tan, and the two emblems of the Order which enrich it are colored in red and blue. The radiators are blended to match the wall finish and their hoods are in Sienna marble finish. The woodwork is painted in walnut.

The painting of several of the other rooms is in light oak and the walls are done with an attractive paper of the polychrome type. The hall and dining room are finished in walnut, the latter having a very striking wall treatment of panelling, outlined with a fine border of gold and orange lines. The reception room, card-rooms and cloakrooms have all had their interiors done over, also the kitchen, which is painted in semi-gloss style in a light buff color with a stencilled top. The dadoes throughout are in brown burlap finish and the whole effect of brown, buff and cream is handsome and very attractive.

One item catches the eye, the green window shades in the Temple and the kitchen, which were put in place by the well-known secretary of the club, W. F. Green, forty-five years ago, and are still in splendid condition.

435-437 GEORGE ST. - PETERBORO

ADVERTISE IN THE DAILY EXAMINER

THE SON OF TARZAN No. 51 (Metropolitan Newspaper Feature Service, Inc.) By Edgar Rice Burroughs

Korak had come to Meriem's aid, direct from plundering a native village where he had taken arrows, ornaments and food. Even the natives' superstitious fear of the white devil who hunted with an ape was overcome this time by their determination to rid the jungle of him once and for all. The fleetest warriors led by Kovudoo, crafty and cunning, set out in pursuit of Akut and Korak. For hours the tireless trackers followed their trail.

The black savages came to the scene of the mighty struggle just as Akut had left with the tribe. The sight of the young girl held the savage chief spellbound. Was she not the daughter of the Sheik with whom his men sometimes traded? Surely he had seen her before! "If this is she," Kovudoo thought, "the Sheik will pay me well for her return." Then he spied Geeka, the doll his own brother had made Meriem, years before, and was certain!

Korak's arm was around Meriem; loved raced hot through his young veins. In all the world there was but one girl. He drew her close and covered her lips with kisses....And then from behind them broke a hideous bedlam of savage war cries and a score of shrieking blacks were upon them. An avalanche of barbed missiles flew. Korak went down, pierced through the shoulder and one leg. Meriem, they had intentionally spared.

Now they rushed forward to finish Korak and make good the girl's capture. But as they came, there came also from another point in the jungle the great Akut and at his heels the huge bulk of his new kingdom. Kovudoo seized Meriem and succeeded in escaping. Akut rushed to Korak's side; tore the spears from his flesh and licked the wounds, then carried him to the treetop's shelter. And there Korak lay, for days, helpless with fever.

**CARD OF THANKS**

Mrs. J. A. Burnside desires to thank the kind attention of the sisters and nurses of St. Joseph's Hospital and doctors in attendance, also friends who so kindly sent flowers during her recent serious operation.

## WEDDINGS

**CORKERY—LEAHY.**

At St. Joseph's Church, Douro, on Tuesday morning, the marriage was solemnized at half past eight o'clock, of Julia, second daughter of Mr. Mr. and Mrs. Edward Leahy, and James Francis Corkery, son of Mr. Edward Corkery of Ennismore. The Rev. M. J. McGuire performed the ceremony.

The bride wore a gown of rose beige georgette with a lace jacket, sand hat and black satin slippers. She carried a bouquet of snapdragons.

The bridesmaid, Miss Irene Garvey, was in pink georgette trimmed with lace, with black hat and slippers and bouquet of pink carnations.

Mr. Leo Garvey, cousin of the bride, acted as best man.

After the ceremony, a dainty wedding repast was served to sixty guests at the home of the bride. Clergymen present were the Rev. M. J. McGuire of Douro, the Rev. J. V. McCauley of Ennismore, and the Rev. J. J. Garvey of Lakefield.

After a brief honeymoon in Toronto and other western points, Mr. and Mrs. Corkery will reside in Ennismore.

The gift of the bridegroom to the bride was a pearl rosary, to the bridesmaid a silver pendant, and to the best man a pair of gold cuff links.

## OBITUARY

**ELIZA BEST**

The death occurred at Omemee on Friday last, April 24, of Eliza Wilson, beloved wife of the late Samuel Best.

Left to mourn are one daughter, Army; one sister, Mrs. George Hooten, and one brother, Mr. Sam Wilson.

The funeral took place Sunday afternoon to Mount Pleasant Cemetery, a large number attending.

**MISS SUSAN H. CALCUTT.**

The death occurred yesterday afternoon at St. Joseph's Hospital, after a lengthy illness, of Miss Susan H. Calcutt. The deceased, who had resided for many years past with her brother, the late Mr. Henry Calcutt, and her nieces, the Misses Margaret and Kate Calcutt, was born in Cobourg, daughter of the late James Calcutt, Senior, and the late Jane Ann Boice. She was an active and valued member of St. Luke's Church.

The funeral will be held at two o'clock on Thursday afternoon from her late residence to St. Luke's Church, thence to the Little Lake Cemetery for interment. The Rev. G. J. Bousfield will officiate.

# TORIES EXPLOIT HYDRO-ELECTRIC HEPBURN SAYS

Ontario Government Overstaffed "With Employees Doing Nothing."

ADDRESS TO WOMEN.

Criticism of Hon. G. H. Ferguson—Liberals Urge His Recall.

TORONTO, Ont., April 29. (CP)—Discussion of a resolution requesting the recall of Hon. G. H. Ferguson, Canadian high commissioner at London, may provide the high spot of to-day's session of the Ontario Women's Liberal Association annual conclave.

The resolution tabled at yesterday's session, charged former Ontario premier with endangering relations between Canada and Great Britain. Also of being guilty of a breach of etiquette, fine feeling and clear thinking.

Prevailing unemployment conditions will enter the discussion when a resolution is presented regarding unemployment insurance. Development of the S. Lawrence waterways project and reduction of recent tariffs imposed by the Dominion Government on fresh fruits and vegetables will be discussed when resolutions concerning these matters are tabled.

**Hepburn at Banquet**

Mitchell F. Hepburn, M.P. Elgin west, and leader of the Ontario Liberal party, occupied the spotlight at the annual banquet last night. Delivering the principal address the leader charged the provincial government was controlled by outside influences. The Hydro Electric Commission, among other departments, he declared, was being exploited for the good of the party, rather than in the interests of citizens as a whole. The provincial service, he added, was honeycombed with Tory workers drawing salaries for doing nothing. Referring to federal matters Mr. Hepburn criticized Premier R. B. Bennett. He claimed the prime minister had raised the salaries of himself and other cabinet ministers at a critical time. Is it fair, he asked, a bunch of millionaires on the front bench at Ottawa should make a raid on the treasury at a time like this?

# JAMES G. GRAHAM CONTRACTOR DIES

Long Illness Ends Useful Life of Former Alderman of City.

FUNERAL ON FRIDAY.

James G. Graham, former member of the City Council, and one of Peterborough's best known building contractors, died this morning after a long illness at his home, 610 George Street.

In his passing the community loses a familiar figure. Mr. Graham, who was 76 years of age, had lived practically all his life here, and enjoyed the liking and respect of a very wide circle of friends.

He was born in Cavan, Ireland, in 1855, and four years later came to Peterborough with his parents. The family lived for some time in Smith Township before Mr. Graham became a resident of the then town. For many years he was active as a contractor, among the many buildings for which he was responsible being Knox Church, the Protestant Home and the Royal Theatre buildings. He was well known by the thoroughness of his work and the honesty of his methods.

Mr. Graham was for a number of terms a member of the City Council, his first election to that body coming in 1910. His judgment was always highly esteemed by his colleagues and respected by the people he served.

Almost fifty years ago Mr. Graham was married to Mary J. Shannon, who with five sons and one daughter survives him. The sons are: Percy of Asphodel and Harold, Bert, Charles and Norman of this city, and the daughter, Mrs. C. Stanton of Peterborough. Two sisters, the Misses Christine and Elizabeth Graham, 83 Hunter Street East, are also left.

Mr. Graham was an Anglican in religion. He was a member of the Ancient Order of Foresters.

The funeral will take place on Friday afternoon at 2 o'clock from the family residence, 610 George Street, to Little Lake Cemetery. Rev. Dr. R. C. Blagrave of St. John's Church will officiate.

**NEWS STAND MOVED.**

"Blind Jack's" news stand no more graces the south-west corner of the George and Charlotte Street intersection! it has been moved to the north side of the creek on the opposite side and further down the street. The hut was built in 1926 by the Kiwanis Club for blind, though energetic and honest Jack, who has been making a fair livelihood dependent entirely upon the honesty of his customers.

**THREE CONVENTIONS HERE.**

Three important conventions are in progress here to-day. The Ontario division of the Canadian Manufacturers' Association is holding its annual meeting attended by members from all over the province. And the biannual conference of the clergy of the Archdeaconry of Peterborough opened this afternoon at All Saints' Church. The Women's Missionary Society of the Bay of Quinte Conference of the United Church opened its convention last night at St. Andrew's Church, and will last for several days.

# PROVINCIAL GOV'T PLANS TO ERECT BUILDINGS FOR MENTALLY INSANE

Structure at Orillia and One at Penetang Will Cost Almost $500,000.

MOVE GUELPH INMATES.

TORONTO, Ont., April 28. — The Provincial Government has decided to proceed at once with the construction of two buildings for the mentally insane which will cost almost 500,000. Hon. Dr. J. M. Robb, Minister of Health, announced to-day. Erection of a girls' dormitory which will house 150 inmates at the Orillia Hospital for the Insane was approved by the Cabinet. This structure will cost $200,000.

Removal of all criminally insane at Guelph Reformatory to Penetang was also announced by the Minister of Health, where a new building will be erected for them. This will mean the transfer of 150 of the present inmates of Guelph who are guilty of criminal acts through insanity.

The present institution at Penetang houses 400, but when the new building is completed they will be segregated from the criminally insane. This change is in accordance with the Government policy following the Ross report.

Guelph Reformatory will be used in the future for first offenders only. Those under more serious charges will be sent to Burwash Industrial Farm while all criminally insane will go to Penetang.

## MAIN STREET TOPICS

Jabs and Jottings as Picked Up by an Examiner Reporter

**"DRACULA"**

One of the most-talked of pictures of the year is "Dracula," which pictures the adventures of the "undead" who prey on human victims. It is at the Regent Theatre for Wednesday, Thursday and Friday of this week.

Don't miss "Dracula" at the Regent Theatre on Wednesday, Thursday and Friday of this week. The Examiner Cheer Fund gets twenty-five per cent. of the receipts for relief work.

## Friday Supper Club Has Successful Season

The Friday Night Supper Club of the Y. M. C. A. has discontinued its regular weekly meeting, having concluded a very successful season with the big event of last week when the entire club were the guests of the chairman, C. A. Salmonsen, at the Capital Theatre. The meeting Friday night was a fitting climax to a most interesting season.

A special meeting is planned for the week of the opening of the new building. Details are in the hands of vice-chairman L. S. Killaly and the executive committee.

**BORN**

OUTRAM.—On Wednesday, April 15, to Mr. and Mrs. H. W. Outram, 560 Chamberlain street, a daughter (Barbara Joan).

ROBINSON.—On Tuesday, April 28, 1931, to Mr. and Mrs. L. Robinson, 477½ Bolivar, a son.

**DEATH.**

FRANKS. — The death occurred on Tuesday, April 28, of George Franks, Lot 22, Con. 8, Emily.

Funeral on Thursday at 2 p.m. from his late residence. Interment in Omemee Cemetery.

PEAKE—On April 20th, 1931, at Charlottetown, Edith Alice Constance, widow of the late James Peake, daughter of the late Honorable Heath Haviland, Lieutenant-Governor of Prince Edward Island (one of the Fathers of Confederation) and granddaughter of Captain John Grubbe of "Falconwood" and "Horsendon Manor," Buckinghamshire, England, aged 83 years.

CALCUTT. — At St. Joseph's Hospital, on Tuesday, April 28, 1931 Susan Hannah Calcutt, daughter of the late James Calcutt, Sr., and Jane Ann Boice, and sister of the late Henry Calcutt of Ashburnham.

Funeral will be held from her late residence, 73 Robinson Street East City, on Thursday, April 30 at 2 p.m. Service in St. Luke's Church. Interment in Little Lake Cemetery.

## Bennett Announces War Bond Conversion

### BILLION DOLLAR LOAN MATURING BY END OF 1934

Holders of Bonds to Be Given Opportunity to Convert.

**$250,000,000 FIRST.**

Re-financing of $1,083,000,000 Federal Debt a Heavy Problem.

OTTAWA, Ont., April 30.—(By the Canadian Press.)—Official announcement was made by Premier R. B. Bennett to-day that the Dominion government was preparing plans for a new long term conversion issue. The new bonds to be offered at this time will be for the conversion of a part of all issues maturing between now and the end of 1934.

"A definite announcement of the conversion plan," the Prime Minister declares in his statement, "will be made only when the government is satisfied that every detail has been arranged for a Dominion-wide opportunity for holders of existing bonds to place their applications for conversion."

**Long Term Bonds.**

The Prime Minister's statement indicates that the preparations for the new loan have now reached the completed stage reports from New York last night set forth. It is understood, however, that the loan announcement of which was forecast here last night, will be for approximately $250,000,000 at 4½ per cent and for a long term. The total value of bonds coming due in the next four years, which are to be taken care of in part by the conversion loan is $1,083,000,000. It is expected the loan will be offered in ten or fifteen days.

**Premier's Statement.**

The text of the statement of Premier Bennett follows:

"The Government of Canada is preparing to offer to holders of the 1931, 1932, 1933 and 1934 bonds of the Dominion an opportunity to convert into a new long term issue. The amount of new bonds to be offered at this time will be limited and provision will be made for the conversion of a part of all issues, maturing between now and the end of 1934. No new money will be asked for, as the operation will be entirely one of conversion. The balance of the bonds, which will remain outstanding after this operation is completed, will be financed later in such forms as the government may determine to be in the public interest.

A definite announcement of the conversion plan will be made only when the Government is satisfied that every detail has been arranged for a Dominion-wide opportunity for holders of existing bonds to place their applications for conversion."

### GLENCOE YOUTH KILLED IN CRASH

Speeding Auto Crashes Into Disabled Truck Near Delaware.

TWO BADLY INJURED.

LONDON, Ont., April 30. (CP)—Bert Loosemoore 22, son of Mr. and Mrs. Fred Loosemoore, proprietors of McKellar Hotel, Glencoe, Ont., was fatally burned when a car in which he was driving with two other young men crashed into the ditch on No. 2 highway near Delaware village early to-day and caught fire. The other two occupants, Donald Taylor, Normal avenue, Kent, Ohio, and Lloyd Farrell, Windsor, are in hospital here, critically injured. Farrell suffered severe burns, and Taylor head injuries.

It was learned the three young men were out for an early morning ride when they smashed head-on into the rear of a transport truck that stood disabled on the highway. Their car swerved into the ditch and caught fire. Loosemoore who worked at his fathers' hotel, was trapped inside badly injured about the head, and died almost instantly.

**FAILS TO FORM CABINET**

SOFIA, Bulgaria, April 30 (A.P.)—Former Premier Malinoff to-day returned to King Boris a mandate to form a new Cabinet. He said he had been unable to reach an agreement with the opposition. It was the second time he had reported his failure to form a Government in the past week.

### Jumped Off Van Into Car's Path

Lindsay Mail Carrier's Son Seriously Injured Near Home.

(Special to The Examiner)

LINDSAY, Apr. 30. — A serious motor accident occurred here Wednesday afternoon when Gordon Bate, the 7-year-old son of Mr. Gordon Bate, mail carrier was seriously injured.

The little fellow was hanging on to the rear of the Royal Mail van near his home and in jumping off was struck by a passing auto. His leg was broken in two places, one of his eyes badly injured, his tongue severely cut and requiring several stitches. He also sustained severe cuts about the face. The boy is at present in Ross hospital. No blame is attached to the driver of the car.

### 200 EMPLOYEES OF NAVAL PLANT KILLED OR HURT

Explosion Wrecks Brazilian Naval Laboratory With 400 Workers.

IN TORPEDO ROOM.

Situated Across the Bay From Rio de Janeiro.

RIO DE JANEIRO, Brazil, April 30 (C.P.)—Half of the 400 employees in the naval laboratory at Nichtheroy were reported killed or injured to-day when an explosion wrecked the plant.

As soon they they could get near the place, rescuers began removing the mutilated bodies of the dead and carrying out the injured.

The hospital at Nichtheroy was quickly filled and many of the victims were brought here. The explosion which was believed to have occurred in the torpedo-loading room wrecked that building and an adjoining three-storey structure.

Nichtheroy is just across the bay from Rio De Janeiro and the injured who could not be accommodated there were carried across in launches.

The Ministry of Marine said it was impossible to estimate the number of dead and injured accurately, but it was virtually certain that at least 200 had been killed or badly hurt.

### SNOWDEN'S TAX ON LAND VALUES ADVANCES STEP

First Stage Passed With Unexpected Ease, Chancellor Being Only Speaker.

FEATURE OF BUDGET.

Conservatives Apparently Reserve Ammunition for Later Stage.

LONDON, April 30.— (C.P.) Staff Correspondent.)— The first stage of the tax on and values proposal—the central feature of the Snowden budget—passed the House of Commons to-day with unexpected ease.

Rt. Hon. Philip Snowden, Chancellor of the Exchequer, was the only speaker from the Government side. Rt. Hon. Lloyd George, Liberal leader, appeared with notes in his hand but did not speak. The Conservatives were apparently reserving their ammunition for a later stage.

The procedure was only the usual procedure attached to a resolution but it established a precedent which the Conservatives describe as revolutionary. It provided that notwithstanding established practice of the House of Commons provision may be made in the finance bill of the present session for imposing the tax on land values, although the tax is not likely to come into operation for a considerable time. The Finance Bill is the measure giving legislative effect to the budget taxation proposals.

**Take No Chances**

The Government action indicates it is going to take no chances of the House of Lords throwing out the proposal to tax land values. Mr. Snowden intimated that he considered the valuation of land a highly necessary preliminary to the assessment and levying of the tax. He announced that provision for the valuation of land and imposition of the tax would be contained in the Finance Bill. The tax itself will probably come into operation in the next fiscal year, 1932-1933.

The sting lay in the decision to incorporate the enabling clauses within the Finance Bill. The Finance Bill after passage by the House of Commons goes to the House of Lords, but becomes law within a month whether the Peers reject it or not. The Peers would be able to reject a separate valuation bill and hold up the whole scheme for two years, if the Government followed this course.

The tax will be at the rate of one penny in the pound—less than half of one per cent. Commander Charles Williams, Conservative, objected that the resolution allows for the imposition of a tax, the amount of which we do not know, and the general character of which we do not know."

To-day's skirmish, however, was only the preliminary. The main bout opens on Monday, when the Chancellor submits the scheme itself to the House. Debate will continue on Wednesday and Thursday of next week.

### Begged His Meals Along Highway But Spent $100 At Liquor Shops

Out of work for months, hungry and with a consuming thirst, Herbert Peterson, of Picton, decided to slake his thirst with beer and let the city supply him a meal.

Drunk on six quarts of beer purchased from the local vendors, he called at the police station last night to solicit a free meal ticket, and landed in the lock-up instead. He was found guilty by Police Magistrate Langley this morning of being intoxicated and was sentenced to ten days' board at the county jail.

Peterson's liquor permit showed that he had visited almost every city between Montreal and Detroit. The permit was the log of his travels, because at each place he endeavored to quench his thirst while allowing charitable organizations look after the other needs of the inner man. His liquor purchases totalled nearly $100, but he won't get anymore because his permit was cancelled today.

### PLANE CRASHES PAIR OF FLIERS DIE IN FLAMES

Machine Gets Out of Control 1,000 Feet Above Brandon Aerdrome.

MANY WITNESS TRAGEDY.

Young Men Found in Wreckage Locked in Each Other's Arms.

BRANDON, Man., April 30 (C.P.)—Two young men crashed in an airplane from a height of 1,000 feet last night and died in a flaming mass of wreckage. Clasped in each other's arms, William Clark and his chum, William Britten, were found dead, their bodies charred beyond recognition, when the flaming structure had burned itself out.

Clark was the 21-year-old son of Col. and Mrs. A. J. Clark of Brandon; Britten, 27, was the son of a prominent farmer of Wawanesa. They had returned from a flight to Wawanesa and had landed at Brandon, when they decided to ascend on a flight that ended in death.

**Gets Out of Control**

Piloted by Clark the machine zoomed over Brandon in a series of manoeuvres and then the chums decided to land. One thousand feet from earth the machine shot out of control and plunged crazily to the ground. It burst into flames and struck the landing field near the airdrome.

When the flaming structure had ceased to burn a number of people who had dashed to the scene began a search of the wreckage. The bodies of the chums were found arms entwined, horribly crushed and burned.

Thomas M. Shields, Inspector of Avitation for the Dominion Government, will hold an inqury into the fatal crash.

### DEATH OF VICTORIA COUNTY REGISTRAR

James R. Mark Passes Suddenly at Lindsay.

(Special to The Examiner)

LINDSAY, Apr. 30.—The sudden death took place today of James R. Mark, registrar of Victoria County. The deceased has not been in good health for some time, but was able to attend to his official duties. The deceased was for a number of years a merchant in Lindsay and also in Kinmount where he resided when he was appointed registrar a little over a year ago. He represented the riding of North Victoria in the Provincial Legislature for six years. He is survived by a daughter residing in Lindsay and a son a merchant at Kinmount. He was in his 76th year.

### Arab Shepherds Dying As Drought Continues

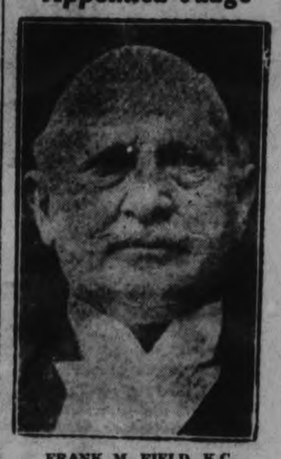
JERUSALEM, April 30. (AP) — Hundreds of shepherd tribesmen and their flocks are reported dying of thirst and starvation in the deserts of Southern Syria and Central Arabia where a winter drought killed off vegetation and dried up wells.

Word from Basra said it was likely that only those tribes which already have reached riverbanks or the deeper wells can live through the summer. It has been suggested that the Government send water and provisions by auto truck and airplane.

**DO-X HEADS FOR BRAZIL FRIDAY**

LAS PALMAS, Canary Islands, April 30 (C.P.)—Germany's seaplane DO-X may leave here to-morrow morning for a trans-Atlantic flight to Rio Oro, Brazil; her officers said to-day after a successful test flight.

### Appointed Judge



FRANK M. FIELD, K.C., Cobourg lawyer, becomes Junior Judge of York County. Judge Field is an outstanding member of the Ontario Bar, a keen curler and a prominent Conservative.

### FRANK M. FIELD BECOMES JUDGE

Cobourg Lawyer One of Five Judges Appointed in Ontario.

IS KING'S COUNSEL.

OTTAWA, April 30.—Five new County Judges were appointed by the Cabinet yesterday. Official announcement was made by the Hon. Hugh Guthrie, Minister of Justice, as follows:

James Parker, K.C., Toronto, to be a Junior Judge of the County of York.

F. M. Field, K.C., Cobourg, to be a Junior Judge of the County of York.

F. W. Wilson, K.C., Sarnia, to be Junior Judge of the County of Essex.

Andrew A. Ingram, K.C., St. Thomas, to be Junior Judge of the County of Middlesex.

Hugh Paterson Innes, K.C., Simcoe, to be Judge of the County of Dufferin.

James Parker, K.C., appointed Junior Judge of the County of York, was born in Stirling, Ont., the son of Dr. Robert Parker. He attended public and high school there, and later went to Queen's University in 1898. After graduation Mr. Parker did not enter law, but went to Montreal and joined the Sovereign Bank there. In 1907

### Toronto Business Men Oppose New Holiday

TORONTO, Ont., April 30 (C.P.)—Almost without exception merchants, manufacturers and business men of Toronto are opposed to the bill passed in the House of Commons that makes Armistice Day, November 11, a public holiday, to be known as Remembrance Day. One large section of criticism complains that making Armistice Day a holiday adds a spirit of irreverence to the occasion, in which the true spirit of remembrance will be lost.

Business men say not only are there too many holidays already, but that two holidays, like Armistice and Thanksgiving Day, coming so close to each other in November, will seriously interfere with the Christmas trade.

**S. H. THOMPSON SUCCEEDS LEGGE**

WASHINGTON, D.C., April 30 (A.P.)—Sam H. Thompson, former president of the American Farm Bureau Federation, to-day assumed office as a member of the Farm Board.

He fills the vacancy caused by the resignation of former Chairman Legge.

### TWO OTONABEE MEN OPPOSING SALE OF BONDS

Injunction Against Solloway Mills & Co. Sought at Osgoode Hall.

LOCAL CASE'S ECHO.

Mervin Mather and Herbert Howson Gave Bonds to W. A. Anderson.

TORONTO, April 30 (Special to The Examiner).—Allegations that $5,000 worth of Dominion of Canada Bonds had been assigned by means of forged signatures, were placed before Chief Justice Rose at Osgoode Hall to-day, in affidavits made by Mervin P. Mather and Herbert C. Howson of Otonabee Township, whose counsel, W. H. Harris of Port Perry, asked for the continuation of an injunction restraining Solloway, Mills and Co. Ltd., from disposing of bonds to which the plaintiffs lay claim.

The affidavits declared that forged signatures, purporting to assign a $1,000 bond registered in Mather's name, and a $4,000 bond in Howson's name, had been placed in the bonds either before or after they were delivered by W. A. Anderson, Peterborough cheese-maker, to the brokerage firm. Both affidavits stated that Anderson had admitted that the signatures were forgeries.

"These are motions which I think should be opposed," said R. I. Ferguson, counsel for Solloway, Mills and Co., who asked for an adjournment since no defence material was ready. The Chief Justice ordered an adjournment until next Thureday; the injunction to continue meanwhile.

**For Stock Purchases**

Mather declared in his affidavit that in December, 1928, W. A. Anderson had obtained from him a $1,000 Dominion of Canada bond, registered in his name, to be used for the purchase of stock on the plaintiff's account. Later he learned, when he made enquiries of the Department of Finance at Ottawa, that the bond had been sent to the Department bearing what purported to be his signature, and replaced with a bearer bond.

"Anderson has acknowledged on several occasions," the affidavit said, "that the said bond was not endorsed or assigned by me and that such signature was a forgery."

An exhibit to his affidavit was a letter from Slaght and Cowan, solicitors for Solloway, Mills and Co., advising Mather that the brokers were holding Dominion of Canada bonds for $5,000 against an account of $3,843 owing by Anderson, and that the bonds would be sold unless redeemed by April 20.

Mather said he had been advised by Anderson that the bearer bond replacing his bond was among those held by the brokerage firm. A similar affidavit concerning a $4,000 bond was made by Howson.

### S. DICKSON HALL DIES SUDDENLY

Brief Illness Fatal to Former Peterborough Merchant.

FUNERAL SATURDAY.

For many years one of Peterborough's leading business men, S. Dickson Hall died early to-day at his home, 25 Dennistoun Avenue, in his 60th year.

Word of Mr. Hall's death will be received with a distinct shock by a wide circle of friends and business acquaintances. His illness was brief, first coming in the form of a cold last Thursday.

Mr. Hall was the son of the late Richard Hall, founder of the Richard Hall and Son, Ltd. store of this city. He was born and educated here and early became associated in the business, finally succeeding his father as manager. During his younger years he was buyer for the firm and travelled extensively to Europe and other markets. In 1927 he retired from active participation in business.

He was a member of the Nicholl's Park Commission, Rotary Club, Peterborough Club, and until this year an active member of the local curling club. He was a member of St. Paul's Presbyterian Church and of the Royal Arthur Masonic Lodge.

He married in June, 1906, Mary T. Rush (daughter of the late Mr. and Mrs. Thomas Rush) who survives him; together with a son, Crawford U. H. Hall. Also surviving are: three brothers, H. W. Hall of Toronto; J. Herbert of Toronto, and Wilfred Hall of Gravenhurst; and one sister, Mrs. George Lundy of this city.

The funeral service will be held at his late residence at 2.30 p.m. Saturday, conducted by Rev. William Allan of St. Paul's, assisted by Rev. Douglas Paterson of All Saints' Anglican Church. Interment will be in the Little Lake Cemetery.

### FUNERALS AND WEDDINGS CALL FOR BIG PARADES IN MOROCCO

But Christenings "Take the Cake" as Most Successful Ceremony.

ARAB STEEDS RENTED.

By GORDON A. SINCLAIR

RABAT, Morocco, April 30.—(Copyright, 1931).—Life and death births and funerals come casually to the Moroccan native and doctors play no part in either of them. Birth is reckoned the supreme simplicity, simpler than having a haircut, less important than a pair of new sandals.

Death too is routine stuff when children are claimed but the death of an adult calls for a procession and that is a matter for a solemn sort of whoopee. One of these processions passed today and showed the great scarcity of wood in this parched land because the corpse was carried shoulder high without trace of coffin.

The weird piping music of the east heralded the coming. Bagpipes make the only other sound even remotely resembling this barbarous music which drifted up and down narrow streets calling people from their tiny homes.

The body, wrapt in a white sheet

### $840,000 Policy Gregalach Ticket

BUFFALO, N.Y., April 30 (C.P.). — A little piece of pasteboard worth nearly a million dollars, recently crossed the Atlantic Ocean, protected by an insurance policy for $840,000

The pasteboard was a ticket on the horse Gregalach in the Grand National Steeplechase, which won for Clayton C. Woods and his family in this city approximately $860,000.

A firm of insurance brokers here announced to-day that when the ticket was sent to Dublin it was insured against loss by a Marine Insurance Company. The premium was $315.

The ticket-holders still are in a cottage on the Ontario shore of Lake Erie and have announced their intention of remaining there until they are certain that their money will be unmolested.

**SWORN IN MAY 5.**

EDMONTON, Alta., April 30 (C.P.).—Hon. W. L. Walsh will be sworn in as Lieutenant-Governor of Alberta on May 5, according to a telegram received by Premier Brownlee from the Prime Minister, Hon. R. B. Bennett. It is expected E. J. Lemaire, clerk of the Privy Council, will come here from Ottawa to take part in the ceremony.

## Villages Collapse Killing 400 Persons And Injuring 2000

Every House in One Town Destroyed by Earth's Tremors—Longest Shock Lasted One Minute—Property Loss $1,000,000.

20,000 PEASANTS REPORTED HOMELESS IN ONE OF THE DEVASTATED DISTRICTS

Preliminary Estimates Tabulate Misery of Stricken Area of Armenia—Soviet Neighbors Rush Relief.

ERIVAN, Armenia, April 30 (C.P.).—Nearly 400 persons were killed and 2,000 injured in the earthquake which rocked Armenia on Monday, according to preliminary estimates, and property damage probably will reach $1,000,000.

The shocks were felt generally throughout Armenia, but were most severe in the southwest near Nakhichevan, where the longest shock lasted about one minute, and was followed by terrifying subterranean rumblings.

The flimsy native huts collapsed in a dozen villages, and at the little town of Sisian every house was destroyed. The villages of Gerusin and Megrin also suffered heavily.

**Moscow Sends Aid.**

The Ogpu (secret police) have seized hundreds of tons of grain consigned to Baku and relief committees organized in the neighboring Soviet Republics, and are sending money and supplies to the points where they are needed most. The government at Moscow has sent 2,000,000 rubles and some of the larger newspapers also have contributed large sums.

Twenty thousand peasants are said to be homeless in the Kazance district, living in the open. A heavy rainfall is adding to their misery, and food is scarce.

In the Gerusin district nine villages were wiped out with more than 100 killed, and at Sisian the death toll was even higher.

### CHURCH APPEAL SHOULD BE HELD ON HIGH PLANE

Rev. W. Simpson of Millbrook Addresses Anglican Conference To-day.

CHURCH ATTRACTION.

Strength Rests Partly in United Body of the Church.

"How Can We Strengthen the Church's Appeal to the Canadian People?" was the subject treated by Rev. W. Simpson, B.A., of Millbrook, in the opening address of this morning's session of the Archdeaconry Conference being held in All Saints' Parish Hall.

How to make the ministry more effective in the Canadian church has been a live topic all through the Conference, said the speaker. Apart from the leadership of the priest in charge, the church must carry on in many cases under its own appeal, not in an individualistic sense, but as a unity. The subject refers to "our" church, and hence there are limitations, things which we cannot do. The appeal must be the appeal of the church, within the genius of its organization. "We cannot use cheap methods of attraction. We are conservative; we minister to that wing of the church. So we must work under limitations to remain true to the old church."

The appeal she can make as an institution will be the development of a self-consciousness which is integral in the building up of the Kingdom of God. In 1902 the first of the departmental organizations was started with the M.S.C.C. Such societies are the result of using the circumstances under which Anglicans live and from there proceeding to something higher. Teaching, preaching, and work among the heathen are the three activities of the M.S.C.C.—the same as those laid down by St. Matthew. This is a step towards the unity of the Canadian Church, maintained Mr. Simpson.

**Fewer Divisions.**

The diminishing of divisions among the ministry and of sectional inclinations in the church will also strengthen its appeal. The all-important things in its life are shaped down to the place which the church takes in the working towards God's Kingdom.

Another way of strengthening the church is the Sunday School work, for the purpose of bringing up the young in the principles of the Christian faith.

"I don't think we can make a very great appeal to the new Canadians in the West, as we have not enough money or men. The United Church is forging ahead in this field because they are teaching men the foreign languages and providing the money for men to labor amongst them. There is a large English personnel there. These immigrants are not teachers any more than they were farmers. Agricultural conditions have sent them into the towns where they work as bank tellers, butchers, storekeepers, etc. — there are no teachers. I shall leave these thoughts with you for further discussion, said the speaker in conclusion.

**Rev. R. J. Shires**

The second address at this morning's session of the Conference was entitled "Keeping our Message Fresh" by Rev. R. J. Shires, B.D., of Haliburton. "Under present circumstances," he said, "the delivery of the Christian message is practically confined to the two channels of services and sermons. Such constant repetition as is found in the morning and evening prayer may have its value in impressing an idea, but it certainly tends to a diminution of inspiring interest. We complain about Anglican conservatism yet we ourselves

### JAPANESE HAVE CORDIAL REGARD FOR CANADIANS

Accord Cultivated by Hon. Herbert Marler's Efforts as Minister.

PRINCE IN MONTREAL.

Royal Visitor Reminds Canada of Japan's Purchases.

MONTREAL, Que., April 30. (CP) Japanese have a most cordial regard for Canada and Canadians, especially since Hon. Herbert Marler came to Tokyo as Canadian minister" His Imperial Highness, Prince Takamatsu of Japan said to-day in a press interview here.

"We buy many goods in Canada" the Prince continued, "and would like Canadians to buy more of our exports. We buy more from you than you do from us."

Evading all attempts to draw pronouncement of opinion on political or international affairs, His Imperial Highness courteously answered a barrage of questions through Tako Yamagata, master of ceremonies and interpreter.

The prince said that he and the Princess Takamatsu were impressed with what they had already seen of Canada, but regretted that they had not been able to alter the time of their visit to enjoy more propitious weather.

"We were especially charmed with the French-Canadians we have met in Quebec and Montreal" said the Prince. He spoke briefly of the modernization of Japan, but believed that the old traditions and customs of the empire would not change materially.

### 5,000 Artificial Silk Workers Go On Strike

COVENTRY, Eng., April 30 (C.P.).—About 5,000 workers went on strike to-day in protest against a reduction by Courtauld's, Ltd., of two-pence an hour in the wages of spinners.

Workers in other Courtauld factories were reported to be planning sympathetic action soon. The management announced that the wage cut had been under consideration for about two years, and had become necessary in order to meet foreign competition in artificial silk and yarns.

# Leaders Endorsed Social Legislation In House Debate

**Three Labor Members Urge Scheme to Protect Workers Against Unemployment, Sickness and Invalidity — Premier Promises Thorough Enquiry.**

**INFORMATION TO ASSIST GOVERNMENT WILL BE OBTAINED FROM CENSUS**

**Conditions in Winnipeg Are Appalling Says Labor Member— Regrets Prospective Delay of Four Years.**

OTTAWA, Ont., April 30 (C.P.). — Unemployment insurance engaged the attention of the House all day on Wednesday. The subject was introduced by one of the three Laborites, A. A. Heaps, member for Winnipeg North, who introduced a resolution recommending the immediate establishment of an insurance scheme against unemployment, sickness, and invalidity. Although debate on the motion was not concluded, it lasted long enough for Premier R. B. Bennett and Right Hon. Mackenzie King, Liberal Leader, both to lend their support to the principle of unemployment insurance.

"At the earliest possible moment," promised the Government Leader, "consistent with obtaining information that is essential to make any measure worth while, we will use that information for the purpose of preparing and submitting to this House a measure embodying the views I have expressed."

**Census To Be Aid**

**Much of the information now lacking would be obtained through the census to be taken this summer, the Premier said. For the first time in Canada's history, the decennial census this year will include a poll of the unemployed. Actuarial principles then could be applied to the information, the Premier said, because "upon a just and true appreciation of the factors involved depends the success and the solvency of the fund."**

Mr. Bennett suggested to Mr. Heaps that he delete the word "immediate" from the resolution, make it plain it was a contributory form of insurance that was to be placed in operation and also that the co-operation of the Provinces would be secured.

"This Government is anxious," declared the Premier, "to promote in every possible way the advancement of social legislation along the lines suggested." One form of unemployment insurance he would not adopt was the non-contributory basis, Mr. Bennett reiterated. He said also that Canada never could stand a system such as Great Britain's with its tremendous drain upon the public treasury.

At the present time there could be "no leaping in the dark, no jumping into the abyss without full knowledge of what is involved," the Premier declared. That would spell disaster for the scheme and would bring suffer-

# 41 LOSE LIVES AS TRAIN BURNS ON CAIRO ROAD

**Flames Sweep Coaches While Engineer, Unaware, Speeds Ahead.**

**PROBE IS ORDERED.**

**Scores Injured as Passengers Leap Frantically From Express.**

CAIRO, Egypt, April 30.—(A.P.)—Forty-one persons were counted dead to-day, with scores injured, in one of the strangest catastrophes in the history of railway traffic.

As the Cairo-Alexandria express rolled along yesterday afternoon, laden with a holiday crowd of pleasure seekers, a hot box developed on one of the third class coaches and set the coach afire. The train's motion pulled the flames down the length of the coach, and then one by one into the trailing coaches. Passengers were panic stricken. Many burned to death. Others, preferring to jump from the speeding train, lost their lives as they hurled themselves from coach windows to the right of way.

**Flagman Halts Engineer.**

Frantic eforts were made to signal the train engineer, who sped up his train, unaware of the tragedy being enacted behind him. It was not until he passed Benha, where a signalman saw the flame and flagged him down, that he knew what had happened.

He stooped his train and the greedy flames devoured the remainder of the three cheap coaches, charring the bodies of those inside beyond recognition, and finally leaving only the under carriages unconsumed.

Railway officials said it would be impossible accurately to estimate the casualties until a thorough search had been made along the right of way for other bodies or persons so badly injured in their jumps from the coaches that they had been unable to seek asisstance.

The engineer was arested pending an official inquiry at Benha. It was the worst train accident of Egyptian historwy.

# PARTING DRINK ENDS IN DEATH

**Husband Watches as Wife and "Other Man" Drop Dead of Poison.**

**POLICE SAY WOMAN TRICKED**

CHICAGO, Ill., April 30. — While her husband and another witness watched helplessly, Mrs. Ralph Garrison of Kalamazoo, Mich., and a man police said they identified as J. H. Hartung of Dayton, O., lifted glasses to their lips, drank the contents, and then fell dead last night in the room of a downtown hotel.

Detectives said they believed that Hartung tricked the woman into taking the poison and killed himself because of the projected reconciliation of Mrs. Garrison and her husband.

The Garrisons had effected a reconciliation. Garrison came to Chicago with Mrs. Jones after they had located Mrs. Garrison in Chicago. The Garrisons and Mrs. Jones went to the hotel together.

"I've come to reclaim my wife and to gather her belongings and take her home," Garrison was quoted as saying to Hartung.

Hartung smiled calmly. He looked at Mrs. Garrison, and said:

"Let's have a last drink together."

Filling two tumblers from a flask, Hartung handed one of them to Mrs. Garrison and took the other himself. In a moment both were dead.

Police Lieut. David Schwartz said he had uncovered evidence that Mrs. Garrison was an unwitting victim of the affair.

**JAPANESE ROYALTY ARRIVES IN CANADA**

Prince and Princess Takamatsu of Japan have arrived at Quebec on a tour of Eastern Canada, which will take more than two weeks. The royal couple were welcomed with all the pomp and circumstance the ancient capital could offer. The Prime Minister was represented by Hon. Maurice Dupre, Solicitor-General.

# ARCHDEACON DAVIDSON STRESSES IMPORTANCE OF LAYMEN'S HELP IN ADVANCING WORK OF CHURCH

**Conference of Clergy of Archdeaconry of Peterboro Opens.**

**DISTRICT SPEAKERS.**

**Rev. Stanage Boyle Discusses View of Problems of Mankind.**

"We should train more laymen for leadership in the church, and the clergy and lay ought to work together to win others to Christ. May we keep up our own spiritual standard and become more Christ-like, like Him to whom we wish to lead our people." These were the words of Venerable Archdeacon J. C. Davidson, M.A., at the Conference of Clergy of the Archdeaconry of Peterborough held in All Saints' Parish beginning at 2.30 yesterday afternoon. The meeting is one which is held every two years, and this one is the resuk of the work of the Program Committee, consisting of Archdeacon Davidson, Rev. J. D. Paterson, L.Th., rector of All Saints' and Rev. Dr. T. S. Boyle of Cobourg.

The Conference was opened by service in the church at 2 p.m. at which His Lordship Bishop J. F. Sweeney, M.A., D.C.L., of Toronto preached.

Following this, the meeting adjourned to the Parish House where the proceedings were presided over by Archdeacon Davidson. In his address to the clergy of the Archdeaconry, he stated that so far he had come into contact with 26 of his 36 congregations, and had attended services at the others. He referred to Archdeacon Allan, his predecessor, as being the first man to start these conferences in the Canadian Church of England. He also congratulated the rector and people of All Saints' on their fine church and buildings and on the organization of their congregation.

Archdeacon Davidson stressed the importance of training a larger number of laymen for work in the church. The clergy, he urged, must labor with the laymen in accomplishing the Speaking of the present industrial depression, he said that after all everything was not paying, but also praying. It was the Archdeacon's sanguine hope that the clergy should maintain their spiritual standard so as to become more like He to whom they tried to lead their flocks.

**God in Natural Law**

Two interesting papers on the subject, "God in Natural Law," both presenting a different viewpoint on the matter, were read by Rev. Dr. R. C. Blagrave of St. John's Anglican Church, and Rev. Dr. T. S. Boyle of Cobourg.

"Can God and Law live on the same throne?" queried Dr. Blagrave. "Natural law in the spiritual world answers well to reason. We are led to determination only when law leads us to attempt to determine all things." In the speaker's opinion, law is really a friend of reason; each realm has its own appropriate laws, and violation of reason only comes when any of these are transposed.

"Law" was described as being a term of convenience—what happens uniformly in nature all the time. Law keeps and sustains motion of every sort, human, mechanical and of the

(Turn to Page 10, please).

## *Hunt For Courtauld Hampered By Fog*

BERGEN, April 30.—(A.P.)—Captain Albin Ahrenberg, Swedish civilian aviator, to-day awaited favorable weather before taking off for Reykjavik, Iceland, from where he will fly to Greenland to search for Augustine Courtault, missing British scientist.

Everything was ready for his take-off as soon as fog should clear and occasional squalls of rain subside. Captain Ahrenberg reached here at 8.45 p.m. yesterday, after having left Malmoe in a fog and with adverse winds and heavy rain most of the way. He had to alight on the sea near Kristiansund for a half hour and await improvement of the weather and halt again at Stavanger for refueling.

Bergen is on south-west coast of Norway. Captain Ahrenberg's route to Iceland will lie over the Faroe Islands.

## *Walker To Put Stop To Paper Racketing*

**NEW YORK, N.Y., April 30. — (C.P.).—Mayor Walker has decided that "racketeering" in newspaper sales must cease.**

**He ordered the police department and the license department yesterday to revoke licenses of any news-dealer and to remove from the streets vendors charging more than the regular price.**

**The move was made at the demand of newspaper publishers who charged that early editions were being sold at a greatly increased price in "the biggest newsdealer racket in the nation."**

# FUNCHAL SIEGE BEING RENEWED

**Gov't Forces Abandon Temporary Truce and Prepare for Decisive Battle.**

**BISHOP PLAYS PART.**

LISBON, Portugal, April 30 (A.P.) —A Government note issued at 4 a.m. to-day stated that military forces besieging Funchal, Island capital of Madeira, were on the verge of a decisive battle with rebel troops holding the capital.

"Military operations," their character undefined in the note, were said to be progressing after a temporary truce during which a second effort of the Bishop of Funchal to negotiate an armistice was being considered.

There was no confirmation of reports current here which created wild excitement among the populace, to the effect that the gunboats ringing Funchal harbor had landed troops on Madeira, principal island of the group, and had bombarded the city. The Government note said: "A wireless message received this morning by the Government from the base of operations states that operations against the rebels were temporarily suspended, the result of the second intervention on behalf of the rebels by the Bishop of Funchal.

"The Government attitude as defined by the Minister of Marine (who has demanded uncondition surrender of the rebel Junta) and as known to the public remains unchanged.

"Admiral Correia's radio message also says that the morale of troops aboard the vessels of the expedition is excellent and he paid tribute to the spirit of sacrifices of the military and naval forces whose devotion to the national cause on the eve of the attack is worthy of being called to the attention of the nation." The note ended with a statement that an attack on the city is imminent.

## *Trans-Atlantic Trips Likely To Be Reduced*

PARIS, April 30 (C.P.). — A drastic cut in the cost of trans-Atlantic travel was understood today to have been proposed by British shipping interests in a rate conference meeting here.

The British proposal was said to amount to a ten per cent. reduction in first and cabin class ocean fares and establishment of a $100 steerage rate for the round trip between Europe and the United States and vice versa.

Other shipping interests were understood to be opposed to such a radical slash, with the result that the conference has developed into a meeting of intense debate from which a decision was not expected for several days.

## *Sir Ronald Lindsay On Way To Canada*

WASHINGTON, D.C., April 30 (By Ken. Clark, C.P. Staff Correspondent). — Sir Ronald Lindsay, the British Ambassador, left here this afternoon for his first visit to Canada in twenty-five years. When Earl Grey was Governor-General and Sir Ronald was junior secretary of the Embassy here, he used to go to Ottawa for vacations to stay with his cousins at Rideau Hall, where there was skiing in the winter and tennis in the summer. Sir Ronald still plays tennis.

# POLICE READY FOR MAY DAY

**Paris and Berlin Mobilize Forces to Curb Demonstrations Planned.**

**SPAIN TO CELEBRATE**

LONDON, Eng., April 30. (CP)—Police of much of the world to-day made preparations to suppress disorders and maintain order during wide-spread observance to-morrow, May Day, of International Labor Day.

In Great Britain May Day celebrations have gone somewhat out of fashion and little beyond some soap box oratory and a few small processions were expected in London, but elsewhere in Europe and in Spanish American observance prevented a more serious problem. The Government has forbidden open air meetings and parades in Paris in answer to efforts of Communists there to stage a great demonstration tomorrow. Vigorous preparations were made to combat any breach in order.

Police of Berlin, where the celebration two years ago initiated serious rioting which lasted for two days will be mobilized for the day and a rigid curb placed upon demonstrations. Police in some of the Balkan countries forbade celebrations but in others permitted demonstrations under strict supervision. In Spain the day was expected to have a dual significance with celebrations smacking of patriotic fervor for the new republic. This was especially the case in Catalonia where the "commonwealth" government declared it holiday.

Observation of May Day was abolished several years ago in Italy in favor of the labor festival April 21 and complete quiet is expected there.

**RAILWAYMAN KILLED**

WINNIPEG Man., April 30. (CP) Falling under the wheels of a Canadian Pacific Railway passenger train in the yards here, Ludwig Baloli of Winnipeg, was decapitated yesterday.

# BECKETT PAYS FOR HIS CRIME

**New foundlander Hanged at Cape Breton Jail for Murdering Taxi Driver.**

**COMPOSED TO LAST.**

SYDNEY, N. S., April 30 (C. P.). — George Alfred Beckett, of Old Perlican, Newfoundland, was hanged at the Cape Breton County Jail this morning at 12.40 (Atlantic standard time) for the murder on September 22 of Nicholas Marthos, Glace Bay taxi-driver.

Thirteen minutes after Hangman Arthur Rioux released the trap Beckett's body was cut down. He was pronounced dead by Dr. C. J. Sparrow, jail physician.

The condemned man was praying in his cell when Warders Dan Brown and Hugh Philpott went to escort him to the scaffold. He was very composed throughout the short journey down the jail corridor and through a window to the death structure. Rev. Fred Friggins of the United Church was repeating the Lord's Prayer as Beckett dropped through the trap.

**SERGEANT-AT-ARMS AT 90.**

ST. JOHN'S, Nfld., April 30.—In moving an adjournment of the Newfoundland House, Sir Richard Squires, the Prime Minister, remarked the presence of Robert Walsh, a veteran who was filling the position of Sergean'-at-Arms, and who though having reached the ripe old age of 90 years, was still capable of performing the duties. Recently Mr. Walsh was called upon to fill the breach caused by the illness of Mr. Targett.

**BLOCK DESTROYED**

HAZELTON, B.C., April 30.—Fire here Wednesday wiped out a complete block in the business section causing a loss estimated at $50,000. Ten years ago fire swept over practically the same district.

The Omineca Hotel, which escaped the last serious fire, was destroyed, but all guests escaped injury.

While steadily and consistently reducing prices of foodstuffs during the recent period of lower costs and re-adjustment, Loblaw Groceterias have been constantly adopting more efficient methods of handling foodstuffs in order to lower the spread between Producer and Consumer.

Our cost of handling merchandise is the lowest in Canada so that our customers are daily deriving the benefit of low overhead and increased efficiency in lower prices of quality foods.

Reduced overhead has not been obtained at the expense of our employees who have always been and still are, paid on the highest scale of wages of any grocery organization in Canada.

We will continue to increase efficiency wherever possible, the benefits to our customers being reflected through still greater service and consistently lower prices.

# ARMER ELECTED C.M.A. PRESIDENT

### Convention of Ontario Division of Manufacturers' Association Concludes.

### CIVIC WELCOME.

More than seventy-five members of the Ontario Division of the Canadian Manufacturers' Association, meeting at the Empress Hotel for their annual convention, were welcomed to the city by local manufacturers and civic representatives.

The visitors, representing some of Ontario's outstanding manufacturers, toured the city at the conclusion of the meeting and visited many of the local factories.

John R. Marshall, president of the Peterborough branch of C.M.A., was chairman of the noon luncheon, and welcomed the association on behalf of local manufacturerrs. Alderman M. E. Turner, chairman of the Reception Committee of the City Council, officially welcomed the guests on behalf of the Council and the city as a whole.

J. C. Armer, of the Dominion Forge and Stamping Company, Ltd., Walkerville, it was announced by the Appointment Committee, had been elected chairman of the Ontario Division for the year. Mr. Armer succeeds George E. Kerr, of the Canadian Westinghouse Company, Ltd., and C. A. Moore, of Moore-Bell Company, Stratford, is this year's vice-president.

Others forming the executive committee are:

F. M. Morton, Hamilton; A. L. Page, Hamilton; F. Bull, Oshawa; R. L. Pollock, Galt; L. T. Sylvester, Port Hope; George Akehurst, Brampton; C. S. F. Mitchell, Toronto; F. C. Barkey, Toronto; Leo E. Charles, Toronto; W. B. Champ, Hamilton; Albert E. Lloyd, Wingham; L. E. Messinger, Scarboro Junction; C. R. Conquergood, Toronto; A. J. Dickey, Toronto; A. Ross Robertson, Toronto; J. R. Marshall, Peterborough; Robert Abbott, Peterborough; E. Townsend, Kingston; T. J. Robertson, Niagara Falls; W. O. Tudhope, Orillia; J. E. Riffer, St. Catharines; Samuel L. Trees, Whitby; S. Lunenfeld, Galt; T. L. Hay, Woodstock; T. M. Webster, Belleville; J. M. Scott, Toronto; J. M. Scott, Toronto; F. Sturgeon, Toronto; C. J. Ingles, Toronto; William Home, Toronto; W. A. Hamilton, Toronto; C. F. Graham, Toronto; Clifford Meadows, Toronto; E. A. Sandham, Toronto; T. G. Jeffrey, Toronto; Henry H. Cantelon, Windsor; F. J. Carew, Lindsay; R. R. Corson, Toronto; A. E. Hatch, Toronto.

**Executive Council.**

A. T. Thom, Waterloo; Ellis H. Jones, St. Catharines; H. A. Brown, Oshawa; D. M. Wright, Stratford; T. H. Watson, Galt; E. M. Thurber, Port Hope; W. C. Franz, Sault Ste. Marie; J. L. **Representatives to Western Fair, London.**

Col. Ibbotson Leonard, London; A. W. White, London.

**Representatives to Central Canada Exhibition, Ottawa.**

R. P. Sparks, Ottawa; C. A. Connor, Ottawa.

## Run-Down, Weak, Nervous?

To have plenty of firm flesh and the ability to do a big day's work and feel "like a two-year old" at night, you must eat three good meals a day, relish your food and properly digest it. If you can't eat, can't sleep, can't work, just give Tanlac the chance to do for you what it has done for millions.

Mrs. Arthur Calouette, 5307 Chambord St., Montreal, writes: "Stomach trouble made me so weak and miserable that life was almost unbearable. TANLAC has not only relieved indigestion, weakness, nervousness—it has increased my weight twelve pounds and given me the best of health. I cannot praise TANLAC enough."

Tanlac is wonderful for idigestion and constipation—gas, pains, nausea, dizziness and headaches. It brings back lost appetite, helps you digest your food, and gain strength and weight. It contains no mineral drugs; it is made of roots, barks and herbs, nature's own medicines for the sick. The cost is less than 2 cents a dose. Get a bottle from your druggist. Your money back if it doesn't help.

## Yimmie Yohnston's Job.

MILLBROOK, April 30 (Examiner Correspondence)—An intriguing mystery story, that held the unwavering attention of the audience throughout its three acts, was cleverly presented on Monday evening in the basement of Saint Andrew's United Church by the Dramatic Club of Knox Church, Peterborough, under the title, "Yimmie Yonson's Yob," the latest play to be prepared by these capable young people.

The cosy living-room at the Kent farmhouse makes the setting for the entire play, and with commendable enterprise, the Dramatic Club has had portable scenery prepared with correct entrances, windows, etc., that is taken wherever the entertainment is to be given, thus adding to the attractiveness of the story and the convenience with which it is presented.

The play was given locally under the auspices of the Young People's Society of Saint Andrew's Church, the pastor, Rev. W. W. Jones, B.D., acting as chairman and extending cordial welcome on behalf of himself and his people to the visiting players.

The story of the play has a compelling human interest, and the Knox Church amateur actors are to be congratulated on the fact that each character seemed to actually live in his or her separate role, the everyday individuality being forgotten in the demands of the part undertaken.

As The Examiner carried a complete account of the plot of the play following its initial presentation in Peterborough, repetition will not be necessary. It can however safely be said that a ghost that 'walks' to the accompaniment of a thunder storm, a woman's scream, and a dog's weird howling, with the baffling mystery of the identity of "Yimmie Yonson from Mannesota" the restoration of a son wrongfully accused of robbing his father, and thought a suicide by drowning in consequence, with the interwoven action, will never fail to make strong appeal to any audience.

Music between the acts was furnished by a male quartette, Messrs. Kenneth McCannon, Don Charlton, Gordon Morrison and William Wedlock, whose opening chorus, "Hello Everybody, Glad to See You Here," struck the right keynote for the evening's entertainment, their selections being: "She's Just the Girl For Me," "In The Moonlight," Mrs. Kenneth Baker assisting with this number and being heard in duet with Mr. McCannon in "When Your Hair Has Turned to Silver." A solo "Dawn of To-Morrow," by Mrs. Ernie Johnston, was also much enjoyed. Miss M. Pollock presided at the piano.

The caste of characters was as follows: Yimmie Yonson from Mannesota; Pal (a detective), Don Gillespie; Frank, (the clerk), Norman Hughes; Micky, (the farm hand), Alex Wedlock; Mr. Kent (the father), William Stevens; Belle, (the Kent's adopted daughter), Miss J. McCannan; Sylvia (the Kent's niece) Mrs. Ken Baker; Peg (the cook), Miss F. Wedlock; Kittie (the helper), Miss V. Gatfield; Mrs. Kent (the mother), Miss L. Campbell; Robert Kent (the son), J. L. Browne.

Mrs. M. MacLachlan is the directress of the Dramatic Club, and G. W. Davis was stage manager on Monday evening. Members of the Y.P.S. served refreshments at the close of the entertainment, and a social hour was enjoyed with the visiting young people and their executive.

## OBITUARY

**MRS. WILLIAM QUINN**

The death of Mrs. William Quinn which occurred on Friday, April 24, following a short illness removed a highly respected citizen who had resided here the greater part of her life. For the past few years she has resided in Smith township and was a faithful and devoted member of the Lakefield Baptist Church.

The funeral service which was held at the home of her daughter, Mrs. E. V. Warne, 607 Water street was conducted by Rev. E. J. McCormick, of Lakefield and was very largely attended as her death following such a short illness was a shock to her many friends and neighbors. The impressive service included two of her favorite hymns and a favorite scripture, the 90th Psalm.

Left to mourn her loss are two daughters, Mrs. D. A. Sands of Victoria, B.C.; Mrs. E. V. Warne of this city and three sons, Ralph of Vancouver; Harold of Buffalo, N.Y.; and Theodore W. of Havelock. Also two sisters, Mrs. Robert Henderson and Mrs. John Balfour of Carberry, Manitoba and three brothers, Archie, William T. and John Young of Smith. Her husband predecased her four years ago.

## Lad Badly Burned Trying To Eat Lye

HAVELOCK, April 30 (Examiner Correspondence). — Gordon Remmington, two-year-old son of Mr. and Mrs. Harold Remmington, of Cordova Mines, was badly burned about the mouth and face on Wednesday afternoon about four o'clock when he attempted to eat the contents of a can of Gillette's lye, which he found in his home. The little fellow ran screaming to his mother, who immediately called Doctor Thompson of Marmora. Fortunately he had not swallowed any of the lye, and the burnes were confined to his mouth and face.

## Hawks Sets London-Rome Record

This photograph, carried back to London by Captain Hawks and radioed from there to New York, shows Hawks being greeted by Italian aviators at Centocello Airport, outside Rome, after his flight from London to Italy, a distance of 90 miles, at an average speed of 167 miles an hour.

## IF YOUR EARS RING WITH HEAD NOISES

If you have catarrhal deafness or head noises go to your druggist and get 1 ounce of Parmint (double strength), and add to it ¼ pint of not water and a little sugar. Take a tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucous stop dropping into the throat. It is easy to prepare, costs little, and is pleasant to take. Anyone who has catarrhal deafness or head noises should give this prescription a trial.

## IVANHOE W.M.S.

### Meeting With Ladies' Aid Held at Home of Mrs. H. Thompson—Allocation Settled.

IVANHOE, April 30 (Examiner Correspondence) — The regular monthly meeting of St. Andrew's W.M.S. and Ladies' Aid of West Huntingdon was held at the home of Mrs. Harry Thompson Thursday afternoon April 23.

The meeting was opened with the devotional excercises, conducted by several of the members.

The roll call, 'Hope,' was responded to, minutes and correspondence were dealt with and reports of the various committees were received.

The allocation for this year is to clothe a girl eleven years old, from one of our western Indian schools.

Mrs. R. Haggerty and Mrs. Morley Haggerty had charge of the Study Book, each taking part in the second chapter.

The meeting closed with singing "Blest be the tie that Binds," and Rev. Reid closed with prayer.

A liberal collection was received. Lunch was served by the luncheon committee and a social half hour spent.

## Toronto Optometrists Offer $20 Spectacles For $2.98

### Send Them on 10 Days' Trial

Toronto, Ont.—The Dr. Ritholz Optical Company have devised a new comfort spectacle that will not break or tarnish and leaves no mark on the nose or face. These spectacles are really beautiful, give wearer a distinguished appearance and will enable anyone to read the finest print, see far or near. The Doctor offers to send a pair on 10 days' trial to any reader of this paper with the understanding that if they are not amazed and delighted and do not think the spectacles he offers at $2.98 equal to those sold elsewhere at $20, they will be out nothing. Just send name, address, and age to-day to the Dr. Ritholz Optical Co., Suite HDC-805, 29 Melinda St., Toronto, Ont., for a 10-day trial and learn how you may get them without cost, also new catalogue free.—(Adv.).

catalogue free.—(Adv.).

# CATTLE, GRAIN, PRODUCE

**TORONTO LIVESTOCK**

TORONTO, April 30.—There was a fair demand for butter on the local market yesterday, prices being steady at the week's decline to 22c for No. 1 creamery solids and 21c for No. 2. Supplies on hand were fairly heavy, however, and were not clearing quite as fast as brokers desired. But it was the first time prices were steady since last week and it was the opinion of most that the bottom had been reached.

**Cream**

Cream prices held firm, but with butter selling at 4c below the price being paid for No. 1 butterfat, there will likely be a substantial reduction to-day or on Friday. Cream buyers intimated early in the week that they would have to strike a new range, more in line with butter prices, but yesterday there was no word of reductions.

**Cheese**

Prices for new cheese, handled by brokers, were unchanged from those quoted during the past few days, the cheese market, also, seeming to have struck bottom. Brokers offered new large at 10½c, twins at 10¾c and triplets at 11c. Wholesalers were evidently getting some of the cheaper cheese and quoted lower prices to the retailers to the extent of 1c per pound. They offered the trade new large at 11½c, twins at 11¾c and triplets at 12c.

**Eggs**

All egg prices were steady with previous reports, but brokers were of the opinion that the market was a little steadier. Country shippers were offered 17c for extras, 15c for firsts and 12c for seconds, delivered, ungraded; cases returned. Brokers were offering graded eggs, in free cases, at 19c for extras, 17c for firsts and 15c for seconds and retailers were able to secure extras in cartons at 24c, extras loose at 22c, firsts loose at 20c and seconds at 17c. Some storing was reported, but not in sufficient quantity to cause to advance in prices.

MONTREAL, April 30.—Prices of eggs, butter, cheese and potatoes were unchanged on the produce and dairy market here yesterday.

Carlot price of Ontario and Prairie fresh eggs held at yesterday's levels, extras being quoted at 20c to 21c, firsts at 18c to 19c, and seconds at 16c to 17c. British Columbia fresh extras, in carlots were quoted at 21c to 22c, firsts at 19c to 20c, and seconds at 17c to 18c a dozen. Quotations to retailers were unchanged. Receipts were 2,859 cases.

On the butter market, No. 1 finest fresh and regraded was quoted at 22½c to 22¾c a pound, and to retailers solids were 24c to 25c, and prints 25c to 26c a pound. Receipts were 254 boxes.

Ontario colored cheese were 9¾c to 10c a pound and receipts were 21 boxes.

New Brunswick Green Mountain potatoes, in carlots, were quoted at 80c per 80-pound bag, and to retailers 90c per 80-pound bag. New Florida No. 1 potatoes were $9 per barrel, and No. 2 $7.50 per barrel.

**TORONTO LIVESTOCK**

TORONTO, Ont., April 30.—(CP)—Cattle receipts 683. Cattle sold readily with prices steady at Tuesday's decline. Good to choice butchers sold from $5.75 to $6.00 and a few heavies brought $6.25 to $6.50. Fed calves sold mostly from $7.00 to $7.50. Good butcher cows sold steady at $4.00 to $4.50.

Quotations:

Steers up to 1,050 lbs., good and choice, $5.75 to $6.00; medium, $5.25 to $5.75; common, $4.50 to $5.25; steers over 1,050 lbs., good and choice, $6.00 to $6.50; medium, $5.50 to $6.00; common, $5.00 to $5.50; heifers, good and choice, $5.75 to $6.00; medium, $5.25 to $5.75; common, $4.50 to $5.00; fed calves, good and choice, $7.25 to $7.75; medium, $6.00 to $7.00; cows, good, $4.00 to $4.50; medium, $6.00 to $7.00; cows, good, $4.00 to $4.50; medium, $3.50 to $4.00; common, $3.00 to $3.50; canners and cutters, $1.00 to $2.00; bulls, good, $3.50 to $4.00; common, $2.75 to $3.25; stocker and feeder steers, good $4.75 to $5.00; common, $4.00 to $4.50; stock cows and heifers, good; milkers and springers, $40.00 to $80.00.

Calf receipts 484. Calves sold $1.50 lower for the week selling at $6.50 to $7.00. Common calves were steady at $4.00 to $4.50.

Quotations:

Good and choice veal, $6.00 to $7.00; common and medium, $4.00 to $5.50; grassers, $3.50 to $4.00.

Hog receipts 1109. Hogs were unsettled with bids 25c lower at $7.25 f.o.b. for bacons or $8.00 off car.

Quotations—None.

Sheep receipts, 151. Some fair quality lambs brought $10.25 per hundredweight. Spring lambs opened steady at $5.00 to $5.50. Good light sheep sold at $5.50 per hundredweight.

Quotations—Good ewe and wether lambs, $10.25 to $11.50; medium $9.50 to $10; bucks, $8.50 to $9.00; culls, $7.00 to $9.00; good light sheep $4.50 to $5.50; heavies, $4.00 to $4.50; culls, $1.00 to $3.50.

**BUFFALO LIVESTOCK**

EAST BUFFALO, N.Y., April 30.—(CP)—Hogs 1,500; rather slow; weak to lower; some bids off more; desirable 160-20 0lbs. 7.85; sparingly 7.90; 210-220 lbs. quoted 7.60-7.75; few 230 lbs. sold 7.50.

Cattle 125; cows fully steady; cutter grades 2.50-4.00.

Calves 200; vealers firms; bulk better lots 9.00; common and medium 5.00-7.50.

Sheep 1,00; lambs weak; demand only fair; near choice clippers 9.65; some held higher; few spring lambs 12.25; shorn ewes 4.50 down.

District notes d e-,et .

Noon Edition

**LIVERPOOL QUOTATIONS**

LIVERPOOL, April 30.—(AP).—Closing—Wheat, Spot No. 1 Manitoba, 88½; No. 2, 27¼.

Hams—Long cut, 12 to 16 lbs., 78s; short cut, 12 to 14 lbs., 72s 6d; short cut, 12 to 14 lbs., 72s 6d; extra skinned, 98s; picnics, 5 to 8 lbs., 50s 6d.

Bacon—Cumberland cut, 32 to 40 lbs., 66s 6d; Canadian Wiltshires, 94s; clear bellies, 14 to 20 lbs., 59s; long clear middles, 28 to 35 lbs., 73s 6d; short clear backs, 20 to 25 lbs., 68s 6d.

Shoulders—Square, 12 to 16 lbs., 56s.

Petroleum—No. 1, 11d; No. 2, 1s.

Rosin—Types F and G, 14s 6d.

**CHICAGO GRAIN.**

CHICAGO, April 30. — Notwithstanding the handicap of a weak stock market, wheat prices scored good gains yesterday, but selling ascribed to Omaha sources brought about a late reaction. Persistent dry weather over the spring wheat area in the United States and Canada, with increasing likelihood of material curtailment of 1931 wheat production in Canada, stimulated demand for wheat. There were also forecasts of a slashing reduction of 58 cents a bushel in Germany's wheat import duty within a week.

Wheat closed irregular, ½c lower, to 3-8c to ½c higher; corn 3-8c off, to ½c up; oats at 1-8c decline to 3-8c advance; and provisions showing 5c setback.

**WINNIPEG GRAIN.**

WINNIPEG, April 30. — Exhibiting a nervous tendency, and reflecting disappointment in foreign sales, the wheat market closed an erratic session with values ¾c to ½c lower than Tuesday's close.

May closed at 59⅞c, down ⅝c; July at 61⅝c, was ¾c lower; while the October future dropped an even ½c to close at 63¾c.

Overnight export sales were estimated at less than 500,000 bushels. Offerings were extremely light, hedging sales being well absorbed.

Cash wheat trading met a fair demand. Spreads, however, were unchanged. Sales of oats featured the coarse-grains section, with values moving within a narrow range.

Futures:

| Wheat— | Open | High | Low | Close | Prev. Close |
|---|---|---|---|---|---|
| May | .61 | .61¼ | .59½ | .59⅝ | .60¾ |
| July | .62½ | .62¾ | .61⅝ | .61⅝ | .62 |
| Oct. | .65 | .65 | .63⅝ | .63¾ | .64¾ |
| **Oats—** | | | | | |
| May | .28¼ | .28⅝ | .27⅝ | .27⅝ | .28⅛ |

## FARMERS' MEETING HERE ON SATURDAY

### Right-of-way Association Gathering Strength.

Farmers of the district who are interested in the Right-of-Way Association and those who have already joined it are reminded of the meeting which has been called for Saturday afternoon at the Court House at 2 p.m. Promoters of this Association are urged to attend this meeting in large numbers. It is understood that petitions or resolutions are to be submitted to the Hydro-Electric Commission, and to have the greatest force they should be backed by the united body of property owners who are affected by the Hydro power lines which are being projected through the counties in this district.

## Warsaw

The Ladies' Aid of the Presbyterian Church of Warsaw entertained the cast of "Wild Ginger" on Saturday evening, April 25th. At 7.30 p.m. the guests enjoyed a sumptuous banquet at King's Hotel, Peterborough. Afterward they were entertained at the Capitol Theatre. The picture, "Reducing," so full of humour, was a very pleasant addition to their banquet.

The guests were: Mr. and Mrs. Theo Douglas, Misses Della Tucker, Jean Munro, Dorcas Lloyd, Ellen Douglas, Mary Rose, Anna McMurray, Florence Cameron and Messrs. Gerald Payne, Gerald Crowe, Ralph Selby, Arnold Bell, Elias Thompson, Herbert Thompson. All of the guests went home feeling that they had had a very pleasant evening.

The play "Wild Ginger" has been presented at the following places: Warsaw, Lakefield, Young's Point, Bethel, Cottesloe, Selwyn and Keene. At all of these places it has been received with hearty applause.

The rains have done much to help the farmer. The meadows were needing rain, the little drifts of snow, with cloudy weather protected the fall grains and meadows from the frosts. Buds have not expanded since Sunday; asparagus tips showing on Thursday of last week. The woods were white with spring flowers.

## Marmora

Messrs. C. H. Buskard, A. McKenzie, W. J. Cottrell, and M. Lavender attended Madoc Lodge, A.F. and A.M. 48, on Tuesday evening on the occasion of the visit of Right Wor. Bro. D. B. McClung, D.O.G.M. of Prince Edward District.

Born—on April 23, 1931, to Mr. and Mrs. Donald Shannon, of Marmora Township—a son (Donald James).

Born — on Tuesday, April 28, 1931, to Mr. and Mrs. C. A. Lummiss — a daughter.

Crowded halls witnessed the showing of "Evangeline' at Marmora and Deloro.

The Karry-On Club of Bannockburn are presenting the play "The Colonel's Maid' 'at the Town Hall on Tuesday evening, under the auspices of St. Paul's Ladies' Guild.

Mrs. W. R. Gray, who has been quite ill, is making slow improvement.

Born — on Wednesday, April 29, 1931, to Mr. and Mrs. C. Cook, Marmora Township—a son.

Mr. and Mrs. Lloyd Williams left on Monday on a visit to Tara.

Make war on WOODCHUCKS

### THE FISHING SEASON OPENS.

There has been a good deal said recently about illegal fishing.

It is a pleasure, therefore, to-day to strike a happier note.

The real sportsman who waits until the law tells him that he can enjoy his favorite sport without breaking the regulations is to have his innings now.

To-morrow the trout fisherman may whip his favorite stream; to-morrow, too, the angler who likes to dangle his plug before the nose of the hungry pickerel may indulge in the sport he prefers, happy in the knowledge that he is not a law-breaker.

In other words, the open season for trout and for pickerel begins to-morrow; those who prefer the hard-hitting muskie or the fighting black bass will have their turn later on.

The opening of the fishing season is a happy augury. It, like the beginning of the baseball campaign, is a sign that summer is just round the corner. It is a forerunners of the happy out-of-door playtime that balances the cold winter months for the people of Canada.

There may not be many fish caught to-morrow—fishing is that way sometimes—but there will be plenty of wholesome exercise and of life-giving recreation.

### REMEMBRANCE DAY.

The setting apart of November 11 as a national holiday on which the Canadian people will unite in remembering the end of the war and the service rendered by Canada's soldiers during the great conflict will meet with a large measure of approval throughout the country.

It has been strongly felt that the anniversary of the signing of the armistice should be properly observed in Canada, and that the practice of combining Armistice Day and Thanksgiving on the Monday nearest to November 11 detracted from the general celebration of the occasion and took away a great deal of its significance.

The House of Commons has decided that henceforth the actual anniversary will be a holiday throughout Canada, and at the happy suggestion of C. H. Dickie, member for Nanaimo, B. C., has also resolved that the anniversary of the end of the war will be known as Remembrance Day.

Both changes will be approved by most Canadians, The Examiner feels sure.
